12 H 00

This being the first day of the Second Session of the Forty-First Parliament convoked by Proclamation of the Lieutenant Governor for the dispatch of business, and the Members of the Legislative Assembly having assembled:

Her Honour the Lieutenant Governor entered the Legislative Chamber and, having taken her seat on the Throne, was pleased to open the Session by reading the following gracious speech:

### **A Balanced Plan to Build Ontario Up for Everyone**

Mr. Speaker, Honourable Members, ladies and gentlemen, people of Ontario:

As the representative of Her Majesty the Queen, it is my honour to open the second session of the 41st Parliament by delivering the Speech from the Throne.

I begin by acknowledging the rich and enduring history of Indigenous Peoples in Ontario.

At this sacred gathering place for many peoples of Turtle Island, the elected representatives of Ontarians assemble to help guide and shape the future of the province we share.

To show our respect for the history and contributions of Indigenous Peoples in Ontario, I give acknowledgment to the fact that we come together today on the traditional territory of many Indigenous Nations with special recognition to the Mississaugas of the New Credit First Nation.

### **Introduction**

More than two years ago, your government received a mandate to build Ontario up.

Your government remains committed to building Ontario up in a way that helps you in your everyday lives.

By choosing to invest in better infrastructure, stronger pensions, improved skills training and a competitive business climate, your government has made meaningful progress.

Over the last two years, Ontario's economy has grown by 6.1 per cent.

Last year, growth was double the national average.

In the first quarter of this year, our growth was faster than that of the United States and the G7.

Almost 600,000 net new jobs have been created since the depths of the last recession.

Unemployment this year has reached an eight-year low.

These statistics are heartening. But they don't tell the whole story.

Our economy remains in transition. The world grows ever more competitive. While many across our province are benefiting from growth, challenges remain.

Some have yet to share in Ontario's resurgence.

Your government's top priority will therefore remain job creation and economic growth — and to make sure that everyone shares in the prosperity we are building together.

Because good jobs and economic growth mean you can support your family and our communities can thrive.

### **A Balanced Plan to Build Ontario Up**

Your government is committed to its balanced plan, which has helped to grow Ontario's economy.

It is a plan to strengthen our economic foundation in a way that benefits everyone.

It is a plan to build Ontario up in a way that is responsible and sustainable — both financially and environmentally.

Three years ago, your government recommitted to eliminating the deficit by 2017-18.

It will make good on this commitment.

Next year's budget will be a balanced budget.

Your government made a choice to not cut its way to balance.

It did not sacrifice the public services on which so many rely.

Nor did it increase the HST or increase personal income taxes for the middle class.

Instead, your government chose a balanced approach to eliminate the deficit.

Protecting our recovery.

Encouraging economic growth.

Ontario's debt-to-GDP ratio is levelling and will start to decline — a sign of economic strength and fiscal responsibility.

This will give businesses further confidence that the province's economic plan is working — and that Ontario is a good place to invest and create jobs.

With economic growth and a balanced budget, your government will continue to build Ontario up, investing in the things that matter most to you and that help you in your everyday life.

It will do this, first, by enhancing child care.

Every child deserves to have the best start in life.

Over the past three years, the government has helped to create 56,000 new licensed child care spaces.

Within the next five years, it will help to create another 100,000 spaces, so that working families can find quality, affordable care.

Your government will also make it easier for parents to find and use the services their children need, whether they are before-and-after-school programs, drop-in centres or more licensed child care spaces.

Community hubs are creating spaces for expanded child care and child and family support services, as well as helping to make it easier to access health, social, education, cultural and recreational programs and services that nurture community life.

Second, your government will continue to invest in education to help students achieve their full potential and successfully compete in a global economy.

Every person in Ontario deserves an excellent education, from kindergarten through to postsecondary.

Your government is strengthening what is already one of the best education systems in the world, working collaboratively with our partners across the education sector.

It will continue to invest to make the classroom and school experience a positive one for all students, teachers and staff.

It is building and renovating schools.

Today, more students are graduating from high school in our province than ever before.

Your government is committed to making sure students have the excellent literacy and numeracy skills they need to succeed.

To help students improve their mathematics skills, your government is implementing a renewed math strategy, including having up to three math lead teachers in all elementary schools.

It is also setting a goal for every young person to have at least one opportunity for experiential learning.

At the postsecondary level, your government is building new campuses and modernizing old labs — helping Ontario students to get the best possible start in their adult lives.

Your government believes that for the next generation to have more opportunities in life than their parents, an advanced education should be attainable for all who qualify, regardless of family income.

That's why it chose to create the new Ontario Student Grant.

It will help thousands of students obtain greater access to advanced education and have lower levels of student debt upon graduation.

For students from lower-income and many middle-income families, it would make the tuition portion of the average postsecondary experience absolutely free.

Your government will also continue to help young people find their way in the working world.

In the last three years, Ontario's Youth Jobs Strategy has created thousands of job opportunities.

Your government is also helping more young people to transform their good ideas into promising start-ups — through campus-linked accelerators, incubators and a range of support for entrepreneurs.

Third, your government will invest in skills training that aligns with the job market of today and tomorrow.

People who want to upgrade their skills should expect help from their employer and from government.

Your government will work with industry, unions and educators to develop new skills training projects, guided by the recommendations of the Highly Skilled Workforce Expert Panel.

These projects will help people gain the skills they need to get a good job and will ensure Ontario retains the competitive advantage of having a workforce with the skills employers want and need.

Fourth, your government will strengthen our health care system.

Every person in our province deserves high-quality public health care.

Ninety-four per cent of Ontarians now have a primary health care provider, such as a family doctor or nurse practitioner.

Since 2013, seven new hospitals have been built in five communities. Over the next five years, 18 more hospitals across Ontario will complete major renovations or rebuilds, and approximately 20 more major projects will get underway.

In 2014-15, there were over 2,200 more nurses employed in Ontario, thanks in large part to investments from your government.

Today, 170,000 more seniors can benefit from a program that reduces their out-of-pocket costs for prescription drugs. And 30,000 more will qualify for this program every year.

These investments will make a real difference in the lives of the people you love, who require care.

Through its Indigenous Health Action Plan, your government will ensure that no segment of Ontario's population is left behind.

It believes that additional resources for health care should be directed where they will help patients most, at the front line — not only to the highest-billing physicians or highly paid administrators.

Your government recognizes that many of you are caring for parents and other family members who want to stay at home as they grow older.

So it is helping families by adding an estimated 350,000 hours of nursing care and 1.3 million hours of personal support, enhancing home care for those who need it.

The wait times to see a specialist will be reduced further.

Personal support workers are getting the pay hike your government committed to and that they deserve.

And your government will deliver on its primary care guarantee — connecting a family doctor or nurse practitioner to everyone who wants one.

Fifth, your government will invest in roads, transit and modern infrastructure, as part of the largest infrastructure investment in the province's history — about \$160 billion over 12 years.

New and upgraded transportation infrastructure is essential to improve the quality of our communities and your quality of life, every day.

Over the next five years, about 5,000 kilometres of highways will be built or repaved — and more than 750 bridges will be built, repaired or rebuilt.

About 2,400 kilometres of these highways and 200 of these bridges will be in Northern Ontario.

Your government will continue to work with First Nations and other partners to move forward with greater access to the Ring of Fire and remote First Nation communities.

In urban areas, your government is investing in more than 350 kilometres of new rapid transit over the next decade.

Light Rapid Transit systems will be built in Waterloo, Hamilton, Mississauga, Ottawa and Toronto.

The GO system will be transformed with Regional Express Rail, which will quadruple the number of weekly trips from about 1,500 to nearly 6,000.

This means fewer emissions and a better commuter experience, even as Ontario's population increases.

Sixth, your government will continue building a competitive business environment, driven increasingly by innovative, low-carbon industries that support growing the economy and creating good jobs — your government's number-one priority.

So it will work to attract new businesses and the good jobs they bring.

The Premier and ministers will continue leading trade missions to priority markets around the world.

And build on the Ontario advantage with the Business Growth Initiative.

The Red Tape Challenge will continue to help businesses save time and money.

Your government will work with businesses that have the greatest growth prospects, helping them develop the tools they need to win new business at home or overseas.

It will help farmers meet the Premier's agri-food challenge with dedicated trade missions and new measures to reduce their energy costs.

With the Jobs and Prosperity Fund, the province is building important strategic partnerships with job-creating businesses.

With farmers and processors. Foresters and programmers. Entrepreneurs and manufacturers.

These partnerships mean good, well-paying jobs here in Ontario.

The Jobs and Prosperity Fund has helped strengthen Ontario's key sectors, including the automotive industry — which employs tens of thousands of highly skilled Ontario workers.

And now, these workers have the opportunity to help invent the cars of the future — connected, autonomous cars and electric vehicles.

Your government will partner with manufacturers and automakers to attract new mandates and the next generation of advanced manufacturing and engineering talent.

By building an innovative, low-carbon and low-tax business environment, Ontario is attracting new investments from around the world.

Ontario has established itself as a leader in reducing greenhouse gas emissions and embracing the opportunities of a low-carbon economy.

Closing Ontario's coal-fired electricity plants remains North America's single-largest and most effective climate-change initiative — ever.

Important investments have made Ontario's electricity system clean and reliable, and have created good jobs.

