JOURNALS
OF THE
LEGISLATIVE ASSEMBLY
OF THE
PROVINCE OF ONTARIO
5th Session—27th Parliament

FIRST DAY

WEDNESDAY, JANUARY 25TH, 1967

PROCLAMATION

(Great Seal of Ontario)

W. EARL ROWE

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith.

To Our Faithful the Members elected to serve in the Legislative Assembly of Our Province of Ontario and to every of you,—

GREETINGS :

A. A. WISHART,
*Minister of Justice and
Attorney General* } **W**HEREAS it is expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Ontario, WE DO WILL that you and each of you and all others in this behalf interested, on Wednesday, the twenty-fifth day of January now next, at Our City of Toronto, personally be and appear for the Actual Despatch of Business, to treat, act, do and conclude upon those things which, in Our Legislature for the Province of Ontario, by the Common Council of Our said Province, may by the favour of God be ordained.

HEREIN FAIL NOT.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS :

THE HONOURABLE WILLIAM EARL ROWE, A Member of Our Privy Council for Canada, Doctor of Laws, Doctor of Social Science,

LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this fifteenth day of December in the year of Our Lord one thousand nine hundred and sixty-six and in the fifteenth year of Our Reign.

BY COMMAND

ROBERT WELCH,
*Provincial Secretary
and
Minister of Citizenship.*

Wednesday, the twenty-fifth day of January, 1967, being the first day of the Fifth Session of the Twenty-seventh Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable W. Earl Rowe, P.C.(C), LL.D., D.Sc. Soc., Lieutenant Governor of the Province.

3 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:

Mr. Speaker and Members of The Legislative Assembly of Ontario:

I extend warmest greetings and a sincere welcome to each of you.

We meet during a year of significance to all Canadians. It was one hundred years ago that four British North American colonies joined in a great Confederation to form the Dominion of Canada.

Ontario was one of the original partners of this historic union. From the beginning, this Province accepted and has borne to the full its responsibilities in the life, growth, and rising prosperity of Canada. Ontario has given leadership to her own people and to the nation and in time of strife her citizens have contributed their life-blood for the preservation of freedom.

Of interest today is that following Confederation the First Session of the First Legislature of Ontario was convened on December 28th, 1867. At that time, Ontario was the home of one and a half million people. Now it nurtures and shelters seven million. The basic British and French stock, drawn together in Confederation, enriched by others of more than sixty-five national origins in the years that followed, constitute our people.

As we gather for this Fifth Session of the Twenty-Seventh Assembly of the Legislature of Ontario it is timely to reflect on the accomplishments of our people. It also is timely to rededicate ourselves to the principle of Confederation.

Our belief in and support of Canada and Confederation is a fundamental of Ontario's existence.

During the course of this Session you will be given an opportunity to consider a comprehensive "Program for People".

Measures will be proposed to assist the people of Ontario to adjust to economic and social change and to improve their standard of living. These measures will demonstrate that my Government courageously faces its responsibilities to the nation and, in particular, to the people of Ontario.

My Government will give increasing attention to the problems of our cities and the well-being of the hundreds of thousands of people who live and work in them. The goal is to make Ontario's cities and towns increasingly pleasant and agreeable places in which to live. Programs will be presented to provide adequate housing, redevelopment, transportation and recreation facilities.

It is the belief of my Government that adequate housing for our people at prices they can afford is of utmost importance to the expansion of our economy and the future welfare of our population.

A matter of great concern to my Government is the steadily increasing cost of home ownership. My Government subscribes to the principle of the desirability of home ownership. Rental accommodation has an important role to play, but home ownership can enhance the pride of being a part of the community and of having a personal involvement in the future of our Province and country.

Plans have been formulated to bring into operation a new housing program to be known as "Home Ownership Made Easy", which, through the use of the first letter of each word, will be called "The HOME Program".

This greatly expanded program of the Ontario Housing Corporation will remove many of the major obstacles that have restricted housing development and home ownership in the past. The HOME Program will incorporate:

land development;

land lease;

encouragement of home ownership;

residential community development; and

housing to encourage industrial development across the Province.

My Government recognizes the problem of the small home owner who, through expropriation, loses his home for the good of the community and thereby faces relocation. This is a matter which must be settled satisfactorily for all concerned. Embodied in the program of my Government will be provisions to deal with such situations.

