Section 7-15

27. Mr Rae - Resolution - This House resolves as follows:

that

Ontario is committed to a major reform of our social security system.

But this House believes that unilateral changes to Canada's network of social programmes, most of which are matters either of exclusive provincial jurisdiction or are under shared federal-provincial jurisdiction, are not compatible with cooperative federalism.

Further, this House accepts, on behalf of the people of Ontario, the responsibility under the Equalization programme, as set out in Section 36(2) of the Constitution Act of Canada, to share our wealth with other Canadians. But we insist upon the right of Ontarians to a fair share of federal expenditure, which residents of Ontario do not now receive.

Therefore this House insists that the process of reform for Canada's social and labour market programmes must be based on the following five principles:

1. Ontario supports the need for change and improvement in our social programmes and in the fiscal and practical arrangements between the two levels of government. This reform should focus upon work, training, and the needs of children.
2. There must be no fiscal offloading from the federal government to the Provinces.
3. There must be no discriminatory treatment against Canadians living in Ontario, and the existing discrimination must stop.
4. Any reform must reinforce, and not undermine, Canada's record as a compassionate society.
5. Any reform must be the product of genuine federal-provincial negotiations, and joint decision-making, and not the result of unilateral federal action.

PRIVATE MEMBERS' MOTIONS

1. Mr Drainville - Resolution - That, in the opinion of this House, since the Government of Ontario has not consulted with the people of Ontario regarding the expansion of gambling in the province, they should initiate forthwith a process of public hearings to ascertain the will of Ontarians regarding this issue.

2. Mr Drainville - Resolution - That, in the opinion of this House, since many scholarly studies have been written proving that gambling in its many forms is a regressive tax that impacts significantly and negatively on poor and lower income citizens, the Government of Ontario should cease all attempts to expand gambling in the province.

3. Ms Poole - Resolution - That, in the opinion of this House, since in an increasingly violent society, we as legislators have publicly condemned violence against women and children; and

since slasher films brutally and graphically depicting the torture, mutilation and death of young women are now being distributed throughout Ontario in neighbourhood video stores; and

since slasher films can be sold and rented with no indication of their content or classification; and

since the Government of Ontario does not have a policy, nor enforcement mechanisms, in place to effectively deal with slasher films:

therefore the Government of Ontario should immediately complete its review of the mandate, jurisdiction, enforcement mechanisms and classification system of the Ontario Film Review Board, including the following recommendations:

that the Theatres Act which currently requires that all films sold or rented in Ontario be reviewed and classified by the Ontario Film Review Board, be exercised to its fullest;

that inspectors be hired to monitor videos which are sold or rented in Ontario to ensure all films have been reviewed, classified and approved by the Ontario Film Review Board, with particular concern for the well-being of our children;

that substantial and appropriate penalties be imposed on unlicensed distributors, and on retailers who carry videos not reviewed, classified and approved by the Ontario Film Review Board;

that stickers showing classification by the Ontario Film Review Board be attached to all videos for sale or rent in Ontario, both on the videos and on their covers, together with a requirement that an explanation of these classifications be displayed to the public wherever these videos are rented or sold;

Section 7-22

that the rating system be strengthened and the guidelines set out in the Theatres Act be strictly adhered to by the Ontario Film Review Board, to ensure that films which blatantly celebrate violence are considered unacceptable in accordance with community standards.

Upon completion of this review, the Government of Ontario should enact policy initiatives, and, if necessary, introduce legislation to ensure the protection of women and society against the proliferation of slasher films in this province.

4. Mr Cleary - Resolution - That, in the opinion of this House, since the Government of Ontario has not adequately addressed the effects of the recession on employment opportunities in Eastern Ontario; and

since over 3,000 jobs have been lost in the Cornwall area during the past two and a half years; and

since the Ontario Ministry of Labour cited the local unemployment rate to be between 30 and 40 percent; and

since an estimated 40 percent of Cornwall's population is dependant upon some form of social assistance; and

since the NDP Government of Ontario reneged on a 1990 commitment to relocate a government agency, branch or ministry to the Cornwall area; and

since the NDP Government of Ontario reneged on a 1990 commitment to construct a substance abuse treatment centre in the City of Cornwall; and

since Cornwall was completely overlooked in the Ontario Development Corporation's most recent announcement of job-creation loans worth more than \$5 million; and

since the Government of Ontario announced in 1990 that the City of Cornwall would benefit from the relocation of an Ontario ministry office; and

since construction of a new Government of Ontario building will begin in the City of Cornwall shortly; and

since this Government of Ontario building has the potential to accommodate a ministry;

The Government of Ontario should therefore act immediately to create new and permanent jobs for the Cornwall area by locating one of the three recently announced Crown Corporations in the Government of Ontario building in Cornwall. April 26, 1993.

5. Mr Grandmaître - Resolution - That, in the opinion of this House, since for years a number of irritants and obstacles have hindered the free movement of people, goods and services from one side of the Ottawa River to the other in the National Capital Region; and since the National Capital Region could become a national model of economic integration reflecting the cultural duality of Canada; and since, at the present time, the Regional Municipality of Ottawa-Carleton and the Communauté urbaine de l'Outaouais have struck a joint committee for the purpose of breaking down existing barriers; and since the joint committee has already passed two resolutions, one for purchasing on an unrestricted, competitive basis, and one for personnel recruitment without regard to place of residence; and since furthermore, the committee has launched an in-depth study into the situation in the construction industry with a view to alleviating the sources of frustration in that industry, as well as a project for identifying inter-provincial barriers that need to be eliminated; Therefore, the Minister of Intergovernmental Affairs should take steps, including setting up discussions with the Minister's Quebec counterpart, so that the positive initiatives undertaken at the regional level can be followed up at the provincial level at the earliest possible opportunity.

Carried on division May 13, 1993.

5. M. Grandmaître - Résolution - Que, de l'avis de cette Chambre, étant donné que depuis des années il existe des frictions et des obstacles qui constituent autant d'entraves à la libre circulation des gens, des biens et des services d'un côté à l'autre de la rivière des Outaouais dans la région de la capitale nationale; et que la région pourrait devenir un modèle national d'intégration économique reflétant la dualité culturelle du Canada; et que, à l'heure actuelle, la municipalité régionale d'Ottawa-Carleton et la Communauté urbaine de l'Outaouais ont mis sur pied un comité conjoint dans le but de faire disparaître les barrières existantes; et que, déjà, le comité a adopté des résolutions, l'une pour une politique d'achat sur une base ouverte et concurrentielle et l'autre pour le recrutement du personnel sans égard au lieu de résidence; et que, de plus, le comité a commandé une étude approfondie de la situation dans l'industrie de la construction pour éliminer les frustrations historiques dans ce domaine et qu'il a également lancé un projet d'identification des barrières interprovinciales devant être détruites; Par conséquent, le ministre des affaires intergouvernementales devrait prendre des mesures, y compris entamer des discussions avec son homologue du gouvernement du Québec, pour que les initiatives positives lancées au niveau régional soient poursuivies au niveau provincial le plus tôt possible.

Adoptée par la mise aux voix du 13 mai 1993.

Section 7-24

6. Mr Huget - Resolution - That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and
- 2) recognizing that different legislative and regulatory requirements and different policies and guidelines have been established under each of these statutes to regulate the delivery of social assistance in the Province; and
- 3) recognizing that in the existing administrative frameworks established under each of these statutes, social assistance is delivered by different levels of government; and
- 4) recognizing that the existing legislative and administrative frameworks are complex and cumbersome, and cause confusion and duplication; and
- 5) recognizing that the Advisory Group on New Social Assistance Legislation recommends in its May 1992 report entitled "Time for Action" that social assistance in Ontario be delivered by only one level of government and be governed by only one piece of legislation;

the Government of Ontario should consider replacing the General Welfare Assistance Act and the Family Benefits Act with one new piece of legislation governing the delivery of social assistance in the Province; the new legislation should have a preamble and a purpose clause that would state the underlying values of the administrative system and the fundamental objectives of social assistance; and

the Government of Ontario should consider replacing the existing administrative frameworks with a new, unified single-tier administrative system where social assistance would be delivered by only one level of government; and

in keeping with the May 1992 First Nations' Project Team Report entitled "Principal Report on New Social Assistance Legislation for First Nations in Ontario", any negotiations between the Government of Ontario and the First Nations on the administration and delivery of social assistance should be done in recognition of the Statement of Political Relationship, signed on August 6, 1991 by the Government of Ontario and First Nations representatives.

