JOURNALS

OF THE

LEGISLATIVE ASSEMBLY

OF THE

PROVINCE OF ONTARIO

WEDNESDAY, MARCH 3RD, 1948

PROCLAMATION

R. S. ROBERTSON

CANADA

PROVINCE OF ONTARIO

GEORGE THE SIXTH, by the Grace of God of Great Britain, Ireland and the British Dominions beyond the Seas KING, Defender of the Faith.

To Our Faithful, the Members elected to serve in the Legislative Assembly of our Province of Ontario, and to every of you—GREETING.

L. E. BLACKWELL, }
Attorney-General. } **W**HEREAS it is expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Ontario, WE DO WILL that you and each of you and all others in this behalf interested, on Wednesday, the third day of March now next, at Our City of Toronto, personally be and appear for the actual Despatch of Business, to treat, act, do and conclude upon those things which, in Our Legislature for the Province of Ontario, by the Common Council of Our said Province, may by the favour of God be ordained.

HEREIN FAIL NOT.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the GREAT SEAL of Our Province of Ontario to be hereunto affixed.

WITNESS:

THE HONOURABLE ROBERT SPELMAN ROBERTSON, ADMINISTRATOR OF OUR GOVERNMENT OF OUR PROVINCE OF ONTARIO.

At Our City of Toronto in Our said Province this twenty-ninth day of January in the year of Our Lord one thousand nine hundred and forty-eight and in the twelfth year of Our Reign.

BY COMMAND

C. F. BULMER,
Clerk of the Crown in Chancery.

Wednesday, the third day of March, 1948, being the first day of the Fourth Session of the Twenty-second Legislature of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable Robert Spelman Robertson, Administrator of the Province.

3 O'Clock P.M.

And the House having met,

The Honourable the Lieutenant-Governor of the Province then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

On this opening day of the Fourth Session of the Twenty-second Legislature of the Province of Ontario, I am happy to extend my greetings to each one of you and to express the hope that much good will result to the people of Ontario from the important deliberations which you are about to undertake.

It was just a year ago that I first met and addressed you at the opening of your Third Session. Within that time many events have occurred which were of special significance to the members of this Legislature. I should like to mention one which is a source of great regret to all of us. The County of Huron lost its late representative, you lost a personal friend and the people of Ontario an unselfish public servant. Dr. R. Hobbs Taylor devoted his life in an unusual degree to service of the public in the practice of medicine, as a country doctor, and through his participation in public affairs. Because of his untimely death at 50 years of age, it is no exaggeration to say that he gave his life in the service of his constituents and his country. It is gratifying to know that Huron County will again be represented at this Session. I shall be very pleased to welcome its new Member to this Legislature.

Some further comment on the events of the past year may be desirable, as it provides a background for the problems which you will be considering. It has been a year of great production and high wages. The income and expenditure of individuals, of the municipalities and the province have never been greater. Industrial activity and production, after a temporary decline in the period of transition, stand at record levels for peacetime, but are still unable to meet the demand and the capacity of our people to pay for goods and services of all kinds.

IMMIGRATION

Our standards of living and nutrition are much higher than in the Old World and are as high as any comparable area in the New World. It is not surprising therefore that immigration is moving to Canada as fast as transportation facilities make that possible. Nor is it surprising that over 50 per cent of all immigrants to Canada in the past year have come to this province, and that we are retaining a substantial population which migrated here from other provinces during the war.

In 1947, as soon as the Dominion Government eased its immigration regulations, my Government made arrangements for Trans Atlantic Air Transport from the British Isles at charter rates substantially less than those charged on scheduled flights. A system of selective immigration was organized, which has been administered by the office of the Agent-General in London and a branch office of the Department of Planning and Development. Immigrants are selected at Ontario House in London. Preference is given to those who can be quickly employed.

The first Airborne Immigration Plan put into effect by any government began operating on August 2nd last. Since then most of the flights have been made by Transocean Air Lines, acting as sub-agents for Trans-Canada Airlines. By this means some 7,000 men and women have been flown from Great Britain to this province.

Under the organization set up by the Department of Planning and Development in co-operation with the Red Cross Society, the Salvation Army and National Employment Service, most of these new citizens have been quickly established in a great variety of occupations throughout the province. Many hundreds of members of their families have followed by sea. My Government has arranged for this immigration plan to continue during 1948.

INFLATIONARY TRENDS

During the year, prices have risen to inflationary levels. My Government has no choice but to recognize that responsibility for checking and controlling inflation rests with the Federal Government, with its jurisdiction over monetary policy, international trade, and the major sources of taxation, as well as its power to control the bulk of public expenditure. My Government is, however, greatly concerned with the attempts now being made to maintain the Canadian dollar at an artificially high level through the use of restrictions on imports, embargoes on exports, high excise taxation, and other restrictive controls.

The effect has been most noticeable on gold mining, an industry which should produce in Ontario hundreds of millions of new wealth annually, and also upon the great communities which are dependent on gold mining. My Government was able to report last year ". . . the largest number of mining claims ever recorded, a greater volume of provincial assays, and a higher demand for geological maps, reports and blue prints." This year the Department of Mines reports that the number of claims recorded was barely half of that in the previous year and the number of claims cancelled rose from 6,003 in 1946 to 18,116 in 1947.

You will be asked to consider measures which will give assistance to the great communities which depend on gold mining.

WELFARE

During the past year, unemployment relief regulations have provided for increases in allowances due to the increased cost of living. Mothers' Allowances have also been increased. By agreement with the Dominion Government, Ontario has undertaken to pay its 25 per cent share of Old Age Pensions increased from \$25 per month to \$30 per month. In addition my Government has provided for a further Provincial payment up to \$10 per month in cases of need, over and above the \$30, making a total of \$40 monthly in such cases.

Preliminary steps have also been taken to inaugurate a system of rehabilitation for handicapped persons.

HEALTH

High costs have created special problems in the important field of public health. An increase in the cost of hospital supplies and wages has resulted in an operating deficit in three-quarters of all public hospitals, notwithstanding increased charges to private patients.

The cost of maintenance in sanatoria for the tuberculous which are dependent almost entirely on provincial funds, has risen to a point where further substantial maintenance grants are required. Increased payments have been made to hospitals by the Province and the Municipalities.

During the past year, provincial grants have been provided on a systematic basis for new hospital construction. You will be asked to continue this provision and increase the appropriation for this purpose.

It is of interest that this Province is again able to report a new low in maternal and infant mortality. There has been a steady increase, to about 50 per cent, in the number of expectant mothers who take advantage of my Government's provision for free pre-natal examination.

Examination by X-ray for tuberculosis has been greatly extended in the Province. In addition, such examination has been provided in the Ontario Immigration office in London for all prospective immigrants to this Province.

Public interest in the formation of County health units has now reached the point where the lack of qualified staff is the only barrier to province-wide adoption of this programme.

The shortage of nursing help in hospitals is being partially offset by certified nursing assistants being trained under a plan, which you will be asked to continue.

EDUCATION

There is great need of additional school accommodation in Ontario, due largely to the inability of boards to build in the depression years and during the war, and partly to normal growth and the voluntary movement towards larger administrative areas, which has brought 53.4 per cent of the old rural school sections into township school areas and formed high school districts in about 40 per cent of the area for which county councils are responsible.

Education is regarded by my Government as its highest responsibility. To assist construction of new schools and the expanding educational program, the 1947 grants rose to a record level of \$30,134,336, of which \$19,374,749 went to elementary schools, \$7,392,684 to high schools and \$3,366,903 to vocational schools. You will be asked to make substantially higher grants for 1948. Notwithstanding this great assistance from the Provincial Treasury, the cost of education borne by the local ratepayers is still high. The need for strict economy is obvious. The steadily rising cost of education cannot be ignored.

A word might be said about some new aspects of educational activity, the continued development of which you will be asked to approve. I refer to the Physical and Health Education Branch of the Department. Fifty-five communities are now conducting recreation programmes under full-time directors. A notable part of this programme is the provision of citizenship classes for recent arrivals in the Province.

The Student Aid Programme enables an ever-increasing number of capable students to enjoy educational opportunities which they would otherwise be denied. Nine hundred and sixty-six scholarships and bursaries were awarded last year, representing an outlay of almost \$200,000, of which the Ontario Government provided \$150,000.

The concert tours, which the Music Branch began to sponsor last year, continue to bring fine music to Ontario communities and to encourage young artists by providing opportunities for professional experience. During the past year, 26 towns have enjoyed 96 concerts.

HOUSING

The housing shortage has, I know, been a matter of great concern to all of you. Now that the increasing availability of essential supplies, for the first time, makes it possible for the Provincial Legislature to deal effectively with this matter, you will be called upon to consider measures designed to greatly increase the construction of low-cost accommodation in this Province.

PUBLIC WORKS

Prior attention will be given in this programme to works relating to the development and protection of the natural resources of the Province; to the accommodation for the care of the sick and other charges of the Province; as well as to the extension of facilities for police protection in the northern districts and for the improvement of the tourist trade generally.

COMMISSIONS

In the course of the year three comprehensive studies have been completed for the advice and assistance of the Legislature and Government.

Forestry Report

The inquiry into the forest resources of Ontario by a staff of expert forest engineers, under the direction of Major-General Howard Kennedy, was completed and a report presented to the Legislature in October last. You will be informed of the steps already taken by the Government to implement very important recommendations in the report of the Royal Commission on Forestry. Measures will also be placed before you for your consideration which will give statutory effect to other important recommendations which require new legislation.

Milk Report

You will recall that following the removal of the subsidies paid by the Dominion Government to the producers and distributors of milk, extensive inquiry into the costs and methods of production and distribution of this basic commodity and essential nutriment was undertaken by Mr. Justice Wells, assisted by counsel and accountants. You will be asked to consider legislation based on this report to replace and extend the temporary measures introduced last October.

Research Commission

The final report of the Ontario Research Commission will be presented to you and you will be asked to approve legislation providing for the establishment of a permanent Research Council for Ontario which will co-ordinate research activity and advise generally on research problems, through the agency of advisory committees in each important field of research. You will be asked to provide scholarships and bursaries to develop needed research workers, as well as funds which will be used as a contribution of one half of the costs of approved research projects which industry, and smaller industries, will be encouraged to undertake on a co-operative and group basis.

My Government wishes to pay a well-deserved tribute to Dr. R. C. Wallace, the Chairman of this Commission, and the several leaders in university and industrial life who have unselfishly devoted their time without remuneration over a period of two years to the examination of research and scientific investigation in the Province and have, in their report, made a noteworthy contribution to this vital aspect of development in this Province.

I come now to those great departments of government whose duty it is to assist our citizens in the creation of wealth from natural products and resources.

AGRICULTURE

The year 1947 was a difficult one for Ontario Agriculture. In the spring unfavourable weather interfered to a large extent with the sowing of spring crops, with the result that the crop production of cereal grains fell below normal. This created a shortage of feed grains in Ontario, which, coupled with the removal of ceilings on feed grains in October, resulting in sudden and substantial rises in the price levels for oats and barley coming into Ontario from the western provinces, brought about a condition of hardship and instability for the live stock producers of the province. For the remainder of the year 1947 they were forced to pay greatly increased prices for their feed grain and concentrates, without any corresponding increase in the price of their live stock products. The new prices under the British contracts, announced early in 1948, have helped to level up this situation, although the shortage in feed supplies continues to create problems for live stock producers.

While the year 1947 was a year of difficulties for farmers generally, it was also a year of positive progress in the development of long term plans for the improvement of agricultural conditions in the Province. This was particularly marked in the field of live stock, in which new policies initiated by the Ontario Department of Agriculture are being accepted with favour by farmers throughout the Province.

The extension of scientific research at the Ontario Agricultural College, the Ontario Veterinary College and the various experimental stations under the jurisdiction of the Department of Agriculture has gone ahead rapidly in the last year. This research programme has covered many phases of agriculture, both in field crops and live stock, and is bringing to the aid of the farmers of Ontario all the resources of agricultural science.

The policies of the Department of Agriculture are designed to assist farmers to formulate and set down long term programmes suitable for the great and expanding future of agriculture in Ontario.

MINES

Notwithstanding the blow to gold mining, higher prices for base metals and increased activity in the non-metallic industry throughout the Province, resulted in a large increase in the value of the aggregate output of all mineral products in 1947. This figure amounts to \$241,371,337 for 1947 compared with \$191,690,779 in 1946 and \$234,049,323 in 1939.

You will be asked during the course of the Session to consider amendments to the Mining Act with special reference to operations of the mines. These will provide for an expanded geological field programme which will place 14 geological parties in the field during the season, one of which will investigate the potential iron bearing areas in southeastern Ontario.

TRAVEL AND PUBLICITY

For the second successive year, tourist travel in the province in 1947 exceeded all previous totals. During the 12 months ending December 31st, more than 1,000,000 automobiles carrying tourist parties, entered the province from the United States for vacation purposes. This figure exceeded by more than 100,000 the previous "record" year.

In addition to the important work of stimulating the flow of visitors to Ontario, the Department of Travel and Publicity continued its many-sided campaign to elevate the standards of the tourist catering industry generally. Inspectors from the department visited tourist camps throughout the season and were able to render a service to operators by way of advice and assistance. An important aspect of the department's operations was a programme of survey work in connection with the development of winter recreation facilities.

The Reception Centre service established at the main border entry points was used by more than 250,000 groups of visitors during 1947, and will be expanded during the coming year by the operation of two additional units, bringing to 14 the number of Centres now established.

An additional responsibility was undertaken by the department during the past year in the organization of a Division of Public Information for the purpose of co-ordinating and supervising the existing government information services, apart from the travel field. Publication of a news bulletin dealing with governmental activities, was undertaken, and met with a very favourable response on the part of the public.

HYDRO-ELECTRIC POWER

The people of this Province are the owners of the greatest publicly owned Hydro-Electric system in the world. Measured in terms of combined assets and annual production it is one of the largest businesses in Canada. It has before it a five-year programme of construction which will almost double its capitalization and increase its production by approximately 1,250,000 horsepower exclusive of the St. Lawrence River development.