Also to be placed before you will be a proposal that the Fair Housing provision of the Ontario Human Rights Code be amended to prohibit discrimination based on race, colour or creed in connection with the rental of all housing accommodation.

In this Province of vast and greatly-varied territory, transportation plays a vital role in economic development and in the life of our people. Accordingly, a comprehensive study of the character and expanding transportation needs of our entire Province will be conducted. This will result in a broad transportation policy appropriate to the rapidly changing requirements of modern life.

This year will be recorded in the history of this dynamic Province as the one in which the Government of Ontario inaugurated, sponsored and financed the railway commuter service known as GO-Transit. In taking this progressive step, it is the purpose of my Government to achieve a better balanced transportation system so as to lighten the burden of expenditures on freeway construction in areas of Southern Ontario where such problems are especially severe.

As urban living increases in Ontario, my Government has accepted its responsibility to provide adequate and convenient outdoor recreational facilities. During 1967 four new Provincial Parks will be opened, bringing the number to one hundred and nine. The new Provincial Parks will be Selkirk, on Lake Erie; Round Lake, in Renfrew County; Sand Shoals, on the new Chappleau-Wawa Highway; and Sandbar Lake, between Dryden and Upsala.

Parks and recreation centres operated by the Conservation Authorities continue to grow in popularity. Nature trails, displays and imaginative interpretive programs are being extensively employed in the conservation areas, as well as in many of our Provincial Parks. In this way, our people and those who come from beyond our borders are assisted in understanding and appreciating the natural attributes of our Province and the necessity of managing them with wisdom.

In addition to reserving land for future Provincial Parks, my Government will place before you a program of signal importance to future generations. The "Program of Wild Rivers" will preserve for the use and enjoyment of our people a number of rivers which possess unique features, such as flora, fauna, aesthetics, historical significance, water conservation, recreation and other values basic to the economy and culture of Ontario.

In the field of agriculture there is a two-fold responsibility: to ensure that the farmer shares in our prosperity; and to ensure that adequate food is available for our growing population at a price the consumer can afford. Proposals will be laid before you to assist materially in fulfilling these obligations.

You will be asked to consider an expanded program of capital grants to farmers. These will form part of a long-range plan to preserve and stimulate the agricultural economy of the Province. The grants will help the people of rural Ontario adjust to major technological, economic, and social changes. My Government proposes to extend the existing program of capital grants to include wells, farm drainage and the construction of certain types of farm buildings.

There will be further intensification of the program to consolidate small or uneconomic farms.

A program will be placed before you to increase the number of veterinarians practising in farm areas. My Government will make available to students of veterinary medicine an annual bursary which will be forgiven if the student remains in farm animal practice after graduation.

Many countries of the world face severe food shortages because of primitive agricultural techniques. My Government will propose a program to bring students from underdeveloped countries to Ontario so that they may study the practical applications of modern farming.

There will be placed before you a program to provide additional bilingual agricultural extension personnel in Ontario. For this purpose arrangements will be made to provide agricultural training in higher education in both languages.

Further significant measures will be put before you to improve the quality of the life of our people.

Proposals will be placed before you to extend the activities of the Ontario Government in the field of medical and health research.

A new concept for local health services has been developed.

A completely new Mental Health Act will be placed before you.

Arising out of an inter-departmental committee study and report, a co-ordinated program of services for children with mental and emotional disorders will be put forward for your consideration. This will require that eight regional diagnostic, assessment and treatment centres be established throughout the Province.

The extension of group homes operated under The Child Welfare Act will complement this program and will play a significant role in meeting the needs of some children in the care of the Children's Aid Societies.

Plans also are proceeding for the establishment of a reception and diagnostic centre for boys and girls. This facility will provide service for all children admitted to the Training Schools of the Province from the Juvenile and Family Courts.

You will be asked to consider the renaming of the Department of Public Welfare which, with your approval, will become the Department of Social and Family Services. This change arises from the notable advances made in the provision of social services and the enlarged facilities available for those requiring assistance. The counselling and rehabilitation services of the Department will be increased.

In view of the public concern and jurisdictional problems, my Government believes it desirable that there be a public inquiry into problems relating to the law of divorce. You will be asked to approve a course of action to establish such an inquiry, in order that submissions may be made to the Committee of the Parliament of Canada which presently has this matter under study.

