---

3.00 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly:*

The opening of the Second Session of the Thirty-first Parliament of Ontario occurs at a time when Ontarians face clear and direct challenges to the continuing strength of our Province and our Nation.

The most crucial challenges are of an economic nature, running to the very heart of the forces that make our economy both prosperous and free, and that allow us to provide the many services that are essential to the well-being of all our citizens.

Dealing with these basic challenges is not a task to be met simply through legislation or instant policy changes. It is a matter which requires, at the outset, an implicit belief in the kind of society we are seeking to preserve and enhance.

Nos actions doivent, d'abord et avant tout, se fonder sur la confiance. Certains, lorsqu'ils font allusion aux difficultés qui nous assaillent, parlent de crises. S'il existe une crise au Canada aujourd'hui, c'est bien une crise de confiance—à l'égard de notre patrimoine, de nous-mêmes, et de notre aptitude à bâtir sur des atouts qui font l'envie de beaucoup à travers le monde.

The foundation of our actions must, first and foremost, be confidence. There are some who refer to the difficulties that face us in terms of crises. If a crisis exists in Canada today, it is a crisis of confidence—in our heritage, in ourselves, and in our ability to build upon assets that are the envy of many throughout the world.

The health of the provincial economy, the security and generation of workers' jobs and incomes will be the primary targets of government action during this Session. These needs will largely be met through alternatives to a doctrinaire reliance on public spending. The Government must assume a flexible and progressive role in shaping the economic framework on which the strength of the total society depends.

Since our current economic difficulties are related to circumstances that are both national and international in scope, every effort must be made to move toward full economic recovery through co-operation with our sister provinces and with the Federal Government. An important initial step in this direction was taken last week when the First Ministers of this country gathered in Ottawa.

Relieving the current state of unemployment is, in many respects, beyond the control of a provincial jurisdiction. Ontario believes, therefore, that we must seek national answers to national problems and that we will strengthen Canadian responses to the larger economic challenge only through co-ordinated initiatives. In this context, the Ontario Government presented a clear program for national action to the First Ministers' Conference with specific proposals both for job creation in the short term and for a medium-term economic development strategy.

Among the several employment proposals on which there was agreement was the need for accelerated investment for major energy projects, and for new capital investments to improve Canada's rail system, and automotive and fishing industries. As well, the Conference endorsed the creative use of unemployment insurance for job creation and the provision of tax incentives or credits for industrial research and development.

It is clear that, from both provincial and national perspectives, we must continue to restrain government spending while encouraging the private sector to adopt, through all means at its disposal, measures that will assure domestic economic strength and international competitiveness. Program details must now be developed on the basis of the general agreement reached.

There are several key areas of initiative, notwithstanding the limits of provincial jurisdiction, on which Ontario is determined to act. The worst unemployment in Ontario—as in Canada—is among the youth. Lack of

economic expansion and other structural difficulties have conspired to limit opportunity for the young people who are our future. Any meaningful response to unemployment in general must be spearheaded by a direct attack on the problem as it besets those under the age of twenty-four.

Employment and placement of young people in productive occupations must receive a high priority within our entire economic system, and government must look to organized labour and the business sector to follow its lead.

Last year the Ontario Government sponsored two programs which provide incentives to the private sector to create new jobs for young workers. The Ontario Career Action Program encourages employers to provide on-the-job work experience. The Ontario Youth Employment Program, for summer employment of students, provides a wage subsidy of \$1 an hour by direct payment to the employer. My Government will provide additional funds for these two programs in 1978 for the creation of 36,000 jobs at a total of \$26 million.

Despite the numbers of unemployed and under-employed, a shortage of skilled tradesmen has been re-occurring in the manufacturing sector. This paradox can only be resolved by a training program especially geared to satisfying the manpower needs of industry. Development of such a program will be given the highest priority during the year. The new training scheme will emphasize employer-centred training and will provide the required level of skills in the shortest possible time.

The labour market information program begun last fall will assist the private sector in matching jobs with people to achieve higher employment, by identifying and analyzing the critical supply and demand requirements of the provincial labour market. To ensure the effectiveness of this program, and a fully co-ordinated effort by those involved, the Minister of Labour will, in the near future, convene a conference with college and university personnel, representatives of labour and business, as well as provincial and federal officials directly concerned.

National economic recovery will not be attained without the full and harmonious support of all segments of our population. The withdrawal of the Federal Anti-Inflation Program this spring must be replaced by effective self-discipline on the part of price-setters and wage-earners alike, both in the public and private sectors. There will be a need for new levels of industrial harmony in striving for the commonly held goals of limited inflation and increased employment.

The Ministry of Labour will continue efforts to improve employees' working conditions throughout Ontario through the help of the Quality of Working Life Advisory Committee, composed of senior representatives of labour and management. Support will be provided through the allocation of funds for research, promotion and training, as well as pilot projects in industry. These projects will give employees more involvement in, and responsibility for, their total working environment. While the primary aim is to increase job satisfaction, improved productivity, as one of the keys to economic recovery, should be a beneficial by-product of a successful program.

Good faith bargaining and respect for the mutually critical roles of labour and management will be basic to continuing economic recovery. The Government expects to receive a report from the Kelly Commission on Grievance Arbitration whose recommendations, it is anticipated, will aid the resolution of collective bargaining disputes in a fair, expeditious and less costly manner.

Ontario supports the decision of the First Ministers that, for a limited period following the termination of controls, the Economic Council of Canada be asked to play a key role in analyzing price and cost developments. For its part, the Province will set fair and firm guidelines with respect to public sector spending and is confident that compensation for public servants will be moderated accordingly.

As announced last September, increased Provincial Government spending for the coming fiscal year will be held well below revenue increases to strengthen Ontario's economic position further in the move toward a balanced budget. Specific measures in the 1978 Ontario Budget, to be presented by the Treasurer on March 7, will provide the leadership and example required of government in seeking the co-operation of the overall community in this area.

We must strengthen our industrial structure in order to be competitive on an international scale. Ontario's involvement in the search for solutions beyond our borders has included consultations with the Federal Government for the current Geneva negotiations on the General Agreement on Tariffs and Trade. While we recognize that certain sectors of our economy will benefit from freer and fairer trade, we remain concerned about the likelihood of real reciprocity being achieved, particularly with respect to secondary manufacturers. We must, therefore, ensure that Canadian-based industries are given adequate protection through periods of adjustment and possible rationalization in the years immediately ahead.

In this respect, agreement was reached at the First Ministers' meeting on the need for early establishment of adjustment mechanisms to protect Canadian industry and labour from short-term economic dislocation resulting from tariff changes. The aim is to improve our balance of payments, reverse our deficit position in such fields as tourism, and help us to identify import replacement opportunities. Increasing efforts will be made to find new export markets for Canadian products and Canadian technology.

Capital investment is a key factor in job creation and improved productivity within the growing Ontario labour force. In the face of the slower rate of industrial investment over the past few years, other jurisdictions, particularly northern states and municipalities in the United States, have initiated more aggressive industrial development programs.

In order to remain competitive with these jurisdictions, the Government of Ontario will introduce measures to provide appropriate incentives and to promote Ontario as a desirable investment location.

New initiatives will be developed to sell more of our food commodities abroad.

An amendment to The Public Commercial Vehicles Act, while facilitating the movement of Ontario produce within the province, will enhance export opportunities to the United States.

Ontario will continue to press for a reduction in the trade imbalance under the Auto Pact and will examine other possibilities for encouraging a mutually beneficial flow of trade. With the assistance of the Federal Government, appropriate steps will be taken to ensure that a fair share of future development in North American auto and auto parts manufacturing takes place in our province.

At home, Ontario's participation in the "Buy Canada" campaign will cover all sectors of consumer and business activity. We must, as a province and nation, realize the full potential of the Canadian market. Support for domestic products in manufacturing and agriculture is absolutely basic to fighting inflation and to building demand and economic strength. This program, proposed as a fundamental precept of our strategy for economic recovery, will be pursued as a joint federal-provincial initiative.

My Government is determined to remove unnecessary encumbrances that hinder appropriate industrial expansion or efficient business operation. With this in view, all ministries will undertake a thorough examination of the statutes, regulations and related policies that currently govern business practices and procedures, and will modify or eliminate outmoded and restrictive requirements. This exercise in cutting red tape, usually referred to as "deregulation", should benefit big and small business alike, and also individual members of the public who all have dealings with government in one way or another.

