JOURNALS
OF THE
LEGISLATIVE ASSEMBLY
OF THE
PROVINCE OF ONTARIO
3rd Session—26th Parliament

FIRST DAY

WEDNESDAY, NOVEMBER 22ND, 1961

PROCLAMATION

(Great Seal of Ontario)

J. K. MACKAY

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith.

To Our Faithful the Members elected to serve in the Legislative Assembly of Our Province of Ontario and to every of you,—

GREETING :

A. K. ROBERTS, *Attorney-General.* { **W**HEREAS it is expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Ontario, WE DO WILL that you and each of you and all others in this behalf interested, on Wednesday, the twenty-second day of

November now next, at Our City of Toronto, personally be and appear for the actual Despatch of Business, to treat, act, do and conclude upon those things which, in Our Legislature for the Province of Ontario, by the Common Council of Our said Province, may by the favour of God be ordained.

HEREIN FAIL NOT.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the GREAT SEAL of Our Province of Ontario to be hereunto affixed.

WITNESS :

THE HONOURABLE JOHN KEILLER MACKAY, a Companion of Our Distinguished Service Order, upon whom has been conferred Our Volunteer Officers' Decoration, One of Our Counsel learned in the Law, a Lieutenant-Colonel in Our Canadian Army Supplementary Reserve, Doctor of Civil Law, Doctor of Laws,
LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this second day of November in the year of Our Lord one thousand nine hundred and sixty-one and in the tenth year of Our Reign.

BY COMMAND

JOHN YAREMKO,
*Provincial Secretary and
Minister of Citizenship.*

Wednesday, the twenty-second day of November, 1961, being the first day of the Third Session of the Twenty-sixth Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable J. Keiller Mackay, D.S.O., V.D., Q.C., D.C.L., LL.D., Lieutenant Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:

Mr. Speaker and Members of The Legislative Assembly of Ontario:

It is a great pleasure for me to welcome you to the Third Session of this Twenty-sixth Legislature. In extending to you this welcome I know that you would wish me to take cognizance of the retirement of the Prime Minister who

has given outstanding leadership to this House for the past twelve years and whose conscientious and unflagging efforts have made such a notable contribution to the economic well-being and development of this great Province and its people. At the same time, I know you would wish to join in extending to the new Prime Minister and administration our best wishes and our prayers that they be guided in wisdom and righteousness in carrying out the heavy responsibilities they have assumed.

For the second consecutive year, the Legislature is commencing its session in the autumn in conformity with the pattern of last year. Honourable members will have ample opportunity to study, consider and discuss the Government's financial and economic program, including the Budget, the estimates of each department, new legislation and numerous other matters calculated to promote the growth and development of our Province and the prosperity of our people.

As in past years, the Government's program has been designed to achieve an economic climate conducive to industrial expansion and employment. The year 1961 has witnessed a strong resurgence of economic growth. The pace of economic activity has accelerated. One by one the major economic indicators have advanced to higher levels. Ontario's gross provincial product has risen to an annual rate of \$16 billion. The rate of unemployment on a seasonally adjusted basis has declined since last February. Ontario's ratio of unemployment is well below the national average and substantially less than it has been in the last two years.

The manufacturing industries, which exercise such an important effect upon the health of the whole Provincial, and, indeed, the National economy are now operating at record production levels. Despite the declining output of uranium and iron ore, the entire value of Ontario's mineral production will again approximate 1960's record of almost \$1 billion. The output of our forest industries has increased. Despite a number of difficulties, housing construction is running well above that of last year. Agricultural output has risen. Exports have been increasing. An encouraging aspect of our economy is that public confidence has been well maintained, and that the broad economic picture suggests a continuance of growth and expansion throughout the coming year.

We cannot be complacent, however. The possible entry of the United Kingdom and other countries into the European Economic Community will introduce new stresses and strains. The price of progress must be unceasing attention to ways and means of improving quality and cutting costs.

The legislative, financial and economic program that will be presented to this House is the most comprehensive in our history. Among many other measures designed to promote the progress and economic well-being of our Province, this program will include:

- (1) New methods to promote co-operation between industry, labour and government, and to increase production and employment;
- (2) New measures to expand agricultural and industrial research facilities;
- (3) A major increase in the Province's assistance to education. Not only will grants to local school boards be increased, but larger contributions

will be made to universities. Of great importance too will be the continued operation of the \$200 million Federal-Provincial-Municipal program to provide trade and technical school education for our growing industrial economy;

- (4) New measures to conserve and develop our natural resources;
- (5) An accelerated program of highways, parks and economic development in Northern Ontario;
- (6) Measures to strengthen individual and family security;
- (7) Additional advances in mental health care and hospital services;
- (8) Action to improve the Emergency Measures Organization;
- (9) New Federal-Provincial tax-sharing arrangements.

A comprehensive plan is being evolved to assist the economy in achieving a satisfactory rate of economic growth. My Government is aware that there is no easy solution to our difficulties, or that it can provide some magic formula which, if taken in sufficient doses, would cause them to disappear. Since the task ahead requires the co-operation of all major groups in the economy, an Advisory Committee for Economic Development has been established, composed of men of wide experience in industry, labour and government. Among the sub-committees to be established under the new Advisory Committee will be one to study the special problems of Northern Ontario.

In addition, legislation will be introduced to merge the Department of Economics and the Department of Commerce and Development under the title of the Department of Economics and Development. This will permit a closer integration of the work of the Department of Economics, which studies economic conditions and trends, with the work of the Department of Commerce and Development, which places special emphasis upon industrial promotion. Increased emphasis is to be placed upon industrial research, with the result that the work of the Ontario Research Foundation will be expanded.

Plans for the development of additional supplies of power and energy in all parts of the Province will be placed before you. The 100,000-kilowatt thermal generating unit at the Thunder Bay station in Fort William is to be brought into service early in 1962. Progress is being made on the Lakeview thermal generating station, which is designed to supply 1,800,000 kilowatts of power. Hydro-electric power stations which have a total dependable capacity of 500,000 kilowatts are under construction, or are planned, in the James Bay watershed. The capacity of these new power stations is sufficient to meet the electric power requirements of nearly all of Ontario's 1,650,000 homes. Of the two nuclear power stations now under construction, the plant at Rolphton, near Des Joachims, will be brought into service next spring.

You will be asked to consider legislation providing for the consolidation of the Northern Ontario Hydro-Electric Power system, commonly known as the "Northern Ontario Properties", with the Southern Ontario system. This will

provide for the financial integration of all systems and permit a more economical development and operation of electric power plants throughout the whole Province. The residents of Northern Ontario will be ensured greater stability of supplies of power at a reasonable cost.

The Department of Energy Resources, with the full co-operation of industry, has been preparing a comprehensive set of rules and regulations for the guidance of all who are concerned with energy production and distribution. This work is nearing completion and the regulations will shortly be implemented. The Department has developed an expanded program to survey all Provincial energy resources. During the coming year, a review of all fuel resources within the Province will be undertaken. An examination into natural gas storage capacity is being made. Codes and regulations governing the natural gas industry will be reviewed to ensure that they are adequate and effective.

Legislation will be introduced to set up an Agricultural Research Institute to co-ordinate agricultural research in Ontario. Administrative changes to produce greater efficiency and economy will be introduced in connection with the Ontario Agricultural College, the Ontario Veterinary College and the MacDonal Institute at Guelph. The Cooperative Association Act will be introduced to provide means to assist agricultural cooperatives in the fields of marketing and transportation. You will be asked to amend The Livestock Products Act to provide for the making of regulations to permit bonding of livestock dealers. To simplify the procedures in connection with drainage, your approval will be sought for the consolidation of five related Acts.

The Department of Lands and Forests will expand its program of forest management, preservation of wild life and the maintenance and development of additional park areas. In addition to the growing number of Provincially assisted parks in Conservation areas, the Provincial Parks system now consists of 79 Provincial Parks. Seventeen new parks were brought into operation last year and many others are now under development or are being planned. More wilderness areas will be added to the 35 already established. You will be asked to provide increased funds for research in forest management, fish and wild life. The conservation functions of the Department of Commerce and Development are being transferred to the Department of Lands and Forests, so that the main conservation efforts of this Government and its municipalities will be concentrated in one department.

In the field of mining, the Province has entered into a number of joint projects with the Government of Canada to provide air-borne geophysical surveys for the mapping of the whole Province. Paralleling this development will be an expansion of the Department of Mine's geological work to provide for increased field work and for more geological reports and maps. These surveys will provide additional information for prospectors and result in further mineral developments.

The program of matching grants to regionally-based organizations as an incentive to the development and promotion of local tourist attractions, which commenced in 1961, will be continued. The Department of Travel and Publicity will continue its program of establishing new and relocating old reception centres as new bridges and highways are constructed. It is intended to continue the

search for some early Huron Villages and to carry out excavations at historic sites, as well as to continue the program of commemorating historic events and places by means of plaques.

You will be asked to provide a substantial increase in assistance for education. The growth in the enrolment in our elementary and secondary schools continues to impose a heavy strain upon our resources, both financial and physical. Some indication of the dimensions of this problem may be obtained from last year's increase of more than 100,000 pupil places, constructed at a cost of \$100 million. As the growth in enrolment shows no sign of abatement, expansion must continue.

Revisions of courses of study are under way in many subjects for both elementary and secondary schools. The major undertaking for next year is the development of new courses for kindergarten and grades one to six. New textbooks in history, geography and science have been prepared.

Staffing the Ontario school system is requiring Herculean efforts, but the results are gratifying. The number of teachers graduating from the Provincial Teachers' Colleges is more than double that of just five years ago. None of this would have been possible without the expansion in our Teachers' Colleges. The sixth of the new buildings provided for Teachers' Colleges during the last six years is now under construction in Windsor. The other five recently built are located in Toronto, Hamilton, London, New Toronto and Port Arthur. The extension of facilities has gone hand-in-hand with the program to raise the standards of admission to these institutions.

The growing industrialization of our Province and the need for special skills and greater adaptability in industry and business have pointed up the value of the Institutes of Technology and other Trade and Vocational Schools. Under the new Federal-Provincial Technical and Vocational Training Agreement, the two senior levels of government assume the capital cost of the schools. As a result, a large number of local school boards are providing increased accommodation for the teaching of technical and business courses. New Trade Schools will be established in Toronto, Ottawa, London and Saulte Ste. Marie, and a new Institute of Technology is planned for Kirkland Lake. A new Institute of Technology building will replace the present rented quarters in Ottawa. The Ryerson Institute of Technology will be completed to accommodate a total enrolment of about 4,000 pupils.

Amendments will be introduced to The Department of Education Act, The Schools Administration Act, The Secondary Schools and Boards of Education Act, The Public Schools Act, The Separate Schools Act, and The Public Libraries Act.

Mental and public health services and procedures are constantly being revised in keeping with scientific and professional progress. You will be asked to approve plans and vote monies for improvements to our mental hospitals. A unit of the Ontario Hospital School at Orillia that has been demolished will be rebuilt. Two other wings will be replaced in the future. Residential wings will be set up in all Ontario Hospitals as well as in the three new hospitals at Goderich, Owen Sound and Palmerston. Increased emphasis will be placed upon rehabilitation. A new rehabilitation branch has been established to

provide in-hospital and post-hospital training and local vocational training for patients successfully treated in our mental and T.B. hospitals. The work of the new radiation protection laboratory, the first established by any province, will be accelerated. Efforts will continue to be made to encourage young men and women to enter the medical and nursing professions.

Enrolment in the Ontario Hospital Services Plan is continuing to rise. More than 5.8 million Ontario residents—more than 95 per cent of the population—are now free from worry over the financial hazards of hospitalization. This is an increase of 5.3 per cent over membership in the plan a year ago.

The report of the Departmental Committee set up to study physical fitness in this Province will be made available to the honourable members during the course of the Session. The physical fitness of our people, including not only our youth, but our post-school age population, is a matter of great concern to your Government and the Committee's Report will be useful in setting out a basis for our future activities in this field. Action will be taken to make full use of the recent federal proposals.

My Government welcomes the establishment by the Federal Government of the Royal Commission on Health Insurance. We will make technical assistance available and co-operate fully with the Commission in the conduct of its enquiry.

In the field of welfare, the Committee appointed to review Ontario's child welfare program will report upon the completion of its work. Legislation will be introduced to serve children who reside in charitable institutions operated by private organizations. Under new concepts of care and treatment, children with emotional problems will be able to receive the type of residential care and specialized attention that they require. Consideration will be given to the establishment of community children's villages to serve pre-delinquent children. A Bill will be introduced to replace the present Charitable Institutions Act with respect to the care of adults. The rehabilitation program for handicapped persons is being widened to include those on the welfare rolls who need rehabilitation services.

The construction of new highways, the improvement of existing facilities and the provision of financial assistance to the municipalities for road and street construction will continue. The Department of Highways, working in close co-operation with other departments, is conducting extensive research into the means of financing highway and road construction. Municipal traffic studies will be encouraged by Provincial technical assistance and grants of 75 per cent of the cost.

Plans are underway to construct new roads linking major airports to adjacent communities. The Rainy Lake Causeway is scheduled for completion in 1962, and construction is proceeding at both ends of the Fort Frances-Atikokan Highway. Additional work will be done on the Trans-Canada Highway and on new roads in Northern Ontario. As part of the Federal-Provincial roads to resources program, forestry roads of a new type will be constructed by the Department of Highways in Northern Ontario.

Additional appropriations will be required for Highway 401 which is scheduled for completion in 1963. Rapid progress is being made on the construction of Highway 403, the Hamilton by-pass. Work will continue on the new controlled-access Highway 405 between the Homer Skyway and the new International Bridge at Queenston, providing a more direct link between the Queen Elizabeth Way and New York State Thruway. Legislation will also be introduced to increase from 80 to 90 per cent the contribution of the Province towards bridges and culverts on any connecting link in towns and villages having a population of more than 2,500, other than separated towns.

The Department of Transport will continue the development and implementation of policies and procedures to ensure the safe and orderly movement of highway traffic and to improve driving performance. The policy of re-examining selected driver groups will be expanded. Amendments to The Highway Traffic Act will be proposed to keep pace with new concepts of traffic demands and to further the cause of safety. An analysis of the two-year experience with the demerit point system indicates that it has been an outstanding success and has done much to encourage and improve proper driving attitudes. Legislation will be advanced to further increase its effectiveness and to eliminate apparent inequities in the present system. The successful operation of vehicle inspection lanes in the Metro Toronto area has emphasized the significance of this safety activity and it is proposed to expand this service by making available mobile inspection units to provide inspection facilities in support of community safety programs throughout the Province.