The industrialization of Ontario, coupled with an expanding population and urbanization, has increased the burden upon the air, soil, and water of our Province. My Government will continue to press its war against all sources of pollution.

Legislation will be introduced to apply the most modern and progressive concepts to ensure that the air our citizens breathe will be clean and pure. To effect this, the facilities and staff of the air pollution control service will be increased to provide a complete and integrated program.

To enable the Ontario Water Resources Commission to continue its rapid progress in eliminating the pollution of our waters, an enlarged program will be instituted. In addition, the Ontario Water Resources Commission will accelerate research into the technological aspects of the treatment of sewage.

Every person must be provided with opportunities to develop his or her full potential and, commensurate with reality, be entitled to receive the required maximum education. Equality of educational opportunity is the continuing policy of my Government. The developments in secondary and post-secondary education in recent years and the investment in educational facilities were designed to achieve this desirable end. The goal is to provide the best possible education and facilities for all our youth and for the increasing number of adults who seek continued education to adapt themselves to the technological and other changes of modern society.

Recent studies have shown that many young people arrive at school for the first time handicapped in the basic vocabulary and concepts of our culture. It is imperative that provision be made for the preparation of very young children. You will be asked to consider means of assisting such children to participate fully in our school system.

Other programs will be developed or expanded to further equalize educational and cultural opportunities between the less urbanized sections of Ontario and the metropolitan areas.

An Educational Research Centre, to be located in Northern Ontario, is planned. It will be equipped with diagnostic and assessment materials and staffed by a team of psychologists and educators. The education of children in remote areas not served by schools or railway cars will be improved by the use of portable schools and the extension of boarding allowances. In addition, The Northern Corps, which was established in 1966 to encourage qualified teachers to contribute their services to isolated areas, will be expanded. Construction of an educational centre in Moosonee is expected to begin during 1967.

In the field of continuing education, the opening of new Colleges of Applied Arts and Technology will be carried forward. My Government plans to continue the rapid expansion of programs and facilities in the vital area of university education.

Among the measures which you will be asked to approve will be a new Labour Standards Code. The construction safety program will be strengthened with additional staff and an extension of the training program for enforcement personnel.

Steps will be taken to bring labour, management and government closer together to deal formally with matters of mutual concern in the broad field of industrial relations.

A body will be established, consisting of representatives of labour, management and government, to explore and report on issues which may be raised by any of the three parties.

In this complex age, it is both desirable and necessary that the public and, in particular, those who are directly affected by legislative action, should be given the fullest opportunity to discuss and examine issues and to participate in the formulation of new approaches. In line with this policy, two Royal Commissions have been established to deal with matters of the highest concern to Ontario's economy and both are receiving the benefit of many representations from the public. Mr. Justice George A. McGillivray is examining the operation of the Workmen's Compensation system, while the Honourable Ivan C. Rand has been given broad terms of reference to make proposals that will help to rationalize and harmonize the interests of labour, management and the public in the field of labour-management relations.

My Government will bring forward legislation to provide compensation for those who are injured while assisting the police in maintaining law and order.

Every effort must be made to ensure that a climate is maintained which is congenial to investment in the development of our resources and our industry.

The new Department of Financial and Commercial Affairs is working closely with all Departments of my Government to encourage a high degree of public confidence in Canadian investment. Participation by our citizens in the development of Ontario's economic life is of paramount importance.

It is my Government's intention to introduce legislation that will assure that the savings of our people are adequately safeguarded. There are questions of jurisdiction. The recent proposals of the Federal Government in the field of deposit insurance are being analyzed and, where additional protection is required, such protection will be provided.

Canada's Centennial Year will be marked by a full-scale "Program of Provincial Development". A review of all existing programs relating to human and natural resources and social capital will be undertaken. From this reappraisal will evolve a general economic plan for the development of Ontario. Present policies in such areas as availability of labour, industrial development, natural resources, transportation, energy, conservation and water will be assessed within the framework of this total development strategy. Attainment of the full economic potential of every region of Ontario is a prime interest of my Government.

To maintain the upward progress of our economy, my Government recognizes the need to greatly increase our share of available foreign business opportunities. In a realignment of our commercial trade officers, an "International Task Force" will be launched to assist Ontario manufacturers to secure more export volume, arrange for manufacturing licence agreements, seek new industries and investment capital for the Province.

