2:00 P.M.

14 H 00

This being the first day of the Second Session of the Thirty-ninth Parliament convoked by Proclamation of the Lieutenant Governor for the dispatch of business, and the members of the House having assembled:

His Honour the Lieutenant Governor entered the Legislative Chamber and, having taken his seat on the Throne, was pleased to open the Session by reading the following gracious speech:

Mr. Speaker, Members of the Legislative Assembly, people of Ontario.

Since the global recession struck, things have been difficult for many Ontario families.

In the manufacturing sector, the last two years have been particularly hard.

Many of us know someone who has lost a job.

Perhaps even in our own families.

Some say the worst has passed and the recession is ending.

Yet the damage remains.

Companies have downsized, some have moved, some have closed their doors for good — not just here in Ontario, but in neighbouring states and provinces, and places all around the world.

No place has escaped the Great Recession unscathed.

That is why your government is responding to the extraordinary challenge of the global recession with two extraordinary measures.

First: it plans to invest over \$32 billion in roads, bridges, public transit and energy retrofits for our schools.

This is creating and sustaining over 300,000 jobs and puts money into the hands of families, where it is needed — and it is stimulating our economy while we emerge from the recession.

Second: your government is supporting Ontarians in their choice to go back to school so they can get a good job — not just any job.

Ontario's Second Career Program is a first for Canada because it supports up to two years of long-term training.

For people like Jason Boylan — one of the first participants in the program — Second Career has made a real, positive difference.

When he was laid off from an auto parts manufacturing job, he enrolled in Culinary Management at Fleming College.

Jason graduates in a few weeks and has several good job offers on the table.

Your government congratulates him — and over 26,000 other Ontarians who have entered the program.

The Open Ontario Plan

Helping people and communities hurt by the recession is an important responsibility your government takes seriously.

But it is also laying a new foundation for growth.

Because — even in tough times — Ontarians have always looked to their future.

Where others see a world that threatens, Ontarians see opportunity that beckons.

We carved our province out of a harsh northern land.

Our people endured, and they thrived.

They began to mine the land, and harvest the forests.

Our people built farms and schools and towns and cities.

We gave the world great artists, poets and novelists.

We invented medicines that have saved millions of lives.

We laid down our lives on the battlefields of history's bloodiest wars.

We built the cars, trains and planes that moved the world into the 20th century.

We built an economy supporting a quality of life for our families that is the envy of the world.

And as we begin the second decade of the 21st century — as our world faces unprecedented economic, environmental and social challenges — one thing remains clear.

The world needs Ontario.

The world needs what we have to offer.

It needs our schools — to educate the best and brightest citizens of the world who will go on to solve the problems of our world.

It needs our innovators — who have invented tools such as the Blackberry that keep our world connected.

It needs our skilled workers — who continue to build the advanced products the world needs.

It needs our diversity — because nowhere else do more people come together from more places to live so well, together.

It needs our compassion — because not only do we lift one another up through our health care system and our public services, but when disaster strikes as it did in Haiti and Chile, Ontarians open their hearts to the world.

And when duty calls — as it has in Afghanistan — our people are there to serve. And when our people return from service, we honour them.

Ontarians have always been citizens of Canada and citizens of the world.

At the start of the 20th century, Ontario was there for the transition from buggy whip to the automobile, helping our country compete and our world move faster.

At the start of the 21st century, Ontario will be there for the transition to a new, clean economy, to help our nation and our world move more efficiently.

We will continue to build the world's cars — but they will be the more efficient cars the world needs.

We will continue to have a strong manufacturing sector — but increasingly, it will be advanced manufacturing that builds on the skills and education of our people.

Yes, our world has changed.

But one thing remains.

Our world needs Ontario — more than ever.

The world presents us with more opportunity than ever.

And we need to be ready.

The next five years will be decisive for Ontario.

That's why your government is launching a new, five-year Open Ontario Plan.

Because growing our economy, and growing stronger, requires that Ontario be open to change, open to opportunities, open to our new world.

The Open Ontario Plan will create an Ontario even more open to new ideas, new people, new investment — not only to replace old jobs that have gone — but to create the new jobs that are coming.

Not only to build the things that made us great in the last century — but to build the things that will make us great in this one.

Your government is launching that plan today.

A plan for our economy

The Open Ontario Plan begins with creating a climate where business can thrive, create jobs and build innovative new products to sell to the world.

Creating that climate has begun through a package of tax reforms that modernize our tax system to make us more competitive and create more jobs.

Income taxes for Ontarians were cut on January 1.

Your government is also cutting corporate income taxes and eliminating the capital tax this year.

And in lockstep with the federal government, Ontario is introducing a harmonized sales tax.

Independent economists say these changes will create nearly 600,000 more Ontario jobs over the next 10 years — including over 100,000 in manufacturing alone.

So these improvements to the tax system benefit all Ontarians.

They mean that Ontario businesses — from factories to small businesses — will have more money to invest in their future. And more time and resources to focus on their business instead of dealing with red tape.

This will allow them to keep or hire more people and create a workforce that can take on the world.

Another part of your government's Open Ontario Plan that is already underway is the Green Energy Act.

It provides a stable price for clean energy producers so they will invest here, and create up to 50,000 Ontario jobs in new, clean industries that did not exist a few years ago.

It is already paying dividends.

In January, Samsung announced the biggest investment of its kind in the world: \$7 billion to create 2,500 megawatts of clean power and some 16,000 Ontario jobs.

Your government will soon welcome hundreds of new, clean energy investments in Ontario through its feed-in tariff program — which is attracting the interest of the world's investors and entrepreneurs.

Those projects will need solar panels and wind turbines.

Ontarians will build them.

And we will sell them all over North America.

Your government is also doing its part to streamline services for business through its Open for Business strategy.

Those are just some of the steps your government is taking to create an Ontario that is more open to new investment, new Ontario jobs, and new industries.

Today, it takes another step.

As part of its Open Ontario Plan, your government will introduce legislation that will build on Ontario's expertise in clean-water technology.

The Water Opportunities Act would lay the foundation for new Ontario jobs and make our province the North American leader in the development and sale of new technologies and services for water conservation and treatment.

The Conference Board of Canada estimates the global market for water technology at more than \$400 billion US per year — and doubling every five to six years.

In the next 20 years, worldwide demand for water is expected to be 40 per cent greater than current supply — a crisis in the making if the world does not act.

Already, Ontario is beginning to provide solutions.

From water conservation to nanotechnology, Ontario companies are leading the way — and employing 22,000 people in good, high-paying Ontario jobs selling water technology around the world.

Your government will work with our colleges, universities and entrepreneurs to create even more Ontario jobs and attract even more clean-water expertise and investment to our province.

It will strengthen protections for our water — including the Great Lakes.

It will build on our strong foundation of water expertise — and make our province the clean water capital of North America.

Your government will also support growth and expansion in our agrifood sector by working through Ontario's Ministry of Agriculture, Food and Rural Affairs to create new opportunities to buy local food, and open up new markets outside the province — because the world needs the good things that grow in Ontario.

Your government also knows that northern Ontarians face particular challenges — and that the global recession has had a deep impact in northern communities.

Your government will ensure the North benefits from its Open Ontario Plan.

In 2008, northern Ontario became home to our first diamond mine.

Your government will build on that success — particularly in the region known as the Ring of Fire.

It is said to contain one of the largest chromite deposits in the world — a key ingredient in stainless steel.

There is no substitute for chromite. There is no North American producer of chromite.

It's the most promising mining opportunity in Canada in a century.

Your government is fully committed to working with northerners, Aboriginal communities and mining partners to fully realize the Ring of Fire's potential.

Together, we will create Ontario jobs and support northern families as we continue to protect 50 per cent of the northern Boreal Forest.

As well, your government will continue to promote economic opportunity and consultation with Aboriginal communities as part of an improved and productive relationship that has been forged with Aboriginal peoples.

Your government also understands that the bedrock of our province's economy includes one of the strongest financial services industries in the world.

Canada's banks — based here in Ontario — are widely recognized as the soundest in the world.

Toronto is now North America's third largest financial centre and home to 350,000 jobs. Ontario-wide, the sector supports 625,000 jobs.

So your government is working with the Financial Services Leadership Council to support the industry and create a strategy to make Toronto one of the world's elite financial centres.

And your government applauds the federal government's efforts to create a national securities regulator. It should be located in Toronto.

Your government will continue to open up new economic opportunities for all Ontarians through the Accessibility for Ontarians with Disabilities Act, which will make Ontario accessible by 2025.

Your government is grateful for the work of Ontario's 46,000 not-for-profit organizations that are the unsung heroes of Ontario's economy.

Nearly five million Ontarians volunteer their services in their communities.

Some are helping your government reach its goal of reducing poverty rates by 25 per cent in five years.

Some are coaching our young people — like Sandy Cooper-Ryder of London. For 30 years she's been inspiring young people to reach higher, dig deeper and go further — not just on the track, but in all areas of their lives.

Sandy is one of the many dedicated coaches training Ontario's next generation of gifted young athletes, some of whom will compete in the 2015 Pan American games.

On this International Women's Day, your government particularly recognizes dedicated women like Sandy — together with all the volunteers who are making a real difference.

Open Ontario will develop new ways to strengthen the not-for-profit sector — recognizing that in a time of more limited resources, we all need to work together to move our province forward.

To ensure that Ontario's resources are always devoted to our highest priorities, your government has initiated a review of its business enterprises.

If the review concludes that change in Ontario's assets is in the public interest, your government will use the proceeds to better support Ontarians' highest priorities in a global economy — including the strongest possible commitment to the skills and education of our people.

A plan for education

Ontario is already home to the builders, dreamers and innovators of the future.

Right now, they are boys and girls sitting in classrooms across our province.

Tomorrow, they will be men and women, ready to take on the world.

That's why your government has made education its highest priority.

It has reduced class sizes, raised test scores, increased the graduation rate, and created thousands of new spaces in colleges, universities and apprenticeships.

Ontarians are some of the most highly skilled and educated workers in the world.

And that gives us a competitive edge.

It is an edge we must sharpen even further.

That's why, starting this fall, full-day learning for four- and five-year-olds will begin at schools across our province.

This is the first program of its kind in North America.

It's part of a plan to help more children get a strong start in school — so they can go on to college, university or training programs — and find a great job.

It will help lift more children out of poverty.

It will help busy parents balance their work and their family lives.

It will build a stronger economy for Ontario.

Because to put it simply — the places with the strongest schools, today, will have the strongest economies tomorrow.

Ontario has one of the highest rates of postsecondary education in the world at 62 per cent. Since 2003, your government has added 180,000 students to our colleges, universities and apprenticeships.

But we need to reach even higher, knowing that in the new world, 70 per cent of all new jobs will require postsecondary education.

So your government's Open Ontario Plan will raise Ontario's postsecondary rate to 70 per cent.

Your government's plan begins with increasing spaces in colleges and universities for 20,000 students this year.

That's the equivalent of a whole new University of Guelph.

Under your government's Open Ontario Plan, every qualified Ontarian who wants to go to college or university will find a place.

Right now, 120,000 Ontario apprentices are learning a trade.

Your government recently established an Ontario College of Trades to modernize Ontario's apprenticeship and skilled trades system.

Open Ontario will continue to stand behind the talented and skilled tradespeople who have made our province strong, while enhancing workers' safety.

Your government will work with all its partners in education, training and business to develop a new, five-year plan to improve the quality of Ontario's postsecondary education system.

Your government will create the new Ontario Online Institute, bringing the best professors in the top programs at Ontario universities to the homes of those who want to pursue this new option for higher learning.

Your government's Open Ontario Plan will also open our colleges and universities to the world.

Millions of families around the globe want what Ontarians have — a quality postsecondary education that leads to a good job and a secure future.

The world needs Ontario's schools.

So your government will aggressively promote Ontario postsecondary institutions abroad, and increase international enrolment by 50 per cent while maintaining spaces for Ontario students.

Their contributions will strengthen our schools and create more Ontario jobs.

Together, we will make Ontario a classroom for the world.

A plan for health care

In Ontario, we care for our people.

In Ontario, no one who gets sick is turned away.

In Ontario, quality health care is one more thing families don't have to worry about, and one more advantage we have over the competition.

Your government has strengthened that advantage.

In the last six years, 900,000 more Ontarians got access to a family doctor.

More international doctors got their licence to practise here.

The first nurse practitioner-led clinics in North America are opening their doors.

Because Ontarians believe in lifting one another up, and caring for one another — we have shorter wait times for cancer surgeries.

We have faster care at emergency rooms and improved and expanded hospitals.

Your government has acted because Ontarians demand, expect and deserve public health care that is second to none.

Your government remains focused on reducing emergency wait times, and achieving results in diabetes and e-health in communities across Ontario.

In the past, the question facing Ontarians was: “will health care be there for me and my children?”

Ontarians have answered that question with a resounding: yes.

Together, we are absolutely committed to a strong public health care system.

But today we face new challenges that require a new plan.

Just 20 years ago, 32 cents of every dollar spent on government programs were spent on health care.

Today, it is 46 cents.

In 12 years, it could be 70 cents.

So, the question now facing Ontarians is: “how do we fund the best health care without crowding out all the other priorities we share — like investing in our schools, helping our vulnerable, protecting our environment, and investing in infrastructure and economic development?”

That is a discussion that will happen, sooner or later, in every Canadian province and territory.

Your government believes Ontario needs to lead that national dialogue, and will engage Ontarians directly in this important conversation.

Ontario will lead by pursuing a path of constant reform to ensure that the health system — and all our vital public services — are there for our children and grandchildren.

Your government will begin this process by keeping drugs affordable to keep Ontarians healthy, and reinvest the savings in health care.

It will introduce legislation to make health care providers and executives accountable for improving patient care.

Your government will build on the success of the wait time reduction strategy by ensuring that — for more and more services — money will follow the patient.

Patients will have greater choice about where they can access the best quality treatment.

Your government will create an independent, expert advisory body to provide recommendations on clinical practice guidelines. It will ensure that future investments get results and improve patient health.

Your government will review the Public Hospitals Act and introduce legislation to create a hospital system that taps into the expertise of community partners and all health care professionals.

To ensure our health services are meeting the needs of all citizens, Ontario’s francophone community will have better input into the planning of French-language health services in their communities.

Your government will work with the public and private sectors to develop a strategy to promote better health for our children.

Ontario’s health system not only provides world class care for patients — but develops leading-edge treatments and research. Open Ontario will export that expertise to the world while providing quality care at home.

A plan for a stronger Ontario

Your government knows that if our province wants to maintain strong public services and attract investment, the world needs Ontario to be on a solid financial footing.

That's why, in its next budget, your government will lay out a plan to return the budget to balance.

Your government will not put economic growth at risk by cutting too much, too soon.

Nor will it proceed with spending as if there is no deficit.

So it will continue to make responsible choices, and it is proceeding with its plan to reduce its own size by five per cent.

Your government knows that Ontarians are proud Canadians.

We are proud to work hard and do our part to strengthen our country.

Your government has worked with the federal government to ensure that all Canadians receive fair treatment.

And your government wants to continue that positive and productive relationship.

Ontarians welcome the federal government's commitment to not reduce transfer payments to Ontario as it balances the federal budget.

Your government calls on the federal government to live up to its obligations in areas where it has come up short, such as childcare and immigration.

Your government also calls on its federal partner to show leadership on climate change, to help our businesses get ahead of the changes that are coming to the North American market and help create jobs for Ontarians.

Our people are active participants in the fight against climate change.

We are closing down our coal plants and building a cleaner economy.

We are already building the clean technologies the rest of the world needs.

Your government asks that our partner in Ottawa recognize and fund Ontario's green revolution — which is already underway — just as it is funding carbon-sequestration research in other provinces.

An Open Ontario

Without a doubt, our world has changed.

The challenges facing Ontarians in that new world are unprecedented.

But Ontario families have every right to be hopeful about their future.

Because our world needs Ontario.

It needs our people to rise to the challenges of our time — just as past generations rose to the challenges of their time.

The world needs Ontario to lead the way — not only to provide the goods and services the global economy demands, but to provide the example of a good, strong, compassionate society that our world needs.

Here in Ontario, we have built a modern miracle.

A society where our children get a great education.

Where our sick and our seniors are cared for.