Carried May 13, 1993.

7. Mr Sterling - Resolution - That in the opinion of this House, since all interprovincial trade barriers should be removed as soon as possible;

And since the Province of Ontario has been negotiating with the Province of Quebec for over 15 years to allow equal access to construction jobs and construction contracts in both provinces;

Section 7-25

And since Quebec workers and Quebec contractors have free access to the Ontario construction market;

And since Ontario workers and Ontario contractors are not allowed free access to the Quebec construction market;

And since negotiation has proved fruitless and the patience of the people of Eastern Ontario is exhausted;

Therefore, Ontario should declare a Quebec-Ontario Construction Employment and Equity Policy which would include the following statement as a condition of tendering for Quebec bidders:

That, until the preferential restrictions in Quebec currently applying to non-Quebec businesses and labour are repealed, only those having their principal place of business in Ontario be allowed to bid unless specifically invited.

That, the term "principal place of business" will be interpreted to mean the principal establishment from which the business of a firm, as it relates to the tender, is directed and where the supervisory staff and equipment are ordinarily located.

That, the coverage of the policy will include for Construction:

Prime contracts, sub-contracts, goods supplied, goods supplied and installed, services within these contracts;

That, there be a term inserted in all construction contracts that a construction contractor or subcontractor must give hiring preference to an Ontario resident over a Quebec resident;

That, the Ontario Government insist these conditions be included in any construction contract for which it is providing partial or full funding;

That, this policy be immediately terminated when Ontario construction workers and contractors have equal access to the Province of Quebec.

Carried on division May 6, 1993.

8. Mr Farnan - Resolution - That, in the opinion of this House,
 1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
 2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
 3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and

Section 7-26

4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,
 - a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
 - a) give Canadian distributors open access to independently produced commercial films; and

Section 7-27

- b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
- 4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries.

9. Mrs Witmer - Resolution - That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

Section 7-28

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and
2. Follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations.

10. Mr Drainville - Resolution - That, in the opinion of this House, since academic studies have concluded that three to four percent of North Americans are potential compulsive or pathological gamblers, and

since the Government may, by making gambling in the province more accessible to these persons, increase the number of gambling addicts to over 400,000 persons,

therefore, the Government of Ontario should, in the best interests of its citizens, proceed no further with the legislation to expand gambling in the province.

11. Mr Drainville - Resolution - That, in the opinion of this House, since the Customs Officers in the Windsor area have alerted the authorities to the increasing violence at the border crossings, and

since the Provincial Government speculates that 10,000 persons a day will go to Windsor from Detroit, and

since casinos are attested by many competent authorities to be a magnet for crime of every kind,

therefore the Government of Ontario, recognizing the potential negative results of establishing a casino, cease all attempts to expand gambling in the province.

12. Mr Drainville - Resolution - That, in the opinion of this House, since no amount of money generated by gambling will offset the costs to society, and

since social costs are generated by problem gamblers and are measured in lost productivity at work, stolen money, unpaid taxes and the break-up of families,

therefore the Government of Ontario should be concerned for the welfare of its citizens and withdraw its legislation to establish casinos and expand gambling in Ontario.

Section 7-29

13. Mr Callahan - Resolution - That, in the opinion of this House, since the Government of Ontario intends to pass Bill 90, An Act to amend the Planning Act and the Municipal Act with respect to Residential Units and Garden Suites, and

since the effect of this Act will be to effectively rezone residential properties and increase density without the protection of the planning process which allows public participation and decision-making by municipal officials who are accountable to the public, and

since the Municipality of the City of Brampton and many other municipalities have already incorporated within their official plans a commitment to the creation of 25% affordable housing pursuant to the policy of the former Liberal government, and

since the Liberal Party recognizes in these difficult economic times that with the high cost of housing, alternative accommodation of an affordable nature is required, as evidenced by the former Liberal government's direction for "granny flats" and specific levels of affordable housing, and

since the action of this government in this Act is to effectively bypass the local planning process with its public participation, and by edict, extract value from taxpayers by expropriating property without equitable compensation, contrary to every rule of equity, and

since the Liberal Party supports dwelling units being allowed where zoning is consistent and such uses can be appropriately integrated with the host neighbourhood or in future developments where the integrity of the planning process is maintained and the public is aware of what zoning is in place,

therefore Bill 90 should be withdrawn or amended by the Government of Ontario to ensure the property rights of the citizens of Brampton and other Ontario communities are protected.

14. Mr Murdoch (Grey-Owen Sound) - Resolution - That, in the opinion of this House, since the Conservation Land Tax Rebate has been cancelled making it impossible for some Conservation Authorities to pay their taxes, and

since the government is asking Conservation Authorities to accept funding cuts which are far more severe than those foisted on other sectors of society, and

since the Association of Conservation Authorities of Ontario have offered a Blueprint for success which would save Ontario's taxpayers an estimated 100 million dollars, and

since the future of our wetlands, flood plains, and conservation areas are threatened by this government's fiscal mismanagement,

Section 7-30

therefore the Conservation Land Tax Rebate should be immediately reinstated to Conservation Authorities and the Government should seriously consider and implement the concepts outlined in the Blueprint for Success.

15. Mrs MacKinnon - Resolution - That, in the opinion of this House, since promoting trade, investment and job growth is the leading priority of the Government of Ontario and that the North American Free Trade Agreement is, on balance, not in the best interests of the province because this Agreement:-

1. will cause net job loss in Ontario;
2. will apply downward pressure on environmental standards;
3. will apply downward pressure on labour standards;
4. makes no mention of labour adjustment for workers and since the Federal labour adjustment assistance remains inadequate because of the job losses caused by the FTA;
5. encroaches into more areas of provincial jurisdiction, and will limit Ontario's ability to implement its economic and social policies and because the deal intrudes on more areas of provincial jurisdiction than previous trade agreements, such as regulation of investment, financial services and standards;
6. will not end American trade harassment;
7. will treat Canadian and Mexican energy reserves differently, and
8. will make the devastation of the FTA worse;

Therefore, this House urges the Government of Ontario to oppose the implementation of the North American Free Trade Agreement by all possible means.

16. Mr Drainville - Resolution - That, in the opinion of this House, since many American gambling companies are attempting to break into the Canadian market by bidding on managing the Windsor Casino, and

since American gambling interests frequently have linkages with organized crime even to this day,

therefore, the Province of Ontario should proceed no further with its plan to establish a casino.

Section 7-31

17. Mr Drainville - Resolution - That, in the opinion of this House,

- 1) since families are made more emotionally and economically vulnerable by the operation of various gaming and gambling ventures; and
- 2) since the people of Ontario did not give a mandate to the New Democratic Government to introduce casino gambling; and
- 3) since the citizens of Ontario have not been consulted on this particular Government initiative,

therefore, the Government of Ontario should cease all means of establishing gambling casinos by Regulation and that appropriate legislation be introduced into the Legislative Assembly along with a process which includes significant opportunities for public consultations and full public hearings.

18. Mr Drainville - Resolution - That, in the opinion of this House,

since the CCF and the NDP have traditionally been against the use of gambling proceeds to fund priority government programs, and

since NDP members of the legislature have expressed themselves in opposition to the use of gambling funds to maintain essential services even up to four months before the New Democrats became the government,

Therefore, the New Democratic Party Government should cease its attempts to expand gambling in the Province of Ontario.

19. Mr Villeneuve - Resolution - That, in the opinion of this House, because the issue of the property taxation of producing farmland has become of increasing concern to farmers, as education costs have risen and as municipal service costs have increased, while over the same time farmers have not received a proportional increase in services, and that the Ontario Farm Property Tax Rebate has distorted the actual program budget of the Ministry of Agriculture and Food, and that the Fair Tax Commission's Property Tax Working Group has evaded the issue by calling the taxation of farm property a farm policy issue (as opposed to a tax issue), the Government of Ontario should, first, list the Farm Property Tax Rebate as a budget item separate from the budget of the Ministry of Agriculture and Food, and second, the Government of Ontario should initiate, with farm and municipal organizations, a thorough and public review of the taxation of producing farmland with the aim of maintaining a viable agricultural industry and family farms in Ontario.