This problem of highway safety has also continued to receive attention from the other departments concerned and a Cabinet Committee, consisting of the Attorney General and the Ministers of Highways and Transport, has been set up to provide for greater co-ordination of government activities in this field. A constant review is being made of the situation and studies are continually being carried out to effect improvements, by way of greater police protection on our highways, improved road construction, and more effective highway usage.

It is expected that a report of the Select Committee on Automobile Insurance will be submitted to the Legislature shortly. The Committee set up to study expropriation procedures has nearly completed its work and it is expected that a report will be presented before the close of the Session.

The Royal Commission on Industrial Safety has now presented its Report and it has been made available to the Members of the Legislature and to the public. This Report is under active study in the Department of Labour. Legislation will be introduced at this Session in reference to many of the recommendations contained in the Report.

Action is being taken to resolve management and labour problems in the construction industry. During the past year, a special Construction Industry Arbitration Board was appointed to adjudicate upon grievances arising in connection with the construction industry in Toronto. A Royal Commissioner has also been appointed to report upon problems in the industry with a view to creating greater harmony and stability. It is anticipated that the Commissioner's report will be completed and made available before the end of this Session. The Department of Labour is also carrying on investigations and providing assistance wherever required.

Action will be taken to strengthen the Government's legislation and administration in support of the maintenance of human rights irrespective of race, language, sex, colour or creed.

Honourable Members have received copies of the Second Report of the Ontario Committee on Portable Pensions and a suggested draft of The Pension Benefits Act. The Portable Pensions Committee is, at present, reviewing the draft Bill and drafting regulations pursuant to it. You will be given an opportunity to study and review progress on this important matter.

The Department of the Provincial Secretary and Citizenship will require additional funds to conduct seminars for ethnic and community leaders. The Department has co-operated with the Department of Education in training teachers to teach English to newcomers.

The Province's liquor legislation, including education, research, and control, is under review. Various Bills relating to Municipal Affairs will be introduced in the Legislature, including amendments to The Assessment Act, The Local Improvement Act, The Municipal Act, The Ontario Municipal Board Act, and The Municipality of Metropolitan Toronto Act. To accelerate the construction of the subway in Metropolitan Toronto and to increase employment, you will be asked to approve a \$60 million loan to Metropolitan Toronto.

Continuing improvements will be made to the Province's reform program. A new training school for girls at Lindsay will soon be in operation. A new training school for boys is under construction at Simcoe.

The state of international relations justifies the strengthening of our Emergency Measures Organization and the development of plans to co-ordinate and organize facilities and services in case of war. The details of the action to be taken will be outlined to you. The Province's Emergency Measures Organization is being transferred to the Attorney-General's Department.

In the administration of justice, constant efforts are being made to meet changing situations. The Government will introduce legislation providing for the creation of an Ontario Police Commission vested with comprehensive powers relating to the maintenance of law and order in Ontario.

A report recently prepared on County and District Court Jurisdiction and related matters will be tabled and will be the basis of a plan to provide better utilization of our judicial services at the County and District Court levels. Plans are being drawn to make our Civil Courts more readily available to the public who have occasion to seek justice there. Appropriate legislation will be introduced to give effect to a number of the recommendations in the report.

You will be requested to approve legislation to enable the Government to enter into the new tax-sharing arrangements which have been negotiated with the Federal Government to replace the existing arrangements due to expire on March 31, 1962. The new arrangements, under which the Province will be free to impose, adjust and alter its tax rates in the major fields of direct taxation in accordance with its financial requirements, will provide a much greater measure of flexibility in the raising of Provincial revenue. Not only

will increased revenues accrue to the Province from the individual income tax field without a corresponding increase in the burden of taxation, but the Province will be afforded the opportunity of entering into a tax collection agreement under which the Federal Government will collect the tax.

Legislation amending The Corporations Act will be introduced to codify the Common Law with respect to the power of corporations to grant mortgages on property, and also to provide reciprocal legislation to make it possible for a corporation, incorporated under another jurisdiction in Canada, to amalgamate with an Ontario corporation. It is proposed to amend The Corporations Information Act to provide the public with more up-to-date information with respect to changes in the affairs of corporations as they occur.

Plans will be presented to establish a committee of the Legislature to deal with the matter of redistribution. It is the intention of my Government, through this procedure, to provide our people with complete and effective representation, based on the changes in our population pattern of the last few years.

The legislative and financial program that will be placed before you this Session is designed to promote expansion and development and to improve the scope and efficiency of the Province's social, welfare and economic services. It embraces all the departments and agencies of the Government. It has been formulated with regard to both the needs of our Province and its financial capacity to support the program.

I am confident that the Honourable Members will give their conscientious attention to the consideration of this program.

May Divine Providence guide you in your deliberations.

His Honour was then pleased to retire.

Mr. Macaulay moved that the Bill be now read a second time, and, after some time,

The motion having been put was declared to be carried and the Bill was accordingly read the second time and referred to the Committee of the Whole House.

The Order of the Day for resuming the Adjourned Debate on the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The Debate was resumed, and, after some time,

Mr. Wintermeyer moved, seconded by Mr. Oliver,

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

“But this House regrets,

1. That this government has failed deplorably to recognize the peril of the inroads of organized crime into the life of Ontario, and has failed to protect the citizens of this province from the activities of the criminal and the anti-social.
2. That the government's bad management of the province's finances resulted in the imposition of a sales tax and that this tax, ill-conceived and badly-timed, did produce a maximum of inconvenience to the taxpayer and a maximum of irritation for the retailer, when the plan calling for an exemption of \$25 would have been far more effective.
3. That, as a result of the wasteful extravagance, unplanned spending and inefficiency of this government, notwithstanding the imposition of a sales tax, the public debt of this province has reached unparalleled heights, and has thereby placed an onerous mortgage on the future citizens of this province.
4. That the government, which has a responsibility to do everything in its power to provide an opportunity for every citizen to work, has failed to discharge this responsibility, with the result that gross unemployment debilitates the morale of the people of this province and attacks the stability of the economy, the community, and the family.
5. That the government has failed to provide leadership in the solution of municipal financial problems by failing to institute a financial reform that would have as its key feature reduction of the property tax for education and assumption of a greater share of the total cost of education by the provincial government.
6. That, in spite of the fact agriculture is still the backbone of the economy of this province, the economic position of the farmer has deteriorated to a point where his net income is the lowest in history. This government has failed to provide assurance to our sorely pressed farm community that government efforts will be directed towards preservation of the family farm as an efficient economic unit and that farmers, working individually and co-operatively with government help, will remain in control of the production and prime marketing of agricultural products.
7. That the lack of government leadership in the field of labour-management relations has brought its legislation into disrepute and thereby caused confusion and chaos in a vital area of our society and economy where clarity and order are imperative for the public good.
8. That the government's rigid policies towards the natural resource and manufacturing industries have failed to recognize the vital role it can play in assisting these industries to be competitive particularly by making available its special services for industrial expansion.

9. That the government has failed to initiate reform in Ontario's liquor laws, which under its administration have become the most widely disregarded and most thoroughly abused statutes in our province, and thereby have promoted a disrespect for law among our people.
10. That this government has failed to recognize that it has an obligation, by virtue of its jurisdiction over Northern Ontario, to encourage economic development and habitation in the north.
11. That the government has failed its responsibility as the parent of the Metropolitan government of Toronto to improve the structure of that government and thereby provide for the persons in the Metropolitan area equity in assessment and taxation, greater balance in representation and leadership in the Metropolitan council that is responsible to the electorate.
12. That the government has failed to indicate advances in policies and programs in the fields of health and welfare."

And the Debate continued, and after some time it was,

On motion by Mr. MacDonald,

Ordered, That the Debate be adjourned.

The House then adjourned at 6.05 p.m.

EIGHTH DAY

FRIDAY, DECEMBER 1st, 1961

PRAYERS

10.30 O'CLOCK A.M.

Bill 36, An Act to amend The Power Commission Act. *Mr. Macaulay*.

Before the Orders of the Day the Honourable Mr. Cass, Minister of Municipal Affairs, presented "A Report on the Metropolitan Toronto System of Government", prepared for the Special Committee of the Metropolitan Council on Metropolitan Affairs by the Ontario Department of Economics. (*Sessional Paper No. 61.*)

The following Bills were read the second time and referred to the Committee of the Whole House:—

Bill 1, An Act to confirm the Revised Statutes of Ontario, 1960.

Bill 12, An Act to amend The Fish Inspection Act.

Bill 26, An Act to confirm the Revised Regulations of Ontario, 1960.

The following Bills were read the second time and referred to the Committee on Legal Bills:—

Bill 14, An Act to amend The Bailiffs Act, 1960-61.

Bill 15, An Act to amend The Coroners Act.

Bill 16, An Act to amend The Crown Attorneys Act.

Bill 20, An Act to amend The Jurors Act.

Bill 23, An Act to amend The Mechanics' Lien Act.

Bill 27, An Act to amend The Summary Convictions Act.

The following Bills were read the second time and referred to the Committee on Health and Welfare:—

Bill 30, An Act to amend The Sanatoria for Consumptives Act.

Bill 31, An Act to amend The Air Pollution Control Act.

The House resolved itself into a Committee to consider certain Bills and, after some time spent therein, Mr. Speaker resumed the Chair, and Mr. Brown reported,

That the Committee had directed him to report the following Bills without amendment:—

Bill 5, An Act to amalgamate The Department of Economics and Federal and Provincial Relations and The Department of Commerce and Development.

Bill 6, An Act to amend The Ontario Parks Integration Board Act.

Bill 7, An Act to amend The Conservation Authorities Act.

Bill 8, An Act to amend The Parks Assistance Act.

Bill 9, An Act to amend The Provincial Parks Act.

Bill 10, An Act to amend The Forest Fires Prevention Act.

Bill 11, An Act to amend The Forestry Act.

Ordered, That the Report be now received and adopted and that the Bills reported be read the third time on Monday next.

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The Debate was resumed and, after some time,

Mr. MacDonald moved, seconded by Mr. Gisborn,

That the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended:—

(a) By striking out clauses 1 and 2 thereof and substituting the following:

1. That the government has refused to appoint a Commission to conduct a full, untrammelled public inquiry into the organized crime in this province in all its ramification, has otherwise failed to take adequate steps to protect the people of the province against this deadly menace, and has indeed, by its negligence and its refusal to face up realistically to the known facts, permitted organized crime to extend its foothold in the province.
2. That the government has not seen fit to eliminate the retail sales tax and to rely instead on more equitable and progressive methods of raising money, such as corporation and income taxes, revenues from natural resources and a weight-distance tax.

(b) By adding thereto the following:

“And this House further regrets:

1. That the government has failed to disclose any genuine awareness of the imperative need for comprehensive social and economic planning to provide continuous economic growth, full employment and balanced development of all sections of the province.
2. That the government has failed to act decisively and with a due sense of urgency to remedy the gross neglect of adequate safety precautions in important sections of Ontario industry, particularly the construction industry, and has thereby permitted the safety and even the lives of countless workmen to remain jeopardy.

3. That the government has announced no plans to encourage farmers' economic organizations but on the contrary is continuing to hamstring such organizations with restrictive legislation, thereby undermining the position of the independent farmer and the family farm.
4. That the government has not seen fit to proceed with a program of health insurance, covering medical and other related services as well as hospital services.
5. That the government has failed to develop a co-ordinated welfare program designed to help all those in need regardless of category or residential qualifications, and, in particular, has failed to establish welfare allowances on a budgetary basis in line with the Ontario Welfare Council's suggested minimum income and to negotiate an agreement with Ottawa for a cost-sharing arrangement to replace the present multiplicity of specific grants.
6. That the government has not announced any intention to proceed with a Bill of Rights for this province."

The Debate continued, and after some time it was,

On motion by Mr. White,

Ordered, That the Debate be adjourned.

The House then adjourned at 12.50 p.m.

This is to certify that, in view of a Writ of Election dated the Twenty-first day of November, 1961, issued by the Honourable Lieutenant Governor of the Province of Ontario, and addressed to Joseph J. O'Flaherty, Esquire, Returning Officer for the Electoral District of Kenora, for the election of a Member to

represent the said Electoral District of Kenora in the Legislative Assembly of this Province, in the room of Albert Wren, Esquire, who, since his election as representative of the said Electoral District of Kenora, hath departed this life, Robert W. Gibson, Esquire, has been returned as duly elected as appears by the Return of the said Writ of Election, dated the Twenty-fifth day of January, 1962, which is now lodged of record in my office.

Toronto, February 20th, 1962.

RODERICK LEWIS,
Chief Election Officer.

Robert W. Gibson, Esquire, Member for the Electoral District of Kenora, having taken the Oaths and subscribed the Roll, took his seat.

Mr. Speaker informed the House that the Clerk had received from the Commissioners of Estate Bills their report in the following case:—

Bill Pr10, An Act respecting Metropolitan United Church of Toronto.

THE SUPREME COURT OF ONTARIO (Crest) Osgoode Hall, Toronto 1,
20th December, 1961.

THE HONOURABLE THE CHIEF JUSTICE OF ONTARIO
THE HONOURABLE MR. JUSTICE SCHATZ

Roderick Lewis, Esq., Q.C.,
Clerk of the Legislative Assembly,
Parliament Buildings,
Toronto, Ontario.

Re : Bill No. Pr10, 1961-62, An Act respecting Metropolitan
United Church of Toronto.

Dear Sir :

The undersigned, as Commissioners of Estate Bills as provided by The Legislative Assembly Act, R.S.O. 1960, Chap. 208, Sec. 57, having had the said Bill referred to us as such Commissioners, now beg to report thereon.

We have heard representations from Mr. J. B. Allen, Q.C., on behalf of the Petitioner. He informed us that National Trust Company Limited, executor of the Estate of the late Lillian Frances Massey Treble, by letter have stated it considers the Bill to be reasonable and does not oppose this petition.

It appears from the petition filed herewith and from the information disclosed on the hearing before us that the Bill is reasonable.

We are of the opinion that the provisions of the said Bill are proper for carrying its purposes into effect and that it is reasonable that such Bill be passed into law.

The Bill duly signed by the Commissioners and a copy of the petition for the same are accordingly returned herewith.

Yours sincerely,
(Signed) DANA PORTER, C.J.O.
S. N. SCHATZ, J.

Ordered, That the Bill, together with the report of the Commissioners of Estate Bills thereon, be referred to the Standing Committee on Private Bills.

The following Petitions were brought up, laid on the Table, read and received:—

By Mr. Parry, the Petition of The Corporation of Christ Church, Anglican Church of Canada, Amherstburg, praying that an Act may pass varying the terms of a trust created by the Will of the late Loftus Cuddy.

