This being the first day of the Third Session of the Thirty-fifth Parliament convoked by Proclamation of the Lieutenant Governor for the despatch of business, and the members of the House having assembled:-

His Honour the Lieutenant Governor entered the Legislative Chamber and, having taken his seat on the Throne, was pleased to open the Session by making the following gracious speech:-

Mr. Speaker, Members of the Legislative Assembly, Ladies and Gentlemen:

I have the honour of welcoming you to the opening of the Third Session of the Thirty-fifth Parliament of the Province of Ontario.

This Speech from the Throne is not about business as usual. We are living in times of great change. Ontario, which has for decades been the industrial heartland of this country, the engine driving Canadian manufacturing and exports, has had some hard blows: high interest rates, an over-valued dollar and trade agreements that have not ensured access to markets. We shall continue to work for alternatives to these policies.

The real measure of the recession's impact is what it has done to the people of Ontario. We often hear that over 300,000 jobs were lost in Ontario over the past three years, and that is a sobering number. Each one of those lost jobs represents a life that was changed the day that job disappeared.

A million people in this province have suffered from unemployment. Many thousands have had to turn -- for the first time in their lives -- to public assistance for food, shelter and clothing. The discomfort and anxiety of those people was what most affected this government when it came into office.

We acted immediately. We invested in jobs and training to turn the talents and ambitions of individuals towards achieving economic recovery. We started the job of rebuilding roads, schools and other infrastructure. We acted to preserve our health system with reforms to make it more efficient and affordable. We forged partnerships with individuals and groups in all parts of Ontario to rebuild our economy. Above all, we invested in people, despite falling revenues and failing federal support.

Our constant goal has been to put Ontario back to work. To ensure a robust and sustained recovery. To facilitate the creation of secure, well-paying jobs. There are now clear signs that Ontario's economy is improving. Over the last seven months, 110,000 jobs were created in the province. Exports are increasing. Companies are investing in Ontario again. Turning to the future, it is clear that we face a new challenge. We must all join together to ensure our ability to continue investments in jobs, training, education, and essential services. We must act decisively to control our mounting provincial debt. Just as it made sense in our budgets of 1991 and 1992, at the height of the recession, to accept higher borrowing, it makes equal sense to reduce provincial borrowing now that the recovery is underway.

If we ignore this commitment, the deficit next year will rise from approximately \$12 billion in the fiscal year just ended to about \$17 billion in 1993-94. At the current rate of growth, the total provincial debt would rise to the unacceptable level of \$120 billion by 1995-96. At that point, interest payments on the debt would begin to eat into our budgets for essential services such as health care and education. Ontario would then be trapped in the debt quagmire that has afflicted Canada under the recent Liberal and Conservative administrations. That is what we want to avoid.

Our plan to put Ontario back to work includes immediate action to bring the provincial debt under control. This year we will put the province's finances on a course to ensure we can deliver the jobs and services people expect from their government.

Our economic package includes reductions in government expenditures, raising new revenues through taxes and sale of assets, and the negotiation of a social contract. Our challenge is to turn the need for cost reductions into an opportunity. To maintain investments in jobs and training. To improve essential services. To work out, in partnership with public sector employees and employers, ways to make their work more efficient and the services they provide more affordable.

This government is not unique among provinces in facing fiscal difficulties. What is unique about our situation is the way we have chosen to act. Our approach recognizes that the work public servants do is enormously valuable. It recognizes that the best results for Ontario are those obtained through openness and negotiation.

Some will no doubt say that to embark on major changes is to take risks. We run an even bigger risk by trying to maintain the status quo. If we fail to act now, our public services will become unaffordable. Knowing what we know today, failing to act now would threaten the social and economic gains of not just a government but of a generation.

Our plan to put Ontario back to work goes beyond dealing with deficits. It is a plan that will bring about fundamental reforms in the delivery of government services to the public, and in the cost of those services. Some of its elements, such as health care reform and our investments through jobsOntario, are already in place. Others are being announced for the first time in this Throne Speech.

The goal is to return Ontario to a prosperity that is based on responsible fiscal management; investment in jobs; partnership between government, business and labour; principles of fairness and human dignity; respect for the environment; and an abiding concern to provide for the vulnerable among us, including our children.

To achieve those overall objectives the government is carrying out the following ten-point plan.

INVESTING IN OUR INFRASTRUCTURE

This government has launched more than 1,700 infrastructure projects through the jobsOntario *Capital Fund*, creating more than 9,000 jobs across Ontario. Total capital spending by the government last year created about 75,000 jobs.

In partnership with municipalities and the private sector, we will invest \$6 billion over the next decade to build new highways and public transit, improve water quality and conservation, and expand telecommunications networks. We are introducing legislation this session to establish three new crown corporations -- the Transportation Capital Corporation, the Ontario Clean Water Agency, and the Ontario Realty Corporation -- to make these investments a reality.

The restructuring of Ontario Hydro will ensure that electricity rates support economic renewal by making our industries more competitive and will provide the residents of Ontario with a secure and affordable source of energy.

EMPHASIZING EDUCATION AND TRAINING

Since last summer, the government has helped create more than 19,000 new job opportunities through our jobsOntario *Training* programs. The number of jobs available is growing at the rate of 1,000 per week.

jobsOntario *Training* is getting thousands of people off welfare and into jobs. Employers and employees alike benefit from training to upgrade skills that make our economy more competitive.

The new Ontario Training and Adjustment Board will add to this success. It reflects our commitment to work with labour, business, educators, and the broader community to provide training that offers real opportunities in the real world.

This government recognizes that training cannot be separated from the larger issues involving the quality and cost of our education. Ontario schools must be able to prepare our children for the challenge of world citizenship in the 21st century.

A *Commission on Learning* -- with a focus on elementary and secondary education -- is being established. It will provide all the residents of Ontario an opportunity to help create an education system better able to meet the needs of the future. We will shortly appoint Commissioners, who will be asked to report on their findings by the end of next year.

Province-wide testing of grade 9 students for reading and writing skills will be introduced later this year. Our education system must be more accountable to parents and students. Basic skills in language, maths and science need to be widely shared by all Ontario students.

Our commitment to youth employment is an investment that will be repaid many times over. This summer, we will invest an additional \$25 million in jobsOntario*Youth* to create 10,000 summer jobs, on top of more than \$150 million we have already committed to youth employment this year.

BUILDING PARTNERSHIPS, STRENGTHENING INDUSTRY

This government will continue to develop partnerships with the private sector -- to help Ontario industries grow and compete, while providing more and better jobs.

Our assistance to companies such as Chrysler, Ford, de Havilland, Dominion Castings, and Mitel is paying off, with benefits shared among their numerous suppliers in communities across Ontario. The money we have invested has created and retained jobs, accelerated expansion, and strengthened competitiveness.

This government's Industrial Policy is designed to promote new high-wage and environmentally-sustainable jobs. The Sector Partnership Fund provides investment and support for Ontario companies to work with each other and with labour, in a climate of collaboration.

A strategy to expand and upgrade Ontario's telecommunications capability is underway. Our partnership with the plastics industry has helped set up three new centres for research and development. More agreements with key industrial sectors will be announced this session.

We will also set up a new Ontario Innovation and Productivity Service to assist firms in exploiting the full potential of new technology. A new Ontario Investment Centre will provide "one-stop" shopping for potential investors in Ontario.

To meet the challenges of the new economy, Ontario companies need access to long term capital. In partnership with the private sector, we will establish the Ontario Investment Fund to give companies a new source of long term investment.

SUPPORTING COMMUNITIES AND SMALL BUSINESS

We are acting to bring economic renewal into the heart of our communities, particularly in rural and northern Ontario. The budget will contain details of our Community Economic Development initiative.

This session, new community investment share and loan programs will also be established, to give small and medium-sized businesses better access to money. This will assist people who want to invest in their local communities through business creation and expansion. As well, \$100 million has been raised for venture capital investments in small and medium-sized Ontario companies through labour-sponsored investment funds.

To strengthen economic renewal, Ontario farmers are being provided with cost-effective financing and programs to stabilize farm income.

A Commodity Loan Guarantee Program has been initiated by the government, using a provincial guarantee to provide farmers with lower-cost working capital. Over the next year, this program will give farmers access to \$100 million.

EXPANDING WORKER PROTECTION AND PARTICIPATION

This government will continue its efforts to expand worker participation in economic renewal. Through innovative worker ownership agreements, we are working to save jobs and Ontario communities. Success is reflected in our experience in Sault Ste. Marie, in Kapuskasing, and in Thunder Bay.

Two years ago, the future of the Spruce Falls pulp and paper mill in Kapuskasing was threatened. Working with the community, this government helped negotiate a unique employee ownership agreement that saved the mill -- which recorded profits in 1992. Just last month, we supported an employee buy-out of Provincial Papers in Thunder Bay to preserve several hundred jobs in that community.

In this session, the government will extend pay equity to an additional four hundred thousand working women. Fair pay for the thousands of low-income workers, who are mainly women, caring for our children, our sick, our old people, and our most vulnerable, is a matter of simple justice. While the overall cost of compensation in the public sector needs to be reduced to preserve jobs and essential services, the foundation must be greater fairness. A start has already been made in the pay equity down-payments announced earlier this spring.

REFORMING HEALTH CARE

This government will continue to implement reforms in the health care system, to control health care costs while improving the quality of a service that is the envy of countries throughout the world.

Hospitals are now providing more out-patient care, occupancy rates are decreasing, hospital stays are shorter, more surgery is done as day surgery, and the total number of patients treated is up. Over the previous decade, provincial spending on health care grew on average by about 11 per cent a year. Now, growth is just over one per cent. The process of reform and change must continue. During this session, the government will implement a historic shift in the way we care for people, by introducing an innovative system of long-term care for the elderly and disabled.

SUSTAINING THE ENVIRONMENT

Improving the environment is key to Ontario. In this session, my government will seek approval of the Environmental Bill of Rights. This Bill will ensure that people and communities have the right to a cleaner and safer environment through a more open and accountable decision-making process.

We will also expand our Reduce, Reuse, and Recycle Program, making it the most comprehensive in Canada. New regulations will require separation of recyclables by generators; waste reduction audits by the industrial, commercial, and institutional sectors; packaging audits by major users; and will provide streamlined approvals for 3R sorting facilities.

STRENGTHENING SOCIAL JUSTICE

My government will continue to provide leadership in fighting discrimination of all kinds. We have made significant progress in implementing the recommendations of the Stephen Lewis report on race relations, and will continue these efforts with initiatives such as the Cabinet Round Table on Anti-Racism.

To meet the challenges of rapid change and economic renewal, we must take advantage of the full capabilities offered by our diverse society -- a key advantage in today's global economy.

This government's employment equity proposals will achieve a workable system that draws upon the talents of all Ontarians. We will seek passage of the Employment Equity Act this session.

SUPPORTING FAMILIES, GETTING BACK TO WORK

The social assistance system is not working. No amount of tinkering will fix it. This government believes it is time for fundamental reform.

Our goal is to ensure that Ontarians can raise their children without having to rely on social assistance. We must help get people back to work, with a stronger link to training that is relevant to today's economy. A White Paper setting out plans for reform will be released this summer.

High quality child care is an essential support, particularly for women, to participate in the labour force. The *jobsOntarioTraining Fund* is providing up to 20,000 more subsidized child care spaces, in addition to training and employment opportunities.

CONTROLLING GOVERNMENT COSTS

This government has outlined in recent weeks, the specific steps we are taking to control costs, maintain essential services, and reduce the deficit -- driven by principles of fairness and shared responsibility. We have eliminated eight ministries of government and continued our internal spending controls. We are engaged in the historic act of negotiating a social contract with the 900,000 men and women who make up the public sector in Ontario. Other measures will include further reductions in government expenditures and raising additional revenues.

CONCLUSION

We know the state of the economy requires that we act decisively, and that is what we are doing. But we also know that the ability of people to thrive and enjoy life depends on the community that sustains them -- through education, health, and a respect for fairness and equality.

As a society, we cannot move forward without bringing everyone along. We are in this together. That has been our guiding principle. That we are in this together, to share the benefits, to bear the difficulties as a single community.

Our economic policies are based upon that principle. So are our efforts to build partnerships to deal with issues and opportunities.

Our economic decisions are always guided by a concern for people; by the right of all the residents of Ontario to find in this community the conditions of fairness, respect, and economic opportunity they need to build a better life for themselves and their families.

Ontario remains the province that attracts the greatest number of immigrants from around the world. People of talent and promise come to Ontario because they see it as a place of opportunity. We can learn something from those who have chosen Ontario as a place to live. There are real advantages here that we should all take pride in promoting.

The foundation of what we have built in Ontario is our respect for others, and our concern for each other. Those simple human qualities, combined with our ability to work together, have made Ontario prosperous.

The programs, policies and investments that comprise the government's plan respect that tradition. It is a plan for social and economic change built upon partnership and responsibility. A plan for reform and restructuring that will preserve what is best about Ontario, while challenging all of us to make it better.

May Divine Providence attend your deliberations.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

Monsieur le Président, Mesdames et Messieurs les membres de l'Assemblée législative, Mesdames et Messieurs,

J'ai l'honneur de vous souhaiter la bienvenue à l'ouverture de la troisième session de la trente-cinquième législature de la province de l'Ontario.

Ce discours du Trône revêt un caractère différent de ceux qui l'ont précédé. Nous traversons une période de profonds changements. L'Ontario, qui était depuis des dizaines d'années le coeur de l'industrie du pays, le moteur du secteur manufacturier et des exportations au Canada, a subi de durs coups; des taux d'intérêt élevés, un dollar surévalué et des accords commerciaux qui ne lui ont pas permis d'accéder aux marchés. Nous entendons bien continuer à rechercher des solutions de rechange à ces politiques.

Pour bien mesurer les conséquences de la récession, il faut tenir compte des répercussions qu'elle a eues pour la population ontarienne. On entend souvent dire que l'Ontario a perdu plus de 300 000 emplois ces trois dernières années; c'est un nombre qui fait réfléchir. Car chaque fois qu'un emploi disparaît, une vie est transformée du jour au lendemain.

Or, un million de personnes ont vécu cette expérience dans la province. Des milliers de travailleurs et travailleuses ont dû avoir recours, pour la première fois de leur vie, à l'assistance publique pour se procurer le logement, la nourriture et le vêtement. L'angoisse des personnes touchées sont ce qui a le plus affligé notre gouvernement lorsqu'il est arrivé au pouvoir.

Nous avons agi sans tarder. Nous avons investi dans les emplois et la formation afin de canaliser les talents et les ambitions vers une relance économique. Nous avons entrepris des travaux de réfection des routes, des écoles et d'autres éléments d'infrastructure. Dans le but de préserver notre système de santé, nous avons entamé des réformes visant à le rendre plus efficace et moins coûteux. Nous avons formé des partenariats avec des groupes et des particuliers dans toutes les régions de l'Ontario, afin de favoriser la reprise économique. Par-dessus tout, nous avons investi dans notre population, malgré une diminution des recettes et de l'appui du gouvernement fédéral.

Notre objectif constant a été de relancer l'économie ontarienne, d'assurer un relèvement solide et durable, de faciliter la création d'emplois stables et lucratifs. Des signes évidents indiquent actuellement que notre économie s'améliore. Au cours des sept derniers mois, 110 000 emplois ont été créés dans la province. Les exportations augmentent. Les compagnies ont recommencé à investir en Ontario. Si l'on regarde vers l'avenir, il est évident que de nouveaux défis vont se poser. Il faut unir nos efforts si nous voulons être en mesure de continuer à investir dans la création d'emplois, la formation, l'éducation et les services essentiels. Nous devons prendre des mesures décisives afin de contrôler la dette provinciale qui ne cesse de s'accroître. Dans nos budgets de 1991 et 1992, au plus fort de la récession, il était logique d'emprunter davantage; il est tout aussi logique pour la province de réduire les emprunts maintenant que la reprise économique est amorcée.

Si nous manquons à cette obligation, le déficit passera des quelque 12 milliards de dollars qu'il était à la fin de l'exercice écoulé à environ 17 milliards en 1993-1994. Au train où vont les choses, la dette provinciale totale atteindrait la somme inacceptable de 120 milliards de dollars en 1995-1996. À ce moment-là, le paiement des intérêts sur la dette commencerait à entamer les budgets de nos services essentiels comme la santé et l'éducation. L'Ontario serait alors embourbé dans un endettement comparable à celui du Canada sous les récents gouvernements libéraux et conservateurs. C'est ce que nous voulons éviter.

Notre plan d'action pour relancer l'économie de la province comprend des mesures immédiates pour restreindre la dette provinciale. Nous donnons cette année le coup de barre qui nous permettra de créer des emplois et d'offrir les services que la population attend de son gouvernement.

Font partie de notre plan d'action la réduction des dépenses du gouvernement, l'accroissement de nos recettes au moyen d'impôts et de ventes de biens, ainsi que la négociation d'un contrat social. Le défi consiste à voir la nécessité de réduire les dépenses comme une occasion exceptionnelle. Une occasion de maintenir l'investissement dans les emplois et la formation, d'améliorer les services essentiels, et d'élaborer, en collaboration avec le personnel et les employeurs du secteur public, des moyens de rendre leur travail plus efficace et de réduire le coût des services qu'ils fournissent.

Nous ne sommes pas le seul gouvernement provincial qui soit aux prises avec des difficultés financières. Ce qui est exceptionnel, c'est la façon dont nous avons décidé de passer à l'action. Notre approche reconnaît la valeur du travail des employés du secteur public. Elle reconnaît en outre que si l'Ontario veut atteindre les meilleurs résultats possibles, la négociation et une attitude franche et ouverte s'imposent.

Il s'en trouvera pour dire qu'en opérant de grands changements, nous courons des risques. Or, les risques seront bien plus grands si nous essayons de maintenir le statu quo. À moins de prendre sans tarder les mesures nécessaires, nous n'aurons bientôt plus les moyens d'assurer nos services publics. Dans l'état actuel des choses, ne pas agir immédiatement constituerait une menace pour les progrès sociaux et économiques réalisés non seulement par notre gouvernement, mais par toute une génération.

Notre plan d'action pour assurer la relance économique de l'Ontario ne vise pas seulement le déficit. C'est un plan qui entraînera une réforme fondamentale de la prestation des services du gouvernement, ainsi qu'une réduction du coût de ces services. Certains des éléments envisagés sont déjà en place, tels la réforme du système de santé et nos investissements dans le cadre des programmes boulotOntario. D'autres sont annoncés pour la première fois dans le présent discours du Trône.

Notre but, c'est de rendre à l'Ontario une prospérité fondée sur une gestion responsable des deniers publics, sur l'investissement dans les emplois, sur des partenariats entre le gouvernement, les entreprises et les syndicats, sur des principes de justice et de dignité humaine, sur le respect de l'environnement, et sur un souci constant de subvenir aux besoins des plus vulnérables d'entre nous, notamment nos enfants.

Pour atteindre ces objectifs généraux, notre gouvernement mettra en oeuvre un plan en dix volets:

L'INVESTISSEMENT DANS L'INFRASTRUCTURE

Le gouvernement a lancé plus de 1 700 projets d'infrastructure grâce au fonds boulotOntario *Construction*, créant ainsi plus de 9 000 emplois dans toute la province. Les dépenses en capital engagées par le gouvernement l'an dernier ont doté la province de quelque 75 000 emplois.

En collaboration avec les municipalités et le secteur privé, nous investirons six milliards de dollars au cours des dix prochaines années pour construire des routes et élargir les réseaux de transport en commun, pour accroître la qualité et la conservation de l'eau, et pour développer les réseaux de télécommunications. Afin de concrétiser ces investissements, nous déposerons, au cours de la présente session, des mesures législatives prévoyant l'établissement de trois sociétés d'État — la Société d'investissement dans les transports, l'Agence ontarienne des eaux, et la Société immobilière de l'Ontario.

La restructuration d'Ontario Hydro assurera une tarification qui favorise le renouveau économique en rendant nos industries plus concurrentielles et qui procure à la population ontarienne une source d'énergie sûre à un prix abordable.

L'ACCENT SUR L'ÉDUCATION ET LA FORMATION

Depuis l'été dernier, le gouvernement a contribué à la création de plus de 19 000 emplois grâce à son programme *boulotOntarioFormation*. Le nombre d'emplois offerts augmente au rythme de 1 000 par semaine.

Dans le cadre du programme *boulotOntarioFormation*, des milliers de bénéficiaires de l'aide sociale réintègrent le marché du travail. Les employeurs aussi bien que les employés profitent des programmes de formation qui améliorent les qualifications de la main-d'oeuvre et notre compétitivité économique.

Le nouveau Conseil ontarien de formation et d'adaptation de la main-d'oeuvre ajoutera encore à cette réalisation. Il témoigne de notre engagement à collaborer avec les syndicats, les entreprises, le monde de l'éducation et l'ensemble de la communauté pour que les programmes de formation ouvrent de véritables débouchés sur le marché du travail.

Notre gouvernement reconnaît que la formation ne peut être isolée des grands enjeux de la qualité et des coûts de notre système d'enseignement. Les écoles ontariennes doivent être en mesure de préparer nos enfants à devenir des citoyens et citoyennes du monde au XXI^e siècle.