In addition, the Government will establish a mechanism to review the operation of agencies, boards and commissions, which have responsibility for many of the regulatory functions that are now carried out.

New measures relative to regional and resource development are proposed to provide direct assistance to Northern and Eastern Ontario as priority areas in the overall economic thrust of Ontario's growth and development.

High transportation costs, particularly in the North, have long been a concern with shippers and consumers. Programs have been introduced at various times to help resolve this and related difficulties. The Government has concluded that the adoption of a policy for selective deregulation of the trucking industry will go a long way to removing the inequities that remain. Additional benefits should derive from the effects on the cost of doing business and in terms of encouraging the expansion of secondary industry.

The Select Committee on Highway Transportation of Goods, which reported to the Legislature last year, advised against the disruption of transportation patterns or services which non-licensed operators have established with the shipping public. The Committee recommended that truckers who have operated services without licence between October 1974 and October 1976 be allowed to obtain operating authority under The Public Commercial Vehicles Act. The law will be amended during this Session to follow these recommendations.

The North Bay restriction, imposed in the 1930's to protect the developing trucking industry, but which now only adds to costs for shipment or receipt of goods, will be removed from public commercial vehicle licences. A further amendment to the Act to exempt the transportation of lumber and lumber by-products will help encourage processing of these products at the source.

A highway link will be constructed between Atikokan and Ignace to encourage new resource industry activity. A special Northern program to allow the purchase of Crown Land for private recreational use will help increase jobs in the construction and building trades.

There will be increased efforts on the part of Ontario to advance tri-partite negotiations, involving the Federal Government and native organizations, aimed at rationalizing the delivery of services to Status Indians, resolving land claims and dealing with aboriginal rights.

A series of studies relating to a commuter air service for Eastern Ontario, linking key agricultural and urban areas to other parts of the province, will be undertaken by the Ministry of Transportation and Communications to pursue both private and public options for air travel in that area.

Work will be started on co-ordination and implementation of a large-scale drainage, reclamation and resource development project covering the 1,500 square mile South Nation River watershed. This will enhance the economic productivity of 900,000 acres of agricultural and forest land in Eastern Ontario.

Ontario has a body of environmental protections under law of which we can be justly proud, but a proper and careful balance must be struck between the short-term and long-term good. It remains for us, therefore, to summon the technology, the sense of responsibility and the will to reconcile both environmental protection and resource development in order to create productive jobs and a safe, healthy and habitable climate for our people.

Secure and adequate energy supplies are crucial to our social and economic future. Nuclear power and other conventional sources of energy will continue to play a key role in Ontario. At the same time, the Government will increase its investment in energy conservation and renewable energy projects and, during this Session, will set out a program to develop our renewable energy resources.

Despite production and supply initiatives related to all forms of energy, it remains as important as ever that government, industry and the general public continue unremitting efforts to conserve energy and to reduce the rate of growth in our demand for energy.

It must be re-emphasized that the realities we face today require changing attitudes by the public at large, as well as by government. In many of our institutions—schools, universities, hospitals—the challenge of coping with the unprecedented growth of the 1960's has been replaced by the need for a re-ordering of priorities, to do better with relatively less.

Yet, even with the need for fiscal restraint, progress, in qualitative terms, must continue. At this time, therefore, the Government will seize the opportunity

to place an increasing emphasis on special education in our elementary and secondary schools.

A plan of increased funding has been introduced to stimulate and support expanded special education programs and services at the local school board level. Initiatives will be taken to place more emphasis on early identification of children with learning disabilities, and to ensure that all school boards provide appropriate levels of service for all students within their jurisdictions, regardless of their disabilities and handicaps.

In addition, a demonstration school will be established for limited numbers of children with severe learning disabilities who require services which can only be provided in a residential facility.

The need for reforms in meeting the economic demands of our social systems is equally clear in the field of health care. My Government's approach in tempering these demands will be sensible and sensitive.

The future strength of the health system lies in its re-direction away from institutional care and toward community and residential forms of care. The commitment to maintain the quality of the system remains at the heart of the Government's policy. In turn, by assuming more personal responsibility for the demands they place on it, members of the public as well as of the health professions can do their part to ensure that ours remains one of the finest health care delivery systems anywhere in the world.

Legislation will be re-introduced for interim improvements to The Mental Health Act and to ensure the highest standards of design and operation in the Province's mental health facilities.

The obligation of the individual to the community is rooted in and nurtured by that single most important social institution—the family. Ontario families, like families in other parts of the world, have undergone profound and rapid change in the last quarter century. There has been increasing full-time participation in the labour force by women. Traditional parental roles have changed as have the functions of the extended family, including grandparents, aunts and uncles and other relatives outside the immediate family circle.

While these changes in family living have, for the most part, enhanced family life and encouraged the fuller development of individual members, they have also created uncertainty about the traditional strength of the family and its role in society.

My Government shares the concerns of thoughtful citizens who see a need for concerted action, and is prepared to take a leading part in supporting and strengthening the family in Ontario. First, the Government will undertake a comprehensive review of its policies and programs as they affect the family, with the aim of making appropriate changes to enhance the role and authority of the family unit. Better understanding and appreciation of family concerns will be fostered through special attention to the needs of single-parent families, working mothers and their children, and family care for the handicapped, the sick and the elderly. All of these efforts will be co-ordinated by the Provincial Secretary for Social Development.

As well, the Government will encourage full participation by municipalities, community groups and private organizations in launching a variety of activities during May, which has traditionally been Family Unity Month.

Renewed focus on the family in Ontario throughout 1978 can also serve to direct our attention more toward children within the family unit, rather than in isolation, as we prepare for next year's observation of the Year of the Child, a world-wide event that will be sponsored by the United Nations.

The ongoing commitment of the Government to resources for education and its emphasis on children's services are but two symbols of a passionate belief and confident hope in the future of this Province. Significant protections for children will be included in legislation to implement recommendations of the Consultation Paper on Children's Services which was tabled in the House last December. The main areas of concern relate to child abuse, improvements in licensing of group homes for children, and additional protection of the rights of children in residential care facilities.

Human behaviour and social mores are not at the will of governments to dictate. But while times change, basic codes of behaviour remain constant inasmuch as they are fashioned by public consensus. This principle is reflected in Ontario's comprehensive Family Law Reform legislation which will receive final reading and proclamation at this Session.

New legislation will be introduced to protect children caught up in family disputes. The Bill will deal with custody and access proceedings and with the increasing problem of kidnapping of children by parents. Steps will also be taken to explore the use of independent legal representation as a means of protecting the interests of children in family law cases.

The support of the House will be sought for a series of initiatives toward an overall approach to combat alcohol abuse in our society. These will include proposals pertaining to liquor advertising, enforcement of liquor legislation, drunken driving and the drinking age.

My Ministers have approved in principle the introduction of compulsory automobile insurance in Ontario with a view to implementation in December 1979. The program, to be developed by the Ministry of Consumer and Commercial Relations, will take into account recommendations of the Select Committee on Company Law whose report on the enforcement aspects of such a plan is expected soon.

Only by maintaining and improving the processes in the administration of justice can the rights enjoyed by all citizens be adequately protected and the claim of each citizen to equal justice under the law be guaranteed. My Government will introduce a new Provincial Offences Act as part of the overall program to streamline and support the justice system. This legislation will simplify trial procedures for offences against provincial law, cases whose numbers currently threaten to overburden the courts. Under the simplified procedure, citizens will be able to have their cases dealt with more efficiently while preserving their legal rights.

The superior courts will be made more accessible to citizens and steps will be taken to enhance the capacity of the Supreme Court of Ontario to hear cases in all parts of the province.

Several new pilot projects will be introduced in the community work program of the Ministry of Correctional Services.

The measure of tolerance and respect that citizens can expect from the community is of central importance to the overall social balance. The sense of fairness that defines our view of society in Ontario and much of the tolerance that we cherish are set out in the Ontario Human Rights Code.