By Mr. Simonett, the Petition of the Corporation of the United Church of Canada praying that an Act may pass authorizing the Corporation and emanations thereof to invest in such securities as are authorized for Canadian Insurance Companies.

By Mr. Noden, the Petition of the Corporation of the Town of Rainy River praying that an Act may pass exempting the Baudette and Rainy River Municipal Bridge from all municipal taxation.

By Mr. Belisle, the Petition of the Corporation of Laurentian University of Sudbury praying that an Act may pass enlarging the Senate thereof; and for related purposes.

By Mr. Edwards (Wentworth), the Petition of the Corporation of the City of Hamilton praying that an Act may pass vesting in the Corporation all assets, etc. of the Board of Park Management of the said City; and for related purposes.

By Mr. Reaume, the Petition of Riverview Health Association praying that an Act may pass providing for the distribution of its assets in the event of dissolution; and for related purposes; also, the Petition of the Corporation of The Board of Education for the City of Windsor and The Windsor Suburban District High School Board validating an agreement whereby the Suburban District Board will erect and pay for additions to a secondary school in the City of Windsor and be guaranteed certain accommodation in such school.

Mr. Wintermeyer sought to move the adjournment of the House to discuss a matter of urgent public importance relating to a speech of the Attorney General outside the House.

Mr. Speaker ruled the motion out of order, as not being such a matter of urgent importance as is contemplated by the rule.

On appeal the Speaker's ruling was sustained on the following division:—

PRAYERS

2.00 O'CLOCK P.M.

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The Debate was resumed and, after some time, the amendment to the amendment, as follows:—

That the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended:—

(a) By striking out clauses 1 and 2 thereof and substituting the following:

1. That the government has refused to appoint a Commission to conduct a full, untrammelled public inquiry into the organized crime in this province in all its ramifications, has otherwise failed to take adequate steps to protect the people of the province against this deadly menace, and has indeed, by its negligence and its refusal to face up realistically to the known facts, permitted organized crime to extend its foothold in the province.
2. That the government has not seen fit to eliminate the retail sales tax and to rely instead on more equitable and progressive methods of raising money, such as corporation and income taxes, revenues from natural resources and a weight-distance tax.

(b) By adding thereto the following:

“And this House further regrets:

1. That the government has failed to disclose any genuine awareness of the imperative need for comprehensive social and economic planning to provide continuous economic growth, full employment and balanced development of all sections of the province.
2. That the government has failed to act decisively and with a due sense of urgency to remedy the gross neglect of adequate safety precautions in important sections of Ontario industry, particularly the construction industry, and has thereby permitted the safety and even the lives of countless workmen to remain in jeopardy.
3. That the government has announced no plans to encourage farmers' economic organizations but on the contrary is continuing to hamstring such organizations with restrictive legislation, thereby undermining the position of the independent farmer and the family farm.
4. That the government has not seen fit to proceed with a program of health insurance, covering medical and other related services as well as hospital services.
5. That the government has failed to develop a co-ordinated welfare program designed to help all those in need regardless of category or residential qualifications, and, in particular, has failed to establish welfare allowances on a budgetary basis in line with the Ontario Welfare Council's suggested minimum income and to negotiate an agreement with Ottawa for a cost-sharing arrangement to replace the present multiplicity of specific grants.

6. That the government has not announced any intention to proceed with a Bill of Rights for this province."

having been put, was lost on the following Division:—

The Amendment to the Motion as follows:—

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

"But this House regrets,

1. That this government has failed deplorably to recognize the peril of the inroads of organized crime into the life of Ontario, and has failed to protect the citizens of this province from the activities of the criminal and the anti-social.

2. That the government's bad management of the province's finances resulted in the imposition of a sales tax and that this tax, ill-conceived and badly-timed, did produce a maximum of inconvenience to the taxpayer and a maximum of irritation for the retailer, when the plan calling for an exemption of \$25 would have been more effective.
3. That, as a result of the wasteful extravagance, unplanned spending and inefficiency of this government, notwithstanding the imposition of a sales tax, the public debt of this province has reached unparalleled heights, and has thereby placed an onerous mortgage on the future citizens of this province.
4. That the government, which has a responsibility to do everything in its power to provide an opportunity for every citizen to work, has failed to discharge this responsibility, with the result that gross unemployment debilitates the morale of the people of this province and attacks the stability of the economy, the community, and the family.
5. That the government has failed to provide leadership in the solution of municipal financial problems by failing to institute a financial reform that would have as its key feature reduction of the property tax for education and assumption of a greater share of the total cost of education by the provincial government.
6. That, in spite of the fact agriculture is still the backbone of the economy of this province, the economic position of the farmer has deteriorated to a point where his net income is the lowest in history. This government has failed to provide assurance to our solely pressed farm community that government efforts will be directed towards preservation of the family farm as an efficient economic unit and that farmers, working individually and co-operatively with government help, will remain in control of the production and prime marketing of agricultural products.
7. That the lack of government leadership in the field of labour-management relations has brought its legislation into disrepute and thereby caused confusion and chaos in a vital area of our society and economy where clarity and order are imperative for the public good.
8. That the government's rigid policies towards the natural resource and manufacturing industries have failed to recognize the vital role it can play in assisting these industries to be competitive particularly by making available its special services for industrial expansion.
9. That the government has failed to initiate reform in Ontario's liquor laws, which under its administration have become the most widely disregarded and most thoroughly abused statutes in our province, and thereby have promoted a disrespect for law among our people.
10. That this government has failed to recognize that it has an obligation, by virtue of its jurisdiction over Northern Ontario, to encourage economic development and habitation in the north.

11. That the government has failed its responsibility as the parent of the Metropolitan government of Toronto to improve the structure of that government and thereby provide for the persons in the Metropolitan area equity in assessment and taxation, greater balance in representation and leadership in the Metropolitan council that is responsible to the electorate.
12. That the government has failed to indicate advances in policies and programs in the fields of health and welfare."

The Order of the Day for resuming the Adjourned Debate on the Motion that the Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means, having been read,

The Debate was resumed and, after some time, Mr. Whicher moved, seconded by Mr. Worton,

That the Motion "that Mr. Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means" be amended by adding thereto the following words:—

This House regrets that the government has failed during its term of office to present an orderly accounting of the finances of the province; and

This House regrets that the government has established no system of priorities in its expenditures and has exerted no control over the haphazard growth of its departments; and

This House regrets that this government has not utilized its budget as an instrument to promote the growth of Ontario's economy; and

This House regrets that the government has failed to implement the Liberal plan of a \$25 exemption in sales tax; and

This House regrets that the government has not undertaken a provincial-municipal conference to restore equity and flexibility to the tax structure; and

This House regrets that the government has failed to exert its influence to secure a thorough review of the Canadian tax structure; and

Therefore, this House rejects the budget as presented and must advise Your Honour that the government does not enjoy the confidence of the people of Ontario.

The debate continued and, after some time,

On motion by Mr. White.

Ordered, That the debate be adjourned.

The House, according to Order, resolved itself into the Committee of Supply.

PRAYERS

10.30 O'CLOCK A.M.

Mr. Speaker informed the House that the Clerk had received from the Commissioners of Estate Bills their report in the following case:—

Bill Pr30, An Act respecting Hamilton Civic Hospitals.

THE SUPREME COURT OF ONTARIO (Crest) Osgoode Hall, Toronto 1.
6th March, 1962.

THE HONOURABLE MR. JUSTICE MACKAY
THE HONOURABLE MR. JUSTICE MCLENNAN

Roderick Lewis, Esq., Q.C.,
Clerk of the Legislative Assembly,
Parliament Buildings,
Toronto, Ontario.

Re : Private Bill Pr30, An Act respecting Hamilton Civic Hospitals.

Sir :

The undersigned, as Commissioners of Estate Bills as provided by The Legislative Assembly Act, R.S.O. 1960, Chap. 208, Sec. 57, having had the said Bill referred to us as such Commissioners, now beg to report thereon.

Pursuant to an Act relating to the City Hospital of Hamilton, Statutes of Ontario, 1898, Chap. 43, the City of Hamilton has heretofore owned and operated three hospitals in the City of Hamilton.

The purpose of the present Bill is to vest in a corporate body to be known as "the Board of Governors of the Hamilton Civic Hospitals", the general management, operation and maintenance of all hospitals now owned or hereafter acquired by the Corporation of the City of Hamilton.

We note that in the Bill as presently framed, that while the ownership of the hospitals is to remain vested in the Corporation of the City of Hamilton and that by Sec. 18 of the proposed Bill they are obligated to provide the Board with working capital and to pay operating deficits, that Sec. 24 provides that the Board and not the City shall be liable for all claims, accounts and demands arising from or relating to the management, operation or maintenance of the hospitals.

It is our view that because under the Act the City and not the Board are the owners of the hospitals, that the Bill should specifically provide that the City should be liable for payment of any judgment obtained against the Board and for the payment of the amount of any settlement made in respect of claims against the Board.

To accomplish this purpose we recommend that Sec. 18 (1) of the proposed Bill be amended by adding thereto the following:

"In determining whether or not an operating deficit has been incurred by the Board within the meaning of this subsection the amount of the settlement of any claim, account or demand made upon the Board and the amount of any final judgment obtained against the Board, to the extent that such settlement or judgment is not recoverable from an insurer of the Board, shall be paid by the Board and charged against the operating revenues of the Board."

so that the Section shall read:

"18.—(1) The City shall, in each year, levy on the whole of the assessment for property and business assessment, according to the last revised assessment roll, a sum sufficient to provide for the operating deficit, if any, incurred by the Board during the preceding fiscal year according to the financial statement reported upon by the auditors of the City and shall pay over to the Board the amount of any such operating deficit on or before the first day of May of the same year. In determining whether or not an operating deficit has been incurred by the Board within the meaning of this subsection the amount of the settlement of any claim, account or demand made upon the Board and the amount of any final judgment obtained against the Board, to the extent that such settlement or judgment is not recoverable from an insurer of the Board, shall be paid by the Board and charged against the operating revenues of the Board."

We are of the opinion that the provisions of the said Bill as amended, are proper for carrying its purpose into effect and that it is reasonable that such Bill should be passed into law.

We have the honour to be, Sir, your obedient servants.

(Signed) F. G. MACKAY,
J. L. MCLENNAN,
Commissioners for Estate Bills.

Ordered, That the Bill, together with the report of the Commissioners of Estate Bills thereon, be referred to the Standing Committee on Private Bills.

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker informed the House that the Clerk had received from the Commissioners of Estate Bills their report in the following case:—

Bill Pr32, An Act respecting Christ Church, Amherstburg.

THE SUPREME COURT OF ONTARIO

(Crest)

Osgoode Hall, Toronto 1.
26th March, 1962.THE HONOURABLE MR. JUSTICE MACKAY,
THE HONOURABLE MR. JUSTICE MCLENNAN.Roderick Lewis, Esq., Q.C.,
Clerk of the Legislative Assembly,
Parliament Buildings,
Toronto, Ontario.

Re : Private Bill Pr32, An Act respecting Christ Church, Amherstburg.

Sir :

The undersigned, as Commissioners of Estate Bills as provided by The Legislative Assembly Act, R.S.O. 1960, Chap. 208, Sec. 57, having had the said Bill referred to us as such Commissioners, now beg to report thereon.

Pursuant to the Will of one Loftus Cuddy, who died in the year 1916, the sum of \$5,000.00 was bequeathed to Christ Church (Episcopal), Amherstburg, Ontario, to be held by such Church and the income derived therefrom "to be used for the benefit of the poor of the Parish connected with the said Church".

Since the death of the testator income has accumulated so that such accumulation is now almost equal to the original fund. Such accumulation has resulted from Dominion and Provincial legislation as Old Age Pensions, Unemployment Insurance, Mothers' and Widows' Allowances, Workmen's Compensation, Veterans' Allowances and Pensions, and General Welfare Relief by Dominion, Provincial and Municipal Governments, all of which were designed to meet the need provided for in the testator's Will.

The purpose of the present Bill is to widen the terms of the trust to permit the use of the accumulated income and future income for charitable or worthy purposes of or within the Parish connected with such Church.

We are of the opinion that the provisions of the said Bill are proper for carrying its purpose into effect and that it is reasonable that such Bill should be passed into law.

We have the honour to be, Sir, your obedient servants.

(Signed) F. G. MACKAY,
J. L. MCLENNAN,
Commissioners for Estate Bills.

Ordered, That the Bill, together with the report of the Commissioners of Estate Bills thereon, be referred to the Standing Committee on Private Bills.

Bill 173, An Act to amend The Embalmers and Funeral Directors Act.

Bill 176, An Act to amend The Liquor Licence Act.

On motion by Mr. Robarts, seconded by Mr. Macaulay,

Ordered, That a Commission be appointed to inquire into the distribution of electoral districts in the Province and to recommend to this House the number, area and boundaries of such electoral districts, to be defined in the schedule forming a part of a new Representation Act; and further that the Commission, in making its inquiry and investigation, shall give consideration to:

- (1) the concentration of population in various areas of the Province as indicated by the 1961 Federal census;
- (2) the varying conditions and requirements regarding representation as between rural and urban electoral districts;
- (3) the existing and traditional boundaries of the electoral districts of the Province;
- (4) the community or diversity of interests of the population of such districts;
- (5) the means of communication between various parts of such districts, together with the physical features thereof;
- (6) all other related and relative factors, and,

with particular reference to rural electoral districts shall, as far as practicable, include the whole of any one municipality in one electoral district.

The said Commission to be composed as follows:

The Honourable Mr. Justice Edward Anderson Richardson, *Chairman*;
Mr. Kenneth Grant Crawford; and
Mr. Roderick Gilmour Lewis, Q.C.

The costs of the said Commission and the manner of payment thereof to be fixed by the Lieutenant Governor-in-Council;

And that the said Commission shall have full power and authority to call for persons, papers and things and to examine witnesses under oath, and the Assembly doth command and compel attendance before the Commission of such persons and the production of such papers and things as it may deem necessary for any of its proceedings and deliberations, for which purpose the Honourable the Speaker may issue his warrant or warrants.

On motion by Mr. Robarts, seconded by Mr. Warrender,

Ordered, That a Select Committee of the House be appointed to examine, investigate, inquire into, study and make recommendations concerning:

- (1) *The Apprenticeship Act* and the regulations made thereunder;
- (2) All aspects of the apprenticeship system as presently established in Ontario and more particularly as it pertains to the training of persons in trades or crafts relating to the construction industry and in industrial undertakings;
- (3) The training of workers and more particularly retraining and upgrading of skills; and
- (4) The roles of government, industry and labour in this field.