As the representatives of the people of Ontario, you will have very important decisions to make with respect to

(1) the recommendation of my Government that the Southern Ontario system be converted entirely from twenty-five cycle to sixty cycle;

(2) the authorization of a programme of expansion which will require the commitment of provincial credit to the extent of several hundred millions of dollars and will provide for generation of electric power from steam in addition to the water-generated power.

You will further be asked to approve the acceleration of the already rapid extension of electrical service to the farms and rural sections of the Province.

At the end of the year nearly 196,500 rural consumers of all classes in the operating areas were served by 24,500 miles of line. Despite the shortage of men and materials, which affected all the Commission's construction activities, service was extended to 21,000 new consumers, the largest annual increase in the history of the provincial system. One thousand miles of new primary lines were built.

The objective of the Commission for 1948 is to construct 3,400 miles of new rural lines which will serve some 30,000 new consumers. This programme calls for a Government grant-in-aid of approximately \$10,500,000.

PLANNING AND DEVELOPMENT

The Department of Planning and Development has carried forward its programme of guiding and encouraging the sound, long range planning of municipalities under The Planning Act. Planning Boards have been constituted in many municipalities and their work shows substantial progress. Under the direction of this Department eight Conservation Authorities have been formed in Southern Ontario. Following conservation surveys undertaken by the Department, plans have been adopted and work is proceeding in the control of floods, reforestation and improvement of natural resources.

Through the Trade and Industry Branch of this Department, industrial development has been encouraged, particularly in the smaller towns. Handicrafts have been promoted in several industrial centres, through instruction and guidance offered by the Department.

As a new service to industry, the Ontario Industrial Research Service has been established to assist in the solution of technical industrial problems.

HIGHWAYS

The great highway-building programme of last year, which included the Red Lake road, 330 miles of new surfacing of all types, and 117 miles of resurfacing, will be surpassed in 1948. Although the completion of the Toronto-Barrie Highway will be delayed for lack of steel and other materials, it is proposed to proceed during the coming season with the re-location of Highway 11 from Severn Bridge to Gravenhurst, and at South River; to continue work on the mining roads southwest of Timmins and between Matachewan and Swastika; and also to proceed with the surfacing of gravel roads and, where necessary, re-construction of depreciated pavements.

Equipment pools in the Northern Townships and direct financial assistance to municipalities will be continued.

LABOUR

As my Minister of Labour has already announced, the Government will recommend that the labour code which is now before the Dominion parliament, be considered for adoption as the labour code for all industry in this Province

which is not subject to federal jurisdiction. It is to be hoped that the bill before the federal parliament will be passed at a time and in such form as will enable you to accept it in accordance with this recommendation, and to that end discussions between the provincial and federal departments of labour have already taken place.

The enrolment of civilian apprentices in all trades will be in excess of 3,000 for the fiscal year 1948-49 and classes of instruction for apprentices will have an approximate enrolment of eleven hundred.

The system by which partial vacations with pay are provided to employees in seasonal industries has operated with such success that the total credits which will be cashed this year will likely reach \$4,000,000.

You will be called on to consider an amendment to The Factory, Shop and Office Building Act which will provide for a closer check of certain types of very dangerous equipment. An amendment to The Apprenticeship Act will give authority to define the work-content of various trades and permit apprentices to become qualified as specialists in one or more branches of a trade.

LANDS AND FORESTS

The Department of Lands and Forests has greatly enlarged its research programme to extend into all phases of our renewable resources. Many field parties were in the woods during the year. This work will be continued in 1948 so that answers to our most urgent long term management problems can be found.

The province-wide inventory of our forest resources is now in its second year and already 50,000,000 acres of forest land have been photographed from the air to form the basis for a broad plan of Forest Management. This is almost half the work contemplated in the original photographic plan, so that the work originally planned for five years is well ahead of schedule.

During the past year the government introduced a plan to curtail and eventually to eliminate the export of unprocessed wood from the Crown lands of Ontario.

A new type of bush aircraft has been developed in co-operation with an Ontario aircraft company. The finished product is highly successful, and several of them will be placed in service this spring to provide better fire protection and resources management.

Management of fur resources was improved by bringing in a system of trappers' zones, giving to each trapper a definite area.

Work will continue on hatchery renovation, pheasant breeding, the training of licensed guides, fish culture, various aspects of fish and wild life management, forest soils and regeneration surveys.

DOMINION, PROVINCE AND MUNICIPALITIES

During the past year my Government has endeavoured by interdepartmental conferences and official exchanges with the departments and officials of the Dominion Government to extend the large area of co-operation in administrative matters already established.

Nevertheless the larger problem of settling the respective responsibilities of the Dominion and Provincial Governments, particularly in the field of taxation, health and social legislation, seem to be no nearer to solution than they were a year ago.

You will recall that health and social legislation are on the agenda of that conference, but have not been discussed by reason of the adjournment of the conference in May, 1946, on the motion of the Dominion Government, in the midst of a discussion of tax matters.

Last year I reported the refusal of the Dominion Government to reconvene the Dominion-Provincial Conference adjourned since May of 1946. I regret to report that there is no indication of a change in the attitude of the Dominion Government notwithstanding the fact that my Government and those of most of the other provinces, as well as the representatives of the Ontario municipalities, have all requested that the conference be resumed.

The municipalities are concerned with this matter because an orderly and efficient division of administrative duties and tax revenues between the province and its municipalities is conditional to a large extent on the settlement of similar problems between the Province and the Dominion.

The municipalities are only able to carry their present administrative load because of very large direct and indirect payments from provincial funds. The only substantial tax which the municipality has is the tax on real estate. My Government, when it assumed half of the cost of education, was determined that owners of homes and real property should not be over-taxed, and, with this end in mind, has extended provincial grants to municipalities, direct and indirect, and for many purposes, until they now reach very large proportions.

A system which requires such large payments from one government to other governments obviously needs review.

This review could have been made much more satisfactorily after the position of the Province and the Dominion had been settled. For that reason such a review has been deferred in the hope that the Dominion Government would eventually meet the provincial governments to discuss their tax problems. As there is, however, no indication that they are prepared to resume the conference, my Government, in accordance with the announcement made to municipalities some time ago, will not postpone action on this account, and will ask you to approve of the establishment of a joint provincial-municipal committee to make the review which I have mentioned and to recommend such adjustment of responsibilities and revenues as it may think desirable.

In the meantime the municipalities have been sharing in the general pros-

perity of the province, as is shown from increases in population, assessment of buildings and corresponding increases in taxes. They deserve much credit for the continued reduction of their debenture debt, which, at the end of 1946, was down to \$214,648,000 as compared with \$504,756,000 at the end of 1932.

During 1947 an Assessment Branch was added to the Department of Municipal Affairs. The department is now in a position to give any municipality advice on assessment law and modern up-to-date methods of valuing property for assessment purposes. From the applications already received by the department it is anticipated that this service will be requested by a large number of municipalities during the year 1948.

The work of municipal treasurers will be simplified and a clearer picture presented to the ratepayers as the result of a new method of preparing municipal audit reports adopted by the department this year.

Amendments to The Assessment Act and The Municipal Act will be proposed at this Session to meet changing practices and conditions in the Ontario municipalities.

Legislation will be introduced permitting the Lieutenant-Governor in Council to designate any area in the province, in which Wartime Housing has erected a housing project, as being an area under the sole responsibility of the Dominion Government in cases in which the local municipal authorities have been unable to reach satisfactory arrangements with the Dominion Government.

REFORM INSTITUTIONS

In spite of difficulties in getting the necessary personnel and materials, this new department has greatly improved the provincial institutions through the systematic training of officers and guards and the adoption of methods of segregation of different classes of offenders. Discipline and training directed towards rehabilitation, particularly of the younger prisoners, have been very successful.

The new institution established early last year at Brampton for selected young prisoners has shown excellent results.

Important steps have already been taken in developing an industrial farm system which will eventually replace the common gaols.

ATTORNEY GENERAL

The installation of the Ontario Provincial Police radio system in the eleven Provincial Police Districts in southern Ontario is well advanced. In district No. 5, comprising the counties of Ontario, Peel and York, it has been fully installed, tested and accepted by the government and now is in full operation.

Even in the short time that the system has been in operation to this limited extent it has demonstrated its value in law enforcement in a spectacular way by bringing about the immediate apprehension of bank and other armed robbers.

In three other Provincial Police districts the installation has been completed and as soon as the testing is done by the government engineer the system will be accepted in those districts and will be put into operation almost immediately.

Schools for the training of municipal police officers are being opened up in strategic centres in the Province in co-operation with municipalities. The first schools have already started at Port Arthur, and at Windsor.

VARIOUS AMENDMENTS

A variety of new provisions and amendments to existing Bills will be presented for consideration, including provision—

- (a) For the posting up of rates in hotel rooms and tourist resorts.
- (b) For the reciprocal enforcement of orders for the maintenance of deserted wives and children made by courts in British countries.
- (c) For regularizing the practice in regard to putting parking tickets on automobiles, and making the fines available to the municipalities.
- (d) For improvement in companies legislation.
- (e) For improvement in the procedure of publication of marriage banns.

CIVIL SERVICE

It is fitting that I should extend a word of appreciation to the permanent service, that body of loyal men and women through whom your efforts for the welfare of our people are translated into administrative action. Our thanks go to those who have completed their period of service and are retired. Our respect is extended to the memory of those who have died during the past year.

CONCLUSION

The Public Accounts for the last complete fiscal year and the estimates for the year 1948-49 will be submitted to you later for your consideration and approval.

Finally, may I express the hope that your deliberations may be so guided by Divine Providence that your work here will contribute to the general welfare and happiness of the people of this Province.

His Honour was then pleased to retire.

PRAYERS

3.40 o'clock p.m.

Mr. Speaker then reported,

That, to prevent mistakes, he had obtained a copy of His Honour's Speech, which he read.

Mr. Speaker informed the House,

That he had received during the recess of the House, as provided by the Revised Statutes of Ontario, 1937, chapter 12, section 32 (1), notification of a vacancy which had occurred in the Membership of the House and had issued his Warrant to the Clerk of the Crown in Chancery for the issue of a Writ for the election of a Member to serve in the present Legislature for the following Electoral District:

The Electoral District of Huron.

*To The Honourable James deCongalton Hepburn,
Speaker of the Legislative Assembly of the Province of Ontario:*

WE, the undersigned, George Alexander Drew, Member for the said Legislative Assembly, for the Electoral Division of High Park, and Daniel Roland Michener, Member for the said Legislative Assembly, for the Electoral Division of St. David, do hereby notify you that a vacancy has occurred in the representation in the said Legislative Assembly for the Electoral Division of Huron by reason of the death of R. Hobbs Taylor, Member for the said Electoral Division of Huron. And we the said George Alexander Drew and Daniel Roland Michener, Members of the Assembly aforesaid, hereby require you to issue a new Writ for the Election of the Member to fill the said vacancy.

IN WITNESS WHEREOF, we have hereunto set out hands and seals on this Twelfth day of January in the year of our Lord one thousand nine hundred and forty-eight.

Signed and Sealed in the presence of
ALEX. C. LEWIS.
Toronto, January 12th, 1948.

GEORGE A. DREW (Seal)
D. R. MICHENER (Seal)

Mr. Speaker informed the House,

That the Clerk had received from the Clerk of the Crown in Chancery, and laid upon the Table, the following certificate of the election held since the last Session of the House:

Electoral District of Huron—Thomas Pryde.

PROVINCE OF ONTARIO

THIS IS TO CERTIFY that in view of a Writ of Election, dated the Twelfth day of January, 1948, issued by the Honourable the Administrator of the Government of the Province of Ontario, and addressed to William E. Southgate, Jr., Esquire, Returning Officer for the Electoral District of Huron, for the election of a Member to represent the said Electoral District of Huron in the Legislative Assembly of this Province, in the room of Robert Hobbs Taylor, Esquire, who, since his election as representative of the said Electoral District of Huron, has departed this life, Thomas Pryde, Esquire, has been returned as duly elected as appears by the Return of the said Writ of Election, dated the Twenty-third day of February, 1948, which is now lodged of record in my office.

C. F. BULMER,
Clerk of the Crown in Chancery.

Toronto, February 23rd, 1948.

Thomas Pryde, Esquire, Member for the Electoral District of Huron, having taken the Oaths and subscribed the Roll, took his seat.

The following Bill was introduced and read the first time:—

Bill (No. 34), intituled, "An Act to repeal The Protection of Birds Act."
Mr. Scott.

Ordered, That the Bill be read the second time to-morrow.

On motion of Mr. Drew, seconded by Mr. Kennedy,

Ordered, That the Speech of the Honourable the Lieutenant-Governor to this House be taken into consideration to-morrow.

On motion of Mr. Drew, seconded by Mr. Kennedy,

Ordered, That, during the present Session of the Legislative Assembly, provision be made for the taking and printing of reports of debates and speeches and to that end that Mr. Speaker be authorized to employ an editor of debates and speeches and the necessary stenographers at such rates of compensation as may be agreed to by him; also that Mr. Speaker be authorized to arrange for the printing of the reports, as authorized, in the amount of 1,200 daily, copies of such printed reports to be supplied to the Honourable the Lieutenant-Governor and each member of the Assembly and the balance to be distributed by the Clerk of the Assembly as directed by Mr. Speaker.

On motion by Mr. Drew, seconded by Mr. Kennedy,

Ordered, That Select Committees of this House, for the present Session, be appointed for the following purposes: 1. On Privileges and Elections; 2. On Education; 3. On Miscellaneous Private Bills; 4. On Standing Orders; 5. On Public Accounts; 6. On Printing; 7. On Municipal Law; 8. On Legal Bills; 9. On Agriculture and Colonization; 10. On Fish and Game; 11. On Labour.

Which said Committees shall severally be empowered to examine and enquire into all such matters and things as shall be referred to them by the House, and to report from time to time their observations and opinions thereon, with power to send for persons, papers and records.

On motion by Mr. Drew, seconded by Mr. Kennedy,

Ordered, That a Select Committee of eleven Members be appointed to prepare and report, with all convenient despatch, lists of the Members to compose the Select Standing Committees ordered by the House, such Committee to be composed as follows:

Messrs. Begin, Cathcart, Chaplin, Creighton, Davies, Murdoch, McEwing, Murphy, Pringle, Stewart (Kingston), Taylor.