Where our people speak every language, practise every religion, and come from every place on earth to live together in peace and prosperity.

Where immigration isn't just a word, but our lifeblood.

Our world needs Ontario to succeed.

And we will, just as we always have.

It begins with a new, five-year plan for a more Open Ontario.

Because we know that when we invest in each other's health care and education, we are investing in our shared future.

We know that the new, clean-technology products and services we will develop and sell will not only create good, Ontario jobs for our families, but a cleaner and better planet for all.

That's the goal of Open Ontario.

Because right now, in an Ontario classroom, there is a young person who will be our next Banting or Bondar.

A young person who will improve lives — or save them — all around the world.

The world needs that young Ontarian to succeed.

And Ontarians need to ensure that child — and every child — has every opportunity to succeed.

So we can keep building what the world needs.

So we can keep building a good and compassionate society.

Together, let us seize the opportunities that await all of us in a new world that beckons us.

For our families.

For our children.

For our Ontario.

The greatest province in the best country in the world.

Monsieur le Président, Mesdames et Messieurs les députés, concitoyennes et concitoyens de l'Ontario.

Depuis que la récession mondiale a frappé, nombre de familles ontariennes se trouvent dans une situation difficile.

Dans le secteur manufacturier, les deux dernières années ont été particulièrement dures.

Beaucoup d'entre nous connaissent quelqu'un qui a perdu son emploi.

Nos propres familles ont peut-être même été touchées.

Certains disent que le pire est passé et que la récession tire à sa fin.

Pourtant, ses effets néfastes persistent.

Des entreprises ont réduit leur effectif, d'autres ont déménagé ou fermé pour de bon, pas seulement en Ontario, mais aussi dans les provinces et les États avoisinants et partout dans le monde.

Aucun endroit n'est sorti complètement indemne de la grande récession.

Voilà pourquoi votre gouvernement réagit au défi extraordinaire que pose la récession mondiale en adoptant deux mesures extraordinaires.

En premier lieu : il compte investir plus de 32 milliards de dollars dans les routes, les ponts, les transports en commun et une mise à niveau du rendement énergétique de nos écoles.

Cette mesure crée et maintient plus de 300 000 emplois et met de l'argent là où le besoin se fait sentir, entre les mains des familles. De plus, elle stimule notre économie en cette fin de récession.

En deuxième lieu : votre gouvernement soutient les Ontariennes et Ontariens ayant fait le choix de retourner à l'école afin qu'ils n'obtiennent pas seulement un emploi, mais un bon emploi.

Le programme ontarien Deuxième carrière représente une première pour le Canada parce qu'il appuie jusqu'à deux ans de formation à long terme.

Par exemple, dans le cas de Jason Boylan, l'un des premiers participants au programme, Deuxième carrière a fait une réelle différence.

Après avoir perdu son emploi dans la fabrication de pièces automobiles, il s'est inscrit à un programme de gestion culinaire au Collège Fleming.

Jason obtiendra son diplôme dans quelques semaines et plusieurs bonnes offres d'emploi lui ont déjà été faites.

Votre gouvernement le félicite, ainsi que les plus de 26 000 autres Ontariennes et Ontariens qui participent au programme.

Le plan Ontario ouvert sur le monde

Venir en aide aux gens et aux collectivités touchés par la récession est une responsabilité importante que votre gouvernement prend très au sérieux.

Cela permet aussi de jeter de nouvelles bases pour la croissance future.

Parce que, même en période difficile, l'Ontario a toujours eu le regard tourné vers l'avenir.

Là où d'autres voient un monde menaçant, les Ontariennes et Ontariens voient un défi à relever.

Nous avons taillé notre province à même une terre nordique inhospitalière.

Les premiers Ontariens ont tenu le coup et ont prospéré.

Ils ont commencé à extraire le minerai et à exploiter les forêts.

Ils ont bâti des fermes et des écoles, des villes et des villages.

Nous avons donné au monde de grands artistes, poètes et romanciers.

Nous avons mis au point des médicaments qui ont sauvé des millions de vies.

Nous avons sacrifié nos vies sur les champs de bataille des guerres les plus sanglantes de l'histoire.

Nous avons construit les voitures, les trains et les avions qui ont permis au monde de traverser le XXe siècle.

Nous avons bâti une économie qui offre à nos familles une qualité de vie faisant l'envie du reste du monde.

Et, alors que nous entrons dans la deuxième décennie du XXIe siècle et que le monde fait face à des défis économiques, environnementaux et sociaux sans précédent, nous avons une certitude.

Le monde a besoin de l'Ontario.

Il a besoin de ce que nous avons à offrir.

Il a besoin de nos écoles pour former des citoyens brillants capables de résoudre les problèmes de la planète.

Il a besoin de nos innovateurs, qui ont inventé des outils comme le Blackberry pour permettre au monde de rester branché.

Il a besoin de nos travailleurs qualifiés, qui continuent de fabriquer les produits de pointe dont les gens ont besoin.

Le monde a besoin de notre diversité, parce que nulle part ailleurs voit-on autant de gens venus d'autant de pays vivre en si grande harmonie.

Il a besoin de notre compassion, non seulement parce que nous nous entraïdons grâce à notre système de santé et à nos services publics, mais parce que les Ontariennes et Ontariens ouvrent leur coeur lorsque le désastre frappe, comme en Haïti et au Chili.

Et lorsque le devoir appelle, comme il l'a fait en Afghanistan, nos compatriotes sont là. Et lorsqu'ils rentrent à la maison, nous leur rendons hommage.

Les Ontariennes et Ontariens ont toujours été citoyens du Canada et citoyens du monde.

Au début du XXe siècle, l'Ontario est passé de la voiture à cheval à l'automobile, ce qui a permis à notre pays de demeurer concurrentiel et au monde d'aller plus vite.

Au début du XXIe siècle, l'Ontario participera à la transition vers une nouvelle économie propre, afin d'aider notre nation et le monde à mieux progresser.

Nous continuerons à construire des voitures, mais ce seront les voitures écoénergétiques dont le monde a besoin.

Notre secteur manufacturier restera fort, mais il sera de plus en plus axé sur la fabrication de pointe qui met à profit les compétences et le niveau d'éducation de nos citoyennes et citoyens.

Oui, le monde a changé.

Mais une chose demeure.

Le monde a plus que jamais besoin de l'Ontario.

Il nous offre plus d'occasions que jamais auparavant.

Et nous devons être prêts.

Les cinq prochaines années seront décisives pour l'Ontario.

Voilà pourquoi votre gouvernement lance le nouveau plan quinquennal Ontario ouvert sur le monde.

Pour développer son économie et renforcer ses assises, l'Ontario doit être ouvert au changement, aux possibilités et au nouveau monde qui l'entoure.

Le plan Ontario ouvert sur le monde rendra l'Ontario encore plus réceptif aux nouvelles idées, aux nouvelles personnes et aux nouveaux investissements, non seulement pour remplacer les anciens emplois qui ont disparu, mais aussi pour créer les nouveaux emplois de l'avenir.

Non seulement pour construire les biens qui ont fait notre gloire au siècle passé, mais aussi pour construire ceux qui feront notre gloire en ce siècle.

Votre gouvernement lance ce plan aujourd'hui même.

Un plan pour notre économie

Le plan Ontario ouvert sur le monde commence par l'instauration d'un climat où les entreprises pourront prospérer, créer des emplois et fabriquer de nouveaux produits innovateurs qu'elles vendront à l'étranger.

On a commencé à établir ce climat par un ensemble de réformes qui modernisent notre régime fiscal pour rendre l'Ontario plus concurrentiel et créer plus d'emplois.

L'impôt sur le revenu des Ontariennes et Ontariens a été réduit le 1er janvier.

Cette année, votre gouvernement réduira l'impôt sur le revenu des sociétés et éliminera l'impôt sur le capital.

Et de concert avec le gouvernement fédéral, l'Ontario s'appête à instituer une taxe de vente harmonisée.

Selon des économistes indépendants, ces réformes créeront près de 600 000 nouveaux emplois en Ontario au cours des 10 prochaines années, dont plus de 100 000 dans le secteur manufacturier.

Ces améliorations au régime fiscal profiteront donc à toute la population de la province.

Ainsi, les entreprises ontariennes, des usines de fabrication aux petites entreprises, auront plus d'argent à investir dans leur avenir. Elles auront aussi plus de temps et de ressources à consacrer à leurs activités plutôt qu'aux formalités administratives.

Cela leur permettra de conserver leurs employés ou d'en embaucher d'autres, et de créer une main-d'oeuvre de stature mondiale.

Un autre volet de notre plan Ontario ouvert sur le monde, la *Loi de 2009 sur l'énergie verte*, a déjà vu le jour.

Elle prévoit un tarif stable pour les producteurs d'énergie propre afin de les inciter à investir en Ontario et à créer jusqu'à 50 000 emplois dans de nouvelles industries propres qui n'existaient pas il y a quelques années.

Nous avons déjà commencé à récolter les bénéfices de cette nouvelle loi.

En janvier, Samsung a annoncé le plus important investissement du genre au monde : 7 milliards de dollars pour produire 2 500 mégawatts d'énergie propre et créer quelque 16 000 emplois en Ontario.

Votre gouvernement ouvrira bientôt la porte à des centaines de nouveaux investissements dans le secteur de l'énergie propre grâce à son Programme de tarifs de rachat garantis qui suscite l'intérêt des investisseurs et des entrepreneurs du monde entier.

Ces projets nécessiteront des panneaux solaires et des éoliennes.

Les Ontariennes et Ontariens les fabriqueront.

Et nous les vendrons partout en Amérique du Nord.

De plus, grâce à sa stratégie L'Ontario propice aux affaires, votre gouvernement fait sa part pour simplifier les services aux entreprises.

Il s'agit là de quelques-unes des mesures qu'a prises votre gouvernement pour créer un Ontario plus ouvert aux nouveaux investissements, aux nouveaux emplois dans la province et aux nouvelles industries.

Aujourd'hui, il franchit une nouvelle étape.

Dans le cadre de notre plan Ontario ouvert sur le monde, nous déposerons un projet de loi misant sur le savoir-faire de la province dans les technologies du secteur de l'eau propre.

La loi sur le développement des technologies de l'eau entraînerait la création de nouveaux emplois en Ontario et ferait de notre province le chef de file nordaméricain en matière de développement et de vente de nouvelles technologies et de nouveaux services pour la conservation et le traitement de l'eau.

Le Conference Board du Canada estime que le marché mondial des technologies de l'eau représente plus de 400 milliards de dollars US par année et qu'il double tous les cinq à six ans.

On prévoit qu'au cours des 20 prochaines années la demande mondiale pour l'eau dépassera de 40 pour 100 les approvisionnements actuels, une crise en puissance si le monde n'agit pas.

Déjà, l'Ontario commence à offrir des solutions.

De la conservation de l'eau à la nanotechnologie, les sociétés ontariennes montrent le chemin, tout en procurant de bons emplois bien rémunérés dans la province à 22 000 personnes qui vendent des technologies de l'eau partout au monde.

Le gouvernement collaborera avec nos collègues, nos universités et nos entrepreneurs pour créer encore plus d'emplois et attirer encore plus d'experts et d'investissements dans le secteur de l'eau propre de la province.

Il renforcera les mesures de protection de notre eau, notamment celles des Grands Lacs.

Il mettra à profit notre savoir-faire considérable dans ce domaine et fera de la province la capitale nord-américaine de l'eau propre.

Votre gouvernement appuiera aussi la croissance et l'expansion du secteur agroalimentaire, par l'entremise du ministère de l'Agriculture, de l'Alimentation et des Affaires rurales de l'Ontario, en favorisant l'achat de produits locaux et en ouvrant de nouveaux marchés à l'extérieur de la province, parce que le monde a besoin des bons produits de l'Ontario.

Votre gouvernement sait aussi que les habitants du Nord de la province font face à des défis particuliers et que la récession mondiale a eu un effet profond sur les localités de cette région.

Il veillera à ce que le Nord récolte les fruits du plan Ontario ouvert sur le monde.

En 2008, la première mine de diamants de la province a débuté ses activités dans le Nord.

Votre gouvernement fera fond sur ce succès, en particulier dans la région connue sous le nom de Cercle de feu.

Cette région renfermerait l'un des plus importants gisements de chromite au monde, élément essentiel dans la fabrication de l'acier inoxydable.

Rien ne peut remplacer la chromite et personne n'en produit en Amérique du Nord.

C'est l'occasion la plus prometteuse qu'ait connue le Canada dans le secteur minier au cours du dernier siècle.

Votre gouvernement est déterminé à travailler avec les gens du Nord, les communautés autochtones et les entreprises du secteur minier afin de réaliser le plein potentiel du Cercle de feu.

Ensemble, nous créerons des emplois en Ontario et appuierons les familles du Nord, tout en continuant de préserver 50 pour 100 de la forêt boréale.

De plus, dans le cadre de sa relation améliorée et productive avec les peuples autochtones, votre gouvernement continuera d'appuyer le développement économique et la consultation de ces communautés.

Votre gouvernement sait aussi que l'économie de la province repose sur l'une des industries des services financiers les plus stables de la planète.

Les banques canadiennes, dont les sièges sociaux se trouvent en Ontario, ont la réputation d'être les plus solides au monde.

Toronto est maintenant le troisième plus grand centre financier d'Amérique du Nord avec 350 000 emplois. À l'échelle de l'Ontario, ce secteur emploie 625 000 personnes.

Voilà pourquoi votre gouvernement travaille avec le Conseil des chefs de file des services financiers afin d'appuyer l'industrie et d'établir une stratégie pour que Toronto devienne l'un des centres financiers les plus prestigieux au monde.

L'Ontario appuie les efforts du gouvernement fédéral en vue de créer un organisme canadien de réglementation des valeurs mobilières. Cet organisme devrait être situé à Toronto.

Votre gouvernement continuera à dégager de nouvelles possibilités économiques pour toute la population ontarienne grâce à la *Loi de 2005 sur l'accessibilité pour les personnes handicapées de l'Ontario*, qui rendra la province accessible d'ici 2025.

Votre gouvernement est reconnaissant du travail des 46 000 organismes sans but lucratif de l'Ontario qui sont les héros méconnus de notre économie.

Près de cinq millions d'Ontariennes et d'Ontariens offrent leurs services dans leur collectivité.

Certains d'entre eux aident votre gouvernement à atteindre son but de réduire le taux de pauvreté de 25 pour 100 en cinq ans.

Certains jouent le rôle d'entraîneur auprès de nos enfants. C'est le cas de Sandy Cooper-Ryder de London qui, depuis 30 ans, inspire les jeunes à se dépasser, non seulement sur la piste mais dans tous les domaines de leur vie.

Sandy compte parmi les nombreux entraîneurs qui se dévouent pour former la prochaine génération de jeunes athlètes doués de l'Ontario, dont certains participeront aux Jeux panaméricains de 2015.

En cette Journée internationale de la femme, votre gouvernement rend particulièrement hommage aux femmes engagées comme Sandy, ainsi qu'à l'ensemble des bénévoles qui font une réelle différence.

Le plan Ontario ouvert sur le monde mettra en oeuvre de nouveaux moyens de renforcer le secteur des organismes à but non lucratif, car nous reconnaissons qu'en cette période de ressources limitées, il faut se serrer les coudes pour faire progresser notre province.

Pour veiller à ce que les ressources de l'Ontario servent toujours à atteindre nos principales priorités, votre gouvernement a entrepris de passer en revue les entreprises commerciales du secteur public.

S'il juge qu'il est dans l'intérêt de tous d'apporter des changements aux actifs de la province, votre gouvernement en utilisera le produit pour mieux appuyer les principales priorités des Ontariennes et des Ontariens dans une économie mondiale, en particulier mettre l'accent sur les compétences et l'éducation de nos citoyennes et citoyens.

Un plan pour l'éducation

L'Ontario abrite déjà les bâtisseurs, les rêveurs et les innovateurs de demain.

En ce moment, des garçons et des filles fréquentent les écoles de notre province.

Demain, ils seront des adultes prêts à affronter le monde.

C'est pourquoi votre gouvernement place l'éducation au sommet de ses priorités.

Il a réduit la taille des classes, amélioré les résultats aux tests, accru le taux de diplomation et créé des milliers de nouvelles places dans les collèges, les universités et les programmes d'apprentissage.