Ontario's leadership helped support the agreement the world reached this past December at the Paris Climate Conference.

In Paris and here at home, your government worked in partnership with Canada's new Prime Minister and his team to make real progress on measures to combat climate change.

Ontario recently signed a joint declaration with Québec and Mexico, committing to working together to fight climate change and drive progress on carbon markets as Mexico pilots a cap and trade system.

Next year, Ontario's new cap and trade program will begin delivering benefits.

Cap and trade proceeds will be transparently invested in greenhouse gas reduction projects and incentives that will help Ontario households and businesses further reduce emissions.

Through the choices your government is making, Ontario will continue to fight climate change and grow the economy.

Seventh, your government will continue to play a leadership role to improve your retirement income security.

You deserve to look forward to the future with confidence, knowing you can retire with dignity.

For years, Ontario has been fighting for a solution to the coming crisis in retirement security.

Without action, many of today's workers would be facing a retirement defined by financial insecurity and worry.

Your government made a choice to take a national leadership role on this issue.

Then it worked to achieve consensus.

And Canada's finance ministers reached an agreement to bolster the Canada Pension Plan — to pay out more in benefits as a reward for a lifetime of hard work.

Your government will continue to work with its federal and provincial partners to ensure the CPP delivers a better retirement for the people of Ontario.

Eighth, your government will deliver additional relief on electricity bills.

Over the course of the past decade, Ontario electricity ratepayers have helped cover the costs associated with removing dirty coal-fired generation from our electricity system.

And while these investments have resulted in increased costs associated with generation, they have also created savings of more than \$4 billion a year in health and other costs associated with smog and pollution from coal-fired generation.

Your government has been dedicated to reducing electricity costs wherever possible, while maintaining reliability for all consumers.

It renegotiated the Green Energy Investment Agreement, reducing contract costs by \$3.7 billion.

Plans to extend the operation of the Pickering nuclear generating stations are expected to save customers as much as \$600 million.

The introduction of the Large Renewable Procurement process, annual renewable energy price reviews and revised procurement schedules are expected to reduce costs by a further \$4.1 billion as compared to previous forecasts.

Your government has removed the Debt Retirement Charge from residential electricity bills, made electricity more affordable for low-income families through the Ontario Electricity Support Program and is investing over \$2.6 billion between 2015 and 2020 to help homeowners and businesses reduce energy use to save money.

Despite these efforts, you continue to face electricity cost increases above the level of inflation.

Whether in Kenora, Sudbury, Belleville, London or Barrie, your government has listened to and has heard your concerns. It recognizes that the cost of electricity is now stretching family budgets.

It will therefore act on an idea it has heard from many individuals and groups.

Your government will introduce legislation that would rebate — directly on consumers' residential electricity bills — an amount equal to the provincial portion of the Harmonized Sales Tax, an eight per cent savings.

The rebate would go into effect on January 1, 2017.

Small businesses would also receive the rebate.

Additionally, in recognition of the unique and special circumstances associated with the electricity cost-of-service for rural ratepayers, the existing rural support program would be significantly enhanced to provide even more on-bill savings for Ontario's eligible rural customers.

Eligible rural customers would receive these additional savings, which would result in an on-bill monthly saving of about 20 per cent — approximately \$45 a month.

Your government also intends to implement new measures to ensure that Ontario commercial and industrial ratepayers can also benefit from lower electricity costs.

Since 2011, the Industrial Conservation Initiative has encouraged large electricity users — primarily large industrial customers — to take on-site steps to shift consumption away from peak periods and lower their electricity costs by up to one third.

To benefit more businesses, your government will expand eligibility for the Industrial Conservation Initiative by lowering the threshold for participation and broadening participation to all sectors.

At the same time, conservation programs delivered by Local Distribution Companies, supported by the Independent Electricity System Operator, will continue to provide significant programs tailored to specific business classes and needs.

When fully implemented, participating industrial customers will be able to find cost savings of up to 34 per cent, depending on their ability to reduce peak electricity consumption.

With these proposed measures, your government will deliver significant on-bill savings for all electricity customers.

In addition to introducing legislation to provide relief on electricity bills, your government will move forward this session with other legislative priorities.

This week, your government intends to reintroduce election finance reform legislation, with all the amendments agreed to at the committee stage prior to the prorogation of the legislature. It also intends to move amendments during the committee stage of the bill to prohibit MPPs in all parties from attending fundraising events.

Your government will also reintroduce, this fall, all other government bills that were before the legislature prior to prorogation, so that debate on them can continue.

New legislation your government intends to introduce includes measures to strengthen Ontario's health care and education systems, ensure parental recognition and regulate home inspectors.

### **Conclusion**

As this new session begins, Ontario stands strong within the Canadian federation.

Our next provincial budget will be in balance.

Our economy is growing.

Good jobs are being created.

Your government is actively working with the new federal government to deliver real benefits for Ontarians, such as stronger pensions and renewed infrastructure for our communities.

It will continue to work in partnership with Indigenous Peoples — to develop economic projects, to connect more reserves to the electricity grid, to provide access to clean drinking water and to create culturally appropriate education systems and public services.

It will invest in all regions of our province, including to help unlock the tremendous mineral potential of Northern Ontario.

The choices your government has made to develop its balanced plan are working.

Meaningful progress is being made.

A renewed sense of energy and confidence can be felt in our cities and towns, in all parts of our province.

Many Ontario families are already seeing the benefits.

As your government continues to build Ontario up, more will feel an increased sense of security.

Your government believes that government exists to do the things we cannot do alone.

It exists to be a force for good in all our lives — every day and in every corner of this beautiful province we call home.

Together, we will achieve the promise of an even brighter future for all.

Thank you. Merci. Meegwetch.

Monsieur le Président, honorables députés, mesdames et messieurs, Ontariennes et Ontariens.

En ma qualité de représentante de Sa Majesté la Reine, j'ai l'honneur d'ouvrir la deuxième session de la 41<sup>e</sup> Législature de l'Ontario en présentant le discours du Trône.

Pour commencer, je souhaite rendre hommage au riche patrimoine de la population autochtone de l'Ontario.

En ce lieu de rencontre sacré pour bien des peuples de Turtle Island, les représentants élus par la population de l'Ontario se rassemblent pour contribuer à orienter et à façonner l'avenir de la province que nous partageons.

Par respect pour l'histoire et l'apport des peuples indigènes de l'Ontario, je tiens à souligner le fait que nous sommes rassemblés aujourd'hui sur le territoire traditionnel de nombreuses nations autochtones, en reconnaissant particulièrement la Mississaugas of the New Credit First Nation.

### **Introduction**

Il y a plus de deux ans, votre gouvernement a reçu le mandat de favoriser l'essor de l'Ontario.

Votre gouvernement maintient son engagement à faire progresser l'Ontario d'une manière qui vous aide dans la vie quotidienne.

En optant pour des investissements qui améliorent l'infrastructure, bonifient les pensions de retraite, améliorent la formation professionnelle et favorisent un climat d'affaires concurrentiel, votre gouvernement a réalisé des progrès significatifs.

Au cours des deux dernières années, l'économie de l'Ontario a affiché une croissance de 6,1 %.

L'année dernière, cette croissance correspondait à deux fois la moyenne canadienne.

Lors du premier trimestre de cette année, notre croissance était plus rapide que celle des États-Unis et des pays du G7.

Presque 600 000 nouveaux emplois nets ont été créés depuis le creux de la dernière récession.

Le chômage cette année a atteint son niveau le plus bas en huit ans.

Ces statistiques sont encourageantes. Mais elles ne peignent pas un portrait représentatif.

Notre économie demeure dans un état transitoire. La conjoncture globale devient de plus en plus compétitive. Si bon nombre d'entre nous en Ontario profitent de la croissance, il reste néanmoins des défis à relever.

Certains d'entre nous n'ont pas encore pu tirer parti de la reprise de l'Ontario.

Par conséquent, la priorité première de votre gouvernement demeure la création d'emplois et la croissance économique — et faire en sorte que tous puissent profiter de la prospérité que nous construisons ensemble.

Parce qu'avec de bons emplois et une économie en croissance, vous pouvez subvenir aux besoins de votre famille et vos collectivités peuvent prospérer.

### **Un plan équilibré pour favoriser l'essor de l'Ontario**

Votre gouvernement maintient son engagement à l'égard de son plan équilibré, qui a contribué à stimuler l'économie de l'Ontario.

Il s'agit d'un plan pour renforcer les assises de notre économie de façon à ce que toutes et tous en sortent gagnants.

Il s'agit d'un plan pour favoriser l'essor de l'Ontario d'une façon à la fois responsable et durable, aussi bien sur le plan financier qu'écologique.

Il y a trois ans, votre gouvernement a réitéré sa volonté d'éliminer le déficit d'ici 2017-2018.

Il entend honorer cet engagement.

Le budget de l'an prochain sera un budget équilibré.

Votre gouvernement a fait le choix de ne pas recourir aux réductions pour atteindre l'équilibre budgétaire.

Il n'a pas sacrifié les services publics sur lesquels tant de personnes comptent.

Il n'a pas non plus augmenté la TVH ni le taux de l'impôt sur le revenu des particuliers pour la classe moyenne.

Au lieu de cela, votre gouvernement a choisi une approche équilibrée pour éliminer le déficit.

Pour protéger notre reprise économique.