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto.

22. Mrs Mathysen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

Since foreign magazines have already recovered their editorial costs in their home markets; and

Since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada,

Therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada.

Section 7-33

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants.

24. Mr Miclash - Resolution - That, in the opinion of this House, since the mining industry is a major contributor to the economy of Ontario through employment, development of new technology, taxes, and the community life of many Northern Ontario towns; and

since Ontario Government policies directly affect the economic, social and regulatory climate within the province; and

since the mining industry is affected by the policies and regulations of the numerous Provincial Government Ministries; and

since the efforts alone of the Ministry of Northern Development and Mines have not been enough to restore confidence within the Ontario mining community;

therefore, the Government of Ontario should co-ordinate its various labour, social, economic, and regulatory policies in order to establish a stable climate in Ontario which will encourage continued mining and exploration in Ontario.

25. Mr Daigeler - Resolution - That, in the opinion of this House, since, in December, 1992, the Bob Rae government postponed indefinitely the completion of Highway 416 between Century Road and the 401, and

since this delay breaks the promise made by the NDP Transportation Minister Ed Philip in November 1990 to honour the Liberal government's commitment towards a 1999 completion date, and

since the 416 postponement and the recent decision to charge significant fees for the Wolfe Island and Glenora ferries proves clearly that no one is fighting aggressively within the NDP government for the interests of Eastern Ontario, and

since the building of a four lane link between Ottawa and the 401 has been a transportation priority for people in Eastern Ontario since 1966 but was basically ignored by successive Conservative governments, and

since for the first time a formal commitment was made to this project and monies allocated by Liberal Transportation Minister Ed Fulton on June 12, 1989, and

since Liberal Transportation Minister Bill Wrye in a July 3, 1990 letter to Nepean M.P.P. Hans Daigeler promised the completion of Phase I by 1995 and of Phase II by 1999, and

since the quick completion of Highway 416 topped the 1990 election wish list of Ottawa-Carleton's business community, and

since, from 1985 to the fall of 1992, there were 39 deaths and 721 reported accidents on Highway 16 with 90% of them happening between Century Road and the 401, and

since area Conservative M.P.P.'s Bob Runciman, Norm Sterling, and Noble Villeneuve have failed to ask questions in the House about this matter as requested of them by the Grenville Business News in March, 1993, and

since Ottawa-Carleton Regional Council in a motion of January 13 strongly urged the Province of Ontario to stand by their commitment to complete the construction of Highway 416 from Highway 401 to Highway 417 by 1999,

therefore, the Bob Rae government should be asked to re-establish funding for the construction of Highway 416 in time for the 1999 completion date as planned by the Liberal government and confirmed by NDP Transportation Minister Ed Philip in November, 1990.

26. Mr Klopp - Resolution - That, in the opinion of this House, since the Federal Government's announcement to sell surplus Pickering airport lands will lead to major changes in ownership and possible changes in land use, and

since there is a stated Federal Government commitment to the preservation of agricultural lands, and

since there could be adverse impacts on several provincial initiatives ongoing in the immediate area, such as the Duffin-Rouge Agricultural Preserve, the Rouge Park, the Seaton community, and the Oak Ridges Moraine, and

since there has been no meaningful consultation by the Federal Government on the issues of a strategy for the airport lands, the disposal of any surplus lands, and any related infrastructure needs to service the area,

therefore, this House calls on the Federal Government to stop this premature plan to dispose of surplus Federal lands in the Pickering area until a comprehensive long-term strategy is developed for the whole federal holding, following extensive consultation with on-site tenants, owners of surrounding lands, other interested parties, local and regional governments, and the Province of Ontario.

27. Mr Marchese - Resolution - That, in the opinion of this House, since small and medium-sized businesses in Ontario created 85% of all new jobs between 1979 and 1989, employ nearly 2 million people with a payroll of \$44 billion, and are vital players in our province's economic renewal; and

since small business claims the major federally-chartered banks and provincially-regulated financial institutions unreasonably restrict access to capital for small business, creating a "credit crunch"; and

since the Bank of Canada says small bank loans - which small business rely on - declined between 1990-1992, while loans to big business increased during the same period; and

since the survival of many small businesses and the prosperity of Ontario is threatened by banks and financial institutions that are not doing their fair share of small business lending; and

since Canada's major chartered banks recorded healthy profits during this recession; and

since nearly half, or 44%, of Canada's bank deposits come from Ontario depositors, giving the Province of Ontario a direct interest in where this capital is reinvested;

therefore, this House urges the Government of Ontario to call upon the new federal Minister of Finance to convene a meeting with provincial finance ministers on the economy, at which first ministers will work to ease the credit crunch facing small business; and

Section 7-36

urge the new federal government to call a national summit meeting with banks and business representatives, to discuss small business financing; and

request the new federal government to introduce a Community Reinvestment Act - as the United States federal and state governments have - requiring all deposit-taking financial institutions to recycle a minimum portion of their loan portfolio within the communities which provided the deposits; and

support a federal Community Reinvestment Act that is structured to promote full employment by supporting small business and community economic development; and

introduce a Community Reinvestment Act in the Province of Ontario following the introduction of similar federal legislation; and

ensure that Ontario's proposed legislation to regulate provincial financial institutions removes impediments which restrict access to capital for small business, allowing Ontario's financial institutions to play a greater role in the province's economic renewal.

28. Mr Turnbull - Resolution - That, in the opinion of this House, taking note of the Government's decision to require the public disclosure of compensation paid to executives of companies which are publicly traded in Ontario; and

believing that the Government of Ontario should apply the same standards of accessibility and accountability to its own operations that it applies to individuals and companies in the private sector;

this House urges the Government to immediately introduce legislation necessary to provide for the disclosure annually in the Public Accounts beginning with the Public Accounts for the 1993-94 fiscal year of the following information:

the details of the salary paid to the Deputy Minister and the four other highest paid bureaucrats in each Ministry of the government, the Premier's Office and the Cabinet Office;

the details of the salary paid to the five highest paid political staff in each Ministry and the Premier's Office and the Cabinet Office;

the details of the salary paid to the five highest paid executives in each Crown corporation;

the details of any non-routine loans made or guaranteed by a government Ministry, agency or Crown corporation to any of the above individuals;

information on benefits paid to any of the above individuals that add significantly to compensation;

Section 7-37

information on compensation paid to a senior public sector executive, senior executive of a Crown corporation or senior member of the political staff who left during the fiscal year but would otherwise have been among the highest paid group;

information on any contract that would result in a senior public sector executive, senior executive of a Crown corporation or senior member of the political staff being paid more than \$100,000 as a result of being dismissed or having to change duties;

the details of the compensation paid to the directors of Crown corporations.

29. Mrs Sullivan - Resolution - That, in the opinion of this House, given that the Ontario Cancer Treatment and Research Foundation and the Ontario Cancer Institute have provided exemplary service to cancer patients in Ontario, but that these institutions face major capital and operating deficiencies; and that the number of new patients requiring timely treatment is expected to reach 60,000 per year by the year 2000 at the same time as hundreds of thousands of patients need continuing care through a co-operative, co-ordinated system developed on a regional basis; and that a comprehensive system integrating research, education and patient services will enhance the provision of cancer treatment in the province; and that the 1985 Provincial Role Study of Cancer Services in Ontario prepared for the OCTRF and the OCI recommended the establishment of an Ontario Cancer Agency and that those institutions accepted that recommendation in principle; this House recommends that the Government of Ontario should introduce legislation at the earliest possible opportunity to establish an Ontario Cancer Agency which will merge the Ontario Cancer Treatment and Research Foundation and the Ontario Cancer Institute into one unified organization under a single Board, to provide a comprehensive cancer control program for Ontario through a comprehensive cancer centre in each region, and to provide administrative and functional co-ordination of all resources for cancer control in Ontario.