Consideration is currently being given to the range of recommendations, concerning the Code and the role of the Commission, that emanated from the most recent review. In the meantime, however, the Government will move to protect the rights of the physically handicapped. The status of Affirmative Action and Equal Opportunity programs will be clarified, so that they are not deemed to conflict with the provisions of the Code.

Greater attention will be devoted to the promotion of harmonious race relations among all the people of Ontario through a closer partnership between government and the community.

It need hardly be stated that Ontario's cultural pluralism is a vital force in, and integral to, the day-to-day life of the Province. The focus of our multicultural groups and organizations, like that of individual Ontarians, is anxiously directed toward the need for the strengthening and reaffirmation of the Canadian identity. The Ministry of Culture and Recreation is offering funding support for public conferences, seminars and community activities toward this end, through the new Canadian Cultural Identity and Citizenship Program, which already is earning wide and satisfying response.

The fundamental rights of Franco-Ontarians to education in the French language have long been recognized in Ontario. Franco-Ontarians also have a commitment from the Government for the expansion of government services in the French Language in accordance with need and population distribution.

We shall continue to build upon the strong foundation already laid in the field of education to ensure that French-language programs are available at all levels, where practicable, to French-speaking Ontarians. At the same time, the expansion of opportunities for English-speaking pupils to develop French-language capacity remains a priority.

During this Session, there will be legislation to increase the availability of French-language court trials in areas of the province where this service is needed. Amendments to The Judicature Act and The Juries Act will guarantee the steps taken in this direction. As well, the Government will review proposals related to the use of French in regulatory and other administrative tribunals.

Present government translation services will be augmented to make more public documents, publications and forms available in both French and English. Of particular importance, a special section will be established to begin work on translating Ontario's statutes into French.

All ministries will undertake a program to identify government buildings and give highway directions in both English and French in predominantly Francophone areas.

The appointment of full-time co-ordinators of French-language services in an additional number of ministries will enhance the capability of the Government in responding to the community.

Minority-language rights in the larger national context must be viewed from a national perspective. The spirit of the St. Andrew's meeting of Provincial Premiers, in the consensus reached on economic matters and the advancement of minority-language education, should give us much hope. Ontario will be an active participant when the Premiers meet again later this week to pursue these discussions and will continue to advance the case for minority-language educational guarantees as a matter that falls more appropriately within the context of Constitutional change.

Ontario shares with the other provinces the fortune of belonging to one of the most favoured nations in the world. Our society will continue to thrive if we give heed to shifting priorities within the context of the new realities that are upon us.

The goals which my Government has outlined—to reduce inflation, increase employment opportunities, move toward economic recovery and restore public confidence—may all be considered important in their own right. But they are also of utmost importance to the cause of a united Canada.

My Government is firmly convinced that the assurance of a secure future and fair opportunity for all citizens of Canada are essential ingredients to a harmonious and unified nation. There seems little doubt that, to satisfy such requirements, both Constitutional restructuring and economic realignment will be necessary.

Ontario stands ready to play its part, in the full awareness and confidence that all sides of this House will work together toward these objectives. There cannot be any doubt that it is within the capacity of this Legislature, in its day-to-day undertakings, to exert a positive influence throughout Ontario, and the nation as a whole, to build and strengthen our future.

Honourable Members, my Government presents these measures, which are now subject to your consideration and judgement, as being in the best interests of the people of Ontario. May Divine Providence guide you in your deliberations.

In our Sovereign's name, I thank you. God bless the Queen and Canada.

## FIFTEENTH DAY

MONDAY, MARCH 13TH, 1978

---

PRAYERS

2.00 O'CLOCK P.M.

Mr. Welch delivered to Mr. Speaker a message from the Honourable the Lieutenant Governor signed by her own hand, and the said message was read by Mr. Speaker and is as follows:—

PAULINE M. MCGIBBON

The Lieutenant Governor transmits Estimates of certain sums required for the services of the Province for the year ending the 31st March, 1979 and recommends them to the Legislative Assembly.

Toronto, 13th March, 1978.

(*Sessional Paper No. 3—Volumes 1, 2, 3 and 4, 1978-79*).

*Ordered*, That the message of the Lieutenant Governor, together with the Estimates accompanying the same, be referred to the Committee of Supply.

---

Mr. Speaker delivered the following ruling:—

On Thursday last, March 9th, the Member for Scarborough-Ellesmere, on what he considered a point of privilege, asked me to rule that the OHIP premiums are, in fact, a tax, and that any increase therein would require legislation and the appropriate message from Her Honour the Lieutenant Governor. He referred to section 54 of The British North America Act and Standing Order 86 of this House, and on Friday, March 10th, he added a citation from the Magna Carta.

I must first refer you to The Health Services Insurance Act, Revised Statutes of Ontario, 1970, chapter 200, section 32, clause (e), which provides that the Lieutenant Governor in Council may make regulations,

“prescribing the amounts of premium payable for a single insured person, an insured person and one dependant and an insured person and two or more dependants and governing the time and manner of payment;”

What the Member is, in fact, doing, is asking me to rule on the legality or constitutionality of legislation passed by this House and I must inform the House that this question is beyond my jurisdiction. I quote from a ruling delivered by Mr. Speaker Cass on January 27th, 1969, as follows:

“There have been numerous decisions by former Speakers, the most recent being that of Mr. Speaker Stewart on April 4th, 1944, to the effect that it is not within the Speaker’s responsibilities or powers to give an opinion on the legality or constitutionality of any legislation introduced in the House”.

As mentioned, the matter raised by the Member pertains to the legality or constitutionality of a statute. As such, it obviously is not a matter affecting the special privileges which the House and the Members thereof enjoy, and I therefore consider it desirable to point this out to the House. In other words, the honourable member for Scarborough-Ellesmere did not, in fact, have a valid point of privilege.

---

On motion by Mr. Welch,

*Ordered*, That, the Annual Report of the Teachers’ Superannuation Commission for the year ending December 31st, 1976 be referred to the Standing Social Development Committee for consideration today, following the Routine Proceedings.

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker delivered the following ruling:—

On Tuesday, April 4th, the Member for Huron-Middlesex (Mr. Riddell), raised a matter of privilege and asked me to take such action as I deemed to be appropriate.

I have carefully perused the Hansard report of the member's statement, and from the facts as presented by him there appears to be at least a presumption that several offences against the provisions of section 38 of The Legislative Assembly Act may have been committed, not only by the service of these documents during the prohibited period, but by the service of such documents in the precincts of the House without the permission of the House or the Speaker.

However, I must again remind the House that if any further action is to be taken in this matter it must be taken by the House. The Speaker has no authority to impose any sanctions on offenders. Only the House has this power.

---

On motion by Mr. Nixon, seconded by Mr. Worton,

*Ordered*, That the matter of the service of documents pursuant to The Libel and Slander Act and The Labour Relations Act on the Member for Huron-Middlesex, contrary to section 38 of The Legislative Assembly Act, R.S.O. 1970, chapter 240, stand referred to the Standing Committee on Procedural Affairs, for which enquiry the Committee may be empowered to engage counsel and which proceedings shall be transcribed and printed by Hansard in the format used for the House.

The Committee shall be empowered to call for persons, papers and things, and to examine witnesses under oath, pursuant to section 35 of The Legislative Assembly Act and for which purpose the Assembly doth command and compel the attendance before the said Standing Committee of such persons and the production of such papers and things as the Committee may deem necessary for any of its proceedings and deliberations for which the Honourable the Speaker may issue his warrant or warrants.

Mr. Breaugh from the Standing Procedural Affairs Committee, presented the Committees Report and moved its adoption. The Committees report was read as follows:

Your committee recommends that it should be the practice of this House, when in Committee of Supply, that critics be permitted considerable latitude in speaking to Vote 1 Item 1 and thereafter that Members adhere strictly to the particular Vote and Item under consideration, and further recommends that the Chairman, at the beginning of each Ministry's estimates, set out a time schedule for the Minister, critics and Members.

## TWENTY-NINTH DAY

TUESDAY, APRIL 11TH, 1978

PRAYERS

2.00 O'CLOCK P.M.

Mr. Gaunt from the Standing Social Development Committee presented the Committee's Interim Report which was read as follows:—

On the basis of material tabled at its meeting of April 10th, 1978, your Committee recommends an immediate revocation of the 37.5% OHIP premium increase.