Pour stimuler la croissance économique.

Le ratio de la dette au PIB est en train de se stabiliser et va commencer à baisser, ce qui est un signe de vigueur économique et de responsabilité financière.

Ceci donnera au secteur des affaires l'assurance que le plan économique de la province fonctionne -- et que l'Ontario est un bon endroit où investir et créer des emplois.

Grâce à la croissance économique et au budget équilibré, votre gouvernement continuera à favoriser l'essor de l'Ontario, à investir dans les domaines qui sont les plus importants pour vous et qui vous aident dans la vie quotidienne.

Il atteindra cet objectif, premièrement, en améliorant les services de garde d'enfants.

Chaque enfant est en droit d'avoir le meilleur départ dans la vie.

Au cours des trois dernières années, le gouvernement a contribué à créer 56 000 places de plus en garderie agréée.

Au cours des cinq prochaines années, le gouvernement contribuera à la création de 100 000 places en service de garde agréé, pour que les parents qui travaillent puissent trouver des services de qualité à prix abordable.

Grâce à votre gouvernement, il sera plus facile pour les parents de trouver et d'utiliser les services dont leurs enfants ont besoin, que ce soit un programme d'activités avant ou après l'école, une halte-garderie ou une garderie réglementée.

Les carrefours communautaires assurent dorénavant la prestation de services de garde et de services de soutien aux enfants et aux familles, tout en facilitant l'accès aux programmes sociaux, éducatifs, culturels, récréatifs et de santé ainsi qu'aux services qui enrichissent la vie communautaire.

Deuxièmement, votre gouvernement continuera à faire des investissements dans l'enseignement pour aider les élèves à réaliser leur plein potentiel et à soutenir la concurrence sur le marché international.

Chaque personne en Ontario a droit à une excellente éducation, à partir de la maternelle jusqu'aux études postsecondaires.

Votre gouvernement renforce ce qui est déjà l'un des meilleurs systèmes d'éducation au monde, en travaillant de concert avec des partenaires œuvrant dans tout le secteur de l'éducation.

Il continuera à faire des investissements pour que l'expérience en classe et à l'école soit positive pour l'ensemble des élèves, du personnel enseignant et du personnel administratif.

Il construit de nouvelles écoles et en rénove d'autres.

Aujourd'hui, plus d'élèves que jamais terminent avec succès leurs études secondaires dans notre province.

Votre gouvernement est déterminé à veiller à ce que les élèves possèdent à fond les compétences en littératie et numératie dont ils ont besoin pour réussir.

Pour aider les élèves à améliorer leurs compétences en mathématiques, votre gouvernement met en œuvre une nouvelle stratégie en mathématiques, qui consiste notamment à affecter jusqu'à trois leaders pédagogiques dans toutes les écoles élémentaires.

Il s'est aussi fixé l'objectif de prévoir, pour chaque jeune personne, au moins une occasion d'apprentissage par l'expérience.

Dans le secteur postsecondaire, votre gouvernement construit de nouveaux campus et modernise d'anciens laboratoires, aidant ainsi la population étudiante de l'Ontario à avoir le meilleur départ possible dans la vie adulte.

Votre gouvernement est d'avis que si l'on veut prévoir, pour la prochaine génération, plus de possibilités dans la vie par rapport à la génération antérieure, des études avancées devraient être réalisables pour toutes les personnes admissibles, indépendamment du revenu familial.

C'est pour cette raison que le gouvernement a choisi de créer la Subvention ontarienne d'études.

La Subvention aidera des milliers d'étudiants à avoir un meilleur accès aux études supérieures et à réduire leur niveau d'endettement une fois le diplôme en main.

Pour les nombreux étudiants issus de familles à revenu moyen ou ceux provenant de familles à faible revenu, cette Subvention rendrait absolument gratuits les frais de scolarité pour la plupart des programmes d'études postsecondaires.

Votre gouvernement continuera aussi à aider les jeunes à trouver leur voie dans le monde du travail.

Au cours des trois dernières années, par le biais de la Stratégie ontarienne d'emploi pour les jeunes, des milliers de possibilités d'emploi ont été créées.

Votre gouvernement aide aussi un nombre plus important de jeunes à convertir leurs bonnes idées en entreprises en démarrage prometteuses — à la faveur d'accélérateurs, d'incubateurs et d'une gamme de mesures de soutien pour entrepreneurs, en lien avec les universités et les collèges.

Troisièmement, votre gouvernement investira dans des programmes de formation qui sont en harmonie avec le marché de l'emploi, d'aujourd'hui et de demain.

Les personnes qui souhaitent améliorer leurs compétences sont en droit d'attendre de l'aide de leur employeur et du gouvernement.

Votre gouvernement travaillera avec le secteur industriel, les syndicats et les pédagogues à l'élaboration de projets en matière d'acquisition de compétences, en s'inspirant des recommandations du Comité d'experts pour le développement d'une main-d'œuvre hautement qualifiée.

Grâce à ces projets, les gens pourront acquérir les compétences dont ils ont besoin pour obtenir un bon emploi et l'Ontario conservera l'avantage concurrentiel d'être doté d'une main-d'œuvre possédant les compétences que les employeurs recherchent.

Quatrièmement, votre gouvernement renforcera le système de santé de l'Ontario.

Chaque personne en Ontario est en droit de recevoir des soins de santé publics de haute qualité.

Quatre-vingt-quatorze pour cent de la population ontarienne a dorénavant un prestataire de soins de santé primaires, comme un médecin de famille ou une infirmière praticienne.

Depuis 2013, sept nouveaux hôpitaux ont été bâtis dans cinq collectivités. D'ici cinq ans, 18 autres hôpitaux de l'Ontario auront achevé d'importants travaux de rénovation ou de reconstruction, et une vingtaine d'autres grands projets seront mis en chantier.

En 2014-2015, le nombre des infirmières travaillant en Ontario avait augmenté de plus de 2 200, en grande partie grâce aux investissements de votre gouvernement.

Aujourd'hui, 170 000 aînés de plus bénéficient d'un programme qui réduit les frais qu'ils déboursent pour leurs médicaments sur ordonnance. Et chaque année, 30 000 personnes de plus seront admissibles à ce programme.

Ces investissements vont réellement améliorer la vie des personnes que vous aimez et qui nécessitent des soins.

Par le biais de son Plan d'action pour la santé des Premières Nations, votre gouvernement veille à ce qu'aucun segment de la population ontarienne ne soit abandonné.

Il pense que des ressources additionnelles pour les soins de santé devraient être dirigées vers les secteurs qui seront les plus utiles pour les patients, ceux qui sont en première ligne — et pas seulement vers les médecins qui facturent le plus ou les administrateurs qui sont généreusement rémunérés.

Votre gouvernement reconnaît que vous êtes nombreux à donner des soins à vos parents ou à d'autres membres de votre famille qui souhaitent demeurer dans leur maison quand ils vieillissent.

Donc, cela aidera les familles lorsque le gouvernement ajoutera quelque 350 000 heures de soins infirmiers et 1,3 million d'heures de soutien à la personne, améliorant ainsi les soins à domicile pour les personnes qui en ont besoin.

Le temps d'attente pour une consultation chez un spécialiste diminuera encore plus.

Les préposés aux services de soutien à la personne reçoivent l'augmentation salariale que votre gouvernement s'est engagé à leur accorder et qu'ils méritent.

Et votre gouvernement tiendra sa promesse à l'égard de la garantie de soins primaires en mettant en rapport un médecin de famille ou une infirmière praticienne avec quiconque est intéressé.

Cinquièmement, votre gouvernement investira dans les routes, les transports en commun et une infrastructure moderne, dans le cadre du plus grand investissement infrastructurel de l'histoire de la province, soit environ 160 milliards de dollars sur 12 ans.

Il est crucial de bâtir et d'améliorer l'infrastructure des transports afin d'assurer une meilleure qualité de vie dans nos communautés ainsi que la qualité de votre vie quotidienne.

Au cours des cinq prochaines années, environ 5 000 kilomètres d'autoroute seront construits ou repavés, et plus de 750 ponts seront réparés ou reconstruits.

Environ 2 400 kilomètres de ces routes et 200 de ces ponts se trouveront dans le Nord de l'Ontario.

Votre gouvernement continuera de travailler avec les Premières Nations et d'autres partenaires pour améliorer l'accès routier menant au Cercle de feu et aux communautés éloignées des Premières Nations.

Dans les zones urbaines, votre gouvernement construira des lignes de transport rapide couvrant plus de 350 kilomètres au cours de la prochaine décennie.

Des systèmes de transport léger et rapide seront construits à Waterloo, Hamilton, Mississauga, Ottawa et Toronto.

Le Service ferroviaire express régional transformera le système GO et quadruplera le nombre de trajets hebdomadaires, qui passera d'environ 1 500 à 6 000.

Cela se traduira par une diminution des émissions et une amélioration de l'expérience des navetteurs, malgré une hausse de la population ontarienne.

Sixièmement, votre gouvernement continuera d'encourager la compétitivité du milieu des affaires, dans lequel les industries innovantes et sobres en carbone joueront de plus en plus un rôle de moteur. Or, la plus haute priorité de votre gouvernement est de stimuler la croissance économique et de créer des emplois.

Ainsi, il s'emploiera à attirer de nouvelles entreprises et les emplois de qualité qui en découlent.