Our continued economic and industrial strength depends to a marked degree upon the attainment and continuance of a high level of scientific research and technological development. My Government will further encourage these concepts with the introduction of a program to provide increased support to the activities of the Ontario Research Foundation.

In recognition of the importance of landing strips and airports throughout Northern Ontario, investigations are being conducted with a view to formulating an appropriate policy. Resulting facilities will provide new opportunities for the further development of this important part of our Province.

On January 1st, 1967, our people entered into the Centenary of Confederation. It is appropriate that, as we progress through our Centennial observances, we shall have in our midst Her Majesty Queen Elizabeth II, His Royal Highness the Prince Philip, Duke of Edinburgh, and other members of our Royal Family, and the Chiefs of State of many of the nations of the world. These visits emphasize the close and continuing ties which link our people with our Royal Family, and with so many friendly nations. They will be with us at a time of great historical significance and rejoicing by Canadians, a time for celebration and commemoration of the past.

During the Centennial Year Ontario will present itself to the world through the great World Exposition to be held in Montreal. An invitation is extended to all of our citizens to visit the Ontario Pavilion at Expo '67. The exciting and imaginative architecture of our Pavilion and its exhibits will mirror the life, culture and accomplishments of our people and our Province.

To further mark the Centennial Year, my Government will undertake two developments of significance to present and future generations.

The first will be the creation of The Ontario Heritage Foundation. This Foundation will be empowered to acquire and manage properties of historical, architectural, aesthetic and cultural interest for the benefit of the people of Ontario.

The second will be the convening of a "Confederation of Tomorrow Conference". This Assembly will be asked to approve the policy of my Government to invite the leaders of all Provinces and the Federal Government to a Conference where the future course of our federal system of government will be discussed. My Government considers it appropriate for Ontario, as one of the founding Provinces of Confederation, to provide the inspiration and setting for such discussions.

It is the hope of my Government that the "Confederation of Tomorrow Conference" will herald the beginning of a series of meetings through which our eleven governments are brought into closer communion and Canadian unity strengthened.

The programs, policies and proposed legislation of my Government, which I have outlined, will ensure that our Centennial Year will be noteworthy in its achievements.

May Divine Providence guide you in your deliberations.

His Honour was then pleased to retire.

THURSDAY, JANUARY 26TH, 1967

PRAYERS

3 O'CLOCK P.M.

Mr. Speaker informed the House,

That the Clerk had received from the Chief Election Officer and laid upon the Table the following certificate of a by-election held since the last Session of the House:

ELECTORAL DISTRICT OF KENORA—Leo Edward Bernier.

PROVINCE OF ONTARIO

This is to certify that, in view of a Writ of Election dated the Fifteenth day of August, 1966, issued by the Honourable the Lieutenant Governor of the Province of Ontario, and addressed to Joseph O'Flaherty, Esquire, Returning Officer for the Electoral District of Kenora, for the election of a Member to represent the said Electoral District of Kenora in the Legislative Assembly of this Province in the room of Robert Wayne Gibson, Esquire, who, since his election as representative of the said Electoral District of Kenora, hath departed this life, Leo Edward Bernier, Esquire, has been returned as duly elected as appears by the Return of the said Writ of Election, dated the Thirteenth day of October, 1966, which is now lodged on record in my office.

RODERICK LEWIS,
Chief Election Officer.

Toronto, January 26th, 1967.

Leo Edward Bernier, Esquire, Member for the Electoral District of Kenora, having taken the Oaths and subscribed the Roll, took his seat.

On motion by Mr. Robarts, seconded by Mr. Rowntree,

Ordered, That during the present Session of the Legislative Assembly provision be made for the taking and printing of reports of debates and speeches and to that end that Mr. Speaker be authorized to employ an editor of debates and speeches and the necessary stenographers at such rates of compensation as may be agreed to by him; also, that Mr. Speaker be authorized to arrange for the printing of the reports in the amount of eighteen hundred copies daily, copies of such printed reports to be supplied to the Honourable the Lieutenant Governor, to Mr. Speaker, to the Clerk of the Legislative Assembly, to the Legislative Library, to each Member of the Assembly, to the Reference Libraries of the Province, to the Press Gallery, to the newspapers of the Province as approved by Mr. Speaker, and the balance to be distributed by the Clerk of the Assembly as directed by Mr. Speaker.

On motion by Mr. Robarts,

Ordered, That, until further order, this House will meet at two-thirty p.m. on each Monday, Tuesday, Wednesday and Thursday, and at ten-thirty a.m. on each Friday.