Les Ontariennes et Ontariens comptent parmi les travailleurs les plus spécialisés et instruits au monde.

Tout cela nous donne une longueur d'avance sur la concurrence.

Un atout que nous devons renforcer encore plus.

C'est pourquoi, dès cet automne, des écoles des quatre coins de la province commenceront à offrir un programme d'apprentissage à temps plein pour les enfants de quatre et cinq ans.

C'est la première fois qu'un tel programme est offert en Amérique du Nord.

Il s'inscrit dans le cadre d'un projet visant à aider davantage d'enfants à bien démarrer l'école pour suivre plus tard des études collégiales ou universitaires, ou un programme de formation, et trouver un bon emploi.

Cette mesure permettra à plus d'enfants de sortir de la pauvreté.

Elle aidera les parents à concilier vie professionnelle et vie de famille.

Elle contribuera à renforcer l'économie de la province.

C'est bien simple, les pays qui ont les meilleures écoles aujourd'hui domineront l'économie de demain.

L'Ontario affiche l'un des taux d'éducation postsecondaire les plus élevés au monde, soit 62 pour 100. Depuis 2003, votre gouvernement a permis à 180 000 personnes supplémentaires de suivre un programme universitaire, collégial ou d'apprentissage.

Mais nous devons faire encore mieux, sachant que 70 pour 100 des emplois qui seront créés dans la nouvelle économie nécessiteront une éducation postsecondaire.

C'est pourquoi le plan Ontario ouvert sur le monde portera à 70 pour 100 le taux de participation aux études postsecondaires.

Pour commencer, votre gouvernement fera en sorte que 20 000 étudiantes et étudiants supplémentaires puissent s'inscrire dans les collèges et les universités cette année.

Cela correspond à l'effectif tout entier de l'Université de Guelph.

Grâce au plan Ontario ouvert sur le monde de votre gouvernement, les collèges et les universités de la province pourront accueillir tous les Ontariens et Ontariennes qualifiés qui souhaitent poursuivre des études.

En ce moment, 120 000 apprentis apprennent un métier en Ontario.

Votre gouvernement a créé récemment l'Ordre des métiers de l'Ontario afin de moderniser son système d'apprentissage et de formation dans les métiers spécialisés.

Notre plan continuera d'appuyer les gens de métier talentueux et qualifiés qui font la force de notre province, tout en augmentant la sécurité des travailleurs.

Votre gouvernement collaborera avec tous ses partenaires du monde de l'éducation, de la formation et des affaires afin d'établir un nouveau plan quinquennal pour améliorer le système d'éducation postsecondaire de l'Ontario.

Il créera le nouvel institut ontarien d'enseignement en ligne pour assurer à ceux et celles qui souhaitent avoir recours au cyberapprentissage l'accès aux meilleurs professeurs des meilleurs programmes des universités ontariennes.

En outre, le plan ouvrira nos collèges et nos universités au monde.

Partout, des millions de familles aimeraient avoir ce qu'ont les Ontariennes et Ontariens : une éducation postsecondaire de qualité menant à un bon emploi et à un avenir sûr.

Le monde a besoin des écoles ontariennes.

Par conséquent, votre gouvernement entreprendra un ambitieux programme de promotion de nos établissements d'enseignement postsecondaire à l'étranger, afin d'accroître de 50 pour 100 le nombre de personnes qui viendront d'ailleurs pour étudier dans notre province, tout en gardant des places pour les étudiants ontariens.

La participation des étudiants étrangers contribuera à renforcer nos écoles et créera des emplois.

Ensemble, nous ferons de l'Ontario un lieu où le monde entier viendra étudier.

Un plan pour la santé

En Ontario, nous veillons au bien-être de la population.

En Ontario, nous ne refusons jamais de patients.

En Ontario, prodiguer des soins de qualité, c'est éviter un souci de plus aux familles et c'est se donner un atout supplémentaire par rapport à nos concurrents.

Votre gouvernement a renforcé cet atout.

Au cours des six dernières années, 900 000 Ontariennes et Ontariens de plus ont eu accès à un médecin de famille.

Davantage de médecins étrangers ont obtenu l'autorisation d'exercer en Ontario.

Les premières cliniques d'Amérique du Nord dirigées par du personnel infirmier praticien ouvrent leurs portes.

Parce que les Ontariennes et Ontariens veulent s'entraider et prendre soin les uns des autres, nous avons pu réduire les temps d'attente pour les chirurgies du cancer.

Nous avons accéléré les soins aux urgences et amélioré et agrandi les hôpitaux.

Votre gouvernement a agi, car les Ontariennes et Ontariens exigent, souhaitent et méritent des soins de santé hors pair.

Il continue d'oeuvrer pour réduire les temps d'attente dans les salles des urgences et améliorer les services offerts aux personnes diabétiques et les services de cybersanté partout en Ontario.

Par le passé, les Ontariennes et Ontariens se posaient la question suivante : « Le système de santé sera-t-il là pour moi et pour mes enfants? ».

Tous ont répondu « absolument ».

Ensemble, nous tenons absolument à un système de santé public fort.

Or, de nouveaux défis sont apparus qui nécessitent un nouveau plan.

Il y a 20 ans à peine, pour chaque dollar destiné aux programmes gouvernementaux, 32 cents étaient consacrés aux soins de santé.

Aujourd'hui, c'est 46 cents.

Dans douze ans, cela pourrait être 70.

C'est pourquoi les Ontariennes et Ontariens se posent maintenant la question suivante : « Comment pouvons-nous continuer de financer un système de santé de premier ordre sans écarter toutes les autres priorités qui nous tiennent à cœur, comme investir dans les écoles, aider les plus vulnérables, protéger l'environnement et financer l'infrastructure et le développement économique? ».

C'est une question à laquelle il faudra répondre tôt ou tard dans chaque province et territoire du Canada.

Votre gouvernement est d'avis que l'Ontario doit guider la discussion à l'échelle nationale et invitera la population ontarienne à participer directement à cet important débat.

L'Ontario montrera la voie en instaurant un programme de renouvellement constant afin de préserver le système de santé et tous les services publics essentiels pour nos enfants et petits-enfants.

Pour y parvenir, il commencera par faire en sorte que les médicaments restent abordables pour que les Ontariennes et Ontariens puissent continuer à se soigner et réinvestira les économies réalisées dans les soins de santé.

Il déposera un projet de loi afin qu'il incombe aux fournisseurs de services et aux dirigeants responsables d'améliorer les soins prodigués aux patients.

Votre gouvernement poursuivra sa Stratégie de réduction des temps d'attente en faisant en sorte que, pour de plus en plus de services, les fonds suivent les patients.

Ces derniers auront davantage de choix en ce qui concerne l'endroit où ils pourront recevoir les meilleurs soins.

Un groupe consultatif indépendant composé d'experts et chargé de formuler des recommandations pour l'élaboration de lignes directrices en matière de pratiques cliniques sera formé, afin d'assurer que les futurs investissements portent leurs fruits et servent à améliorer la santé des patients.

Votre gouvernement examinera la *Loi sur les hôpitaux publics* et présentera un projet de loi dans le but de créer un système hospitalier qui aura recours au savoir-faire des partenaires de la collectivité et de tous les professionnels de la santé.

Afin que nos services de santé répondent aux besoins de tous les citoyens, la communauté francophone participera davantage à la planification des services de santé en français à l'échelon local.

Votre gouvernement collaborera avec les secteurs public et privé pour établir une stratégie de promotion de la santé des enfants.

En plus de prodiguer des soins de premier ordre aux patients, notre système de santé met au point des traitements et mène des recherches de pointe. Le plan Ontario ouvert sur le monde permettra à la province d'exporter ce savoir-faire tout en offrant des soins de qualité à sa population.

Un plan pour un Ontario plus fort

Votre gouvernement sait que si notre province veut continuer de fournir d'excellents services publics et d'attirer des investissements, le monde a besoin d'un Ontario financièrement solide.

C'est pourquoi, dans son prochain budget, votre gouvernement présentera un plan pour rétablir l'équilibre budgétaire.

Votre gouvernement ne mettra pas la croissance économique en danger en faisant trop de compressions budgétaires, trop vite.

Il ne dépensera pas non plus comme s'il n'y avait pas de déficit.

Il continuera de faire des choix responsables et a entrepris de réduire sa taille de 5 pour 100.

Votre gouvernement sait que les Ontariennes et Ontariens sont de fiers Canadiens.

Nous sommes fiers de travailler fort et de faire notre part pour renforcer notre pays.

Votre gouvernement a collaboré avec le gouvernement fédéral afin d'assurer que tous les Canadiens et Canadiennes sont traités équitablement.

Il entend poursuivre cette relation positive et productive.

Les Ontariennes et Ontariens accueillent favorablement l'engagement du gouvernement fédéral de ne pas réduire les paiements de transfert à la province pendant qu'il rétablit l'équilibre budgétaire.

Votre gouvernement demande au gouvernement fédéral de respecter ses obligations dans les domaines où il n'en fait pas assez, comme les services de garde et l'immigration.

Il lui demande aussi de faire preuve de leadership au chapitre du changement climatique afin d'aider nos entreprises à anticiper les transformations qui se produiront sur le marché nord-américain et de contribuer à créer des emplois pour notre province.

Nos citoyennes et citoyens sont des participants actifs de la lutte contre le changement climatique.

Nous fermons nos centrales à charbon et nous bâtissons une économie plus propre.

Nous avons déjà commencé à produire les technologies propres dont le reste du monde a besoin.

Nous demandons à notre partenaire d'Ottawa de reconnaître et de financer le mouvement vert qui s'est amorcé en Ontario de la même manière qu'il finance la recherche sur la séquestration de carbone dans d'autres provinces.

Un Ontario ouvert sur le monde

Il ne fait aucun doute que le monde a changé.

Les défis auxquels font face les Ontariennes et Ontariens dans ce nouveau monde sont sans précédent.

Pourtant, les familles ontariennes ont le droit d'espérer en l'avenir, car le monde a besoin de l'Ontario.

Le monde a besoin que nous relevions les défis de notre époque, tout comme les générations qui nous ont précédés ont relevé les défis qui se sont présentés à elles.

Le monde a besoin que l'Ontario lui ouvre la voie, non seulement en créant les biens et services essentiels à l'économie mondiale, mais aussi en se présentant comme la société forte, bonne et généreuse dont le monde a besoin.

L'Ontario a réussi à créer un miracle moderne.

Une société où nos enfants peuvent obtenir une excellente éducation.

Une société qui prend soin de ses patients et de ses personnes âgées.

Une société où on parle toutes les langues, où on pratique toutes les religions et où on vient du monde entier pour vivre dans la paix et la prospérité.

Une société où immigration n'est pas un mot creux, mais un élément moteur.

Le monde a besoin que l'Ontario réussisse.

Et nous le ferons, comme nous l'avons toujours fait.

Cela commence par un nouveau plan quinquennal pour ouvrir davantage l'Ontario sur le monde.

Car nous savons que lorsque nous investissons dans les soins et l'éducation de la population ontarienne, nous investissons dans notre avenir commun.

Nous savons que les nouveaux produits et services technologiques propres que nous mettrons au point et vendrons ne se traduiront pas seulement par de bons emplois pour les familles ontariennes, mais qu'ils contribueront aussi à créer une planète plus propre et meilleure pour tous.

C'est l'objectif du plan Ontario ouvert sur le monde.

Car, quelque part dans une école de l'Ontario, il y a aujourd'hui une jeune personne qui sera notre futur Banting ou notre future Bondar.

Une jeune personne qui améliorera ou sauvera des vies partout dans le monde.

Le monde a besoin que cette jeune personne réussisse.

Nous devons tous faire notre part pour que cet enfant, tous les enfants, aient la possibilité de réussir.

Pour que nous puissions continuer de créer ce dont le monde a besoin.

Pour que nous puissions continuer d'édifier une société bonne et généreuse.

Ensemble, saisissons les occasions que nous offre le nouveau monde qui nous attend.

Pour nos familles.

Pour nos enfants.

Pour notre Ontario.

La meilleure province du meilleur pays au monde.

His Honour was then pleased to retire.

Mr. Hudak moved, That the motion moved by the Minister of Finance on March 25, 2010, "That this House approves in general the budgetary policy of the government," be amended by deleting the words following "that this House" and adding thereto the following:

Supports the principle that if you do not lose your job, you do not get severance; and

Cannot support Premier Dalton McGuinty's decision to pay six-month severance packages, worth as much as \$45,000 each, to more than 1,250 HST tax collectors who will transfer to the federal government without losing a day of work; and

Strongly opposes this government for:

- Comprehensive Integrated Tax Coordination Agreement;
- Ontario Tax Plan for More Jobs and Growth Act, 2009; and,

Resulting in severance payments to HST tax collectors who will transfer to the federal government without losing a day of work; and

Failing to enact measures in the budget that amend the Ontario Tax Plan for More Jobs and Growth Act, 2009, including Schedule R, section 50 and the Comprehensive Integrated Tax Coordination Agreement, including Part XI and Annex "C" ratified and confirmed thereto.

ORAL QUESTIONS

QUESTIONS ORALES

During “Oral Questions”, as a result of disruptions, the Speaker ordered part of the West Public Gallery to be cleared.

Pendant la période des «Questions orales», comme il y des interruptions, le Président donne des directives pour évacuer une partie de la tribune ouest réservée au public.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Tuesday, March 23, 2010, the Member for Oshawa (Mr. Ouellette) rose on a point of order to indicate that an announcement made in the March 8 Speech from the Throne had circumvented the parliamentary process. Specifically, the Member indicated that, despite the fact that Bill 242, which according to the Member deals with all-day kindergarten, is still before the Legislature, the Speech from the Throne announced that “starting this fall, full-day learning for four and five year olds will begin at schools across our province”. The Government House Leader (Ms. Smith) made a written submission on the point.

On Thursday, March 25, 2010, the Member rose again, this time on a point of privilege, concerning the implementation of this programme, and the Government House Leader responded.

Having had an opportunity to review the Speech from the Throne, our Hansard, the materials provided by the Member for Oshawa, the written submission of the Government House Leader, and the relevant precedents and authorities, I will now rule on these matters.

Let me begin by confirming that the Speech from the Throne contains the statement quoted by the Member. In addition, at the time that this statement was read in the Chamber as part of the Speech from the Throne, the House had not passed Bill 242, which is entitled “An Act to amend the Education Act and certain other Acts in relation to early childhood educators, junior kindergarten and kindergarten, extended day programs and certain other matters”. In today’s *Orders and Notices Paper*, I note that the bill stands referred to the Standing Committee on Social Policy.

Members will know that the Speech from the Throne is a ceremonial occasion when the Lieutenant Governor typically outlines the government’s view of the condition of the province and indicates what measures and programmes the government intends to implement. I have reviewed other Speeches from the Throne in recent Parliaments, and I note that they often contain declaratory announcements that are similar in tone to the one in the case at hand.

In addition, there was nothing procedurally deficient about the delivery of the Speech from the Throne. I therefore rule that the Member’s concerns do not raise a matter of order.

I now turn to a consideration of the separate but related point of privilege raised by the same Member on March 25. According to the Member, members’ privileges were circumvented when the government funded and distributed literature announcing the implementation of full-day learning for September, well before Bill 242 was introduced in this House; the Member objected that this literature did not mention that the implementation of this programme was contingent on a parliamentary process, in particular, the passage of legislation. The Member also requested that the Speaker review the authority by which the Ministry of Education can implement this programme before the passage of legislation.

My review of the relevant precedents and authorities reveals that Speakers normally address such a point of privilege as a matter of contempt, as opposed to a matter involving a breach of one of the specific privileges belonging to an individual member or to this House. Therefore, I will consider whether the concerns raised by the Member for Oshawa raise a matter of contempt.

I begin this exercise by referring to the February 22, 2005 Speaker’s ruling mentioned by the Member for Oshawa. That ruling considered whether a government announcement was a matter of contempt in circumstances where the government had written letters on matters relating to education to various stakeholders; the government had also distributed a related press release and made an announcement that anticipated the introduction of a bill and a budgetary measure. The ruling contains the following statement:

The Minister appears to have made an announcement (outside the House) that anticipates a bill and a budgetary measure. But there is nothing wrong with anticipation *per se* – it happens a lot; the issue is whether the announcement goes further and reflects adversely on the parliamentary process.