Mr. Cassidy, seconded by Mr. Martel, moved that the Report be adopted,

Mr. Welch then moved the adjournment of the debate and a debate arising, after some time, the motion was carried on a division of:—

AYES—77.

NAYS—29.

On motion by Mr. Welch,

*Ordered*, That, Mr. Bolan be substituted for Mr. Miller (Haldimand-Norfolk) on the Procedural Affairs Committee.

The following Bills were introduced and read the first time:—

Bill 60, An Act to amend The Retail Sales Tax Act. *Mr. Maeck*.

Bill 61, An Act to amend The Income Tax Act. *Mr. Maeck*.

Before the Orders of the Day,

Mr. Smith (Hamilton West) moved, seconded by Mr. Nixon,

Pursuant to Standing Order 30, That, the ordinary business of the House be set aside so that the House may debate a matter of urgent public importance, namely the circumstances surrounding the presentation of a seriously misleading

report to the standing committee on Social Development by the Minister of Health from which substantial statements of opposition to increases in OHIP premiums were removed without notice, and replaced with statements of opinion closer to those of the Treasurer; and the fact that the Treasurer's statements to this House are contradicted by senior and knowledgeable officials in the Ministry of Health, who believe that OHIP premiums should not be increased because they are:

- (i) of limited effectiveness in raising consumer cost awareness;
- (ii) regressive;
- (iii) inequitable;
- (iv) ineffective within the framework being developed for long term strategies in cost containment and health system reform.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled as follows:—

The honourable member for Hamilton West has filed the necessary Notice, pursuant to Standing Order 30, to set aside the ordinary business of the day to discuss a matter of urgent public importance, namely, the circumstances surrounding the presentation of a report to the Standing Social Development Committee. I am required to rule on the orderliness of the Notice. There are a number of conditions to which the Notice is subject.

The motion must not revive discussion on a matter which has been discussed in the same session pursuant to the provisions of Standing Order 30. No such debate has taken place on this matter under this Standing Order.

I have some reservations that the motion may raise a question of privilege. However, since no other Member has raised this as a serious objection, I will not pursue this further.

The substance of the Notice deals with proceedings in a committee of the House, which has not as yet been reported back to the House, and I speak now of the question of the Minister's conduct, not the question of OHIP premiums. The matter could be further debated in that committee. Since the committee is the more appropriate place to discuss this matter, and so that the committee may reach its conclusions, I am ruling that the motion is out of order.

On appeal, the Speaker's ruling was sustained on the following division:—

PRAYERS

2.00 O'CLOCK P.M.

Before the Orders of the Day, Mr. Speaker delivered the following ruling:—

On Thursday last, Mr. Cassidy, the Member for Ottawa Centre, and Mr. Warner, the Member for Scarborough-Ellesmere, both raised what they considered to be a matter of privilege with respect to the Premier's press release concerning Bill 89, An Act respecting French Language Services in Ontario. As both Members raised the same matter, I will deal with both their allegations together.

Members of the House may well have a grievance in that what they consider to be an announcement of important government policy was made outside of this House. As regrettable as that may be, it does not breach the recognized privileges of the House.

---

Mr. Speaker addressed the House as follows:—

Before the Orders of the Day I wish to comment on the incident of yesterday respecting the motion to adjourn the debate on the motion for the adoption of the report of the Members' Services Committee.

It was suggested to me that as there was an agreement between the House Leaders, of which I had been informed, to the effect that the Chairman of the Committee should move the adjournment motion, I should have ruled the acting House Leader out of order. This of course is not correct. An agreement between the House Leaders does not change the Standing Orders or the Provisional Standing Orders unless moved in the House and adopted by the House. The House would expect that the House Leaders would carry out the agreement at which they had arrived but as no such procedural change has ever been adopted by the House, I point out that any Member may move the adjournment of the debate, as the Standing Orders provide.

Mr. Welch moved, That, in the circumstances of the changes of appointments within the Executive Council, of October 18th, 1978, affecting the Minister of Consumer and Commercial Relations, the Estimates of that Ministry be considered following the Estimates of the Attorney General;

And that the Procedural Affairs Committee hereby be requested to consider the appropriate changes, if any, required to Provisional Standing Order 28, in order to allow the sequence of Estimates in a Policy Field, as previously adopted by the House, to be altered in the case of the death or retirement or reassignment of a Minister, by way of Resolution in the House.

And a debate arising, after some time, Mr. Speaker delivered the following ruling:—

Yesterday I reserved decision on the government house leader's motion to alter the order for consideration of Estimates by the Standing Administration of Justice Committee.

The question raised by the Member for Brant-Oxford-Norfolk as I understand it was as to whether or not the motion was in fact in order, that is, could it be moved without unanimous consent. I must find that the government house leader having the floor at the time to move a number of motions respecting the order of consideration of Estimates, was in order in moving

this motion. As stated, a number of similar motions had already been passed and therefore they themselves established to some extent precedence for the motion in question. However, I do recognize that they were passed without a dissenting voice or without a question being raised as to their admissibility and therefore unanimous consent might be inferred.

I think I should deal briefly with the confusion that existed in the discussion yesterday between changing a rule and waiving a rule. To actually change a rule it would be necessary to give notice of a substantive motion for that purpose which would be called at a proper time when there would be an opportunity for a full debate in the same way as any other resolution and majority for or against would rule when it came to the vote. I emphasize that this would be a substantive motion, not a routine motion such as that under consideration.

To waive a rule is a different matter. The House is not seeking to change the rule but simply to waive its application in a particular instance, and according to all the precedents I am aware of in this and other jurisdictions, such waiver has always required unanimous consent.

I have already stated that I find that the Minister had the right to move the motion yesterday and the question then comes down to whether or not the motion seeks to waive provisional Standing Order No. 28, which provides the machinery for determining the order for consideration of Estimates. This is a difficult question. It might be argued that as it seeks to alter the result of the provisions of the Standing Order, it is asking for a waiver. However, after due consideration it appears to me that the procedure provided by the Standing Order having already taken place, a motion to alter the result of that procedure does not entail a waiver of the Standing Order itself. It is my opinion therefore that it must be left to the House itself to decide by its vote whether the motion shall carry or be defeated.

I therefore rule that the motion was properly moved and must be allowed to go to a vote of the House.

On appeal, Mr. Speaker's ruling was sustained on the following division:—

The motion by Mr. Welch as follows:

That, in the circumstances of the changes of appointments within the Executive Council, of October 18th, 1978, affecting the Minister of Consumer and Commercial Relations, the Estimates of that Ministry be considered following the Estimates of the Attorney General;

And that the Procedural Affairs Committee hereby be requested to consider the appropriate changes, if any, required to Provisional Standing Order 28, in order to allow the sequence of Estimates in a Policy Field, as previously adopted by the House, to be altered in the case of the death or retirement or reassignment of a Minister, by way of Resolution in the House, having been put the debate continued and after some time the motion carried. ---

The Member for Scarborough-Ellesmere having given notice of dissatisfaction to a response given during the question period pursuant to Standing Order 27, Mr. Speaker delivered the following ruling:—

Before we get on to the second reading of this particular bill, I think I have a responsibility to apprise the member for Scarborough-Ellesmere of some events that happened a little earlier during the question period.

The member for Scarborough-Ellesmere gave notice of his dissatisfaction with the answer to a question which he placed to the Minister of Energy. I have now had an opportunity to see Hansard and to refresh my memory. The question posed by the member was ruled out of order. He asked "Will the Minister define what 'shortly' means?" Therefore, there was no answer given. The member is therefore not able to debate any dissatisfaction in a question that was ruled out of order.