30. Mr Kwinter - Resolution - That, in the opinion of this House, given that the Government has decided to create legalized casino gambling in Ontario; and

given that the Government of Ontario has decided to contract out the operations of its legalized casino to a private operator, to be selected by tender; and

given that this decision has been made solely on the basis of the Government's need for increased revenues; and

given that the taxpayers of Ontario have been given no assurance that they will not be forced to pay for any revenue shortfall experienced by the private casino operator;

Section 7-38

this House requests the Government of Ontario to introduce an amendment to its casino legislation that will ensure that the financial responsibility for any revenue shortfall and debt will be that of the casino operator; and that

in no circumstances will the taxpayers of Ontario bear any responsibility, financial or otherwise, for any such shortfall and debt.

33. Mrs Marland - Resolution - That, in the opinion of this House, recognizing that persons with developmental disabilities are valued members of our society who require assistance from the provincial government in order to enjoy the quality of life, independence and community living that persons without disabilities take for granted;

and recognizing that there is a severe shortage of support for adults with developmental disabilities, including supported employment, alternatives to sheltered workshops, a variety of living options, family support services, and parent relief;

and recognizing that institutions for persons with developmental disabilities are being closed before sufficient community support is in place for the discharged residents;

and recognizing that when youth with developmental disabilities turn 21 years of age, they are no longer eligible for children's support programs but can rarely be accommodated in support programs for adults because of the shortage of resources and services;

and recognizing that parents who care for adults with developmental disabilities in their homes require provincial government assistance to allow them to enjoy some of the freedom from child-care responsibilities that most parents of adult children take for granted;

and recognizing that as the parents of adults with developmental disabilities grow older, they worry about who will care for their children when they can no longer do so;

Section 7-39

and recognizing that the Ministry of Community and Social Services cut \$1.5 million from its funding of sheltered workshops in 1992/93, then promised it would not execute a further planned cut to sheltered workshops of \$1.5 million in 1993/94, but nonetheless reduced its 1993/94 transfer payments to community living associations by \$1.5 million;

and recognizing that the 1993/94 Estimates for Community and Social Services show a \$20.3 million (11.9%) decrease in the budget for community accommodation for adults with developmental disabilities;

and recognizing that despite new provincial funding of \$21.08 million in 1993 for persons with developmental disabilities, there is still a crisis in support for adults with developmental disabilities;

and recognizing that possible cost savings have been identified in other program areas of the Community and Social Services portfolio, including:

- social services fraud, misallocation and mismanagement (\$630 million per year, or 10% of the Province's social assistance budget, according to the Provincial Auditor);
- payments to convert private daycare centres to non-profit centres, bail out non-profit daycare centres that are in financial difficulty, and build new non-profit centres through the Jobs Ontario Capital program, even though many existing daycare centres, both non-profit and private, have excess capacity (total expenditure: approximately \$200 million);

and recognizing that in other portfolios, cost savings could be achieved by reducing health card fraud (\$675 million/year) and reducing workers' compensation fraud (\$150 million/year), to cite just two examples;

Therefore the Government of Ontario should immediately undertake to reform the financing of support for adults with developmental disabilities, giving consideration to the following:

- person-centred planning, whereby funding is allocated directly to each person with a developmental disability for that person and her/his family or guardian to decide how best to meet his/her needs;
- improving the funding of community-based support so that the closing of institutions can proceed on schedule and the former residents of institutions can be ensured access to a full range of community support;
- redirecting funds to adults with developmental disabilities from other areas, such as those mentioned above, where expenditure cuts could be achieved.

34. Mr Eddy - Resolution - That, in the opinion of this House, since there is playground equipment being purchased by municipalities, school boards, daycare centres, and other provincially funded agencies that are frequented by children which does not have to meet any mandatory safety requirements; and

since the Canadian Standards Association (CSA) has developed a National Standard of Canada for Children's Playspaces and Equipment which is widely supported among Canadian manufacturers in the playground equipment industry and which is the only such safety standard in Canada; and

since several Canadian and foreign manufacturers have spent considerable time and money to adhere to the standard; and

since some Canadian and foreign companies can and are selling their playground equipment products which do not meet the CSA standard; and

since the number of children admitted to hospitals with playground related injuries has been rising in recent years;

therefore, this House urges the Government of Ontario to recognize the Canadian Standards Association's National Standard CAN/CSA-Z614-M90 as the appropriate safety standard for playground equipment that is bought and sold in Ontario;

and to urge all Ontario municipalities, schools boards, daycare centres, and other provincially funded agencies that use playground equipment to adhere to the national standard when buying playground equipment.

35. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since several patients from the Alliston and Collingwood areas are forced to travel great distances often under treacherous winter road conditions to receive hemodialysis treatments; and

since the government has known of this problem for the past two years and has done nothing to discourage a patch-work dialysis treatment system whereby some patients receive hemodialysis in-home, while others are travelling to Orillia or Toronto; and

since the wear and tear of travelling to receive hemodialysis treatments is taking a significant physical and emotional toll on Simcoe West patients; and

since many of these patients have attended meetings, involving Ministry of Health officials and hospital administrators, arranged with the intention of creating a community-based solution to a local problem and as these meetings have failed to produce a workable, local solution because of the Ministry's failure to adequately assess the need and because they want to postpone a decision on this problem until a regional dialysis study is completed in another eight months; and

Section 7-41

since the money for Simcoe West dialysis patients is concentrated in Toronto teaching hospitals; and

since Simcoe West dialysis patients have already suffered enough physical and emotional trauma in travelling long distances to receive dialysis treatments;

Therefore the Government of Ontario should act immediately to embrace a local solution by establishing hemodialysis satellites in both Alliston and Collingwood.

36. Mr Arnott - Resolution - That, in the opinion of this House, the Government of Ontario should refrain from continuing to implement the policy announced by the previous Liberal Government, in the 1989 Throne Speech, of forcing all school boards in Ontario to initiate junior kindergarten programs by the Fall of 1994.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public.

38. Mr Bisson - Resolution - That, in the opinion of this House, the Assembly calls upon the Government of Ontario to undertake legislative and/or regulatory changes that would allow direct payment of shelter allowances and benefits to a landlord from the Family Benefits Act and the General Welfare Assistance Act in situations where the tenant is in default in payment of rent.

39. Mr Hodgson - Resolution - That, in the opinion of this House, recognizing that all first-time hunters since 1960 have successfully completed the Hunter Education Course, which includes safe firearm handling procedures, the government of Ontario should automatically grant a Firearms Acquisition Certificate to people who have successfully completed that course and to those who have demonstrated a solid safety record through many years of shooting experience.

41. Mr Cousens - Resolution - That, in the opinion of this House, recognizing that recall provides citizens with the opportunity to exercise accountability over their elected officials, and
- since other jurisdictions in Canada are exploring the recall option in their provincial legislatures, and
- since evidence from other jurisdictions outside of Canada indicates that recall is rarely abused, and
- since the recall process should explore the ethical criteria for recall of an elected officer, and
- that the process in which to initiate the recall process may involve a review of several checks and balances that could be ascertained by further guidance from legislative officials and the public,
- the Standing Committee on the Legislative Assembly be required to develop a recall process for consideration by the Legislature and to present their recommendations and options to the Legislative Assembly by the Spring Session in 1995.

42. Mr Sola - Resolution - That in the opinion of this House, consumers in Ontario are in need of greater protection against sellers or lenders who make false, misleading or deceptive representations or innocent misrepresentations, than is currently provided for in consumer protection legislation such as the Business Practices Act and the Consumer Protection Act; and that to the extent to which existing legislation does offer a degree of protection to the consumer, such provisions should be more vigorously enforced, therefore the Government of Ontario should establish a select committee of this House to review existing consumer protection legislation so as to provide consumers with an improved comprehensive protection program.