Le gouvernement a créé la *Commission royale d'enquête sur l'éducation élémentaire et secondaire*, une initiative d'envergure qui donnera à toute la population la chance de contribuer à l'édification d'un système scolaire qui réponde avec une efficacité renouvelée aux besoins de l'avenir. Nous désignerons prochainement les membres de la Commission et leur confierons le mandat de présenter un compte rendu de leurs travaux d'ici la fin de l'année prochaine.

Plus tard au cours de l'année, nous soumettrons tous les élèves de neuvième année à un examen normalisé à l'échelle provinciale pour vérifier leur aptitude à lire et à écrire. Notre système scolaire doit assumer une plus grande part de responsabilité vis-à-vis des parents et des élèves. Tous les élèves de l'Ontario doivent acquérir des compétences de base en langue, en mathématiques et en sciences.

Notre engagement à l'égard de l'emploi des jeunes est un investissement qui sera largement compensé. Cet été, nous consacrerons au programme *boulotOntarioJeunesse* 25 millions de dollars, qui permettront de créer 10 000 emplois d'été et qui viendront s'ajouter à la somme de plus de 150 millions de dollars que nous avons déjà affectée cette année à nos divers programmes d'emploi pour les jeunes.

DES PARTENARIATS ET UNE INDUSTRIE PLUS DYNAMIQUE

Notre gouvernement continuera à former avec le secteur privé des partenariats qui contribueront à la croissance et à la compétitivité des industries de l'Ontario, tout en créant de meilleurs emplois en plus grand nombre.

L'aide financière que nous avons accordée à des compagnies comme Chrysler, Ford, de Havilland, Dominion Castings et Mitel porte fruit et a des retombées sur les nombreux fournisseurs de ces entreprises, dans tout l'Ontario. Nos investissements ont permis à ces compagnies de créer et de sauvegarder des emplois, d'accélérer leur expansion et d'accroître leur compétitivité.

La politique industrielle de notre gouvernement vise à promouvoir la création d'emplois lucratifs, dans des industries dont l'exploitation respecte l'environnement. Le Fonds de partenariat sectoriel fournit aide et financement aux compagnies ontariennes qui collaborent avec d'autres sociétés et avec les syndicats.

Une stratégie d'expansion et d'actualisation des télécommunications en Ontario a été mise en place. Grâce à notre partenariat avec l'industrie des plastiques, nous avons pu assister à la création de trois nouveaux centres de recherche et développement. D'autres ententes avec des secteurs clés de l'industrie seront annoncées au cours de la session.

Nous avons également décidé de mettre sur pied le Service ontarien d'innovation et de productivité, afin d'épauler les entreprises en pleine croissance qui misent sur des approches novatrices et une exploitation maximale des technologies de pointe. Un nouveau centre ontarien des investissements accueillera les investisseurs qui s'intéressent à l'Ontario et regroupera en un seul endroit tous les renseignements et services dont ils ont besoin pour réaliser leurs projets.

Pour relever les défis que pose le contexte actuel, les entreprises ontariennes doivent avoir accès à des emprunts à long terme. En collaboration avec le secteur privé, nous comptons créer le Fonds d'investissement de l'Ontario, lequel mettra une nouvelle source de capitaux à la disposition des compagnies.

L'AIDE AUX COLLECTIVITÉS ET AUX PETITES ENTREPRISES

Nous nous efforçons de lancer l'impulsion du renouveau économique au sein de nos collectivités, particulièrement celles des régions rurales et du Nord de l'Ontario. Le budget de la province contiendra tous les détails de l'initiative de développement économique communautaire.

Durant cette session, nous mettrons en place de nouveaux programmes communautaires d'emprunt et de participation qui faciliteront aux petites et moyennes entreprises l'accès aux capitaux. Ces programmes aideront les gens d'affaires qui veulent investir dans leur propre localité, en fondant une entreprise ou en donnant de l'expansion à une entreprise existante. En outre, les fonds d'investissement des travailleurs ont permis de mobiliser 100 millions de dollars en capital de risque pour des petites et moyennes entreprises de l'Ontario.

Soucieux de consolider le renouveau économique, nous avons tenu à ce que les exploitations agricoles de l'Ontario puissent bénéficier d'un financement abordable et de programmes de stabilisation du revenu.

Notre gouvernement a créé un programme de garanties d'emprunt pour les produits agricoles, qui fait appel à une garantie offerte par la province et vise à fournir des fonds de roulement à meilleur compte. Au cours de l'année à venir, les agriculteurs et agricultrices auront ainsi accès à plus de 100 millions de dollars.

UNE MAIN-D'OEUVRE MIEUX PROTÉGÉE, AUX COMMANDES DE SA DESTINÉE

Notre gouvernement continuera à encourager les travailleurs et travailleuses à jouer un rôle accru dans le renouveau économique. Par des accords novateurs de participation des travailleurs à l'entreprise, nous contribuons à sauvegarder des emplois et à préserver la vigueur économique des collectivités ontariennes. Nous pouvons nous réjouir du succès de nos efforts en ce sens à Sault Ste. Marie, à Kapuskasing et à Thunder Bay.

Il y a deux ans, l'avenir de la papeterie Spruce Falls à Kapuskasing s'annonçait plutôt sombre. En s'associant à la population locale, le gouvernement a présidé à la négociation d'une entente, unique en son genre, d'actionnariat du personnel. L'entreprise a évité la faillite et a recommencé à réaliser des bénéfices en 1992. Plus récemment, c'est-à-dire le mois dernier, nous avons appuyé le rachat de Provincial Papers à Thunder Bay par ses employés, ce qui a permis de garder plusieurs centaines d'emplois dans cette ville.

Au cours de la session qui s'ouvre, le gouvernement fera en sorte que 400 000 travailleuses de plus bénéficient de l'équité salariale. La simple justice veut que soient rémunérés équitablement les milliers de travailleurs à faible revenu, en majorité des femmes, qui prennent soin de nos enfants, de nos malades, de nos aînés et des membres les plus vulnérables de notre société. Bien qu'il soit nécessaire de réduire la masse salariale du secteur public pour protéger les services essentiels et les emplois, nous devons également fonder notre gestion sur une plus grande équité. Nous avons déjà commencé à verser les premiers paiements annoncés au début du printemps dans le cadre des mesures d'équité salariale.

LA RÉFORME DU SYSTÈME DE SANTÉ

Notre gouvernement continuera de réformer le système de santé et d'en contrôler les coûts tout en améliorant la qualité de ses services, qui font l'envie du monde entier.

Les hôpitaux dispensent davantage de soins en cliniques externes, les taux d'occupation diminuent, les séjours à l'hôpital sont moins longs, on pratique davantage d'interventions chirurgicales sans hospitalisation, et on note une augmentation du nombre de patients traités. Dans les années 1980, les sommes affectées aux services de santé augmentaient en moyenne de 11 pour 100 par année. Aujourd'hui, l'augmentation annuelle n'est que légèrement supérieure à un pour cent. La réforme et la réorientation du système doivent se poursuivre. Au cours de la session, notre gouvernement apportera des modifications historiques à la prestation des services de santé en mettant sur pied un système innovateur de soins de longue durée pour les personnes âgées et celles qui ont un handicap.

UN ENVIRONNEMENT VIABLE

Il est essentiel d'améliorer notre environnement. Au cours de la session, notre gouvernement entend adopter la Charte des droits environnementaux, qui garantit aux particuliers et aux localités le droit de jouir d'un environnement sain et sûr en ouvrant le processus décisionnel et en responsabilisant davantage les décideurs.

De plus, nous élargirons notre programme de réduction, de réutilisation et de recyclage, souvent appelé programme 3R, qui deviendra le plus vaste au Canada. Par ailleurs, nous adopterons de nouveaux règlements qui obligeront les producteurs de déchets à trier les produits recyclables, les industries, les entreprises commerciales et les établissements publics à effectuer des vérifications de la réduction des déchets, et les principaux consommateurs à effectuer des vérifications de la réduction des emballages. En outre, ces nouveaux règlements simplifieront l'approbation des installations de triage mises sur pied dans le cadre du programme 3R.

UNE SOCIÉTÉ JUSTE

Notre gouvernement continuera de donner l'exemple dans la lutte contre toutes les formes de discrimination. Nous avons fait beaucoup de progrès dans la mise en oeuvre des recommandations du rapport de Stephen Lewis sur les relations interraciales, et nous poursuivrons nos efforts en ce sens, comme en témoigne la création de la Table ronde du Conseil des ministres sur l'antiracisme.

Pour relever les défis que présentent l'évolution rapide de notre milieu et le renouveau économique, nous devons tirer parti de tous les atouts d'une société aussi diversifiée que la nôtre, qui sont autant d'avantages à l'heure de la mondialisation de l'économie.

Les propositions du gouvernement en matière d'équité d'emploi permettront de mettre sur pied un système efficace faisant appel aux talents de tous les Ontariens et Ontariennes. En outre, nous entendons adopter la *Loi sur l'équité en matière d'emploi* au cours de la présente session.

L'AIDE AUX FAMILLES ET LE RETOUR AU TRAVAIL

Le système d'aide sociale ne fonctionne pas, et les remaniements mineurs ne règlent rien. Notre gouvernement estime qu'il est temps de procéder à une réforme majeure.

Notre objectif est de veiller à ce que les Ontariens et Ontariennes puissent élever leurs enfants sans devoir recourir à l'aide sociale. Nous devons aider les gens à retourner au travail en mettant l'accent sur une formation qui corresponde aux attentes du marché d'aujourd'hui. À cet effet, nous publierons cet été un livre blanc décrivant nos projets de réforme.

Des services de garderie d'excellente qualité sont indispensables si l'on veut aider la population, et plus particulièrement les femmes, à entrer sur le marché du travail. Le programme *boulotOntarioFormation* fournira jusqu'à 20 000 nouvelles places subventionnées en garderie, en plus d'offrir des programmes de formation et de créer des emplois.

LE CONTRÔLE DES DÉPENSES DU GOUVERNEMENT

Au cours des dernières semaines, notre gouvernement a annoncé les mesures qu'il prendra pour contrôler les dépenses, maintenir les services essentiels et réduire le déficit, en s'appuyant sur des principes d'équité et de partage des responsabilités. Nous avons éliminé huit ministères et poursuivi nos initiatives internes de contrôle des dépenses. Nous venons de poser un geste historique en entamant la négociation d'un contrat social avec les 900 000 hommes et femmes qui constituent le secteur public de la province. Enfin, nous réduirons encore davantage les dépenses du gouvernement et prendrons d'autres mesures en vue d'accroître nos recettes.

CONCLUSION

Nous savons que le contexte économique actuel exige des mesures décisives, et nous les prenons. Nous savons également que la collectivité ne peut prospérer et s'épanouir que si elle peut compter sur l'éducation, les services de santé et le respect de valeurs comme la justice et l'égalité.

Nous ne pouvons progresser à moins que toute la société n'emboîte le pas. Nous sommes solidaires les uns des autres. C'est là notre principe directeur. Nous partagerons les fruits de nos efforts et surmonterons les difficultés ensemble, comme une seule et même communauté.

Nos politiques économiques reposent sur ce principe, tout comme les partenariats que nous formons pour régler les grandes questions et faire naître de nouvelles possibilités.

Nos décisions économiques tiennent toujours compte des préoccupations de la population et sont fondées sur le droit de tous les Ontariens et Ontariennes de vivre dans un milieu juste, respectueux et prospère qui leur permette d'améliorer leurs conditions de vie et celles de leur famille.

L'Ontario demeure la province qui attire le plus grand nombre d'immigrants de tous les pays du monde. Ces personnes choisissent de s'établir ici parce qu'elles y voient une terre pleine de promesses, où elles pourront faire fructifier leurs talents et leurs aptitudes. Nous pouvons tirer une leçon de cette vision des choses. Notre province offre des avantages bien concrets que nous devrions tous être fiers de promouvoir.

Le respect d'autrui et l'importance que nous accordons au bien-être de nos concitoyens et concitoyennes sont le fondement même de notre province. Ce sont ces qualités toutes simples, de même que notre capacité de collaborer à la poursuite d'un but commun, qui sont à la base de notre prospérité.

Les programmes, politiques et investissements qui forment le plan d'action du gouvernement respectent cette tradition. Il s'agit d'un plan axé sur le partenariat et la responsabilité, qui ouvrira la voie à des changements sociaux et économiques, un plan de réforme et de restructuration qui préservera ce que l'Ontario a de mieux à offrir et qui nous incitera tous et toutes à améliorer ces acquis.

Puisse la divine Providence guider vos délibérations.

Au nom de notre souveraine, je vous remercie.

Dieu bénisse la reine et le Canada.

Mr Duignan moved,

M. Duignan propose,

Second Reading of Bill 62, An Act to amend the Environmental Protection Act in respect of the Niagara Escarpment.

Deuxième lecture du projet de loi 62, Loi modifiant la Loi sur la protection de l'environnement à l'égard de l'escarpement du Niagara.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Ms Poole then moved,

Ensuite, Ms Poole propose,

That, in the opinion of this House, since in an increasingly violent society, we as legislators have publicly condemned violence against women and children; and

since slasher films brutally and graphically depicting the torture, mutilation and death of young women are now being distributed throughout Ontario in neighbourhood video stores; and

since slasher films can be sold and rented with no indication of their content or classification; and

since the Government of Ontario does not have a policy, nor enforcement mechanisms, in place to effectively deal with slasher films:

therefore the Government of Ontario should immediately complete its review of the mandate, jurisdiction, enforcement mechanisms and classification system of the Ontario Film Review Board, including the following recommendations:

that the Theatres Act which currently requires that all films sold or rented in Ontario be reviewed and classified by the Ontario Film Review Board, be exercised to its fullest;

that inspectors be hired to monitor videos which are sold or rented in Ontario to ensure all films have been reviewed, classified and approved by the Ontario Film Review Board, with particular concern for the well-being of our children;

that substantial and appropriate penalties be imposed on unlicensed distributors, and on retailers who carry videos not reviewed, classified and approved by the Ontario Film Review Board;

that stickers showing classification by the Ontario Film Review Board be attached to all videos for sale or rent in Ontario, both on the videos and on their covers, together with a requirement that an explanation of these classifications be displayed to the public wherever these videos are rented or sold;

that the rating system be strengthened and the guidelines set out in the Theatres Act be strictly adhered to by the Ontario Film Review Board, to ensure that films which blatantly celebrate violence are considered unacceptable in accordance with community standards.

Upon completion of this review, the Government of Ontario should enact policy initiatives, and, if necessary, introduce legislation to ensure the protection of women and society against the proliferation of slasher films in this province.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on the motion for Second Reading of Bill 62, An Act to amend the Environmental Protection Act in respect of the Niagara Escarpment the question having been put, was declared carried and the Bill was accordingly read the second time and Ordered referred to Standing Committee on Resources Development.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Ms Poole's Resolution Number 3, the question having been put, was carried on the following division:-

Conformément à l'article 96(e) du Règlement, la motion portant deuxième lecture du projet de loi 62, Loi modifiant la Loi sur la protection de l'environnement à l'égard de l'escarpement du Niagara n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée et le projet de loi est en conséquence lu une deuxième fois et déferé au Comité permanent du développement des ressources.

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 3 de Ms Poole n'a pas fait l'objet d'opposition et la motion, mise aux voix, est adoptée par le vote suivant:-

THE AFTERNOON SITTING
1:30 P.M.

SÉANCE DE L'APRÈS-MIDI
13 H 30

The Speaker delivered the following ruling:-

On Tuesday last, the Honourable Member for Renfrew North (Mr Conway) was in the process of placing the second lead-off question for the day when I interrupted him. The reason I did so was that I was preoccupied by the fact that the Minister without Portfolio to whom he was attempting to place the question is of a definition that has never existed before in Ontario and I wanted to assure myself that putting questions to them respected the letter and intent of our rules and practice.

After my interruption, the same honourable member as well as the members for Parry Sound (Mr Eves), Carleton (Mr Sterling), York Centre (Mr Sorbara), Parkdale (Mr Ruprecht), Etobicoke West (Mr Stockwell), the Honourable Government House Leader (Mr Charlton), as well as the member for Mississauga West (Mr Mahoney), took part in the arguments on this point of order, for which I thank them.

The main reason for my intervention can be found at page 120 of Beauchesne's 6th Edition in Speaker Jerome's 1975 ruling to the House of Commons on the subject of Question Period, where he enumerates a certain number of principles that have always guided the Speaker in the context of Question Period and I quote:

"A brief question seeking information about an important matter of some urgency which falls within the administrative responsibility of the government or of the specific Minister to whom it is addressed, is in order."

The important word here is "responsibility" and I will come back to it later.

As I have said, the situation before us is a new one in Ontario. We have never had in this Legislature, as Members of the Executive, ministers who have been styled Ministers without Portfolio in brackets, who do not sit at the Cabinet Table. These members have been sworn in

as ministers but do not participate in the Cabinet process. I think that point was made very clear the other day by the honourable member for York Centre (Mr Sorbara). We have had Ministers without Portfolio before in Ontario but to my knowledge, all of them have had a seat in Cabinet, have had a specific designation of responsibility, a specific budget in the Estimates and specific public servant staff to help them in meeting their responsibilities.

The six members presently described as Ministers without Portfolio, to my knowledge have a general designation but do not have the other important attributes of their colleagues who sit at the Cabinet Table. So, as far as Question Period in the House is concerned, to come back to the matter at hand, the Ontario practice to date has been very clear and can be described in the following sentence: Ministers without Portfolio may answer questions if they have a program responsibility with all of what that responsibility implies in this case. In the past it was perfectly normal to address questions to these ministers because everyone knew exactly what responsibilities they had within the Executive and so the House and the Speaker could know what the parameters of those responsibilities were.

During the presentations made to me in the House, members referred to the status of Ministers of State in Ottawa and junior Ministers at Westminster and made the point to me and to the House that in those two Parliaments, those Ministers without Portfolio, did in fact, answer questions. The members in this case were absolutely correct but the situation both in Ottawa and at Westminster is very different.

In Ottawa, the Ministers of State referred to, all sit at the Cabinet Table. Secondly, in Ottawa, the referral system during Question Period does not function at all the way it does here. For example, the Minister of Transport could very easily choose to informally indicate to the Minister of State (Transport) to answer a specific question and conversely, the Minister of Transport could choose to answer if he or she desired, a question which had been addressed specifically to the Minister of State (Transport), without there being any need for an official referral as we have here.

At Westminster, the whole Oral Question situation takes place in a completely different context than it does here and for that reason it is very difficult to take guidance from them. Members will know that all questions at Westminster have to be submitted in writing a good time before the appointed day for an oral answer to be given in the House. In that case, the senior Minister will decide who answers questions on the appointed day because a further difference at Westminster is that Ministries have designated days in the House on which they are to answer questions that have been chosen for presentation on that day.

In the Australian House of Representatives, "junior ministers" may not answer questions. This is indicated in the Australian House of Representatives Practice at page 514 as follows:

It is considered that Ministers alone are responsible and answerable to Parliament for the actions of their department. The standing orders do not provide for Assistant Ministers and Parliamentary Secretaries or Under Secretaries to be questioned on matters of government administration.

The rationale for this restriction on junior or assistant Ministers in Australia is set out clearly in the report of the House of Representatives' Standing Orders Committee of March 20 1972. It states:

In considering the functioning of Assistant Ministers in the House the Committee saw no objection to Assistant Ministers presenting papers and moving motions for their printing or for the House to take note of the papers. However, concern was expressed that no action should be taken which would tend to lessen the responsibility in the House of a Minister for the administration of his Department or which would affect his answerability or enable him to evade his responsibility by having an Assistant Minister act for him.

Finally, to get back to our situation here at the Ontario Legislature and faced with questions addressed for the first time to Ministers without Portfolio, having a general ministerial designation put in brackets, who do not sit at the Cabinet Table and who do not have specific program responsibilities, I have to decide whether questions to these members conform to the spirit of our rules and practice. Our Standing Order 33(a) refers to Ministers of the Crown and was written at a time when all Ministers of the Crown sat at the Cabinet Table and therefore were also Cabinet Ministers. These six members are Ministers of the Crown.

On the other hand, our practice by necessity has up till now applied only to Ministers of the Crown who were at the same time Cabinet Ministers because they were one and the same.

In conclusion therefore, because this is a new situation, because the Speaker does not give legal or constitutional advice and even though there remain doubts in my mind as to the appropriateness of putting questions to these ministers, I will allow the questions to be put for two reasons.

Firstly, because our Standing Orders provide that these ministers might wish to refer the questions to the senior Ministers and also that they are under no obligation, under our Standing Orders, to reply to the questions. The second reason is that the procedure of putting and answering questions in our House has no legal consequence but I would like the House to consider that there might be other situations that apply to these new ministers which are not so easily resolved and might be very problematic. While not having made an extensive list, two of them come to mind. First, should a Minister without Portfolio who does not sit at the Cabinet Table and who therefore does not participate in Cabinet solidarity, present and be made responsible for a Government Public Bill? Secondly, should such a Minister be made responsible for defending Estimates before the Estimates Committee, while not taking part in the responsibilities of administration in a precise ministerial environment? Both of these are rhetorical questions at this point and I am sure Members on both sides of the House will want to reflect upon them.