And that such Select Committee shall consist of eleven members and shall have authority to sit during the interval between sessions and have full power and authority to call for persons, papers and things and to examine witnesses under oath, and the Assembly doth command and compel attendance before the Committee of such persons and the production of such papers and things as it may deem necessary for any of its proceedings and deliberations, for which purpose the Honourable the Speaker may issue his warrant or warrants.

And that the membership of such Select Committee shall consist of the following:

<i>Mr. Simonett, Chairman</i>	
Messrs. Boyer	Messrs. Harris
Brunelle	Morin
Carruthers	Morningstar
Chapple	Thompson
Gisborn	White

On motion by Mr. Macaulay, seconded by Mr. Warrender,

Ordered, That Elmer Walter Sopha, Member of the Assembly for the Electoral District of Sudbury, may bargain for and purchase from Her Majesty the Queen in the right of the Province of Ontario, as represented by the Minister of Lands and Forests, the lands, at a price of \$4.00 per acre, described as being:

The south half of Lot 9, Concession 5, in the Township of Burwash,
District of Sudbury, having an area of 160 acres more or less,

and his seat in the Assembly shall not thereby be vacated nor shall he thereby be rendered ineligible as a Member of or to sit or vote in the Assembly.

On motion by Mr. Roberts, seconded by Mr. Robarts,

Ordered, That William Atcheson Stewart, Member of the Assembly for the Electoral District of Middlesex North, is entitled to the payment of \$145.00 out of the public money of Ontario without thereby becoming ineligible as a Member of or to sit or vote in the Assembly, the said payment being compensation in full for a portion of Lot 12, Concession 16, in the Township of London, in the County of Middlesex, being a strip of land 17 feet in perpendicular width, and other lands, having an area of 0.770 acre, more or less, that have been expropriated by the Minister of Highways under the authority of *The Highway Improvement Act* for the purpose, inter alia, of widening the right of way of King's Highway No. 7.

The Order of the Day for resuming the adjourned debate on the amendment to the motion that Mr. Speaker do now leave the Chair and that the House resolve itself into the Committee on Ways and Means, having been read,

The Debate was resumed and, after some time the amendment,

That the motion "that Mr. Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means" be amended by adding thereto the following words:—

This House regrets that the government has failed during its term of office to present an orderly accounting of the finances of the province; and

This House regrets that the government has established no system of priorities in its expenditures and has exerted no control over the haphazard growth of its departments; and

This House regrets that this government has not utilized its budget as an instrument to promote the growth of Ontario's economy; and

This House regrets that the government has failed to implement the Liberal plan of a \$25 exemption in sales tax; and

This House regrets that the government has not undertaken a provincial-municipal conference to restore equity and flexibility to the tax structure; and

This House regrets that the government has failed to exert its influence to secure a thorough review of the Canadian tax structure; and

Therefore, this House rejects the budget as presented and must advise Your Honour that the government does not enjoy the confidence of the people of Ontario.

MAY IT PLEASE YOUR HONOUR:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1962, and the 31st day of March, 1963".

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

When I have finished these remarks, the 3rd Session of the 26th Parliament of Ontario will have become history and will no doubt be studied at great length by the chroniclers of the future. The work you have done at this Session will thus endure as long as the records of our province. For the second year in a row, the Session began in November and, after an adjournment over the Christmas holidays, continued in the new year. This arrangement has enabled you to undertake a comprehensive review of the various matters with which the Government is concerned, including legislation and the departmental estimates, but these long months of the Session have meant an increased burden of work on you. For your conscientious labours, I express my thanks to the Honourable Members.

The matters that you have considered, and the resulting legislation and provision of funds, have, as in the past sessions, enhanced the welfare and security of our human resources—the great people of our great province—and the development of our material resources, and reflect the rapid growth of our province and the needs and difficulties that are associated with industrial and resource expansion. No additional taxes were needed this year to carry out the government's program; rather, a few reductions in several areas have been possible.

The part of the government's program that was devoted to the betterment of our people—the promotion of their welfare and the furthering of their opportunities by way of education, health, security, municipal, human rights, labour and reform measures—has been a most comprehensive one, anchored on the achievements of the past and based on the needs of the present and the requirements of the future.

The prime importance that the province places on education has once again been stressed in your deliberations. The great increase in the number of students in our elementary and secondary schools has once more required the voting of large sums of money to assist our municipalities in meeting the costs resulting from this influx. For the current fiscal year, you have voted for the Department of Education the huge sum of \$330 million, an increase of \$60 million over the expenditures of the fiscal year just finished. Included in this total are the usual large amounts for general legislative grants to the School Boards throughout the province. In addition, provision was made, by the appropriation of \$16 million, for the second stage in the government's three-year grants program to reduce the burden of local educational levies on the home and farm owner. To carry forward the re-organization of the secondary school system, you have included funds for the extensive building program

which has been set in motion to enlarge our various technical training facilities. None of this expansion will involve the municipalities in capital costs. The creation of new universities in the province has been carried a step further with the granting of university status to the Lakehead College of Arts, Science and Technology. Large sums have been supplied to carry out the government's program of ensuring equal educational opportunities for all in post-Grade XIII work by means of bursaries, scholarships and loans. By the voting of \$2¼ million for our public libraries, the Honourable Members indicated their interest in the development of this important aspect of our educational system. You have approved plans and provided funds for the expansion of our physical fitness program, to tie in with the federal activities in this field. You have passed amendments to a number of statutes relating to education, to clarify the legislation and improve the working of the administrative set-up. Highlighted have been amendments to The Department of Education Act, to provide for the registration of private schools and for their possible inspection, and to The Schools Administration Act, to authorize the appointment by a school board of a business administrator if desired. You have altered The Public Schools Act to clarify the situation regarding the election of trustees by wards, where this is desired, and to deal with certain features of school administration in territories without municipal organization. The statutes have been changed to set out the requirement that a school trustee must in future be a Canadian citizen. You have amended The Secondary Schools and Boards of Education Act to double the amount that a board, under the Act, may spend from current funds on permanent improvements, and to revise the composition of advisory vocational committees.

A wide variety of health measures have been given your earnest consideration. You have approved funds for additional construction work on our network of mental hospitals. The House has provided for the emergency admission of disordered persons to these hospitals. The provision that the Honourable Members made for establishing the Air Pollution Advisory Committee will lead to a strengthening of control measures to reduce air pollution. Changes have been made in the set-up of the ruling body of nurses so that registered nurses and certified nursing assistants together comprise a College of Nurses, which will be administered by a Council composed of a representative of the Department of Health and members of the nursing profession. You have passed legislation to set up the College of Optometrists and to strengthen The Ophthalmic Dispensers Act. To strengthen the protection given to the public, legislation was passed to control the sale of prearranged funeral contracts.

In addition to the regular amounts voted for its various expenses and for grants to the public hospitals, the large additional sum of \$57½ million has been set aside as a contribution to the Ontario Hospital Services Commission so that hospital insurance rates may be maintained at their present level. This figure also includes funds for the recently inaugurated extension of outpatient services. You have enabled several new types of hospitals to come under the Commission for the purposes of insured services. The members of the Committee on Health were apprized of the steeply rising costs of our hospital insurance program, because of the increase in hospital care being given patients since the adoption of the plan and the rising salaries being paid to hospital staff, and were informed of the further large funds that will be needed for the plan's operation in future years.

Welfare provisions for families and individuals have again been thoroughly studied and the additional \$5 million provided this year to meet these expanding needs indicate the extent of the province's activities in this field. You included in this amount funds to permit an increase in Old Age Assistance to \$65 a month from the rate of \$55 a month which was recently in effect, in accord with the changes introduced by the Federal Government as well as to raise pensions for blind and disabled persons by the same amount. Amendments were made to The Child Welfare Act to improve the conditions of the children covered by this legislation. To facilitate the construction of Homes for the Aged, to strengthen their management and to clarify the rights of their residents, you authorized changes in the relevant statute. To promote the development of social centres for elderly persons, the Honourable Members made provision for aiding them through provincial grants.

The Technical Committee on Portable Pensions met a Committee of the whole House in order to discuss the Portable Pensions Bill, which has been given first reading, with the intention of permitting a full and complete consideration of all aspects of the proposal by the various segments of our population before further moves are made, preferably in co-ordination with the Federal Government.

To help meet the obligations laid on the municipalities as a result of rapid population growth and industrial expansion, the Honourable Members have again approved an increase in municipal grants and this fiscal year, the province's grants to our municipalities and their agencies, including school boards and other local agencies, will total \$425 million, an increase of \$50 million over last year, and nearly $3\frac{1}{2}$ times the amount appropriated for these purposes just ten years ago. Extensive amendments to a large number of municipal Acts have been approved, in order to bring municipal procedures up to date. The Assessment Act has been clarified and modernized, as has The Local Improvement Act. The extensive changes which the House has approved to The Municipal Act have revised and clarified the qualification of tenants as candidates for municipal office, modernized the procedures for nominations and for filling vacancies, made provision for persons prevented from voting on the polling day because of religious reasons, greatly strengthened the provisions dealing with disclosure of interest on the part of a member of a council, widened the permission for setting up boards of control, strengthened the authority of municipalities with regard to industrial sites and given discretion to municipal councils in respect to most store closing hours. You have given the Department of Municipal Affairs authority to set aside a revised assessment roll where it is inequitable. The House has shown its continued strong interest in the Metropolitan Toronto set-up by amending the relevant Act to further the union of local municipalities if they wish to combine, and to provide a further orderly amalgamation by vesting all signal-light traffic controls in the Metropolitan Council. The interest of the Honourable Members in the working conditions of the municipal staff in the province is indicated by the establishment of the Municipal Employees Retirement System, in order to enable the provision of an integrated pension set-up, with provincial assistance, for all municipal employees in Ontario. You have approved changes in The Planning Act to enable tighter control of zoning by-laws in accordance with local conditions. To increase the sums available to the province for the purpose of purchasing municipal debentures under The Tile Drainage Act and to increase the amount that a municipality may lend to home owners under the Act, you have passed amendments to this effect.

Our reform system received the earnest consideration of the Members of the House. You voted funds to put the finishing touches to the Lindsay Training School for Girls and to complete work on the Simcoe School for Boys. Increased funds were provided for the operation of the various reformatories and training schools. By amending The Training Schools Act, you provided for improved supervision after a ward leaves a training school until the wardship ends. The difficult situation in respect of the joint provincial-municipal authority over municipal jail staff was resolved by transferring this personnel to municipal control and by providing a provincial grant amounting to 10 per cent of the cost of operating a municipal jail.

The House has approved an increase in funds to permit the Department of the Provincial Secretary and Citizenship to expand its work of assisting new arrivals in Ontario to find their way in their new environment and of helping them with their language and other problems that may from time to time arise.

Human rights were, as in many years in the recent past, the subject of earnest discussion among the Honourable Members. The Ontario Human Rights Code was passed to combine the various anti-discrimination measures which previously had been set out in separate statutes, and to provide for improved administration of the legislation.

Extremely important contributions to the progress of labour have been made in a number of statutes dealing with the interests and rights of workers. You have carefully considered and passed legislation to provide greater protection for employees in the construction industry. Extensive measures were introduced to provide for greater safety for our workmen. The Labour Safety Council was set up, with the function of advising the Minister of Labour upon any matters involving the safety of the workers of the province. The Construction Safety Act, which replaced The Building Trades Protection Act, is designed to better ensure the safety of workmen during the construction of various structures, and includes provision to permit standards of safety to be set out. The Honourable Members passed amendments to The Elevators and Lifts Act and The Construction Hoists Act to strengthen safety measures under these statutes. The rights of workers, as set out in The Master and Servant Act, were extended. The provisions of The Hours of Work and Vacations with Pay Act were tightened, to afford greater protection to our workers. The very important Report of the Royal Commission on Labour-Management Relations in the Construction Industry in Ontario received the deliberation of the Honourable Members. To meet the requirements of the public interest in the dispute between the Hydro-Electric Power Commission and its union, the House provided for the appointment of an arbitrator to resolve the situation.

A broad new housing program has been given the approval of the House, to encourage the development of more Federal-Provincial rental housing units and to help resolve the housing problems with which we are faced in an era of population expansion. Plans to assist in the rehabilitation of houses in sub-standard areas, and to encourage the construction by private groups of housing for rent and owner-occupancy, for low-income families and the physically handicapped, as well as plans to sponsor improvements in low-cost housing design by means of research and educational grants, have been approved in amendments to The Housing Development Act. In particular, a rent certificate scheme has been initiated on an experimental basis in Metropolitan Toronto—the first such scheme undertaken in North America.

To promote a continuation of the expansion which has been such a marked feature of the post-war years and to further the economic progress of the province so that it can meet the challenging days ahead, the Members of this Legislature approved a comprehensive program of economic action. In approving legislation merging the former Departments of Economics and Commerce and Development into the new Department of Economics and Development, you indicated the need for bringing into a closer union the two government departments which have been active in promoting our industrial and commercial growth. The Ontario Economic Council has been set up to stimulate all phases of economic development and to bring management, labour, agriculture and government into a working partnership in order to effectively promote and co-ordinate our expansion. Committees of the Council have been appointed and studies are already under way on various facets of our economy, including agriculture, tourism, northern development and industrial development. Grants to the Ontario Research Foundation have been increased to provide for special studies to promote the greater productivity of our economy. The Minister of Economics and Development also presented for your approval a program of market expansion both at home and abroad, trade missions, and foreign service expansion, including the establishment of a Trade Office in Europe to service the European Common Market area.

The House has been aware of the difficulties of seasonal unemployment which, because of climatic conditions, is a perennial problem in our economy, and has continued the programs of winter works which the government initiated four years ago as a Provincial-Municipal measure and which is now operated on a Federal-Provincial-Municipal basis. The seasonal employment programs have been expanded and this year over 21,000 people will have been given work in their various phases. The programs not only enable special, major municipal construction and maintenance work to be carried out during the colder months, but also involve, through Federal-Provincial sharing, winter work in our parks and picnic areas. You have made provision for a further \$10 million for the municipal part of the program during the present fiscal year.

As part of the overall program for the continued economic development of the province, you have approved the many steps being taken to further the expansion of our great heartland of Northern Ontario. A committee on Northern Development has been set up to consider the needs and problems of that part of our province. You have voted funds to build a \$7 million extension of the Ontario Northland Transportation communications system and to provide a survey of the operations of that Commission. In addition, you have approved monies for many new highways and public works in the north.

In connection with our energy and fuel sources, the House has passed legislation which, by amalgamating the Hydro-Electric Power systems, permits a more economical operation of our electrical plants in the various parts of the province and ensures, particularly to the residents of our northland, a greater stability of power while maintaining a reasonable rate structure. You have appropriated funds to enable the Department of Energy Resources to continue its survey of the province's energy and fuel resources. In order to permit a clarification of its rate-fixing provisions, you have passed amendments to The Ontario Energy Board Act. You have amended The Energy Act to broaden its coverage and to clarify its provisions generally.