That the motion for Second Reading of Bill 136 intituled "An Act to Stabilize the Employment of Tradesmen in the Construction Industry" be amended by deleting all the words after "That" and substituting therefor the words:—"This Bill be not now read a second time, in order that it may be withdrawn for redrafting in order that: 1. the code or codes of employment practices mentioned in the said Act be restricted to the sole principle of giving preference in employment to construction tradesmen permanently resident in Ontario and that no other interference in employment practices respecting employment in the construction industry be undertaken by the authority of this legislation and that, 2. the sweeping and arbitrary powers given to the Minister as presently contained in Section 2 (1) and Section 6 of the Act be deleted because the provisions of these Sections could be used to take away protections of the employees affected not only as those protections are outlined in the constitutions, bylaws, and collective agreements of the unions involved but could also be used to take away protections embodied in legislation affecting workers such as the Workmen's Compensation Act, the Labour Relations Act, the Employment Standards Act, the Construction Safety Act and the Employee's Health and Safety Act, and because none of these powers are necessary for the purposes of the present Act and that, 3. the Government adopt legislation more in keeping with the principles outlined in Bill 98, a Bill intituled "An Act to Provide for Residence Requirements for Construction Workers in Ontario" as presented in the Legislature by the Honourable Member for Cornwall (Mr. Samis) and that, 4. the Government include a sunset provision in the legislation so that it expires 18 months from the time it receives Royal Assent".

Last evening at 10.30 p.m. the Member for Scarborough-Ellesmere raised a point of order concerning Bill Pr46, An Act respecting the Capuchins of Central Canada.

This Bill was introduced on November 2nd and was not available to Members until this morning, November 7th. Standing Order 62 (a) requires that notice be posted for the consideration of a Private Bill. Five days notice has been given; however since the Bill was not available to Members until this morning the Chairman of the General Government Committee may wish to consider the advisability of delaying consideration of the Bill for one week. I am reluctant to intervene in the business of the committee. The purpose of adequate time before the consideration of legislation, it seems to me, is self-evident.

## NINETY-SIXTH DAY

FRIDAY, NOVEMBER 10TH, 1978

---

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:—

Tomorrow, November 11th, is the 60th anniversary of Armistice Day. May I draw to the attention of members of the wide selection of orders, medals and decorations awarded to Canadians for their war efforts in both the first and second world wars which is on display in the main lobby of this building.

Contained in the exhibition is a tribute to the late Major B. Handley Geary, V.C., the Sergeant-at-Arms of this House from 1947 to 1971. Major Geary's miniature medals and a water colour rendering of his bravery on Hill 60 on April 20th and 21st, 1915 have been loaned for the purposes of this display by Mr. and Mrs. David Geary of Niagara-on-the-Lake.

In the two World Wars and the Korean action over 100,000 Canadians gave their lives so that we might enjoy freedom. Tomorrow in communities across Canada a minute of silence will be observed at 11 o'clock. I can think of no place more fitting for the same tribute to be paid to the men and women who sacrificed for us. I ask all the honourable members to join with me in a minute of silence.

## NINETY-SEVENTH DAY

TUESDAY, NOVEMBER 14TH, 1978

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker informed the House that a vacancy in the Membership of the House has occurred by reason of the resignation of Stephen Lewis, Esq., as Member for Scarborough West.

Mr. Speaker addressed the House as follows:—

On Thursday last the House Leader asked unanimous consent to hold Bill 142 from the Royal Assent scheduled for that afternoon. The House Leader of the Official Opposition raised the question as to whether the government did not have the authority to determine which Bills should be presented to Her Honour for assent, as the members of the Executive Council are in fact the chief advisers to Her Honour.

I point out that it is not a question of advising Her Honour as it is not Her Honour's decision which is being sought. If it were, the complex procedure for reserving a Bill by Her Honour would be invoked. The problem is simply that the House has expressed its intention by the passage of a Bill, and when arrangements are made for Royal Assent to be given, the Speaker has no authority unless instructed by the House, to withhold any Bill which the House has passed. This is a problem which need not arise. If it is desired to delay the coming into force of a Bill for an indefinite period pending some other event, such as in the present case the passage of Bill 166, the Bill should provide that it will come into force on proclamation. Had this been done in the present instance, assent could have been given on Thursday but the Bill would not be brought into force until proclaimed, when Bill 166 is passed. If by an oversight provision is not made for proclamation, the simple method is to withhold the Bill from third reading until the companion Bill has reached that stage, or as the case may be.

THURSDAY, NOVEMBER 16TH, 1978

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker delivered the following ruling:—

On Thursday the Member for Scarborough-Ellesmere rose on a point of privilege. I reserved my decision at that time in order that I might study

the Hansard carefully. The Member for Scarborough-Ellesmere quoted a public statement made by the Minister of Health on August 4th. "When I send a memo to the inspection branch asking for a report, the Member will get exactly the same report as I get." The Member went on to say that he posed a question to the Minister of Health and received a written answer which stated in part, "The Member should be aware that it is not the policy of the inspection branch of my ministry to make inspection reports available to the public".

The Minister in response stated that the Member for Scarborough-Ellesmere had received the same report as had the Minister. The Minister said, "The actual reports in the files are not released but the information I get from the staff is exactly what I imparted to the Honourable Member." It appears that there is a dispute over what was expected when the Member for Scarborough-Ellesmere posed his question. I am sure the Member for Scarborough-Ellesmere will accept the Minister's word that the reports in the files were not released to the Minister and the Minister transmitted to the Honourable Member a report which is identical to that which the Minister received.

On the basis of this I find no question of privilege.

## ONE HUNDRED AND NINTH DAY

THURSDAY, NOVEMBER 30TH, 1978

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Tuesday a matter arose during the question period which I feel deserves some attention. A number of questions were addressed to the Minister of Correctional Services regarding a speech he made outside of the Chamber on a matter not concerned with his administrative responsibilities as the Minister for Correctional Services. I permitted the questions at the time, but I wish to advise the House that this procedure is improper and in future I will rule such questions out of order. Ministers are responsible to this House for the conduct of public business as defined by their assigned executive council responsibilities. The private view of Members, whether they be Ministers or Private Members are not subject to questioning during the question period. I hasten to qualify this, of course, by saying that the House is entitled to know if statements made by Ministers represent government policy. This appeared to be the thrust of the questioning last Tuesday. I merely wish to point out to the House that I will be making a clear distinction between questions concerning private views and those concerning the administrative responsibilities of the Ministry.

May I, at the same time, suggest to Honourable Members that in the putting of their question they ought not to assume that a supplementary question will be given as a matter of right. It seems to me we could cover more ground within the experimental hour for questioning if questions were put directly, succinctly and with less putting of statements rather than putting of the questions. Even more strongly I would suggest to Ministers that their

responses be directly to the question and without deviation. I am putting all sides of the House on notice that I intend to judge the question period more firmly in order that a greater number of questions may be put and answered within the allotted time. I find that since the question period has been expanded to one hour the number of questions and answers has essentially remained the same. I would ask the assistance of all Honourable Members in keeping the questions and answers as crisp and to the point as possible. I will be keeping in mind my responsibility to allow as many Members as possible to put questions during the oral question period.

9. The Speaker shall preserve order and decorum, and shall decide questions of order, subject to an appeal to the House, which shall not be subject to debate. In explaining a point of order, or practice, he may state the applicable Standing Order or authority.

10. In the case of grave disorder arising in the House, the Speaker or the Chairman may, if he thinks it necessary to do so, adjourn the House or a Committee without motion, or suspend any sitting for a time to be named by him.

16. The term "sitting" means a period of two and one-half hours, and the term "Sessional day" means any day on which the House sits.

17. The Government House Leader shall announce the approximate date upon which the Assembly will be reconvened prior to the adjournment for recess.

(b) Whenever a matter of privilege arises, it shall be taken into consideration immediately.

## III. RULES OF DEBATE

19. (a) Every Member desiring to speak must rise in his place and address himself to the Speaker, in either English or French.

(b) When two or more Members rise to speak, the Speaker shall call upon the Member who, in his opinion, rose first in his place; no debate is permitted on the Speaker's decision, but a motion may be made that any Member who has risen "be now heard", or "do now speak".

10. Charges another Member with uttering a deliberate falsehood.

(b) When a Member is named by the Speaker, if the offence is a minor one, the Speaker may order the Member to withdraw for the balance of the day's sittings; but if the matter appears to the Speaker to be of a more serious nature, he shall put the question on motion being made, no amendment, adjournment or debate being allowed, "that such Member be suspended from the service of the House", such suspension being for any time stated in the motion not exceeding two weeks.  
  
(c) When a Member has been named by the Chairman when the House is sitting in Committee, the Chairman shall forthwith suspend the proceedings of the Committee and report the circumstances

to the House and the Speaker shall then proceed as in clause (b), as if the offence had been committed in the House itself.