I have also reviewed rulings from the period between 1997 and 2001, when Speaker Stockwell and Speaker Carr ruled on several allegations that the government of the day had taken some action that reflected adversely on the parliamentary process.

For example, on January 22, 1997, Speaker Stockwell ruled on government advertising that made definitive statements concerning the government's programme for reforms to municipal government. The advertising was distributed publicly on the same day that a bill implementing the reforms was introduced in the House. In ruling that a *prima facie* case of contempt was established, Speaker Stockwell made the following statement:

"[The ads] convey the impression that the passage of the requisite legislation was not necessary or was a foregone conclusion, or that the Assembly and the Legislature had a *pro forma*, tangential, even inferior role in the legislative and law-making process, and in doing so, they appear to diminish the respect that is due to this House. I would not have come to this view had these claims or proposals, and that is all they are, been qualified by a statement that they would only become law if and when the Legislature gave its stamp of approval to them."

That was Speaker Stockwell in 1997. There are similarities to the case at hand. None of the materials complained of, and provided to me, by the Member for Oshawa refer to the passage of a bill, and therefore the role of the Legislature is not acknowledged or deferred to. However, this in itself has been a significant problem for me in preparing this ruling, for it is ultimately not clear that legislation is required to implement this programme. If the sanction of the Legislature is already in place through another statute or by delegated legislation, then the steps the government has taken to put full-day learning in place do not produce the same level of concern in me that the 1997 circumstances aroused in Speaker Stockwell, for in effect the House has already spoken and given prior authority for it to happen.

On the other hand, the House does have Bill 242 before it. On its face, Bill 242 seems to have the objective of establishing the necessary legal basis for this program to be fully implemented. A reading of the Bill, its explanatory notes and the Second Reading debate lead-off speech given by the Minister of Education and her Parliamentary Assistant, could certainly leave someone who is not an insider in the education system with the impression that the programme cannot be set up without the passage of Bill 242. It is therefore not surprising that, like me, the Member for Oshawa and perhaps many others are labouring under some confusion as to the necessity of Bill 242 to the programme's implementation, and whether or not the government will have the full statutory authority it requires until the legislative process has been completed and the bill passed. In other words, if the bill isn't needed, why has it been introduced and entitled in such a way as to suggest the opposite? I don't think that is an unfair question.

But to get that question properly answered would take a legal analysis of the legislation and statutes, something many previous Speakers have indicated in similar situations is not for the Speaker to undertake. I am left with the explanation provided by the Government House Leader. She has both written to me, and on March 25 addressed this matter orally in the House. She asserts that there is prior existing authority in the Education Act for the implementation and funding of full-day learning, and that while Bill 242 provides a fuller long-term framework for this program, the bill is not necessary to authorize it.

As the Speaker is always bound to respect the word of an honourable member of this Assembly, I have no reason not to accept the Government House Leader's contention in this regard.

I therefore rule that this matter raised by the Member for Oshawa does not amount to a *prima facie* case of contempt.

In closing however, I will tell the House that the Speaker is left feeling somewhat unsatisfied in this matter. When the government's legislative agenda is being actively carried out in the way all-day learning is currently being done across the Province, at the same time as this House is addressing a nominally connected bill, it certainly leaves some room for unwelcome ambiguity about the role of the Legislature. Surely it is not necessary to have to remind the Government that in our system it is they who are answerable to the Legislature, not the other way around.

I thank the Member for Oshawa for raising his concerns, and I thank the Government House Leader and the Third Party House Leader for their contributions.

DEFERRED VOTES

VOTES DIFFÉRÉS

The deferred vote on the amendment by Mr. Hudak to the motion by Mr. Duncan respecting the Budgetary Policy of the Government, as follows:-

That the motion moved by the Minister of Finance on March 25, 2010, "That this House approves in general the budgetary policy of the government," be amended by deleting the words following "that this House" and adding thereto the following:

"Supports the principle that if you do not lose your job, you do not get severance; and

Cannot support Premier Dalton McGuinty's decision to pay six-month severance packages, worth as much as \$45,000 each, to more than 1,250 HST tax collectors who will transfer to the federal government without losing a day of work; and

Strongly opposes this government for:

Failing to address any uncertainty in the provisions the McGuinty Liberals negotiated and ratified in the

- Collective bargaining agreements it concluded in 2006 and 2009;

- Comprehensive Integrated Tax Coordination Agreement;

- Ontario Tax Plan for More Jobs and Growth Act, 2009; and

- Human Resource Agreement for the transfer of staff from the Province of Ontario to the Canada Revenue Agency,

Resulting in severance payments to HST tax collectors who will transfer to the federal government without losing a day of work; and

Failing to enact measures in the budget that amend the Ontario Tax Plan for More Jobs and Growth Act, 2009, including Schedule R, section 50 and the Comprehensive Integrated Tax Coordination Agreement, including Part XI and Annex "C" ratified and confirmed thereto.

Concludes that if the McGuinty Liberal government is incapable of protecting the interests of Ontario families when it comes to so-called severance payments to HST tax collectors, then it cannot be trusted with stewardship of the provincial finances.

Therefore the government has lost the confidence of this House."

PRIÈRES
10 H 30

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Tuesday, March 30 the Member for Whitby-Oshawa (Mrs. Elliott) raised a point of privilege concerning the statutory requirement in the Local Health System Integration Act, 2006, that a legislative committee undertake a review of that Act within a stated period of time.

Specifically, subsection 39(1) of the Act states that:-

A committee of the Legislative Assembly shall,

(a) begin a comprehensive review of this Act and the regulations made under it no earlier than three years and no later than four years after this Act receives Royal Assent; and

(b) within one year after beginning that review, make recommendations to the Assembly concerning amendments to this Act and the regulations made under it.

The deadline for the commencement of the legislative committee's review was March 28 of this year – four years to the day that the Act received Royal Assent. The Member for Whitby-Oshawa contended in the first instance that the failure of the government to take the necessary steps to enable a legislative committee to carry out the required review amounts to a contemptuous flouting of the oversight role of the Legislative Assembly. Secondly, the Member further contended that the provision in the Budget bill currently before the House, Bill 16, to repeal and replace clause 39(1)(a) of the Local Health System Integration Act, 2006, and thereby defer the statutory requirement for the review of the Act, was likewise contemptuous of the Legislative Assembly, particularly because the provision would have retroactive effect.

The Government House Leader (Ms. Smith) responded to the point of privilege, and later wrote to me to bolster her contention that the existence of Bill 16 and its introduction in the House before March 28, 2010 was indicative of the government's proactive effort to ensure that there would not be non-compliance with a statutory provision. She further argues that, even if there is an issue with the current situation, such issue would be "purged" by the eventual passage of the amendment, if and when that occurs, since the legal framework would ultimately contain no gap during which a required review of the Act remained unstarted and incomplete.

The Third Party House Leader (Mr. Kormos) contends that the Government House Leader's comments revealed not only foreknowledge that the provision in the statute would not be complied with, but also an effort by the government to frustrate the required review. According to the member, this aggravated rather than bolstered the House Leader's position.

In reviewing this matter, I was first of all influenced by Speakers' rulings, including some of my own, in which Speakers have rather consistently declined to deal with legal issues or to become involved in the interpretation of the law. To the extent that this point of privilege revolves around such a legal issue, the Speaker simply is not in a position to interpret a statutory requirement as found in Section 39(1) of the Act or to consider the legal ramifications presented by the Assembly's ostensible non-compliance with a statutory requirement.

Moreover, while I note that commencement clauses in bills providing for the retroactive coming into force of all or part of a bill are not at all an uncommon feature of legislation, their legal orderliness is beyond the jurisdiction of the Speaker to consider.

However, in the case at hand, it is not the legal question that is at issue. There is no dispute between parties that the statutorily required review of the Act by a legislative committee has not been set in motion by the date mandated in the Act. Additionally, though the Government House Leader defends the government partly on legal grounds, the Member for Whitby-Oshawa did not base her contempt argument on such a legal interpretation. The Member contends that the government's failure to take the steps necessary to bring the House into compliance with the existing law, and its introduction of legislation to set aside the requirement in any event, amounts to a contempt of the House because these actions deprived the House of part of its role to oversee the government of the day.

The Member supported her argument by referring to rulings in the Canadian House of Commons by Speaker Sauvé and Speaker Fraser, and to a 1997 ruling in this House by Speaker Stockwell.

It is worthwhile to consider what constitutes a contempt of the House. As is noted in House of Commons Procedure and Practice:-

Any conduct which offends the authority or dignity of the House, even though no breach of any specific privilege may have been committed, is referred to as a contempt of the House. Contempt may be an act or an omission; it does not have to actually obstruct or impede the House or a Member, it merely has to have the tendency to produce such results.

...

Contempts, as opposed to "privileges", cannot be enumerated or categorized. As Speaker Sauvé explained in a 1980 ruling, "... while our privileges are defined, contempt of the House has no limits. When new ways are found to interfere with our proceedings, so too will the House, in appropriate cases, be able to find that a contempt of the House has occurred."

Just as it is not possible to categorize or to delineate what may fall under the definition of contempt, it is not even possible to categorize the "severity" of contempt. Contempts may vary greatly in their gravity; matters ranging from minor breaches of decorum to grave attacks against the authority of Parliament may be considered as contempts.

The Government House Leader has described the steps the government took, before the arrival of the date mandated in the Act, to change the statutory provision and how, once Bill 16 is passed, the new provision will retroactively have the effect of erasing what might be called the 'limbo period' since March 28. How can the House be out of compliance with a legal requirement that will not exist if Bill 16 becomes law and comes into force? So goes, in effect, the argument of the Government House Leader.

The Member for Whitby-Oshawa referred to Speaker Stockwell's January 22, 1997 ruling, where he found a *prima facie* case of contempt was established with respect to government advertisements that he found conveyed the impression "that the Assembly and the Legislature had a *pro forma*, tangential, even inferior role in the legislative and law-making process, and in doing so, they appear to diminish the respect that is due to the House."

A similar level of disrespect of the institution of parliament was found by Speaker Fraser in the House of Commons, on April 19, 1993. On that occasion, the Speaker ruled concerning the failure of the Government of Canada to table in the House of Commons an Order-in-Council that was required by statute to be tabled by a specific date. As this was the second occurrence of this same failure, about which the government had been previously warned, the Speaker found a *prima facie* case of contempt had been established.

Does the current situation rise to this level? Does the failure of this Legislature – or more precisely, the persons in responsible leadership of it – to put itself in compliance with the Local Health System Integration Act, 2006, by whatever means one might normally expect this to occur, constitute a contemptuous disregard of the Legislature by the government?

The provision in the Local Health System Integration Act, 2006 for a committee review was not some secret or obscure provision, nor was it recent. The government would or should have known about the approaching deadline and could easily have taken the necessary steps to deal with this well before now. The government should have done so much earlier. But does this amount to a contempt of the House?

In comparison with the situations ruled on by Speakers Stockwell and Fraser that I just cited, I do not find that the matter raised by the Member for Whitby-Oshawa represents either a flagrant or disdainful dismissal of the role of the Legislature, intended to diminish or devalue this institution, nor is it a swift repetition of a transgression about which the government has relatively recently been warned.

The Speaker does not control the government's agenda, nor can the Speaker compel a motion or any other kind of business to be brought before the House for decision. I will say, though, that a bit more advance deference to the House, and outside of an omnibus bill, would have been a far preferable way for this to be dealt with. But, it is still the case that the consent of the Legislature must be secured before the change to the Act can be made. As well, notice to the Legislature of the intended change was given in advance of the deadline date by way of amending legislation. I cannot find, therefore, that a *prima facie* case of contempt has been made out.

However, I do think this matter deserves some serious consideration. Despite the existence of Bill 16 and its provision to repeal and replace the LHIN review process, this House is nevertheless, right at this moment, seemingly not in compliance with a statute. This is not the only such occurrence. For instance, section 76(5) of the Commodity Futures Act requires a legislative committee to review the report of the Ontario Commodity Futures Act Advisory Committee. The report was issued in 2007 and while a standing committee was assigned an order of reference to conduct the review, this was interrupted by the dissolution of the House before the committee devoted a single meeting to the issue. The review was never renewed and to this day the provision of the Act remains unfulfilled.

Frankly, the purpose of these types of provisions baffles me. When the House passes legislation that embeds a statutorily required future review by a legislative committee, the House is in effect ordering itself to do some subsequent thing, something which it already has the full power to do at any time. Such provisions seem superfluous, especially when they go unobserved by the very body that mandated them in the first place. They are a recipe for precisely the type of complaint raised by the Member for Whitby-Oshawa.

Furthermore, in the face of such a self-made prior 'order', when the House itself fails to comply, what is to be made of such a lack of diligence, discipline and rigour? Specifically, to the point raised by the Member for Whitby-Oshawa, taken to its logical conclusion, is the House in contempt of itself in such a scenario? It certainly won't be this Speaker who tries to make that case. But I don't think it is wise to be casual about this kind of thing. It causes me concern, and I will therefore be writing to the Standing Committee on the Legislative Assembly, pursuant to Standing Order 108(g), to ask the committee to consider this issue and to provide me and the House with its advice on the potential for procedural remedies that might assist in these situations in the future.

In closing, I thank the Member for Whitby-Oshawa, the Government House Leader and the Third Party House Leader for their contributions.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On March 25, 2010, shortly after the House had resumed meeting at 4 p.m., the Member for Renfrew-Nipissing-Pembroke (Mr. Yakabuski) rose on a point of order just after the Minister of Finance had moved the Budget motion but before the Pages had begun delivering the Budget papers to members in the Chamber. The Member indicated that the members of the Official Opposition who were in the Budget lock-up had not been allowed to leave the lock-up in a timely manner, and that they were still on their way to the Legislative Chamber. The Member for Wellington-Halton Hills (Mr. Arnott) added that the reason for the delay was that the Ontario Provincial Police were waiting to hear from the office of the Minister of Finance before releasing members from the lock-up. Members will recall that I delayed proceedings for a few moments so that more members could arrive, after which the Budget papers were tabled and distributed to members, and the Minister of Finance presented the Budget.

On April 6, I received from the Member for Parry Sound-Muskoka (Mr. Miller) a notice of intention to raise a point of privilege, and on April 12, the Member raised a point of privilege on this matter in the House. In the notice and in his oral submissions, the Member invited the Speaker to find that a *prima facie* case of privilege had been established on the basis that members of the Official Opposition were physically obstructed, impeded and interfered with when they tried to make their way to the Chamber for the Budget presentation. According to the Member, this obstruction occurred against members' will, and contrary to the lock-up protocol issued by the Ministry of Finance. The Member for Welland (Mr. Kormos), the Government House Leader (Ms. Smith), and the Member for Whitby-Oshawa (Mrs. Elliott) also spoke to the matter at that time. I also received written submissions from the Government House Leader, the Member for Parry Sound-Muskoka and the Member for Welland.

Having had an opportunity to review the notice, our Hansard, the written submissions, and the relevant precedents and authorities, I will now rule on this matter.

First, dealing with the issue of timeliness raised by the Government House Leader, I will say that the procedural authorities – but not Standing Order 21(b) – indicate that members should raise points of privilege in a timely manner. In the case at hand, the matter was initially raised in the House within minutes of members being released from the lock-up; admittedly it was raised at that time on a point of order as opposed to a point of privilege, but it cannot be denied that the matter was brought to the attention of the House within minutes of members' release from the lock-up. Given the time it can take to prepare a meaningfully comprehensive notice of a point of privilege, and that the Easter long weekend and a Constituency Week intervened during this period, I cannot say that the Member for Parry Sound-Muskoka failed to exercise due diligence in raising his point of privilege.

The second consideration on this matter is the issue of whether the alleged interference prevented members from attending to their parliamentary work. According to the procedural authorities and many previous Speakers' rulings, parliamentary privilege protects members in the execution of their strictly parliamentary duties – not the constituency or other duties that may fairly be said to be part of their job descriptions. On this point, the 2nd edition of Maingot's *Parliamentary Privilege in Canada* states the following (at pages 222 and 223):

The interference, however, must not only obstruct the Member in his capacity as a Member, it must obstruct or allege to obstruct the Member in his parliamentary work.