The amendment to the motion as follows:-

La modification de la motion est la suivante:-

That the motion be amended by adding the following thereto:-

That this House regrets that the Speech from the Throne only confirms the government's inability to provide a clear strategy to support the recovery of Ontario's economy, generate and encourage economic investment, create jobs, and aid those who are unemployed and on social assistance to get back into the workforce, and condemns the government for:

Failing to understand the deep and lingering impact of the recession on the people of this province;

Refusing to recognize that government initiatives to encourage job creation have failed;

Failing to take action that would restore investor confidence and build lasting partnerships with the private sector in order to aid in this province's economic renewal;

Failing to see how increased taxation will hinder economic recovery;

Failing to provide a carefully considered programme to control the deficit;

and, failing to provide leadership by recognizing that the continuing disintegration of the government's integrity is causing immeasurable harm and a loss of confidence in the government of Ontario.

DOUZIÈME JOUR
LUNDI 3 MAI 1993

PRAYERS

PRIÈRES

The Speaker delivered the following ruling:-

Last Tuesday, the member for Renfrew North (Mr Conway) rose in the House to bring to my attention 2 matters arising out of developments at the organization meeting of the Standing Committee on Resources Development on the previous day.

Additional submissions were made by the member for Etobicoke West (Mr Stockwell), the member for Welland-Thorold (Mr Kormos), and the Government House Leader (Mr Charlton).

Let me say at the outset that, generally, the Speaker does not intervene in a matter that is before a duly constituted standing or select committee of this House unless that matter is appealed to the Speaker by a majority of the members of the committee. However, since it is logistically impossible for there to be an appeal when a Committee Chair has not even been selected, as was the case in the Standing Committee on Resources Development last Monday, it is open to the Speaker to review the procedural occurrences that transpired at that time.

The first matter raised by the member for Renfrew North dealt with the ability of a Whip to make a temporary substitution for a permanent member of a standing committee. In this regard, Standing Order 110(c) states as follows:

A temporary substitution in the membership of a standing or select committee may be made provided a notification thereof, signed by the member acting as the Whip of a recognized Party, is filed with the Clerk of the Committee either before or within 30 minutes of a committee meeting being called to order.

In the case at hand, the member for Welland-Thorold had been made a permanent member of the Standing Committee on Resources Development by virtue of an April 20, 1993 order of the House. The member attended the Committee's organization meeting last Monday afternoon, at which time the Clerk of the Committee initiated the procedure for electing a Chair for the Committee. In the course of the meeting, the Clerk of the Committee duly and properly indicated that she had received a substitution slip that purported to temporarily substitute the member for Kingston and The Islands (Mr Wilson) for the member for Welland-Thorold pursuant to Standing Order 110(c). Members will know that the member for Welland-Thorold, and other members in attendance, challenged the validity of the substitution slip. In the end, the members of the Committee dispersed without electing a Chair.

I will make certain observations concerning these developments. First, Standing Order 110(a) provides for the membership of standing and select committees. Second, a permanent member of a committee and a member purporting to sit on the committee by virtue of a substitution slip

cannot both sit on the committee at the same time. And third, while Standing Order 110(c) is silent on this point, the intention of that Standing Order could not have been to prevent a permanent member appointed by the House from sitting on the committee in circumstances where that member attends the committee with a definite view to sitting on it.

I say, then, that in situations such as the one before me now, the permanent member will be the sitting member if he or she actually attends the committee meeting and then indicates, within 30 minutes of the committee meeting being called to order, that he or she does not relinquish this entitlement. If these requirements are not met, then the member attending the committee meeting pursuant to a valid substitution slip will be the sitting member.

On a related matter, the member for Renfrew North expressed some concerns as to whether a member could hold the positions of parliamentary assistant and Committee Chair at the same time. While I have some sympathy for the rationale behind the member's concern, he will know that our recent practice has been to permit a parliamentary assistant to become a Committee Chair without resigning his or her position as parliamentary assistant.

I want to thank the member for Renfrew North and the other members who spoke to the point of order. I know that all members join me in thanking the Clerk of the Standing Committee on Resources Development for her handling of the delicate situation last Monday afternoon.

ORDERS OF THE DAY

ORDRE DU JOUR

Opposition Day

Jour de l'opposition

Mr Harris moved,

M. Harris propose,

Recognizing that the Ontario economy is experiencing significant structural change and acknowledging that the future well-being of all Ontarians, the maintenance of vital public services and the improvement of our standard of living depend on the ability of the province to attract new job-creating investment and on the capacity of Ontario firms and workers to compete in the global economy and to exploit new opportunities and markets; and realising that huge deficits and high taxes limit the capacity of the province to compete for investment and jobs and to finance priority services, this House calls on the government:-

- to ensure that its 1993 Budget does not increase the tax burden on investors, consumers and businesses,
- to signal its determination to control public sector costs by setting a deadline for negotiations on the "social contract" and to issue a clear statement that it will introduce legislation to achieve its cost-reduction targets in the event that the negotiations break down,
- to give a commitment that any trade-offs in the social contract will not limit the flexibility of the government or of public sector managers to pursue the structural reforms in the delivery of public services necessary to improve efficiency and cost effectiveness,
- to introduce legislation to direct arbitrators in labour disputes in the Ontario public service and the broader public sector to consider the employer's ability to pay in light of current provincial fiscal policy in making their decisions.

Mr Cleary moved,

M. Cleary propose,

That, in the opinion of this House, since the Government of Ontario has not adequately addressed the effects of the recession on employment opportunities in Eastern Ontario; and

since over 3,000 jobs have been lost in the Cornwall area during the past two and a half years; and

since the Ontario Ministry of Labour cited the local unemployment rate to be between 30 and 40 percent; and

since an estimated 40 percent of Cornwall's population is dependant upon some form of social assistance; and

since the NDP Government of Ontario reneged on a 1990 commitment to relocate a government agency, branch or ministry to the Cornwall area; and

since the NDP Government of Ontario reneged on a 1990 commitment to construct a substance abuse treatment centre in the City of Cornwall; and

since Cornwall was completely overlooked in the Ontario Development Corporation's most recent announcement of job-creation loans worth more than \$5 million; and

since the Government of Ontario announced in 1990 that the City of Cornwall would benefit from the relocation of an Ontario ministry office; and

since construction of a new Government of Ontario building will begin in the City of Cornwall shortly; and

since this Government of Ontario building has the potential to accommodate a ministry;

The Government of Ontario should therefore act immediately to create new and permanent jobs for the Cornwall area by locating one of the three recently announced Crown Corporations in the Government of Ontario building in Cornwall.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mr Sterling then moved,

Ensuite, M. Sterling propose,

That in the opinion of this House, since all interprovincial trade barriers should be removed as soon as possible;

And since the Province of Ontario has been negotiating with the Province of Quebec for over 15 years to allow equal access to construction jobs and construction contracts in both provinces;

And since Quebec workers and Quebec contractors have free access to the Ontario construction market;

And since Ontario workers and Ontario contractors are not allowed free access to the Quebec construction market;

And since negotiation has proved fruitless and the patience of the people of Eastern Ontario is exhausted;

Therefore, Ontario should declare a Quebec-Ontario Construction Employment and Equity Policy which would include the following statement as a condition of tendering for Quebec bidders:

That, until the preferential restrictions in Quebec currently applying to non-Quebec businesses and labour are repealed, only those having their principal place of business in Ontario be allowed to bid unless specifically invited.

That, the term "principal place of business" will be interpreted to mean the principal establishment from which the business of a firm, as it relates to the tender, is directed and where the supervisory staff and equipment are ordinarily located.

That, the coverage of the policy will include for Construction:

Prime contracts, sub-contracts, goods supplied, goods supplied and installed, services within these contracts;

That, there be a term inserted in all construction contracts that a construction contractor or subcontractor must give hiring preference to an Ontario resident over a Quebec resident;

That, the Ontario Government insist these conditions be included in any construction contract for which it is providing partial or full funding;

That, this policy be immediately terminated when Ontario construction workers and contractors have equal access to the Province of Quebec.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Cleary's Resolution Number 4, the question having been put, was lost on the following division:-

The Speaker addressed the House as follows:-

I beg to inform the House that I have today laid upon the Table the Eighteenth Annual Report of the Commission on Election Finances for the year 1992 / dix-huitième rapport annuel de la Commission sur le financement des élections pour l'année 1992 (Sessional Paper No. 38) (Tabled May 12, 1993).

The Speaker delivered the following ruling:-

Last Thursday, the member for Leeds-Grenville (Mr Runciman) rose in the House on a question of privilege.

The member indicated that his privileges had been violated because certain ministers had yet to respond to questions he had placed in the course of Oral Question Period on 2 separate days in the previous week. The ministers had apparently taken the questions as notice. In response to the member's concern, let me say that Standing Order 33(a), which provides that a "minister may take an oral question as notice to be answered orally on a future Sessional day", does not require the question to be answered within a specified time. Nor does it provide for an enforcement mechanism.

On a separate matter, the member indicated that members' privileges had been violated by virtue of a meeting between the Premier and a senior ministry official. The member went to some effort to research what is often referred to as the convention of 'responsible government', but I have to say that his submissions do not constitute grounds for intervention by the Speaker.

I say, then, that no *prima facie* case of privilege has been established on the matters raised by the member for Leeds-Grenville, but I do thank him for the way in which he has brought his concerns to my attention.

Mr Huget moved,

M. Huget propose,

That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and
- 2) recognizing that different legislative and regulatory requirements and different policies and guidelines have been established under each of these statutes to regulate the delivery of social assistance in the Province; and
- 3) recognizing that in the existing administrative frameworks established under each of these statutes, social assistance is delivered by different levels of government; and

- 4) recognizing that the existing legislative and administrative frameworks are complex and cumbersome, and cause confusion and duplication; and
- 5) recognizing that the Advisory Group on New Social Assistance Legislation recommends in its May 1992 report entitled "Time for Action" that social assistance in Ontario be delivered by only one level of government and be governed by only one piece of legislation;

the Government of Ontario should consider replacing the General Welfare Assistance Act and the Family Benefits Act with one new piece of legislation governing the delivery of social assistance in the Province; the new legislation should have a preamble and a purpose clause that would state the underlying values of the administrative system and the fundamental objectives of social assistance; and

the Government of Ontario should consider replacing the existing administrative frameworks with a new, unified single-tier administrative system where social assistance would be delivered by only one level of government; and

in keeping with the May 1992 First Nations' Project Team Report entitled "Principal Report on New Social Assistance Legislation for First Nations in Ontario", any negotiations between the Government of Ontario and the First Nations on the administration and delivery of social assistance should be done in recognition of the Statement of Political Relationship, signed on August 6, 1991 by the Government of Ontario and First Nations representatives.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mr Grandmaître then moved,

Ensuite, M. Grandmaître propose,

That, in the opinion of this House, since for years a number of irritants and obstacles have hindered the free movement of people, goods and services from one side of the Ottawa River to the other in the National Capital Region; and since the National Capital Region could become a national model of economic integration reflecting the cultural duality of Canada; and since, at the present time, the Regional Municipality of Ottawa-Carleton and the Communauté urbaine de l'Outaouais have struck a joint committee for the purpose of breaking down existing barriers; and since the joint committee has already passed two resolutions, one for purchasing on an unrestricted, competitive basis, and one for personnel recruitment without regard to place of residence; and since furthermore, the

Que, de l'avis de cette Chambre, étant donné que depuis des années il existe des frictions et des obstacles qui constituent autant d'entraves à la libre circulation des gens, des biens et des services d'un côté à l'autre de la rivière des Outaouais dans la région de la capitale nationale; et que la région pourrait devenir un modèle national d'intégration économique reflétant la dualité culturelle du Canada; et que, à l'heure actuelle, la municipalité régionale d'Ottawa-Carleton et la Communauté urbaine de l'Outaouais ont mis sur pied un comité conjoint dans le but de faire disparaître les barrières existantes; et que, déjà, le comité a adopté des résolutions, l'une pour une politique d'achat sur une base ouverte et concurrentielle et l'autre pour le recrutement du personnel sans égard au lieu de résidence; et que, de plus, le comité a

committee has launched an in-depth study into the situation in the construction industry with a view to alleviating the sources of frustration in that industry, as well as a project for identifying inter-provincial barriers that need to be eliminated; Therefore, the Minister of Intergovernmental Affairs should take steps, including setting up discussions with the Minister's Quebec counterpart, so that the positive initiatives undertaken at the regional level can be followed up at the provincial level at the earliest possible opportunity.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Huges's Resolution Number 6, the question having been put, was declared carried.

And it was,

Resolved, That, in the opinion of this House,

- 1) recognizing that currently two pieces of legislation govern the delivery of social assistance in the Province: the General Welfare Assistance Act and the Family Benefits Act; and

commandé une étude approfondie de la situation dans l'industrie de la construction pour éliminer les frustrations historiques dans ce domaine et qu'il a également lancé un projet d'identification des barrières interprovinciales devant être détruites; Par conséquent, le ministre des affaires intergouvernementales devrait prendre des mesures, y compris entamer des discussions avec son homologue du gouvernement du Québec, pour que les initiatives positives lancées au niveau régional soient poursuivies au niveau provincial le plus tôt possible.

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 6 de M. Huges n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée.

ORDERS OF THE DAY

Opposition Day

With unanimous consent, in the absence of Mrs McLeod, Mr Mahoney moved,

Recognizing that, since taking office, the NDP government has consistently mismanaged the financial affairs of the province and has been unable to devise a plan to pull the economy out of the recession;

And whereas there are 550,000 people without work in the province of Ontario;

And whereas 214,000 have joined the unemployment line since the NDP government came to power;

And whereas for over two years, the NDP government ignored the Liberal caucus' calls for fiscal restraint, failed to recognize the serious nature of Ontario's fiscal crisis until far too late, and has now engaged in a poorly thought-out last minute exercise to cut spending that will transfer the burden of restraint to school boards, hospitals, municipalities, colleges and universities and social service agencies and will affect most Ontarians in their daily lives, without adequately addressing the Ontario government's own operations;

ORDRE DU JOUR

Jour de l'opposition

Avec le consentement unanime, en l'absence de M^{me} McLeod, M. Mahoney propose,

And whereas, when in power, the Conservative Party ran deficits for 15 straight years prior to 1985, and left Ontario with accumulated debt of \$30 billion;

And whereas, when in power, the Conservative Party averaged 12% spending increases annually between 1980 and 1985;

And whereas, during its last five years in power, the Conservative Party averaged deficits of \$2.1 billion annually;

And whereas, when in power, the Liberal government was the only government to balance its budget in Ontario in the last 20 years;

And whereas the federal Conservative government has failed to manage the national economy, left Canadians over \$450 billion in debt and has produced a do-nothing budget that fails to reassure international investors;

And whereas the people of Ontario are becoming increasingly concerned about their future and the future of their children, due to the fact that they have no confidence in the ability of the NDP government to restore economic security and health to the province of Ontario;

Therefore the Liberal caucus calls upon the government to take a common-sense approach to managing the economy and to implement the following recommendations:

1. Create an economic climate in which job creation and economic renewal are their number one priority;
2. Get its own fiscal house in order through genuine reorganization and restructuring and elimination of waste in order to get the deficit under control.
3. Refuse to increase taxes in order to protect fragile economic recovery and encourage an economic climate that will lead to job creation.
4. Review expensive programs such as the \$1.1 billion JobsOntario Training program, the \$30 million bureaucracy created by the Advocacy legislation and the Interim Waste Authority that has cost taxpayers \$30 million so far.
5. Ease the regulatory burden on business by reviewing the NDP's anti-job legislation, such as Bill 40, and eliminating the costly bureaucratic bottlenecks in areas such as land use planning and the WCB.
6. Focus on training and retraining to help people get back to work and to make our work force more attractive to international investors.
7. Introduce measures to alleviate youth unemployment to give our 140,000 unemployed young people hope for the future.

Mrs Witmer moved,

M^{me} Witmer propose,

That, in the opinion of this House,

Recognizing that the Workers' Compensation Board has an \$11 billion unfunded liability that is growing at the astonishing rate of \$100 million a month;

And since the average employer's assessment has more than tripled since 1980;

And since skyrocketing workers' compensation premiums are delivering death blows to many existing businesses and making Ontario less attractive for new business, investment and jobs;

And since despite this fiscal crisis, the Board continues to make questionable decisions, such as the plan to spend \$180 million on a new office complex in downtown Toronto;

And since despite this fiscal crisis, the Board continues to expand the scope of coverage into areas such as unpaid student trainees and chronic stress;

And since the workers' compensation system is seriously failing to address the legitimate needs and aspirations of those it's supposed to help - injured workers, who experience excessive delays when they file claims;

And since this crisis at the Workers' Compensation Board is a result of the fact that rather than remaining true to its original conception as a workplace accident insurance plan, the W.C.B. has become a universal system to compensate everyone for everything, in effect, an employer-funded social safety net;

And since other provinces, such as Manitoba and New Brunswick, have taken effective steps to regain control of their workers' compensation systems,

Therefore, the Government of Ontario should take immediate steps to rectify problems with the workers' compensation system in Ontario including an inquiry into the feasibility of privatizing workplace accident and injury insurance. In the interim to control the unfunded liability of the W.C.B. and costs to employers the government should:-

1. Impose a moratorium on all new entitlement until there's a plan in place to deal with the unfunded liability; and

2. follow the lead of New Brunswick and Manitoba and reduce benefit levels and streamline administrative procedures; and
3. Adopt a value-for-money approach to rehabilitation and institute value-for-money audits of the Board's operations.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mr Farnan then moved,

Ensuite, M. Farnan propose,

That, in the opinion of this House,

1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and
3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and
8. since Canadian distributors, most of whom are based in Ontario, are ready and able to buy separate Canadian distribution rights to successful foreign and independently produced American commercial films;

the Government of Ontario should work with the other provincial governments to urge the federal government to:-

1. establish a nationwide licensing system that would,

- a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
2. promote as an issue to be addressed in future interprovincial trade talks, the elimination of barriers between provinces that currently prevent Canadian film distributors from having equal access to all Canadian markets; and further the Government of Ontario should:-
3. use its regulatory powers under the Theatres Act to establish a system of general and special distributor's licences within Ontario that would,
- a) give Canadian distributors open access to independently produced commercial films; and
 - b) limit the Canadian distribution rights of foreign distributors to films on which they were intended to hold the original copyright or on which they hold the world rights; and
4. continue to work on the development of an industrial strategy to promote the distribution of Canadian commercial films as part of the Canadian cultural industries.

And it was,

Resolved, That, in the opinion of this House,

1. since our identity as citizens of this Province is dependent on our national identity as Canadians; and
2. since Ontarians need and want Canadian commercial films which reflect and help shape the unique lives and dreams of Canadians; and

3. since the production of such films is dependent on a viable national film industry and the development of a distinct Canadian market for commercial films; and
4. since the distribution sector is crucial to the health of the film industry, and distributors not only feed the markets but also finance film production by reinvesting their profits in new commercial films; and
5. since at this time, major U.S. distributors control the Canadian feature film market and, as a result, only 4% of screen time in Canadian movie theatres is devoted to Canadian-made movies; and
6. since the U.S. film industry has always seen Canada as part of the U.S. domestic market; and
7. since the 1988 Canada-U.S. Free Trade Agreement and the proposed North American Free Trade Agreement specifically provide that Canadian and provincial governments have the right to take steps to nurture a distinct national culture and protect Canadian sovereignty in this area; and

ORDERS OF THE DAY

ORDRE DU JOUR

Debate was resumed on the motion that this House approves in general the Budgetary Policy of the Government.

After some time,

Mrs McLeod moved that the motion moved by the Minister of Finance on May 19 "that this House approves in general the Budgetary Policy of the Government" be amended by deleting the words following the words "that this House" and adding thereto the following:

"Recognizing that the Budgetary Policy put forward by the Minister of Finance fails to offer any hope for the future for the people of Ontario;

And that the NDP government's refusal to pursue a fiscally responsible plan for the first two and a half years of its mandate has created a fiscal crisis which has resulted in job losses and has hampered the economic recovery in the province;

And that the NDP government ignored the realities of its fiscal mismanagement for two years, and has only just realized it faces a crisis;

And that the NDP government has responded to this crisis with a program of chaos management;

And that the budget's \$2 billion tax grab, the largest in Ontario history, will destroy 50,000 jobs, strangle our fragile economic recovery and further erode consumer and business confidence;

And that at a time when Ontarians are taxed to their limits, the Minister of Finance has further burdened them with the largest increase in personal income tax since the Progressive Conservative budget of 1981;

And that the NDP tax changes hurt those Ontarians least able to afford higher taxes;

And that this budget sends a bad signal to foreign investors who will shy away from investing in Ontario because of the high NDP taxes;

And that this budget does nothing to stimulate small business, which is the sector that creates jobs;

And that this budget seriously harms business confidence in Ontario by hiking corporate taxes by \$112 million, including a confidence-eroding corporate minimum tax, which will force more Ontario companies to consider moving to other provinces or south of the border;

therefore has lost confidence in this government."