The development of our great natural resources of land, minerals and forests, has been fostered by the measures you have approved and the moneys you have voted.

Agriculture received the usual sustained attention from the Honourable Members. To improve the educational facilities available for our farming population, you legislated to unite the three agricultural colleges at Guelph under one administration and to set up the Agricultural Research Institute to co-ordinate the various research projects which are being carried out by all institutions operating under the Department of Agriculture. The House also provided funds for the construction of additional college buildings. You approved broader coverage under The Co-operative Loans Act, to provide further stimulation for our co-operative farm associations. The Members, by amending The Horticultural Societies Act, eased the requirements for grants to such societies. You strengthened the powers of The Farm Products Marketing Board to provide further protection to the great majority of our farmers who operate the various local marketing plans. The Milk Industry Act amendments which you passed authorized butterfat price differentials for cream and milk.

Further steps to protect the consumers of this province were taken by the Members of the House when they amended The Dead Animal Disposal Act to provide for the effective identification of meat from dead animals and to prohibit the sale of such meat for human consumption.

The extensive amendments that you passed to The Mining Act provide for the better administration of our mineral resources and bring sections of the Act into line with modern mining practices. Funds have been provided for a greater number of geological survey parties in order to increase the knowledge of our potential mineral resources and to provide the groundwork for further mine developments throughout the North.

The House has provided additional funds and has passed legislation to enable the Department of Lands and Forests to expand various aspects of its extensive programs of forest management, fish and wild-life activities and park development, and to continue its research in these fields. You have provided funds for the acquisition of additional provincial parks and the continued development of the existing ones, and amendments to The Public Parks Act were passed to enable a greater development of municipal parks. By passing The Game and Fish Act, 1961-62, you completely revised the former Act, in order to simplify its provisions and to set up modern, up-to-date administrative practices. Your amendment to The Public Lands Act confirms the policy of setting aside as public reserves 25 per cent of the remaining public lands fronting on water. You have provided for more effective agreements for forest fire prevention and control.

In line with the Government's policy of expanding our system of conservation areas for the benefit and use of our people, you have approved various amendments to The Conservation Authorities Act. The large sum of \$4.5 million has been appropriated to enable the work of our conservation authorities throughout the province, in the way of flood control and other activities, to be carried out successfully. Included in this amount were funds to go towards the \$39 million flood control and water conservation program of the Metropolitan Toronto and Region Conservation Authority.

The province's program for the conservation of our water supplies and the abatement of sewage pollution was also intensified by your approval of large sums for the purposes of the Ontario Water Resources Commission. You have amended the relevant Act to strengthen the position of the Commission in its water supply and sewage disposal work.

The tourist industry and its problems have received the consideration of the House. You have voted additional funds for the Department of Travel and Publicity, including sums to continue the system of grants to regional tourist associations.

In your deliberations, the operations of our highways and the problems associated with the ever-increasing number of vehicles that use them have been to the forefront. You have voted nearly \$265 million for the expansion and maintenance of the public routes throughout Ontario, including assistance for municipal roads. As part of this vast sum, there have been set aside funds for further work on our great trans-Provincial Highway, 401, and for construction on Highway 403, the Hamilton By-pass, and on Highway 405, between the new Queenston Bridge and the Homer Skyway. At the same time, work on the Trans-Canada Highway is being continued, and construction is being accelerated on the Fort Frances Causeway and the road to Atikokan. You have provided funds for a number of access roads to open up our resources in the North. An amendment made to The Highway Improvement Act enables the province to increase to 90 per cent its contribution towards the cost of bridges and culverts on streets designated as connecting links between Queen's Highways in most towns and all villages with over 2,500 residents.

You have promoted highway safety by revising The Highway Traffic Act. The House has given long consideration to the workings of the Unsatisfied Judgment Fund and as a result of its deliberations, The Motor Vehicle Accident Claims Act was passed, to set up a new fund with a completely revamped system of payments, including provision for payments out of the new Fund in three ways where damages are caused by uninsured vehicles: where there is a settlement without a judgment, where a judgment has been obtained, and where a judgment has been obtained in hit and run cases. You have amended The Highway Transport Board Act to expedite the work of the Board concerned and to revise the provision for appeal. Your modifications to The Public Commercial Vehicles Act have greatly strengthened the existing controls over such vehicles.

Nor has our highway system been the exclusive form of transportation considered by the House, for Metropolitan Toronto has been assisted in its huge subway construction program through the provision of the first \$10 million, out of an amount which will total \$60 million, for the purpose of buying debentures that the municipality issued for subway purposes. This assistance will result in the completion of this subway several years earlier than would otherwise have been possible.

In the field of law enforcement and related matters coming under the jurisdiction of the Attorney General, you have passed many measures—45 in all—to modernize the working of our entire system of justice. From the standpoint of administration, the most important of these were the nine Bills which

arose from recommendations contained in the report of the Attorney General on the jurisdiction of county and district courts. These statutes will improve the workings of our Court system at all levels and in particular the County and District Courts. Other Acts were approved which ranged in their scope from amendments dealing with Loan and Trust Companies, Mortgage Brokers, Mortgages, Coroners, discrepancies in The Infants Act, Notaries, Private Investigators, The Land Titles Act and amendments to facilitate the enforcement of maintenance orders with the State of Michigan, and an Act to regulate the selling of pre-arranged funeral services and plots. As well as providing funds for the expansion of our provincial police force so that it will be better equipped to deal with crime and traffic problems, you have voted monies to establish at Aylmer a police college to train law officers from the whole province. You have advanced law enforcement greatly by setting up the Ontario Police Commission. A Royal Commission is now studying all aspects of the crime situation throughout Ontario. You have provided further funds to enable the continued expansion of the Emergency Measures Organization.

A comprehensive revision of the sections of The Insurance Act dealing with life insurance has been passed and it is hoped that similar legislation will one day be in effect in all the common law provinces. The provisions enabling the irrevocable designation of a beneficiary, the eliminations of the limits placed on a child's insurance and the widening of the definition of insurable interest, bring the Act into line with modern conditions.

You have amended the province's liquor legislation to bring it into line with conditions existing today. The individual liquor permit has been abolished, as it was found to be no longer serving the purpose for which it was intended. Room service in hotels is to be permitted again, while provision is being made for sales in the tourist areas of our province. Appeals are being provided against certain decisions of the Liquor Licence Board. You have also provided a large increase in funds for the Alcoholism Research Foundation to enable it to expand its educational and research program.

Amendments were considered and passed to The Corporations Information Act to provide for the filing of up-to-date information about directors and changes in authorized capital, as well as to require all corporations to file a power of attorney appointing an Ontario representative. In order to clarify certain of its provisions and to permit an Ontario-incorporated firm to transfer its operations to another jurisdiction, you approved modifications of The Corporations Act.

As regards the province's budget, you have appropriated for all purposes the largest sum in history—nearly \$1.2 billion. Modifications were made to a number of statutes dealing with taxation. You have approved amendments to The Retail Sales Tax Act to simplify the work that has to be carried out by retailers in collecting the tax and to enlarge the scope of the exemptions. A great step forward has resulted from the coming into effect of the new Federal-Provincial taxing arrangements, which permit the province to increase its share of the personal income tax collected to 16 per cent of the Federal tax for 1962 and by one additional percentage point in each of the next four years. You have passed amendments to the provincial Corporations Tax Act and Income Tax Act to bring them into closer relationship with the equivalent Federal

provisions and to remove anomalies. By approving the amendments suggested to The Succession Duty Act, you have permitted an increase of \$5,000 in the amount of insurance that may be paid a widow without the Treasury's consent, and have clarified the sections of the Act dealing with interests in expectancy. Among other tax matters, you have, by changes to The Hospitals Tax Act, increased the exemption from tax on the price of admission tickets for amusements and reduced the tax in certain categories. To bring The Provincial Land Tax Act in line with modern practices and to introduce certain principles used in municipal assessment, you have approved the complete revision of this important Act. Your amendments to The Financial Administration Act will permit a strengthening of the work of the Treasury Board. Your Government continues to be of the opinion that a comprehensive enquiry into the national tax system is required in order to arrange a distribution of tax resources between the Federal Government and the provinces in the light of modern conditions.

The House has considered, approved and voted the first funds for the Government's \$50 million program of establishing in the Queen's Park area a government centre, to which can be repatriated many government offices and workers now scattered throughout the city. The plans developed by the Department of Public Works are striking ones and will enable effective use to be made of the land purchased by the province in this area. Provision has been made for monies to undertake and complete public buildings in many parts of the province.

The Civil Servants of the province, as in past years, have faithfully and effectively discharged their duties, and appreciation is expressed to them for their work in these years when the burden of administration is steadily becoming heavier. The House has amended The Public Service Superannuation Act for purposes of clarification. In addition to the regular Government contribution to the Public Service Superannuation Fund, a special contribution of \$1 million was again made to this Fund, as well as to the Teachers' Superannuation Fund.

Redistribution has received particular attention from the Honourable Members, who have approved the formation of a special independent committee to work out this matter, taking into consideration the existing population distribution and the need for equitable representation for all our people, based on considerations of location, area and density.

The work of the various Select Committees of the House has provided much valuable information for the Members and for the Government. The Committee on Auto Insurance has presented a further report which has been implemented by way of legislation. The Crop Insurance Committee has recently presented its final report. The final report of the Select Committee on Land Expropriation will receive extensive study from various government departments in the ensuing months. The Committee set up to look into the executive and administrative problems of the government has presented a further valuable report which will receive considered attention. The first report of the select committee set up to review the various municipal Acts has been received and it will lay the groundwork for further studies in this field by the Committee itself and by the government. The Committee set up to inquire into drug prices has been continuing its work and a report will be available at the next Session.

The program of economic development which you have approved has greatly stimulated the economy of our province and has meant high levels of employment and income. The indications are that there will be a high level of economic expansion in all of North America during the present year. With the stimulation given to business by your new measures, we can look forward to a further growth of employment opportunities and advances in our living standards.

In proroguing this Session, it is my sincere prayer that Divine Providence will bless you and guide you.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

<p>1. NON-RESIDENT LICENCE:</p> <p>Whereas the export coupons were the only means of control of fish leaving the Province;</p> <p>Whereas, the present regulation does not offer any control whatever in the conservation of fish;</p> <p>Whereas the underlying purpose in issuing such licences is to provide a source of revenue for the Government;</p> <p>Be it resolved that a gradient scale for licences be instituted as recommended:</p> <p>(1) \$3.00 licence or 3 days;</p> <p>(2) \$6.50 licence for 2 weeks, plus 2 weeks on a second trip to Ontario in the same year when stamped by the Department;</p> <p>(3) Summer licence only or winter licence only, \$15.00;</p> <p>(4) Annual licence, \$25.00.</p>	<p>Ontario Federation of Anglers and Hunters Incorporated. (T. S. Hodgkiss)</p>	<p>We found family and short-term licences impractical. The present \$6.50 licence permits free fishing for children under 17 years, and is set to produce a large revenue.</p>
<p>2. LENGTH OF TROUT SEASON:</p> <p>Whereas the present Department of Lands and Forests fish-planting program with respect to Trout is very effective and has given us large Trout populations in many of our lakes;</p> <p>Whereas, under the present open season for Trout, anglers are cropping only a very small percentage;</p>	<p>Ontario Federation of Anglers and Hunters. (T. S. Hodgkiss)</p>	<p>Statements on the ease of replacing trout and of local low-summer yields are correct. Past recommendations by the Department along these lines have failed but a trial is still favoured.</p>

Whereas a large number of Trout are dying of old age in our lakes or are becoming cannibalistic and eating the new plantings of Trout;

Whereas the latest fish-management views indicate that Trout should be adequately cropped from any lake and that in particular large fish should be removed;

Whereas an extension of the Trout season in the spring to allow some ice fishing would give the anglers a chance to take the large fish and also a larger number of fish;

Whereas a similar extension of the season into the fine weather in the fall would allow the anglers to crop more fish;

Be it resolved that the Trout season in the Kemptville, Tweed and Pembroke Forestry Districts extend from approximately March 1st to October 5th next following. The actual opening or closing dates to be the Saturday closest to the above-mentioned dates.

3. PIKE AND PICKEREL CATCH BY COMMERCIAL FISHERMEN:

Whereas in recent years the angling pressure on Great Northern Pike and Pickerel has been increasing in Lac Seul; and

Whereas it is a known fact that one commercial fisherman on Lac Seul shipped in excess of five tons of drawn and round Northern Pike between May and September of 1961, and it could be assumed that this figure may

Northern Ontario Tourist Outfitters' Association. (W. Moore)

There appears to be no evidence that angling catches in Lac Seul are being reduced by commercial fishing. Fish in the lake not utilized by either commercial or angling fishing are only a potential value which can not be calculated as real value until they are utilized. If they are not utilized, the value disappears due to natural mortality. There

<p>total as much as fifty tons or more considering that round Northerns are headless and drawn Northerns weighed both headless and drawn; and</p> <p>Whereas there are at least ten such commercial fishermen on Lac Seul; and</p> <p>Whereas the average price received by commercial fishermen for northern pike is approximately eight to ten cents per pound. (The value received for five tons of Northern Pike would not be in excess of \$1,000); and</p> <p>Whereas it is a generally accepted fact that the average non-resident fisherman spends at least \$15 per pound in the area and Province as a whole for each pound of fish which he returns to his home. (The value of five tons of Northern Pike in this case would be \$150,000);</p> <p>Therefore be it resolved that the Department of Lands and Forests of Ontario make and enforce regulations limiting the take of Northern Pike and Pickerel by commercial fishermen and fisheries on Lac Seul to 5 per cent of the total catch for any one season.</p>	<p>Northern Ontario Tourist Outfitters' Association. (W. Moore)</p>	<p>is no loss of tourist revenue unless the commercial fishery reduces angler catches significantly. The management policy of the Lands and Forests Department requires full utilization of fish and wildlife resources where it is economically feasible, and the Department is careful to regulate commercial catches so that the angler can also fully enjoy the use of this resource and expect good returns in his creel.</p> <p>The commercial fishing on Lac Seul is carried out largely by Indians who are very dependent on the fishery for their livelihood. This should not be taken away from them unless the catch by anglers is suffering through the dual utilization.</p>
<p>4. BASS SEASON:</p> <p>Whereas in Northwestern Ontario the Bass season opens on May 12th and has proven satisfactory; and</p> <p>Whereas in the State of Michigan the Bass season opens on June 15th; and</p>		<p>We have not yet tested our local early openings, which commence this year, and are not yet in a position to judge a proposal for extension.</p>

Whereas in several other areas of Ontario there are now various opening dates for the taking of Bass with the opening date for most of Ontario being July 1st; and

Whereas it is considered that setting an earlier opening date for that part of the province which now has an opening date of July 1st, as long as this would not be detrimental to the Bass population, would be a benefit to Ontario sportsmen and the tourist industry alike;

Therefore be it resolved that the Department of Lands and Forests be requested to consider changing the Bass season in Northeastern Ontario, including the French and Mattawa Rivers and Lake Nipissing, to an earlier date, at the discretion of the Department.