Before moving the adjournment of the House, the Honourable Mr. Drew, Prime Minister, rose to express the deep regret of the Members generally at the death of the late Member for the Electoral Division of Huron, Dr. R. Hobbs Taylor.

Mr. Farquhar Oliver, Leader of His Majesty's loyal Opposition, and Mr. William J. Grummett, speaking for the Co-operative Commonwealth Federation Members, joined in support of the Prime Minister's remarks.

The Prime Minister then expressed the welcome of the House to Mr. Thomas Pryde, the newly elected Member for the Electoral Division of Huron, in which he was joined by Mr. Oliver and Mr. Grummett.

Also before moving the adjournment of the House, the Prime Minister paid tribute to Mr. C. F. Bulmer, I.S.O., Clerk of the Crown in Chancery, upon his retirement from the office of Assistant Clerk of the Legislative Assembly, and made reference to his many years of excellent service in that position.

The House then adjourned at 4.25 p.m.

THURSDAY, MARCH 4TH, 1948

Before the Orders of the Day, Mr. Salsberg asked Mr. Speaker to rule on a question of privilege. He informed the Speaker that a Resolution submitted by him as follows:—

"That this House is of the opinion that the old age pensions in Ontario be forthwith increased to a minimum of \$50.00 a month to all citizens who now qualify, by reason of their age, for old age pensions and that the means test now employed before granting the pension to our aged citizens be abolished and that the pensionable age be reduced at the earliest opportunity from 70 years as at present to 65 years for males and 60 years for females."

had been refused by the Clerk for inclusion in the Order Paper on the ground that it related to an expenditure of public funds. He submitted that as the Resolution only called for an opinion of the House and did not commit the Government to legislation it should not be held to come within Rule 112.

Mr. Speaker informed the House that he would take the question under consideration and deliver his ruling at a later date.

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Motion for consideration of the Speech of the Honourable the Lieutenant-Governor at the opening of the Session, having been read,

The Debate was resumed and, after some time,

Mr. Grummett moved, seconded by Mr. Anderson,

That the Amendment to the Motion for consideration of the Speech of the Honourable the Lieutenant-Governor, now before this House, be amended by adding thereto the following words:—

“And this House regrets that the Government has put forward thoroughly inadequate proposals for labour legislation, vague and insubstantial housing proposals, and no plans at all to meet the pressing need for adequate health and welfare services;

“And this House particularly regrets the failure of the Government to recognize the need for comprehensive planning and broad measures of social ownership in the economic life of the province with a view to maintaining full production and full employment.”

And the Debate having continued, after some time it was, on the motion of Mr. Johnstone (Bruce),

Ordered, That the Debate be adjourned until Tuesday next.

The House then adjourned at 11.15 p.m.

FRIDAY, MARCH 12TH, 1948

PRAYERS.

3 O’CLOCK P.M.

The following Petition was read and received:—

Of the Corporation of the Hamilton St. Andrew’s Benevolent Society, praying that an Act may pass authorizing the sale of certain lands in the City of Hamilton, being Town Lot No. 3 on the east side of Hughson Street, the proceeds therefrom to be held in trust by the Trustees of the Corporation for the purpose of purchasing other lands for the erection of a hall or meeting place in which to carry on the work of the Society.

Before the Orders of the Day were read Mr. Speaker informed the House that he was now prepared to give his ruling as to the admissability of a motion presented to him by the Honourable Member for St. Andrews on March 11th, as follows:—

“That this House is of the opinion that the old age pensions in Ontario be forthwith increased to a minimum of \$50.00 a month to all citizens who now qualify, by reason of their age, for old age pensions and that the means test now employed before granting the pension to our aged citizens be abolished and that the pensionable age be reduced at the earliest opportunity from 70 years as at present to 65 years for males and 60 years for females.”

Mr. Speaker read his ruling as follows:—

“I have been asked by the Honourable Member for St. Andrews to rule upon whether or not the resolution he proposes is in order.

“I have now considered the matter in the light of the relevant statutes, rules and former Speakers’ rulings, particularly Rule No. 112. It seems to me to be clear that the proposed resolution seeks to commit this House to a further expenditure of public money without the consent of the Crown.

“The Journals of this House contain numerous examples of abstract resolutions of this sort and the current of the decisions is against them.

“I feel bound by rulings of previous Speakers of this House and I therefore rule that the proposed resolution of the Honourable Member for St. Andrews is out of order.”

The following Bills were severally introduced and read the first time:—

Bill (No. 22), intituled, “An Act respecting The Ottawa Ladies’ College.”
Mr. Acres.

Referred to the Committee on Private Bills.

Bill (No. 90), intituled, “An Act to amend The Municipal Act.” *Mr. Dunbar.*

Ordered, That the Bill be read the second time on Monday next.

The House resolved itself into a Committee to consider certain Bills, and, after some time spent therein, Mr. Speaker resumed the Chair, and Mr. Reynolds reported,

That the Committee had directed him to report the following Bills without amendment:—

Bill (No. 60), An Act to amend The Real Estate and Business Brokers Act, 1946.

Bill (No. 61), An Act to amend The Public Hospitals Act.

The Order of the Day for the second reading of Bill (No. 57), An Act to amend the Election Act, having been read, Mr. MacLeod called the attention of Mr. Speaker to Rule No. 31 of the Assembly and claimed that the Orders on the Order Paper should be taken up in order of precedence and that he therefore could not be called on to discuss his Bill until those preceding it on the Orders has been considered.

In reply Mr. Speaker addressed the House as follows:—

“While it is true that Rule 31 as at present in the rule book provides that Orders of the Day shall be taken up according to precedence on the

Order Paper, it has been a custom which has obtained in the Legislature of Ontario for very many years to allow the Leader of the House the privilege of indicating what Orders shall be considered at any particular stage of the proceedings. This custom has met with the consent of the House for so many years past that it has become an acknowledged method of dealing with the Orders. The object of this custom has been to facilitate the business of the House.

"In my opinion the custom which has been approved by the House during the lifetime of several Governments in the past obtains the authority of a rule of the Assembly.

"It must be remembered that the procedure in the Assembly is governed not only by the printed rules but by the precedents established by the actions of the Assembly in the past."

Mr. MacLeod then moved that the Bill be now read a second time, and, a debate arising, after some time the motion having been put was lost on the following Division:—

Ordered, That the Report be now received and adopted.

On motion of Mr. Kelley, seconded by Mr. Welsh,

Ordered, That this House do forthwith resolve itself into a Committee to consider a certain proposed Resolution respecting the Hospital Aid Fund.

Mr. Drew acquainted the House that His Honour the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends it to the consideration of the House.

The House then resolved itself into the Committee.

(*In the Committee*)

Resolved,

That the moneys paid into the Hospital Aid Fund established under Bill (No. 119), *An Act to provide for Greater Aid to Public Hospitals*, namely,

- (a) all unexpended moneys appropriated by the Legislature for aid to hospitals; and
- (b) all moneys collected under Bill (No. 118), *An Act to impose a Tax on Amusements to provide for Greater Aid to Public Hospitals*, less the expenses of collecting such moneys.

shall be dispersed as grants to aid public hospitals and that if the amount at the credit of the Hospital Aid Fund is insufficient to meet the sums required under the said Bill (No. 119), the deficiency shall be made up out of the Consolidated Revenue Fund.

and that this Resolution be referred to the House on Bill (No. 119).

Mr. Speaker resumed the Chair; and Mr. Reynolds reported, That the Committee had come to a certain Resolution.

Ordered, That the Report be now received and adopted.

On motion by Mr. Drew, seconded by Mr. Blackwell,

Ordered, That when this House adjourns the present sitting thereof, it do stand adjourned until two of the clock to-morrow afternoon.

The Provincial Secretary presented to the House, by command of the Honourable the Lieutenant-Governor:—

Eightieth Annual Report of the Hospitals Division, Department of Health, upon the Ontario Hospitals for the Mentally Ill, Mentally Defective, Epileptic and Habituate Patients, for the year ending March 31st, 1947. (*Sessional Papers No. 15.*)

Ordered, That the Bill be read the second time on Wednesday next.

Before the Orders of the Day, the Honourable Mr. Drew, Prime Minister, announced the cancellation by the Trans-Canada Air Lines of its contract with the Ontario Government for the transportation of persons from the United Kingdom under the Ontario Airborne Immigration Scheme. He stated that this action had the result of bringing to an end the Airborne Immigration by the Ontario Government but that immigration by other means of transportation would be continued to the fullest extent possible.

Mr. Carlin asked the following Question (No. 9):—

1. How many authorizations granted by the Industry and Labour Board for working hours in excess of those prescribed by subsection 1 of section 2 of The

Hours of Work and Vacations with Pay Act, 1944, are now in force. 2. How many of such authorizations apply to (a) an entire industry, business, trade or occupation, or a major portion thereof; (b) individual employers. 3. How many of such authorizations have been granted pursuant to (a) Regulation 4; (b) Regulation 5 (1) (b). 4. When disposing of applications for such authorizations, is it the practice of the Board (a) to require that employees liable to be affected by such authorization shall be given notice of such application; (b) to permit representations to be made to the Board by employees who may be affected by such authorizations.

The Honourable the Minister of Labour replied as follows:—

1. 1,759. 2. (a) 29; (b) 1,730. 3. (a) 22; (b) 672. 4. (a) Yes, if practicable; (b) Yes.

Mr. Carlin asked the following Question (No. 10):—

1. Are restaurant proprietors permitted to employ youths, young girls or women beyond the hour of eleven o'clock in the afternoon, in violation of the provisions of section 29 (b) of The Factory, Shop and Office Building Act. 2. If not, upon what grounds are permits given by the Inspector under the provisions of the said subsection.

The Honourable the Minister of Labour replied as follows:—

1. No. Women over the age of 18 may work under a permit in restaurants up until two o'clock in the morning. 2. The following conditions are attached to the granting of a permit: (1) No woman shall be employed in a restaurant for more than ten hours, expiring not later than 2 a.m.; (2) Such ten hours (or less) of employment shall be performed within a period of twelve consecutive hours; (3) Any such female who is employed later than midnight shall be provided with a midnight meal and the employer shall be responsible for taking such measures as will ensure that proper and safe transportation will be provided for her direct to her home, unless the parents, husband or guardian of such female or the female of at least 21 years of age furnishes the employer with a written release, whereby the parents, husband, guardian or the female of at least 21 years of age assumes the responsibility of proper and safe transportation for her to her home, and such release is approved by the Chief Inspector; (4) Any such female working a regular shift, and who is employed later than midnight, shall be paid a bonus of thirty cents (30c.) plus her normal wage; (5) Any other such female who is employed on a short midnight shift shall be guaranteed payment for at least five hours, plus a bonus of thirty cents (30c.) for work performed after midnight.

Mr. Grummett asked the following Question (No. 11):—

What is the total amount which has been paid out in subsidies to needy mining municipalities as provided for in Vote No. 124, Item No. 10 of the estimates for the Department of Municipal Affairs for 1947-48. To what municipalities have such subsidies been paid, and how much to each.

WEDNESDAY, MARCH 31ST, 1948

PRAYERS.

3 O'CLOCK P.M.

On motion by Mr. Frost, seconded by Mr. Drew,

Ordered, That this House will, on Friday next, resolve itself into the Committee of Supply.

On motion by Mr. Frost, seconded by Mr. Drew,

Ordered, That this House will, on Friday next, resolve itself into the Committee of Ways and Means.

On motion by Mr. Drew, seconded by Mr. Frost,

Ordered, That the Provincial Auditor be and is hereby authorized to pay the salaries of the Civil Service employees and other necessary payments following the close of the fiscal year on March 31st, 1948, and until Supply for the fiscal year commencing on April 1st, 1948, is voted by this House, such payments to be charged to the proper appropriations following the voting of Supply.

Before the Orders of the Day, the Honourable Mr. Drew, Prime Minister, called the attention of the Assembly to the announcement by the Federal Minister of Reconstruction (Mr. Howe), of the cancellation of the Dominion Government Housing Projects. The Prime Minister stated that, in blaming this action on the Bill at present before the Assembly respecting the provision of services by the Province and Municipalities to persons occupying Dominion Crown Lands, Mr. Howe was obviously incorrect in view of the fact that the Bill in question had no bearing on the Dominion Housing Project but applied only to certain particular Dominion Crown settlements such as Ajax.

The following Bill was read the third time and was passed:—

Bill (No. 97), An Act to amend The Factory, Shop and Office Building Act.

The Order of the Day for the third reading of Bill (No. 105), An Act to amend The Power Commission Act, having been read,

Mr. Drew moved that the Bill be now read a third time. The Motion having been put was carried on the following unanimous Recorded Vote:—

PRAYERS.

2 O'CLOCK P.M.

Mr. Duckworth, from the Select Committee appointed to direct the expenditure of any sum set apart in the estimates for Art Purposes, presented its report which was read, as follows, and adopted:—

Your Committee begs to report that the system adopted by your honourable body on the recommendations of your Committee on Thursday, October 30th, 1947, for the purpose of conducting a competition amongst Ontario Artists for a prize of \$500.00 to be awarded annually by the Legislative Assembly, did not prove to be satisfactory.

Your Committee therefore recommends:

1. That the system authorized last year as above, be abandoned.
2. That your Committee be authorized to continue its functions following the prorogation of the present Session of the Assembly and be authorized to hold meetings during the recess of the Assembly.
3. That your Committee be authorized to establish new regulations to govern the holding of the said competition in the present and future years and to arrange for holding the competition according to the regulations established by it.
4. That your Committee be authorized to purchase during the present fiscal year pictures by Ontario artists and to pay for same out of the money appropriated for the use of the Committee and not used in the said competition.

Mr. Dent, from the Standing Committee on Printing, presented their Report which was read as follows:—

Your Committee recommends that the supplies allowance per member for the current Session of the Assembly be fixed at the sum of \$50.00 and that, to meet the convenience of the members, a cheque for that amount be issued to each member of the Assembly in order that he may make the desired purchases in his own constituency;

Also that an allowance be authorized and a cheque issued to each of the full time daily newspaper representatives covering the present Session of the Legislative Assembly, as nominated by the Press Gallery and approved by Mr. Speaker.