43. Mr Beer - Resolution - That, in the opinion of this House, the government of Ontario should give formal legislative recognition to the profession of Early Childhood Educators, and

since early childhood educators have a large share of the responsibility for the care and education of young children in Ontario, and

since despite the importance of this profession there are no formal entry standards for early childhood educators beyond the E.C.E. diploma, and

since there are no formal standards of practice nor any mechanism to ensure that early childhood educators are held accountable for their professional conduct, and

since the Association of Early Childhood Educators, Ontario (A.E.C.E.O) is an organization of early childhood educators and concerned individuals whose objective is to improve the quality of early childhood care and education, and has long held that some form of professional regulation is required to ensure that the needs of children and families are met;

Therefore, in order to protect children and families and increase the quality of care and education of young children, the Government of Ontario should formally recognize the need for professional regulation of early childhood educators and should develop an act that prescribes, among other things, minimum entry standards, standards of practice and a code of ethics for early childhood educators. Draft legislation should be presented to this legislature no later than the end of the 1994 legislative session.

44. Ms Carter - Resolution - That, in the opinion of this House, since Canada is a signatory to the 1992 United Nations Framework Convention on Climate Change, now in force, which recognizes the catastrophic environmental, economic, and social consequences of greenhouse gas emissions and calls for decisive international action to curb these emissions; and

since the federal government has committed to a 20 per cent reduction in greenhouse gas emissions over 1988 levels by 2005, as urged by the Toronto Conference on the Changing Atmosphere and endorsed by the Ontario Round Table on Environment and Economy; and

since the federal government is working to develop a National Action Plan on Climate Change, together with the provinces and territories that will reverse the continuing trend toward higher emissions and achieve the 20 per cent target; and

since the recent Canadian Options of Greenhouse Gas Emission Reduction (COGGER) report for the Royal Society of Canada concludes that it is both technically feasible and economically beneficial to implement a 20 per cent reduction in emission levels;

Section 7-44

Therefore this Assembly should support the federal government in its commitment to a 20 per cent reduction in Canada's greenhouse gas emissions over 1988 levels by 2005, and further support leadership on the part of Ontario in helping to develop and implement a National Action Plan to achieve this environmentally imperative goal.

45. Mrs Cunningham - Resolution - That, in the opinion of this House, in order to facilitate school board budgeting and planning, the Ministry of Education and Training should continue with its intent to change the school board fiscal year which now coincides with the calendar year, to coincide with the school year, September 1st to August 31st.

46. Ms Haeck - Resolution - That, in the opinion of this House, since The Old Town of Niagara, formerly Newark, was the first capital of Upper Canada, and

since The Village of Queenston was the scene of The Battle of Queenston Heights, both important aspects of the history of Canada and the Province of Ontario, and

since the normal growth and urban development of the area is destroying some of the architectural heritage, the historical streetscapes and ambiance of these important historical centres, and

since it is desirable to control architectural changes in historical buildings in the area and to control the use of land in relation to those buildings and to other sites of historical importance in the area;

Therefore, the Minister of Municipal Affairs should, by order under the Ontario Planning and Development Act, establish The Old Town of Niagara and The Village of Queenston Planning and Development Area.

Mr Runciman - Resolution - That in the opinion of this House, the Legislative Assembly of the Province of Ontario, sharing the public's concerns about the level of violent crime in our society and to support our law enforcement officers, demands that the Federal Government of Canada amend the Immigration Act to provide for the automatic deportation, without appeal, of any landed immigrant or refugee who is:

- Convicted of a criminal offence involving violence where the conviction results in a sentence of six months or more;

47. Mr Hansen - Resolution - That, in the opinion of this House, since the wine-making industry of this province dates from early pioneer times, and

since grapes from Ontario vineyards are the most valuable fruit processing crop for this province, and

since wines from Ontario-grown grapes are earning awards for excellence internationally, and consistently are enhancing the esteem for this nation, and

since grape growing is part of Ontario's productive and efficient network of family farms which sustain the agricultural base essential to our economy, and

since more than \$100 million in income for our provincial treasury is generated each year through markup and sales taxes on wines from Ontario's vineyards and wineries, and

since Ontario wine regions are now strongly established attractions and generate substantial benefits and employment opportunities in tourism and related industries, and

since more than 10,000 jobs, both full-time and seasonal, are provided by our vineyards, and

since wine is acknowledged as a beverage of moderation and has been demonstrated by medical research to be beneficial to the quality of life, and

since wine is deeply established within the cultural, religious and family traditions of this nation;

Therefore, the Government of Ontario should commend the grape growers and the vintners of Ontario for their pursuit of the highest quality of grape and wine production, and should designate the third week of September in each year as Ontario Wine Appreciation Week.

48. Ms Harrington - Resolution - That, in the opinion of this House, since the employment of children under the age of 18 as exotic dancers and strippers is abhorrent to our society; and

since children abused in this manner may suffer long term physical and emotional damage; and

since this practice is widespread across Ontario and Canada; and

Section 7-46

since 1994 is the International Year of the Family and Canada has ratified the United Nations Convention on the rights of the child which ensure the rights of children to survival, development and protection; and

since it is illegal for anyone under 18 to purchase liquor, cigarettes or rent adult videos; and

since the Government of Ontario is doing all that it can to resolve this matter; and

since there is a need for a unified approach to dealing with this serious issue to protect communities across Ontario as well as Canada; and

since Section 5 of the Criminal Code of Canada deals with sexual offences, public morals and disorderly conduct,

therefore, this House calls upon the Government of Canada and the Minister of Justice to amend Section 5 of the Criminal Code to make it an offence to employ children under the age of 18 as exotic dancers or strippers, or to employ minors to work in establishments which provide sexual services.

Carried November 3, 1994.

49. Mr Eves - Resolution - That, in the opinion of this House, since the House has not been in session since Thursday June 23, 1994, a recess of over four months in duration, and

since the House will only be in session for one week prior to recessing for the constituency week break that is set out in the 1994 legislative calendar, and

since the Government and members of the House have indicated that they have legislation that needs to be dealt with prior to the Winter recess;

therefore, the Government should pass a motion to alter the legislative calendar and allow the House to sit for Routine Proceedings and Government Business for four days during the week of November 7, 1994.

50. Mr Ruprecht - Resolution - That, in the opinion of this House, since it is desirable that the province reduce the immense costs - perhaps \$500,000 or \$1 million per addict - of the crime committed by people who steal and commit mayhem in order to support drug addiction; and

since intervention is needed to recover the wasted human potential and productivity associated with such addiction; and

since most American states have legislated driver's licence suspensions for persons convicted of drug offences; and

Section 7-47

since the legal framework is already in place for medical treatment of addicts with methadone;

therefore, this House urges the Government of Ontario to amend the *Highway Traffic Act* and *Courts of Justice Act* to provide that the Ministry of Transportation receive notification of all convictions for drug trafficking offences and that it impose an administrative one-year suspension of (or postponed eligibility for, or postponed restoration of) the driver's licence of anyone convicted under any statute of a trafficking offence; and to dedicate funds for methadone treatment; designate hospitals or other existing medical service providers which must make the treatment available and be responsible for the monitoring involved; and cooperate with the College of Physicians and Surgeons of Ontario quickly to develop guidelines to govern adequate and controlled approval of physicians for Bureau of Dangerous Drugs treatment licenses, in such numbers and locations as will facilitate the orderly expansion of methadone treatment in Ontario.

Carried November 3, 1994.

51. Mr Brown - Resolution - That, in the opinion of this House, the Government of Ontario should change the present Off-Road Vehicles Act, 1983, to grant the users of three and four wheeled all terrain vehicles the same rights and privileges, combined with the duties and obligations as listed in the Motorized Snow Vehicles Act, R.S.O. 1990.

Carried November 17, 1994.

52. Mr White - Resolution - That, in the opinion of this House, the health and well-being of children, youth, and young families requires the active involvement of our whole province in supporting parents and communities and in moving to a better future through strategic investments in children and youth; and

we must examine the services and supports that we offer to young families in order to improve and refine the quality of life for all children and youth in Ontario including an amelioration of child poverty and family violence; and

goals and research measurements must be developed to measure how well and how quickly we are progressing as a community in the interests of our children and youth; and we can enter the social security debate that the federal government is initiating with a strong set of proposals with an aim to enhance the welfare of families and to address the blight of child poverty that has worsened with federal neglect over the past two decades; and

we must build upon the high quality of our public services that have been both socially and economically accountable to the people of Ontario and which are the envy of virtually every jurisdiction.

Carried December 1, 1994.