The debate continued and, after some time,

The Speaker addressed the House as follows:-

I beg to inform the House, I have today laid upon the Table the Annual Report of the Ombudsman for the period April 1, 1992 to March 31, 1993 (No. 64) (Tabled June 7, 1993).

The Speaker delivered the following ruling:-

On Tuesday, May 18, the member for St George-St David (Mr Murphy) rose in the House on a question of privilege.

The member indicated that the government had issued instructions that a provision in the *Retail Business Holidays Act* prohibiting Sunday shopping would no longer be enforced. The member also indicated that the government had issued these instructions after announcing in 1992 that it was introducing an amending bill, which, if passed, would permit Sunday shopping. The amending bill was given first reading in the last Session, but has yet to receive second reading.

The member suggested that, by acting as if the amending bill were law, the government had violated his privileges and the privileges of all members of the House.

Although the member did not indicate what specific heading of privilege had been violated, I reviewed the relevant authorities. I find that the member's concern does not amount to a *prima facie* case of privilege.

Furthermore, I want to assure the member that I am cognizant of the fact that, in recent years, Speakers in other jurisdictions have had to rule on whether certain government pronouncements on bills constituted a contempt of the House on the ground that the pronouncements openly suggested that the bills would become law. Having reviewed the submissions of the member for St George-St David in light of those rulings, I find that the member's concern does not constitute a contempt of this House.

I thank the member for his interest in the matter and for the way in which he has brought it to my attention.

PRAYERS

PRIÈRES

Mr Wessenger moved,

M. Wessenger propose,

Second Reading of Bill 21, An Act to amend certain Acts with respect to Land Leases.

Deuxième lecture du projet de loi 21, Loi modifiant certaines lois en ce qui concerne les terrains à bail.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mr Callahan then moved,

Ensuite, M. Callahan propose,

That, in the opinion of this House, since the Government of Ontario intends to pass Bill 90, An Act to amend the Planning Act and the Municipal Act with respect to Residential Units and Garden Suites, and

since the effect of this Act will be to effectively rezone residential properties and increase density without the protection of the planning process which allows public participation and decision-making by municipal officials who are accountable to the public, and

since the Municipality of the City of Brampton and many other municipalities have already incorporated within their official plans a commitment to the creation of 25% affordable housing pursuant to the policy of the former Liberal government, and

since the Liberal Party recognizes in these difficult economic times that with the high cost of housing, alternative accommodation of an affordable nature is required, as evidenced by the former Liberal government's direction for "granny flats" and specific levels of affordable housing, and

since the action of this government in this Act is to effectively bypass the local planning process with its public participation, and by edict, extract value from taxpayers by expropriating property without equitable compensation, contrary to every rule of equity, and

since the Liberal Party supports dwelling units being allowed where zoning is consistent and such uses can be appropriately integrated with the host neighbourhood or in future developments where the integrity of the planning process is maintained and the public is aware of what zoning is in place,

therefore Bill 90 should be withdrawn or amended by the Government of Ontario to ensure the property rights of the citizens of Brampton and other Ontario communities are protected.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on the motion for Second Reading of Bill 21, An Act to amend certain Acts with respect to Land Leases the question having been put, was declared carried and the Bill was accordingly read the second time and Ordered referred to Standing Committee on General Government.

Conformément à l'article 96(e) du Règlement, la motion portant deuxième lecture du projet de loi 21, Loi modifiant certaines lois en ce qui concerne les terrains à bail n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée et le projet de loi est en conséquence lu une deuxième fois et déferé au Comité permanent des affaires gouvernementales.

And, whereas the NDP government's commitment to summer jobs programs has no strategic plan to help youth deal with the unemployment crisis,

And, whereas the NDP government's response to this crisis has been ad hoc and has not dealt effectively with the obstacles young people are facing,

And, whereas the NDP government has failed to show leadership in the management of its own summer employment opportunities for youth,

And, whereas the NDP government's jobsOntario Youth does not address the needs of young people of varied employment needs across the entire province of Ontario,

This House resolves that urgent action is required and that the following initiatives be included in an action plan to help our young people get the education, training and jobs they deserve, and that these initiatives be funded by re-allocating funds from failed NDP training programs such as the jobsOntario Training Fund:

- Funding for the summer employment for youth should be increased to \$60 million in recognition of the extraordinary crisis facing students this summer.
- Funding for the successful FUTURES program should be increased by 20% to reach approximately 34,000 young people, an additional 6,000.
- Co-operative education programs at all levels of education should be expanded.
- A scholarship system that encourages businesses to contribute to the further education of youth should be established.
- A pre-university program should be established to help young people improve their grades and gain increased access to universities.
- A database system providing youth with information about training, education and job opportunities across Ontario should be established.

Mr Murdoch (Grey) moved,

M. Murdoch (Grey) propose,

That, in the opinion of this House, since the Conservation Land Tax Rebate has been cancelled making it impossible for some Conservation Authorities to pay their taxes, and

since the government is asking Conservation Authorities to accept funding cuts which are far more severe than those foisted on other sectors of society, and

since the Association of Conservation Authorities of Ontario have offered a Blueprint for success which would save Ontario's taxpayers an estimated 100 million dollars, and

since the future of our wetlands, flood plains, and conservation areas are threatened by this government's fiscal mismanagement,

therefore the Conservation Land Tax Rebate should be immediately reinstated to Conservation Authorities and the Government should seriously consider and implement the concepts outlined in the Blueprint for Success.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mrs MacKinnon then moved,

Ensuite, M^{me} MacKinnon propose,

That, in the opinion of this House, since promoting trade, investment and job growth is the leading priority of the Government of Ontario and that the North American Free Trade Agreement is, on balance, not in the best interests of the province because this Agreement:-

1. will cause net job loss in Ontario;
2. will apply downward pressure on environmental standards;
3. will apply downward pressure on labour standards;
4. makes no mention of labour adjustment for workers and since the Federal labour adjustment assistance remains inadequate because of the job losses caused by the FTA;
5. encroaches into more areas of provincial jurisdiction, and will limit Ontario's ability to implement its economic and social policies and because the deal intrudes on more areas of provincial jurisdiction than previous trade agreements, such as regulation of investment, financial services and standards;
6. will not end American trade harassment;
7. will treat Canadian and Mexican energy reserves differently, and
8. will make the devastation of the FTA worse;

Therefore, this House urges the Government of Ontario to oppose the implementation of the North American Free Trade Agreement by all possible means.

Mr Villeneuve moved,

M. Villeneuve propose,

That, in the opinion of this House, because the issue of the property taxation of producing farmland has become of increasing concern to farmers, as education costs have risen and as municipal service costs have increased, while over the same time farmers have not received a proportional increase in services, and that the Ontario Farm Property Tax Rebate has distorted the actual program budget of the Ministry of Agriculture and Food, and that the Fair Tax Commission's Property Tax Working Group has evaded the issue by calling the taxation of farm property a farm policy issue (as opposed to a tax issue), the Government of Ontario should, first, list the Farm Property Tax Rebate as a budget item separate from the budget of the Ministry of Agriculture and Food, and second, the Government of Ontario should initiate, with farm and municipal organizations, a thorough and public review of the taxation of producing farmland with the aim of maintaining a viable agricultural industry and family farms in Ontario.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

The Speaker delivered the following ruling:-

I have carefully reviewed the report presented on July 22 with respect to an appeal from the ruling of the Chair of the Standing Committee on Estimates.

As I understand it, the member for Durham West sought to raise a point of order at the committee meeting on July 21 relating to an occurrence in that committee on July 20. The Chair of the Committee declined to allow the point of order on the ground that it related to activities of the committee on the previous day. The ruling was made on the issue of timeliness.

At page 396 of the Twenty-first Edition of Erskine May's Parliamentary Practice it states that:

"Speakers have exercised discretion over the taking of points of order and have indicated at what point in the proceedings they are prepared to hear them."

The Chair of the Standing Committee on Estimates in this situation was technically correct in his decision that a point of order by convention should be timely, and that under normal circumstances would not be allowed on an occurrence of a previous day. However, in reviewing the details of the report and the committee Hansard of both meeting days, I find that the member for Durham West did in fact attempt to bring the matter to the attention of the Chair on July 20 and was prevented from doing so. Thus, the first available opportunity for the member to raise his point of order was at the commencement of the committee proceedings on July 21. This the member for Durham West sought to do.

It is my decision then that the member for Durham West should have been allowed to raise his point of order, at the time that he did, for the consideration of the Chair.

Opposition Day

Jour de l'opposition

Mr Harris moved,

M. Harris propose,

Whereas, the people in the Cornwall area are becoming increasingly concerned with the inability of law enforcement officials to combat the serious and growing problem of smuggling in the region between Ontario, Quebec, New York and Native jurisdictions;

and whereas, the provincial NDP government continues to pursue tax policies which encourage the growth of the underground economy, resulting in the loss of business to legitimate operators and reduced provincial revenues;

and whereas, the level of lawlessness is such that police believe they can no longer protect local residents and visitors on area waterways, thus depriving both residents and tourists of the peaceful enjoyment and use of valuable provincial tourist and recreational resources;

therefore, this House calls on the NDP government to re-examine its spending priorities and recognize public demand and need for increased investment in community safety initiatives in the region;

and to re-examine its taxation policies insofar as they encourage the development of an underground economy and thus, contribute to the development of criminal activities in the area;

and to take immediate steps to support the police in order that they have adequate resources to protect the residents of the area.

On Monday, October 18, the member for Dufferin-Peel (Mr Tilson) introduced a bill entitled, "An Act to amend the Law related to the Freedom of Information and Protection of Privacy". ORDERS OF THE DAY

ORDRE DU JOUR

Opposition Day

Jour de l'opposition

Mr Beer moved,

M. Beer propose,

Recognizing that, since taking office, the NDP government has consistently mismanaged the delivery of children's services and is now downloading the province's financial problems onto the most vulnerable in our society, children, through the lack of any clear direction for children's services including child care and the introduction of user fees for non-residential children's services delivered under the Child and Family Services Act;

And whereas we have yet to see a comprehensive plan for the delivery and integration of children's services including child care, and those services funded through the Child and Family Services Act;

And whereas this government promised to reform our existing child care system and better integrate services needed by children and their families;

And whereas this government has not presented any plan regarding children's services;

And whereas the government has not presented a plan that provides a clear direction for child care;

And whereas those who deliver services funded through the Child and Family Services Act were not consulted prior to the decision to generate revenue through user fees for children's services funded under the Child and Family Services Act;

And whereas, parents and children who will be affected were not involved in consultation prior to the NDP government's decision to introduce user fees for children's services;

And whereas no attempt was made by the Ministry of Community and Social Services to collect information from the agencies involved regarding their ability to generate and collect such fees;

And whereas it has been determined that the Ministry of Community and Social Services has in fact miscalculated the ability of the agencies affected to generate the expected revenue;

And whereas MCSS officials have indicated that no specific formula was used to arrive at the figures of \$4.3 million for the year 1993/94 and \$6.7 million thereafter;

And whereas the NDP government has not established a province wide policy regarding user fees for similar services obtained by adults through any other ministry;

And whereas the NDP government acknowledged during the social contract negotiations that the agencies funded under the Ministry of Community and Social Services should be allowed certain exemptions due to the essential nature of their services;

And whereas the NDP government acknowledged during the social contract negotiations that the agencies funded under the Ministry of Community and Social Services (including child care and children's services) are vulnerable agencies in light of the increased demand for services and the low wages of staff;

And whereas it is known that the families and individuals needing the services funded under the CFSA are those least able to pay and also those who will be most intimidated by an application process;

And whereas it is estimated that over 80% of those affected presently live under the poverty line;

And whereas the services are essential;

Therefore the Liberal caucus calls upon the government to immediately table in this house a comprehensive plan for the delivery and integration of children's services, withdraw from the decision to introduce user fees for children's services funded under the CFSA immediately, and present a plan for the reform of our existing child care system.

SOIXANTE-SEIZIÈME JOUR
JEUDI 28 OCTOBRE 1993

PRAYERS
10:00 A.M.

PRIÈRES

The Acting Speaker (Mr Villeneuve) delivered the following ruling:-

Yesterday, the honourable member for York Mills (Mr Turnbull) rose on a question of privilege, alleging that the honourable member for Yorkview (Mr Mammoliti) had taken his idea for a bill

that he had been working on for a number of months. Mr Mammoliti's Bill 95 was printed on October 15 and Mr Turnbull's Bill 104 was printed on October 20. They are both bills with the same general subject matter but one is specific to the City of North York while the other, Mr Turnbull's, is general in nature. Mr Mammoliti's Bill 95 is up for debate this morning.

While the allegations made by the member for York Mills cause me great concern, let me say first of all that there is nothing here that is against our Standing Orders. It is the right of all honourable members to introduce bills and it is not for the Speaker to determine whether or not the origin of an idea for a bill is original to the member introducing it or not. Secondly, there is nothing out of order with these two bills eventually coming to debate and being decided upon by this House at second reading.

As to the question of members' privileges being affected, I can in no way see that that has happened. The honourable member for York Mills still has every right to proceed with his bill and it is not a privilege of members to have exclusivity as to a subject matter. It would even be possible for the honourable member to debate his bill when his turn comes up for private members' hour next week, if the House agrees to waive notice. I would suggest that he consult with his House Leader if it were his intention.

I thank the honourable member for all the work that he has put into his presentation and the notes that he has made available to me and I am sorry that I cannot agree that there is a prima facie case of privilege.

Mr Mammoliti moved,

Second Reading of Bill 95, An Act to provide for the passing of vital services by-laws by the City of North York.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

Mr Daigeler then moved,

M. Mammoliti propose,

Deuxième lecture du projet de loi 95, Loi prévoyant l'adoption par la cité de North York de règlements municipaux relatifs aux services essentiels.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Ensuite, M. Daigeler propose,

That, in the opinion of this House, since, in December, 1992, the Bob Rae government postponed indefinitely the completion of Highway 416 between Century Road and the 401, and

since this delay breaks the promise made by the NDP Transportation Minister Ed Philip in November 1990 to honour the Liberal government's commitment towards a 1999 completion date, and

since the 416 postponement and the recent decision to charge significant fees for the Wolfe Island and Glenora ferries proves clearly that no one is fighting aggressively within the NDP government for the interests of Eastern Ontario, and

since the building of a four lane link between Ottawa and the 401 has been a transportation priority for people in Eastern Ontario since 1966 but was basically ignored by successive Conservative governments, and

since for the first time a formal commitment was made to this project and monies allocated by Liberal Transportation Minister Ed Fulton on June 12, 1989, and

since Liberal Transportation Minister Bill Wrye in a July 3, 1990 letter to Nepean M.P.P. Hans Daigeler promised the completion of Phase I by 1995 and of Phase II by 1999, and

since the quick completion of Highway 416 topped the 1990 election wish list of Ottawa-Carleton's business community, and

since, from 1985 to the fall of 1992, there were 39 deaths and 721 reported accidents on Highway 16 with 90% of them happening between Century Road and the 401, and

since area Conservative M.P.P.'s Bob Runciman, Norm Sterling, and Noble Villeneuve have failed to ask questions in the House about this matter as requested of them by the Grenville Business News in March, 1993, and

since Ottawa-Carleton Regional Council in a motion of January 13 strongly urged the Province of Ontario to stand by their commitment to complete the construction of Highway 416 from Highway 401 to Highway 417 by 1999,

therefore, the Bob Rae government should be asked to re-establish funding for the construction of Highway 416 in time for the 1999 completion date as planned by the Liberal government and confirmed by NDP Transportation Minister Ed Philip in November, 1990.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on the motion for Second Reading of Bill 95, An Act to provide for the passing of vital services by-laws by the City of North York the question having been put, was declared carried and the Bill was accordingly read the second time and Ordered referred to Standing Committee on General Government.

Conformément à l'article 96(e) du Règlement, la motion portant deuxième lecture du projet de loi 95, Loi prévoyant l'adoption par la cité de North York de règlements municipaux relatifs aux services essentiels n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée et le projet de loi est en conséquence lu une deuxième fois et déferé au Comité permanent des affaires gouvernementales.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Daigeler's Resolution Number 25, the question having been put, was declared lost.

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 25 de M. Daigeler n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée rejetée.

ORDRE DU JOUR

Opposition Day

Jour de l'opposition

Mrs McLeod moved,

M^{me} McLeod propose,

Recognizing that, since taking office, the NDP government has failed to put in place appropriate mechanisms for the increased demand for cancer treatment;

And whereas the number of Ontario residents being diagnosed with cancer is growing at about 45,000 per year;

And whereas two out of three families will have a family member diagnosed with cancer;

And whereas there are concerns that patients will receive timely treatment;

And whereas physicians are performing procedures such as surgery due to concerns that less invasive treatment, such as radiation, may not be available on time;

And whereas the government has set no standards with respect to radical cases as opposed to palliative care;

And whereas 85 per cent of all cancer cases occur in people over the age of 55;

And whereas lung cancer continues to be the leading cause of death among all cancer patients, yet despite its commitment in 1991, the NDP government has taken no action on its proposed Tobacco Act;

And whereas waiting lists at cancer units in Ontario frequently exceed the standards for optimum care set by the Canadian Association of Radiation Oncologists;

And whereas the Minister of Health has repeatedly said that hospitals must find the money to perform bone marrow transplants within global budgets without providing any funding assistance;

And whereas the government has not undertaken human resource planning to ensure an adequate pool of radiation oncologists, radiation therapists, and medical physicists;

And whereas the NDP government has created a climate that is encouraging more and more physicians to leave the province;

Therefore the Liberal caucus calls on the NDP government to admit its failure to develop a coherent, effective, cancer strategy; and to initiate a broad cancer care program ranging from prevention to long-term care in a province-wide co-ordinated approach; and, to start work immediately with hospitals, communities, cancer centres, and patients to take all necessary steps to clear up the backlog of treatment cases in the province and ensure no further backlog occurs and that all residents of Ontario receive the cancer care they need when they need it.

PRAYERS

Mr Turnbull moved,

That, in the opinion of this House, taking note of the Government's decision to require the public disclosure of compensation paid to executives of companies which are publicly traded in Ontario; and

believing that the Government of Ontario should apply the same standards of accessibility and accountability to its own operations that it applies to individuals and companies in the private sector;

this House urges the Government to immediately introduce legislation necessary to provide for the disclosure annually in the Public Accounts beginning with the Public Accounts for the 1993-94 fiscal year of the following information:

the details of the salary paid to the Deputy Minister and the four other highest paid bureaucrats in each Ministry of the government, the Premier's Office and the Cabinet Office;

the details of the salary paid to the five highest paid political staff in each Ministry and the Premier's Office and the Cabinet Office;

PRIÈRES

M. Turnbull propose,

the details of the salary paid to the five highest paid executives in each Crown corporation;

the details of any non-routine loans made or guaranteed by a government Ministry, agency or Crown corporation to any of the above individuals;

information on benefits paid to any of the above individuals that add significantly to compensation;

information on compensation paid to a senior public sector executive, senior executive of a Crown corporation or senior member of the political staff who left during the fiscal year but would otherwise have been among the highest paid group;

information on any contract that would result in a senior public sector executive, senior executive of a Crown corporation or senior member of the political staff being paid more than \$100,000 as a result of being dismissed or having to change duties;

the details of the compensation paid to the directors of Crown corporations.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservée jusqu'à midi.

Mr Marchese then moved,

Ensuite, M. Marchese propose,

That, in the opinion of this House, since small and medium-sized businesses in Ontario created 85% of all new jobs between 1979 and 1989, employ nearly 2 million people with a payroll of \$44 billion, and are vital players in our province's economic renewal; and

since small business claims the major federally-chartered banks and provincially-regulated financial institutions unreasonably restrict access to capital for small business, creating a "credit crunch"; and

since the Bank of Canada says small bank loans - which small business rely on - declined between 1990-1992, while loans to big business increased during the same period; and

since the survival of many small businesses and the prosperity of Ontario is threatened by banks and financial institutions that are not doing their fair share of small business lending; and

since Canada's major chartered banks recorded healthy profits during this recession; and

since nearly half, or 44%, of Canada's bank deposits come from Ontario depositors, giving the Province of Ontario a direct interest in where this capital is reinvested;

therefore, this House urges the Government of Ontario to call upon the new federal Minister of Finance to convene a meeting with provincial finance ministers on the economy, at which first ministers will work to ease the credit crunch facing small business; and

urge the new federal government to call a national summit meeting with banks and business representatives, to discuss small business financing; and

request the new federal government to introduce a Community Reinvestment Act - as the United States federal and state governments have - requiring all deposit-taking financial institutions to recycle a minimum portion of their loan portfolio within the communities which provided the deposits; and

support a federal Community Reinvestment Act that is structured to promote full employment by supporting small business and community economic development; and

introduce a Community Reinvestment Act in the Province of Ontario following the introduction of similar federal legislation; and

ensure that Ontario's proposed legislation to regulate provincial financial institutions removes impediments which restrict access to capital for small business, allowing Ontario's financial institutions to play a greater role in the province's economic renewal.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Turnbull's Resolution Number 28, the question having been put, was declared carried:-

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 28 de M. Turnbull n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée:-

And it was,

Resolved, That, in the opinion of this House, taking note of the Government's decision to require the public disclosure of compensation paid to executives of companies which are publicly traded in Ontario; and

believing that the Government of Ontario should apply the same standards of accessibility and accountability to its own operations that it applies to individuals and companies in the private sector;

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Marchese's Resolution Number 27, the question having been put, was declared carried:-

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 27 de M. Marchese n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée:-

MERCREDI 17 NOVEMBRE 1993

The Speaker delivered the following rulings:-

On Thursday, November 4, the member for St George-St David (Mr Murphy) rose on a question of privilege concerning a letter that was critical of remarks he made in the debate on the motion for second reading of Bill 56, An Act to Protect the Civil Rights of Persons in Ontario.