The demarcation between members' parliamentary and non-parliamentary duties that Maingot addresses is important because the members of the Official Opposition who were in the lock-up did not want to leave the lock-up in order to tend to their constituency or other non-parliamentary duties; they wanted to leave the lock-up in order to make their way to the precincts, and in particular to attend and participate in a parliamentary proceeding. Those members who spoke to or made a written submission on the point of privilege raised by the Member for Parry Sound-Muskoka did not dispute this important point.

Let me now say a few words about Budget lock-ups. For many decades, the government of the day has allowed members and the media an opportunity to preview the Budget papers and receive a briefing on the Budget in secure facilities in the hours preceding the presentation of the Budget in the House. Access to the lock-up is conditional on agreeing to the terms and conditions of the lock-up protocol. Members are generally amenable to these restrictions on their personal liberty because the preview and briefing facilitate their parliamentary duties and enable members of the Legislative Assembly to hold the government of the day to account.

In the case at hand, there is no issue taken with the protocol set out for the lock-up itself. Indeed, it seems clear that if the terms of the protocol had been followed and the Members released in time to make their way to the Chamber for the start of proceedings we might not be dealing with this point of privilege at all. Let me be clear, we are concerned here with an allegation that certain members were obstructed in their attempt to leave the lock-up at a time when they should reasonably have expected to be allowed to leave in order to attend the proceedings of the House.

This brings me to the nub of the point of privilege raised; that is the right of members of the Legislative Assembly to attend to their parliamentary duties without interference or obstruction.

I note that the *House of Commons Procedure and Practice* states the following (at page 110):

In circumstances where Members claim to be physically obstructed, impeded, interfered with or intimidated in the performance of their parliamentary functions, the Speaker is apt to find that a *prima facie* breach of privilege has occurred.

The case before me is one in which members are indeed claiming that they were prevented from getting to the Legislative Chamber, thereby obstructing them in the performance of their parliamentary duties. Moreover, the Government House Leader acknowledges that members of the Official Opposition were detained in the lock-up longer than they should have been; specifically, she says that members were delayed by OPP personnel.

But the Government House Leader says that, in mitigation, members were in the Chamber when the Budget was presented. This contention presumes that it is more important that members be in the Chamber for the presentation of the Budget than for the moving of the Budget motion itself or for any other proceeding. I cannot agree with such a presumption because it would require the Speaker to accede to the questionable proposition that some parliamentary proceedings are more important than others, and that members should not get worked up about missing the so-called less important parliamentary proceedings. It is not the responsibility of the Speaker to slice-and-dice proceedings in Parliament. To my mind, it is for individual members – not the Speaker, not the government, not security personnel – to decide whether they should be in the Chamber for the moving of the Budget motion, the tabling of the Budget, the presentation of the Budget, or all of them.

In the case at hand, there appears to be no disputing that some members of the Official Opposition missed the moving of the Budget motion, that they missed it because they were not released from the lock-up in a timely manner, and that had I not delayed proceedings for a few moments shortly after 4 p.m. on Budget day, they might have missed part of the Budget presentation itself.

For a *prima facie* case of privilege to be established, it is enough to ascertain that members wanted to attend the House and were at least for a time, and against their will, prevented from doing so. It is of no significance where such an obstruction occurred or what parliamentary proceeding members were prevented from attending.

Further investigation may well reveal a plausible explanation or mitigating circumstances for what occurred in the Budget lock-up on March 25, but I do believe that such further investigation is warranted.

I find therefore, that a *prima facie* case of privilege has been established.

As there has been some confusion in the past, I want to clarify what this finding means.

Maingot states (at page 221):

A *prima facie* case of privilege in the parliamentary sense is one where the evidence on its face as outlined by the Member is sufficiently strong for the House to be asked to debate the matter and to send it to a committee to investigate whether the privileges of the House have been breached or a contempt has occurred and report to the House.

...

While the Speaker may find that a *prima facie* case of privilege exists and give the matter precedence in debate, it is the House alone that decides whether a breach of privilege or a contempt has occurred, for only the House has the power to commit or punish for contempt.

In short, a *prima facie* finding by the Speaker does not mean that the Speaker has found anyone guilty of such an allegation. Rather, *prima facie* means the Speaker has determined that on the face of it, the information presented points toward the likelihood that a breach of privilege has occurred, and that it is in the interests of the House to give priority consideration to such a serious matter, and for a parliamentary committee to inquire into it.

When he raised this matter on April 12, the Member for Parry Sound-Muskoka indicated that he was prepared to move a motion to refer the matter to a legislative committee. Having now found that there is a *prima facie* case of privilege, I will call upon the Member to move his motion. Pursuant to Standing Order 21(b), this debatable motion, upon being moved, has precedence and will displace consideration of regular business until it is disposed of.

In closing, I want to thank the Member for Parry Sound-Muskoka, the Member for Welland, the Government House Leader, and the Member for Whitby-Oshawa for speaking to this matter. I also thank the Government House Leader, the Member for Parry Sound-Muskoka and the Member for Welland for their written submissions.

Mr. Miller (Parry Sound–Muskoka) moved, _____ M. Miller (Parry Sound–Muskoka) propose,

That the matter of the delayed release of certain members of this House from the March 25, 2010 Budget lock-up be referred to the Standing Committee on the Legislative Assembly for its consideration.

A debate arising, with unanimous consent, the Speaker recessed the House for five minutes.

The question then having been put on Mr. Miller’s (Parry Sound–Muskoka) motion, it was declared carried.

ORAL QUESTIONS

QUESTIONS ORALES

The Speaker addressed the House as follows:-

Le Président s'adresse à l'Assemblée comme suit:-

I have had the privilege of serving in this chair since November 28, 2007, but I regret to say that today's Question Period was characterized by one of the worst displays of deportment in the 39th Parliament. Members on both sides of the House contributed to this state of affairs.

To paraphrase a member who wrote to me earlier today, I ask members to remember that they were elected to govern the province, and to accept that both Her Majesty's loyal opposition and the government have legitimate roles to play in our parliamentary system.

I do not want to see a repetition of today's behaviour in the rest of the current Parliament, so I implore all members to use more temperate language in this place.

While members of the House are protected by parliamentary privilege, they should exercise some restraint when making allegations and comments on the conduct of citizens of this province. To quote from an April 2, 2003 ruling of Speaker Milliken of the Canadian House of Commons:

Speakers discourage members of Parliament from using names in speeches if they are speaking ill of some other person because, with parliamentary privilege applying to what they say, anything said that is damaging to the reputation or to the individual ... is then liable to be published with the cover of parliamentary privilege and the person is unable to bring any action in respect of those claims.

In addition, the use of suggestive language or innuendo with regard to individuals, as members on both sides of this House did today, can provoke an angry response which, as happened today, inevitably leads to disorder.

I am asking all members to exercise more responsibility in the future and to not abuse the wonderful privilege of freedom of speech that they enjoy. This applies equally to members hurling insults toward other members and making personal attacks. As I have said previously, I believe that each and every member in this House is capable of a higher standard.

The House recessed at 12:20 p.m.

À 12 h 20, l'Assemblée a suspendu la séance.

1:00 P.M.**13 H**

ORDERS OF THE DAY

A debate arose on the motion for Third Reading of Bill 16, An Act to implement 2010 Budget measures and to enact or amend various Acts.

ORDRE DU JOUR

Il s'élève un débat sur la motion portant troisième lecture du projet de loi 16, Loi mettant en oeuvre certaines mesures énoncées dans le Budget de 2010 et édictant ou modifiant diverses lois.

After some time, pursuant to the Order of the House of April 21, 2010, the question having been put, the Acting Speaker (Mrs. Munro) declared her opinion that the Ayes had it, and a recorded vote having been demanded, the Acting Speaker then addressed the House as follows:-

Pursuant to Standing Order 9(c), the vote on the motion for Third Reading of Bill 16 is deferred until "Deferred Votes" today.

Après quelque temps, conformément à l'ordre adopté par l'Assemblée le 21 avril 2010, la motion mise aux voix, la présidente par intérim (M^{me} Munro), déclare qu'à son avis les voix favorables l'emportent et un vote par appel nominal ayant été demandé, ensuite, la Présidente par intérim s'adresse à l'Assemblée en ces mots:-

Conformément à l'article 9 c) du Règlement, le vote sur la motion portant troisième lecture du projet de loi 16 est différé jusqu'aux «Votes différés» aujourd'hui.

At 10:01 a.m., the Government House Leader indicated that no further business would be called this morning and therefore the Acting Speaker recessed the House.

10:30 A.M.

10 H 30

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Tuesday, April 27, 2010, the Member for Bruce-Grey-Owen Sound (Mr. Murdoch) rose on a point of order arising out of Question Period. The Member for Bruce-Grey-Owen Sound asked a question of the Acting Premier who immediately referred the question to the Minister of Energy and Infrastructure, the supplementary was also answered by the Minister of Energy and Infrastructure.

The Member for Bruce-Grey-Owen Sound attempted to file his notice of dissatisfaction to a response by the Acting Premier, and argued that her referral of his question to the Minister of Energy and Infrastructure was technically a response. The Member asked for some clarification on the rules and practice respecting this issue.

I have had a chance to review the point of order, and I would like to remind all Members that Standing Order 37(e) states the following:

- (e) A minister to whom an oral question is directed may refer the question to another minister who is responsible for the subject-matter to which the question relates.

The Acting Premier referred the question, which dealt with renewable energy and industrial wind farms to the Minister of Energy and Infrastructure, as the rule allows.

I also refer the Members to Standing Order 38(a):

- (a) The Speaker's rulings relating to oral questions are not debatable or subject to appeal. However, a member who is not satisfied with the response to an oral question, or who has been told that his or her question is not urgent or of public importance, may give notice orally at the end of the Oral Question Period that he or she intends to raise the subject-matter of the question on the adjournment of the House and must give written notice to the Speaker and file reasons for dissatisfaction with the Clerk before 12:00 noon, and the Speaker shall, not later than 4:00 p.m., indicate the matter or matters to be raised at the time of adjournment that day.

A notice of dissatisfaction on a question for adjournment proceedings (late show) must be filed with the Minister who responded to the question, therefore if the Member for Bruce-Grey-Owen Sound was not satisfied with the response that the Minister of Energy and Infrastructure provided, then he would have been well within the rules to file his notice of dissatisfaction with the Minister of Energy and Infrastructure.

In support of this, let me also make reference to a June 3, 1993 ruling given by Speaker Warner, in which he responded to a similar point of order by confirming that a notice of dissatisfaction can only be directed to the minister who responded to the question and not the minister who referred the question.

The referral of the question by the Acting Premier did not amount to a response to the Member for Bruce-Grey-Owen Sound's question. The response and supplementary by the Minister of Energy and Infrastructure, however, did.

10 H 30

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Monday, May 17, the Third Party House Leader, the Member for Welland (Mr. Kormos), raised a point of privilege concerning reports in the press about the recruitment process for the position of Ombudsman of Ontario.

The Member alleges that leaks to the press of information about this confidential process constitutes a contempt of the Legislature, and furthermore that published statements allegedly made about the current Ombudsman of Ontario are libelous and slanderous.

The House Leader for the Official Opposition (Mr. Yakabuski) and the Government House Leader (Ms. Smith) also spoke to this point of privilege.

An important fact in this matter is that the parent Acts of the various Officers of the Legislature are silent with respect to the method of recruiting those Officers. The Officers are all appointed by the Lieutenant Governor in Council, on Address of the Assembly, but what is not spelled out is a process for the Assembly itself to originate such an Address. Therefore, in strictly procedural terms, the Address is proposed with notice as a substantive government motion and, upon passage by the Assembly, the Lieutenant Governor, on advice of the Cabinet, is in a position to effect the appointment of the Parliamentary Officer in a manner consistent with the stated wishes of the Legislative Assembly.

Over time, ways have been found to involve Members of this House in the recruitment of various parliamentary officers, and within the last 10 years or so it has been the case that the Speaker has been called upon, through what one might call "the usual channels", to compose a panel of 3 Members, one from each recognized party, and chaired by the Speaker, to perform this task. This informal approach was again put to use on several very recent occasions to deal with pending vacancies in the positions of Ombudsman, the Integrity Commissioner and the Environmental Commissioner.

I consider it important to recount the general circumstances surrounding these recruitment panels because it confirms that, although a process of some long standing, it is an informal process that comes into being through the negotiations and cooperation of the parties in this House. Its purpose is to involve the House in the selection of its own Officers, to the extent possible, with the intent that the selection panel is able to recommend a candidate for appointment.

The Member for Welland in his submissions likened this panel to a legislative committee, and asserted that the breach of confidentiality that he alleges has occurred, is subject to the same potential remedies that would be in play in the case of, say, a prematurely-released report of a committee of this House. The question for the Speaker, then, is does this hiring panel have the status of a committee of the Legislature?

No motion or other formal action of this Assembly gave life to the panel. It had no independent authority as a House-appointed legislative committee would have had, such as those conferred by the *Legislative Assembly Act* or the Standing Orders. It was an *ad hoc* panel of Members of the Legislative Assembly, but it was not a Committee of the Legislative Assembly. The difference is substantive. A parliamentary committee is a creature of this House, subservient to the instructions of this House, and able to report only to this House. An unauthorized or premature release of a committee report or *in camera* proceedings has indeed been found on certain occasions in this Legislature and others to be a *prima facie* breach of the privileges of the Legislature.

The status of this panel was informal. While it engaged itself in an important advisory role to the guiding minds and leadership of the House, it was not answerable or accountable to the House, *per se*. Indeed, it might be likened to parliamentary caucuses, or the House Leaders group, each of which consists of Members of the House and meets regularly to discuss matters of parliamentary business. These are not direct creations of the House, though, and are not subject to the conventions of parliamentary privilege as a parliamentary committee indisputably is. Unlike a committee of the House, whose existence and scope of activity is conferred only by the House, no such restrictions attach to the informal bodies I have just mentioned.

That is not to say, however, that the hiring panel's deliberations should have been subject to any less rigorous an observance of confidentiality than should a fully-fledged legislative committee. As Chair of the panel I can assure everyone that the existence of press coverage about the panel's activities - regardless of its level of accuracy - is extremely distressing and disappointing.

The panel as a whole had a valid expectation that the confidentiality of its proceedings, discussions and decisions were to be held in confidence. Each member of the panel was justifiably entitled to a similar expectation, and had a coexistent mutual obligation to ensure it. This is so not because of the status of the panel - whether it be a parliamentary body or not - but because of the nature of the panel's work - a human resources assignment. From a normative point of view, in this case privilege is beside the point.

Nevertheless, what is before us is a matter of privilege. For the reasons already cited, though, I cannot find that a *prima facie* case has been made out.

Finally, the Member for Welland essentially framed his point of privilege within the larger question of contempt and whether a matter of libel or slander is at play in this issue. As I am sure the Member can appreciate, allegations of libel are only that, and it is certainly not to the Speaker to adjudicate them. It is however, possible to imagine that an attack or obstruction of a Parliamentary Officer could give rise to a finding of contempt, in the proper scenario. The Member for Welland has furnished the Speaker with numerous press reports to support his point. However, press reports are just that; reported and sometimes paraphrased commentary. They do not rise to the level of proved libel and in the absence of a report or plea made to this House from one of its officers that such an occurrence has interfered with the performance of his or her duties I cannot find that a *prima facie* case of contempt has been made out.

I thank the Member for Welland, the Official Opposition House Leader and the Government House Leader for their submissions on this matter.

ORDRE DU JOUR

Le débat reprend sur l'Ordre numéro 20 émanant du gouvernement sur la motion portant adoption des recommandations contenues dans le rapport final du Comité spécial de la santé mentale et des dépendances.

After some time, the House recessed at 10:15 a.m.

Après quelque temps, à 10 h 15, l'Assemblée a suspendu la séance.

10:30 A.M.**10 H 30**

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

The Member for Lanark–Frontenac–Lennox and Addington has given me written notice of his intention to raise a point of privilege, as required by Standing Order 21(c). I would like to thank the Member for giving me sufficient time to review this matter.

I wish to advise that I will be deciding on this matter without further hearing directly from the Member at this time, as Standing Order 21(d) permits me to do.