Section 7-48

53. Mr Cooper - Resolution - That, in the opinion of this House, since the Ontario New Democratic Government has stated job creation is its number one priority; and
- since reducing government operating costs is of paramount importance to controlling the deficit and preserving the services people have come to rely upon; and
 - since economic renewal depends upon high value added manufacturing, export success, and increased research and development; and
 - since we must use the principles of sustainable development by promoting the wise and efficient use of energy and conservation of resources; and
 - since we must lead by example through the procurement of factory supplied natural gas vehicles and/or retrofit of existing vehicles to natural gas; and
 - since we must preserve our environment for future generations;
- therefore, this House urges the Government of Ontario to review the feasibility and where possible implement the systematic conversion of government vehicles to natural gas as a means of creating higher value added jobs, reducing government operating costs and achieving a cleaner environment; and
- this House also urges the Government of Ontario to call upon the Government of Canada to review the feasibility of converting Federal Government vehicles to natural gas; and
- this House also urges the Government of Ontario to call upon Ontario Municipalities to review the feasibility of conversion of municipal vehicles to natural gas.

Carried December 8, 1994.

54. Mr Bradley - Resolution - That, in the opinion of this House, since Ontario has one of the most severe summer smog problems in Canada, and
- since summer smog is a serious public health threat, particularly for the hundreds of thousands of Ontarians who have asthma and other respiratory ailments, and
 - since about half of the air pollution which forms smog is emitted by automobiles and trucks, and
 - since Ontario has fallen behind more environmentally advanced jurisdictions in North America, which have instituted mandatory annual vehicle emission testing, and
 - since in Ontario, we are spending several million dollars to test vehicle emission testing equipment which has already undergone more than a billion dollars of testing by the US Environmental Protection Agency;

Section 7-49

Therefore, this Legislative Assembly supports the immediate implementation of a mandatory annual vehicle emission testing program to get polluting vehicles off the road and reduce summer smog.

**WANT OF CONFIDENCE MOTIONS PURSUANT TO
STANDING ORDER 43(a)**

1. Mr Harris - Whereas the NDP government continued to follow the job killing tax policies of the previous Liberal administration including 22 new tax increases in its first two budgets on top of the 33 tax increases of the previous government;

And whereas this government continued the trend set by the previous government to increase expenditures annually well in excess of the rate of inflation;

And whereas this government continued the Liberal government's trend to increase the size and scope of government in Ontario to a level we can no longer afford;

And whereas this government compounded this bad fiscal policy with multi-billion dollar deficits;

And whereas this government failed to recognize the long term damage these policies created in the economy of Ontario and did not begin to develop new direction and policy alternatives until over two and a half years after assuming office;

Therefore this House has lost faith in the ability of this government to develop long range economic plans for the prosperity of Ontario and pursuant to the provisions of Standing Order 43(a), the House no longer has confidence in the government.

Lost on division December 14, 1993.

2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

Section 7-51

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration, and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government.

3. Mr Harris - Whereas the status quo in Ontario will mean our young people face fewer jobs, a burden of debt and the very real danger of inheriting a lower standard of living than their parents;

Whereas Ontarians are sending a message that the system is broken;

Whereas over a half million people are unemployed and over a million people are on social assistance;

Whereas we need real change after a decade of tax, spend, and borrow governments have saddled us with 65 new tax increases and have tripled the total debt of the province;

Whereas the Minister of Finance ignored the message that Ontarians are sending by introducing a budget which maintains the status quo;

And whereas Mike Harris, after four years of public consultation, town hall meetings and listening to Ontarians from all corners of the province, has introduced a Common Sense plan to:

- Cut personal income tax rates by 30%
- Cut government spending, with the exception of healthcare, by 20%. Law enforcement and classroom education will also be protected
- Eliminate barriers to job creation by abolishing the health payroll tax for small business, repeal the NDP's labour legislation, freeze hydro rates and reduce WCB premiums
- Cut the size of government, including a reduction in the number of politicians
- Balance the budget in four years;

And whereas, Ontario falls further behind other jurisdictions every day the government refuses to adopt the Mike Harris Common Sense Plan to bring prosperity, hope and opportunity back to Ontario and to create 725,000 NEW private sector jobs;

Therefore, pursuant to Standing Order 43 (a), the House no longer has confidence in the government.

SPECIAL DEBATES

OPPOSITION DAYS

SPRING PERIOD 1993

1. Mr Harris - Recognizing that the Ontario economy is experiencing significant structural change and acknowledging that the future well-being of all Ontarians, the maintenance of vital public services and the improvement of our standard of living depend on the ability of the province to attract new job-creating investment and on the capacity of Ontario firms and workers to compete in the global economy and to exploit new opportunities and markets; and realising that huge deficits and high taxes limit the capacity of the province to compete for investment and jobs and to finance priority services, this House calls on the government:-
 - to ensure that its 1993 Budget does not increase the tax burden on investors, consumers and businesses,
 - to signal its determination to control public sector costs by setting a deadline for negotiations on the "social contract" and to issue a clear statement that it will introduce legislation to achieve its cost-reduction targets in the event that the negotiations break down,
 - to give a commitment that any trade-offs in the social contract will not limit the flexibility of the government or of public sector managers to pursue the structural reforms in the delivery of public services necessary to improve efficiency and cost effectiveness,
 - to introduce legislation to direct arbitrators in labour disputes in the Ontario public service and the broader public sector to consider the employer's ability to pay in light of current provincial fiscal policy in making their decisions. Minister of Finance.

Lost on division May 5, 1993.

2. Mrs McLeod - Recognizing that, since taking office, the NDP government has consistently mismanaged the financial affairs of the province and has been unable to devise a plan to pull the economy out of the recession;

And whereas there are 550,000 people without work in the province of Ontario;

And whereas 214,000 have joined the unemployment line since the NDP government came to power;

And whereas for over two years, the NDP government ignored the Liberal caucus' calls for fiscal restraint, failed to recognize the serious nature of Ontario's fiscal crisis until far too late, and has now engaged in a poorly thought-out last minute exercise to cut spending that will transfer the burden of restraint to school boards, hospitals, municipalities, colleges and universities and social service agencies and will affect most Ontarians in their daily lives, without adequately addressing the Ontario government's own operations;

Section 7-53

And whereas, when in power, the Conservative Party ran deficits for 15 straight years prior to 1985, and left Ontario with accumulated debt of \$30 billion;

And whereas, when in power, the Conservative Party averaged 12% spending increases annually between 1980 and 1985;

And whereas, during its last five years in power, the Conservative Party averaged deficits of \$2.1 billion annually;

And whereas, when in power, the Liberal government was the only government to balance its budget in Ontario in the last 20 years;

And whereas the federal Conservative government has failed to manage the national economy, left Canadians over \$450 billion in debt and has produced a do-nothing budget that fails to reassure international investors;

And whereas the people of Ontario are becoming increasingly concerned about their future and the future of their children, due to the fact that they have no confidence in the ability of the NDP government to restore economic security and health to the province of Ontario;

Therefore the Liberal caucus calls upon the government to take a common-sense approach to managing the economy and to implement the following recommendations:

1. Create an economic climate in which job creation and economic renewal are their number one priority;
2. Get its own fiscal house in order through genuine reorganization and restructuring and elimination of waste in order to get the deficit under control.
3. Refuse to increase taxes in order to protect fragile economic recovery and encourage an economic climate that will lead to job creation.
4. Review expensive programs such as the \$1.1 billion JobsOntario Training program, the \$30 million bureaucracy created by the Advocacy legislation and the Interim Waste Authority that has cost taxpayers \$30 million so far.
5. Ease the regulatory burden on business by reviewing the NDP's anti-job legislation, such as Bill 40, and eliminating the costly bureaucratic bottlenecks in areas such as land use planning and the WCB.
6. Focus on training and retraining to help people get back to work and to make our work force more attractive to international investors.
7. Introduce measures to alleviate youth unemployment to give our 140,000 unemployed young people hope for the future. Premier of Ontario.

Lost on division May 13, 1993.