La première ministre et les ministres continueront de mener des missions commerciales auprès de marchés prioritaires partout au monde.

Grâce à l'Initiative pour la croissance des entreprises, ils mettront en valeur l'avantage qu'offre l'Ontario.

Le Défi pour la réduction des formalités administratives continuera d'aider les entreprises à économiser du temps et de l'argent.

Votre gouvernement travaillera avec les entreprises qui présentent les meilleures perspectives de croissance afin de les aider à créer les outils dont elles ont besoin pour obtenir de nouveaux contrats dans la province et à l'étranger.

Il aidera les agriculteurs à relever le Défi de la première ministre pour la croissance dans le secteur agroalimentaire grâce à des missions commerciales ciblées et à de nouvelles mesures pour réduire leurs coûts énergétiques.

Le Fonds pour l'emploi et la prospérité permet à la province d'établir d'importants partenariats stratégiques avec les entreprises créatrices d'emplois.

Avec des agriculteurs et des transformateurs. Des forestiers et des programmeurs. Des entrepreneurs et des fabricants.

Ces partenariats signifient de bons emplois bien rémunérés pour les gens de l'Ontario.

Le Fonds pour l'emploi et la prospérité a aidé à renforcer les principaux secteurs d'activité de l'Ontario, y compris l'industrie automobile, qui emploie des dizaines de milliers de travailleurs hautement qualifiés.

Et maintenant, ces travailleurs ont l'occasion de contribuer à l'invention des voitures de demain, c'est-à-dire des automobiles qui seront branchées, autonomes et électriques.

Votre gouvernement s'associera avec des fabricants et des constructeurs automobiles pour attirer de nouvelles missions et la prochaine génération de spécialistes en fabrication et ingénierie de pointe.

En favorisant un environnement économique innovateur et sobre en carbone ayant un faible taux d'imposition des entreprises, l'Ontario attire de nouveaux investissements.

L'Ontario s'est établi comme un chef de file en réduisant les émissions de gaz à effet de serre et en saisissant les occasions qu'offre une économie sobre en carbone.

La fermeture des centrales électriques alimentées au charbon en Ontario demeure, à elle seule, l'initiative en matière de changement climatique la plus importante et la plus efficace qui ait jamais été prise en Amérique du Nord.

D'importants investissements ont rendu le réseau électrique de l'Ontario propre et fiable, et ont permis de créer de bons emplois.

Les dirigeants de l'Ontario ont contribué à encadrer le choix fait par le monde en décembre dernier lors de la Conférence de Paris sur le climat.

À Paris et ici en Ontario, votre gouvernement a collaboré avec le nouveau premier ministre du Canada et son équipe pour accomplir de véritables progrès quant aux mesures à prendre pour lutter contre le changement climatique.

L'Ontario a signé récemment un accord avec le Québec et le Mexique, en vertu duquel les trois partenaires s'engagent à lutter ensemble contre le changement climatique et à faire évoluer les marchés du carbone, le Mexique mettant à l'essai un système de plafonnement et d'échange.

L'an prochain, le nouveau programme de plafonnement et d'échange de l'Ontario commencera à porter fruits.

Le produit du régime de plafonnement et d'échange sera investi de façon transparente dans des projets et des mesures d'encouragement qui aideront les ménages et les entreprises de l'Ontario à réduire davantage leurs émissions de gaz à effet de serre.

Votre gouvernement a fait des choix qui permettent à l'Ontario de continuer à lutter contre le changement climatique et à stimuler l'économie.

Septièmement, votre gouvernement continuera à jouer un rôle de chef de file pour améliorer la sécurité de vos revenus de retraite.

Vous êtes en droit d'envisager l'avenir avec confiance, sachant que vous pourrez vivre dans la dignité à l'âge de la retraite.

Depuis des années, l'Ontario s'acharne à trouver une solution à la crise imminente dans le domaine des pensions de retraite.

Si aucune mesure n'est prise, beaucoup de travailleurs actuels feront face à une retraite marquée par l'insécurité financière et l'inquiétude.

Votre gouvernement a choisi d'assumer un rôle de leader à l'échelle nationale en ce domaine.

Il a œuvré pour atteindre un consensus.

Et les ministres des finances du Canada ont convenu de renforcer le Régime de pensions du Canada - de bonifier les prestations versées à la suite d'une vie de dur labeur.

Votre gouvernement continuera de travailler avec ses partenaires provinciaux afin que le Régime de pensions du Canada (RPC) offre une retraite plus confortable aux Ontariennes et aux Ontariens.

Huitièmement, votre gouvernement apportera un allègement additionnel à la facture d'électricité.

Au cours de la dernière décennie, les consommateurs d'électricité de l'Ontario ont contribué à couvrir les frais liés à l'élimination de la production d'électricité au charbon qui est polluante.

Et bien que ces investissements aient entraîné la hausse des coûts liés à la production d'électricité, ils se sont traduits par des économies de plus de 4 milliards de dollars par année dans le domaine de la santé. Ces coûts de santé entre autres coûts étaient associés au smog et à la pollution des centrales au charbon.

Votre gouvernement a fait tout son possible pour réduire au mieux les coûts d'électricité, tout en maintenant le niveau de fiabilité du réseau pour tous les consommateurs.

Il a renégocié l'Entente d'investissement dans l'énergie, réduisant les coûts des contrats de 3,7 milliards de dollars.

Les plans visant à prolonger l'exploitation des centrales nucléaires de Pickering devraient générer des économies pour les consommateurs pouvant aller jusqu'à 600 millions de dollars.

La mise en œuvre d'un projet d'approvisionnement en énergie renouvelable de grande envergure, la revue annuelle des prix de l'énergie renouvelable et la révision des calendriers d'approvisionnement devraient réduire les coûts d'un montant supplémentaire de 4,1 milliards de dollars, comparativement aux estimations précédentes.

Votre gouvernement a retiré la redevance de liquidation de la dette sur les factures d'électricité, a rendu les prix plus abordables pour les familles à faible revenu par le biais du Programme ontarien d'aide relative aux frais d'électricité et il investit plus de 2,6 milliards de dollars entre 2015 et 2020 pour aider les propriétaires d'habitations et les entreprises à réduire leur consommation d'énergie afin d'économiser de l'argent.

Malgré ces efforts, vous avez continué à subir des hausses du coût de l'électricité qui dépassaient le taux d'inflation.

Que ce soit à Kenora, à Sudbury, à Belleville, à London ou à Barrie, votre gouvernement a écouté et entendu vos préoccupations. Il reconnaît que le coût de l'électricité est maintenant un fardeau pour le budget des familles.

Il mettra donc en application une idée avancée par plusieurs particuliers et divers groupes.

Votre gouvernement déposera bientôt un projet de loi visant à rembourser directement à partir de la facture mensuelle d'électricité des consommateurs résidentiels la composante provinciale de la taxe de vente harmonisée, ce qui représente une économie de huit pour cent.

Cette remise entrerait en vigueur le 1er janvier 2017.

Les petites entreprises recevraient aussi la remise.

En outre, compte tenu des circonstances uniques et particulières liées au coût de service de l'électricité pour les usagers vivant en milieu rural, le programme de soutien en milieu rural serait considérablement bonifié pour offrir encore plus d'économies sur leur facture aux usagers de l'Ontario vivant en milieu rural admissibles.

Les usagers vivant en milieu rural qui seraient admissibles recevraient ces économies supplémentaires, qui se traduiraient par des économies mensuelles sur leur facture d'environ 20 %, soit environ 45 \$ par mois.

Votre gouvernement a aussi l'intention de mettre en œuvre de nouvelles mesures pour faire en sorte que les usagers commerciaux et industriels puissent aussi profiter des coûts d'électricité inférieurs.

Depuis 2011, l'Initiative d'économies d'énergie en milieu industriel encourage les gros utilisateurs d'électricité - principalement les grands consommateurs industriels - à prendre des mesures sur place afin de moins consommer d'électricité pendant les périodes de pointe et de réduire leurs coûts d'électricité du tiers.

Pour qu'un plus grand nombre d'entreprises puissent en bénéficier, votre gouvernement entend accroître l'admissibilité en abaissant le seuil des critères de participation et en élargissant la participation à tous les secteurs.

En même temps, les programmes d'économie offerts par les compagnies locales de distribution et soutenus par la Société indépendante d'exploitation du réseau d'électricité continueront de fournir des programmes substantiels spécialement adaptés à chaque catégorie d'entreprises et à leurs besoins.

Lorsque cette version élargie sera entièrement implantée, les clients industriels participants pourront réduire leurs coûts d'une proportion allant jusqu'à 34 %, selon leur capacité à réduire leur consommation pendant les périodes de pointe.

Grâce à ces mesures qu'il propose, votre gouvernement offrira des économies appréciables que tous les consommateurs d'électricité pourront constater sur leur facture.

En plus de proposer des mesures législatives visant à réduire les factures d'électricité, votre gouvernement ira de l'avant au cours de cette session avec d'autres priorités législatives.

Cette semaine, votre gouvernement entend déposer de nouveau le projet de loi sur la réforme du financement électoral, en y intégrant tous les amendements qui avaient été convenus à l'étape de l'étude en comité avant la prorogation de la législature. Il veut également appliquer des amendements au cours de l'étape de l'étude en comité afin d'interdire aux députés provinciaux de tous les partis d'assister à des événements de collecte de fonds.