Mr. White moved, seconded by Mr. Hodgson (Victoria),

Ordered, That Standing Committees of this House for the present Session be appointed for the following purposes: 1. On Agriculture and Food; 2. On Education and University Affairs; 3. On Government Commissions; 4. On Health;

5. On Highways and Transport; 6. On Legal Bills and Municipal Affairs; 7. On Labour; 8. On Natural Resources and Tourism; 9. On Private Bills; 10. On Privileges and Elections; 11. On Public Accounts; 12. On Standing Orders and Printing; 13. On Welfare and Reform.

Which said Committees shall severally be empowered to examine and enquire into all such matters and things as may be referred to them by the House, and to report from time to time their observations and opinions thereon, with power to send for persons, papers and records.

Mr. Nixon moved, seconded by Mr. Singer, that the motion be amended by adding thereto:—

“and that the House hereby instruct the Committee on Legal Bills and Municipal Affairs to undertake forthwith an investigation into all matters relating to the collapse of the Prudential Finance Corporation.”

A debate arose, and,

Mr. MacDonald moved, seconded by Mr. Bryden,

That the amendment be amended by adding thereto:—

“and, in particular, to investigate the failure of the government either to exercise the powers it already had or to seek additional powers, in order to cope effectively with imminent bankruptcy in a company under its jurisdiction.”

The debate continued, and after some time the amendment to the amendment was lost on the following division:—

The Order of the Day for resuming the Adjourned Debate on the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The debate was resumed, and, after some time,

Mr. Nixon moved, seconded by Mr. Singer,

That the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

But this House:

Regrets that the government has failed to state a positive policy to relieve the tax load on the home owners of Ontario, particularly with regard to the cost of education.

Deplores the fact that the government, through its carelessness and inattention to its responsibilities, permitted situations to develop within the financial community whereby many of our people suffered grave harm to their economic security. It is further to be noted that the government has failed to take the necessary steps to restore confidence in financial institutions under its jurisdiction.

Regrets that a co-ordinated plan has not been presented by the government to ensure the proper, efficient development of our post-secondary system of education, above all ensuring academic freedom and autonomy.

Regrets that the government's lack of sound policy and positive leadership has failed to prepare Ontario for her second century, particularly in the areas of continuing farm income problems, northern development, land, air and water pollution, municipal reorganization, law reform and economy in government.

And the debate continued, and after some time it was,

On motion by Mr. MacDonald,

Ordered, That the debate be adjourned.

The House then adjourned at 5.55 p.m.

SIXTH DAY

WEDNESDAY, FEBRUARY 1ST, 1967

PRAYERS

The Order of the Day for resuming the Adjourned Debate on the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The debate was resumed and, after some time,

Mr. MacDonald moved, seconded by Mr. Bryden,

That the Amendment to the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following:—

And, above all, this House regrets that the government has failed to state a firm commitment to make genuine equality of opportunity a reality for all the people of Ontario, and to that end has not,

1. developed a public housing program which alone can effectively meet the housing needs of most of the people of Ontario;
2. implemented a comprehensive program of regional economic development, with funds and technical assistance sufficient to render such programs truly effective;
3. taken measures to ensure that the province's economy is developed to the fullest extent possible under Canadian ownership and control;
4. shown any understanding that, essential to the elimination of poverty is a guaranteed annual income which will replace the categorical welfare programs and ensure that all citizens of this province enjoy the basic amenities of life.

The debate was resumed and, after some time, the amendment to the amendment, as follows:—

That the amendment to the motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following:—

And, above all, this House regrets that the government has failed to state a firm commitment to make genuine equality of opportunity a reality for all the people of Ontario, and to that end has not,

1. developed a public housing program which alone can effectively meet the housing needs of most of the people of Ontario;
2. implemented a comprehensive program of regional economic development, with funds and technical assistance sufficient to render such programs truly effective;
3. taken measures to ensure that the province's economy is developed to the fullest extent possible under Canadian ownership and control;
4. shown any understanding that, essential to the elimination of poverty is a guaranteed annual income which will replace the categorical welfare programs and ensure that all citizens of this province enjoy the basic amenities of life.

The amendment to the motion as follows:—

That the motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor now before the House be amended by adding thereto the following words:—

But this House:—

Regrets that the government has failed to state a positive policy to relieve the tax load on the home owners of Ontario, particularly with regard to the cost of education.