5. COMMERCIAL FISHING DURING THE SPAWNING

SEASON IN THE PARRY SOUND FOREST AREA:

Whereas scarcity of pickerel has reached an alarming state in this area and it is considered and unanimous opinion of members of this Association that a great deal of harm is being done by the netting of pickerel by commercial fishing during the spawning season;

Therefore be it resolved that we again petition the Department of Lands and Forests to take the necessary steps in instituting a closed season to both commercial and angling in the Georgian Bay from April 15th to May 15th.

Northern Ontario
Tourist Outfitters'
Association.
(W. Moore)

Closed seasons for fishing in the large open bodies of water of the Great Lakes do not seem to have been beneficial to the populations they were designed to improve.

Commercial fishermen in Georgian Bay are not permitted to fish within a line drawn along the outside of the Islands and shoals of the eastern shore of Georgian Bay (Ontario Fishery Regulations 68 (d)). The concentration of spawning pickerel in the rivers is therefore not subjected to commercial fishing pressure when the fish is most vulnerable.

6. PRESENT COMMERCIAL FISHING BOUNDARIES FRONT-
ING ISLANDS IN SHAWANAGA, HARRISON, AND
WALLBRIDGE TOWNSHIPS:

Whereas the existing line permits commercial fishing in very shallow water near shore where angling is done and in water predominantly inhabited by Black Bass, with a consequence that large numbers of this game fish are being netted;

Therefore be it resolved that it be made a condition of commercial fishing licences in the Pointe au Baril and Bayfield area between April 15th to September 15th that the commercial fishing be prohibited east of the line from Groundhog Island to Pointe au Baril bell buoy to Hang Dog Point or Head Island.

7. SPECKLED TROUT SEASON IN SAULT STE. MARIE AND
WHITE RIVER DISTRICTS:

Whereas the present season does not interfere with the spawning; and

A study of the populations of fish in this area is being planned to provide more information on which to base management practices.

Although there have been no reports involving the catching of Black Bass in commercial fishing gear and although commercial fishermen would usually move their nets rather than run the risk of catching Black Bass, this matter will be investigated carefully. The definition of the mentioned line is under study. Confusion about the line may have arisen because of doubt as to the location of one or more Points. For example, Hang Dog Point is apparently marked differently on three different sets of maps. It would not be desirable to establish the line so that the commercial nets could not be set in some shoals, because some of these locations are the traditional good whitefish fishing grounds. The inshore game fish shoals and fishing areas are not accessible to the commercial fishing nets because of the above-mentioned line.

- Whereas extension of season would attract more sportsmen to the districts affected prior to the hunting season;
- Therefore be it resolved that the open season on speckled trout in Sault Ste. Marie and White River Districts be extended to September 30th rather than the existing September 15th season.
8. LAND USE PERMITS:
Whereas land use permits are necessary for moose hunting outposts; and
- Whereas the average successful moose hunter will go back to the same area year after year, and will want to be under the same management and the same guide if possible, etc.;
- Therefore be it resolved that the Department of Lands and Forests be requested to give the operator of a previous land use permit the preference of renewing his last year's permit, and also no permit holders be allowed any closer than 4 miles apart.
9. AIRCRAFT FLYING IN TENT CAMPS:
Whereas such campers are leaving the camp sites in a disgraceful condition with garbage and tin cans, broken bottles, etc., littered around the sites; and
- Whereas such camp sites are without refrigeration and the fish spoil and in many instances large quantities of good fish have been used as bear bait;

<p>10. PLANNED DEVELOPMENT OF TOURIST RECREATIONAL AREAS:</p> <p>Whereas many of the more popular recreational areas, particularly in Northern and Northwestern Ontario, are fast becoming greatly overcrowded; and</p> <p>Whereas the main attractions in these northern areas are fishing, hunting, and a quiet restful vacation in the great outdoors which is desired by a tremendous number of persons; and</p> <p>Whereas this overcrowding is creating excessive pressure on the natural resources of these areas, which, once lost, can rarely be recovered for recreational purposes; and</p> <p>Whereas this overcrowding has created a tremendous increase in the number of small powered pleasure boats on our waterways which in turn has created a water hazard for the personal safety of persons who frequent these waters; and</p> <p>Whereas this situation is causing grave concern to Ontario Sportsmen, private summer cottage owners, the travelling public, and tourist establishment operators who foresee the destruction of the recreational features</p>		

of these areas unless some form of control is initiated at government level; and

Whereas there are more than enough forest areas and waterways in Ontario to meet the public demands;

Therefore be it resolved that the Department of Lands and Forests be requested to open up additional recreation areas in which Crown Lands will be available for fishing, hunting, and the building of private summer cottages and tourist establishments, so that these activities can be spread over a wider area; and

Further that the Department should set the maximum number of summer cottages to be established in any given area, and continue the policy of zoning as now in effect through district recreational zoning committees.

Whereas for years we have been endeavouring to get this said Robert Saunders Power Dam as our water boundary for our fishing seasons;

Therefore be it resolved that the Department definitely and clearly spell out this division of waters for our seasons.

Be it further resolved for simplicity and clarification the said Saunders Dam be the western boundary of Lake St. Francis and the eastern boundary of Lake St. Lawrence.

16. MUSKIE SEASONS IN LAKE ST. FRANCIS:

We cannot write off all Quebec experience and proposals in a co-operative effort. If experience shows interference, we shall call for a joint conference.

Whereas, after having inquired of the said Department about reasons for this ridiculous change of dates, we were informed that it was for reasons of 'Uniformity and Enforcement' that such changes were made;

Whereas our Council is more concerned with the survival of the species rather than the appeasement by our government of other provincial or state governments;

RESOLUTION

Whereas we feel that if this early opening of May 15th is left in effect for any time it will mean the needless slaughter and destruction, and even near-extinction, of the finest game fish species in our province;

Therefore be it resolved that this season be changed to read July 1st to October 15th as has been the case for many years.

17. SHORT-PERIOD FISHING LICENCES FOR TOURISTS:

Whereas the geographical location of our fishing waters borders the Province of Quebec and New York State, making it a hardship for any tourist wanting to fish in our area, because he needs three fishing licences;

Whereas the increased attraction of the Robert Saunders Power Dam and the Upper Canada Village brings a great influx of tourists to our district;

Therefore be it resolved our Council recommend this committee on fish and wildlife to consider this recommendation of having a \$3.00 family licence for tourists fishing for 7 days or under in our area waters.

Therefore be it resolved our Conservation Council ask for one Pickerel Season in our area waters: Lake St. Francis, Lake St. Lawrence.

Be it further resolved that this season open on the closest Sunday to May 15th each year and end on the 30th of November each year.

19. OUR CARP PROBLEM IN LAKE ST. FRANCIS AND LAKE ST. LAWRENCE:

Whereas in recent years we have stressed to the Department of Lands and Forests the increased population of Carp in Lake St. Francis and Lake St. Lawrence;

Whereas our Council and all its member clubs feel that this problem is getting progressively worse;

Whereas in the interest of our game fish and our wild ducks spawning-and-feeding bays;

Therefore be it resolved that the Department take some *immediate action* to help curtail the steady increase in numbers of these Carp in the above-named waters.

Conservation Council

(A. M. Lebano)

The response of carp to the new impoundment was spectacular. Any reasonable project for control will be followed up.

Commercial fishing for carp has frequently proven more effective in carp removal than to have removal projects, and at the same time it assists in providing livelihood for a fisherman. Commercial fishing for carp on Lake St. Lawrence was introduced experimentally in 1961.

(A. M. Lebano)</p>	<p>The revised Act will, in respect of penalties, call for more reliance on courts.</p>
<p>PREFACE:</p> <p>The above Association feels that the two most important questions that need the immediate consideration and action of the Department of Lands and Forests and all organized sportsmen of Ontario are: "farmer-sportsman</p>	<p>St. Catharines and Lincoln County Game and Fish Protective Association.</p>	<p>We agree on the first item. The second is certainly important.</p>

relations", and stricter enforcement of The Game and Fisheries Act.

(A. F. Hewitson)

In many sections of Ontario the "farmer-sportsman relationship" is presenting a serious problem. Increased population, shorter working hours, good highways, fast motor vehicles have greatly increased the pressure on both hunting and angling. Carelessness and no consideration for other people's rights, on the part of a few who take to the fields and woods for recreation, are fast curtailing the privileges previously granted to well-behaved sportsmen.

The above Association, after many meetings with township councils in Lincoln County where the back badge is being considered, highly recommend the back badge as a step in the right direction to better "farmer-sportsman relations".

The above Association feels that there is considerable illegal hunting and fishing and that in the thickly populated areas of Southern Ontario the area expected to be patrolled by the Conservation Officer is far too large for efficient enforcement. It would appear that this is also true in other sections of Ontario, when one considers that in the resolutions presented to the Special Committee on Game and Fish, March 14th and 15th, 1961, thirteen resolutions requesting better enforcement of the Act were presented by different organizations.

Increased number of Conservation Officers, heavier penalties and considerable publicity given all court cases should help to improve conditions.

We have recommended use of a back patch.

RESOLUTION

21. BACK BADGE:

To assist in creating better farmer-sportsman relationship, and as an easier means of identification.

Be it resolved that the Department of Lands and Forests issue a back badge with every hunting licence in the Province of Ontario. The said back badge number to correspond with that on the hunting licence. That the size of the badge be adequate for easy identification. The badge to be worn by the hunter at all times whilst hunting.

NOTE: The Department's comments in 1959-1961 state that the back badge would be too expensive to issue and no funds available.

We suggest a badge of suitable paper, approximately 7" x 7" square, with a perforation across two inches from the top. Above this perforation the printing would be similar as on the 1961 licence; below, very large numbers corresponding with those on the licence, the year, and Department of Lands and Forests.

Hunter to carry the upper part in his wallet, the lower part in a plastic case on his back at all times whilst hunting. Plastic case to be supplied by the hunter.

In 1961 several townships in Ontario issued similar back badges, in varied colours, with their township licences. The cost of these back badges was 8 cents to

Whereas the population in southern Ontario has increased tremendously, resulting in an increase in the number of small game hunters, thereby creating great pressure on upland game and game birds;

Be it resolved that the Department of Lands and Forests increase its program on the rearing and releasing of different kinds of upland game birds.

NOTE: For several years the Department's comments are that this is under study. When might we expect some action?

26. COMMERCIAL FISHING:

This Association views with alarm the dwindling population of whitefish, lake trout, blue and yellow pickerel, and feels the need for their protection at spawning time, and

Whereas the Department of Lands and Forests advise the necessity of a closed season on all game fish during spawning seasons;

Be it resolved that a similar regulation be made, prohibiting the commercial fishing on spawning beds during the spawning seasons of whitefish, lake trout, blue and yellow pickerel.

We have maintained our protection of game birds and are concentrating our efforts on getting a better return to the hunter.

(A. F. Hewitson)

The decrease in the southernmost waters of the Great Lakes of the traditionally valuable commercial species of whitefish, herring, blue and yellow pickerel and lake trout has caused serious financial difficulties to the commercial fishery. Along with the decrease of the above-mentioned species, there has been a very rapid increase in other fishes which, at first, were not acceptable to the market. The fishery has rapidly learned to utilize the new species, for example, smelt, and is building up a firm market for these fish. In the Great Lakes generally, it would appear that closure for the spawning season has not been beneficial in supplementing the commercial fish stocks.

RESOLUTION

This has been presented to Elgin County Council for the past three years and has been approved on each occasion.

As you are undoubtedly aware, the counties of Essex and Kent are closed to non-resident hunters of Ontario.

The population of our towns and cities in Elgin County is steadily increasing; also the increase in hunters due to farm lands being posted against all hunters is on the increase; and if some action is not taken soon there will be no private property open to the hunting of small game.

The increase of tobacco and general farming in our area has brought a sizable increase in the clearing of natural cover and bush land being very essential to game of this area.

Our clubs have a large farmer membership and they are complaining of the methods used by American hunters to obtain small game from the County of Elgin. Such methods as making a business of it, and not a sport, in which they methodically drive a section, quarter by quarter, until there is no game left in any particular area they cover.

Be it resolved that:

Whereas the urban areas expand, the rural areas diminish year by year. This factor, plus the con-

COMMENTS

will ask the district to look into the amount of non-resident hunting pressure. On the last survey, in 1959, it was not excessive.

During the hunting season of 1960-61, non-residents of Ontario purchasing township licences in Elgin County were as follows:

Malahide Twp.,	29	issued to U.S. residents.
Bayham Twp.,	Nil.	
Yarmouth Twp.,	Nil.	
Southwold Twp.,	4	issued to U.S. residents.
Dunwich Twp.,	18	" " "
Aldborough Twp.,	69	" " "

TOTAL—Elgin County—120 licences issued to United States residents.

Township licences are only required to hunt pheasants, rabbits and fox and the hunters could hunt either species of game without these licences and we have no record of the number of hunters in this category. However, the greatest attraction of hunters (non-resident or resident) would be to hunt rabbits.

There would be more non-residents of the province hunting in an area such as Essex County where raccoon, duck, goose and pheasant hunting is provided, even though the non-resident small game hunting licence

tinual clearing and cultivating of low lands, is decreasing the natural cover and food supplies so vital for the survival of wildlife;

Whereas the number of licences purchased each year indicates that the number of hunters is increasing rapidly each season, further draining the supply of small game;

Whereas the increased number of hunters proportionately increases the damage being done to farms, which fact is in turn responsible for more and more land being posted against hunters;

Whereas it is felt that some action must be taken to perpetuate small game in Elgin County and to ensure that there will be some areas left for our children to enjoy the sport of small game hunting;

We hereby petition the Department of Lands and Forests to declare Elgin County an area closed to hunters non-resident in Ontario.

is not valid for hunting rabbits in Essex County. However, it is noted that 178 non-residents of the Province purchased township licences in that County to hunt pheasants. The hunting pressure in Elgin County is much less than in Essex or Kent County, according to total number of township hunting licences issued to residents and non-residents.

During 1960-61, Essex County issued 10,689 township licences, Kent County issued 5,609 licences and Elgin County issued a total of 2,240. Other examples might be Lincoln County with 5,521 and Welland County with 6,167 township licences issued that same year.