Your Committee recommends that copies of the Canadian Parliamentary Guide, the Canadian Almanac and the Canada Year Book be purchased for distribution to the members of the Assembly.

Your Committee recommends that Departmental reports and Sessional Papers for the current year be printed in the following numbers:—

Public Accounts	2,250

Mr. Pringle, from the Standing Committee on Fish and Game, presented the Committee's Report which was read, as follows, and adopted:—

To the Legislative Assembly of the Province of Ontario:

The Standing Committee on Fish and Game begs leave to present its report and recommends that it be printed as an appendix to the Journals of the House.

Mr. Hall, from the Standing Committee on Agriculture and Colonization, presented its Report which was read, as follows, and adopted:—

The Standing Committee on Agriculture and Colonization held two meetings during the present Session of the Ontario Legislature on March 17th and March 24th, 1948. At the first meeting Col. Kennedy said that for the first time he was not a member of the Committee because of the feeling that Cabinet Ministers sometimes dominate discussions. His Deputy, Mr. Graham, would be present at all meetings to answer questions.

Mr. Graham reviewed the work of his Department and urged the Committee when considering policy to keep in mind the necessity of improving production, of determining what should be done, and marketing conditions. At the first meeting there was a general discussion on control of warble flies, and it was agreed this pest could be controlled, if not eliminated, by proper spraying methods.

Mr. Graham said a study is being carried on about a warble fly powder now on the market and results will be passed on to the Livestock Commissioner for wider dissemination.

At the second meeting the Committee agreed to visit the Toronto Stock Yards on April 1st, and later to plan a visit to the Co-operative plant at Barrie. It was proposed that a trip be made this summer up the Ottawa Valley. Some members felt a more general trip should be made of the Province.

At the suggestion of Mr. Thomas the Committee agreed to recommend to the Department of Agriculture that a special weather forecast be made by radio for farmers who depend on weather conditions for spraying orchards, etc.

Mr. Graham agreed to investigate marketing practises in flaxseed. Mr. McEwing said that flax farmers are being docked as much as 25 per cent as a result of grading. Mr. Newman said the same thing is happening in the Rainy River District.

Mr. Parry reported to the Committee on studies and recommendations of the Select Committee on The Tile Drainage Act and The Ditches and Water Courses Act. Considerable discussion followed on ditching, control and financing.

Before the Orders of the Day, the Honourable Mr. Drew, Prime Minister, expressed the sorrow of the Assembly at the sudden and tragic death of the late Member for the Electoral Division of Wentworth, Mr. William Robertson, resulting from an accident on Wednesday night in which Mr. Anderson, Member for the Electoral Division of Fort William was also seriously injured. The two Members were returning to the Night Session of the House when the accident occurred.

Mr. Grummett, Leader of the C.C.F. group, Mr. Oliver, Leader of the official Opposition and Mr. MacLeod, joined with the Prime Minister in his tribute.

Mr. Speaker read a message from the Members of the Legislative Press Gallery expressing their deep regret at Mr. Robertson's untimely death and their hopes for Mr. Anderson's speedy recovery.

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Motion that Mr. Speaker do now leave the Chair, and that the House resolve itself into the Committee of Supply, having been read,

The Debate was resumed, and after some time the Amendment,

“But this House regrets that the Government has not taken the necessary action to render greater assistance to old age pensioners and others requiring financial aid and to reduce the burden of taxation.”

having been put, was lost on the following Division:—

(a) Have any modifications been made in the agreement with the Province of Quebec on the Hydro-Electric power development of the Ottawa River since the present administration assumed office; (b) If so, what is the nature of such modifications and do such modifications require any amendment to Chap. 21, 1943 Statutes of Ontario, An Act respecting the Water Power of the River Ottawa.

The Honourable the Prime Minister replied as follows:—

(a) Yes; (b) See following correspondence.

Toronto 2, October 31, 1945.

Hon. Maurice L. Duplessis,
Prime Minister of Quebec,
Parliament Buildings,
Quebec, P.Q.

Dear Mr. Duplessis:

I very much appreciate the sentiments expressed in your letter of October 20th and am glad to know that the Government of Quebec approves of our proposal in regard to the development of the Des Joachim power site.

I believe that this development and the terms under which it will be carried

forward furnish the most convincing evidence of effective co-operation between our two provinces. The Government of Ontario reciprocates most heartily the spirit of good-will expressed in your letter.

As soon as we are ready to proceed I will communicate with you so that appropriate arrangements can be made for the work to be done on the Quebec side of the river in accordance with the understanding reached in our letters.

On behalf of the Government of Ontario, may I convey to you personally and to the Government of Quebec our deep appreciation of the courtesy extended to the representatives of our government who went to Quebec to discuss this matter.

Yours sincerely,

GAD:D

GEORGE A. DREW.

Quebec, October 20, 1945.

Honourable George A. Drew,
Prime Minister of Ontario,
Parliament Buildings,
Toronto, Ontario.

Dear Mr. Drew:

Your letter, concerning the conversation which my colleagues, Mr. Gagnon, Colonel Johnny Bourque, Mr. Robinson and myself had with Mr. Challies and Mr. Frost, reached my office a couple of days ago.

When the Union Nationale party, now in power in Quebec, was in the Opposition, we raised very strong objections against some features of the 1943 agreement, concerning the power development on the Ottawa River. We still think our objections were well taken, but we share your opinion that features which we may agree to be unsatisfactory could be remedied by agreement between our two provinces.

You state that it has become urgently necessary to proceed with work at the Des Joachim site because of the power situation in Ontario.

We rely upon the friendly cooperation of Ontario and we are glad to cooperate ourselves in a friendly and real Canadian spirit. Accordingly, it is agreed between the Government of Quebec and the Government of Ontario that the development of the Des Joachim site by the Hydro-Electric Power Commission of Ontario will in no way be construed as a ratification or an acquiescence of the 1943 agreement referred to.

We appreciate very much your statement that the employment of personnel for any work on the Quebec side of the river will be carried out through the agency suggested by the Quebec government.

Yours truly,

(Signed) M. L. DUPLESSIS.

Toronto 2, October 12, 1945.

Honourable Maurice L. Duplessis,
Prime Minister of Quebec,
Parliament Buildings,
Quebec, P.Q.

Dear Mr. Duplessis:

As explained to you in the conversation which you had with Mr. Challies and Mr. Frost in regard to power development on the Ottawa River, I wish to confirm their statement that the Hydro-Electric Power Commission is anxious to proceed with work at the Des Joachim site immediately. This has become urgently necessary because of the power situation which we now face in Ontario. Having examined all the facts relating to this matter, I am sure that it is desirable for the Hydro-Electric Power Commission to proceed without delay.

I should say, at the same time, that my views regarding the agreement of January 2nd, 1943, have not changed. As I said at that time, I believe that joint development of the power sites on the Ottawa River by the Provinces of Quebec and Ontario is in the best interests of both provinces. The development of the Des Joachim site by the Hydro-Electric Power Commission of Ontario would not stand in the way of a new agreement along those lines at a later date. I would be pleased to discuss the whole subject with you at any time. Much as I dislike some features of the 1943 agreement, however, I do not think it should delay a beginning of development on the Ottawa River. I am fully satisfied that features which we may agree to be unsatisfactory can be remedied by agreement between our two provinces. In the meantime it is important that this development proceed at once.

The Hydro-Electric Power Commission of Ontario will assume financial responsibility for the work undertaken. In carrying out this work, it will be necessary for a considerable part of this to take place on the Quebec side of the Ottawa River. That need present no difficulties, however, because the employment of personnel for any work on the Quebec side of the river can be carried out through the Quebec Streams Commission or such other agency as your government would suggest.

I would greatly appreciate an expression of your attitude toward this proposal.

Sincerely yours,

GAD:R

GEORGE A. DREW.

OFFICE OF THE PRIME MINISTER

Province of Quebec

Quebec, September 27, 1945.

Honourable George A. Drew, K.C.,
Prime Minister of Ontario,
Parliament Buildings,
Toronto, Ontario.

Dear Mr. Drew:

Your letter dated September 24th duly received. The interview with your colleagues, Mr. Challies and Mr. Frost, will take place in Quebec on October the 10th.

Kind personal regards.

Yours very truly,

M. DUPLESSIS.

September 24th, 1945.

Hon. Maurice Duplessis,
Prime Minister, Province of Quebec,
Legislative Building,
Quebec, P.Q.

Dear Mr. Duplessis:

I wish to thank you for your kindness in arranging to see Mr. Challies and Mr. Frost. I have informed them that you will be able to see them in Quebec at the time indicated in your letter and I understand Mr. Challies will be in touch with your secretary some time this week in the hope of arranging a time convenient to you, early in the week of October 1st.

Like yourself, I find time rather pressing at present and it has been necessary for me to postpone my trip to Quebec a little longer than I had anticipated, but I will let you know in good time as soon as it is possible for me to arrange it.

With kind personal regards, believe me

Yours sincerely,

GAD:R

GEORGE A. DREW.

OFFICE OF THE PRIME MINISTER

Province of Quebec

Quebec, September 18th, 1945.

Honourable George A. Drew, K.C.,
Prime Minister of Ontario,
Legislative Buildings,
Toronto.

Dear Mr. Drew:

Your letter dated September 12th reached my office on the 15th inst. and was handed over to me to-day on my return to Quebec.

Many previous and very important engagements will keep me very busy all of this week and the greater part of next week. I could meet your colleagues, the Honourable George Challies and the Honourable Leslie Frost, at the end of this month or at the beginning of next month, in Quebec City, where are deposited the files and documents concerning the question referred to.

I am pleased to know that you intend to call upon me in Quebec when you can make arrangements to get away. My colleagues and myself will be glad to extend to the Prime Minister of Ontario the proverbial and cordial hospitality of the Province of Quebec.

Yours very truly,

M. DUPLESSIS.

Toronto 2, September 12th, 1945.

Hon. Maurice L. Duplessis,
Prime Minister of Quebec,
Quebec, P.Q.

Dear Mr. Duplessis:

As indicated in our conversation while we were in Ottawa, we are most anxious to have the appropriate officials of Quebec and Ontario discuss the possibility of starting some work on the Ottawa River as soon as possible.

I have asked the Vice-Chairman of the Ontario Hydro-Electric Power Commission, the Honourable George Challies, and the Honourable Leslie Frost, to explore the possibilities of some early agreement in regard to this, and I would be very grateful if you could see them at your convenience in Quebec. Following a preliminary discussion, you might then consider it advisable to have them proceed further with the discussion with the officials who will be directly concerned with hydro-electric development in your province.

It was a great pleasure to meet you and the members of your Cabinet in Ottawa, and I am very hopeful that before long it may be possible for me to call upon you in Quebec. When I can make arrangements to get away, I will let you know so that you may indicate when it would be convenient for me to see you.

Yours sincerely,

GAD:R

GEORGE A. DREW.

September 3rd, 1943.

Hon. Adelard Godbout, Premier,
Province of Quebec,
Quebec P.Q.

I WOULD LIKE TO HAVE THE PRIVILEGE OF CALLING UPON YOU IN QUEBEC AND DISCUSSING SEVERAL MATTERS OF MUTUAL CONCERN AT YOUR EARLY CONVENIENCE STOP WOULD IT BE CONVENIENT FOR YOU TO SEE ME IN QUEBEC ON MONDAY SEPTEMBER THIRTEENTH STOP WOULD GREATLY APPRECIATE TELEGRAM INDICATING YOUR CONVENIENCE.

GEORGE DREW.

NOTE: Prime Minister Drew met Mr. Godbout as indicated above as to place and date.

The Order of the Day for the second reading of Bill (No. 142), An Act respecting Fair Employment Practices, having been read, on motion by Mr. Salsberg,

Ordered, That the Order be discharged, and that the Bill be withdrawn.

Notice of Motion No. 1 by Mr. MacLeod, having been read as follows:—

That this House expresses its profound concern over the failure of the

Federal Government to reconvene the Dominion-Provincial Conference for the purpose of reaching agreement on Taxation, Health and Social Security Measures and a Public Investment Programme;

And this House strongly urges the Dominion Government to reconvene the Conference without further delay. Should it fail to do so, this House requests the Ontario Government to invite other provincial governments to an inter-provincial Conference to give consideration to the aforesaid matters, and work out a common programme to press for action at the federal level of government.

Mr. MacLeod moved its adoption. Mr. Grummett moved in amendment, seconded by Mr. Taylor, that the Resolution be amended by striking out the last sentence thereof so that the Resolution shall read as follows:—

That this House expresses its profound concern over the failure of the Federal Government to reconvene the Dominion-Provincial Conference for the purpose of reaching agreement on Taxation, Health and Social Security Measures and a Public Investment Programme;

And this House strongly urges the Dominion Government to reconvene the Conference without further delay.

On motion by Mr. Nixon, seconded by Mr. Oliver,

Ordered, That there be laid before this House a Return showing all correspondence between the Government of Ontario and the Government of Quebec, or any member or official thereof, with regard to the Hydro-Electric Power Commission of Ontario development at Des Joachims; and showing copies of all Orders-in-Council in respect to that development.

The House, according to Order, resolved itself into the Committee of Supply.

(In the Committee)

Resolved,

That there be granted to His Majesty, for the services of the fiscal year ending March 31st, 1949, the following sum:—

129. To defray the expenses of the Office of the Prime Minister \$33,360.00

Mr. Speaker resumed the Chair; and Mr. Reynolds reported, That the Committee had come to a certain Resolution.

Ordered, That the Report be received to-day.

On motion of Mr. Frost, seconded by Mr. Drew,

Ordered, That this House do forthwith resolve itself into a Committee to consider a certain proposed Resolution respecting an amendment to The Race Tracks Tax Act, 1939.

Mr. Drew acquainted the House that His Honour the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends it to the consideration of the House.

The House then resolved itself into the Committee.