Section 7-54

3. Mrs McLeod - Whereas Ontario's young people are facing a job crisis,

And, whereas the unemployment rate for young people between the ages of 15 and 24 years of age is currently at 20.4%, which is an increase over very high rates we have seen over the last two years,

And, whereas the unemployment rate for youth has increased by 9 percentage points since the NDP government took office,

And, whereas more than 190,000 young people are currently out of work in the province of Ontario,

And, whereas the ongoing levels of high unemployment point to a chronic and deep-rooted economic problem,

And, whereas the NDP government's commitment to summer jobs programs has no strategic plan to help youth deal with the unemployment crisis,

And, whereas the NDP government's response to this crisis has been ad hoc and has not dealt effectively with the obstacles young people are facing,

And, whereas the NDP government has failed to show leadership in the management of its own summer employment opportunities for youth,

And, whereas the NDP government's jobsOntario Youth does not address the needs of young people of varied employment needs across the entire province of Ontario,

This House resolves that urgent action is required and that the following initiatives be included in an action plan to help our young people get the education, training and jobs they deserve, and that these initiatives be funded by re-allocating funds from failed NDP training programs such as the jobs Ontario Training Fund:

- Funding for the summer employment for youth should be increased to \$60 million in recognition of the extraordinary crisis facing students this summer.
- Funding for the successful FUTURES program should be increased by 20% to reach approximately 34,000 young people, an additional 6,000.
- Co-operative education programs at all levels of education should be expanded.
- A scholarship system that encourages businesses to contribute to the further education of youth should be established.

Section 7-55

- A pre-university program should be established to help young people improve their grades and gain increased access to universities.
- A database system providing youth with information about training, education and job opportunities across Ontario should be established. Premier of Ontario.

FALL PERIOD 1993

1. Mr Harris - Whereas, the people in the Cornwall area are becoming increasingly concerned with the inability of law enforcement officials to combat the serious and growing problem of smuggling in the region between Ontario, Quebec, New York and Native jurisdictions;

and whereas, the provincial NDP government continues to pursue tax policies which encourage the growth of the underground economy, resulting in the loss of business to legitimate operators and reduced provincial revenues;

and whereas, the level of lawlessness is such that police believe they can no longer protect local residents and visitors on area waterways, thus depriving both residents and tourists of the peaceful enjoyment and use of valuable provincial tourist and recreational resources;

therefore, this House calls on the NDP government to re-examine its spending priorities and recognize public demand and need for increased investment in community safety initiatives in the region;

and to re-examine its taxation policies insofar as they encourage the development of an underground economy and thus, contribute to the development of criminal activities in the area;

and to take immediate steps to support the police in order that they have adequate resources to protect the residents of the area. Premier of Ontario.

2. Mr Beer - Recognizing that, since taking office, the NDP government has consistently mismanaged the delivery of children's services and is now downloading the province's financial problems onto the most vulnerable in our society, children, through the lack of any clear direction for children's services including child care and the introduction of user fees for non-residential children's services delivered under the Child and Family Services Act;

And whereas we have yet to see a comprehensive plan for the delivery and integration of children's services including child care, and those services funded through the Child and Family Services Act;

And whereas this government promised to reform our existing child care system and better

Section 7-56

integrate services needed by children and their families;

And whereas this government has not presented any plan regarding children's services;

And whereas the government has not presented a plan that provides a clear direction for child care;

And whereas those who deliver services funded through the Child and Family Services Act were not consulted prior to the decision to generate revenue through user fees for children's services funded under the Child and Family Services Act;

And whereas, parents and children who will be affected were not involved in consultation prior to the NDP government's decision to introduce user fees for children's services;

And whereas no attempt was made by the Ministry of Community and Social Services to collect information from the agencies involved regarding their ability to generate and collect such fees;

And whereas it has been determined that the Ministry of Community and Social Services has in fact miscalculated the ability of the agencies affected to generate the expected revenue;

And whereas MCSS officials have indicated that no specific formula was used to arrive at the figures of \$4.3 million for the year 1993/94 and \$6.7 million thereafter;

And whereas the NDP government has not established a province wide policy regarding user fees for similar services obtained by adults through any other ministry;

And whereas the NDP government acknowledged during the social contract negotiations that the agencies funded under the Ministry of Community and Social Services should be allowed certain exemptions due to the essential nature of their services;

And whereas the NDP government acknowledged during the social contract negotiations that the agencies funded under the Ministry of Community and Social Services (including child care and children's services) are vulnerable agencies in light of the increased demand for services and the low wages of staff;

And whereas it is known that the families and individuals needing the services funded under the CFSA are those least able to pay and also those who will be most intimidated by an application process;

And whereas it is estimated that over 80% of those affected presently live under the poverty line;

And whereas the services are essential;

Therefore the Liberal caucus calls upon the government to immediately table in this house

a comprehensive plan for the delivery and integration of children's services, withdraw from the decision to introduce user fees for children's services funded under the CFSA immediately, and present a plan for the reform of our existing child care system. Minister of Community and Social Services.

3. Mrs McLeod - Recognizing that, since taking office, the NDP government has failed to put in place appropriate mechanisms for the increased demand for cancer treatment;

And whereas the number of Ontario residents being diagnosed with cancer is growing at about 45,000 per year;

And whereas two out of three families will have a family member diagnosed with cancer;

And whereas there are concerns that patients will receive timely treatment;

And whereas physicians are performing procedures such as surgery due to concerns that less invasive treatment, such as radiation, may not be available on time;

And whereas the government has set no standards with respect to radical cases as opposed to palliative care;

And whereas 85 per cent of all cancer cases occur in people over the age of 55;

And whereas lung cancer continues to be the leading cause of death among all cancer patients, yet despite its commitment in 1991, the NDP government has taken no action on its proposed Tobacco Act;

And whereas waiting lists at cancer units in Ontario frequently exceed the standards for optimum care set by the Canadian Association of Radiation Oncologists;

And whereas the Minister of Health has repeatedly said that hospitals must find the money to perform bone marrow transplants within global budgets without providing any funding assistance;

And whereas the government has not undertaken human resource planning to ensure an adequate pool of radiation oncologists, radiation therapists, and medical physicists;

And whereas the NDP government has created a climate that is encouraging more and more physicians to leave the province;

Section 7-58

Therefore the Liberal caucus calls on the NDP government to admit its failure to develop a coherent, effective, cancer strategy; and to initiate a broad cancer care program ranging from prevention to long-term care in a province-wide co-ordinated approach; and, to start work immediately with hospitals, communities, cancer centres, and patients to take all necessary steps to clear up the backlog of treatment cases in the province and ensure no further backlog occurs and that all residents of Ontario receive the cancer care they need when they need it. Minister of Health.

4. Mr Tilson - Whereas the NDP government has continued to proceed with the Interim Waste Authority process of selecting dumps in the Regions of Peel, Durham and York without considering any alternatives to building super dumps;

And whereas continuing this process breaks NDP promises made during the last Provincial election campaign of 1990, as outlined in the Agenda for People;

And whereas the NDP will risk farmland by placing the three sites on existing, operating farms; will threaten the environment by placing sites on aquifers supplying drinking water to surrounding communities and will destroy community life by forcing residents out of their homes and away from their communities in order to develop super dumps in each of the three regions;

And whereas the NDP have insulted the residents in each of the three communities and in fact the people of Ontario with their rhetoric of a fair and open process;

And whereas the fundamental rights of the residents of the three Regions have been violated by the arbitrary decisions to rule out any other alternatives to the super dumps;

And whereas the NDP dictated the IWA process by passing Bill 143 forcing the Greater Toronto Area to accommodate sites for their garbage;

And whereas the NDP government is to be made accountable for its bad decisions by the people of Ontario;

Therefore, this House calls on the NDP government to repeal Bill 143, disband the Interim Waste Authority and place a moratorium on the process of finding three super dumps within the Greater Toronto Area until all alternatives have been explored and researched, including the long rail haul option to willing host communities, incineration and better product management. Minister of Environment and Energy.