The member stated that the letter was intended to intimidate him, but that he would not be intimidated. The member for Willowdale (Mr Harnick), who received a similar letter, stated that he too would not be intimidated.

In response, let me begin by noting that Speaker Edighoffer stated on December 10, 1985 (at page 147 of the *Journals*) that "it is only in very extreme circumstances that there can come to the House a legitimate case of privilege on the basis of the real and accepted and traditional definition of parliamentary privilege."

However, I wish to emphasize here, that threats to members are very serious matters when they affect the exercise of their duties and the fulfilling of their two most important privileges; that of free speech and that of attendance in this place.

In the case at hand, after reviewing the letter, the Hansard for October 14 and November 4, and the relevant procedural authorities, I find that a *prima facie* case of privilege has not been made out.

I thank the member for St George-St David and the member for Willowdale for drawing this matter to the attention of the House. I know that they and many others were deeply troubled by the content and tone of the letters in question.

On Monday, November 15, the member for Markham (Mr Cousens) rose on a question of privilege concerning a press briefing sponsored by a government agency on the previous Friday. The member indicated that he and other members had been refused admittance to the briefing. The member for York North (Mr Beer), for Bruce (Mr Elston), for Brampton South (Mr Callahan), and for Dufferin-Peel (Mr Tilson) also spoke to this question.

In response, let me say that Speaker Edighoffer stated at page 6204 of the *Hansard* for November 28, 1988 that no privilege was violated in circumstances where the government had not invited a particular member to a media event. In my view, this precedent is equally applicable to where a briefing is held by a government agency. Furthermore, I wish to make it clear that the Speaker has no authority outside the precinct that would permit him or her to ensure that announcements are made in a certain fashion.

On Monday, November 15 the member for Bruce (Mr Elston) rose on a point of order with respect to committee consideration of Bill 50, An Act to implement the Government's expenditure control plan and, in that connection, to amend the Health Insurance Act and the Hospital Labour Disputes Arbitration Act.

The first question the member raised was based on conjecture as to the process involved if the principle of the bill is altered in committee. While this may certainly be an interesting subject for discussion, the member will know that it is a hypothetical question and therefore one on which I am unable to rule.

As to the second question posed by the member for Bruce, I would like to refer to the Twenty-first edition of Erskine May's Parliamentary Practice at page 181 where it states:

"The opinion of the Speaker cannot be sought in the House about any matter arising or likely to arise in a committee."

In addition, Standing Order 120 (b) clearly sets out a procedure by which a committee may report any disagreement with a decision made by the chair; this includes rulings on the admissibility of amendments to a bill which would have the effect of altering its principle.

Finally, I will deal with the question of whether debate during routine proceedings on the motion to adopt and receive a committee's report on a bill is in order. I can advise the member that such a debate is certainly in order. Indeed, there are several precedents of extended debate being entertained at this stage.

ORDERS OF THE DAY

Opposition Day

Mr Tilson moved,

Whereas the NDP government has continued to proceed with the Interim Waste Authority process of selecting dumps in the Regions of Peel, Durham and York without considering any alternatives to building super dumps;

And whereas continuing this process breaks NDP promises made during the last Provincial election campaign of 1990, as outlined in the Agenda for People;

And whereas the NDP will risk farmland by placing the three sites on existing, operating farms; will threaten the environment by placing sites on aquifers supplying drinking water to surrounding communities and will destroy community life by forcing residents out of their homes and away from their communities in order to develop super dumps in each of the three regions;

And whereas the NDP have insulted the residents in each of the three communities and in fact the people of Ontario with their rhetoric of a fair and open process;

And whereas the fundamental rights of the residents of the three Regions have been violated by the arbitrary decisions to rule out any other alternatives to the super dumps;

ORDRE DU JOUR

Jour de l'opposition

M. Tilson propose,

And whereas the NDP dictated the IWA process by passing Bill 143 forcing the Greater Toronto Area to accommodate sites for their garbage;

And whereas the NDP government is to be made accountable for its bad decisions by the people of Ontario;

Therefore, this House calls on the NDP government to repeal Bill 143, disband the Interim Waste Authority and place a moratorium on the process of finding three super dumps within the Greater Toronto Area until all alternatives have been explored and researched, including the long rail haul option to willing host communities, incineration and better product management.

Mrs Marland moved,

M^{me} Marland propose,

That, in the opinion of this House, recognizing that persons with developmental disabilities are valued members of our society who require assistance from the provincial government in order to enjoy the quality of life, independence and community living that persons without disabilities take for granted;

and recognizing that there is a severe shortage of support for adults with developmental disabilities, including supported employment, alternatives to sheltered workshops, a variety of living options, family support services, and parent relief;

and recognizing that institutions for persons with developmental disabilities are being closed before sufficient community support is in place for the discharged residents;

and recognizing that when youth with developmental disabilities turn 21 years of age, they are no longer eligible for children's support programs but can rarely be accommodated in support programs for adults because of the shortage of resources and services;

and recognizing that parents who care for adults with developmental disabilities in their homes require provincial government assistance to allow them to enjoy some of the freedom from child-care responsibilities that most parents of adult children take for granted;

and recognizing that as the parents of adults with developmental disabilities grow older, they worry about who will care for their children when they can no longer do so;

and recognizing that the Ministry of Community and Social Services cut \$1.5 million from its funding of sheltered workshops in 1992/93, then promised it would not execute a further planned cut to sheltered workshops of \$1.5 million in 1993/94, but nonetheless reduced its 1993/94 transfer payments to community living associations by \$1.5 million;

and recognizing that the 1993/94 Estimates for Community and Social Services show a \$20.3 million (11.9%) decrease in the budget for community accommodation for adults with developmental disabilities;

and recognizing that despite new provincial funding of \$21.08 million in 1993 for persons with developmental disabilities, there is still a crisis in support for adults with developmental disabilities;

and recognizing that possible cost savings have been identified in other program areas of the Community and Social Services portfolio, including:

- social services fraud, misallocation and mismanagement (\$630 million per year, or 10% of the Province's social assistance budget, according to the Provincial Auditor);
- payments to convert private daycare centres to non-profit centres, bail out non-profit daycare centres that are in financial difficulty, and build new non-profit centres through the Jobs Ontario Capital program, even though many existing daycare centres, both non-profit and private, have excess capacity (total expenditure: approximately \$200 million);

and recognizing that in other portfolios, cost savings could be achieved by reducing health card fraud (\$675 million/year) and reducing workers' compensation fraud (\$150 million/year), to cite just two examples;

Therefore the Government of Ontario should immediately undertake to reform the financing of support for adults with developmental disabilities, giving consideration to the following:

- person-centred planning, whereby funding is allocated directly to each person with a developmental disability for that person and her/his family or guardian to decide how best to meet his/her needs;
- improving the funding of community-based support so that the closing of institutions can proceed on schedule and the former residents of institutions can be ensured access to a full range of community support;
- redirecting funds to adults with developmental disabilities from other areas, such as those mentioned above, where expenditure cuts could be achieved.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mr Johnson (Prince Edward-Lennox-South Hastings) then moved,

Ensuite, M. Johnson (Prince Edward-Lennox-South Hastings) propose,

That, in the opinion of this House, the present Federal Government should keep its financial commitments to the people of Ontario with respect to its promises made during the recent Federal Election Campaign.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mrs Marland's Resolution Number 33, the question having been put, was carried on the following division :-

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 33 de M^{me} Marland n'a pas fait l'objet d'opposition et la motion, mise aux voix, est adoptée par le vote suivant:-

NINETY-SIXTH DAY

THURSDAY, DECEMBER 9, 1993

QUATRE-VINGT-SEIZIÈME JOUR

JEUDI 9 DÉCEMBRE 1993

PRAVERS
10:00 A.M.

Mr Eddy moved,

That, in the opinion of this House, since there is playground equipment being purchased by municipalities, school boards, daycare centres, and other provincially funded agencies that are frequented by children which does not have to meet any mandatory safety requirements; and

since the Canadian Standards Association (CSA) has developed a National Standard of Canada for Children's Playspaces and Equipment which is widely supported among Canadian manufacturers in the playground equipment industry and which is the only such safety standard in Canada; and

since several Canadian manufacturers have spent considerable time and money to adhere to the standard; and

PRIÈRES
10 H

M. Eddy propose,

since many foreign companies can and are selling their playground equipment products which do not meet the CSA standard; and

since the number of children admitted to hospitals with playground related injuries has been rising in recent years;

therefore, this House urges the Government of Ontario to recognize the Canadian Standards Association's National Standard CAN/CSA-Z614-M90 as the appropriate safety standard for playground equipment that is bought and sold in Ontario;

and to urge all Ontario municipalities, school boards, daycare centres, and other provincially funded agencies that use playground equipment to adhere to the national standard when buying playground equipment.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mr Wilson (Simcoe West) then moved,

Ensuite, M. Wilson (Simcoe-Ouest) propose,

That, in the opinion of this House, since several patients from the Alliston and Collingwood areas are forced to travel great distances often under treacherous winter road conditions to receive hemodialysis treatments; and

since the government has known of this problem for the past two years and has done nothing to discourage a patch-work dialysis treatment system whereby some patients receive hemodialysis in-home, while others are travelling to Orillia or Toronto; and

since the wear and tear of travelling to receive hemodialysis treatments is taking a significant physical and emotional toll on Simcoe West patients; and

since many of these patients have attended meetings, involving Ministry of Health officials and hospital administrators, arranged with the intention of creating a community-based solution to a local problem and as these meetings have failed to produce a workable, local solution because of the Ministry's failure to adequately assess the need and because they want to postpone a decision on this problem until a regional dialysis study is completed in another eight months; and

since the money for Simcoe West dialysis patients is concentrated in Toronto teaching hospitals; and

since Simcoe West dialysis patients have already suffered enough physical and emotional trauma in travelling long distances to receive dialysis treatments;

Therefore the Government of Ontario should act immediately to embrace a local solution by establishing hemodialysis satellites in both Alliston and Collingwood.

At 12:00 noon, with unanimous consent, the Resolution moved by Mr Eddy was amended by inserting the words "and foreign" between the words "Canadian manufacturers" in the eighth line and by replacing the word "many" in the tenth line with the words "some Canadian and".

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Eddy's Resolution Number 34, as amended, the question having been put, was declared carried.

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 34 de M. Eddy n'a pas fait l'objet d'opposition et la motion, telle que modifiée, mise aux voix, est déclarée adoptée.

And it was,

Resolved, That, in the opinion of this House, since there is playground equipment being purchased by municipalities, school boards, daycare centres, and other provincially funded agencies that are frequented by children which does not have to meet any mandatory safety requirements; and

since the Canadian Standards Association (CSA) has developed a National Standard of Canada for Children's Playspaces and Equipment which is widely supported among Canadian manufacturers in the playground equipment industry and which is the only such safety standard in Canada; and

since several Canadian and foreign manufacturers have spent considerable time and money to adhere to the standard; and

since some Canadian and foreign companies can and are selling their playground equipment products which do not meet the CSA standard; and

since the number of children admitted to hospitals with playground related injuries has been rising in recent years;

therefore, this House urges the Government of Ontario to recognize the Canadian Standards Association's National Standard CAN/CSA-Z614-M90 as the appropriate safety standard for playground equipment that is bought and sold in Ontario;

and to urge all Ontario municipalities, school boards, daycare centres, and other provincially funded agencies that use playground equipment to adhere to the national standard when buying playground equipment.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Wilson's (Simcoe West) Resolution Number 35, the question having been put, was carried on the following division:-

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 35 de M. Wilson (Simcoe-Ouest) n'a pas fait l'objet d'opposition et la motion, mise aux voix, est adoptée par le vote suivant:-

And it was,

Resolved, That, in the opinion of this House, since several patients from the Alliston and Collingwood areas are forced to travel great distances often under treacherous winter road conditions to receive hemodialysis treatments; and

since the government has known of this problem for the past two years and has done nothing to discourage a patch-work dialysis treatment system whereby some patients receive hemodialysis in-home, while others are travelling to Orillia or Toronto; and

since the wear and tear of travelling to receive hemodialysis treatments is taking a significant physical and emotional toll on Simcoe West patients; and

since many of these patients have attended meetings, involving Ministry of Health officials and hospital administrators, arranged with the intention of creating a community-based solution to a local problem and as these meetings have failed to produce a workable, local solution because of the Ministry's failure to adequately assess the need and because they want to postpone a decision on this problem until a regional dialysis study is completed in another eight months; and

since the money for Simcoe West dialysis patients is concentrated in Toronto teaching hospitals; and

since Simcoe West dialysis patients have already suffered enough physical and emotional trauma in travelling long distances to receive dialysis treatments;

Therefore the Government of Ontario should act immediately to embrace a local solution by establishing hemodialysis satellites in both Alliston and Collingwood.

ORDERS OF THE DAY

ORDRE DU JOUR

Want of Confidence Motion pursuant to Standing Order 43(a)

Motion de censure conformément à l'article 43(a) du Règlement

Mr Harris moved,

M. Harris propose,

Whereas the NDP government continued to follow the job killing tax policies of the previous Liberal administration including 22 new tax increases in its first two budgets on top of the 33 tax increases of the previous government;

And whereas this government continued the trend set by the previous government to increase expenditures annually well in excess of the rate of inflation;

And whereas this government continued the Liberal government's trend to increase the size and scope of government in Ontario to a level we can no longer afford;

And whereas this government compounded this bad fiscal policy with multi-billion dollar deficits;

And whereas this government failed to recognize the long term damage these policies created in the economy of Ontario and did not begin to develop new direction and policy alternatives until over two and a half years after assuming office;

Therefore this House has lost faith in the ability of this government to develop long range economic plans for the prosperity of Ontario and pursuant to the provisions of Standing Order 43(a), the House no longer has confidence in the government.

And a debate arising, after some time, the motion was lost on the following division:-

The Speaker delivered the following ruling:-

On Monday of last week, the member for Nepean (Mr Daigeler) rose in the House on a question of privilege concerning an advertisement that had appeared in certain newspapers in the Ottawa-Carleton area.

The advertisement, which takes the form of an open letter from the Minister of Municipal Affairs, makes certain remarks about Bill 77, remarks which can be interpreted as suggesting that the bill would become law by a specified time even though the bill had only received first reading. The minister says and I quote: "The Bill will be law well in advance of the official closing date for nominations of October 14, 1994."

I have reviewed the advertisement as it appears in the February 8, 1994 issue of the *Ottawa Citizen* in light of the parliamentary authorities. I find that the precedent that is closest to the case before me is a 1989 Ottawa ruling concerning government advertising that tended to suggest that certain fiscal measures, which had yet to be passed by the House, would become law. In the course of ruling that there was no case for breach of privilege or contempt, Speaker Fraser of the House of Commons found that the advertisements were essentially informational in nature and that there was no intention to infringe the privileges of the House. Members will find this important ruling at pages 4,457 to 4,461 of the House of Commons *Hansard* for October 10, 1989.

To this, I will add that, in the course of the 34th Parliament, a member of our own House had alleged that disrespect had been shown to the Chamber by reason of public servants acting in a way that disregarded the legislative process on a bill. In the course of finding that a *prima facie* case had not been made out, Speaker Edighoffer made the following remarks at page 273 of the *Journals* for December 20, 1989:

I must come to the conclusion that what we are dealing with here is an administrative error and not a contempt for this Chamber. It is perfectly valid for the Public Service to proceed with plans based on a bill that is already in the system in order to be able to act swiftly, once that bill becomes law.

Finally, only last year, the member for St. George-St. David (Mr Murphy) raised a question of privilege alleging that the government was acting as if Bill 38, which had only been given first reading at that time, had already received Royal Assent. The Speaker ruled that a *prima facie* case of privilege had not been made out in that instance.

In view of these rulings, and after careful consideration of the present circumstances, I find that a *prima facie* case has not been made out. However, I want to say to the Minister that this action has come very close to contempt and in the future, the Minister should exercise more caution and exhibit greater respect for the proprieties of this House. I thank the member for Nepean for bringing this matter to my attention.

During "Oral Questions", with unanimous consent, the House reverted to "Statements by the Ministry and Responses".

The Speaker addressed the House as follows:-

I beg to inform the House I have today laid upon the Table the Nineteenth Annual Report of the Commission on Election Finances which covers the year 1993 (Sessional Paper No. 248) (Tabled March 31, 1994).

The Speaker delivered the following ruling:-

Yesterday, the member for Leeds-Grenville (Mr Runciman) rose in the House on a question of privilege concerning a recent newspaper article on certain Cabinet deliberations. The member requested the Speaker to determine whether there may have been a violation of members' privileges by reason of an alleged breach of Cabinet confidentiality.

I have reviewed yesterday's *Hansard*, our precedents and the usual parliamentary authorities. I find that the precedent that is closest to the circumstances raised by the member for Leeds-Grenville is a 1980 ruling concerning a newspaper article on taxation measures. The article was published a few days before a scheduled budgetary announcement in the House. Speaker Stokes stated the following (at page 4,215 of our *Hansard* for November 13, 1980):

The chair cannot be asked to rule on something that took place by way of an interview. The chair similarly cannot be expected to monitor whether or not there has been a breach of cabinet solidarity.

Turning to the case raised by the member for Leeds-Grenville, I find that the publication of the newspaper article does not establish a *prima facie* case of privilege. However, I thank the member for Leeds-Grenville for his concerns.

The Speaker addressed the House as follows:-

I beg to inform the House that the Clerk has received from the Chief Election Officer and laid upon the Table the following certificate of a by-election held in the Electoral District of Victoria-Haliburton.

ELECTORAL DISTRICT OF VICTORIA-HALIBURTON -- CHRIS HODGSON

PROVINCE OF ONTARIO

Mr. Claude L. DesRosiers
Clerk of the Legislative Assembly
Room 104
Legislative Building
Queen's Park
Toronto, Ontario
M7A 1A2

Dear Mr. DesRosiers:

A Writ of Election dated the Seventh day of February, 1994, was issued by the Honourable Lieutenant Governor of the Province of Ontario, and was addressed to Catherine Boyd, Returning Officer for the Electoral District of Victoria-Haliburton, for the election of a Member to represent the said Electoral District of Victoria-Haliburton in the Legislative Assembly of this Province in the room of Dennis Drainville, Esquire, who since his election as representative of the said Electoral District of Victoria-Haliburton has resigned his seat. This is to certify that, a poll having been granted and held in Victoria-Haliburton on the Seventeenth day of March, 1994, Chris Hodgson, Esquire, has been returned as duly elected as appears by the Return of the said Writ of Election, dated the Twenty-Eighth day of March, 1994, which is now lodged of record in my office.

WARREN R. BAILIE
CHIEF ELECTION OFFICER

Toronto, April 5, 1994.

Chris Hodgson, Member for the Electoral District of Victoria-Haliburton, having taken the Oath and subscribed the Roll, took his seat.

The Speaker delivered the following ruling:-

Last Wednesday, the member for Parry Sound (Mr Eves) rose on a question of privilege concerning remarks made in Tuesday's Question Period by the Minister of Housing (Ms Gigantes) that the member for Mississauga South (Mrs Marland) was "attempting to stall, delay and impede" Bill 120. The member for Parry Sound indicated that the remarks, which were made in the course of a response to a supplementary placed by the member for Mississauga South, amounted to a breach of privilege and a contempt of the House, and imputed pejorative motives to the member for Mississauga South. The Government House Leader (Mr Charlton) and the member for Bruce (Mr Elston) also spoke to the matter.

I have had an opportunity to review and consider our *Hansard* for last Tuesday and Wednesday, together with our precedents, the parliamentary authorities, and Standing Order 23(i) on the imputing of false or unavowed motives to another member.

By way of response to the member's concern, I will say at the outset that it addresses a matter of order rather than a matter of privilege. I say this because an allegation by a member that another member is imputing motives or using unparliamentary language should be brought to the attention of the Speaker by way of rising on a 'point of order' instead of on a 'point of privilege.' I refer members to citation 485(1) of the 6th edition of *Beauchesne*, which reads as follows:

Unparliamentary words may be brought to the attention of the House either by the Speaker or by any Member. When the question is raised by a Member it must be as a point of order and not as a question of privilege.

On a related matter, the proper time for a member to rise on a point of order is immediately after the event to which it relates has occurred, and the Speaker, in turn, must then deal with it immediately. As Speaker Cass indicated at page 89 of our *Journals* for April 20, 1970, a point of order "must be raised the moment the alleged breach of order occurs and dealt with immediately." In the case of the remarks made in the course of last Tuesday's Question Period, the member for Mississauga South rose immediately after they were made, and the matter was then dealt with immediately on the basis that it posed a question of order. Question Period then resumed.