(In the Committee)

Resolved,

That the Lieutenant-Governor in Council may at any time fix the rate of the tax provided for in section 3 of *The Race Tracks Act, 1939*, at other than the five per centum mentioned in the said section, in accordance with Section 1 of Bill (No. 147), *An Act to amend The Race Tracks Tax Act, 1939*.

and that this Resolution be referred to the House on Bill (No. 147).

Mr. Speaker resumed the Chair; and Mr. Reynolds reported, That the Committee had come to a certain Resolution.

Ordered, That the Report be now received and adopted.

On motion of Mr. Goodfellow, seconded by Mr. Welsh,

Ordered, That this House do forthwith resolve itself into a Committee to consider a certain proposed Resolution respecting payment of pensions and expenses under The Old Age Pensions Act, 1948.

Mr. Drew acquainted the House that His Honour the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends it to the consideration of the House.

The House then resolved itself into the Committee.

(In the Committee)

Resolved,

That the pensions and the expenses of administration as provided in Bill (No. 150), *The Old Age Pensions Act, 1948*, shall be payable out of such moneys as may be appropriated therefor by the Legislature.

and that this Resolution be referred to the House on Bill (No. 150).

Mr. Speaker resumed the Chair; and Mr. Reynolds reported, That the Committee had come to a certain Resolution.

Ordered, That the Report be now received and adopted.

On motion of Mr. Goodfellow, seconded by Mr. Welsh,

Ordered, That this House do forthwith resolve itself into a Committee to consider a certain proposed Resolution respecting payment of allowances and expenses under The Mothers' Allowances Act, 1948.

Mr. Drew acquainted the House that His Honour the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends it to the consideration of the House.

The House then resolved itself into the Committee.

(In the Committee)

Resolved,

That the allowances and the expenses of administration provided for in Bill (No. 151), *The Mothers' Allowances Act, 1948*, shall be payable out of such moneys as may be appropriated therefor by the Legislature.

and that this Resolution be referred to the House on Bill (No. 151).

Mr. Speaker resumed the Chair; and Mr. Reynolds reported, That the Committee had come to a certain Resolution.

Ordered, That the Report be now received and adopted.

On motion of Mr. Goodfellow, seconded by Mr. Welsh,

Ordered, That this House do forthwith resolve itself into a Committee to consider a certain proposed Resolution respecting payments to municipalities establishing Welfare Units.

Mr. Drew acquainted the House that His Honour the Lieutenant-Governor, having been informed of the subject matter of the proposed Resolution, recommends it to the consideration of the House.

The House then resolved itself into the Committee.

(In the Committee)

Resolved,

That there be paid out of such moneys as may be appropriated therefor by the Legislature to any municipality establishing a welfare unit under Bill (No. 152), *An Act to provide for Welfare Units*, an amount equal to fifty per centum of the cost of the administration of welfare matters under the said Bill as provided for in section 5 of the said Bill.

and that this Resolution be referred to the House on Bill (No. 152).

Mr. Speaker resumed the Chair; and Mr. Reynolds reported, That the Committee had come to a certain Resolution.

Ordered, That the Report be now received and adopted.

Mr. Reynolds, from the Committee of Supply, reported the following Resolution which was concurred in by the House:—

Resolved, That Supply in the following amounts and to defray expenses of the Government Departments named be granted to His Majesty for the year ending March 31st, 1949:—

The House, according to Order, resolved itself into the Committee on Ways and Means.

(In the Committee)

Resolved, That there be granted out of the Consolidated Revenue Fund of this Province a sum not exceeding one hundred and forty-nine million, sixty-four thousand, six hundred and nineteen dollars to meet the supply to that extent granted to His Majesty.

Mr. Speaker resumed the Chair; and Mr. Reynolds reported, That the Committee had come to a Resolution.

Ordered, That the Report be received forthwith.

Mr. Reynolds, from the Committee on Ways and Means, reported a Resolution, which was read as follows:—

Resolved, That there be granted out of the Consolidated Revenue Fund of this Province a sum not exceeding one hundred and forty-nine million, sixty-four thousand, six hundred and nineteen dollars to meet the supply to that extent granted to His Majesty.

The Resolution, having been read the second time, was agreed to.

The following Bill was then introduced and read the first time:—

Bill (No. 156), intituled, “An Act for granting to His Majesty certain sums of Money for the Public Service of the Financial Year ending the 31st day of March, 1949.” *Mr. Frost*.

Ordered, That the Bill be read the second time forthwith.

The Bill was then read a second time.

Ordered, That the Bill be read a third time forthwith.

The Bill was then read the third time and passed.

The following Bills were read the third time and were passed:—

Bill (No. 72), An Act to amend The Commissioners for taking Affidavits Act.

Bill (No. 124), The Labour Relations Act, 1948.

Bill (No. 125), An Act to assist the Development of Housing Accommodation.

Bill (No. 126), The Milk Control Act, 1948.

Bill (No. 127), An Act to amend The Fuel Supply Act.

Bill (No. 128), An Act to amend The Mining Tax Act.

Bill (No. 129), An Act to amend The Assessment Act.

Bill (No. 130), An Act to amend The Public Lands Act.

Bill (No. 131), An Act to amend The Forestry Act.

Bill (No. 132), An Act to amend The Insurance Act.

Bill (No. 133), An Act to suspend The Income Tax Act (Ontario).

Bill (No. 135), An Act to amend The Security Transfer Tax Act, 1939.

Bill (No. 136), An Act for Raising Money on the Credit of the Consolidated Revenue Fund.

Bill (No. 137), An Act to amend The Game and Fisheries Act, 1946.

Bill (No. 138), The Forest Fires Prevention Act, 1948.

Bill (No. 139), An Act to amend The Securities Act, 1947.

Bill (No. 140), An Act to amend The County Judges Act.

Bill (No. 141), An Act to amend The Negligence Act.

Bill (No. 143), An Act respecting Investment Contracts.

Bill (No. 144), The Hotel Fire Safety Act, 1948.

Bill (No. 145), The Lightning Rods Act, 1948.

Bill (No. 146), An Act to amend The Crown Timber Act.

Bill (No. 28), An Act respecting the City of Toronto.

Bill (No. 5), An Act respecting the City of Belleville and The Belleville General Hospital.

Bill (No. 16), An Act to incorporate The United Co-operatives of Ontario.

Bill (No. 22), An Act respecting The Ottawa Ladies' College.

Bill (No. 26), An Act to set aside the Laing Marriage Settlement Trust Deed.

Bill (No. 29), An Act respecting the Township of Stamford.

Bill (No. 31), An Act respecting the City of Sault Ste. Marie.

Bill (No. 32), An Act respecting the Township of South Dorchester.

Bill (No. 63), An Act to amend The Mining Act.

Bill (No. 149), The Department of Public Welfare Act, 1948.

Bill (No. 150), The Old Age Pensions Act, 1948.

Bill (No. 151), The Mothers' Allowances Act, 1948.

Bill (No. 152), An Act to provide for Welfare Units.

Bill (No. 153), An Act respecting the purchase by the Corporation of the City of Ottawa of certain Assets of Ottawa Light, Heat and Power Company Limited.

Bill (No. 134), An Act to amend The Corporations Tax Act, 1939

Bill (No. 147), An Act to amend The Race Tracks Tax Act, 1939.

Bill (No. 148), An Act to amend The Workmen's Compensation Act.

Bill (No. 154), The Statute Law Amendment Act, 1948.

The Provincial Secretary presented to the House, by command of the Honourable the Lieutenant-Governor:—

First Report of the The Liquor Licence Board of Ontario for the period January 1st, 1947, to March 31st, 1947. (*Sessional Papers No. 52.*)

Also, Fortieth Annual Report of The Hydro-Electric Power Commission of Ontario for the year ended October 31st, 1947. (*Sessional Papers No. 26.*)

The Honourable the Lieutenant-Governor entered the Chamber of the Legislative Assembly and took his seat upon the Throne.

Mr. Speaker then addressed His Honour as follows:—

May it please Your Honour:

The Legislative Assembly of the Province has, at its present Sittings, passed certain Bills to which, on behalf and in the name of the said Assembly, I respectfully request Your Honour's Assent.

The Clerk Assistant then read the titles of the Bills that had passed, as follows:—

Bill (No. 5), An Act respecting the City of Belleville and The Belleville General Hospital.

Bill (No. 16), An Act to incorporate The United Co-operatives of Ontario.

Bill (No. 18), An Act respecting the City of London.

Bill (No. 19), An Act respecting The Hamilton St. Andrew's Benevolent Society.

Bill (No. 22), An Act respecting The Ottawa Ladies' College.

Bill (No. 26), An Act to set aside the Laing Marriage Settlement Trust Deed.

Bill (No. 28), An Act respecting the City of Toronto.

Bill (No. 29), An Act respecting the Township of Stamford.

Bill (No. 30), An Act respecting The Canadian National Exhibition Association.

Bill (No. 31), An Act respecting the City of Sault Ste. Marie.

Bill (No. 32), An Act respecting the Township of South Dorchester.

Bill (No. 63), An Act to amend The Mining Act.

Bill (No. 72), An Act to amend The Commissioners for Taking Affidavits Act.

Bill (No. 116), An Act to amend The Highway Traffic Act.

Bill (No. 121), An Act to amend The Highway Improvement Act.

Bill (No. 122), An Act to amend The Statute Labour Act.

Bill (No. 123), An Act respecting Ski-Tows.

Bill (No. 124), The Labour Relations Act, 1948.

Bill (No. 125), An Act to assist the Development of Housing Accommodation.

Bill (No. 126), The Milk Control Act, 1948.

Bill (No. 127), An Act to amend The Fuel Supply Act.

Bill (No. 128), An Act to amend The Mining Tax Act.

Bill (No. 129), An Act to amend The Assessment Act.

Bill (No. 130), An Act to amend The Public Lands Act.

Bill (No. 131), An Act to amend The Forestry Act.

Bill (No. 132), An Act to amend The Insurance Act.

Bill (No. 133), An Act to suspend The Income Tax Act (Ontario).

Bill (No. 134), An Act to amend The Corporations Tax Act, 1939.

Bill (No. 135), An Act to amend The Security Transfer Tax Act, 1939.

Bill (No. 136), An Act for Raising Money on the Credit of the Consolidated Revenue Fund.

Bill (No. 137), An Act to amend The Game and Fisheries Act, 1946.

Bill (No. 138), The Forest Fires Prevention Act, 1948.

Bill (No. 139), An Act to amend The Securities Act, 1947.

Bill (No. 140), An Act to amend The County Judges Act.

Bill (No. 141), An Act to amend The Negligence Act.

Bill (No. 143), An Act respecting Investment Contracts.

Bill (No. 144), The Hotel Fire Safety Act, 1948.

Bill (No. 145), The Lightning Rods Act, 1948.

Bill (No. 146), An Act to amend The Crown Timber Act.

Bill (No. 147), An Act to amend The Race Tracks Tax Act, 1939.

Bill (No. 148), An Act to amend The Workmen's Compensation Act.

Bill (No. 149), The Department of Public Welfare Act, 1948.

Bill (No. 150), The Old Age Pensions Act, 1948.

Bill (No. 151), The Mothers' Allowances Act, 1948.

Bill (No. 152), An Act to provide for Welfare Units.

Bill (No. 153), An Act respecting the purchase by the Corporation of the City of Ottawa of certain Assets of Ottawa Light, Heat and Power Company Limited.

Bill (No. 154), The Statute Law Amendment Act, 1948.

To these Bills the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

In His Majesty's name the Honourable the Lieutenant-Governor doth assent to these Bills.

Mr. Speaker then said:—

May it please Your Honour:

We, His Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to His Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to His Majesty certain sums of money for the Public Service of the financial year ending the 31st day of March, 1949."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant-Governor doth thank His Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in His Majesty's name."

His Honour was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

It is now my duty to prorogue this session of the Twenty-second Legislature of the Province of Ontario. In doing so I wish to thank you in the name of His Majesty for your faithful application to the public questions which have been placed before you for decision. The legislation which my Government has brought forward and which you have considered and approved is of unusual variety and importance.

To mention only a few of the ninety-nine public bills, there are important provisions to support the building of new housing accommodation in the Province; a measure to encourage the production and improve the distribution of milk; a bill which will establish a code of labour and industrial relations in uniformity with the federal law on this subject; a bill to provide new and increased support to public hospitals, and other health and welfare measures of considerable importance and extent. Furthermore, in all fields of provincial government and administration, education, agriculture, mining, administration of justice, highways, public works, municipal affairs, reform institutions, and lands and forests, progressive measures have been given legislative sanction in keeping with the expansion and development of the Province which is now taking place.

In a further bill of unassuming proportions the legal foundation has been laid for a great transformation in our public hydro-electric power system. Not only is there to be a change in the frequency from 25 to 60 cycles but the expansion of its power-producing capacities, already undertaken, will be pushed forward to provide the hydro-electric energy which will be needed in our expanding economy, not only in industry and in urban centres but throughout every part of rural Ontario.

In thirty-one private bills you have also dealt with many special subjects requiring legislative action.

It is neither necessary nor desirable to review at length the many other measures which have been occupying your attention during the past six weeks.

I should like, however, to refer briefly to the tragic events of the past few days which have thrown a shadow of sadness over your proceedings. The death of Dr. Gordon Millen, the Member for Riverdale, after a long illness, cut short a life which had been devoted in an unusual degree to public affairs and public service. This loss was followed by the tragic accident last Wednesday night, when Mr. William Robertson, the Member for Wentworth, was struck down and killed on the highway, just outside the Parliament Buildings, and his companion and associate in the Legislature, Mr. Garfield Anderson, Member for Fort William, was seriously injured. Mr. Robertson, only 51 years of age, came from Scotland to Canada in 1926, and had served in the Ontario Legislature since 1943. These misfortunes have shocked and grieved not only their families and those associated with them, but all the people of the Province. Our sympathy goes to the families and friends of Dr. Millen and Mr. Robertson and our respect is extended to the memory of these two Members, who will long be held in grateful esteem not only for their useful public service but also for their warm personal qualities.

Satisfactory financial provision has been made for the ensuing year, and it is a matter of great encouragement that ample funds have been provided without any new or increased taxation. This, combined with the surplus of last year, resulting in the greatest reduction in the public debt in any single year, is indicative of the high level of productivity and employment which the Province is now enjoying.