Votre gouvernement présentera de nouveau cet automne d'autres projets de loi du gouvernement qui étaient devant la Législature avant la prorogation, pour que l'on puisse continuer d'en débattre.

Les nouveaux projets de loi que votre gouvernement veut présenter comprennent des mesures pour renforcer le réseau de santé et le système d'éducation de l'Ontario, assurer la reconnaissance parentale et réglementer les inspecteurs d'habitations.

### **Conclusion**

À l'aube de cette nouvelle Législature, l'Ontario est en position de force au sein de la fédération canadienne.

Notre prochain budget provincial sera équilibré .

Notre économie est en croissance.

De bons emplois sont créés.

Votre gouvernement travaille de concert avec le gouvernement fédéral pour apporter de réels avantages à la population ontarienne, tels que des pensions de retraite plus robustes et une infrastructure rénovée dans nos collectivités.

Il continuera à travailler en partenariat avec les Premières Nations -- afin d'élaborer des projets économiques, de raccorder davantage de réserves au réseau électrique, de prévoir l'accès à l'eau potable et de créer des systèmes d'éducation et des services publics appropriés sur le plan culturel.

Il investira dans toutes les régions de la province, et s'emploiera à libérer l'énorme potentiel minéral du Nord de l'Ontario.

Les choix que votre gouvernement a faits en vue d'élaborer son plan d'équilibre budgétaire portent leurs fruits.

Des progrès significatifs sont réalisés.

Un renouveau d'énergie et de confiance se fait ressentir dans nos villes et dans nos cités, dans toutes les régions de la province.

Bon nombre des familles ontariennes profitent déjà concrètement de ces avantages.

Alors que votre gouvernement continue à favoriser l'essor de l'Ontario, vous serez plus nombreux à ressentir un profond sentiment de sécurité.

Votre gouvernement considère que les gouvernements existent pour faire ce que nous ne pouvons pas réaliser individuellement.

Ils existent pour être des forces au service du bien pour tous — chaque jour et dans chaque recoin de cette merveilleuse province où nous habitons.

Ensemble, nous concrétiserons la promesse d'un avenir encore meilleur pour tous.

Merci. Thank you. Meegwetch.

Her Honour was then pleased to retire.

**ORDERS OF THE DAY**

Second Reading of Bill 2, An Act to amend various statutes with respect to election matters.

Debate resumed and after some time,

On a point of order being raised on the orderliness of Bill 2, at 4:25 p.m. the Deputy Speaker recessed the House for 10 minutes.

Upon her return, the Deputy Speaker delivered the following ruling:-

I would like to thank the Member for his point of order.

Firstly, the orderliness of the Bill should properly be challenged prior to or at the commencement of debate on the Bill. This is now the second day of debate on the Bill, and the Member himself has begun to participate.

I understand that the Member now says he has information that was not available earlier with respect to possible amendments to the Bill. I would simply say that it is not at all uncommon for Members on both sides of the House to indicate during second reading debate on a bill that they intend to bring forward amendments in Committee. That appears to be the case here and is entirely consistent with normal practice.

I therefore find that the Bill is properly before the House and this debate is in Order.

Debate resumed and after some time the House adjourned at 5:58 p.m.

Le débat a repris et après quelque temps, à 17 h 58, la Chambre a ajourné ses travaux.

**10:30 A.M.**

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On September 22, the Member for Lanark—Frontenac—Lennox and Addington (Mr. Hillier) provided written notice of his intention to raise a point of privilege with respect to Bill 2, An Act to amend various statutes with respect to election matters. I have also reviewed a written submission from the NDP Chief Whip (Mr. Vanthof) that is broadly supportive of Mr. Hillier's submission. I am now prepared to rule on this matter without hearing further from the member, as Standing Order 21(d) permits me to do.

The member states that the government has indicated that it intends to bring forward certain amendments to the bill when the bill is eventually at that stage in committee. The member alleges that the anticipated amendments are of such a nature, and of such significance, that he is unable to meaningfully participate in the current debate since the current version of the bill is incomplete as a result. The member therefore says he is unable to fulfill his duties and functions as a member, which is a breach of privilege.

I will note that when this bill was last debated, the Member for Lanark—Frontenac—Lennox and Addington raised a point of order to challenge the orderliness of Bill 2 on substantially the same grounds as are raised in his point of privilege. After considering the point of order last Thursday, the Deputy Speaker found that Bill 2 was in order and that the debate on the bill was properly before the House.

I will also note that, while the member alleges that he is unable to perform his parliamentary duties by debating Bill 2, in fact he did participate in the debate last Thursday and delivered a nearly-one hour lead off speech. It is difficult to reconcile the member's plea that he has been prevented from participating in the debate when quite the opposite is the actual case.

I understand the nuance in the member's argument with respect to the fact that certain possible amendments to the bill were not available for him to substantively address during his speech, but that fact did not prevent the member from being able to stand in the House and participate in the debate.

Further, the possibility that amendments to a bill will be put forward in a committee exists with any bill; there is nothing about the legislative process on Bill 2 that is different from any other public bill. I will finally say that the member's fear that he will be deprived of meaningful participation on Bill 2 ought to be tempered by the realization that he — and all members — are protected from arbitrarily having amendments sprung on them that are beyond the scope of the bill as it was agreed to in principle at second reading. Admissible amendments must fall within the umbrella of the bill as agreed to, to that point.

For the various reasons just mentioned, I cannot find that the member has made out a *prima facie* case of privilege.

### ORDERS OF THE DAY

Opposition Day

Mr. Brown moved,

Whereas, Ontario has amongst the highest hydro rates in North America; whereas, electricity prices are expected to rise again on November 1st; whereas, the Liberal government have created the hydro crisis by signing lucrative contracts for unnecessary energy; whereas Liberal mismanagement has left Ontario's electricity system unaffordable and unreliable; whereas, the proposed hydro rebate is merely a band-aid solution; and, whereas, the rebate is simply too little and too late; therefore, the Legislative Assembly calls on the Liberal government to: stop signing contracts for energy that the province will sell at a loss; and stop selling any further shares in Hydro One.

Debate arose and after some time,

Ms. Horwath moved,

M<sup>me</sup> Horwath propose,

Whereas Ontario's energy system was founded with the principle "Power at Cost" and that "The Gifts of Nature are for the People" which built Ontario into an economic powerhouse;

Whereas people and businesses should be able to count on affordable, reliable energy to ensure prosperity and give a bright future to Ontario's next generations;

Whereas our hydroelectricity system was owned by the people of Ontario and delivered affordable, reliable electricity and economic prosperity for over one hundred years;

Whereas the Liberal party did not run on a plan to privatize Ontario's hydro system;

Whereas privatization of our hydro system under Conservative and Liberal governments have driven up generation costs from 4.3 cents per kilowatt hour in 2002 to an on-peak price of 18 cents per kilowatt hour in 2016;

Whereas Ontarians have reason to be concerned that the Liberal government is planning to facilitate the privatization of Local Distribution Companies such as Toronto Hydro;

Whereas as many as 80% of people across Ontario oppose the privatization of Hydro One;

Whereas, people of Ontario deserve to have a say before any more of Hydro One is sold off to private investors or any other privatization takes place;

Whereas the next provincial election in Ontario is now less than two years away;

Therefore, the Legislative Assembly calls on the Liberal government to take immediate steps to stop any further privatization of Ontario's hydro system, including both Hydro One and any Local Distribution Companies such as Toronto Hydro.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On November 3, 2016, the Government House Leader (Mr. Naqvi) rose on a point of order to express concerns about an Opposition Day motion filed by the Leader of the Opposition (Mr. Brown) and scheduled for debate tomorrow. According to the Government House Leader, the motion is out of order because: firstly, it contains a factual error; secondly, it is contrary to Standing Order 23(h) because it makes allegations against a Member; and thirdly, it is contrary to the sub judice rule in Standing Order 23(g) because it deals with matters relating to undisposed charges laid under Ontario's *Election Act*.

The Member for Simcoe—Grey (Mr. Wilson) and the Member for Timiskaming—Cochrane (Mr. Vanthof) also spoke to the point of order.

Having had an opportunity to review Hansard, our precedents, various procedural authorities, and the written submission of the Government House Leader, I am now ready to rule on the point of order.

With respect to the contention that the motion contained a factual error on the basis that an individual named in the motion no longer has the job title that the motion attributes to her, I have to say that, when faced with a point of order on a motion, the chair is focused on dealing with a procedural error, as opposed to a factual error, ambiguity or disagreement. Nevertheless, the person in question did have that job title at the time of the events that the Opposition Day motion deals with, so I think it is possible to understand the reference to her in that context.

On the contention that the motion makes allegations contrary to Standing Order 23(h), let me remind Members that this Standing Order provides that the Speaker shall call a Member to order during a debate if the Member “makes allegations against another member.” While the motion does not make a specific allegation against a Member, it instead infers or assumes that the Premier had knowledge of the matters referenced in the motion. This inference or assumption comes as close as it gets to contravening Standing Order 23(h). I am ruling that the motion does not contravene that Standing Order, but I want to caution Members not to craft their words in such a way as to see how close to the line they can come without actually crossing it.