On Wednesday, I indicated that I would review the remarks in light of the submissions that were made. It is clear from Tuesday's *Hansard* that when the Minister made the remarks quoted at the outset of this ruling, she did not make an association -- adverse or otherwise -- between the conduct attributed to the member for Mississauga South and the purported motive for that member's conduct. The very wording of Standing Order 23(i) requires such an association to be made for there to be an infringement of the rule on imputing false or unavowed motives.

In the absence of any indication in Tuesday's *Hansard* as to what kind of imputation, if any, was being offered by the Minister, and since all members are presumed to be honourable, I must find that the remarks did not offend our rules.

If I have any lingering reservations in so finding, it is because the remarks could be construed to be provocative, and as I have suggested on a number of occasions greater respect could be shown in this House for the spirit of our rules respecting unparliamentary language. In this regard, let me quote from a ruling of Speaker Edighoffer, who made the following remarks (at page 62 of the *Journals* for December 7, 1987):

The Chair must appeal to members not to approach their work with a view to trying to go as far as they can without breaching a Standing Order or a rule of this House. Especially as [it] pertains to unparliamentary language there is no fixed list of what is parliamentary and what is unparliamentary.

In closing, I thank the member for Parry Sound, the Government House Leader, the member for Bruce, and the member for Mississauga South for rising when they did last week.

ORDERS OF THE DAY

ORDRE DU JOUR

Opposition Day

Jour de l'opposition

With unanimous consent, in the absence of Mrs McLeod, Mr Cleary moved,

Avec le consentement unanime, en l'absence de M^{me} McLeod, M. Cleary propose,

Whereas in the past family farming operations have been exempted from the provisions of the Ontario Labour Relations Act in order to minimize the impact of disruptive labour disputes which would be devastating to many farm operations;

And, whereas, under Bill 40 the NDP government removed the Ontario Labour Relations Act exemption for farming operations, promising to enact separate farm labour legislation;

And, whereas the government created an Agricultural Labour Relations Task Force to study farm labour issues comprised of three representatives of farm employers, two representatives from organized labour, one representative of farm workers, and two staff from the Ministry of Labour and the Ministry of Agriculture and Food, who acted as Co-chairs;

And, whereas the NDP government has now failed to implement the Task Force's recommendations in the agriculture labour legislation it introduced;

And, whereas an independent legal review of the legislation found that it does not contain the protection provisions that were promised last year by the Minister of Labour, such as ensuring that immediate relatives of farm owners are not forced to join unions;

And, whereas the NDP government's agriculture labour legislation, Bill 91, fails to protect family farming operations from labour disruptions;

And, whereas agriculture organizations across the province are calling for massive amendments or a total rewrite of the legislation, which the Minister of Labour refuses to consider;

And, whereas farming operations are particularly sensitive to labour disruptions because of spoilage of crops and the health of animals;

Therefore, the Liberal caucus calls upon the NDP government to redraft its agriculture labour legislation under Bill 91 in order to implement the Agriculture Labour Task Force recommendations, or to amend the Ontario Labour Relations Act changes made under Bill 40 to reinstate the previous general agricultural exemption, for the purpose of ensuring that farm families are not forced to unionize their employees, and are not subjected to labour disruptions.

THE AFTERNOON SITTING
1:30 P.M.

SÉANCE DE L'APRÈS-MIDI
13 H 30

The Speaker delivered the following ruling:-

On Tuesday, April 12, 1994 the member for London North (Mrs Cunningham) raised a point of order on the referral of a question during Question Period from one Minister to another. The Minister of Environment and Energy (Hon. Bud Wildman), the member for Leeds-Grenville (Mr Runciman), the member for Parry Sound (Mr Eves) and the member for Brampton South (Mr Callahan) all contributed to the discussion on this issue. In addition, the member for Etobicoke West (Mr Stockwell) rose on a similar point yesterday.

Members may know, that one of the first things a Speaker must consider when disagreement arises as to the interpretation of a Standing Order is how the rule in question has been interpreted by his or her predecessors. In concert with that, the Speaker must review any applicable authorities and past practice.

Standing Order 33(f) states:

"A minister to whom an oral question is directed may refer the question to another minister who is responsible for the subject-matter to which the question relates."

In reviewing precedents on the referral of questions from one Minister to another it is very clear that this has for many years been an accepted practice in this Chamber and one in which the Speaker does not become involved. There have been a number of rulings by various Speakers on the very issue of where the right to redirect a question belongs.

In particular, I refer members to a decision on February 9, 1987 in which Speaker Edighoffer stated:

"The right to redirect belongs to the Minister and not to the questioner. This has been borne out in reviewing Speaker Turner's rulings from 1981 to 1984."

This is but one example of a Speaker's ruling which confirms that the right to determine whether or not a question should be redirected rests solely with the Minister to whom the question was addressed.

Finally, I refer members to the Twenty-First Edition of Erskine May's Parliamentary Practice at page 286 where it states:

"It is a long established principle that decisions on the transfer of questions rest with Ministers and it is not a matter in which the Chair seeks to intervene."

The Speaker delivered the following ruling:-

Yesterday, during the division bells on second reading of Bill 138, An Act to amend the Retail Sales Tax Act, the Speaker received two letters of deferral pursuant to Standing Order 28(g). The Speaker, according to practice, accepted the first letter he received as the prevailing one. Following this, several members rose on points of order as to the decision that had been made.

Essentially two points were raised. The first was that the Speaker should not accept the first letter received but should adopt some other method of determining acceptability. The second point raised dealt with the question of what the words "specified time" are interpreted to mean in the Standing Order. I will address both of these points shortly.

Before I do that, however, I want to return to the further events of yesterday. Members will recall that it came to the attention of the Speaker that the first deferral letter received did not meet the requirements set out in Standing Order 28(g) which states:

During the ringing of division bells as provided in clause (f), the vote may be deferred at the request of any Chief Whip of a recognized Party in the House.

While it is true, that on at least one previous occasion, a deferral letter signed by a member other than the Chief Whip of a recognized party was accepted, it is my view that Standing Order 28(g) is very clear and can only be interpreted to allow acceptance of a deferral letter from the Chief Whip of a recognized party. I therefore have no alternative but to find that the deferral letter received yesterday from the "Acting Government Whip" is out of order and cannot be accepted. The vote on the question of second reading of Bill 138 is accordingly deferred until 4.15 p.m. today as requested in the deferral letter signed by the Chief Whip of the Official Opposition pursuant to Standing Order 28(g).

Turning now to the point raised with respect to the words "specified time" in Standing Order 28(g), I can only say that in this House for the purposes of this Standing Order specified time has consistently been interpreted to mean either a time prescribed by the clock or a time in the proceedings of the House such as "immediately following routine proceedings" or "immediately prior to orders of the day".

I now wish to address the question of which deferral letter is to be accepted by the Speaker when more than one is received. It has been our practice in this House that the Speaker accepts the first deferral letter received. It is obvious to me from the events of yesterday, a close reading of Standing Order 28(g) and previous occurrences in this House, that this practice does not encourage dignity or preserve decorum appropriate to this Chamber. It is clear then that a change is required and it is my view that such changes are best made by consultation with members from all Parties. Therefore, pursuant to Standing Order 106(i), I am referring this question to the Standing Committee on the Legislative Assembly for its consideration and expeditious report. Members should be fully aware that, should circumstances similar to the events of yesterday occur before the Committee makes its report, the Speaker will determine the method of selecting the prevailing deferral letter.

ORDERS OF THE DAY

ORDRE DU JOUR

Debate was resumed on the motion that this House approves in general the Budgetary Policy of the Government (1994).

After some time,

Mrs McLeod moved that the motion moved by the Minister of Finance on May 5 "that this House approves in general the budgetary policy of the government" be amended by deleting the words following the words "that this House" and adding thereto the following:

"Recognizing that the budgetary policy put forward by the Minister of Finance offers no news, no jobs and no hope to get Ontario working again; and

That the NDP budget fails to respond to the 590,000 people in Ontario who are unemployed, and accepts that high levels of unemployment will be part of our future for years to come; and

That this budget does little to offset the NDP's legacy of \$4 billion in new taxes and \$400 million in fee increases, which are the highest tax increases since the Tories were in office; and

That the budget does virtually nothing to address the \$40 billion in new debt added by the NDP, which is the largest increase in the provincial debt since the Tories were in office; and

That the NDP's refusal to pursue a fiscally responsible plan for the first three and a half years of its mandate has created a fiscal crisis which has resulted in job losses and hampered the economic recovery in the province; and

That the NDP have refused to recognize the job-killing economic impact of their anti-business legislation; and

That the NDP's more than \$2 billion hidden deficit plan of hiding debt through loan-based financing, debt financing capital corporations, delayed pension payments, and the one time firesale of government assets are short term solutions which do little to restore business and investor confidence; and

That the NDP have refused to implement the Provincial Auditor's recommendations to fully account for the real deficit of the province; and

That at a time when the people of Ontario were looking for bold new ideas and leadership, the NDP decided to throw in the towel and release a standpat budget that is clearly the last gasp of a dying government; and

That the NDP budget is as full of empty rhetoric and as unable to put the people back to work as the Tories' economic framework; and

That the NDP refuse to implement a realistic Liberal plan to bring unemployment down to at least 6 percent by:

- Cutting the overall tax burden by five per cent over five years;
- Reducing the cost of dealing with red tape by 50 per cent over five years;
- Achieving a balanced operating budget within a Liberal Government's first mandate;
- Keeping a firm lid on WCB premium increases;

- Improving businesses' access to financing, through challenging banks to improve their service to small and medium sized businesses and requiring financial institutions to prepare and publish "codes of conduct" for such financing;
- Renewing our commitment to global trading and improving our infrastructure; and

Failing to implement this realistic plan,

Therefore the House has lost confidence in this government."

ORDERS OF THE DAY**ORDRE DU JOUR**

Debate was resumed on the Amendment to the motion that this House approves in general the Budgetary Policy of the Government (1994).

After some time,

Mr Johnson (Don Mills) moved that the Amendment to the motion be amended by adding after the words "Failing to implement this realistic plan," the following:-

"Recognizing that the 1994 Budget does not radically reform the tax-borrow-and-spend policies which have been pursued in Ontario for the past decade by successive Liberal and New Democratic governments that have undermined both the economy and finances of the province of Ontario; and

That the budget insofar as it is lacking in detail, vision and courage appears to have been written by the Liberal Party of Ontario which in office sowed the seeds of the province's current fiscal and economic crisis; and

That the budget fails to respond to the demands of Ontarians for a revolution in the way government conducts its business and for a reduction in the size and cost of the public sector; and

That the budget ignores the need to substantially lower the deferred tax burden in the form of multi-billion dollar deficits on the people and economy of Ontario; and

That the budget again missed the opportunity to foster the development of a competitive entrepreneurial culture in Ontario by failing to provide meaningful and substantial tax relief to small businesses, workers and consumers, by ignoring the need for reform of the welfare system which currently discourages initiative and promotes dependence and by refusing to eliminate regulations and laws that are strangling investment and job creation; and

That the budget did not include any proposals to ensure that the province would be able to continue to adequately fund priority programs; and

Finding that the budget failed to implement a range of common sense measures including:

- a 30% reduction in the personal income tax rate,
- a small business exemption from the Employers Health Tax
- a 20% reduction in non-priority government spending,
- the appointment of an arms length commission to eliminate anti-business regulations,

· a reduction in Workers Compensation Board premiums,
 · the repeal of job-killing labour laws,
 measures which would have helped balance the budget while creating some 725,000 new jobs,
 Therefore the House has lost confidence in this government."

The debate continued and, after some time,

Pursuant to Standing Order 9(a), the motion for the adjournment of the debate was deemed to have been made and carried.

Conformément à l'article 9(a) du Règlement, la motion d'ajournement du débat est réputée avoir été proposée et adoptée.

DÉPOT DES PROJETS DE LOI

Les projets de loi suivants sont présentés, lus une première fois et déferés au Comité permanent des règlements et des projets de loi privés:-

ORDERS OF THE DAY

Mr Rae moved,

that

Ontario is committed to a major reform of our social security system.

ORDRE DU JOUR

M. Rae propose,

But this House believes that unilateral changes to Canada's network of social programmes, most of which are matters either of exclusive provincial jurisdiction or are under shared federal-provincial jurisdiction, are not compatible with cooperative federalism.

Further, this House accepts, on behalf of the people of Ontario, the responsibility under the Equalization programme, as set out in Section 36(2) of the Constitution Act of Canada, to share our wealth with other Canadians. But we insist upon the right of Ontarians to a fair share of federal expenditure, which residents of Ontario do not now receive.

Therefore this House insists that the process of reform for Canada's social and labour market programmes must be based on the following five principles:

1. Ontario supports the need for change and improvement in our social programmes and in the fiscal and practical arrangements between the two levels of government. This reform should focus upon work, training, and the needs of children.
2. There must be no fiscal offloading from the federal government to the Provinces.
3. There must be no discriminatory treatment against Canadians living in Ontario, and the existing discrimination must stop.
4. Any reform must reinforce, and not undermine, Canada's record as a compassionate society.
5. Any reform must be the product of genuine federal-provincial negotiations, and joint decision-making, and not the result of unilateral federal action.

A debate arising, after some time,

Un débat s'ensuit et après quelque temps,

Mr Sterling moved,

M. Sterling propose,

That the motion be amended by adding the following paragraphs following clause 5:

"In the absence of federal leadership, the Government of Ontario must devote its policies and priorities to restoring and maintaining Ontario's strong economic role in Confederation.

To facilitate this, the Government of Ontario should immediately implement the welfare reform component of the "Common Sense Revolution" document which includes: increasing the performance requirements of recipients through training education and work programs; reviewing eligibility; eliminating fraud, abuse and poor management; and, bringing Ontario's benefits closer to the national average."

The debate continued and, after some time, the amendment to the motion, having been put, was declared lost.

Le débat se poursuit et après quelque temps, la modification de la motion, mise aux voix, est déclarée rejetée.

The main motion, having then been put, was carried on the following division:-

La motion principale est ensuite, mise aux voix, adoptée par le vote suivant:-

ORDERS OF THE DAY

ORDRE DU JOUR

Opposition Day

Jour de l'opposition

With unanimous consent, in the absence of Mrs McLeod, Mr Ramsay moved,

Avec le consentement unanime, en l'absence de M^{me} McLeod, M. Ramsay propose,

Whereas 590,000 men and women in Ontario are currently unemployed and whereas we have seen record levels of unemployment in the last three years of NDP government;

Whereas Ontario's young people are now facing a real unemployment rate of 30% amidst the worst economic conditions since the Depression;

Whereas Ontario suffered the majority of Canadian job losses during the recession, and while, once an economic leader in Canada, now lags behind the recovery seen in the rest of the country;

Whereas the NDP have killed jobs by raising taxes by \$4 billion - the largest increase since the Tories were in office;

Whereas for every 27 people who went back to work in the rest of the country, only 1 person went back to work in Ontario in the first four months of 1994;

Whereas the NDP are content to allow unemployment to remain at 9 per cent until 1997 - an unacceptable level;

Whereas at a time when the people of Ontario were looking for bold new ideas and leadership, the NDP have decided to throw in the towel and accept high unemployment levels as part of Ontario's future for years to come;

Whereas NDP government policies, such as their anti-business legislation have only made the employment outlook in Ontario worse,

Whereas the NDP budget is almost as full of more empty rhetoric and as unable to put people back to work as the Tories' economic framework;

Whereas Mike Harris and the Progressive Conservative Party have put forward an unrealistic plan that simply won't work,

Whereas the plan of the Progressive Conservative Party is based on unachievable promises, unsound calculations and flagrant contradictions;

And, whereas Lyn McLeod and the Ontario Liberal Party have set a target of reducing unemployment to six per cent in five years, and have put forward the only realistic plan for getting Ontario working again, which includes:

- Reducing taxes by 5% over five years;
- Reducing the paper burden by cutting the cost of doing business with government by 50%;
- Balancing the province's operating budget within the government's first mandate, without hiding debt off book.
- Scrapping programs that aren't working, or are hurting business, including:
 - The failed \$1.1 billion Jobs Ontario Training program;
 - The job-killing sections of Bill 40;
 - The \$30 million bureaucratic advocacy legislation;
 - The \$30 million Interim Waste Authority; and
 - Over \$5 million spent for increased NDP political staff;
- Special help for small business such as:
 - Examining the establishment of tax credits for new hiring, and for venture capital companies; and
 - More help for small and medium-sized companies to tap into export markets;

Therefore, this House resolves that the recommendations contained in the Lyn McLeod Task Force on Jobs be immediately adopted and implemented.

Mr Cousens moved,

M. Cousens propose,

That, in the opinion of this House, recognizing that recall provides citizens with the opportunity to exercise accountability over their elected officials, and

since other jurisdictions in Canada are exploring the recall option in their provincial legislatures, and

since evidence from other jurisdictions outside of Canada indicates that recall is rarely abused, and

since the recall process should explore the ethical criteria for recall of an elected officer, and

that the process in which to initiate the recall process may involve a review of several checks and balances that could be ascertained by further guidance from legislative officials and the public,

the Standing Committee on the Legislative Assembly be required to develop a recall process for consideration by the Legislature and to present their recommendations and options to the Legislative Assembly by the Spring Session in 1995.

The Speaker delivered the following ruling:-

On Tuesday, May 3, 1994 the member for Halton Centre (Mrs Sullivan) informed the House that instructions she and other members had received from the Ministry of the Attorney General tended to place restrictions on when a member could contact the office of the Family Support Plan on his or her constituents behalf. According to the member, these instructions violated members' privileges.

I have reviewed the documents at length that the member provided to me as well as our practices and precedents and the relevant parliamentary authorities and I find that a prima facie case has not been made out.

I thank the member for Halton Centre for bringing her concerns to the attention of myself and of the House.

The Speaker delivered the following ruling:

On Thursday, May 12, the member for York Mills (Mr Turnbull) rose on a question of privilege to inform the House that his privilege of freedom of speech had been circumscribed by virtue of the fact that the government had not sought the approval of the House for any of its Budgets. The member also indicated that the way in which the government was choosing to conduct its business with respect to the Budget motion constituted a violation of his right to vote.

The member submitted that whereas Budget motions had been fully debated and voted upon for most years in the period from 1980 to 1990, no Budget motion had been voted on since that time. In fact, at the present time, there are 2 Budget motions on the *Orders and Notices* paper -- one for 1993 and the other for 1994. According to the member, this state of affairs violated the customs and traditions of the House.

Let me begin my response to the member's concern by referring members to Standing Order 57(a), which reads as follows:

The Budget motion, upon proper notice, shall be moved by the Treasurer following the completion of the debate on the motion for an Address in Reply to the Speech from the Throne, and amendments, and in so doing the Treasurer shall present the Budget and Budget papers.

Members will know that this rule imposes minimal restrictions or requirements with respect to the Budget process -- unlike the situation in other Canadian and Commonwealth jurisdictions. Many of those jurisdictions have rules that require a certain number of days of debate on the Budget motion, that give precedence to the Budget motion over other orders, and that require the question on the Budget motion to be put to the House at a designated time. By contrast, this House has no such restrictions or requirements.

Let me now make a few remarks about the nature of privilege. As Speaker Edighoffer stated (at page 147 of the *Journals* for December 10, 1985), "it is only in very extreme circumstances that there can come to the House a legitimate case of privilege on the basis of the real and accepted and traditional definition of parliamentary privilege." Citation 24 of the 6th edition of *Beauchesne* states that "[t]he privileges of Parliament are rights which are 'absolutely necessary for the due execution of its powers.'"

In reviewing the usual parliamentary authorities, I have found no authority for the proposition that the failure of the House to vote on the Budget motion -- or the failure of the government to call the order for resuming the adjourned debate on the Budget motion -- is a matter that touches the privilege of freedom of speech. Indeed, *Erskine May* states (at page 86 of the 21st edition) that "the privilege of freedom of speech protects what is said in debate...", and that is not the kind of situation that is before me now.

To this, I might add that Standing Order 54 provides that "[e]xcept as otherwise provided in these Standing Orders, government business will be taken up in the discretion of the Government House Leader or a minister acting in his or her place."

On this point, I refer members to 2 rulings by Speaker Stokes. In the first one, the Speaker was faced with a situation in which a member rising on a question of privilege alleged that the acting Government House Leader was preventing the House from considering an important matter by not scheduling it for debate. The Speaker made the following remarks (at page 2292 of the *Hansard* for May 29, 1979):

[I]t is not the responsibility of the chair to order the business of this House.... The ordering of business is the responsibility of the government House leader in consultation with the other 2 House leaders.... [Y]ou wouldn't want the chair to be forcing its position on the ordering of the business of this House or its committees. It must be resolved by the proper authorities. There is nothing I can do about it.

In the second case, a member had objected to the government's introduction of the Supply bill before the Budget had been approved. The Speaker indicated (at page 5362 of the *Hansard* for December 12, 1980) that he was "at the pleasure of the House" on the matter.

In closing, then, I find that no *prima facie* case of privilege has been made out, but I do thank the member for York Mills for raising his concerns in the way in which he did.