I conclude with an expression of my gratitude for the appropriations of public funds which I have just mentioned and with a renewal of my thanks for your services as legislators. It is my confident hope that under the guidance of Divine Providence the legislation which you have enacted at this session will advance substantially the general welfare and security of the people of this Province.

The Provincial Secretary then said:—

Mr. Speaker and Gentlemen of the Legislative Assembly:—

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

APPENDIX No. 1

Report of the Select Committee on
Farm Drainage

Session of 1948

Report of the Select Committee on Farm Drainage

SESSION OF 1948

*To the Speaker and Honourable Members
of the Ontario Legislature:*

GENTLEMEN:

Your Select Committee on Farm Drainage, appointed by the Legislature of the Province of Ontario on April 3rd, 1947, begs leave to submit the following report.

The Committee was appointed under the terms of a resolution adopted by the Legislature on March 20th, 1947, the resolution being as follows:

“That Select Committee of this House be appointed to inquire into and consider The Tile Drainage Act, The Ditches and Watercourses Act and any other related Acts, in the light of recent developments in soil conservation and reforestation.”

On April 3rd, 1947, the following committee was appointed: George Parry (Kent West), Chairman; Bryan L. Cathcart (Lambton West), and Ross A. McEwing (Wellington North).

In pursuance of the duties placed upon it by the Legislature, the Committee has made an exhaustive survey of drainage problems throughout the Southern section of Ontario, visiting Southwestern, Western, Central and Eastern Ontario, and holding special meetings in Toronto, London, Peterborough and Kingston for the purpose of conferring with and securing the views and opinions of municipal drainage engineers, agricultural representatives, drainage experts of the Ontario Agricultural College and Kemptville Agricultural School and Municipal representatives, as well as farmers. From these, the Committee received much help and many excellent suggestions, and wishes to acknowledge with thanks the assistance which came from these sources. In its itinerary throughout the Province, the Committee made a special study of the headwaters of the Grand, Conestoga and Thames Rivers, and of the lower reaches of the Thames River in Kent and Essex Counties, in an effort to establish the relationship between farm drainage and water and soil conservation.

In its studies, the Committee found that there are many Acts of the Legis-

lature in which drainage matters are covered, and which have to be taken into consideration in making recommendations. The following is a list of the main Acts in which reference is made to drainage matters.

- R.S.O. 1937, c. 350, The Ditches and Watercourses Act, and amendments.
- R.S.O. 1937, c. 72, The Tile Drainage Act.
- R.S.O. 1937, c. 278, The Municipal Drainage Act, and amendments.
- R.S.O. 1937, c. 71, The Municipal Drainage Aid Act.
- R.S.O. 1937, c. 70, The Provincial Aid to Drainage Act.
- R.S.O. 1937, c. 266, The Municipal Act (ss. 41, 404, 405, 407).
- R.S.O. 1937, c. 269, The Local Improvement Act (ss. 2, 3 and 10).
- R.S.O. 1937, c. 259, The Railways Act (ss. 109 and 260).
- R.S.O. 1937, c. 54, The Public Works Act (s. 45).
- R.S.O. 1937, c. 56, The Highways Improvement Act (s. 78).
- R.S.O. 1937, c. 299, The Public Health Act (s. 5 (f) and s. 79 (i).)
- 1946 Statutes, c. 11, The Conservation Authorities Act (s. 24).
- 1946 Statutes, c. 71, The Planning Act.
- 1938 Statutes, c. 15, The Grand River Conservation Act (s. 19).
- 1947 Statutes, c. 101, The Statute Law Amendment Act. (S. 6, amending The Conservation Authorities Act, 1946.)

From its studies, the Committee is of the opinion that there are substantial acreages of land in the Province, formerly productive but now waste land or rough pasture, which could be brought back to crop production if it were properly drained. This is true in most sections and counties of the Province, and the problem would appear to be one of convincing the farmers that they could operate their farms more profitably if this land were drained, and giving them as much assistance as seems advisable in its drainage.

Generally speaking, the farmers of Ontario to-day are drainage conscious. This may to some extent be due to the fact that there has been a succession of wet years, during which they have been unable to start operations on the land at a sufficiently early date to ensure maximum crop yields, and in some years and localities have been unable to plant cereal crops at all. There is a general feeling throughout the Province, however, that drainage of farm land is desirable, and were conditions for tile drainage of land favourable, a tremendous amount of such work would be undertaken at once by a large proportion of farmers. The factors which are holding back the underdrainage of land at the present time are as follows:

- (1) The extreme shortage of tile and ditching machinery.
- (2) The shortage of labour to do the work of tile drainage.
- (3) The high cost of tile, particularly where it has to be transported for long distances from the tile plant to the farm.
- (4) The high cost of purchasing ditching machinery, when it is available, and the high charge for its use in ditching for tile drains.
- (5) The shortage of qualified engineers or land surveyors for drainage work.

If these handicaps and hindrances could be overcome in some measure, the

Committee is satisfied that a large amount of tile drainage work would be done in the immediate future in all parts of Ontario, and particularly in Eastern Ontario.

In connection with tile drainage, the Committee was presented with evidence that the present limitation of loans under The Tile Drainage Act to \$2,000 per 100 acres or portion thereof is inadequate in view of the present high level of costs, and that in certain areas, particularly in the fruit growing districts in the Niagara Peninsula, an increase in the amount of loans permitted is essential to the proper development of tile drain systems.

In further connection with The Tile Drainage Act, the view was strongly expressed that some provision should be made for an inspection of the tile drains, particularly as to levels, before the drain is backfilled, so that the Inspector could certify that the drain will do the work for which it is intended, and for the filing, along with the Inspector's report, of a plan of the drains. Under the present legislation, the Inspector is required to certify only as to the number of rods of tile drain laid and the cost, but there is no requirement of a certificate that the work has been done in a satisfactory manner. From evidence presented to the Committee, it appears desirable that some provisions such as suggested be incorporated in The Tile Drainage Act.

In view of the shortage of clay tile for drainage purposes, some plants have been established for the manufacture of concrete tile. It was reported to the Committee that in some cases the concrete tile supplied has not been serviceable, will not stand up to the strains imposed on it, and is generally unsatisfactory. It was suggested very strongly to the Committee that regulations be passed under The Tile Drainage Act setting out specifications and standards with which all tile, either clay or concrete, be required to comply before being passed for use in tile drainage work.

Other questions which arose with reference to tile drainage included the provision for the apportionment of assessment where part of a farm is sold subsequent to the laying of the drains, similar to the Provision in Section 5 of The Municipal Drainage Act; the right of a mortgagee of a farm to object to a tile drainage loan being placed on it; the question of whether tile drainage going over the property of another farmer to a sufficient outlet is covered by the present Act; the acquiring of ditching machinery by township or county councils to be rented to farmers for tile drainage work on a cost basis, and the possibility of a Government subsidy on such municipal council purchases.

Further on in this report the Committee will have recommendations to make on the points mentioned in the foregoing paragraphs.

Ditches and Watercourses Act

The Committee heard a great deal of evidence and made an exhaustive study on the operations of The Ditches and Watercourses Act. This Act provides that where an individual farmer requires drainage to remove water from his land, he may secure an award by which water may be carried off his land to a sufficient outlet. The work under this Act is limited to a cost of \$2,500, and the drain must not extend over more than seven township lots. This Act has come

to be known as the "One Man Act" because it enables a single farmer to secure relief from flood conditions on his farm. It is intended only for small operations, as is evident from the restrictions which are placed upon works constructed under this Act.

While there was some suggestion that this Act might well be scrapped, and all drains now coming under its provisions be constructed under The Municipal Drainage Act, the Committee does not concur in that view. This Act has a value in that it enables an individual farmer to make application for relief, while under The Municipal Drainage Act a petition signed by a majority of the property-owners affected is required. It would appear from the evidence presented to the Committee that the grievances and complaints regarding the operation of this Act are due to attempts to extend the Act to cover drainage schemes larger in scope than contemplated under this legislation, and also to misinterpretation of the maintenance clauses of the Act. There have been cases in which award ditches have been widened and deepened under the maintenance clauses, when such work should have been carried out under the construction clauses and a new award made. Misinterpretations of this kind in many cases cause undue hardship to farmers not benefitted by the award ditch, and have caused dissatisfaction with the Act. The Committee is of the opinion, however, that the principles of the present Act are satisfactory for the purpose for which it is intended, and that no great changes in this Legislation are necessary, other than to clarify and strengthen certain sections, which will be enumerated later in this report.

The Committee is definitely of the opinion that a great deal of the trouble with water lying on fields on farms could be alleviated by the construction of shallow open ditches to take off the water lying on the surface. Under modern mechanical methods of farming, it is desirable that large fields be utilized, and the digging of shallow open ditches over which cultivation machinery could operate would serve the useful purpose of removing surface water without interfering with the continuity of mechanical farming operations. The Committee feels that a programme of education on the value of these shallow, open ditches would be of great value in sections of the Province where there are large sections of flat land.

The Committee also finds that maintenance of all types of ditches has been very badly neglected all over the Province, with a result that they have in many cases become overgrown with weeds and brush, have become filled in, and they are not fulfilling the purpose for which they were constructed in the first instance. Many of the drainage problems encountered could be alleviated by a vigorous campaign for cleaning out these ditches, and putting them back in condition to do the job of drainage that is required.

It was pointed out to the Committee that there is no provision in The Ditches and Watercourses Act for an apportionment of costs of work should part of a farm contributing to an award ditch be sold. It would appear that provisions similar to those in Section 5 of The Municipal Drainage Act are required to cover this point. There is no definition in The Ditches and Watercourses Act of what constitutes a "sufficient outlet" and the Committee is of the opinion that a definition of these words should be placed in the definition section of the Act. There

is no provision for damages under this Act, and it is felt this should be remedied.

The Committee, at all of its meetings, heard complaints regarding the lack of proper records of drains and ditches. It was pointed out that in many cases, owing to improper filing and storage of records, there is great difficulty in securing copies of the original drainage records. Various suggestions were made as to the filing of these records, and the Committee would strongly urge that township clerks be supplied with proper filing cabinets for the storing of these records in an easily available form, and that the Department of Municipal Affairs set up a set of instructions on the filing of records by township clerks, and conduct courses of training for such officials on the same subject. It was also felt that it would be of value to have a second copy of all awards under The Ditches and Watercourses Act filed in the County Registry Office.

Municipal Drainage Act

From all the information placed before the Committee, it would appear that The Municipal Drainage Act is working fairly well. In some sections of the Province there was a tendency on the part of farmers to keep clear of that Act, purely because of the fact that it placed drainage costs on their taxes. There is also a great lack of knowledge and understanding of the Act on the part of farmers, and this is sometimes responsible for schemes which should rightly be undertaken under this Act being erroneously placed under The Ditches and Watercourses Act.

Taking this Act in conjunction with The Provincial Aid to Drainage Act, the Committee is of the opinion that the limitation of grants under the latter Act to the construction of works costing over \$10,000 is a barrier to some drainage schemes. There are few drainage schemes under The Municipal Drainage Act in which the cost is over \$10,000, and work would be expedited, and more encouragement given to drainage projects, if the minimum cost to be eligible for a grant were reduced from \$10,000 to \$5,000, and the amount of the grant were increased from the present level of twenty per cent to 30 per cent.

While there was general satisfaction on the part of drainage engineers and municipal officials with the provisions of The Municipal Drainage Act, the opinion was expressed that Section 5 of the Act required some clarification, particularly as to allowing municipal clerks to make application for an apportionment of drainage assessment when part of a farm is sold, without waiting for an application from one of the owners, and also for some definition of the word "Adjoining" in Section 5, ss. 4 of the Act. In this section, there is no provision for a landowner to make application to tap into a drain subsequent to its construction, although there is provision for assessing him.

The Committee found some objections to Section 93A of The Municipal Drainage Act, under which the Lieutenant-Governor-in-Council has power to name the Ontario Municipal Board as drainage referee. The view was expressed to the Committee that the drainage referee should of necessity be a well-qualified lawyer with experience in drainage law, and it was doubted if members of the Ontario Municipal Board had that experience.

It was drawn to the attention of the Committee that there are serious defects in Section 72 of The Municipal Drainage Act. This section, which deals

with municipal drains going from the initiating municipality into another adjoining municipality, takes it for granted that the municipal boundary line is a road allowance. It does not take into consideration at all cases in which there is no boundary road, but merely a line between the two municipalities, nor does it take into consideration cases in which the municipal drain is itself the boundary line, with the municipal boundary following the centre of the municipal drain. This section, in the opinion of the Committee, needs to be studied carefully by the Law Clerks and amended in order to take care of the type of cases referred to above.

On Examination of The Municipal Drainage Act, it was found that the headings on Sections 76 and 77 of this Act did not convey the proper meaning of the sections. Section 76 carried the heading "Repairing without Report", whereas the section deals with deepening, widening and extending drains. Section 77 has the heading "Repairing Upon Report", while the section has to do with construction, re-construction and extension of drains. These headings should be changed, as they are part of the Act, and have been invoked in court in an effort to make these sections apply to maintenance, whereas they apply only to projects which come properly under the general heading of construction work.

Generally speaking, in all these Acts there is a need for simplification of the procedure clauses, as to the lay mind the phraseology is very confusing, and tends to cause a distrust of the legislation. The Committee feels that while the principles of these Acts are still sound, they should be made the subject of study by the Law Clerks of the Crown with a view to their re-enactment in simpler language and phraseology, with a consolidation of many of the procedure sections.

Drainage and Conservation

In its tours of inspection and its studies, the Committee found ample evidence of the close relationship between farm drainage, conservation and flood control. This was particularly evident in the study of the headwaters of the Grand, Conestoga and Thames Rivers.