SPRING PERIOD 1994

1. Mrs McLeod - Whereas in the past family farming operations have been exempted from the provisions of the Ontario Labour Relations Act in order to minimize the impact of disruptive labour disputes which would be devastating to many farm operations;

And, whereas, under Bill 40 the NDP government removed the Ontario Labour Relations Act exemption for farming operations, promising to enact separate farm labour legislation;

And, whereas the government created an Agricultural Labour Relations Task Force to study farm labour issues comprised of three representatives of farm employers, two representatives from organized labour, one representative of farm workers, and two staff from the Ministry of Labour and the Ministry of Agriculture and Food, who acted as Co-chairs;

And, whereas the NDP government has now failed to implement the Task Force's recommendations in the agriculture labour legislation it introduced;

And, whereas an independent legal review of the legislation found that it does not contain the protection provisions that were promised last year by the Minister of Labour, such as ensuring that immediate relatives of farm owners are not forced to join unions;

And, whereas the NDP government's agriculture labour legislation, Bill 91, fails to protect family farming operations from labour disruptions;

And, whereas agriculture organizations across the province are calling for massive amendments or a total rewrite of the legislation, which the Minister of Labour refuses to consider;

And, whereas farming operations are particularly sensitive to labour disruptions because of spoilage of crops and the health of animals;

Therefore, the Liberal caucus calls upon the NDP government to redraft its agriculture labour legislation under Bill 91 in order to implement the Agriculture Labour Task Force recommendations, or to amend the Ontario Labour Relations Act changes made under Bill 40 to reinstate the previous general agricultural exemption, for the purpose of ensuring that farm families are not forced to unionize their employees, and are not subjected to labour disruptions. Minister of Labour.

2. Mrs McLeod - Whereas 590,000 men and women in Ontario are currently unemployed and whereas we have seen record levels of unemployment in the last three years of NDP government;

Whereas Ontario's young people are now facing a real unemployment rate of 30% amidst the worst economic conditions since the Depression;

Whereas Ontario suffered the majority of Canadian job losses during the recession, and while, once an economic leader in Canada, now lags behind the recovery seen in the rest of the country;

Whereas the NDP have killed jobs by raising taxes by \$4 billion - the largest increase since the Tories were in office;

Whereas for every 27 people who went back to work in the rest of the country, only 1 person went back to work in Ontario in the first four months of 1994;

Whereas the NDP are content to allow unemployment to remain at 9 per cent until 1997 - an unacceptable level;

Whereas at a time when the people of Ontario were looking for bold new ideas and leadership, the NDP have decided to throw in the towel and accept high unemployment levels as part of Ontario's future for years to come;

Whereas NDP government policies, such as their anti-business legislation have only made the employment outlook in Ontario worse,

Whereas the NDP budget is almost as full of more empty rhetoric and as unable to put people back to work as the Tories' economic framework;

Whereas Mike Harris and the Progressive Conservative Party have put forward an unrealistic plan that simply won't work,

Whereas the plan of the Progressive Conservative Party is based on unachievable promises, unsound calculations and flagrant contradictions;

And, whereas Lyn McLeod and the Ontario Liberal Party have set a target of reducing unemployment to six per cent in five years, and have put forward the only realistic plan for getting Ontario working again, which includes:

- Reducing taxes by 5% over five years;
- Reducing the paper burden by cutting the cost of doing business with government by 50%;
- Balancing the province's operating budget within the government's first mandate, without hiding debt off book.

Section 7-61

Scrapping programs that aren't working, or are hurting business, including:

- The failed \$1.1 billion Jobs Ontario Training program;
- The job-killing sections of Bill 40;
- The \$30 million bureaucratic advocacy legislation;
- The \$30 million Interim Waste Authority; and
- Over \$5 million spent for increased NDP political staff;

Special help for small business such as:

- Examining the establishment of tax credits for new hiring, and for venture capital companies; and
- More help for small and medium-sized companies to tap into export markets;

Therefore, this House resolves that the recommendations contained in the Lyn McLeod Task Force on Jobs be immediately adopted and implemented.

3. Mr Harris - Whereas the number of youth under the age of 18 who were charged with violent crime in Canada more than doubled between 1986 and 1991;

Whereas the criminal habits adopted by these young people may stay with them all of their lives;

Therefore, this House calls on the Attorney General to publicly and vigorously lobby the Federal Government to, at a minimum, make the following amendments to the Young Offenders Act:

Reduce the maximum age for a young offender from 18 to 16. All offenders over the age of 16 will be tried in adult court;

Streamline the process to ensure that young offenders who commit violent crimes are tried in adult court;

Streamline the process to allow offenders younger than the age of criminal responsibility who commit violent crimes and who understand the consequences of their behaviour to be tried in youth court;

Introduce stiffer penalties for young offenders;

Remove the requirement for the province to provide legal aid to all young offenders who request it, regardless of financial circumstances or the nature of the charge;

Section 7-62

Once a young offender has been convicted of 2 offences, any subsequent offence will be tried in adult court and subject to a criminal record, as well as removing the publication ban on identity;

Mandatory counselling for all young offenders; and

Parents must make an appearance during a young offender's trial. Attorney General.

FALL PERIOD 1994

1. Mr Harris - Whereas in these difficult economic times, a fair and efficient social safety net is more necessary than ever to give people a hand-up instead of a hand-out;

Whereas on average, Ontario's welfare benefit payments are 30% higher than the average of all provinces;

Whereas in the recession of 1982, welfare costs in Ontario were \$930 million and coming out of the current recession, costs have ballooned to \$6.8 billion for 1994-95;

Whereas between 1985 and 1990, the Liberals hiked rates 60%;

Whereas caseloads increased steadily throughout the boom years of the late 1980s and have doubled since 1989;

Whereas the current welfare system penalizes recipients who work to earn extra money;

Whereas the goals of welfare reform, as stated in the Common Sense Revolution launched in May 1994, should be; i) returning welfare to its intended role as a temporary support program; ii) streamlining the system to improve access and efficiency; and iii) ending waste and fraud;

Whereas the Common Sense Revolution plan will save taxpayers \$1.75 billion;

Therefore, this House calls on the Minister of Community and Social Services to implement the plan outlined in the Common Sense Revolution, including:

1. Set Ontario's welfare benefits at 10% above the average level of all other provinces;
2. Move 170,000 elderly and disabled recipients out of the welfare system to a new, separate income supplement programme. Funding for this programme will be guaranteed at current benefit levels;

Section 7-63

3. Replace welfare with a mandatory WorkFare and LearnFare programme that will prepare welfare recipients to return to the workforce by requiring all able-bodied recipients - with the exception of single parents with small children - either to work or be retrained in return for their benefits;
4. Included in this will be a Youth Jobs Corp to provide younger people with the opportunity to learn new skills while performing work for their community;
5. Establish a \$100 million joint public/private/volunteer sector programme to ensure those work opportunities exist;
6. As a transition measure, allow current welfare recipients to earn back the difference between the new benefit levels and the old rates, with no penalty or impact on eligibility;
7. Eliminate an existing policy which grants benefits to 16 and 17 year olds who simply chose to leave home and expand the role of the Children's Aid Society to provide foster care for young people up to 18 who are caught in abusive home environments.
8. End direct deposit of benefits and require in-person pick-up of cheques by recipients;
9. Introduce a photo/smart-card ID system, re-instate home visits, centrally computerize the benefit payment system, and enhance the authority of welfare review officers to conduct welfare fraud inquiries;
10. Facilitate community nutrition programmes for school-age children, and introduce new programmes for literacy, parenting and child support. Minister of Community and Social Services.

2. Mr Harris - Whereas the NDP government unilaterally announced that OHIP would reduce out-of-country hospital coverage for all Ontarians;

Whereas this government change means higher health care costs for every Ontarian, including people travelling for business, families on vacation, and seniors;

Whereas the Canada Health Act guarantees "portability" and states that provincial health plans must pay for out-of-Canada hospitalization at the same rate they would pay for such care at home;

Whereas the Federal Liberal Health Minister refuses to enforce the Canada Health Act and has demonstrated no leadership on this issue;

Whereas the principles of fairness and accountability to those who fund the health care system through their tax dollars have also clearly been violated;

Section 7-64

Whereas the NDP failed to consult with the people affected, failed to determine if this policy is legal, and failed to calculate if savings would truly be made;

Therefore, in the absence of leadership from the Federal government, this House calls on the Minister of Health to support the belief of the people of Ontario in the principle of portability - as enshrined in the Canada Health Act - and immediately restore out-of-country hospital coverage to Ontario rates. Minister of Health.