The Member's point of privilege concerns Regulation 233/10, made on June 2, 2010, under the *Public Works Protection Act*. This Regulation established a geographical area in the City of Toronto to be designated a "public work" for the purposes of the *Act*, for the period June 21 to 28, 2010. This period of time encompassed the dates on which the G20 Summit was held.

The Member has asked me to find that two things about this Regulation have breached his privileges: first, its promulgation without the prior consultation of the Legislative Assembly and, second, the failure of the Premier and the then-Minister of Community Safety and Correctional Services to clarify confusion the Member believes existed about the scope of application of the Regulation.

With respect to the first issue, it is simply the case that any regulation, made in accordance with the statute conferring the authority for it to be made, does not require the prior agreement of the House. Or, more accurately, a statute conferring the authority for future regulations represents a prior delegation by the House of the legal, moral and political sanction to the government of the day to make such regulations. There is no case for complaint by the House or any of its members when this power is validly exercised, for it was indeed previously delegated by the House itself – the House, in its wisdom, did have its say when it passed the parent statute, thereby giving its prior consent for such a Regulation to be made.

Obviously the House can never foresee in advance all of the circumstances and scenarios that might give rise to a regulation being made under a statute, or what exact form or reach a regulation might have. Nevertheless, the Legislature very routinely passes legislation embedded with regulation-making authority. When the House passes legislation that includes the power to make regulations, it is effectively waiving its privilege to have a say and to have a role in exactly what regulations say, or when they are made.

With respect to the second issue, I am certain the Member can surely appreciate that it is not for the Speaker to dictate what a government can or cannot, should or should not, have to say about any given issue except that which is bound by the rules of this House. Nor can a Speaker interpret or divine what the various reactions and understandings of the public might be about any government action or statement, or a government's decision not to act or speak in a way someone might wish, or the motives, if any, of anyone in this equation.

The privileges that members individually, and the House collectively, enjoy are very focused and limited, and revolve principally around the right to participate in parliamentary proceedings freely and without obstruction or hindrance. Given the exact heads of privilege in the context of what I have just said about this matter, I cannot find that the Member for Lanark–Frontenac–Lennox and Addington has made out a *prima facie* case for a breach of privilege or a contempt of the House.

10 H 30

The Speaker addressed the House as follows:-

Le Président s'adresse à l'Assemblée comme suit:-

Just before we begin Question Period today, I want to take a few minutes to follow up on comments yesterday and address the matter of decorum.

Recognizing that Question Period is by its very nature an intense proceeding of this House and carries with it some latitude of behavior, it should nevertheless be remembered that the public do watch and there is an expectation of good conduct placed upon us.

I am not so naïve as to deny that there may be other ambitions and aspirations involved in Question Period besides that of seeking information and holding the government to account. Nevertheless, that is the primary purpose of this proceeding and there are certain principles that we can follow that would serve to move us in the direction of that outcome. Among those principles is the proper use of language and form of address.

First, it is helpful and serves to mitigate the likelihood of insult if members direct their remarks to the Chair. The talent of speaking in the third person may be one that many of you find difficult, but I ask that rather than hurling accusations directly at your colleagues across the floor, you make the effort to speak to me. I will be reminding members to do so more frequently.

Second, there is a long standing tradition in this House that we refer to each other by title or riding name rather than given name. Doing so raises the level of debate from the personal to the professional and recognizes that we are here in representation of our constituency. In the past, Speakers have exercised some latitude in the enforcement of this traditional guideline. For example, it has for many years been acceptable to make reference to a particular administration by the Premier's last name as in: "the Harris government", "the Eves government", "the Rae government" or "the McGuinty government". I have no issue with that.

Where the use of names becomes problematic is when it is done in a manner that is disrespectful or mean spirited. Used in an insulting, accusatory or mocking tone or context, intended to debase an individual member, it is unparliamentary and unacceptable.

You need only look as far as yesterday's Hansard to understand what I mean. There are examples there from both sides of the House and throughout Question Period. I know that all Honourable Members are astute enough to know the difference between temperate, respectful language and that which is insulting or offensive.

Speaking through the Chair and properly addressing each other serves to enhance the level of discourse and raise the bar on decorum. So, take this as fair warning that I will be demanding a greater observance of this practice as we go forward.

ORDERS OF THE DAY

Government Notice of Motion Number 29 having been called, a point of order was raised regarding the orderliness of the motion.

The Speaker recessed the House, and upon his return, delivered the following ruling:-

I want to thank the Member from Renfrew-Nipissing-Pembroke for raising this issue. I would also like to thank the Government House Leader, the Member from Essex and the Member from Beaches-East York for speaking to this issue. This certainly presents a question of semantics on which there is clear disagreement, but beyond that it is really not for the Speaker to parse the meaning behind the words in a motion, nor for the Speaker to be the arbiter over a difference of opinion.

During the arguments made on the point of order, it was clear that both sides of the House can successfully argue the semantics in the motion, but a debate over precise meanings does not negate the procedural orderliness of the motion.

The key to the orderliness of a motion is whether it presents an intelligible question to which the House can resolve. In my opinion, the motion as currently worded does so. However, this is a substantive government motion and is therefore capable of being amended. It is open to any member to propose an amendment to either delete elements of it, or add to it, in such a manner as to try to make it more acceptable to a wider number of members.

ORDRE DU JOUR

The House therefore possesses the means to resolve the alleged factual irregularity, if it agrees such exists, simply in whether or not it chooses to amend the motion, and whether or not it chooses to pass the motion, with or without amendment. I suggest this would be the procedurally correct manner of dealing with what amounts to a disagreement over the precision of the language in the motion.

I find the motion to be in order and will allow the debate to proceed.

Mr. Hoskins moved,

M. Hoskins. propose,

That the Legislative Assembly of Ontario recognizes that Ontario receives, welcomes and benefits from the contributions of nearly half of all new immigrants coming to Canada and calls on the federal government to support the integration of newcomers and the economic recovery in Ontario by investing in services for newcomers and therefore asks the federal government to fulfill their commitment under the recently expired five-year Canada-Ontario Immigration Agreement to spend the outstanding \$207 million promised to Ontario's newcomers and immediately commence negotiations on a comprehensive new agreement that provides the adequate funding, planning, and governance necessary for immigrants to succeed and for Ontario to prosper.

A debate arose and after some time, Mr. Hudak moved,

Il s'élève un débat et après quelque temps, M. Hudak propose,

That the motion be amended by removing the words:-

“and the federal government to support the integration of newcomers and the economic recovery in Ontario by investing in services for newcomers and therefore asks the federal government to fulfill their commitment under the recently expired five-year Canada-Ontario Immigration Agreement to spend the outstanding” and “promised to Ontario’s newcomers and immediately”

And the Bill was accordingly read the third time and was passed.

En conséquence, ce projet de loi est lu une troisième fois et adopté.

A point of order was raised regarding the announcement of Ontario's long term energy plan.

At 12:05 p.m., the Speaker recessed the House for 5 minutes, and upon his return, delivered the following ruling:-

I thank the Member for Welland for raising this issue, and the Member for Renfrew-Nipissing-Pembroke and the Government House Leader for their contributions.

It is a sound and long-standing principle that policy statements and announcements by the government ought to be made in the Legislature, such that Members of the Assembly are the first to receive the information.

As the Member for Welland correctly stated in addressing his point of privilege, there is no shortage of examples of Speakers asserting this important principle. For instance, I delivered what I thought was quite a comprehensive ruling on this very issue last November 2. Let me quote briefly from that ruling:-

[This is but] the latest in a long litany of similar points of order raised over the years by members sincerely frustrated by the ongoing tendency of governments to make announcements outside of the Legislative Assembly in advance of, or instead of, informing the House.

My predecessors and I have repeatedly conveyed our deep concern about how these types of extra-parliamentary announcements erode the stature of parliament. Speakers have repeatedly implored governments to consider the impact of this erosion, and how it damages the reputation of the foundation institution of the Province. These pleas repeatedly go unheard and unheeded.

Though in no position to do anything about it, like my predecessors I am sympathetic to the grievance these types of activities raise. Nothing about this is new, and similar complaints have arisen from all three parties in this House over the years as their roles have changed from government to opposition. The Speaker can only suggest that it falls to the players to heal this syndrome of casual diminishment of the legitimate and key role of the opposition and of this House. In reality, only the government of the day is in a position to lead change on this.

I can only confirm my continued adherence to that statement. While the Speaker cannot compel that statements be made in the House, once again I urge that proper deference to the House always be a central part of the planning that governments do when they are rolling out announcements of government policy.

As for the matter of the briefings and press conferences that are apparently planned today by the Minister of Energy, as Speakers have noted before, these types of briefings are extra-parliamentary events, and obviously happen outside of the legislative milieu. As such, the Speaker has no jurisdiction over them and can neither insist that any type of briefing or advance information be provided at all, nor when or where this should occur.

I can say, though, that courtesy might dictate that for such an important announcement, such large-scale briefings, if they are to occur, ought to be available to all Members who wish to participate. That would be the ideal situation and the one most likely to produce a harmonious House. Without doubt the House always functions more effectively when a basic sense of goodwill underpins the proceedings in this Chamber.

Having said that, I must however say again that the Speaker has no control in the matter.

The Member does raise a valid grievance, but not a *prima facie* breach of privilege.

The House recessed at 12:18 p.m.

À 12 h 18, l'Assemblée a suspendu la séance.

ORAL QUESTIONS

QUESTIONS ORALES

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

Yesterday, the Member for Newmarket–Aurora, Mr. Klees, rose on a point of order respecting answers to written questions that he had asked of the Minister of Transportation, the Minister of Children and Youth Services and the Minister of Energy. The Government House Leader, Ms. Smith and the Third Party House Leader, Mr. Kormos, made submissions on this point of order.

The Member for Newmarket–Aurora complained that the answers to his written questions were not acceptable on the grounds that they were neither complete nor in some instances relevant to the question asked. While the Member raised this issue as a point of order, he subsequently sought redress by way of a finding of a *prima facie* case of privilege.

Let me clarify at the outset that while it may be arguable that this is more appropriately dealt with as a point of privilege, it was not raised as such with the requisite notice given. In any case, it has been determined previously that such an issue does not constitute a *prima facie* case of privilege. However, from the perspective of the matter potentially being a violation of the rules, it is sufficient to raise it as a point of order and I will address it as such.

Standing Order 99 sets out the provisions for written questions. With respect to the content or quality of answers to written questions, Standing Order 99 is silent. It provides only that written questions be answered within 24 sessional days unless volume or complexity necessitate additional time.

As is the case with oral questions, there are no provisions in the rules or customs of this place for the Speaker to scrutinize or evaluate government responses to written questions.

On May 18, 2010 I ruled on this same issue and I stated at that time that “numerous Speakers have ruled that during oral question period ministers may answer a question any way they see fit. It’s also the case that it is not the Speaker’s responsibility to ensure that the answer to a written question satisfies that question”.

This is further supported, as the Government House Leader noted, in O’Brien and Bosc at page 522 where it says, “There are no provisions in the rules for the Speaker to review government responses to questions.”

The House Leader for the Third Party referenced Standing Order 1(b) and seemed to suggest that somehow that Standing Order might allow for an expanded interpretation of Standing Order 99. I can't agree. In my mind, Standing Order 1 is in the nature of a purpose clause and provides a general statement of principle about the Standing Orders themselves. I do not think it is intended to give license to the Speaker to impose provisions or assert authority where none exist.

The Member for Newmarket–Aurora indicated that he believed he had a “legitimate and genuine grievance” in this matter and that may be so, but as a matter of procedure, the rules have been complied with and I can find nothing out of order.

I thank the Member for bringing this to the attention of the House and to the Government and Third Party House Leaders for their contributions to this discussion.

The House recessed at 11:37 a.m.

À 11 h 37, l'Assemblée a suspendu la séance.

The Committee shall be authorized to meet beyond the normal hour of adjournment for clause-by-clause consideration on Monday, December 6, 2010. That, in the case of any division relating to any proceedings on the bill, the division bell shall be limited to 5 minutes.

A debate arose and after some time, the question having been put, the Acting Speaker (Mrs. Munro) declared her opinion that the Ayes had it, and a recorded vote having been demanded,

The Acting Speaker directed that the Members be called in, for which purpose the division bells were rung.

During the ringing of the bells, the Acting Speaker addressed the House as follows:-

ORDRE DU JOUR

M. Gravelle propose,

Il s'élève un débat et après quelque temps, la motion mise aux voix, la présidente par intérim, M^{me} Munro déclare qu'à son avis les voix favorables l'emportent et un vote par appel nominal ayant été demandé,

La Présidente par intérim donne des directives pour convoquer les députés et la sonnerie d'appel se fait entendre.

Pendant la sonnerie d'appel, la Présidente par intérim s'adresse à l'Assemblée en ces mots:-

I have received a request from the Chief Government Whip, under Standing Order 28(h), that the vote on Government Notice of Motion Number 51 be deferred until December 1, 2010.

J'ai reçu une requête du Whip en chef du gouvernement, conformément à l'article 28 h) du Règlement, que le vote sur l'avis de motion numéro 51 émanant d'un gouvernement soit différé jusqu'au 1 décembre 2010.

Therefore the vote is accordingly deferred.

En conséquence, le vote est différé.

The Order of the Day on the motion for Third Reading of Bill 122, An Act to increase the financial accountability of organizations in the broader public sector, having been called, a point of order was raised and the Acting Speaker recessed the House and upon her return delivered the following ruling:-

Earlier today, Bill 122 was reported to the House from a standing committee, with certain amendments.

Pursuant to the time allocation Order passed on November 4, when the report of the committee on Bill 122 was received and adopted, the bill was ordered for Third Reading.

The November 4 time allocation Order also contained a provision that the Order for Third Reading of the Bill could be called on the same day it was reported from committee, and indeed that is what the Government House Leader did a few minutes ago when Orders of the Day was called.

I will say that this precise scenario occurred on January 29, 1996, when Bill 26 was reported to the House. On that same day, Bill 26 was called during Orders of the Day, even though it had been amended but not yet reprinted. The Speaker at that time ruled that it was in order for the debate to proceed. There are other similar instances where time-allocated bills have withstood similar points of order.

I am satisfied that the time allocation Order that the House passed on Bill 122 made clear provision for the ability of the bill to be called in this situation, and I will allow the debate to proceed.

I will now recognize a minister to move Third Reading of the Bill.

A debate arose on the motion for Third Reading of Bill 122, An Act to increase the financial accountability of organizations in the broader public sector.

Il s'élève un débat sur la motion portant troisième lecture du projet de loi 122, Loi visant à accroître la responsabilisation financière des organismes du secteur parapublic.

After some time, the House then adjourned at 6:00 p.m.

Après quelque temps, à 18 h, la chambre a ensuite ajourné ses travaux.

ORAL QUESTIONS

QUESTIONS ORALES

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

The Member for Dufferin–Caledon (Ms. Jones) has provided me with notice of her intention to raise a point of privilege. I want to advise that I will be ruling on this matter without hearing further directly from the Member, as Standing Order 21(d) permits me to do.

The Member raises with me the same issue that has already been raised several other times in the recent past, namely the matter of government announcements being made outside of this Chamber.

Specifically, the Member refers to yesterday's statement by the Minister of Community and Social Services concerning the formation of a Social Assistance Review Committee.

As has been ruled on numerous occasions, the Speaker has no jurisdiction over announcements that are made in other places, nor can he compel that announcements be made only in the Chamber.

While I appreciate that the Member feels aggrieved that the announcement she refers to was made outside the House, and Speakers have certainly expressed the consistent view that important announcements should first be made to the Legislative Assembly, what she has brought forward does not rise to a *prima facie* case of privilege.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Wednesday, October 6, the Member for Carleton-Mississippi Mills (Mr. Sterling) rose on what he claimed was a point of order concerning a reception that was held the previous evening in the Legislative Dining Room. The member complained that the event did not comply with the established rules for the use of the public spaces in the Legislative Building. The Government House Leader (Ms. Smith) also spoke to this matter.

As I said when this matter was raised, a matter of parliamentary procedure was not at issue and therefore the House was not the proper venue for this issue to be raised. It is the common and expected practice for matters relating to the internal administration of the Assembly to be raised privately, directly with the Speaker. However, I did commit to review and report back on this matter, and I now welcome the chance to do so because I think there is some value in confirming our policies and practices, there having been some uncertainty in the past respecting appropriate uses of the parliamentary precinct.