Mr Harris moved,

M. Harris propose,

Whereas the number of youth under the age of 18 who were charged with violent crime in Canada more than doubled between 1986 and 1991;

Whereas the criminal habits adopted by these young people may stay with them all of their lives;

Therefore, this House calls on the Attorney General to publicly and vigorously lobby the Federal Government to, at a minimum, make the following amendments to the Young Offenders Act:

Streamline the process to ensure that young offenders who commit violent crimes are tried in adult court;

Streamline the process to allow offenders younger than the age of criminal responsibility who commit violent crimes and who understand the consequences of their behaviour to be tried in youth court;

Introduce stiffer penalties for young offenders;

Remove the requirement for the province to provide legal aid to all young offenders who request it, regardless of financial circumstances or the nature of the charge;

Once a young offender has been convicted of 2 offences, any subsequent offence will be tried in adult court and subject to a criminal record, as well as removing the publication ban on identity;

Ms Carter moved,

M^{me} Carter propose,

That, in the opinion of this House, since Canada is a signatory to the 1992 United Nations Framework Convention on Climate Change, now in force, which recognizes the catastrophic environmental, economic, and social consequences of greenhouse gas emissions and calls for decisive international action to curb these emissions; and

since the federal government has committed to a 20 per cent reduction in greenhouse gas emissions over 1988 levels by 2005, as urged by the Toronto Conference on the Changing Atmosphere and endorsed by the Ontario Round Table on Environment and Economy; and

since the federal government is working to develop a National Action Plan on Climate Change, together with the provinces and territories that will reverse the continuing trend toward higher emissions and achieve the 20 per cent target; and

since the recent Canadian Options of Greenhouse Gas Emission Reduction (COGGER) report for the Royal Society of Canada concludes that it is both technically feasible and economically beneficial to implement a 20 per cent reduction in emission levels;

Therefore this Assembly should support the federal government in its commitment to a 20 per cent reduction in Canada's greenhouse gas emissions over 1988 levels by 2005, and further support leadership on the part of Ontario in helping to develop and implement a National Action Plan to achieve this environmentally imperative goal.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mr Beer then moved,

Ensuite, M. Beer propose,

That, in the opinion of this House, the government of Ontario should give formal legislative recognition to the profession of Early Childhood Educators, and

since early childhood educators have a large share of the responsibility for the care and education of young children in Ontario, and

since despite the importance of this profession there are no formal entry standards for early childhood educators beyond the E.C.E. diploma, and

since there are no formal standards of practice nor any mechanism to ensure that early childhood educators are held accountable for their professional conduct, and

since the Association of Early Childhood Educators, Ontario (A.E.C.E.O) is an organization of early childhood educators and concerned individuals whose objective is to improve the quality of early childhood care and education, and has long held that some form of professional regulation is required to ensure that the needs of children and families are met;

Therefore, in order to protect children and families and increase the quality of care and education of young children, the Government of Ontario should formally recognize the need for professional regulation of early childhood educators and should develop an act that prescribes, among other things, minimum entry standards, standards of practice and a code of ethics for early childhood educators. Draft legislation should be presented to this legislature no later than the end of the 1994 legislative session.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Ms Carter's Resolution Number 44, the question having been put, was declared carried:-

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 44 de M^{me} Carter n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée:-

And it was,

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Beer's Resolution Number 43, the question having been put, was declared carried:-

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 43 de M. Beer n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée:-

The House expressed its condolence on the death of Donald R. Irvine, member for the Electoral District of Carleton-Grenville from October 21, 1971 to April 29, 1977.

The House expressed its condolence on the death of A. Wallace Downer, member for the Electoral District of Dufferin-Simcoe from October 6, 1937 to August 11, 1975.

The Speaker delivered the following ruling:

Yesterday, the Member for Mississauga South (Mrs Marland) rose in the House on a question of privilege. At the outset, I would like to thank the member for providing advance written documentation allowing me the opportunity to fully consider the matter.

The situation as described by the member is that the Standing Committee on the Legislative Assembly in closed session on Tuesday, August 16, 1994 considered a draft report prepared by counsel. Press reports on matters relating to contents of that report appeared on the morning of Wednesday, August 17, 1994.

I have examined the facts as presented by the member and reviewed precedent and relevant authorities to determine whether or not the premature disclosure of contents of a draft committee report constitutes a prima facie case of privilege.

Let me begin by quoting Erskine May at page 124 of the Twenty-first Edition of Parliamentary Practice:

"The publication or disclosure of debates or proceedings of committees conducted with closed doors or in private, or when publication is expressly forbidden by the House, or of draft reports of committees before they have been reported to the House will, however, constitute a breach of privilege or contempt."

Our own experience in this Assembly supports May with respect to the premature disclosure of Committee reports that have been considered in closed session.

On Thursday, June 21, 1984 the House adopted a report from the Standing Committee on Procedural Affairs entitled Standing Orders and Procedure (No. 3) concerning the premature disclosure of committee reports in which it was stated:

"It is unethical for members to disclose matters relating to the contents of a committee's report, which was considered and adopted while the committee met in camera, before the report has been presented to the House. Such disclosure may be found to be a breach of privileges of the house and may constitute a contempt of Parliament."

In 1985, there were two questions of privilege raised with respect to the premature disclosure of Committee reports. On November 7, 1985 and again on November 29, 1985, Speaker Edighoffer found there to be a prima facie case of privilege and allowed a motion to refer the matter to committee.

As a result of those referrals the Standing Committee on Procedural Affairs tabled another report on the matter on Thursday, January 16, 1986. In this report, the Committee discussed the general nature of premature disclosure, including partial disclosure and its impact on the activities of the House. The report stated that "leaks are more damaging when they are in fact inaccurate, partial or misconceived".

There can be no doubt that the situation before us concerns the premature disclosure of proceedings that were conducted in closed session and involved a draft committee report that had yet to be filed with the Clerk of the House or presented to this House. Both Erskine May and our own precedent support the notion that such premature disclosure does constitute a breach of privilege and possibly contempt of this House.

I therefore find that the Member does have a prima facie case of privilege and according to our custom, I will entertain a motion to refer the matter to Committee.

On motion by Mrs Marland,

Sur la motion de M^{me} Marland,

Ordered, That this matter be referred to the Standing Committee on the Legislative Assembly for review.

Mr Ruprecht moved,

M. Ruprecht propose,

That, in the opinion of this House, since it is desirable that the province reduce the immense costs - perhaps \$500,000 or \$1 million per addict - of the crime committed by people who steal and commit mayhem in order to support drug addiction; and

since intervention is needed to recover the wasted human potential and productivity associated with such addiction; and

since most American states have legislated driver's licence suspensions for persons convicted of drug offences; and

since the legal framework is already in place for medical treatment of addicts with methadone;

therefore, this House urges the Government of Ontario to amend the *Highway Traffic Act* and *Courts of Justice Act* to provide that the Ministry of Transportation receive notification of all convictions for drug trafficking offences and that it impose an administrative one-year suspension of (or postponed eligibility for, or postponed restoration of) the driver's licence of anyone convicted under any statute of a trafficking offence; and

to dedicate funds for methadone treatment; designate hospitals or other existing medical service providers which must make the treatment available and be responsible for the monitoring involved; and cooperate with the College of Physicians and Surgeons of Ontario quickly to develop guidelines to govern adequate and controlled approval of physicians for Bureau of Dangerous Drugs treatment licenses, in such numbers and locations as will facilitate the orderly expansion of methadone treatment in Ontario.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservée jusqu'à midi.

Ms Harrington then moved,

Ensuite, M^{me} Harrington propose,

That, in the opinion of this House, since the employment of children under the age of 18 as exotic dancers and strippers is abhorrent to our society; and

since children abused in this manner may suffer long term physical and emotional damage; and

since this practice is widespread across Ontario and Canada; and

since 1994 is the International Year of the Family and Canada has ratified the United Nations Convention on the rights of the child which ensure the rights of children to survival, development and protection; and

since it is illegal for anyone under 18 to purchase liquor, cigarettes or rent adult videos; and

since the Government of Ontario is doing all that it can to resolve this matter; and

since there is a need for a unified approach to dealing with this serious issue to protect communities across Ontario as well as Canada; and

since Section 5 of the Criminal Code of Canada deals with sexual offences, public morals and disorderly conduct,

therefore, this House calls upon the Government of Canada and the Minister of Justice to amend Section 5 of the Criminal Code to make it an offence to employ children under the age of 18 as exotic dancers or strippers, or to employ minors to work in establishments which provide sexual services.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Ruprecht's Resolution Number 50, the question having been put, was declared carried:-

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 50 de M. Ruprecht n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée:-

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Ms Harrington's Resolution Number 48, the question having been put, was declared carried:-

Conformément à l'article 96(e) du Règlement, la motion portant sur la résolution numéro 48 de M^{me} Harrington n'a pas fait l'objet d'opposition et la motion, mise aux voix, est déclarée adoptée:-

ORDERS OF THE DAY**ORDRE DU JOUR****Opposition Day****Jour de l'opposition****Mr Harris moved,****M. Harris propose,**

Whereas in these difficult economic times, a fair and efficient social safety net is more necessary than ever to give people a hand-up instead of a hand-out;

Whereas on average, Ontario's welfare benefit payments are 30% higher than the average of all provinces;

Whereas in the recession of 1982, welfare costs in Ontario were \$930 million and coming out of the current recession, costs have ballooned to \$6.8 billion for 1994-95;

Whereas between 1985 and 1990, the Liberals hiked rates 60%;

Whereas caseloads increased steadily throughout the boom years of the late 1980s and have doubled since 1989;

Whereas the current welfare system penalizes recipients who work to earn extra money;

Whereas the goals of welfare reform, as stated in the Common Sense Revolution launched in May 1994, should be; i) returning welfare to its intended role as a temporary support program; ii) streamlining the system to improve access and efficiency; and iii) ending waste and fraud;

Whereas the Common Sense Revolution plan will save taxpayers \$1.75 billion;

Therefore, this House calls on the Minister of Community and Social Services to implement the plan outlined in the Common Sense Revolution, including:

1. Set Ontario's welfare benefits at 10% above the average level of all other provinces;
2. Move 170,000 elderly and disabled recipients out of the welfare system to a new, separate income supplement programme. Funding for this programme will be guaranteed at current benefit levels;
3. Replace welfare with a mandatory WorkFare and LearnFare programme that will prepare welfare recipients to return to the workforce by requiring all able-bodied recipients - with the exception of single parents with small children - either to work or be retrained in return for their benefits;
4. Included in this will be a Youth Jobs Corp to provide younger people with the opportunity to learn new skills while performing work for their community;

5. Establish a \$100 million joint public/private/volunteer sector programme to ensure those work opportunities exist;
6. As a transition measure, allow current welfare recipients to earn back the difference between the new benefit levels and the old rates, with no penalty or impact on eligibility;
7. Eliminate an existing policy which grants benefits to 16 and 17 year olds who simply chose to leave home and expand the role of the Children's Aid Society to provide foster care for young people up to 18 who are caught in abusive home environments.
8. End direct deposit of benefits and require in-person pick-up of cheques by recipients;
9. Introduce a photo/smart-card ID system, re-instate home visits, centrally computerize the benefit payment system, and enhance the authority of welfare review officers to conduct welfare fraud inquiries;
10. Facilitate community nutrition programmes for school-age children, and introduce new programmes for literacy, parenting and child support.

ORDERS OF THE DAY

Opposition Day

Mr Harris moved,

Whereas the NDP government unilaterally announced that OHIP would reduce out-of-country hospital coverage for all Ontarians;

Whereas this government change means higher health care costs for every Ontarian, including people travelling for business, families on vacation, and seniors;

Whereas the Canada Health Act guarantees "portability" and states that provincial health plans must pay for out-of-Canada hospitalization at the same rate they would pay for such care at home;

Whereas the Federal Liberal Health Minister refuses to enforce the Canada Health Act and has demonstrated no leadership on this issue;

ORDRE DU JOUR

Jour de l'opposition

M. Harris propose,

Whereas the principles of fairness and accountability to those who fund the health care system through their tax dollars have also clearly been violated;

Whereas the NDP failed to consult with the people affected, failed to determine if this policy is legal, and failed to calculate if savings would truly be made;

Therefore, in the absence of leadership from the Federal government, this House calls on the Minister of Health to support the belief of the people of Ontario in the principle of portability - as enshrined in the Canada Health Act - and immediately restore out-of-country hospital coverage to Ontario rates.

The Speaker delivered the following ruling:-

On Thursday, November 24, the member for Durham West (Mr Wiseman) introduced a bill entitled, "An Act to amend the Regional Municipality of Durham Act, the Municipal Act and the Regional Municipalities Act".

It has been brought to my attention that this bill appears to be incomplete and so contravenes Section 38(d) of our Standing Orders in that it is in improper form.

The Speaker delivered the following ruling:-

Yesterday, the Honourable Member for Mississauga South (Mrs Marland), rose on a question of privilege in which she alleged that her privileges had been breached, in that the Human Rights Commission had denied her request to make oral submissions, on behalf of one of her constituents, before the Commission.

The Honourable Member will know that the parameters of parliamentary privilege are very narrow and were only intended to protect the activities of Members, while carrying out their legislative duties in the Chamber and its committees. I therefore, cannot find any prima facie case of privilege.

M. Bradley propose,

That, in the opinion of this House, since Ontario has one of the most severe summer smog problems in Canada, and

since summer smog is a serious public health threat, particularly for the hundreds of thousands of Ontarians who have asthma and other respiratory ailments, and

since about half of the air pollution which forms smog is emitted by automobiles and trucks, and

since Ontario has fallen behind more environmentally advanced jurisdictions in North America, which have instituted mandatory annual vehicle emission testing, and

since in Ontario, we are spending several million dollars to test vehicle emission testing equipment which has already undergone more than a billion dollars of testing by the US Environmental Protection Agency;

Therefore, this Legislative Assembly supports the immediate implementation of a mandatory annual vehicle emission testing program to get polluting vehicles off the road and reduce summer smog.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

À 11 heures, la suite du débat est réservé jusqu'à midi.

Mr Cooper then moved,

Ensuite, M. Cooper propose,

That, in the opinion of this House, since the Ontario New Democratic Government has stated job creation is its number one priority; and

since reducing government operating costs is of paramount importance to controlling the deficit and preserving the services people have come to rely upon; and

since economic renewal depends upon high value added manufacturing, export success, and increased research and development; and

since we must use the principles of sustainable development by promoting the wise and efficient use of energy and conservation of resources; and

since we must lead by example through the procurement of factory supplied natural gas vehicles and/or retrofit of existing vehicles to natural gas; and

since we must preserve our environment for future generations;

therefore, this House urges the Government of Ontario to review the feasibility and where possible implement the systematic conversion of government vehicles to natural gas as a means of creating higher value added jobs, reducing government operating costs and achieving a cleaner environment; and

this House also urges the Government of Ontario to call upon the Government of Canada to review the feasibility of converting Federal Government vehicles to natural gas; and

this House also urges the Government of Ontario to call upon Ontario Municipalities to review the feasibility of conversion of municipal vehicles to natural gas.

Pursuant to Standing Order 96(e), no objection having been made to the putting of the question on Mr Bradley's Resolution Number 54, the question having been put, was carried on the following division:-

ORDERS OF THE DAY

Debate was resumed on the Amendment to the Amendment to the motion that this House approves in general the Budgetary Policy of the Government (1994).

ORDRE DU JOUR

Le débat reprend sur la modification de la modification de la motion demandant que la présente Assemblée adopte les grands principes de la politique budgétaire du gouvernement (1994).

After some time, the amendment to the amendment to the motion as follows:-

That the Amendment to the motion be amended by adding after the words "Failing to implement this realistic plan," the following:-

"Recognizing that the 1994 Budget does not radically reform the tax-borrow-and-spend policies which have been pursued in Ontario for the past decade by successive Liberal and New Democratic governments that have undermined both the economy and finances of the province of Ontario; and

That the budget insofar as it is lacking in detail, vision and courage appears to have been written by the Liberal Party of Ontario which in office sowed the seeds of the province's current fiscal and economic crisis; and

That the budget fails to respond to the demands of Ontarians for a revolution in the way government conducts its business and for a reduction in the size and cost of the public sector; and

That the budget ignores the need to substantially lower the deferred tax burden in the form of multi-billion dollar deficits on the people and economy of Ontario; and

That the budget again missed the opportunity to foster the development of a competitive entrepreneurial culture in Ontario by failing to provide meaningful and substantial tax relief to small businesses, workers and consumers, by ignoring the need for reform of the welfare system which currently discourages initiative and promotes dependence and by refusing to eliminate regulations and laws that are strangling investment and job creation; and

That the budget did not include any proposals to ensure that the province would be able to continue to adequately fund priority programs; and

Finding that the budget failed to implement a range of common sense measures including:

- a 30% reduction in the personal income tax rate,
- a small business exemption from the Employers Health Tax
- a 20% reduction in non-priority government spending,
- the appointment of an arms length commission to eliminate anti-business regulations,
- a reduction in Workers Compensation Board premiums,
- the repeal of job-killing labour laws,

measures which would have helped balance the budget while creating some 725,000 new jobs,

Therefore the House has lost confidence in this government."

having been put, was lost on the following division:-

The amendment to the motion as follows:-

That the motion moved by the Minister of Finance on May 5 "that this House approves in general the budgetary policy of the government" be amended by deleting the words following the words "that this House" and adding thereto the following:

"Recognizing that the budgetary policy put forward by the Minister of Finance offers no news, no jobs and no hope to get Ontario working again; and

That the NDP budget fails to respond to the 590,000 people in Ontario who are unemployed, and accepts that high levels of unemployment will be part of our future for years to come; and

That this budget does little to offset the NDP's legacy of \$4 billion in new taxes and \$400 million in fee increases, which are the highest tax increases since the Tories were in office; and

That the budget does virtually nothing to address the \$40 billion in new debt added by the NDP, which is the largest increase in the provincial debt since the Tories were in office; and

That the NDP's refusal to pursue a fiscally responsible plan for the first three and a half years of its mandate has created a fiscal crisis which has resulted in job losses and hampered the economic recovery in the province; and

That the NDP have refused to recognize the job-killing economic impact of their anti-business legislation; and

That the NDP's more than \$2 billion hidden deficit plan of hiding debt through loan-based financing, debt financing capital corporations, delayed pension payments, and the one time firesale of government assets are short term solutions which do little to restore business and investor confidence; and

That the NDP have refused to implement the Provincial Auditor's recommendations to fully account for the real deficit of the province; and

That at a time when the people of Ontario were looking for bold new ideas and leadership, the NDP decided to throw in the towel and release a standpat budget that is clearly the last gasp of a dying government; and

That the NDP budget is as full of empty rhetoric and as unable to put the people back to work as the Tories' economic framework; and

That the NDP refuse to implement a realistic Liberal plan to bring unemployment down to at least 6 percent by:

- Cutting the overall tax burden by five per cent over five years;
- Reducing the cost of dealing with red tape by 50 per cent over five years;
- Achieving a balanced operating budget within a Liberal Government's first mandate;
- Keeping a firm lid on WCB premium increases;
- Improving businesses' access to financing, through challenging banks to improve their service to small and medium sized businesses and requiring financial institutions to prepare and publish "codes of conduct" for such financing;
- Renewing our commitment to global trading and improving our infrastructure; and

Failing to implement this realistic plan,

Therefore the House has lost confidence in this government."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

"His Honour the Lieutenant Governor doth thank Her Majesty's dutiful and loyal subjects, accept their benevolence and assent to this bill in Her Majesty's name."

«Son Honneur le lieutenant-gouverneur remercie les bons et loyaux sujets de Sa Majesté, accepte leur bienveillance et sanctionne ce projet de loi au nom de Sa Majesté.»

His Honour the Lieutenant Governor was then pleased to deliver the following gracious speech:-

Mr. Speaker, members of the Legislative Assembly, Ladies and Gentlemen:

The third session of the 35th Parliament, which I opened with the speech from the throne on April 13, 1993, has seen the province move into what is now an increasingly vibrant economic recovery.

The government's plan - to invest in jobs; to provide sound fiscal management and to preserve services - is working and will continue to work. Strong leadership has been needed to make the tough but compassionate decisions required to sensibly and successfully guide Ontario's economy through this period of hardship. Now, the people of Ontario can look forward with renewed hope to a buoyant economy and revitalized public services.

Job creation remains the government's number one priority. In November alone 45,000 new jobs were created - a rate of 1,500 per day. That continues a pattern of strong monthly job growth, that began early this year. During the last ten months alone, 182,000 new jobs have been created in Ontario.

All segments of society are participating in the recovery. Many of the most vulnerable Ontarians are now able to re-enter the workforce. In fact, from March to October of this year, general welfare assistance caseloads declined by 36,500, the most significant decrease since 1989.

But much work remains to be done. The current level of unemployment, although declining, is unacceptable to this government. More and more jobs are needed and jobsOntario is meeting this challenge head on. In this fiscal year alone, jobsOntario will be responsible for creating and supporting 166,500 Ontario jobs. jobsOntario will succeed because it represents a new kind of partnership involving Ontario businesses, organized labour, individual workers, training institutions, public sector agencies and communities.

jobsOntario Training has enlisted more than 38,000 employers in support of an initiative which thus far has created 65,000 jobs. jobsOntario Capital annually invests more than \$3 billion in Ontario's infrastructure, creating 93,000 jobs this year. jobsOntario Community Action will invest \$300 million in over a thousand projects in Ontario communities. jobsOntario Homes will create 20,000 units of affordable housing and generate \$1.65 Billion in capital activity all over the province. jobsOntario summer employment has supported jobs for more than 20,000 students during each of the last two summers.