The present drainage legislation was framed and enacted at a time when it was necessary to make provision for removing water from the land rapidly, under conditions and circumstances which, in many cases, no longer prevail in the Province. While the principles of the legislation are satisfactory to-day for the purpose for which the Acts are intended, they take on new significance in the light of the measures which have been found necessary in recent years in connection with water conservation and flood control. It would seem that all the drainage legislation is directed towards getting water off the land as quickly as possible, with no thought to holding back or storing water to take care of the requirements of the land during the season of lowest precipitation. The result of this is that large scale drainage ditches in the headwaters of streams carry off the spring water at a rapid rate, accentuating flood conditions down stream by the concentrated effect of ditches and drains having their outlets in the streams. Much of the damage to bridges and roads, as well as to private property, during spring floods, is undoubtedly due, in many cases, to widening, deepening and straightening of drains and ditches upstream. It would appear that while nature provided natural dams to the run-off of water in the form of winding streams, man has reversed the process by straightening out the winding sections, and

allowing the water to run off at a rate beyond the capacity of the stream to carry. This poses the problem of the relationship between drainage schemes and general conservation schemes covering a watershed.

In its studies the Committee observed several instances of drainage schemes which could be regarded as in the category of those mentioned above, particularly at the headwaters of the Thames and Conestoga Rivers, and in the Luther Marsh area which feeds into the Grand River system. The Luther Marsh is an ideal natural reservoir for water, but the digging of a wide and deep ditch to drain this marsh has destroyed its value as a reservoir, and added to the heavy and rapid flow of water down the Grand River in the period of the spring freshet. It is the opinion of the Committee, backed by substantial evidence, that this ditch should not have been dug, and the Committee welcomed the information that the Grand River Commission proposed to abandon this ditch and hold the water back in the Luther Marsh.

The whole question of the relationship of farm drainage to water conservation and flood measures came under review, and the Committee has reached some definite conclusions with respect thereto. This included a review of the provisions of The Conservation Authorities Act and The Grand River Conservation Act insofar as these concern control of drainage in the watersheds taken under jurisdiction of authorities set up under the former Act, and the Grand River Conservation Commission.

In considering this question, the Committee inclined to the view that, in order to safeguard watersheds from the development of unwise drainage schemes, there should be some overall, neutral authority with power to review drainage schemes from the standpoint of the whole of the watershed involved. This factor, however, is amply provided for in Section 24 of The Conservation Authorities Act, as amended in 1947, since approval is required for all drainage projects undertaken under The Municipal Drainage Act where an authority is in effect covering the watershed. Since the authorities established under the Act have in the majority of cases a preponderance of rural representatives, the Committee is of the opinion that the law requiring approval by the Conservation Authority meets the need for the review of drainage schemes by an overall, neutral body.

The Committee, however, has some comments and recommendations to make regarding the provisions of Section 24 of The Conservation Authorities Act and their application in actual practice. There is nothing in this section or in any other legislation to indicate at what stage in the procedure under The Municipal Drainage Act the approval of the Conservation Authority shall be sought, nor the form or manner in which application for approval shall be made. This approval could, as the law now stands, be sought at initiation of the petition, when the by-law is prepared by the municipal council, or after the by-law is passed. It could be sought by the petitioners who are sponsoring the petition, or by the municipal council. There is nothing in any Act which sets down specific procedure. The Committee feels it desirable that uniform practice and procedure should be provided for in The Municipal Drainage Act and The Conservation Authorities Act, setting forth that approval shall be secured before the petition for a municipal drain is entertained by the Municipal Council and that the application for approval shall be in the form of a communication from

the municipal clerk to the secretary of the Conservation Authority, setting forth the details with reference to the proposed drain.

The Committee is also of the opinion that while approval by the Conservation Authority is desirable, there should be an opportunity for the petitioners or their representatives to state their case before the Authority or a special committee of the Authority, and, in the event of the decision of the Authority being against the proposed drain, for some form of appeal to the drainage referee against the decision of the Authority.

The Committee wishes to call attention to the fact that Section 24 of The Conservation Authorities Act is in conflict with Section 19 of The Grand River Conservation Act. The former legislation provides that approval is required only for new schemes under The Municipal Drainage Act, excluding the maintenance of existing drains, but The Grand River Conservation Act requires approval for all drainage schemes, which would include projects under The Tile Drainage Act and Ditches and Watercourses Act. This conflict should be cleared up, particularly as there is under way organization of a Conservation Authority for the Grand River watershed, at which time the two sections would come into conflict. There is the further possibility of conflict between the Grand River Conservation Authority and the Grand River Commission when the new authority is organized, and the Committee feels that steps should be taken to clear up this situation before, rather than after, conflict has taken place.

The Committee wishes to point out that under Section 24 of The Conservation Authorities Act, approval is required for all new drainage schemes under The Municipal Drainage Act. There is no provision, however, for approval of storm sewers originating in urban municipalities, which in many cases contribute more flood waters to a stream than do the farm drains. It is felt that similar approval should be required for such storm sewers as are discharged into waters covered by the Conservation Authority.

Evidence was presented that many farmers were suffering from having lands flooded, their drains damaged and their streams polluted, with consequent danger to livestock by the effluent from factories in urban centres being discharged into streams flowing through their farms. No provision is made for any redress or compensation in such cases other than through the common law, and the Committee feels that some consideration be given to enacting special provision for compensation for such damage.

The question of retaining swamps, ponds and waste land areas as natural reservoirs for the storage of water was given much consideration by the Committee. It was felt that there were many locations in the Province where the retention of such reservoirs would correct flood conditions, provide a steady all-the-year-round flow of water through the agricultural areas, and raise the water tables in the land. The Committee strongly recommends that such areas as are desirable to retain as natural water reservoirs should be acquired by the Conservation Authorities, where these exist and where such action is in the public interest, or by the Province or the municipality as the case may be in accordance with the extent of the area to be affected and benefitted by the storing up of water in these natural reservoirs. In the event of the land not being acquired outright,

then provision should be made for compensation to the owners thereof in return for the reservation of these areas for the storage of water supply.

Surveys and Inspection

At all points inspected, the Committee found that the services rendered by the staffs of the drainage divisions at the Ontario Agricultural College, and the Kemptville Agricultural School in surveying and inspecting tile drainage installations, and in helping to make surveys for drainage schemes, have been very valuable and have been greatly appreciated by the farmers of the Province. It is very evident, however, that the staff available for this work at the two institutions is quite inadequate to serve the needs and demands for their services. The Committee was informed that there is a possibility of more young trained men being available for this type of work, and is of the opinion that there should be substantial additions to the staff at both the O.A.C. and K.A.S.

In view of the recommendation that there be inspection of all tile drains laid before they are backfilled, the suggestion was made if there were sufficient fieldmen in the drainage division at the above institutions, they might very well be assigned to do this work of inspection. That would be an ideal solution to the problem, and would be a very valuable service to the farmers of Ontario.

Information to Farmers

The Committee has ascertained that there is a great deal of ignorance regarding the drainage laws of the Province. In previous years, the Department of Agriculture had available for distribution pamphlet copies of the various drainage acts, as well as of explanatory bulletins, which served the useful purpose of informing farmers as to the provisions of the legislation and how they operate.

These pamphlets are to-day all out of print, and the Committee is of the opinion that they should be revised and brought up-to-date and reprinted as rapidly as possible so as to be available for distribution to interested persons.

Organic Matter in the Soil

As a result of its inquiries and investigations, the Committee is convinced that one of the important reasons for drainage difficulties on many farms is the depletion of organic matter in the soil. This has prevented the proper absorption of moisture, and has caused water to lie on the land which should be taken into the soil. This has a definite connection with drainage, because the Committee heard evidence to the effect that tile drainage usually had the effect of improving soil structure, and increasing its water-holding capacity.

The Committee believes that this is a matter for education of the farmers, and would strongly urge that the Department of Agriculture, through its extension services, undertake such a campaign of education on practical methods of restoring organic matter to the soils which have become depleted of humus.

Check and Control Dams

The Committee was greatly impressed by the evidence given regarding the value of the check or control dams on the Trent Valley canal system in holding back flood waters in Victoria and Peterborough Counties. While this system

was intended primarily for navigation, and the check dams built to ensure proper water levels, these dams have been of great benefit to agriculture in the area covered by the system.

The Committee would call attention to this method of storing water at low costs, and suggests that it be given the careful consideration of all Conservation authorities in making surveys of the watersheds under their jurisdiction.

RECOMMENDATIONS

In the light of the foregoing, the Committee respectfully submits the following recommendations:

RECOMMENDATIONS REQUIRING LEGISLATIVE ACTION

Tile Drainage Act

- (1) That provision be made for a freight subsidy on the transport of tile from the tile plants to the farms, along the lines of the subsidy now paid on freight charges for agricultural limestone.
- (2) That the maximum amount which can be borrowed by a farmer under Section 13, Tile Drainage Act, be increased from \$2,000 per hundred acres or portion thereof to \$3,000 per 100 acres or portion thereof.
- (3) That Section 7, ss. (3) of The Tile Drainage Act be amended so as to give any mortgagee, encumbrancer or assignee the right to make objection to the granting of a loan for tile drainage on the farm on which he holds the mortgage or encumbrance, with provision for a hearing by the township council before final disposition of the application for a loan, and an appeal to the Ontario Municipal Board by either party from the decision of the township council.
- (4) That provisions providing for the apportionment of assessment for tile drainage in the event of part of a farm being sold subsequent to the laying of the drains be incorporated in The Tile Drainage Act, similar to the provisions of Section 5, ss. (2) of The Municipal Drainage Act.
- (5) That Section 16, ss. (1) of The Tile Drainage Act be amended so as to require from the inspector a certificate that the tile drain has been properly and satisfactorily laid as to levels and will do the work expected of it, along with a plan of the tile drain.
- (6) That provision be made in The Tile Drainage Act for regulations to be made by the Lieutenant-Governor-in-Council setting forth standards and specifications for tile drain, both clay and concrete, with which tile manufacturers will be required to comply in all tile sold to farmers for tile drainage.
- (7) That some provision be made in The Tile Drainage Act to cover the procedure in the event of tile drainage having to be carried from one farm over part of another farm in order to find a sufficient outlet.

Ditches and Watercourses Act

- (1) That a clause be inserted in the Definition Section of The Ditches and Watercourses Act, defining the term "sufficient outlet". (See Municipal Drainage Act, Section 1 (n).)
- (2) That provisions for the apportionment of assessment and award in case part of a farm is sold subsequent to the making of the award, similar to those in Section 5 of The Municipal Drainage Act, be incorporated in The Ditches and Watercourses Act.
- (3) That The Ditches and Watercourses Act be amended so as to provide that in apportioning the work to be done by any landowner, the engineer shall take into consideration any loss or damage he may sustain by reason of the construction of the award ditch.
- (4) That the law clerks of the crown be asked to study the maintenance sections of the Act with a view to their amendment in such a manner as to prevent their abuse by being applied to deepening and widening ditches, which should properly be the basis for a new award; and to ensure equitable application of the maintenance clauses, particularly Section 15, ss. (3) of the Act.
- (5) That provision be made in The Ditches and Watercourses Act for the filing of a second copy of all awards in the County Registry Office, and for the proper filing and keeping of records of award ditches by the township clerk.
- (6) That no change be made in the limitation of \$2,500 which at present applies to schemes under The Ditches and Watercourses Act, as any increase would tend to take these projects beyond the original intention of the Act.
- (7) That Section 15, ss. (4) of The Ditches and Watercourses Act be amended so as to give the engineer authority to refuse an award for a ditch if, in his opinion, the cost of the scheme will exceed the benefits to be derived over the whole scheme, in which case he will report that the scheme be not undertaken and no award will be made.

The same right of appeal as allowed in Section 20 of The Ditches and Watercourses Act should be allowed in the event of the engineer deciding against an award for the reasons set forth in the preceding paragraph.

Municipal Drainage Act

- (1) That Section 5, ss. (2) of The Municipal Drainage Act be amended so as to give the township clerk authority to make application for apportionment of drainage assessment where part of a farm is sold, without waiting for one of the parties concerned to make application for apportionment.
- (2) That Section 5, ss. (4) of The Municipal Drainage Act be clarified.

There is need for a specific definition or clarification of the word "Adjoining" in this subsection. This section provides for assessment of a landowner who subsequently taps into the drain, but there is no procedure at all in the Act to allow him to tap into the drain.

- (3) That Section 93A of The Municipal Drainage Act be repealed or amended, as only a well-qualified lawyer, with considerable experience in drainage work, should sit as a drainage referee; or, as an alternative, that a well-qualified lawyer, with experience in drainage work, be appointed to the Ontario Municipal Board.
- (4) That a new section be added to The Municipal Drainage Act to bring it into conformity with Section 24 of The Conservation Authorities Act. This should provide that the approval, as required by Section 24 of The Conservation Authorities Act, be secured before the township council entertains on a petition, application to be in the form of a letter from the Municipal Clerk to the Secretary of the Conservation Authority, setting forth the details of the proposed municipal drain.
- (5) That the headings to Sections 76 and 77 of The Municipal Drainage Act be reviewed and amended to bring them into strict conformity with the wording and content of these sections.
- (6) That Section 72 of The Municipal Drainage Act be amended so as to make it applicable to cases in which the boundary line is not a road allowance, or to cases in which a boundary line follows the centre of a municipal drain.

Conservation Authorities Act

- (1) That Section 24 of The Conservation Authorities Act, as amended, be enlarged by the addition of sub-sections providing that:
 - (a) There be a proper form for application for approval of drainage works under The Municipal Drainage Act, and a specific period named at which such application be made in the procedure under The Municipal Drainage Act, to conform with that Act.
 - (b) That there be an opportunity for the petitioners under The Municipal Drainage Act, and the minority group, if any, to have a hearing before the decision is made by the Conservation Authority.
 - (c) That there be a right of final appeal to the drainage referee, in the event of refusal of approval by the Conservation Authority.
 - (d) That storm sewers in urban centres be brought under the same requirements as to approval as set forth for Municipal Drainage Act projects in Section 24, since these sewers in many cases contribute even more heavily to flood waters than municipal farm drains.

Grand River Conservation Act

- (1) That Section 19 of The Grand River Conservation Act be amended so as to bring it into conformity with Section 24 of The Conservation Authorities Act.

Provincial Aid to Drainage Act

- (1) That The Provincial Aid to Drainage Act be amended so as to reduce the minimum cost of a drainage scheme for a financial grant from \$10,000 to \$5,000.
- (2) That the amount of grants allowed under The Provincial Aid to Drainage Act be increased from 20 per cent to 30 per cent.