Let me now turn to the sub judice concerns that were raised in the point of order. In a statement to the House on May 8, 2008, Speaker Peters explained that the sub judice convention is “a voluntary restriction on the part of a legislative body to refrain from discussing matters that are before a judicial or quasi-judicial body.” The convention originated out of the parliamentary desire to respect the separation between the legislative and judicial branches, and to avoid any possible prejudice to proceedings before a judicial or quasi-judicial body. The convention is less likely to be applied in the context of civil proceedings, compared to other kinds of proceedings.

Ultimately, it is for the Speaker to determine whether a matter is sub judice. As noted at page 630 of the second edition of *House of Commons Procedure and Practice*:

The Speaker’s discretionary authority over matters sub judice derives from his or her role as guardian of free speech in the House. The Chair has the duty to balance the rights of the House with the rights and interests of the ordinary citizen undergoing trial. Indeed, the Speaker intervenes in exceptional cases only where it appears likely that to do otherwise would be harmful to specific individuals.

Not only does the Assembly have a sub judice convention, it also has a sub judice rule. Under Standing Order 23(g)(i), the Speaker must call a Member to order if the Member “refers to any matter that is the subject of a proceeding that is pending in a court or before a judge for judicial determination ... where it is shown to the satisfaction of the Speaker that further reference would create a real and substantial danger of prejudice to the proceeding.”

As stated at page 193 of the third edition of *McGee’s Parliamentary Practice in New Zealand*, the sub judice rule is not intended to prevent discussion on “a generality of cases” dealing with some aspect of the administration of justice: “To apply the Standing Order so generally would be to stultify debate in the House. The law in general may be discussed, but not its application to a particular case that is before the court.”

In reviewing our own precedents, I found that the precedents dealing with sub judice concerns in the context of Question Period are not all that relevant to sub judice concerns on motions and debates, for the simple reason that the chair and Ministers know that Ministers can indicate their sub judice concerns when responding to an oral question. As noted by Speaker Peters, Speakers here and in most other jurisdictions have adopted the practice of minimal responsibility with respect to the sub judice convention during Question Period.

Our precedents on previous Opposition Day motions were more relevant and helpful. For example, I note that on May 14, 2001 the House debated an Opposition Day motion calling for a public inquiry into the circumstances surrounding the death of an individual in a provincial park. No one questioned the orderliness of the motion, but it bears noting that criminal proceedings relating to the death had ended, and that the only individual identified in the motion was deceased.

A 2008 precedent offers more guidance. In that case, an Opposition Day motion called for a public inquiry into the circumstances surrounding the release on bail of an individual who was identified in the motion. At page 3584 of the Hansard for October 27, 2008, Speaker Peters indicated as follows:

This motion not only does not address the general application of such rules [on the apprehension of persons charged with serious criminal offences], but it also identifies, in every one of its clauses, the names of individuals associated with a very serious incident that is still before the criminal courts. It also draws conclusions on certain evidence and on the actions of officials involved in the administration of criminal justice in Ontario. Absent these specifics and written a very different way, it is likely such a motion could have proceeded, as was the case with the opposition day motion about the justice system in Ontario that was put forward in November 2006.

After the Speaker ruled this 2008 motion out of order, the House debated a re-worded Opposition Day motion. It called for a public inquiry into Ontario's bail system, so it was thematically similar to the earlier out-of-order motion. However, the motion did not identify any individuals, and it did not refer to the details of any specific case. No concerns were raised as to the orderliness of this replacement motion.

Applying these precedents to the case at hand, the Opposition Day motion identifies – by name, job description or both – five individuals, two of whom are identified as having been charged with electoral offences that are still before a provincial offences court. It provides a quote, allegedly made by one of the defendants. And it calls on the Premier “to identify the individual who ordered” the two defendants to offer an alleged bribe to a named individual, and “to identify the person” who ordered the defendants to offer an alleged bribe to another named individual; in other words, the motion infers or assumes that at least one other individual is involved in the alleged offence, and that the Premier knows their identity.

My principal difficulty with this is that there is no getting around the procedural reality that Standing Order 43(d) requires a decision on an Opposition Day motion, on the same day that the motion is moved. Whether the motion is carried or lost, a decision will have been made. The House will have taken a position - pronounced its opinion - on elements of a specific proceeding that is before the courts. It is hard to reconcile the possibility of having a debate on this motion that could be held within the bounds of sub judice when, at the end of the debate, the House will vote and make a decision on a specifically worded motion. I find that scenario particularly troubling, and I believe the prospect of it does rise to the level of creating a real and substantial danger of prejudice to the proceeding.

For these reasons, I find the motion to be out of order for contravening the sub judice rule in Standing Order 23(g). I thank the Government House Leader, the Member for Simcoe—Grey, and the Member for Timiskaming—Cochrane for speaking to this matter. I also thank the Government House Leader for providing a written submission.

Mr. Brown moved,

M. Brown propose,

Whereas, hydro rates in Ontario are the highest of any province in Canada;

Whereas, the Liberals wasted \$300 million on energy scandals, including paying \$12 million for consultants instead of hydro relief for low-income families, losing a \$28 million lawsuit to Windstream, an \$81 million accounting error, and losing \$179 million in a court case with energy producers;

Therefore, the Legislative Assembly calls on the Liberal government to:

Issue a formal apology to the people of Ontario for their scandal, waste, and mismanagement; and,

In an effort to reduce rates, stop any future sale of the shares of Hydro One; and,

Stop signing energy contracts for power Ontario does not need.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On March 20, 2017, the Member for Prince Edward—Hastings (Mr. Smith) gave written notice of his intention to raise a point of privilege with respect to certain answers by the Minister of Agriculture, Food and Rural Affairs to the Member's written questions on the Order Paper. I am now prepared to rule on this matter without hearing further from the Member, as Standing Order 21(d) permits me to do.

According to the Member, the Minister's answers did not provide specific information, thereby obstructing the Member's ability to participate in a proceeding in Parliament on certain topics; moreover, the Member states that because the Minister declined to provide information that would instead only be given to officials of the municipalities affected by the government's decisions - effectively cutting him out of representing those municipalities, even though they are in his riding he has been obstructed in his ability to perform his parliamentary functions.

In response, let me say first that when the Member for Prince Edward—Hastings tabled his written questions and when the Minister answered them they were both carrying out a parliamentary responsibility. Second, it is a Minister's prerogative to answer written questions as the Minister sees fit; the Speaker does not review the adequacy of such answers. (On this point, please see the Speakers' rulings at page 61 of the *Journals* for March 15, 1935, page 194 of the *Journals* for November 4, 1980, and page 1604 of the *Hansard* for May 18, 2010.)

A Member may ask questions, but a Minister is not obliged to make a response that is entirely and always satisfactory to the Member. Let me equate this to the daily Question Period. I have reviewed the written answers to the Member's questions and am quite confident that if those were answers to oral questions in Question Period, those would have been perfectly orderly responses (though perhaps the Member might not have been satisfied with them, just as he is not satisfied with the written responses.) If the Speaker would have been procedurally unconcerned with the responses had they been made to an oral question, why ought the Speaker be procedurally concerned with the very same responses to written questions?

Now, more specifically on the issue of the Minister declining to disclose information to the Member and saying he would only do so with officials of a specific municipality, I have to say that there is nothing about the inherent status of a Member of Provincial Parliament that entitles a Member to private or proprietary information that any other third party would not be entitled to have. It is not a breach of a Member's privileges to have this kind of information withheld from them. While the House collectively could resolve to order production of such information, and the Minister would be compelled to provide it, no individual member has the authority to do so.

For the foregoing reasons, I find that a *prima facie* case of contempt has not been made out.

I thank the Member for raising his concern with me in the proper way.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Monday, March 20, 2017, the Member for Simcoe—Grey (Mr. Wilson) rose on a point of privilege concerning recent government advertising or announcements on electricity pricing. According to the Member, the items – which were issued or authorized by the government, a private utility company and a political party – allude to future price cuts and other changes in the electricity sector. The Member alleges that they constitute a *prima facie* case of contempt because they presume a timeline and outcome for forthcoming legislation. The Government House Leader (Mr. Naqvi) also spoke to the matter and subsequently filed a written submission. The Member for Simcoe—Grey then filed another written submission in reply.

Having had an opportunity to review the written notice of the Member for Simcoe—Grey, the written submissions of the Government House Leader and the Member for Simcoe—Grey, *Hansard*, the items provided by the Member for Simcoe—Grey, and the relevant precedents and authorities, I am now prepared to rule on the matter.

Before I turn to the substance of the Member's allegation, let me remind the House generally about the nature of contempt, as partially set out in the classic definition in *Erskine May* (at pages 251, 260 and 261 of the 24<sup>th</sup> edition):

Generally speaking, any act or omission which obstructs or impedes either House of Parliament in the performance of its functions, or which obstructs or impedes any Member or officer of such House in the discharge of his duty, or which has a tendency, directly or indirectly, to produce such results may be treated as a contempt even though there is no precedent of the offence. It is therefore impossible to list every act which might be considered to amount to a contempt, the power to punish for such an offence being of its nature discretionary....

...

Other acts, besides words spoken or writings published reflecting upon either House or its proceedings which, though they do not tend directly to obstruct or impede either House in the performance of its functions, yet have a tendency to produce this result indirectly by bringing such House into odium, contempt or ridicule or by lowering its authority, may constitute contempts.