(d) If any Member who is suspended from the service of the House, refuses to obey the direction of the Speaker when summoned under the Speaker's Order by the Sergeant at Arms, the Speaker shall call to the attention of the House that force is necessary in order to compel obedience and any Member named by him as having refused to obey his direction shall thereupon, without any further question being put, be suspended from the service of the House during the remainder of the Session.

21. When the question under discussion does not appear on the Order Paper or the Notice Paper, or has not been printed and distributed, any Member may require it to be read at any time of the debate, but not so as to interrupt a Member while speaking.

#### V. ROUTINE PROCEEDINGS

25. The routine proceedings before the Orders of the Day are as follows:

Statements by the Ministry

Oral Questions

Petitions

Reports

Motions

Introduction of Bills

*Statements by the Ministry*

26. (a) Statements may be made by Ministers relating to Government policy, ministry action and other similar matters of which the House should be informed.

(b) Two copies of each Ministerial Statement shall be delivered to Opposition Party Leaders, or their representatives, at or before the time the statement is made in the House.

(c) After any policy statement the Minister shall table a compendium of background information.

*Oral Questions*

27. (a) The oral Question Period shall be limited to 60 minutes, including Supplementary Questions and Points of Order. Questions on matters of urgent public importance may be addressed to the Ministers of the Crown but the Speaker shall disallow any question which he does not consider urgent or of public importance. If in the opinion of the Minister or the Speaker the question requires a lengthy answer, either the Minister or the Speaker may require it to be placed on the Notice Paper as a written Enquiry of the Ministry. The Minister may take an oral question as notice to be answered orally at a later sitting but where any reserved answer requires a lengthy statement, the statement shall be given under "Statements by the Ministry".

(b) The order of oral questions shall start with two questions from the Leader of the Opposition, followed by two questions each from the leader or leaders of the other opposition parties in order of their membership in the House; all parties shall then rotate in questioning, starting with the official Opposition.

(c) If a Member so wishes, he may give notice of an oral question directly to the Minister concerned.

(d) In the discretion of Mr. Speaker, a reasonable number of supplementary questions arising out of the Minister's reply to an oral question may be asked by any Members.

(e) In putting an oral question, no argument or opinion is to be offered nor any facts stated, except so far as may be necessary to explain the same; and in answering any such question, the Member is not to debate the matter to which it refers.

(f) A Minister to whom any oral question is directed may refer the question to another Member who is a member of a board or commission to which the question applies.

(g) Parliamentary Assistants may direct questions to Ministers other than their own.

(h) Parliamentary Assistants may answer for their Ministers only when authorized by the Premier.

(i) A Minister may, in his discretion, decline to answer any question.

However, a Member who is not satisfied with the response to an oral question, or who has been told that his question is not urgent or of public importance, may give notice orally at the end of the Question Period that he intends to raise the subject matter of his question on the adjournment of the House and must give written notice to the Speaker not later than 4.00 p.m. the same day and file reasons for dissatisfaction with the Clerk at the Table before 8.00 p.m.

(b) Where notice has been given and reasons filed, as provided in clause (a), at 10.30 p.m. on any Tuesday or Thursday, the Speaker may, notwithstanding Standing Order 3, deem that a motion to adjourn the House has been made, whereupon the matter in question may be debated for not more than ten minutes, five minutes to be allowed to the Member raising the matter and five minutes to the Minister or to his Parliamentary Assistant to reply if he so wishes. When there are several such matters to be debated the total time allowed for the debates shall not exceed thirty minutes, at which time the Speaker shall deem the motion to adjourn to be carried and shall adjourn the House to the next Sessional day.

(c) Undertakings by Ministers may be debated on adjournment and the same provisions as to notice, reasons and limitations apply as in the case of other adjournment debates.

(d) When more than one notice has been given under this Standing Order, the Speaker shall decide the order in which the matters are to be raised, having regard to the order in which notices were given, to the urgency of the matters raised, and to the apportionment of the opportunities to debate the matters among Members of the various parties in the House.

(e) Not later than 5.00 p.m. on any Tuesday or Thursday, the Speaker shall indicate the matter or matters to be raised at the time of adjournment that day.

(f) When the House continues to sit past 10.30 o'clock p.m., on Government motion as provided in Standing Order 3, the adjournment proceeding under this Standing Order shall not apply.

#### *Petitions*

29. (a) A petition to the House may be presented at any time during the Session by a Member filing it with the Clerk of the House or in the manner set out in clause (b).

(b) A Member may present a petition from his place in the House during the routine proceedings under the proceeding "Pe-

titions". He shall endorse his name thereon and confine himself to a statement of the petitioners, the number of signatures and the material allegations.

(c) Petitions may be either written or printed and only the original, properly signed, and addressed to the Lieutenant Governor and the Legislative Assembly may be presented.

(d) Petitions must not be signed by a solicitor as such, unless he is acting for a petitioner unable to sign due to absence from the Province or illness, and only then if the solicitor holds a Power of Attorney to be produced to the Clerk of the House if required.

(e) Members presenting petitions are answerable that they do not contain any improper matter.

(f) No petition shall be received that prays for any expenditure, grant or charge on the public revenue, whether payable out of the Consolidated Revenue Fund, or out of moneys to be provided by the House.

(g) Every petition that is in order shall be brought to the Table and read by the Clerk if required.

(h) No debate shall be allowed on the presentation of a petition, unless it complains of some urgent personal grievance requiring immediate remedy, in which case it may be taken into consideration immediately.

(i) The Ministry shall provide a response to a petition within two weeks of its presentation.

### *Reports*

30. (a) Reports of standing or select committees on Bills shall be taken into consideration immediately.

(b) Other committee reports shall be presented to the House by the Chairman with a brief statement from the Chairman only, and where a report includes a request for consideration by the House, or where such consideration is requested by a petition of twenty Members filed with the Clerk, a Government order shall be placed on the Order Paper for consideration by the House.

(c) When presenting a report the Chairman of a Standing or Select Committee may move the adoption of the report if it contains a substantive motion. After moving the adoption of the report the Chairman may make a brief statement and then shall adjourn the debate. The adjourned debate shall be carried on the Order Paper daily to be called by the Government House Leader in the same manner as Government Orders.

### *Routine Motions*

31. Under the proceeding, "Motions", the Government House Leader may move routine motions that are part of the technical

procedure of the House, such as for times of meeting and adjournment of the House, changes in membership of committees and similar non-substantive motions. These routine motions do not require notice or a seconder.

#### *Introduction of Bills*

32. (a) Every Bill shall be introduced upon a motion, properly seconded, for leave for introduction and first reading, specifying the title of the Bill, no notice being required.

(b) The motion for introduction and first reading shall be decided without amendment or debate, but in the case of a public Bill, the mover may make a brief explanation of its purposes.

(c) On the introduction of a Government Bill, a compendium of background information shall be delivered to the Opposition critics. If it is an amending Bill, an up to date consolidation of the Act or Acts to be amended shall be delivered to the Opposition critics unless the Bill amends an Act amended previously in the session.

(d) No Bill may be introduced in blank or imperfect form.

## VI. ANNUAL REPORTS AND OTHER SESSIONAL PAPERS

33. (a) Ministers shall present all reports required by statute within six months of the close of the reporting period unless reasons for delay are given to the House.

(b) The statutory annual report of each ministry and of all boards and commissions and other agencies reporting to each Minister for the immediate past reporting period, shall be presented to the House before the consideration of the Minister's Estimates unless reasons are given to the House for non-compliance. On the petition of twenty Members any such report shall be referred to a standing or select committee of the House.

(c) Where a petition is presented under clause (b), the Speaker shall inform the House of the receipt of the petition and of the referral of the report to the committee requested. The chairman of the committee to which the report is referred shall then arrange with Members of the Committee the allocation of time for the examination of the report.

(d) Reports, returns and other documents required to be laid before the House by any Act of the Assembly or under any Standing Order or Resolution of the House, or that any Minister wishes to present to the House, may be deposited with the Clerk of the House, whether or not on a sitting day, and such report, return, or other document shall be deemed for all purposes to have been presented to or laid before the House. A record of any such document shall be entered in the Votes and Proceedings on the day it is filed except that where it is filed on a day that is not a sitting day, it shall be entered in the Votes and Proceedings of the next sitting day.