We could point out that most of the hunting is carried out on private lands, in these counties, and it would appear that land-owners should have the privilege of saying who should hunt on their property. For example, should we propose legislation that would prohibit a landowner from asking his son, his father or friend to hunt on his property? During 1960 there were 2,901 Ontario resident hunting licences issued in Elgin County, compared with 12,815 in Essex, 8,200 in Kent and 7,945 in Welland County.

53. That fingerling lake trout brought to Temagami Lake this spring be put in pens for thirty days or more to study the effect of the eggs hatched in one kind of water and fish planted in a different kind to see what percentage survives.
54. Serious consideration be given to a miniature hatchery at Temagami to use Temagami Lake trout eggs and the same water for hatching and restocking. The results should be very interesting. No extra help should be needed as in our opinion the large Forestry staff at Temagami during the winter could keep an eye on the eggs.
55. The Association wants the Department's consent to a program of reducing the sucker population in Temagami Lake which has reached large proportions and in our opinion is a great menace to any game fish spawn. The Association would bear the cost of trapping these suckers when they go up the creeks in May for ten days spawning; no other fish are in these creeks at that time.
56. More dead-end bays on the lake made permanent sanctuaries; the two now in force have proved successful.
57. The area of the three lake trout daily be extended to include all of Map 24 C at least. This will enable better control by game overseer.

needed concerning the three trout per day limit in Lake Temagami, the present limit of three should be extended to all Northern Ontario or the limit in Temagami Lake should again be set at five.

67. Regarding Resolution No. 58, we are strongly of the opinion that the lake trout season should remain as it is, opening January 1st. To qualify this statement, we are of the opinion that winter fishermen do not deplete the fish population nearly as much as summer fishermen, and consequently winter fishermen should be given at least as much consideration as summer fishermen. Also, for the first time in its history, winter sports in Ontario are becoming an important economic factor, and the Temagami Chamber of Commerce feels that ice fishing in the Temagami area for all game fish species can, without harm to its summer fishing, play a major role in the economic and recreational development of the Province's winter programme.

68. Regarding Resolution No. 59, as per our resolution last year, we would ask that ice fishing be commercialized only by holders of tourist resort licences in this area.

<p>71. DEER SEASON—RAINY RIVER DISTRICT:</p>	Northern Ontario Tourist Outfitters' (Pete Hughes)	
<p>Whereas an important tourist business is carried on in the Rainy River District, especially in the 'northeastern' section;</p> <p>And whereas this is a desirable industry of the Province, bringing in great revenue from an area where otherwise none would be derived;</p>		
<p>And whereas this tourist industry in the 'northeastern' area of the Rainy River District is suffering from unnecessary curtailment of deer hunting activities due to the late opening of the deer season in this area;</p>		
<p>And whereas it has been recommended by Lands and Forests biologists that a larger crop of deer be taken;</p>		
<p>And whereas the cropping of a larger area is highly desirable but is made impossible by the present late opening date, made short by ice formation;</p>		
<p>Therefore be it resolved that the Rainy River District be opened for deer hunting to correspond with the opening date in the adjoining Kenora District.</p>		

72. DEER SEASON—BEARDMORE TO HEARST:

Whereas there is an open season on deer in the area between the Village of Beardmore and the Town of Hearst;

And whereas the deer population in this area has been negligible for many years and is now increasing;

And whereas the open season for deer in this area prevents these few animals from increasing in number;

Therefore be it resolved that a closed season on deer be imposed in the area approximately between Beardmore and Hearst with actual limits to be defined by Department of Lands and Forests and until such time as deer are numerous enough to warrant an open season.

It is not the open season that prevents this population from increasing, but rather the fact that it is well beyond the range for the species. No known management measure will provide a permanent deer population there. Only one or two deer are killed anyway.

Northern Ontario

(Pete Hughes)

73. REQUEST FOR WOLF CONTROL PROGRAMME:

Whereas it is generally known that wolves in many sections have made, and are making, heavy inroads into our hoofed game, particularly deer, and in a lesser degree on moose, and are also preying seriously on beaver;

And whereas wolves in some sections of Northern Ontario have virtually exterminated the deer;

And whereas the western provinces, which had a like problem with wolves, instituted a vigorous and successful predator control programme;

Northern Ontario
Tourist Outfitters'
(Pete Hughes)

Studies of the western wolf programme reveal many flaws. Complete extermination of coyotes has led to excessive populations of rodents. Our programme is designed to provide control where and to the extent that it is needed. A large-scale experiment is being carried out in this region.

RESOLUTION

And whereas, where such control measures were in effect and wolf packs drastically reduced, hoofed game was reported to have quickly returned to their original habitat;

Therefore be it resolved that the Ontario Department of Lands and Forests be requested to institute a like programme of wolf control in areas of the province where need of such control is indicated.

Comment: In one section of the Province one trapper alone is reported this season to have taken 46 wolves. Allowing the conservative estimate of only 10 deer per wolf per annum, this trapper alone, as a result of the wolf bounties he received, saved the lives of a potential 500 deer. This suggests the question: Should the wolf bounty be retained? The answer would appear to be obvious. It also suggests the question: Can the Province afford to permit this grievous and needless slaughter of our declining deer population?

74. RESTRICTED AREA FOR THE USE OF AIRCRAFT IN HUNTING:

Whereas the Department of Lands and Forests are openly suggesting the use of aircraft in the spotting of Moose during the open season on Moose and Deer;

And whereas this suggestion if put into practice would work untold hardships on tourist operators in certain areas and put others out of the hunting operations altogether;

SUBMITTED BY

COMMENTS

Northern Ontario Tourist Outfitters' Association.
(Pete Hughes)

This would be virtually impossible to enforce. We are learning about the effects of aircraft hunting and will be in a better position to assess the effect more fully after more operation of the present experiment. We don't propose aircraft hunting in accessible areas.

And whereas the hunter who wishes and has only the means of hunting with either a boat or by walking the bush will be to a great disadvantage if aircraft have unlimited areas in which to fly their trade;

And whereas the hunter who either uses a boat or walks the bush comprises over 85 per cent of the total number of hunters who arrive in our area each season;

Therefore be it resolved that this association request the Department of Lands and Forests that areas within 10 miles of accessible road, rail and water, including a reasonable portage or portages in that portion of the Province of Ontario in which there is an open season for Moose and Deer, continue to be restricted as to the use of aircraft for the spotting of big game during the open season on same.

75. RECIPROCAL LICENCE FEES:

Whereas the rates for non-resident Canadians to hunt in Alberta, Saskatchewan, Manitoba and British Columbia are from \$2.25 to \$2.50, and it is felt that the \$25.00 charge for non-resident Canadians to hunt in Ontario is too high;

Be it resolved that the non-resident Canadian hunting charges for Ontario be reduced to a comparable level with other provinces.

76. HUNTING ACCIDENTS:

Whereas accidental shooting of people by hunters can only be described as carelessness and unwarranted and on the increase in Ontario;

We have offered concessions to the other provinces in exchange for concessions from them. We have a reciprocal arrangement with Manitoba and Saskatchewan and will try to negotiate others.

and Forests are requested to retain the present dates for the open seasons as they now exist on deer in the Province of Ontario until such time as conditions warrant the change.

78. HUNTING LICENCES:

Whereas the number of violations of our Game and Fish laws has steadily increased, and the many non-resident and non-resident hunters are creating untold problems that will have to be dealt with accordingly;

In this respect, many non-resident hunters are violating the trust placed in them in granting them hunting privileges. These non-resident hunters are carrying high-powered rifles while travelling in our forests, and are known to be hunting moose and deer while holding only a licence to hunt bear;

Much has been said about the illegal activities of our non-resident hunting guests, and the time has now come for definite action to counter these illegal activities;

Be it resolved that during the open season on moose and deer all persons carrying any rifle other than a .22 calibre low-powered rifle, or hunting with a shotgun, while having in his possession shotgun shells loaded with ball or shot larger than number two shot, shall be required to purchase either a Moose or Deer Licence.

other information that will clarify the residence of a licensed applicant.

81. STEEL-JACKETED AMMUNITION:

Whereas, with the increasing sale of surplus army rifles and ammunition, many hunters purchasing this type of rifle are using steel-jacketed bullets for hunting big game;

The construction of these bullets does not permit them to expand or disintegrate on contact with the animal they are used against. This contributes unnecessarily to the wounding of game and its subsequent loss and waste;

Be it resolved that The Game and Fisheries Act be revised to make it illegal for anyone to possess or use full patch steel-jacketed ammunition when hunting.

82. DECOYS:

Whereas some hunters are in the habit of leaving flocks of decoys in front of their hunting blind or in other areas;

Whereas these decoys are unattended and are left there for the purpose of holding the hunting area for the hunter;

Whereas this is very unfair to other hunters who may wish to hunt in this area;

Ontario Federation of Anglers and Hunters.

There is probably virtue in this. We would like to discuss it further.

Ontario Federation of Anglers and Hunters.

On Crown land the leaving of decoys constitutes no claim on the blind and is sheer bluff which could not be maintained. A regulation of this nature once applied to the Hamilton Bay, but is now rescinded.

RESOLUTION

Be it resolved that regulations governing the use of decoys be changed so that it will be unlawful to have decoys in the water unless they are attended and then only during the regular hours allowed for hunting.

83. MOOSE SEASON (NORTH BAY):

Whereas the Moose season in the North Bay Forestry District has been for residents only and resident hunters are increasing each year in this area, and it is the desire of the majority to maintain moose hunting in the area as well as to conserve the moose herd in its present numbers;

Be it resolved that the moose season in the North Bay Forestry District be of fifteen days duration only, and that the dates be from October 15th to October 30th.

84. ESSEX COUNTY GOOSE SEASON:

Whereas, owing to the goose season opening early in the fall as it does now, the geese do not get used to flying around the country without being shot at. We feel that the small percentage of geese killed each season in this District is too small for the thousands of geese that stay here each fall.

Be it resolved that the goose season not open in the County of Essex before November 1st.

Whereas the present season on Ruffed Grouse does not provide a basis of good management for harvesting the grouse at high levels of population;

Whereas there is conclusive evidence that hunting pressure does not biologically produce any adverse effect on grouse populations at either higher or lower levels of population;

Whereas a longer Grouse season would be more appropriate with good game management than the present season;

87. INSECTICIDES AND HERBICIDES:

Whereas in the use of insecticides and herbicides small birds and upland game are often destroyed;

Whereas in spraying large tracts of land by planes with insecticides and herbicides, the spray can drift into our waterways and affect the life in these waterways;

Whereas rains can wash residue from spraying insecticides and herbicides into our waterways and affect life in these waterways;

Whereas careless handling of spraying equipment used to spray herbicides and insecticides, especially in filling and cleaning which are often done at the nearest stream or pond, and allowing these products to pollute and poison these waters, thus killing fish;

Be it resolved that the Ontario Federation of Anglers and Hunters petition the Department of Lands and Forests, and/or the Department of Agriculture, and/or the Ontario Water Resources Commission to investigate the use of herbicides and insecticides with the purpose of regulating the application of insecticides and herbicides and the proper filling and cleaning of the equipment used in applying the insecticides and herbicides.

Most desirable. Concern over this has been widely expressed and the total effect of these practices should be much more clearly understood than it is at present.

88. AIRCRAFT:

Whereas the use of aircraft as a means of transportation into our forests and to our lakes has become widespread throughout the Province. This has led to many violations of our game and fish laws. It has become a simple matter for hunters and anglers using aircraft as a means of travel to transport their illegal catches of game and fish by this means. It is almost impossible to detect illegalities committed in this way.

Be it resolved that all persons using aircraft to travel to and from forests and lakes in the Province, for the purpose of hunting and fishing, shall be required to file a flight plan with the nearest Department of Lands and Forests office previous to the commencement of such flight. Such flight plan shall indicate the place, date, and hour of take-off, and the date, hour and place of return. The purpose of the flight, and the names and addresses of all persons involved in the flight, shall also be indicated on the flight plan.

89. ROADSIDE TREES:

Whereas many thousands of the fine roadside trees of the Province are disappearing each year, due to maintenance of utility lines, the widening of road allowances, and the Dutch Elm disease;

Whereas present legislation, or the lack of same, does not enable municipalities and authorities or commissions to replace the ever-disappearing roadside tree through a co-operative endeavour with Provincial Government departments;

Jurisdiction of provincial legislation in regulating air traffic is very much in doubt.

90. CHIEF ISLAND INDIAN RESERVE:

Whereas the past several years grave concern has been expressed at the possibility of private interests purchasing Chief Island, one of the largest islands in Lake Couchiching, near Orillia;

This island is owned by the Rama Indian Band who have persistently rejected offers of purchase by commercial interests interested in subdividing the island for cottage lots.

The island, besides being the ancestral burial ground of the Indian Band, is one of the last of the unspoiled tracts of woodland in the District. It is the home of much small game and countless birds, including the largest heron colony in the vicinity.

In the letter dated July 26th, 1960, the Honourable Mrs. L. Fairclough, Minister of Citizenship and Immigration, informed the Honourable Mr. Spooner that there was not any intention of the Indian Affairs Branch offering Chief Island in Lake Couchiching for sale.

On Sept. 27th the Honourable Mr. Spooner wrote to the Honourable Mrs. Fairclough, in part as follows:

advising what steps are necessary to be taken in order that the Province of Ontario may acquire the island."

On Oct. 7th, 1960, Mr. James Bissett, Administrative Assistant in the office of the Minister of Citizenship and Immigration, wrote to the Honourable Mr. Spooner and stated that, so far as the Department officials at Ottawa are aware, the situation with respect to Chief Island had not changed since the letter of July 26th, 1960, by Mrs. Fairclough. The letter also stated "in the meantime the nature of the interests of the Province have been noted and will be kept in mind."

91. LAND PRICE:

Whereas the recently announced increase in the price of public lands for summer cottages, plus the expense of the survey, will make it impossible for many residents in the lower and middle income bracket to purchase land;

Whereas no resident of the Province should be denied the privilege of having a summer cottage due to prohibitive prices;

Whereas the rates included in certain regulations made under The Public Lands Act, as published by the Department of Lands and Forests, April 8th, 1960, show increases considered to be much too great;

94. FREE PROPAGATING LICENCE TO KEEP PHEASANTS
IN CAPTIVITY NOT FOR SALE:

It has now been established that Game Pheasants (Ring Neck Pheasants) belong to the classification of "Game Birds" and not ornamental birds. As it is extremely hard to control the disposal of surplus Game Pheasants by holders of the free propagating licence, we feel the free licence should be discontinued and that the Department increase the fee for the licence to propagate and sell pheasants, from the present \$10 fee.