Deplores the fact that the government, through its carelessness and inattention to its responsibilities, permitted situations to develop within the financial community whereby many of our people suffered grave harm to their economic security. It is further to be noted that the government has failed to take the necessary steps to restore confidence in financial institutions under its jurisdiction.

Regrets that a co-ordinated plan has not been presented by the government to ensure the proper, efficient development of our post-secondary system of education, above all ensuring academic freedom and autonomy.

Regrets that the government's lack of sound policy and positive leadership has failed to prepare Ontario for her second century, particularly in the areas of continuing farm income problems, northern development, land, air and water pollution, municipal reorganization, law reform and economy in government.

The Order of the Day for resuming the Adjourned Debate on the motion that the Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means, having been read,

The debate was resumed and, after some time, Mr. Nixon moved, seconded by Mr. Singer,

That the motion "that Mr. Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means" be amended by adding thereto the following words:—

This House regrets:—

- (1) that the Government has failed in its Budget to provide relief for the municipal taxpayer in relation to the ever-increasing and inequitable share of the costs of education that he must pay as a part of the taxes on his home;
- (2) that the Government, notwithstanding the high-sounding statements in the Speech from the Throne in relation to housing, has neglected to provide in this Budget any meaningful allocation of public funds to enable it to carry out any worthwhile housing programme for the benefit of the people of Ontario; and
- (3) that the Government, while finding it necessary to budget for the largest deficit in the history of the Province of Ontario, has failed to present any logical programme of planned fiscal management to deal with the ever-increasing complexities of the public affairs of the people of Ontario, and has failed to outline any method of dealing with the needless waste and extravagances now existing, and has failed to indicate any desire to effectively carry out logical economies by the elimination of duplications, over-lappings and inefficiencies at present existing in the management of the affairs of the Government of the Province of Ontario;

Therefore, this House rejects the Budget as presented and must advise Your Honour that the present Government does not enjoy the confidence of the people of Ontario.

The debate continued.

MONDAY, MARCH 6TH, 1967

PRAYERS

2.30 O'CLOCK P.M.

On motion by Mr. Robarts, seconded by Mr. Singer,

Resolved,

That the Legislative Assembly of the Province of Ontario in Parliament assembled place upon the records of this House an expression of its sorrow and the sorrow of the people of Ontario on the death of His Excellency General Georges Philias Vanier, D.S.O., M.C. and Bar, Canadian Forces Decoration, Governor General of Canada.

On his passing, we are conscious of the loss of a great public servant who rendered exceptional service to his nation in peace and war and who stood high in the Councils of our Commonwealth of Nations.

His long and distinguished career as well as his personal qualities secure for him a lasting place in the hearts of his countrymen, and we honour his memory.

To Madame Vanier and her family the Assembly extends the sympathy of the people of Ontario in the loss of a devoted husband and father. We mourn with them in their bereavement.

On motion by Mr. Robarts,

Ordered, That out of respect to His Excellency, the late General Vanier, Governor General of Canada, this House do now adjourn until Wednesday next at 2.30 p.m.

The House accordingly adjourned at 2.50 p.m.

THIRTIETH DAY

WEDNESDAY, MARCH 8TH, 1967

PRAYERS

2.30 O'CLOCK P.M.

On motion by Mr. Rowntree,

Ordered, That the time for receiving Reports by the Standing Committee on Private Bills be extended to tomorrow, Thursday, March 9th.

Before the Orders of the Day, the Member for St. Patrick, A. Kelso Roberts, Esq., resigned his seat by reading and delivering the following letter to Mr. Speaker:—

THE HON. DONALD MORROW,
Speaker of the Legislative Assembly,
Parliament Buildings,
Queen's Park,
Toronto 2, Ontario.

Dear Mr. Speaker:

With your permission, I would like to rise from my seat in the Legislature today, before the orders of the day, and make a short statement reading this letter therewith.

As you and the Members of the Legislature are aware, in the redistribution of Ridings, the historic Riding of St. Patrick will be partitioned. A considerable part will go into the somewhat enlarged Riding of St. George and the rest will be incorporated with practically all the present St. Andrew Riding and a bit of the present Bellwoods Riding to constitute, at the time of the next general election and afterwards, the Riding of St. Andrew-St. Patrick.