(e) The Minister concerned shall distribute copies of all reports to all Members of the House and copies of any background material to the opposition critics.

## VII. PROCEDURAL MOTIONS

34. (a) Before the Orders of the Day, any Member may move to set aside the ordinary business of the House to discuss a matter of urgent public importance of which he has given written notice to the Speaker at least two hours before the sitting of the House. Such Member may explain his arguments in favour of his motion in not more than five minutes. One Member from each of the other parties in the House may state the position of his party with respect to the motion in not more than five minutes. The Speaker shall then rule on whether or not the motion is in order and of urgent public importance. If he rules in favour of the motion, he will then put the question: "Shall the debate proceed?" to a vote of the House.

(b) If the House determines by its vote to set aside the normal business of the House to discuss a matter of urgent public importance, each Member who wishes to speak in the discussion shall be limited to ten minutes, and the debate shall conclude when all Members who wish to take part have spoken or at the hour of 6.00 o'clock p.m., or 1.00 o'clock p.m. on Friday, whichever shall be first.

(c) A motion under this Standing Order is subject to the following conditions:—

- (i) The matter proposed for discussion must relate to a genuine emergency, calling for immediate and urgent consideration;
- (ii) not more than one such motion may be made at the same sitting;

- (vi) the discussion under the motion must not raise any question that, according to the Standing Orders of the House, can only be debated on a distinct motion under notice.

35. (a) Subject to clause (c) of Standing Order 30, a motion to adjourn the House or the debate may not be moved until after the Orders of the Day or Notices of Motion have been entered upon except by unanimous consent of the House. Such motions do not require notice or a seconder.

(b) When a motion for the immediate adjournment of the House has been defeated, no other such motion shall be made unless some intermediate proceeding has taken place.

(c) A motion for the adjournment of a debate or of the House during any debate, or for the Chairman of a Committee to report progress, or to leave the Chair, is not debatable.

36. The previous question, which may be moved without notice or a seconder, until it is decided shall preclude all amendment of the main question, and shall be in the following words:—"That this question be now put". Unless it appears to the Chair that such motion is an abuse of the Standing Orders of the House or an infringement of the rights of the minority, the question shall be put forthwith and decided without amendment or debate. If the previous question is resolved in the affirmative, the original question shall be put forthwith and decided without amendment or debate.

### VIII. SUBSTANTIVE MOTIONS

37. (a) A substantive motion is one that is not incidental to any other business of the House, but is a self-contained proposal capable of expressing a decision of the House. Examples of such motions are: the motion for an Address in Reply to the Speech from the Throne, the Budget motion, want of confidence motions in allotted sittings, Resolutions, motions for returns or addresses, and motions for the appointment of committees.

(b) Prorogation of the House shall not have the effect of nullifying an Order or Address of the House for returns or papers, but all papers and returns ordered at one Session, if not complied with during the Session, shall be brought down during the following Session without renewal of the Order.

(c) Such motions require notice, must be submitted to the Speaker in writing when moved, and must be seconded before being put to the House for debate.

(d) No motion shall be prefaced by recitals or preambles.

38. Whenever the Speaker is of the opinion that a motion offered to the House is contrary to the Rules and Privileges of Parliament, he shall apprise the House thereof immediately, before putting the question thereon, and may quote the rule or authority applicable.

39. No motion, or amendment, the subject matter of which has been decided upon, can be again proposed during the same Session.

40. A Member who has given notice of or moved a motion may withdraw the same.

### IX. GOVERNMENT BUSINESS

41. Except as otherwise provided in these Standing Orders, government business will be taken up in the discretion of the Government House Leader or a Minister acting in his place.

### *Supply*

43. (a) The Budget motion, upon proper notice, shall be moved by the Treasurer following the completion of the debate on the motion for an Address in Reply to the Speech from the Throne, and amendments and in so doing the Treasurer shall present the Budget and Budget papers.

46. (a) Approximately half the Estimates shall be referred to Standing Committees including the Office of the Assembly, the Office of the Provincial Auditor, the Office of the Chief Election Officer, the Office of the Commission on Election Contributions and Expenses and the Office of the Ombudsman, and no Estimates shall be considered in such a committee while any matter relating to the same policy field is being considered in the House.

(b) Not more than two Standing or Select Committees shall consider Estimates at the same time concurrent with the House, and only one committee may meet on Estimates if such is required by 20 Members standing in their places.

(c) Any Estimates not referred to Standing Committees shall be considered in Committee of Supply, and it shall be the duty of the Chairman to record the time spent in consideration of each set of Estimates.

(d) When the Committee of Supply has completed the time allotted to it under Standing Order 45 (b), the Chairman shall put all questions necessary to carry every vote and item of each Estimate reserved to the Committee and not yet passed by it and such questions are not debatable.

47. The order in which Estimates are to be considered shall be determined in rounds through the House Leaders, the official Opposition first, followed by other opposition Parties in order of their membership in the House, and finally the Government, until all Estimates are allocated, and Estimates shall, as far as is practicable, be grouped in the Committee of Supply or Standing Committees according to policy fields.

48. (a) Before a Minister's Estimates are considered he should provide advance briefing material to the Opposition critics in a format to be determined by him and where possible he should also provide the latest estimates of actual expenditures in the preceding fiscal year.

(b) The Chairman of a Committee considering Estimates shall apportion the time available among the Minister, Opposition critics and other Members.

(c) Latitude shall be permitted to Opposition critics on the first item of the first vote of each set of Estimates, and thereafter Members shall adhere strictly to the Vote and item under consideration.

(b) The time taken up for debates under clause (a) shall be deducted from the 420 hours provided in clause (b) of Standing Order 45.

50. A motion for Interim Supply requires notice and shall be for a period not exceeding six months.

51. Management Board Orders shall be printed in *The Ontario Gazette*, with an explanation of significant variances from printed Estimates and a summary of special Warrants shall be tabled on the first sitting day following the issue of the warrants.

#### *Government Bills*

52. No notice or seconder is required for motions for second or third reading of bills or for hoist motions, such motions being ancillary; but a motion for a reasoned amendment to a motion for second or third reading does require notice and a seconder.

53. (a) The Order of the Day for second reading of a Bill shall not be called until the Bill has been printed and distributed and marked PRINTED on the Order Paper.

(b) A Bill shall not be called for second reading if the Clerk of the House is notified by 12 o'clock noon of the Sessional day following its introduction of intention to give notice of a reasoned amendment to the motion for second reading, if the notice is filed with the Clerk by 12 o'clock noon of the second day following introduction.

(c) If notice is filed as provided in clause (b), the Order for second reading shall not be called before the third Sessional day following introduction, but if the notice is not filed as provided, the notice of intention shall lapse and the Order for second reading may be called at the discretion of the Government House Leader.

(d) No Bill shall be considered in any Standing or Select Committee while any matter relating to the same policy field is being considered in the House.

54. (a) If a reasoned amendment or a hoist motion is offered to a motion for second or third reading, the first question proposed by the Speaker is whether the Bill will NOW be read a second or third time, as the case may be. If this question is decided in the affirmative, the Bill shall immediately be read the second or third time.

(b) If the question in clause (a) is decided in the negative, the Speaker shall then put the proposed amendment to the House and at that time, but not before, an amendment to the amendment may be offered.

55. A reply is allowed to the Minister or Parliamentary Assistant who has moved second or third reading of a Bill, after all members wishing to speak to the motion, and any amendments thereto, have spoken and the Speaker shall inform the House that the reply closes the debate.

56. (a) Every Public Bill shall be read twice in the House before committal or amendment.

(b) When a Bill has received second reading it may, by unanimous consent, be ordered for third reading.

(c) If such unanimous consent is refused, the Bill will be referred to Committee of the Whole House or to a Standing or Select Committee, as the Minister or Parliamentary Assistant designates; but if twenty members stand in their places such references shall be to a Standing or Select Committee.

57. When a Bill is referred to a Standing or Select Committee after second reading, it shall not be considered in committee until at least five days after the referral, unless a waiver of this interval has been granted on the request of the Minister or Parliamentary Assistant; but no such waiver shall be granted if twenty Members register their objection by standing in their places.