95. LICENCE TO OPERATE A GAME HUNTING PRESERVE:

We feel the \$100 fee for this licence should be maintained. In view of the fact that a large percentage of hunting preserve operators propagate their own pheasants, we feel one licence should be sufficient to cover both operations.

96. BOB WHITE QUAIL:

We feel consideration should be given to legalizing Bob White Quail on Licensed Hunting Preserves and legislation passed to have this game bird incorporated in present licence to propagate pheasants. Hunters are permitted to shoot quail in many of the States to the south of us, and we feel this privilege should be extended to our Canadian hunters.

97. SUNDAY SHOOTING:

Trap and Skeet shooting are permitted on Sundays. Bowling Alleys and Curling Rinks are open on Sunday, and sportsmen who partake of a game of golf are permitted to play on Sunday. A very large percentage of hunters have to work all week and only have Saturdays and Sundays for relaxation with their dog and gun, and we feel they should not be deprived of the privilege of hunting on Sunday. Pheasants are a ground feeding bird, and it is inhuman to release them in the Northern part of the Province after December 1st, as their feeding grounds are all covered with snow. This makes the season very short for hunters living in districts affected by climatic conditions, and we feel this extra day a week would help to satisfy their hunting desires. We would draw your attention to regulation O. Reg. 163/59 made under The Game and Fish Act, Paragraph B (2), which reads as follows:

“Any regulations under the Act limiting the hours during which pheasants may be hunted, killed or destroyed and limiting the number of sex of pheasants that may be hunted, killed or destroyed in one day or possessed by any person do not apply to pheasants hunted, killed or destroyed on a pheasant hunting preserve.”

As this portion of the Act now reads, there is nothing contained therein that prohibits the shooting on Sunday on a hunting preserve.

Since the prohibition of Sunday shooting is in the Act and not the regulations, the statement in the last paragraph is not true. However, we agree with the main premise that Sunday shooting should be permitted. Preserve operators should consider their own relations with their neighbours.

Moose hunting policies have greatly increased the number of people who hunt moose, and there is likely to be ample custom for outfitters who maintain a reputation for good service.</p>

WOLF CONTROL:</p> <p>Whereas Algonquin Park is an exclusive and protected hunting ground for wolves only; and</p> <p>Whereas the problem of wolf control is spreading throughout Northern Ontario; and</p>	<p>Almaquin South Tourist Association. (Mr. Shaw)</p>	<p>The wolf research program is important and there is no evidence, after considerable investigation, that deer depletion around Kearney is the result of wolf depredation.</p>

Whereas the wolves leave a staggering amount of evidence in killed deer and moose, remains of which reveal only a small amount of meat eaten; and

Whereas hunters and tourist resort operators are agreed that deer are diminishing in numbers; and

Whereas many hunters get nothing in return for the price of a licence; and

Whereas the present system of control has proven to be inadequate; and

Whereas wolves hunt fifty-two weeks of the year and the hunters only twelve days;

Therefore be it resolved that the Department of Lands and Forests take immediate action to drastically reduce the wolf population in the Algonquin Park and surrounding area.

100. ONTARIO WATERFOWL RESEARCH FOUNDATION:

Ducks, geese and swans, long among the most popular wildlife of North America, have experienced many changes during the last century. Certain of these changes, such as urban sprawl and drainage, have destroyed the traditional breeding grounds of our waterfowl, even threatening the survival of some sensitive species like the Canvasback.

Experience has shown repeatedly that remaining breeding grounds can be improved, and the new produc-

ing areas established to make up for marshes already destroyed, provided that a sound framework of knowledge is applied properly. Research is the basis of effective waterfowl management.

The Ontario Waterfowl Research Foundation was established in 1961, with the objective of improving waterfowl management in Ontario by:

- (a) supporting basic research in waterfowl biology;
- (b) aiding in the training of waterfowl biologists and managers;
- (c) making the results of research available for application by interested individuals and groups.

The Foundation's affairs are conducted by a Board of Honorary Trustees and Trustees, advised by wildlife scientists, representing government agencies and Ontario's universities—a group of dedicated men, united in the common goals of knowledge and the practical application of that knowledge in the interests of waterfowl.

Last summer the Foundation started a study of waterfowl movements in relation to Luther Marsh. Recently it acquired an option on a property near Guelph, to be known as the Niska Waterfowl Research Station. This will serve as the Foundation's physical headquarters, and will be developed to support a wide

range of research activities. A library, a laboratory and demonstrations of waterfowl management, all essential to the organization's ultimate objectives, are planned for the future.

Interested persons, groups and organizations are invited to support the program of the Ontario Waterfowl Research Foundation. Contributions to the Foundation are deductible for income tax purposes in Canada.

101. Resolved that the Open Season for Deer, in the Tweed District, be from Monday, October 29th to Saturday, November 24th, this year of 1962.

102. And further that such Regulation apply for a minimum two-year test period, and too that, of the four weeks requested, the first week be set aside for archery.

103. The Dryden Bowmen Archery Club would like at this time to request a pre-gun season for the purpose of hunting moose in the Kenora District, with bow.

Archery season in the Ompah area has been strongly opposed by deer hunters in that area.

Special bow season is unnecessary. The moose season in this area is three months long and offers an abundance of opportunity for archers to hunt moose.

RESOLUTION

We have contacted the Hunting and Field Archers of Ontario hunting chairman and he states he will assist your department also. This is Mr. Gordon Hammond, 470 Charlotte Street, London, Ontario.

The Northern Ontario Tourist Outfitters supported our club when we wished a pre-gun season to shoot deer and we have contacted them again regarding the moose season.

Our purpose in requesting a pre-season is as a safety measure. Most archers prefer to stalk their game quietly and, in view of the great number of moose in this district, we feel that a pre-season for moose hunting with the bow would help to control their number.

Our club feels that a bow with a forty-five pound pull at full draw, with arrows with sharp hunting points will penetrate any part of a moose to cause a hemorrhage which will kill the animal. A forty-five pound pull bow is one which takes a pull of 45 pounds to put an arrow into shooting position. The length of the arrow will vary according to the arm of the individual archer.

A penetration test on a 100-lb. jute bag filled with sand showed that, when a 29-inch long cedar arrow, 11/32 inches in diameter and using a 120-grain broad-head point, was shot into the bag, it penetrated completely and was only stopped by the feathers at the point of entry. A .303 rifle with a 180-grain bullet

penetrated only 6¼ inches when shot from the same distance.

Mr. Hammond states that Mr. Harry Markham in 1961 shot a thousand-pound bull moose with a 55-pound Tilmark bow. Also Mr. George Smith, using a 45-pound bow and 11/32" diameter cedar shaft with broadhead point, obtained complete penetration of the breastbone of a previously killed moose in a test to see if that weight of bow could penetrate far enough to cause death.

We are contacting Mr. Harry Markham of Newmarket, Mr. J. W. Sanderson of Bolton, and Mr. John Landen, Owen Sound, Ontario, as well as the main executive of the Hunting and Field Archers of Ontario, and we hope that we can send a personal representative to your meetings. We regret that we are not able to send someone from our own club but the time is too short to arrange this.

The Dryden Bowmen Archery Club are offering their assistance to your department to make this first pre-season a success.

104. DEER HUNTING CAMP SITES:

Whereas the Department of Lands and Forests are responsible for the allotment of yearly leases for Crown lands, used for deer hunting camps;

Whereas the numbers of hunters and the number of camps are steadily gaining in numbers each year;

Conservation Council
of Stormont, Dundas
and Glengarry.
(A. M. Lebano)

This is usual practice in districts.

Applications for campsites have increased beyond the available supply of areas.

RESOLUTION

Whereas in areas where such parcels of land are now being leased, there are already many old established deer hunting camps;

Therefore be it resolved that before any new leases are released to new groups the area concerned be checked to determine the number of clubs already established in said area.

Be it further resolved that our Conservation Council recommend for the reason of hunter safety, the Department do not lease any deer hunting campsite within a radius of at least two miles from another already-established deer hunting camp.

105. APPOINTMENT OF GAME WARDEN:

Whereas at the present time we have one game warden established in Dundas, and another in Glengarry;

Whereas the City of Cornwall now has a population of approximately 45,000 people, and that said population is concentrated in Cornwall and surrounding area, and other heavy concentrations are in the immediate outside areas of Cornwall; and

Whereas we, the Conservation Council of Stormont, Dundas and Glengarry, feel that more actual personal contact and public relationship should take place between our people and the Department, along with a closer supervision in these heavily fished and hunted areas;

Conservation Council
of Stormont, Dundas
and Glengarry.
(A. M. Lebano)

We continue to press for staff increases.

Therefore be it resolved that we feel our conditions warrant another game overseer for the County of Stormont and that this person establish residence in Cornwall or its suburbs.

106. SUNDAY SHOOTING FOR WATERFOWL:

Whereas the waters of Lake St. Francis, and Lake St. Lawrence, border the waters of Quebec and New York State;

Whereas Sunday hunting-and-shooting of waterfowl is legal in said border waters of Quebec and New York State;

Be it resolved that it be made legal for Ontario residents to shoot ducks in the waters of Lake St. Francis, and Lake St. Lawrence, said waters bordering the counties of Stormont, Dundas and Glengarry, during the legal season for hunting ducks;

Be it further resolved that our Council concur with a recent resolution passed in Zone 4 of the Ontario Federation of Anglers and Hunters for a yearly season for Sunday hunting.

107. DEER SEASON IN THE THREE UNITED COUNTIES:

Whereas for a number of years the local deer season in the Counties of Stormont, Dundas and Glengarry has been for a four-day duration;

Whereas during these years, the deer herd has steadily increased, even with excessive hunting pressure.

Conservation Council
of Stormont, Dundas
and Glengarry.
(A. M. Lebano)

We agree in principle with this proposal but the present day-off for waterfowl is sound management.

Conservation Council
of Stormont, Dundas
and Glengarry.
(A. M. Lebano)

This should be taken up with the municipal councils. We have been guided by their recommendations.

<p>Therefore be it resolved that, so long as this deer herd can steadily increase and survive the pressure of hunting, the season should be for a six-day period—Monday to Saturday inclusive.</p>

<p>110. The Department of Lands and Forests is to be congratulated on several improvements noticed during the past year:</p>	<p>Mr. John Hauser, Sharon.</p>	<p>No comment required.</p>
<p>(1) Supervision of hunters improves.</p>		
<p>(2) Publicity of illegalities more noticeable in the press.</p>		
<p>(3) The Department appears to really study the public interest in regard to parks and other amusements; in fact, as a landowner, I wish it were otherwise; but the "greatest good, etc.!"</p>		

111. TREE PLANTING:
 I wish the Department could encourage more of this. It is a wearisome job when one considers that perhaps in a few decades all one's work will be swept away.
- Mr. John Hauser,
 Sharon.
- No comment required.
112. PARKS IN CITIES VICINITY:
 I would again wish to impress the Department of Lands and Forests with the great need for the Province to get hold of some of the cheap land around Mount Albert. If the Province had done this when I first suggested it, the cost would have been negligible. Even now, some of this poor land is cheap.
- Mr. John Hauser,
 Sharon.
- Referred to Parks Branch.
113. HUNTING PARKS:
 Good idea: keep some of the gunners off private land. Since game is scarce, I would suggest artificial animals, who could run on single, hidden track. Most of the city hunters like the noise of a gun.
- Mr. John Hauser,
 Sharon.
- No comment.
114. The cost of hunting should be borne by the hunter, and licence costs are too low. Why should landowners be forced to pay extra taxes so that well-paid hunters and fishers can amuse themselves practically free?
- Mr. John Hauser,
 Sharon.
- Agreed that fees are too low.
115. While fines for the infringements of our laws have been raised, yet the magistrates continue to be over-merciful. Is it not time that we adopted more drastic methods?
- Mr. John Hauser,
 Sharon.
- The courts have jurisdiction.
116. Too many hunters, careless and noisy.
- Mr. John Hauser,
 Sharon.
- No comment.

117. Keep the Sunday ban on hunting. It is bad enough on Saturday; we expect peace on Sunday.	Mr. John Hauser, Sharon.	
118. That idea of the farmer at Buttonville, of asking some landowner to sponsor any hunters in the township, may have some sense. (Unless it gets like the bondsmen in the law courts—a business proposition.) That might serve as a curb on the unruly.	Mr. John Hauser, Sharon.	This is under consideration. We would favour co-operative arrangements.
119. The owner who does not want hunters, and who posts his place, expects that people will stay out. As it is, it is still necessary to be on the alert to drive hunters out. The fault is really that our system is an anachronism—a throwback to times past. It is time that a better system was devised. For there is nothing free; and to encourage trespassing under the label of democracy is to invite anarchy.	Mr. John Hauser, Sharon.	The suggestion that public officers should act in private interest is not consistent. In Britain, where there is no public hunting, there are no conservation officers.
120. We request the following to be given consideration by your Department:	Little Current and District Chamber of Commerce.	No proposal to open new waters. The two cases mentioned will depend on the nature of the operation.
1. That no licence be issued to anyone in waters that are closed to commercial fishing, except the present carp licence.		
2. That the commercial licence now held by Wes Ryder at Little Current be cancelled when he is finished fishing, not transferable, saleable or otherwise used by anyone.		

3. That the commercial licence held by Justian Anglin of Little Current be cancelled forthwith, as this licence has never been used by Mr. Anglin.

121. We ask that you consider our request for a closed season on pike, pickerel and lake trout during the spawning season by any means, that is, angling or commercial taking of these game fish.

Also that consideration be given to our request for further protection in the taking of pike and pickerel in the spring by guns, spears and pitch forks, etc., as considerable fish are destroyed in this manner.

122. We would like to suggest to the Department that they request a law stating "the carrying of firearms of any type or calibre be prohibited five or six days prior to the opening of the regular deer hunting season in the Manitoulin District".

The purpose of this suggested legislation is to help in controlling the illegal hunting prior to the season opening that is quite common in this area.

123. It has been brought to our attention that certain parties, specifically Mr. Jim Caughy of 273 King Street, Sturgeon Falls, Ontario, has been taking minnows by the use of a long seine net and using skin diving equipment and removing these minnows by the truckload for resale.

Little Current and District Chamber of Commerce.

We believe that adequate provision for spawning is being made, and a quota system is under study. Enforcement problems are familiar.

Little Current and District Chamber of Commerce.
(Goldwin Tustian)

This is being considered now.

Little Current and District Chamber of Commerce.

Referred to District.

<p>As their own area must be depleted of these fish for them to travel so far, we request that this practice be stopped at once to protect our game fish.</p>		
<p>The taking of these minnows reduces the feed for our smallmouth black bass, and we are most anxious to protect these waters with every means at our disposal.</p>