On the 10th of February last in the Legislature, I spoke at some length, and after a great deal of preparation, on the subject of Securities and Stock Exchanges. I am pleased to note the major changes which have taken place within the last week with respect to the office of the President of the Toronto Stock Exchange and the personnel of the Ontario Securities Commission. I anticipate that further appropriate legislation will be enacted this Session.

I also recognize the desires of the sitting Members and others to organize and prepare for the next general election whenever that may be.

Furthermore, I have the assurances of both the Member for St. George and the Member for St. Andrew that for the balance of the life of the Legislature they will assume full responsibility for looking after the needs of those constituents of the present St. Patrick Riding who will be residing under the re-distribution in their respective new bounded Ridings.

As for myself, I have already announced that I am resuming the practice of law and I believe that after the very considerable length of service I have had in this Legislature and in the public life of the Province of Ontario, I can now perhaps do better by giving undivided attention to the building up of a legal practice and leaving it to the Members of this Legislature and the successors of those who will not be here after the next general election to carry on the ever-imminent and often extremely onerous duties of Government and Parliament in Ontario.

Mr. Speaker, I therefore, pursuant to Section 19 (a) of The Legislative Assembly Act of Ontario, give in my place in this Assembly notice of my intention to resign my St. Patrick seat.

We are all delighted with the return to duty of the Premier of the Province and in addition to extending my good wishes to all my fellow Members of this Assembly, my last words here will be a sincere and fervent wish of good health and strength to the Honourable John Robarts.

Yours sincerely,

A. KELSO ROBERTS.

The Order of the Day for resuming the Adjourned Debate on the amendment to the motion that Mr. Speaker do now leave the Chair and that the House resolve itself into the Committee on Ways and Means, having been read,

The debate was resumed and, after some time, it was, on motion by Mr. Sopha,

Ordered, That the debate be adjourned.

The Order of the Day for Second Reading of Bill 17, An Act to provide for the Appointment of a Commissioner to investigate Administrative Decisions and Acts of Officials of the Government of Ontario and its Agencies, and to define the Commissioner's Powers and Duties, having been read,

Mr. Singer moved, That the Bill be now read a second time, and after some time,

The debate concluded on the adjournment of the House.

The House then adjourned at 6.00 p.m.

THIRTY-FIRST DAY

THURSDAY, MARCH 9TH, 1967

PRAYERS

2.30 O'CLOCK P.M.

Mr. Reuter, from the Standing Committee on Private Bills, presented the Committee's Ninth Report which was read as follows and adopted:—

Your Committee begs to report the following Bills with certain amendments:—

Bill Pr31, An Act respecting The University of Western Ontario.

Bill Pr35, An Act respecting The Board of Education for the City of London.

Your Committee would recommend that the fees less the penalties and the actual cost of printing be remitted on Bill Pr31, An Act respecting The University of Western Ontario.

As the Committee has not been able to complete its work, it recommends that the time within which the House may receive Reports upon Private Bills from the Committee on Private Bills be extended to the 16th day of March, 1967.

The following Bills were introduced, read the first time, and ordered to be read the second time tomorrow:—

Mr. Robarts moved,

That Mr. Speaker do leave the Chair and that the House resolve itself into Committee of Supply.

Mr. Nixon moved, seconded by Mr. Singer,

That the motion be amended by adding thereto the following words:—

“but this House views with great concern the rising cost of municipal government, and, particularly, the intolerable burden of the cost of education among ratepayers in Ontario, and this House deplores the failure of the government to take steps to alleviate the situation and lessen the financial burden upon the citizens of Ontario at the municipal level.”

And, a debate arising, after some time the amendment was lost on the following division:—

The Order of the Day for resuming the Adjourned Debate on the amendment to the motion that Mr. Speaker do now leave the Chair and that the House resolve itself into the Committee on Ways and Means, having been read,

The debate was resumed and, after some time, it was, on motion by Mr. White,

Ordered, That the debate be adjourned.

Mr. Trotter moved, seconded by Mr. Paterson, That this Government should enact legislation that is in effect a "Bill of Rights" for tenants, wherein tenants are protected against harsh and excessive terms in rental contracts.