Events held in the public spaces of the Legislative Building, most commonly one of the committee rooms or the Legislative Dining Room, are subject to policies that have been established for use of those facilities. One of the key aspects of this policy requires that events held by or on behalf of outside organizations must include invitations to all MPPs.

The Member for Carleton-Mississippi Mills raised two specific issues. The first had to do with what I have just mentioned, being the inclusiveness of the event. The member claimed that he was not certain that all MPPs had been invited to the event or, if they had, that it was impractical for some members to attend because the invitations were issued at the last minute.

I can confirm that this event was properly booked according to the existing policy, and that the requirement to include all Parties was both conveyed by Assembly officials to, and acknowledged by, the organizer. Since it is the organizer's responsibility to issue invitations, I am not in a position to address how they were issued or whether the gap between confirming the event and notifying all members of it was both reasonable and sufficient. However, in principle, I do consider it extremely important that as much notice as possible is given to members of all Parties when events of this type are to be held. Not only are members entitled to such basic consideration, but the overall success of such events is surely more likely to be achieved with good attendance by many members from all Parties, and this is only possible when members have the time they need to make the required arrangements in their calendars.

The Member for Carleton-Mississippi Mills' second issue was with an alleged partisan tone of the remarks made by some of those who spoke at the event. As I'm sure he can appreciate, there is a significant difference between the Speaker's jurisdiction, under the existing policy, to insist upon invitations for all members to attend these events, on the one hand, and the Speaker's ability to vet or regulate remarks made at those same events on the other. However, one might hope and expect that an event with the diplomatic stature of the one that is at issue here would be non-partisan in tone. Suffice it to say that the very attendance of members from all Parties should, in itself, work toward ensuring the fair dissemination of various viewpoints at such events, and that is why it is so important that all members are invited and all parties can participate.

Finally, the raising of this matter has accelerated consideration that was already being given to ways of enhancing the dissemination of information around the Legislative Assembly about the various activities that go on here each day, whether it be a committee meeting, construction or other work of some type, temporary entrance closures, or events of the type raised by the Member for Carleton-Mississippi Mills.

I am considering ways to get this information out more proactively. One method I am looking at is mounting video displays in various parts of the building, including the Members' Lobbies, where this information can be prominently displayed and updated as required. I would appreciate your thoughts on this idea and others that would serve to keep members better informed about the numerous activities that take place here.

I thank the Member for Carleton-Mississippi Mills for raising this matter, and the Government House Leader for her contribution.

And it was,

Resolved, That the Legislative Assembly of Ontario recognizes that Ontario receives, welcomes and benefits from the contributions of nearly half of all new immigrants coming to Canada and calls on the federal government to support the integration of newcomers and the economic recovery in Ontario by investing in services for newcomers and therefore asks the federal government to fulfill their commitment under the recently expired five-year Canada-Ontario Immigration Agreement to spend the outstanding \$207 million promised to Ontario’s newcomers and immediately commence negotiations on a comprehensive new agreement that provides the adequate funding, planning, and governance necessary for immigrants to succeed and for Ontario to prosper.

The Speaker addressed the House as follows:-

Le Président s'adresse à l'Assemblée comme suit:-

I beg leave to inform the House that I have today laid upon the Table a report from the Ombudsman entitled "Caught in the Act": Investigation into the Ministry of Community Safety and Correctional Services’ conduct in relation to Ontario Regulation 233/10 under the Public Works Protection Act (Sessional Paper No. 360) (Tabled December 7, 2010).

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On December 2, 2010 the Member for Simcoe–Grey (Mr. Wilson) rose on a question of privilege concerning the distribution of what he argued were “election-style pamphlets” on the morning of Tuesday, November 30, 2010.

The Member purports that the distribution of such documents amounts to a matter of contempt because the material promotes a proposed government program as if it already has the approval of the Assembly.

I have had an opportunity to review the written material supplied by the Member for Simcoe–Grey, the comments made by the Government House Leader (Ms Smith) and precedents on similar matters.

Let me begin by correcting the assertion made by the Member for Simcoe–Grey in his letter where he states that Speaker Curling “found a contempt of the Assembly” on February 22, 2005. The following more complete text of Speaker Curling’s ruling reveals in fact that he found the opposite.

“...the wording and the tone of the documents are not dismissive of the legislative role of the House. On the contrary, they indicate that the government had plans and proposals that require not only negotiation, but also the introduction and passage of legislation. In particular, the board letter and press release contain conditional phrases such as “intends to introduce legislation”, “we are proposing”, and “Legislation that, if passed.”

With respect to the word “guaranteed” in the documents, I note that it is not used in the sense that passage of enabling legislation was a foregone conclusion, but rather in reference to proposed payments to transfer partners and a proposed provision in future collective bargaining agreements.

For these reasons, I find that a *prima facie* case of contempt has not been established...”

Notwithstanding that the Member for Simcoe–Grey erred in his assessment of the conclusion of that ruling, the ruling itself is apt, since its subject was quite similar to the one we are dealing with today. A review of the pamphlet in question confirms the use of phrases such as “The McGuinty Government wants to...” and “We’re proposing...”, wording that is almost identical to the conditional phrases used in the letter and press release that Speaker Curling ruled on.

The Member for Simcoe–Grey also referred to a ruling by Speaker Stockwell on this same subject. In that case, Speaker Stockwell found that a *prima facie* case of privilege did in fact exist. However, a review of the pamphlet that he had before him reveals quite different wording. It contained phrases such as “new city wards will be created” among others, that Speaker Stockwell found to be dismissive of the House and which could reasonably have left one with the impression that the passage of the requisite legislation was a forgone conclusion.

In my opinion, the pamphlet that the Member for Simcoe–Grey has brought to my attention is more characteristic of the documentation that Speaker Curling dealt with. I cannot find that the language used is dismissive of the legislative role of the House. On the contrary, the use of qualifying language such as: “we are proposing” can only leave the impression that further steps are required before implementation is possible. I can not find therefore that a *prima facie* case of contempt has been established.

I want to thank the Member for Simcoe–Grey and the Government House Leader for their submissions on this matter.

The House recessed at 11:49 a.m.

À 11 h 49, l’Assemblée a suspendu la séance.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

I am in receipt of notice of identical points of privilege filed by the Member for Thornhill (Mr Shurman) and the Member for Simcoe Grey (Mr Wilson). Without hearing further from the Members, I am prepared to make my ruling on the basis of the written statements as Standing Order 21(d) allows me to do.

The members relate that following Question Period on December 7th they and the Member for Whitby Oshawa were followed along the west hallway and subsequently into the west elevators by a Liberal Caucus staff person with a video camera. The Members further assert that their ability to have a private conversation was, as a result, hindered and that this constituted a breach of privilege since they were “obstructed” from performing their parliamentary duties.

Let me begin by saying in the strongest possible language that an allegation of breach of privilege is a serious matter and should not be made lightly or with any other motivation than the protection of the institution of parliament and the members who serve it.

The heads of privilege are very few and their application is very narrow. As Speakers have said on numerous occasions in the past, when it comes to obstruction, privilege very specifically applies to “parliamentary duties”. This does not include constituency matters, attendance or invitations to functions outside of this place and certainly not to the ability to have a private conversation in a public space. Obstruction of a member in his or her effort to carry out parliamentary duties refers to such things as being physically prevented from attending the House or severely intimidated from speaking on a matter before the House.

The Members have characterized the staffer’s videotaping of elected members in the hallways of this place as “reprehensible”. I myself find the practice distasteful at best. In this technological age, when video and photographic devices are so common, I can see that it is tempting to use them for political purposes. Unfortunately, that temptation is succumbed to all too frequently. Given that, I am not surprised the practice has given rise to the complaints of the Members for Thornhill and Simcoe-Grey. I would prefer if the political process rose to the level of dignity our surroundings here suggest it deserves. So I would ask all members to reflect on what I have said and give it consideration in the future.

Beyond the use of these devices, I am increasingly alarmed at activity initiated and engaged in by both sides of the House, that I consider to be unworthy of this place. It sometimes seems that more effort goes into stunts and ‘gotcha’ politics than thoughtful consideration and mature debate on the significant issues at hand.

I have said before and I will repeat. The people of this province deserve better conduct from their elected representatives.

I thank the Members for their submission. They have not made a case for a *prima facie* breach of privilege.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

I am in receipt of notice of a point of privilege from the Member for Simcoe Grey (Mr. Wilson) on the same subject as I ruled on yesterday. Without hearing further from the Member, I am prepared to make my ruling now as Standing Order 21 allows me to do.

Given that the nature of the Member's point is substantially the same as the one ruled upon yesterday, I do not believe I have much further to add. However, for the benefit of all members, let me repeat a portion of that ruling:

"The Members have characterized the staffer's videotaping of elected members in the hallways of this place as "reprehensible". I myself find the practice distasteful at best. In this technological age, when video and photographic devices are so common, I can see that it is tempting to use them for political purposes. Unfortunately, that temptation is succumbed to all too frequently. ... I am not surprised the practice has given rise to complaint.... I would prefer if the political process rose to the level of dignity our surroundings here suggest it deserves."

As I indicated yesterday, while I have serious concerns about this activity occurring and strongly suggest that it should not continue, it does not amount to a *prima facie* case of privilege.

I might add here that in that same ruling yesterday, I made reference to activities that I consider to be unworthy of this place. I note that at the very moment I was making that statement, such an activity was underway outside these chamber doors. I trust greater forethought will take place before any of these kinds of behaviours are repeated.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

Yesterday, the Member for Thornhill (Mr. Shurman) raised a point of privilege with respect to statements made in the House by the Minister of Tourism and Culture (Mr. Chan) that the Member for Thornhill alleges were at variance with the facts. The Government House Leader (Ms. Smith) also made representations on this point.

The remarks in question stem from Question Period on December 2, when the Minister responded to two different questions, one from the Member for Wellington-Halton Hills and the other from the Member for Thornhill, relating to matters concerning the Niagara Parks Commission. The Member for Thornhill alleges that the response to his question contained incorrect information. The Member further points out that the Minister's error has been drawn to his attention on several occasions in the House, but that the Minister has not explicitly corrected his statement. In the view of the Member for Thornhill, the Minister's willingness to knowingly let incorrect information remain on the record amounts to a contempt of the House.

The Member raised, as one of the authorities for his case, a 2002 incident in the House of Commons of Canada involving then-minister Art Eggleton. This very case has previously been raised in this House to support a similar point of privilege involving alleged incorrect statements by a Minister. At that time, Speaker Carr had this to say, "I am deeply reluctant to accord applicability of that ruling to this case. Firstly, in that case Mr. Eggleton concurred that contradictory statements had been made and that clarification of the reasons for this, in a suitable forum, was required. Secondly, I see no precedential value to Speaker Milliken's ruling - within the ambit of parliamentary privilege - since, if the ruling is carefully read, it becomes apparent that a *prima facie* case of privilege was not explicitly found."

I agree with Speaker Carr, and do not consider the Milliken ruling to offer any meaningful support to the contentions by the Member for Thornhill.

The Member for Thornhill also drew my attention to a ruling this past May by Speaker Toth in the Saskatchewan Legislative Assembly. There are two things about the Toth ruling that also mitigate its applicability to this current case. First, that matter concerned a denial by an Officer of the Saskatchewan Legislative Assembly, the Information and Privacy Commissioner, that he had been consulted by the Minister of Health on a regulation. While the Minister told the House he had done so, the Privacy Commissioner corresponded to all Members of the Saskatchewan Assembly to advise them otherwise. That obvious and serious conflict between a Minister and an Officer of the Assembly simply could not be allowed to stand, and needed to be considered by the House and resolved. For this reason, Speaker Toth found a *prima facie* case of privilege had been made out. But that fact situation is quite a bit different than the one raised by the Member for Thornhill.

The second issue with the Saskatchewan ruling is that Speaker Toth found a *prima facie* case of privilege on the issue of misleading statements allegedly being made to the House, in the absence of an admission by the Member making the remarks that this was so. Speaker Toth was guided by precedents of his Assembly which established that -- unlike in the Ontario Assembly and others -- "in Saskatchewan, the threshold of proof of an offence is not restricted to an admission of guilt. Contempt has been found on the basis of evidence." In this situation, Speaker Toth continued, "the minister has not admitted to have misled the Assembly so the case must be reviewed on the documentary evidence provided by the Opposition House Leader."

Speaker Toth was correct that his approach was at odds with the practice of other parliaments, including ours. Perhaps the most decisive declaration and confirmation of this was made by Speaker Carr in his ruling to this Assembly on June 17, 2002. Speaker Carr examined both the Eggleton case and the famous Profumo case in the United Kingdom. He fully accepted the essential factors of the Profumo incident and stated that "The threshold for finding a *prima facie* case of contempt against a Member of the Legislature, on the basis of deliberately misleading the House, is therefore set quite high and is very uncommon. It must involve a proved finding of an overt attempt to intentionally mislead the Legislature. In the absence of an admission from the Member accused of the conduct, or of tangible confirmation of the conduct, independently proved, a Speaker must assume that no honourable Members would engage in such behaviour or that, at most, inconsistent statements were the result of inadvertence or honest mistake."

Yesterday morning, the Minister of Tourism and Culture rose on a point of order to clarify the remarks he made on December 2 – presumably the same ones with which the Member for Thornhill takes issue. The fact that even following that clarification the Member for Thornhill still raised his point of privilege is perhaps an indication that the clarification didn't clarify quite enough to remove the Member's doubt.

Nevertheless, the Minister is presumably content with where the matter stands and feels his clarification yesterday removes confusion. I can discern nothing about any of his statements nor do I have any proved finding that would indicate a deliberate desire to mislead the House. Indeed, the Member for Thornhill has not made that case. He himself admits that he is unable to say whether the alleged inaccuracy is "an error of commission or omission".

I am of the view that the threshold set out by Speaker Carr in 2002 to support a finding of *prima facie* contempt of the House, on an allegation that a member has deliberately misled the Assembly, has not been met in the case before me.

As was Speaker Carr's finding in 2002, "I can only find that I am left with what amounts to a genuine disagreement between two honourable Members. As a result, I am unable to find that a *prima facie* case of contempt has been made out."

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Thursday February 24, 2011 the Member for Brant (Mr. Levac) raised a point of order respecting the distribution of what he considered to be objectionable material to members' desks in this Chamber. Subsequently, the Member for Wellington–Halton Hills (Mr. Arnott) indicated that it was he who had distributed the material in question. The third party House Leader (Mr. Kormos) and the Government House Leader (Ms. Smith) also contributed to the submissions on this matter.

Members will know that the only material that is to be distributed in this Chamber is that which relates to the Parliamentary Proceedings. The *Orders and Notices Paper* and the committee meeting notices are two examples of such material.

Some of you will have encountered the steely resolve of our intrepid Sergeant or Mr. Butt as they intercept pages delivering personal or non-parliamentary material on your behalf. As a result, Members have on occasion taken to personally placing such things as announcements, invitations or even apples on their colleagues' desks in this Chamber.

Since most of this material is benign in nature and not in and of itself objectionable to any Member, the Speaker has traditionally exercised a moderate level of tolerance provided that House staff or resources are not used to distribute it. This practice I would suggest is well known to most members.

It disturbs me then that any Member would take advantage of the Speaker's forbearance in this regard and risk compromising the neutrality of Assembly staff by asking pages to deliver or even delivering himself, material that is neither parliamentary nor benign but, in fact quite blatantly political. That the material in question was enclosed in sealed envelopes signals to me that the Member either knew it was inappropriate for distribution in the House or that he was acting as the messenger and was unaware of its contents. Neither possibility gives me much reassurance.

I will consider that the Member for Wellington–Halton Hills has by this ruling been duly warned and I will consider any repetition a deliberate disregard for the authority of this Chair. Further, I caution all Members to refrain from distributing such partisan material in the future in respect of the longstanding traditions of this House, otherwise, as the Member for Welland suggests, the Speaker will be left with no option but to apply a more rigorous standard.

The Speaker addressed the House as follows:-

Le Président s'adresse à l'Assemblée comme suit:-

Just before we begin Question Period today, I would like to take just a few minutes to talk once again about the imprint we make on this institution in the way we behave.