To facilitate infrastructure investment, the Capital Investment Plan act established the Ontario Transportation Capital Corporation, the Ontario Clean Water Agency, the Ontario Realty Corporation, and the Ontario Financing Authority. As one example of what this means, the government will be investing with its private sector partners in the construction of Highway 407, to be built 22 years ahead of schedule, creating 20,000 jobs over 5 years.

In January 1994, the Ontario government signed the tripartite Canada-Ontario infrastructure works agreement which will result in 37,000 jobs for Ontario workers.

Ontario programs are creating jobs now. The government's industrial strategy provides the framework for the jobs of tomorrow. The \$150 million sector partnership fund represents a new way of doing business in Ontario. Enormous future economic gains will flow from the sectoral partnerships being forged in the auto parts, plastics, aerospace, computing, telecommunications and health industries, to name a few.

Another key example of the government's partnership approach is the Ontario Training and Adjustment Board. The transfer of responsibility for the provincial training system to an agency at arm's length from government allows those most directly affected - employers, unions and community based trainers - to guide and coordinate training efforts in the province. OTAB's network of local boards will be able to coordinate and streamline labour market programming that is appropriate to the needs of the changing economy.

Community economic development is fundamental to the government's economic renewal strategy. Legislation was passed to provide credit unions and caisses populaires with broader lending powers to support small business, farms, and cooperatives. Revitalization of the Thunder Bay waterfront and creation of the Roberta Bondar Park in Sault Ste. Marie are only two of the hundreds of community projects undertaken throughout Ontario. The Windsor Casino will result in 10,700 new jobs and generate over \$200 million in revenues for the province.

A thriving small business sector is a cornerstone of job creation. My government's Clearing the Path initiative will simplify business regulations and streamline the regulatory paperwork for small businesses. Legislation accompanying the 1994 budget has increased small and medium-sized business access to capital and strengthened the role of co-operatives. Tax measures were implemented to exempt employers hiring new workers and new employers from paying the payroll health tax.

This government has passed legislation that institutes a workable management structure and financially viable compensation system for the Workers' Compensation Board. A royal commission will recommend longer term solutions to the challenges facing employers and injured workers who rely on the board.

Following extensive consultation, the Employment Equity Act was proclaimed this September. This legislation will increase equity and fairness in the workplace for women, aboriginal people, persons with disabilities and members of racial minorities. Employment equity stands as a cornerstone of this government's agenda for social justice and economic renewal.

My government is particularly sensitive to the need to develop appropriate programs and resources for the agricultural communities of this province. To this end, the government has committed itself to protecting the unique fruitlands of Niagara through the tender fruit lands program.

My government was also pleased to have been able to respond to the long standing request from farm organizations to stabilize their funding base. The Farm Registration and Farm Organization Funding Act will allow farm organizations to provide better services on behalf of their farmer members.

In addition, the government announced the Farm Plus Loan program, which will give Ontario farmers better access to investment capital loans. This program will strengthen Ontario farm businesses and thereby enhance our agricultural and rural economy.

The government recognizes that a commitment to the environment and concern about the economy are not mutually exclusive - both are essential components of a healthy and viable community.

A significant step was taken towards greater accountability and citizen participation in the environment with the proclamation of the Environmental Bill of Rights on February 15, 1994.

The Crown Forest Sustainability Act guarantees the long-term health of our forests and will help to sustain the communities, industries and jobs dependant on them.

This House has recently passed legislation which will change land-use planning in Ontario by allowing municipalities greater control over the planning process, give more consideration to environmental issues and which will reduce red tape for developers.

The second element of my government's plan recognizes that in addition to job creation, an essential element of providing good government is responsible fiscal management. Governments everywhere are coming to terms with the fiscal realities imposed by escalating deficits and the declining revenues accompanying the recession.

It must be noted that the government's fiscal situation has been dramatically and adversely affected by a series of actions taken by two successive federal governments. Billions of dollars have been cut from Ontario's transfer payments. Ontario has been denied its fair share relative to other provinces.

In the spring of 1993, my government came forward with a clear plan to manage its deficit. An expenditure control plan was put forward, reducing government expenditures by \$4 billion, with minimal disruption to programs and services. The Social Contract Act was passed, allowing the government to avoid up to 40,000 lay-offs and realize another \$2 billion in savings. The alternative to these tough decisions would have been an irreversible decline in the quality of the public services Ontarians deserve.

The current budget furthered these bold steps to ensure that deficit reduction targets are achieved.

Like the private sector, governments must restructure to meet the challenges of the modern economy. We began by decreasing the number of government ministries from 28 to 20. The government will meet its commitment to reduce the size of the Ontario public service by more than 5,000 positions. And this has been accomplished with almost no layoffs.

The government's intention to issue new, more secure, health cards to residents of the province is just one example of sound management. Photo health cards will result in approximately \$65 million in annual savings by reducing fraud and misuse.

The final element of the government's plan is the preservation and enhancement of services for all Ontarians. My government is fully committed to ensuring quality programs and services for all residents of this province.

In this respect, the redirection of long-term care and support services is well underway. These reforms will integrate and improve services to elderly persons, their caregivers, adults with physical disabilities and others who need health services at home.

This government's commitment to illness prevention was clearly demonstrated in the recent proclamation of the Tobacco Control Act. This legislation focuses efforts on discouraging our young people from starting to smoke.

The aboriginal healing and wellness strategy will allow my government to work in partnership with first nations to address the pressing health issues facing aboriginal communities.

My government's continuing concern about the quality of education in this province led to the appointment of the Royal Commission on Learning in May 1993. The commission will make recommendations on re-engineering Ontario's education system to ensure our children are prepared for the 21st century.

Notre gouvernement entend faciliter l'accès des étudiants francophones à l'éducation supérieure. Il l'a prouvé en annonçant la création de deux nouveaux collèges de langue française ainsi que l'aménagement d'un campus permanent pour la cité collégiale, le premier collège francophone en Ontario.

Legislation to extend pay equity was proclaimed in July, 1993. Now, 420,000 additional women will have access to fairer wages. These workers, primarily in the broader public sector, ensure the high quality of public services we rely on.

These three elements - job creation, sound fiscal management and preservation of public services - have guided my government's course over the past session. The plan is a balanced and fair approach to governing in difficult times. It is a plan which has helped put this province back on its feet.

In addition, the government has taken other actions to ensure that Ontarians are able to live in safe communities. Personal safety is an issue which increasingly confronts each of us.

To this end, this House passed the Highway Traffic Amendment Act last fall, to provide a safer regime of licensing new drivers. In addition, my government has introduced the integrated safety project to curtail speeding and further enhance safety on Ontario highways. These are significant initiatives to provide safety on our roads.

My government established the provincial weapon's enforcement unit, and a 3-month weapons amnesty, which took over 4,300 weapons out of our neighbourhoods. Most recently the government has passed legislation to allow municipalities and police to take the necessary measures to protect neighbourhoods from the violence and disruption too often associated with after-hour bars.

Honourable members, I would like to congratulate you on your many accomplishments during this lengthy session.

I would also like to take this opportunity to wish you and your families best wishes during the holiday season, and a healthy and happy new year.

In our sovereign's name, I thank you. Au nom de notre souveraine, je vous remercie.

I now declare this session prorogued. Je déclare cette session prorogée.

Monsieur le Président, Mesdames et Messieurs les membres de l'Assemblée législative, Mesdames et Messieurs,

Depuis que nous avons ouvert la troisième session de la 35^e législature en prononçant le discours du trône, le 13 avril 1993, une reprise économique s'est amorcée dans la province et s'avère maintenant de plus en plus marquée.

Le plan du gouvernement, qui est d'investir dans l'emploi, d'assurer une gestion judicieuse des finances et de préserver les services publics, produit déjà des résultats et continuera d'en produire. Il fallait de la détermination pour prendre les décisions dures mais justes qui s'imposaient afin que l'économie ontarienne se remette de cette période difficile. Les Ontariennes et Ontariens peuvent maintenant s'attendre à retrouver bientôt une économie florissante et à bénéficier de services publics renouvelés.

La création d'emplois reste la grande priorité du gouvernement. En novembre seulement, on a créé 45 000 emplois, soit 1 500 par jour. Cela signifie que la forte croissance mensuelle de l'emploi, qui a commencé au début de l'année, se maintient. Rien qu'au cours des dix derniers mois, quelque 182 000 nouveaux emplois ont été créés en Ontario.

Toutes les couches de la société participent à cette reprise. De nombreux Ontariens et Ontariennes comptant parmi les plus vulnérables peuvent de nouveau faire partie de la population active. En fait, de mars à octobre 1994, 36 500 personnes ont cessé d'avoir recours à l'aide sociale générale. Cette diminution est la plus importante depuis 1989.

Il reste cependant beaucoup à faire. Le gouvernement trouve le taux de chômage actuel inacceptable, même si ce dernier a diminué. Il faut créer davantage d'emplois. C'est l'objectif que s'est fixé le programme **boulotOntario**, et c'est celui qu'il réussira à atteindre car ce programme constitue un nouveau genre de partenariat entre les entreprises, les syndicats, les travailleurs et travailleuses, les établissements de formation, les organismes du secteur public et les collectivités de la province. Ainsi, au cours de l'exercice actuel seulement, **boulotOntario** permettra de créer et de préserver 166 500 emplois.

Le programme **boulotOntario Formation** a recruté plus de 38 000 employeurs qui ont créé 65 000 emplois jusqu'ici. Dans le cadre du programme **boulotOntario Construction**, on investit chaque année plus de trois milliards de dollars dans l'infrastructure de la province, ce qui a permis de créer 93,000 emplois cette année. Dans le cadre de **boulotOntario Action communautaire**, on investira 300 millions de dollars dans plus de mille projets communautaires. Le programme **boulotOntario Logement** permettra de créer 20 000 logements abordables et entraînera des immobilisations de 1,65 milliard de dollars dans toute la province.

Par ailleurs, le programme **boulotOntario Emplois d'été** a procuré de l'emploi à plus de 20 000 étudiants et étudiantes au cours des deux derniers étés.

Aux termes de la *Loi sur le plan d'investissement*, le gouvernement a créé la Société d'investissement dans les transports de l'Ontario, l'Agence Ontarienne des eaux, la Société immobilière de l'Ontario et l'Office Ontarien de financement dans le but de faciliter les investissements dans l'infrastructure. Dans la même veine, le gouvernement investira avec ses partenaires du secteur privé dans la construction de l'autoroute 407 qui, 22 ans avant la date prévue de construction, permettra de créer 20 000 emplois sur cinq ans.

En janvier 1994, le gouvernement de l'Ontario a signé l'Accord Canada-Ontario sur les travaux d'infrastructure, lequel entraînera la création de 37 000 emplois dans la province.

Tandis que les programmes **boulotOntario** procurent des emplois aujourd'hui, la stratégie industrielle du gouvernement établit un cadre pour les emplois de demain. Le Fonds de partenariat sectoriel, doté d'un budget de 150 millions de dollars, constitue une nouvelle façon de faire des affaires en Ontario. Des partenariats sectoriels établis notamment dans les secteurs des pièces d'automobile, des plastiques, de l'aérospatiale, de l'informatique, des télécommunications et de la santé permettront de réaliser d'énormes gains économiques.

Le Conseil ontarien de formation et d'adaptation de la main-d'oeuvre est un autre exemple qui illustre bien le type de partenariat que le gouvernement veut créer. En confiant à un organisme autonome l'administration de la formation professionnelle dans la province, le gouvernement permet aux parties directement intéressées, c'est-à-dire les employeurs, les syndicats et les organismes communautaires de formation, d'orienter et de coordonner la formation professionnelle dans la province. Les conseils locaux du COFAM coordonneront et rationaliseront les programmes de formation et d'adaptation qui prépareront la main-d'oeuvre ontarienne à une économie en pleine transformation.

Le développement économique communautaire est un élément essentiel de la stratégie du gouvernement en matière de renouveau économique. À cet effet, on a adopté des lois accordant aux *credit unions* et aux caisses populaires de plus vastes pouvoirs lorsqu'il s'agit de consentir des prêts aux petites entreprises, aux exploitations agricoles et aux coopératives. La revitalisation du secteur riverain de Thunder Bay et l'aménagement du parc Roberta-Bondar à Sault Ste. Marie ne sont que deux projets communautaires parmi des centaines entrepris partout en Ontario. Pour sa part, le casino de Windsor, grâce auquel la province réalisera des recettes de plus de 200 millions de dollars, entraînera la création de 10 700 emplois.

La création d'emplois repose sur le dynamisme des petites entreprises. Le Projet Voie Rapide de Notre gouvernement permettra de refondre les règlements régissant les entreprises et de simplifier les formalités administratives imposées aux petites entreprises. La législation qui accompagnait le budget de 1994 a élargi l'accès des PME au capital et a renforcé le rôle des coopératives. On a également adopté des mesures exemptant de l'impôt-santé les nouveaux employeurs et les employeurs qui embauchent de nouveaux employés.

Le gouvernement actuel a adopté des lois qui mettent en place une structure de gestion et un système d'indemnisation viables à la Commission des accidents du travail. Une commission royale d'enquête proposera des solutions à long terme aux problèmes que doivent surmonter les employeurs et les accidentés du travail tributaires de la CAT.

La *Loi sur l'équité en matière d'emploi* a été promulguée en septembre, après de vastes consultations. Cette loi rendra les milieux de travail plus justes et équitables pour les femmes, les Autochtones, les personnes qui ont un handicap et les membres des minorités raciales.

L'équité en matière d'emploi est l'une des pierres angulaires du programme du gouvernement actuel en matière de justice sociale et de renouveau économique.

Notre gouvernement est particulièrement conscient de la nécessité de mettre en place des ressources et des programmes appropriés pour les communautés agricoles de la province. À cette fin, il a établi un programme visant expressément à protéger les exploitations fruitières de la région du Niagara.

Notre gouvernement se réjouit d'avoir enfin été en mesure de donner suite à la demande des organismes agricoles désireux de stabiliser leur base de financement. La *Loi sur l'inscription des entreprises agricoles et le financement des organismes agricoles* permettra aux organismes agricoles de fournir de meilleurs services à leurs membres qui exploitent une entreprise agricole.

En outre, grâce à la mise en place d'un programme de prêts dans le cadre du Régime AgriPLUS, les agriculteurs ontariens auront plus facilement accès à des fonds destinés aux immobilisations. Ce programme renforcera les entreprises agricoles ontariennes et, par conséquent, améliorera l'économie de nos régions agricoles et rurales.

Le gouvernement reconnaît que la protection de l'environnement n'est pas incompatible avec la croissance économique. Ce sont là deux éléments essentiels à une collectivité saine et viable.

On a fait un pas important vers une plus grande responsabilisation et une participation accrue du public à la protection de l'environnement en promulguant la *Charte des droits environnementaux* le 15 février 1994.

La *Loi sur la durabilité des forêts de la Couronne* assure la pérennité de nos forêts et aidera à soutenir les collectivités, les industries et les emplois qui en dépendent.

L'Assemblée législative a récemment adopté une loi qui modifie la planification de l'aménagement du territoire Ontarien en accordant aux municipalités une plus grande maîtrise de la planification, qui respecte davantage l'environnement et qui vise à réduire les formalités administratives pour les promoteurs.

En plus de créer des emplois, un bon gouvernement doit assumer une gestion financière responsable. Le deuxième élément du programme de Notre gouvernement tient compte de ce fait. Tous les gouvernements doivent surmonter les problèmes financiers que posent les déficits croissants et les recettes réduites par suite de la récession.

Il faut souligner que la situation financière du gouvernement a été aggravée de façon considérable par une série de mesures prises par deux gouvernements fédéraux consécutifs. Des milliards de dollars ont été retranchés des paiements de transfert accordés à l'Ontario, qui n'a pas reçu sa juste part comparativement à d'autres provinces.

Au printemps 1993, Notre gouvernement a proposé un programme de réduction du déficit. Il a mis de l'avant le Plan de contrôle des dépenses pour réduire de quatre milliards de dollars les dépenses gouvernementales sans porter atteinte aux services et aux programmes. Il a adopté la

Loi sur le contrat social, laquelle lui a permis d'éviter des mises à pied qui auraient pu s'élever jusqu'à 40 000 et de réaliser des économies additionnelles de deux milliards de dollars. La solution de rechange à ces décisions difficiles aurait été une réduction irréversible de la qualité des services publics auxquels les Ontariennes et Ontariens ont droit.

Le budget en cours sert de complément à ces mesures audacieuses ayant pour but d'assurer la réalisation de nos objectifs de réduction du déficit.

Comme les entreprises privées, les gouvernements doivent procéder à une restructuration pour satisfaire aux exigences de la nouvelle économie. Nous avons commencé par réduire le nombre de ministères, qui est passé de 28 à 20. Le gouvernement respectera l'engagement qu'il a pris d'abolir plus de 5 000 postes à la fonction publique de l'Ontario, et ce, presque sans mises à pied.

Le gouvernement entend émettre de nouvelles cartes-santé plus sécuritaires pour les résidents de la province, ce qui est un bon exemple de saine gestion. Les cartes-santé avec photo permettront de réaliser des économies de près de 65 millions de dollars par an en réduisant les utilisations frauduleuses et les abus.

Le dernier élément du programme gouvernemental est le maintien et l'amélioration des services offerts aux Ontariennes et Ontariens. Notre gouvernement est fermement déterminé à fournir des programmes et des services de qualité à tous les résidents de la province.

À cet égard, la réforme des soins de santé de longue durée et des services de soutien va bon train. Cette réforme intégrera et améliorera les services offerts aux personnes âgées, aux personnes qui leur dispensent des soins, aux adultes atteints d'un handicap physique et aux autres personnes qui ont besoin de services de santé à domicile.

La récente promulgation de la *Loi sur la réglementation de l'usage du tabac* témoigne de l'engagement du gouvernement actuel à l'égard de la prévention des maladies. Cette loi vise avant tout à décourager le tabagisme chez les jeunes.

La Stratégie de ressourcement pour le mieux-être des Autochtones permettra à Notre gouvernement de collaborer avec les premières nations pour résoudre les questions les plus pressantes pour ce qui est de la santé dans les communautés autochtones.

La préoccupation soutenue de Notre gouvernement vis-à-vis de la qualité de l'enseignement dans la province a mené à la création de la Commission royale sur l'éducation en mai 1993. La Commission fera des recommandations sur la réorganisation du système d'enseignement ontarien en vue de préparer nos enfants pour le XXI^e siècle.

Notre gouvernement entend faciliter l'accès des étudiants francophones à l'éducation supérieure. Il l'a prouvé en annonçant la création de deux nouveaux collèges de langue française ainsi que l'aménagement d'un campus permanent pour La cité collégiale, le premier collège francophone en Ontario.

Une loi élargissant l'équité salariale a été promulguée en juillet 1993. En conséquence, 420 000 femmes de plus touchent maintenant un salaire plus équitable. Ce sont ces travailleuses, surtout dans le secteur parapublic, qui assurent la qualité des services sur lesquels nous comptons tous.

Ces trois éléments — la création d'emplois, une gestion financière judicieuse et le maintien des services publics — ont guidé Notre gouvernement au cours de la dernière session. Ce plan, qui constitue une approche équilibrée et équitable pour l'administration publique en des temps difficiles, a contribué à remettre la province sur pied.

En outre, le gouvernement a pris d'autres mesures pour faire en sorte que les Ontariennes et Ontariens vivent dans des collectivités plus sûres. Nous prenons en effet de plus en plus conscience de questions touchant notre sécurité personnelle.

Voilà pourquoi l'Assemblée législative a adopté la *Loi modifiant le Code de la route* l'automne dernier pour instaurer un système plus sûr de délivrance des permis de conduire aux nouveaux conducteurs. En outre, Notre gouvernement a intégré d'importantes initiatives de sécurité afin de réduire les excès de vitesse et d'accroître encore davantage la sécurité sur les routes ontariennes.

Notre gouvernement a aussi mis sur pied l'Unité provinciale de contrôle des armes et a instauré une amnistie de trois mois pour les armes, laquelle a permis de retirer plus de 4 300 armes de la circulation. Récemment, le gouvernement a adopté une loi permettant aux municipalités et à la police de prendre les mesures nécessaires pour protéger les collectivités contre la violence et les nuisances publiques trop souvent liées aux bars ouverts après les heures autorisées par la loi.

Mesdames et Messieurs les députés, je tiens à vous féliciter pour vos nombreuses réalisations au cours de cette longue session.

Je tiens également à souhaiter de joyeuses fêtes et une bonne et heureuse nouvelle année à vous et à votre famille.

Au nom de notre souveraine, je vous remercie.

Je déclare maintenant la session prorogée.

The Government House Leader then said:-

"Speaker and Members of the Legislative Assembly:

It is the will and pleasure of His Honour the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued."