I will now turn to the substance of the Member's allegation. I have reviewed the items provided to me by the Member for Simcoe—Grey. One item, a Ministry of Energy document (it is difficult to determine whether it is advertising), refers to the government's intention to introduce legislation that would, if passed, provide for changes to the Global Adjustment refinancing. The other items are 2 Twitter re-tweets, a Facebook advertisement, a screen-grab from the Liberal Party of Ontario website, and a voice advertisement that concludes with the words "paid for by the Government of Ontario." Each of these latter items make unqualified and definitive assertions, such as "Your household hydro bill won't increase beyond the rate of inflation for at least 4 years" and "25% off starting this summer – Ontario's Fair Hydro Plan" and "Starting this summer, households will receive an average of 25% off their bill."

The Member for Simcoe—Grey asserts that these kinds of statements in the various communications provided to me amount to a demonstrated contempt, because they predict and presume the outcome of the decision of the House in first implementing the legislative changes required to give effect to these pledges.

The message conveyed to the reader or listener of the various communications is certainly definitive - the reduction in electricity prices will happen. However, for the Speaker to conclude that the communications constitute a *prima facie* contempt of the House because of their definitive, unconditional language, as the Member for Simcoe—Grey invites me to do, then I must first have found the contempt exists because the role of the House and the outcome of a future matter before it are both taken for granted and assumed to be a foregone conclusion.

Moreover, to combine these conclusions together would further require that the Speaker is also capable of conducting or has some sort of jurisdiction to conduct a legal analysis of the legislative framework that is necessary to produce the results alluded to in the ads and other items. Members know it is well-established precedent that it is not the Speaker's role to undertake legal analysis, make legal findings or attempt to interpret the law.

It is therefore not possible for me to determine whether or not the Assembly has a necessary role in the implementation of the measures, certainty about which must be a pre-condition to a *prima facie* finding that such role has been or is being undermined, diminished, obstructed, impeded or disparaged. The statement of the Minister of Energy that he will be introducing legislation at some point, as noted by the Member for Simcoe—Grey, does not alter this limitation on my authority or sphere of jurisdiction. It is not open to me to interpret or presume what might be in that possible legislation.

Consequently, I cannot find that a *prima facie* case of contempt has been established.

Given this finding, it is not necessary to consider the timeliness arguments raised by the Government House Leader and the Member for Simcoe—Grey, apart from reminding Members that timeliness in raising a point of privilege continues to be a requirement.

I thank the Member for Simcoe—Grey and the Government House Leader for their contributions to this matter.

Opposition Day

Jour de l'opposition

Ms. Horwath moved,

M<sup>me</sup> Horwath propose,

Whereas hydro bills in Ontario have become unaffordable for too many people;

Whereas reducing hydro bills by up to 30 per cent for families and businesses is an ambitious but realistic target;

Whereas the only way to fix the hydro system is to address the root causes of high prices including privatization, excessive profit margins, oversupply, unfavourable net export practices and more;

Whereas Ontario families should not have to pay Time-of-Use premiums, and those living in a rural or northern region should not have to pay higher, punitive delivery charges;

Whereas changing the financing of private contracts and the Global Adjustment fails to reduce the long-term cost of hydro for families and businesses, does not fix the system and, in fact, will cost billions of dollars extra in borrowing costs;

Whereas Hydro One can be returned to public ownership and management without increasing rates;

Whereas returning Hydro One to public ownership would deliver over \$7 billion back to the province and the people of Ontario;

Therefore, the Legislative Assembly expresses its support for reducing hydro bills for businesses and families by up to 30 per cent, eliminating mandatory Time of Use, ending unfair rural delivery costs, and restoring public ownership of Hydro One.

Debate arose and after some time,

Il s'élève un débat et après quelque temps,

The question was then put.

Opposition Day  
Ms. Horwath moved,  
Whereas medications can play an essential role in keeping people healthy at every stage of their lives;  
Whereas 2.2 million people in Ontario have no drug insurance;  
Whereas jobs with benefits are harder than ever to find;  
Whereas 1 in 4 Ontarians can't afford to take the medication they're prescribed;  
Whereas Canada's National Medicare system was built because Premier Tommy Douglas boldly created Universal Hospital Insurance in Saskatchewan, which was built into universal medical insurance in Saskatchewan and finally national Medicare;  
Whereas it is our end goal that all Canadians have access to public, universal, and comprehensive national Pharmacare;  
Whereas inaction by current governments cannot continue;  
Therefore the Legislative Assembly expresses its support for universal Ontario Pharmacare, which will cover essential medicines for all Ontarians without charging premiums or deductibles, and, based on evidence supported by numerous international studies, help save lives and improve Ontarians' health.

Mr. Brown moved,

M. Brown propose,

Whereas, government scandals have dominated news headlines for the past 14 years;

Whereas, the current government has faced 5 O.P.P. investigations;

Whereas, the people of Ontario may question the integrity of this government;

Therefore, in the opinion of this House, the Government should support an Ontario Ethics and Accountability Act with the following provisions:

1. Close the loophole on Ministers fundraising from their own Ministerial Stakeholders;
2. Make it illegal for Ministers to have fundraising targets;
3. Expand the one-year lobbying cooling-off period to prohibit former Ministerial Staff from lobbying all government ministries on behalf of companies their former ministry did business with;
4. Amending the *Public Service of Ontario Act* to require the results of Integrity Commissioner investigations of Ministerial Staff to be made public;
5. Restoring the Auditor General's full oversight of government advertising;
6. A ban on government advertising 90 days prior to an election;
7. Legislating the practice of Ministerial Responsibility and requiring Ministers named in a police investigation to temporarily step aside until their name is cleared of any wrongdoing;
8. Strengthen government document retention policies to ensure records like the gas plant documents are never deleted again.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

The Government House Leader has given me notice of his intention to raise a point of privilege with respect to the withdrawal last week, with unanimous consent of the House, of Bill 83, An Act to amend the Labour Relations Act, 1995 with respect to the determination of bargaining units and the certification of trade unions, by its sponsor, the Member for Stormont—Dundas—South Glengarry.

I am prepared to rule on this matter without hearing further from the Government House Leader, as Standing Order 21(d) permits me to do.

The Government House Leader states that the Member sought to withdraw his bill as a result of having been subject to pressure to do so. The House Leader indicates that one of his staff witnessed a meeting among the Member for Stormont—Dundas—South Glengarry and others during which, the staffer speculates, this pressure was asserted.

First, let me emphasize the speculative nature of the assertion that is made. No recounting of events or discussions is made by a first-hand participant of the alleged meeting. It is not a sound policy to publicly conjecture about the private discussions of others. Second, in the absence of a complaint from the Member for Stormont—Dundas—South Glengarry himself that he believes his privileges have been interfered with, then there is no basis for the Speaker to deal further with this matter.

The Speaker addressed the House:-

Le Président s'adresse à la Chambre :-

I beg to inform the House that, pursuant to Standing Order 71(b), the Member for Nipissing (Mr. Fedeli) has notified the Clerk of his intention to file notice of a reasoned amendment to the motion for Second Reading of Bill 134, An Act to implement 2017 Budget measures (Sessional Paper No. 227).

The Order for Second Reading of Bill 134 may therefore not be called today.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Monday, May 15, 2017, the Member for Leeds—Grenville (Mr. Clark) raised a question of privilege concerning advertising on electricity pricing. According to the Member, a number of items which were issued or authorized by the government allude to future price cuts and other changes in the electricity sector. The Member alleges that they constitute a *prima facie* case of contempt by the Minister of Energy because they presume a timeline and outcome of a bill currently before the House. The Government House Leader (Mr. Naqvi) also spoke to the matter and both Members filed written submissions.

Having had the opportunity to review the written notice of the Member for Leeds—Grenville, the oral arguments and written submissions of the Member for Leeds—Grenville and the Government House Leader, and other relevant precedents and authorities, I am now prepared to rule on the matter.

This matter is directly related to my earlier ruling on March 23, 2017. In that instance, the Member for Simcoe—Grey had raised a substantially similar question of privilege, and based upon apparently the same materials as are in question in the current instance.

Those materials are:

1. An undated screenshot of a Facebook advertisement from Ontario Energy;
2. A screenshot of a re-tweet of a similar ad to the one from Facebook, showing the date March 2;
3. A screenshot of a re-tweet of a graphic containing the Hydro One name and Logo, showing the date March 2;
4. An Ontario Liberal Party publication, of unknown provenance, referring to the “Fair Hydro Plan”; and
5. Two audio advertisements about the “Fair Hydro Plan” sponsored by the Government of Ontario.

In my earlier ruling, I was not able to find that a *prima facie* case of contempt had been made out largely due to the fact, and I paraphrase, that to do so would have required me to have been capable of conducting, or to have some sort of jurisdiction to conduct, a legal analysis of the legislative framework that would have been necessary to produce the results alluded to in the ads and other items. Speakers do not undertake legal analysis, make legal findings or attempt to interpret the law.

That is as true in the present case as it was in March. So, the question of whether or not the specific piece of legislation currently before the House, Bill 132, is the sole available mechanism for the Government of Ontario to implement its “Fair Hydro Plan” is not one I can study or answer. Were there, or are there, other viable means to give effect to electricity rate reductions? I cannot know.