Legislation re Telephone Companies

Under The Railways Act, R.S.O. 1937, c. 259, s. 109, railway companies are required to maintain ditches and watercourses connecting with ditches, drains, drainage works and watercourses upon the land through which the railway runs, and to afford sufficient outlet so as not to obstruct or impede the natural, artificial or existing drainage of the land.

Under this section, the railway companies assume their share of drainage schemes in which their property is involved and pay the costs of any works which they may have to construct in connection with them.

An entirely different situation exists so far as telephone companies are concerned, and their practice, when their lines or underground cables interfere with drainage schemes, is to bill the municipality for the costs of any changes required.

The Committee recommends that consideration be given to the possibility of securing legislation, Dominion or Provincial, which would place telephone companies on the same basis as railway companies in this regard.

RECOMMENDATIONS FOR ACTION BUT NOT REQUIRING LEGISLATION

In the course of its studies the Committee was confronted with many situations and received many suggestions which did not call for legislative action, but which are worthy of consideration by the appropriate departments of the Ontario Government. These are listed as follows:

- (1) That the Government give serious consideration to proposals that some measures be taken to ensure an adequate output of tile by the tile plants in the Province to meet the needs of the farmers. It is suggested that agreements might be made to absorb the entire output of these plants up to a specified maximum at an agreed price, or that some assistance might be given to existing tile plants to instal electric drying equipment so as to permit operations all the year round, instead of only in the spring, fall and summer months. Such measures would be of substantial assistance in increasing the available supply of tile.

- (2) It is recommended that the Government take immediate steps to increase the field staff available for survey and inspection work under the drainage divisions of the Ontario Agricultural College and the Kemptville Agricultural School, and undertake the after-inspection of tile drainage before the ditches are back-filled.
- (3) It is recommended that the pamphlet copies of all drainage legislation, and all bulletins and circulars relating to drainage, be brought up to date and reprinted for distribution to farmers and other interested persons.
- (4) It is recommended that the Department of Municipal Affairs prepare a set of instructions to municipal clerks on the filing of documents, with particular reference to ditch awards under The Ditches and Water-courses Act. It is also strongly recommended that Municipal Councils be requested to provide in their municipal offices suitable filing cabinets for the filing of such documents.
- (5) The Committee recommends that the Department of Agriculture institute educational campaigns directed at (1) the cleaning out and deepening and widening of old ditches and drains to put them back in serviceable condition; (2) the value of shallow open ditches as a means of removing surface water from the land; (3) the importance of building up organic matter in the soil as a means of retaining moisture and restoring soil fertility, while at the same time facilitating drainage.
- (6) That the Ontario Department of Agriculture, through its appropriate branch or through the Agricultural Engineering Department of the O.A.C. and in co-operation with machinery manufacturers, arrange for demonstrations of various types of ditching and drainage machinery at convenient points in the western, central and eastern sections of the Province, along the same lines as the Grassland Field Day held near Woodstock on July 31st, 1947.
- (7) That the Ontario Plowmen's Association be requested to arrange for a large-scale demonstration of ditching and drainage machinery in actual operation at the annual International Plowing Match, and also at the larger county plowing matches held throughout the Province.
- (8) That the Department of Planning and Development, through the Conservation Authorities for the various watersheds, institute a study of the possibility of the use of check or control dams on the headwaters of the streams as a means of holding water in storage and as a measure of flood control.
- (9) That the Ontario Department of Highways be asked to study the possibility of making suitable road machinery available for municipal drainage work at periods of the year when such machinery is not being used by the Department and is standing idle.

In conclusion, the Committee wishes to make grateful acknowledgment of the valuable assistance it received from the Secretary of the Committee, Mr. M.

McIntyre Hood of the Ontario Department of Agriculture. His great fund of knowledge of the Province of Ontario, and his ability in compiling and summarizing the evidence placed before the Committee and in organizing its work, were invaluable to the members, and the Committee wishes to make this expression of appreciation of Mr. Hood's services.

All of which is respectfully submitted.

Report and Minutes of the Meetings of the
Standing Committee on Fish and Game

Session of 1948

Report of the Standing Committee on Fish and Game

SESSION OF 1948

*To the Honourable the Legislative Assembly
of the Province of Ontario:*

Gentlemen:

Your Standing Committee on Fish and Game begs leave to present the following as its Report:

The Standing Committee on Fish and Game met four times during the present Session of the Ontario Legislature with Mr. Pringle in the Chair and Hon. Mr. Scott of Lands and Forests in attendance.

At meetings on March 15th and March 16th the Committee heard representations from several Sportsmen's groups and others interested in fish and game in the Province of Ontario. As a result of their representations 177 recommendations were considered by the Committee at meetings held on April 12th and April 14th.

After spirited and lengthy discussion, the Committee approved several recommendations and forwarded them to the Department. Main among the approved motions were the following:

1. That the area bordered on the north by the Magnettawan River, on the south by Sturgeon Bay, and running west from No. 69 Highway to Georgian Bay, in the Parry Sound District, be set aside as a Game Reserve.
2. That the Department consider the advisability of placing a ban on the carrying of firearms by summer tourists.
3. That the portion of Hastings County south of No. 7 Highway be closed for deer hunting until further notice.
4. That the moose hunting season be closed for two years or until the completed report by Randolph Peterson of the Royal Ontario Museum of Zoology on the Moose situation is released.

5. That angling for lake trout be strongly prohibited during the spawning season.
6. That the deer hunting season be left unchanged, at the discretion of the Department.

All of which is respectfully submitted.

J. A. PRINGLE,
Chairman.

Committee Room,

Thursday, April 15th, 1948.

Minutes of the Meetings of the Standing Committee on Fish and Game

FIRST MEETING

The first meeting of the Standing Committee on Fish and Game was held on Monday, March 15th, at 10 a.m.

Present were Messrs. Acres, Allen (Middlesex South), Armstrong, Cathcart, Docker, Elliott, Fullerton, Hall, Hanna, Hanniwell, Hunt, Janes, Johnstone (Bruce), Knowles, Mackenzie, Martin (Haldimand-Norfolk), Martin (Nipissing), Murdoch, Newman, Pringle, Pryde, Reynolds, Robertson, Robinson, Sale, Stewart (Kingston), Thompson and Wilson.

On the motion of Mr. Stewart, seconded by Mr. Martin (Nipissing), Mr. Pringle was unanimously elected chairman.

After opening remarks by the Minister of Lands and Forests, Hon. H. R. Scott, the Committee received submissions dealing with fish.

Mr. H. V. Sutton, on behalf of the Ontario Federation of Anglers and Hunters, proposed that limitation be put on the issuance of non-resident fish and game licences, that fish and wildlife overseers be moved periodically to new districts, that use of aircraft for fishing and hunting be controlled, that an attempt be made to draft uniform angling regulations on the St. Lawrence with New York State, that no air travel be permitted in provincial parks except on official duty, that the netting of minnows on Lakes Simcoe and Couchiching be curbed, that fish ladders be placed at Wasdells Falls and all branches of the Severn River out of Lake Couchiching, that all applications for appointments as deputy game wardens in Brant County be referred to the executive of the Brant County Rod and Gun Club for approval, that the taking of northern pike and pickerel by seine netting in Inner Long Point Bay be prohibited, that the use of dip nets be barred in Welland County and that the opening date for black bass be the same in Lake Erie as other waters.

Ken Clarke of the North Bay, Sudbury, Sault Ste. Marie Zone of the Ontario Federation of Anglers and Hunters proposed that the laws governing pollution be clarified and that research projects on fish be continued and extended.

N. P. Shields of the Ontario Fish and Game Protective Association proposed that the bag limit on yellow pickerel and pike be eight per day, that the bag limit on speckled trout be reduced to fifteen per day or ten pounds in weight, that protective associations, on the recommendation of game overseers, be permitted to close certain public waters for a period not exceeding three years and that consideration be given to prohibiting fishing through ice in waters known to contain speckled trout.

Keith Denis of the Northwestern Ontario Conservation Federation proposed that the moose hunting season be closed for two years and that the non-resident licence fee be increased to \$200, that the non-resident deer licence be increased to \$50 and that certain changes be made in the deer season, that the non-resident licence for bear be valid during the deer season, that fish studies should be intensified, that summer home and tourist lodge sites should be available to the public on all Crown lands, and that there should be further educational work by the Department of Lands and Forests either through bulletins or talks.

A brief submitted by the Thunder Bay Fish and Game Association proposed that certain islands in the northern part of Lake Nipigon be added to the Onaman Nipigon Game Preserve, that commercial smelt licences be issued to those individuals actually engaged in handling of gear and nets and that such licences shouldn't entitle the holder to fish smelt in the waters of Current River or within one-half mile of its mouth in Thunder Bay, and that the regulation regarding sport fishing of lake fishing be changed to make a limit of five trout or fifty pounds, the first limit reached to apply.

Louis Chappus of the Essex County Sportsmen's Association, Inc., proposed that the spearing of grass pike be permitted in the waters in and around Essex County.

Graydon Gregory of the Kent County Sportsmen's Association proposed that the number of non-resident fishing licences be limited, that all persons charged with violations of the Game and Fisheries Act be required to appear before a magistrate and that a more vigorous stand be taken on pollution of water.

Ken Hansen of the Northern Ontario Outfitters Association proposed that fish hatcheries and rearing ponds for muskies be established in the Nestor Falls and Dryden areas, that priority be given to local needs on fish fry from the Fort Frances hatchery, that the number of overseers on the Lake of the Woods be increased, that there be further restrictions on commercial fishing on certain northern lakes, that the open season for muskie angling be changed, that there be no closed season for lake trout angling in the Kenora-Rainy River districts, and that whitefish and coarse fish in Lake of the Woods and tributary waters be removed by government operations.

Nick Kaneb of the Cornwall Fish and Game Protective Association proposed that game overseers be given authority to confiscate fish caught illegally in Quebec and brought to the Ontario side and that the Departments of Lands and Forests and Health take joint action to correct water pollution in the St. Lawrence River.

Other representations were made to the Committee by Bert Golden of the Ontario Federation of Commercial fishermen who opposed further restrictions on commercial fishing, E. L. Hughes of Trout Mills, who proposed extension of government research on fish, George Bishop of the Northern Ontario Outfitters Association who proposed prohibition of gill nets, Austin Peters, past president of the Ontario Federation of Anglers and Hunters, Sam Osborne of Sudbury and T. N. Fairlie, president of the Georgian Bay Association of Anglers and Hunters who made general representations.

The meeting adjourned at 12.30 to meet again the following day to consider submissions on game.

SECOND MEETING

The second meeting of the Standing Committee on Fish and Game was held on Tuesday, March 16th, at 10 a.m., to hear submissions on game.

Present were Mr. Pringle in the Chair and Messrs. Allen, Carlin, Cathcart, Dempsey, Docker, Elliott, Harvey, Hunt, Janes, Johnston (Simcoe-Centre), Johnstone (Bruce), Mackenzie, Martin (Nipissing), Meininger, McEwing, McPhee, Newman, Phillips, Pryde, Reynolds, Robinson and Robson.

George McGarvin of the Kent County Sportsmen's Association proposed that the number of game wardens be increased wherever possible and that the definitions of boundaries on resident and non-resident licences be defined more clearly.

Rev. C. J. Jones of Renfrew proposed that a fish hatchery be established to serve the Ottawa Valley and that there be an upward revision in non-resident licence fees.

J. S. Wilson of the North Bay, Sault Ste. Marie Zone of the Ontario Federation of Anglers and Hunters proposed that studies of lake conditions should be intensified.

Nick Kaneb of the Cornwall Fish and Game Protective Association suggested stronger regulations on the carrying of loaded guns and on licence cancellations.

H. E. Chauvin of the Essex County Sportsmen's Association proposed that regulations governing the shooting of pheasant be changed, particularly regarding the Essex County area.

C. G. Glover of Essex County proposed that the hours for shooting pheasant be designated as "from sunrise to sunset" and that certain changes be made in the small game seasons.

H. V. Sutton of the Ontario Federation of Anglers and Hunters proposed that the non-resident deer licence be increased to \$50, that changes be made in the publication of hunting regulations and in the game seasons particularly in Kent and Essex Counties, and that Haldimand and Middlesex Counties be declared closed territory for hunting rabbits by non-residents.

Ken Hanson of the Northern Ontario Outfitters Association proposed certain changes in the hunting seasons and that there should be a bounty on crows.

S. Morgan of the Northern Ontario Fish and Game Protective Federation proposed that a larger mileage allowance should be given game wardens, that the duck season in Northern Ontario should be earlier and that the season for deer should open on October 15th.

Clive Thompson of the Ontario Naturalists Federation proposed that there should be legislation giving protection to hawks and owls.

Joe Macnab of Sudbury proposed that provincial advertising should stress the scenic beauty of the province rather than fish and game resources and that game wardens' salaries should be increased to bring them up to the level of the provincial police.

Graydon Gregory of the Kent County Sportsmen's Association gave support to proposals made earlier by the Essex County Association.

A. A. Dodds of the Red Lake Chamber of Commerce and the Kenora Board of Trade proposed that hunting of moose in the Kenora area be prohibited for two years, that changes be made in the hunting season, that there should be higher penalties for game law infractions, that hunting and fishing from planes be forbidden, that non-resident deer licences be set at \$50, that changes should be made in the system of issuing guide licences and that changes should be made in the legislation governing guides.

R. J. Mitchele of the Hunting and Field Archers of Ontario proposed that an open season of two weeks for the taking of deer by archers be established; also a season for ruffed grouse and that licences be set up covering hunting with bow and arrow only.

Dr. Alan Secord of the Ontario Bird Dog Association proposed that sportsmen should be educated and encouraged in the use of bird dogs and that a bonus should be granted sportsmen using dogs in duck hunting.

C. H. Scott of Delhi proposed that the deer season should be earlier and that it be more uniform.

G. W. Richardson of North Bay asked that there be stronger measures taken against wolves.

The Minister of Lands and Forests, Hon. H. R. Scott, and the chairman, Mr. Pringle, thanked the delegations for their submissions and the meeting adjourned at 12.30.