58. When time permits, amendments proposed to be moved to Bills in any committee shall be filed with the Clerk of the House at least two hours before the Bill is to be considered, and copies of such proposed amendments shall be distributed to all Parties.

59. (a) Bills reported from the Committee of the Whole House shall stand ordered for third reading and Bills reported from Standing or Select Committees shall, by unanimous consent, also be ordered for third reading; but an Order for third reading may, on motion, be discharged by the House and the Bill referred back to a Committee.

(c) When a Bill that is reported from a Standing or Select Committee is referred to Committee of the Whole House, it shall not be taken up earlier than the second day after the referral.

60. When a Bill is considered by the Committee of the Whole House, the Chairman shall inquire whether any comments, questions or amendments are to be offered and to which sections and will call only such sections. If no sections are so designated, the Bill shall be reported as a whole.

61. (a) No Bill shall pass unless it receives three readings, and the date of each reading shall be certified on the Bill by the Clerk of the House.

(b) A Bill shall not pass more than one stage on one day if opposed by twenty members standing in their places.

#### *Government Motions*

62. When a debate arises on any government substantive motion, the Minister or Parliamentary Assistant who moved it has a right of reply and the Speaker shall inform the House that such reply closes the debate.

Mr. Speaker then said:—

“MAY IT PLEASE YOUR HONOUR:

We, Her Majesty’s most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty’s person and Government, and humbly beg to present for Your Majesty’s acceptance a Bill intituled, “An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal year ending the 31st day of March, 1979.”

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

“The Honourable the Lieutenant Governor doth thank Her Majesty’s dutiful and loyal subjects, accept their benevolence and assent to this Bill in Her Majesty’s name.”

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is my duty to bring to a close this Second Session of the Thirty-first Parliament of Ontario, a Session marked by hard work and rewarded by steady progress in numerous areas of public concern. While some few matters remain to be resolved, still it can be noted that the program outlined by the Government last February has largely been accomplished.

Our Province has continued to play a full and vital role in issues of national interest and concern. This role has been strengthened by the creation, this Fall, of a new Ministry of Intergovernmental Affairs to provide direct liaison between Ontario and other governments, at all levels.

At the Conference of First Ministers a week before the start of this Session, a 10-point proposal by Ontario received endorsement, for the most part, as the framework of a national strategy for job creation and economic recovery. That agreement was actively pursued at a subsequent meeting of First Ministers at the end of November.

Ontario's commitment to the agreement was largely implemented in the 1978 Budget presented to this Assembly on March 7, which put into effect initiatives on which the Province would take action on its own.

Two measures in particular, namely suspension of the 7 per cent retail tax on accommodation and introduction of a Tourism Awareness program by the Ministry of Industry and Tourism, have been enthusiastically accepted and are playing a part in reversing the current deficit in the provincial tourism account.

To counter the trade deficit in manufacturing goods, the Ministry also set its sights on replacing \$10 million worth of imports to Ontario for the current fiscal year by more aggressive promotion of domestic marketing opportunities. This initiative is in addition to the Province's participation in the "Shop Canadian" campaign launched in May.

As well, Ontario took part in a federal-provincial economic stimulation program, whose main feature, a 6-month reduction of the retail sales tax by 3 per cent, was directed toward bolstering consumer and business confidence.

Some 23,000 employers in the private sector took advantage of the Ontario Youth Employment Summer Program, which created a record of more than 39,000 jobs at a cost to the Government of \$25 million. At the same time, the duration of the program was extended this year from 16 weeks to 25 weeks, and the subsidy to employers increased from \$1 to \$1.25 an hour.

In the permanent job market, the Ministry of Colleges and Universities is working to bring a renewed focus to apprenticeship training, to counter the serious shortage of skilled workers in the province, and is meeting with encouraging response. The program, funded by the Government of Canada, emphasizes private-sector employer-sponsored training at the local community level.

Ontario's comprehensive Family Law Reform legislation was proclaimed on March 31st bringing into force a modern code of justice in economic relations between spouses and among other persons in the event of family disputes.

A higher rate of fees for jurors who serve on long trials has been set, to alleviate the difficulties imposed on many people in meeting this important civic obligation.

A new Securities Act and complementary Commodity Futures legislation have received Royal Assent.

A major overhaul of The Liquor Licence Act, includes a provision to raise the legal drinking age to 19, effective December 31st. Concerns about alcohol abuse in our society are reflected in stricter laws on drinking and driving which now call for a 3-year suspension of a driver's licence on the third conviction.

Amendments to The Ministry of Correctional Services Act provide for exchange of service agreements with the Government of Canada and assumption by Ontario of responsibility for parole in provincial institutions. A new system of earned remissions by inmates is a positive addition to the progressive community-service focus of a number of existing corrections programs.

Significant protections for children in our society are embodied in reforms to nine Acts dealing with children's services. Among them, major revisions to The Child Welfare Act incorporate provisions to serve the "best interests" of the child as well as for independent legal representation of children.

The process continues of consolidating and streamlining children's services, as much as possible, within a single ministry. Recent changes include the transfer of responsibility for children's probation services to the Ministry of Community and Social Services under a new Children's Probation Act, which came into force on July 1st.

Two interim reports from the Select Committee on Ontario Hydro Affairs and one from the Royal Commission on Electric Power Planning attest to the continuing high priority given by Members of this House to the problems and costs of meeting Ontario's future energy needs.

A new Indian Commission of Ontario has been created as the provincial participant in tripartite consultations with the Indian Community and the Federal Government. This tripartite forum will negotiate issues of special interest to the Indian Community. It responds, for the most part, to the Interim Report of the Royal Commission on the Northern Environment, brought down in April by Mr. Justice Patrick Hartt, who has been named the Province's first Indian Commissioner.

The Government set to work early in the year to meet its commitment to develop comprehensive tenant protection provisions with the publication of a "Green Paper". The opportunity thus provided for public debate and response was supplemented by a review of the policy options by the Standing General Government Committee throughout the spring.

Finally, at the end of October, legislation was introduced combining the residential aspects of The Landlord and Tenant Act with a revised form of the present rent review program. The new Residential Tenancies Act also breaks new ground in that it marks the first attempt at writing the law in layman's language, as part of the drive for a more straightforward or "deregulated" approach in carrying on the Government's business.

The culmination of this process of open consultation and debate will be in enactment of a body of law that prescribes a fairer and smoother course in

future landlord-tenant relations. In the meantime, the provisions of the existing rent review program will continue to apply.

All legislation dealing with the health and safety of workers has been consolidated into a single body of law. The Occupational Health and Safety Act, fashioned to a great extent from the recommendations of the Royal Commission on the Health and Safety of Workers in Mines, was first introduced in October, 1977. The Bill has been the subject of detailed scrutiny and extensive debate. Substantive amendments now have the approval of the House. The legislation, applying as it does to the vast majority of workers in Ontario, represents a significant advance in safeguarding the health of Ontario's working men and women on whom the continued strength and progress of our society must rest.

Earnings eligibility ceilings and maximum workmen's compensation benefits were increased on July 1st. New benefits in minimum compensations for temporary or permanent disability, as well as pension increases and other allowances for dependents, were also introduced.

The Ministry of Natural Resources is undertaking two watershed projects in Eastern Ontario, in conjunction with the South Nation River Conservation Authority. The projects, announced in June, are part of a land reclamation and resource development plan to improve the economic productivity of the area.

A federal-provincial agreement, signed at approximately the same time, covers a 5-year forest industry and job creation program also directed toward improving the economy in Eastern Ontario.

Conscientious efforts have been made in all ministries to improve relations between Government and the public, in keeping with stated policies on better "Customer Service" and "Deregulation". As well, there has been a marked increase in the provision of services in French, ranging from the publication of documents and information for the public to legislation providing for French-language court trials.

As indicated by this summing up, this Session has produced achievements from which Honourable Members may derive no small sense of satisfaction. In declaring the Session prorogued, may I commend you on the reasoned debate, the give and take and the sense of duty to the public interest that have prevailed in the activities of the past ten months.

May I also take this opportunity to extend warm and sincere greetings to you all and to your families for a happy holiday season.

In our Sovereign's Name, I thank you.

God bless the Queen and Canada.

The Government House Leader then said:—

*Mr. Speaker and Members of the Legislative Assembly:*

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