However, now that a bill is before the House which has provided the genesis of the complaint from the Member for Leeds—Grenville, I can examine if any of the items do what the ads did in the seminal case on government advertising that was referred to by the Member, that being the 1997 ruling by Speaker Stockwell.

Let me remind the House of what Speaker Stockwell had to say. In addressing definitively worded statements in government ads about municipal reform in Toronto, he stated:

“How is one to interpret such unqualified claims? In my opinion, they convey the impression that the passage of the requisite legislation was not necessary or was a foregone conclusion, or that the Assembly and the Legislature had a *pro forma*, tangential, even inferior role in the legislative and law-making process, and in doing so, they appear to diminish the respect that is due to the House. I would not have come to this view had these claims or proposals – and that is all that they are – been qualified by a statement that they would only become law if and when the Legislature gave its stamp of approval to them.”

Let me begin by examining the 5 items provided to me by the Member for Leeds–Grenville that I mentioned before. The Ontario Liberal Party ad and the Hydro One ad are not the responsibility of the Government of Ontario or the Minister of Energy, so I accord them no value for the purpose of this consideration.

As for the Facebook and Twitter ads, which are substantially the same, I can report that they each prominently feature both a web address and a separate link to the “Fair Hydro Plan” website. Right on the landing page of this site, is the following language:

“Ontario has introduced legislation that would, if passed, reduce electricity bills...etc.”; and

“In addition, if the proposed legislation is passed, your bill...etc.”

In short, the language on this website is conditional throughout with respect to the “Fair Hydro Plan”.

Likewise, the audio ads that the Member for Leeds–Grenville provided, which are archived from links on the Toronto Star website, direct listeners to the same “Fair Hydro Plan” website as the Facebook and Twitter ads I just mentioned. I take note of the fact that the Member for Leeds–Grenville advises these audio ads were aired sometime during the March break two months ago.

The ads make bold statements, as I noted in my March 23 ruling, but they also have to be taken as a whole – the prominent links and references to the “Fair Hydro Plan” website are just as much a part of the ad as the other statements in them. The advertising and messaging on Bill 132 that has been drawn to my attention, including that provided by the Government House Leader, contains language that, in my opinion, is suitably deferential to the requisite and superior role of this House in first passing the legislation necessary to enact the Plan.

Finally, the 1997 Stockwell ruling precedent that has rightly become so influential in the area of government advertising was made in a context where legislation was then currently before the House, though the then-government advertised about its application in a way that conveyed the impression that it was a done deal. I have not had similar advertising specific to Bill 132 brought to my attention.

For the various reasons just mentioned, I cannot find that a *prima facie* case of contempt has been established in this matter. In closing I will say that the fact that the advertising and other messaging around Bill 132 is conditional in nature and explicitly recognizes the need for the Bill to first pass in the Legislative Assembly is, in my view, both a vindication of the direction established by Speaker Stockwell 20 years ago, and a full answer to the grievances of the Members for Simcoe—Grey and Leeds—Grenville in the current instance.

I thank the Member for Leeds—Grenville and the Government House Leader for their contributions to this matter.

- All OHIP-insured services not available within 100 km of a patient's area of residence on referral of a health care or dental practitioner, thereby eliminating the current restriction to services performed by a specialist or in hospital;
- The broadening of eligible service locations to include out-of-province facilities, so that patients have the option to access Grant-covered services in locations closer to their place of residence, or for the purpose of accessing OHIP-insured services that are not offered or available in Ontario;
- Increasing the accommodation allowance for Grant-eligible patients to reflect the average cost of accommodation in the host community and adjusting the allowance on an annual basis to reflect market changes;
- Eliminating barriers related to program application, including modifications to the application process to allow for minor revisions and submission of missing information via electronic means such as facsimile or e-mail; and

### PÉTITIONS

**ORDERS OF THE DAY**

Opposition Day

Mr. Brown moved,

Whereas, the Auditor General revealed that the government's Fair Hydro Plan could cost Ontarians up to \$4 billion more than necessary;

Whereas, the government passed legislation to make their own accounting rules that serve to dilute the impact of their financial decisions;

Whereas, the government's intention in creating the accounting and financing design to handle the costs of the electricity rate reduction was to avoid affecting its fiscal plan;

Whereas, the government should have recorded the true financial impact of the Fair Hydro Plan's electricity rate reduction on the Province's budgets and consolidated financial statements;

Whereas, the government should have used a financing structure to fund the rate reduction that is least costly for Ontarians;

Therefore, the Legislative Assembly of Ontario calls on the Liberal government to issue an apology to the Auditor General and the people of Ontario.

Debate arose and after some time,

The question was then put.

Opposition Day

Jour de l'opposition

Ms. Horwath moved,

M<sup>me</sup> Horwath propose,

Whereas years of Liberal and Conservative cuts have driven Ontario's hospitals into an overcrowding and hallway medicine crisis that now demands urgent action across Ontario;

Whereas New Democrats have revealed the extent of overcrowding and underfunding of health care in Brampton and call for immediate action to fix this crisis in this rapidly-growing community;

Whereas Brampton Civic Hospital was forced to treat 4,352 patients in hallways between April 2016 and April 2017 with significant lengths of stay ranging from 40 to nearly 70 hours;

Whereas patients forced to spend days in hallways endure excessive noise and reduced privacy, which negatively affects their overall patient experience and quality of care, and may extend their overall length of stay;

Whereas the hospital has opened at least 30 unfunded beds;

Whereas the Emergency Department at Brampton Civic Hospital was built to serve 90,000 visits annually but experienced more than 138,000 visits last year, and regularly has more than 32 admitted patients for whom there are no beds;

Whereas the crisis of overcrowding has grown so serious that Brampton Civic Hospital has been operating at over 114 percent capacity and was forced to declare Code Gridlock eight times between January to April 2017, for a total of 65 days in just four months;

Whereas current funding from the provincial government is not meeting the needs of Brampton's families and seniors;

Whereas Brampton Civic Hospital was designed with 18 Operating Rooms but, to date, two Operating Rooms still have not been outfitted and opened for surgical use;

Whereas William Osler Health System requested \$50.4 million in post-construction operating plan funding for the Peel Memorial Centre, but was awarded just \$31.2 million, creating a funding shortfall of \$19.2 million in just its first year of operation; and

Whereas William Osler Health System, which operates Brampton Civic Hospital and Peel Memorial Centre for Integrated Health and Wellness, has requested immediate investments to address the capacity pressures and funding shortfalls in Brampton;

Therefore the Legislative Assembly of Ontario calls on the government to immediately provide at least \$30.2 million, as requested, to William Osler Health System to meet the following needs of families in Brampton:

- \$8 million to Brampton Civic Hospital to cope with overcrowding and provide additional funding for much-needed beds;
- \$3 million to Brampton Civic Hospital to outfit and operationalize the two operating rooms that were designed but never funded and opened; and
- \$19.2 million to address the funding shortfalls, in just its first year of operation, at Peel Memorial Centre.

**P  TITIONS****ORDERS OF THE DAY**

Opposition Day

Mr. Brown moved,

Whereas, the Ontario Liberals ignored expert advice when implementing electricity that has led to an oversupply of electricity at times when the power isn't being used in Ontario; and

Whereas, this has led to Ontario exporting electricity to Michigan and New York at prices that are less than Ontario ratepayers are paying for exactly the same power; and

Whereas, independent energy experts have put the cost to produce that carbon-free power that is being exported at more than a billion dollars for 2016 and more than \$840 Million for the first nine months of 2017; and

Whereas, this means that the government stands to lose between \$340 Million and \$675 Million per year on the export of this electricity;

Therefore, we call on the government of Ontario to reimburse Ontario ratepayers the cost of the loss incurred by exporting this surplus electricity.

Debate arose and after some time,

The question was then put.

Jour de l'opposition

Ms. Horwath moved,

M<sup>me</sup> Horwath propose,

Whereas Ontario families and businesses are now struggling to pay hydro bills that have skyrocketed due to privatization policies enacted by Liberal and Conservative governments; and

Whereas for over a century, Ontario's system of public power made our province an economic powerhouse that provided good jobs and prosperity for Ontario families and businesses; and

Whereas the Liberal government sold off its majority ownership of Hydro One, Ontario's oldest and most important public asset, without consulting the people of Ontario and without an electoral mandate; and

Whereas instead of lowering rates as the Premier promised, the privatized Hydro One continues to seek sharp rate increases on behalf of private shareholders that will further harm Ontario families and businesses;

Therefore, the Legislative Assembly calls on the government to immediately begin to bring Hydro One back into public hands by financing the purchase of shares using Hydro One shareholder dividends, moving towards the people of Ontario owning Hydro One once again.

Mr. Fedeli moved,

M. Fedeli propose,

Whereas, this year 1 in 5 people will experience mental illness; and,

Whereas, of all children who try to access mental health treatment, more than 40% are unable to access the treatment they need; and,

Whereas, there has been a 67% increase in hospitalizations for children with mental health disorders over the last ten years; and,

Whereas, the majority of people treated in an Ontario emergency room after a suicide attempt are not seen by a psychiatrist within six months; and,

Whereas, individuals seeking treatment for mental illness face extensive wait times upwards of 18 months; and,

Whereas, the Liberal government and the NDP refuse to match the \$1.9 billion federal transfer for mental health services;