I certainly appreciate that we are only months away from an election in this province, but the fact is, the writ has not yet been dropped and when it is, the pursuit will occur where it should – in the communities and constituencies that we serve. Bringing the seamier elements of an election campaign into this Chamber badly erodes its dignity and I am at a loss to understand what purpose members think it serves when they engage in personal, often spiteful attacks on one another across the floor.

Recent Question Periods have been overshadowed by insulting, provocative and bullying language that has reached vitriolic at times - that is when members can be heard at all over the cacophony of heckles.

Let me suggest that the members consider certain principles as we go forward.

- Time is scarce. Use it intelligently. As your Speaker, I do not like having to interrupt the flow of Question Period as often as I have been doing. The time wasted when I have to do that could allow for more questions to be asked and answered.
- The public is watching in some significant numbers. While Question Period is not ever going to be a wholly tranquil affair, it nevertheless behooves us to remember that our constituents do see us, and to behave in a manner that respects them.
- Finally, while I try to allow the greatest freedom possible in asking questions, it would be helpful if members could remember that the purpose of Question Period is to hold the government to account for its policies. This is done by asking questions and seeking information about those government policies. That purpose is not well served when Question Period becomes simply a forum for thinly veiled personal or partisan attacks. This last point in particular needs to be understood by both sides of the House.

Question period is and will continue to be a rather spontaneous and very animated proceeding and I am the first to admit to enjoying its cut and thrust. But I do believe that it is possible to maintain an acceptable level of civil discourse and that doing so need not impede any ability to aggressively press for information, or ardently defend policies. Surely we can maintain a level of respect for each other and for this extraordinary institution without resorting to the kind of behaviour that we've witnessed of late.

PRIÈRES

The Speaker addressed the House as follows:-

Le Président s'adresse à l'Assemblée comme suit:-

I beg to inform the House that a vacancy has occurred in the membership of the House by reason of the resignation of Peter Fonseca as the Member for the Electoral District of Mississauga East–Cooksville, effective March 26, 2011.

Accordingly, I have issued my warrant to the Chief Electoral Officer for the issue of a writ for a by-election.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

During Question Period on Thursday, March 24, I interrupted a question being posed by the Member for Thornhill (Mr. Shurman). I did so out of a concern that it was more a not-so-veiled attempt to import the Canadian general election onto the floor of this Chamber, as opposed to a question that related to and dealt with matters of provincial policy and issues within the jurisdiction of this Assembly.

Following Question Period, the House Leader of the Official Opposition (Mr. Yakabuski) raised a point of order. He was followed by the House Leader for the Third Party (Mr. Kormos) and the Government House Leader (Ms. Smith).

I have nothing but a desire to see this place function well. This happens when the House is operating within a band of reasonably acceptable decorum, where Members can hear each other and business actually can be conducted.

This band is actually very broad and I think there is an almost intuitive consensus among us as to where that band usually lies.

Last Thursday, I was asked for my guidance on what is an appropriate exchange between members of this House. My point of view in that regard has never changed nor is it a new perspective.

The purpose of Question Period in this House is to seek and provide information relating to provincial policy. Questions asked of a Minister and answers given, must be relevant to his or her program responsibilities. As I said, this is not new; a cursory glance at the precedents in this regard reveals such rulings going as far back as 1978.

Specifically in a case on point, Speaker Carr had this to say on June 4, 2001:

“To read other people's records during a by-election is not the purpose of question period... I will not allow people to use the questions to turn them into partisan situations.”

Last Thursday, I simply asked the Member for Thornhill to link his question to this government’s policy. He attempted to do so and I allowed the question. I do not think it is too difficult a concept to grasp that the executive council is responsible for the policies of this government and not for the comments or opinions of candidates in the federal election and that it is these policies upon which they should be questioned.

I fully expect that the Canadian general election, only a prospect last Thursday but now in full swing, will find its way onto the floor of this Legislature. As the Member for Welland said, politics is what this place is all about; of course national issues are of significance and relevance here. However, it is that relevance to provincial policy that I insist on.

I would ask all members to keep that in mind when crafting their questions and formulating answers so that we can maintain the integrity of Question Period and not succumb to the temptation to wander too far into the political battlefield of a federal election.

I thank the House Leaders all for your submissions on this issue.

TUESDAY, APRIL 12, 2011**ONE HUNDRED AND SEVENTH DAY****MARDI 12 AVRIL 2011****CENT SEPTIÈME JOUR****PRAYERS****9:00 A.M.****ORDERS OF THE DAY**

The Order of the Day for the motion for Third Reading of Bill 141, An Act to amend the Health Protection and Promotion Act having been read,

There being no further debate, the question having been put, the Speaker declared his opinion that the Ayes had it, and a recorded vote having been demanded, the Speaker then addressed the House as follows:-

Pursuant to Standing Order 9(c), the vote on the motion for Third Reading of Bill 141, An Act to amend the Health Protection and Promotion Act is deferred until "Deferred Votes" today.

At 9:04 a.m., the Government House Leader indicated that no further business would be called that morning and therefore the Speaker recessed the House.

10:30 A.M.

The Speaker delivered the following ruling:-

On Thursday, March 31, the Member for Welland (Mr. Kormos) raised a Point of Order concerning Standing Order 23(f), which states:-

In debate, a member shall be called to order by the Speaker if he or she:

Reflects upon any previous vote of the House unless it is the member's intention to move that it be rescinded.

PRIÈRES**9 H****ORDRE DU JOUR**

À l'appel de l'ordre du jour sur la motion portant troisième lecture du projet de loi 141, Loi modifiant la Loi sur la protection et la promotion de la santé,

Comme il n'y a plus de débat, la motion mise aux voix, le Président, déclare qu'à son avis les voix favorables l'emportent et un vote par appel nominal ayant été demandé, ensuite, le Président s'adresse à l'Assemblée en ces mots :-

Conformément à l'article 9 c) du Règlement, le vote sur la motion portant troisième lecture du projet de loi 141, Loi modifiant la Loi sur la protection et la promotion de la santé est différé jusqu'aux «Votes différés» aujourd'hui.

Le Président a rendu la décision suivante :-

In his Point of Order, the Member took issue with what is in fact quite a common occurrence in this Chamber – reference by one member to a previous vote of another member, or another party. The Member contended that Standing Order 23(f) should be interpreted as representing a prohibition against such references. The House Leader of the Official Opposition (Mr. Yakabuski) supported this proposition and later renewed this same Point of Order when he complained about an oral question on Thursday, April 7, 2011 which again made reference to a previous vote in the House. I reserved my ruling and am now prepared to deliver it.

What gives rise to the Opposition House Leaders' objections is when members of the government taunt the opposition with statements like "you voted against giving seniors that tax credit", or "you voted against that support program for farmers." The nuance here is that these kinds of measures have been included in a bill, which may contain a broad array of measures, that when voted upon, demands a single decision from every member, not a separate decision on each of its parts. Had they been able to vote separately on each part, members might well have voted in favour of that metaphorical seniors tax credit or farmer support program.

Preparing this ruling has caused me some degree of difficulty, because I do have to profess some sympathy for the Opposition House Leaders' point – I don't much like this when it happens, either. It almost always provokes disorder, to the extent that the practice has now even given rise to this Point of Order.

But what is the purpose of Standing Order 23(f)?

The rule is designed to protect the integrity of the collective decisions of the House. The process of a decision duly and properly made, whether by majority or unanimously, has to be shielded from criticism or disparagement, otherwise the authority and legitimacy of the Assembly itself and the legislative process is drawn into question. Thus it is out of order to reproach the House as a whole or scornfully criticise it for one of its decisions, for to do so would impugn the reputation of this House.

The Standing Order anticipates that the House may have mistakenly decided a matter; perhaps different or additional information emerges that might have affected the decision, or there was a significant procedural irregularity when the vote was taken, or the House cannot agree with the side the Speaker chose when breaking a tie with his casting vote. In such situations, reflecting on the vote is necessary in order to justify a motion that it be rescinded.

The Point of Order before me focused on criticism by one side of the House of the votes by the other side, or one of the parties, or of another individual member. As I have noted, Standing Order 23(f) works to preserve the integrity of the collective decisions of the House, not to forbid ever referring to how an individual member voted on any given matter before the House. A member's voting history is what it is – it is on the public record, available for all to see and it stands on its own. It is instructive to note that research into this question was not successful in finding a single instance of this Standing Order being exercised to prevent a member from referring to another member's vote, and indeed the very common and longstanding practice to the contrary belies that position.

Even setting aside the procedural realities of this issue, though, I am still left to address the practicality and reasonableness of the requested remedy to this grievance, that is, a prohibition against referring to previous votes of another member. I think such a limit would very quickly prove to be unenforceable and regularly offended. How can it be reasonable that it would be perpetually off limits ever to mention how another member has voted on issues in the past? Surely no one genuinely expects the Speaker to shield an individual member, or certain members, or one of the parties in the House, from attention to, or comment about, their vote on any matter. This happens all the time and I see it as a natural part of the political process of which this place is the heart. It has simply never been a part of our culture that making an observation about a member's voting record has been out of order.

For all the reasons just given, I cannot find that Standing Order 23(f) works to exclude the types of references complained about in the Point of Order.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Thursday, April 7, 2011, the Member for Welland (Mr. Kormos) raised a Point of Order with respect to the practice of referring questions asked of one Minister to another.

The Member for Renfrew–Nipissing–Pembroke (Mr. Yakabuski) also spoke to this Point of Order and I have received a written submission from the Government House Leader (Ms. Smith), which I note was copied to the other two House Leaders.

The Member for Welland made reference to Standing Order 37(e) which states that,

“A minister to whom an oral question is directed may refer the question to another minister who is responsible for the subject-matter to which the question relates.”

The Member expressed some concern over the referral of a question on the subject of wood allocations from the Premier to the Minister of Intergovernmental Affairs and Government House Leader.

The Member will know that the Speaker is not in a position to determine, except in general terms, which particular program or policy falls within the sphere of responsibility for each Minister.

It is the prerogative of the government to decide which Minister should answer which question. The Speaker cannot compel any particular Minister to answer a question or indeed decide for the Executive Council who among them is the most appropriate responder.

This position has been taken on numerous occasions by successive Speakers here and in other jurisdictions. It is further substantiated by a variety of procedural authorities.

I thank the Member from Welland for bringing his concerns to the attention of this House, but I cannot find that he has raised a valid Point of Order.

Opposition Day

Ms. Horwath moved,

That, in the opinion of this House, the McGuinty Government has failed to adequately consult Northern Ontarians, their communities, industries and First Nations on issues of critical importance to the region's future. The decision not to hold public hearings on Bill 151 in the North and the same lack of consultation on the part of the McGuinty Government, in cooperation with the Harper Government, to impose the HST demonstrates a lack of respect for Northern Ontario. We call on the McGuinty Government to commit to a consultation process that ensures that decisions about Northern Ontario are made in the North and not dictated by Queen's Park.

ORDERS OF THE DAY**ORDRE DU JOUR**

Government Notice of Motion Number 77 having been called, a point of order was raised regarding the orderliness of the motion.

The Speaker recessed the House, and upon his return, delivered the following ruling:-

The Member for Welland (Mr. Kormos) has risen on a point of order to the effect that the calling of Government Notice of Motion Number 77, which was filed yesterday, anticipates consideration of Bill 196, which was introduced earlier in the day yesterday and which now awaits second reading consideration. The Member for Nepean–Carleton (Ms. MacLeod) and the Government House Leader (Ms. Smith) also made submissions on the matter.

I have had an opportunity to reflect on the submissions, and to review our precedents and authorities on anticipation.

Standing Order 23(e) provides as follows: “In debate, a member shall be called to order by the Speaker if he or she ... [a]nticipates any matter already on the *Orders and Notices Paper* for consideration.”

Since there appears to be some confusion, let me begin by explaining what the meaning of the rule of anticipation is. The rule as it exists in parliamentary tradition is intended to prevent a matter that is already set down on the order paper for consideration (in this case Bill 196) from being debated in a different and less effective proceeding (in this case Government Notice of Motion Number 77).

The purpose of the rule is to prevent the time of the House from being wasted and to mitigate the potential for conflicting decisions. The rule goes hand in hand with the rule that prevents a motion from being proposed once the subject has already been decided upon. For example, if a motion that is on a substantially similar subject as a bill set down for future consideration is decided upon, it is possible that the House could not then proceed with the bill.

With respect to the rule of anticipation in this House, the Member for Welland is correct, in that we have codified what in some other jurisdictions is an ancient convention. However, as far as I can determine, no Speaker of this Assembly appears to have rigorously applied Standing Order 23(e) in order to rule consideration of business out of order. I think that the reason for the dearth of Ontario rulings on anticipation is that Speakers prefer to adopt an approach that, to paraphrase Standing Order 1(b), accentuates members' ability to submit motions and bills, and to then debate, speak to and vote on them.

Moreover, if the rule were to be interpreted strictly, the Speaker would have to apply the same principles to all business – be it Government business, Opposition business or Private Members' business. I suspect that some of the business that the House has considered in the past would be out of order under a strict regime.

Further, Members may want to seriously consider the unanticipated ripple effect that could result from the desire to see the rule of anticipation rigorously applied. Doing so could well upset the delicate balance of this House.

That the rule exists there is no question. However, before it can be invoked, the Speaker must determine whether Government Notice of Motion Number 77 calls on the House to decide substantially the same question it will be asked to decide with respect Bill 196.

The motion if passed would express the condemnation of the House for various alleged transgressions that occurred during polling in the May 2 federal election, and it further expresses the determination of the House that similar transgressions do not occur in our own upcoming election.

The bill amends the Election Act to provide penalties for various corrupt practices. There is no question that there is a linkage between these two elements, and that the debate on the motion and the debate on the bill will likely produce similar speeches.

But ultimately, the House will be asked to decide 2 different questions. Though they are thematically similar, they are not the same. In this sense, the motion does not offend the anticipation rule or Standing Order 52.

Finally, let me add that the Government could and should have structured its business differently so as to avoid this procedural issue entirely; after all, what is in play here are two closely related items of government business that emerged within hours of each other. It strikes me that more effective use could be made of the time of the House.

I thank the Member for Welland, the Member for Nepean–Carleton, and the Government House Leader for their submissions on this point of order.

Mr. Phillips moved,

M. Phillips propose,

That the Legislative Assembly of Ontario condemns the alleged corrupt acts that took place during the federal election and condemns acts of election fraud, such as misleading phone calls and other attempts to prevent individuals from voting in elections and confirms its resolve that electors in the upcoming provincial election should be free to cast their ballots without any such interference.

A debate arose and, after some time, the House then adjourned at 5:58 p.m.

Il s'élève un débat et, après quelque temps, à 17 h 58, la chambre a ensuite ajourné ses travaux.

That, in the case of any division relating to any proceedings on the Bill, the division bell shall be limited to 5 minutes.

After some time, there being no further debate, the question having been put, the Acting Speaker (Mr. Wilson) declared his opinion that the Ayes had it, and a recorded vote having been demanded, the Acting Speaker then addressed the House as follows:-

Après quelque temps, comme il n'y a plus de débat, la motion mise aux voix, le président par intérim, M. Wilson, déclare qu'à son avis les voix favorables l'emportent et un vote par appel nominal ayant été demandé, ensuite, le Président par intérim s'adresse à l'Assemblée en ces mots :-

Conformément à l'article 9 c) du Règlement, le vote sur l'Avis de motion du gouvernement numéro 78 est différé jusqu'aux «Votes différés» aujourd'hui.

Resolved, That the Legislative Assembly of Ontario recognizes that to make life easier for Ontario families and help our economy remain strong, Ontario's Tax Plan for Jobs and Growth as reaffirmed in the 2011 Budget removes 90,000 Ontarians from the income tax rolls, provides 93 per cent of Ontarians with a permanent personal income tax cut, maintains the Harmonized Sales Tax at the current rate and provides \$12 billion in tax relief for families and \$4.8 billion in tax relief for businesses;

And recognizes that with Ontario's Tax Plan for Jobs and Growth, the economy is turning the corner by creating more than 293,000 new jobs since the global recession;

And rejects the introduction of a carbon tax as a measure that would hurt Ontario's economic growth;