Mr. Lawrence (St. George) moved, seconded by Mr. Boyer, That, in the opinion of this House, the practice, by owners of multiple-type dwellings, of requiring a large deposit or prepayment of rent from tenants is unjust, and that, if continued, consideration should be given to the interposition of an independent supervisory or licensing third party to act as Trustee to regulate and hold such

deposits, so that a speedy and just procedure can be evolved whereby tenants will be able to recover such deposits with interest at the current bank rate, at the termination of their tenancy, less the cost of any actual damage caused by them during such tenancy.

Mr. Renwick moved, seconded by Mr. Young, That this government should introduce legislation for the protection of tenants of self-contained units in multiple-dwelling accommodation and single-family dwellings, to include: 1. Abolishing Security Deposits. 2. Establishing of a Rental and Tenancy Review Board. 3. Enacting a standard form of lease to be used by all landlords. 4. Prohibiting landlords from charging tenants a fee for subletting an apartment. 5. Outlawing all clauses in leases restricting tenants' rights to purchase milk, bread, other foodstuffs and personal service from the merchant of their choice. 6. Prohibiting landlords charging for extra occupants. 7. Requiring landlords to provide adequate standards of maintenance, safety and health for their tenants. 8. Requiring all landlords to carry liability insurance. 9. Abolishing the landlord's right of distress. 10. Authorizing the courts to delete any clause of a lease which, in the court's opinion, is unreasonable.

The debate concluded on the adjournment of the House.

The House then adjourned at 6.00 p.m.

Mr. Rowntree moved,

That Mr. Speaker do leave the Chair and that the House resolve itself into Committee of Supply.

Mr. MacDonald moved, seconded by Mr. Young,

That the motion be amended by adding thereto the following words:—

“but this House regrets the government’s failure to take forthright action to deal with the high and increasing cost of living and, in particular, its failure to:

- (a) eliminate trading stamps and other promotional gimmicks in retail merchandising and to ensure that resulting savings will be passed on to the consumer;
- (b) to establish a public automobile accident insurance plan so as to reduce the exorbitant and rising rates now being charged in the province;
- (c) to undertake a large-scale program for increasing the supply of public housing so as to reduce the present pressure on the rents and prices of homes and at the same time make adequate housing available to those who cannot now obtain it;
- (d) to establish prices and rental review boards to enquire into, publicize and make appropriate recommendations regarding any increases in prices and rentals that appear to them to be unwarranted."

And, a debate arising, after some time the amendment was lost on the following division:—

2.30 O'CLOCK P.M.

The following Bill was introduced, read the first time, and ordered to be read the second time tomorrow:—

Bill 73, An Act to amend The Ontario Human Rights Code, 1961-62. *Mr. Bales.*

Before the Orders of the Day, Mr. Speaker informed the House that Mr. Nixon, Leader of the Opposition, and Mr. MacDonald, Leader of the New Democratic Party, had submitted motions to adjourn the House to discuss a matter of urgent public importance, namely, the dismissal of the Chief Coroner of Metropolitan Toronto, and delivered the following ruling:—

I have looked very carefully into the Rules and Precedents respecting the adjourning of the House to discuss a matter of urgent public importance. I have come to the conclusion that, while the subject matter of the proposed motion is "definite in that it is a specific matter of recent occurrence", I have considerable doubt as to whether it can be considered urgent or of general public importance. The dismissal of any public servant may be important in the area in which his duties were performed, that is, in this case Metropolitan Toronto, without being of general importance to the Province as a whole. However, the most important consideration is that precedents have clearly established certain rules.

May covers this whole question very thoroughly in the 17th Edition, pages 363 to 369 inclusive, and gives specific examples of motions that have been deemed to be in order and those that have been deemed to be out of order. In paragraph 4 on page 366, he points out that the matter must involve more than the ordinary administration of the law and, as an example of motions that have been ruled out of order on this ground, subclause ix towards the bottom of page 366, gives examples of cases where matters were ruled out of order because the matter involves only the exercise of discretion under statutory powers such as the refusal to appoint a court of inquiry in a marine wireless dispute. I am, therefore, of the opinion that the matter raised in this motion does not involve more than the ordinary administration of the law and is in fact an exercise of discretion under statutory powers. Consequently, following the precedents, I have no alternative but to rule this motion out of order.

On appeal, Mr. Speaker's Ruling was sustained on the following division:—

Mr. Dymond moved that the Bill be now read the second time, and after some time,

On motion by Mr. Renwick, it was,

Ordered, That the Debate be adjourned.

Mr. MacDonald moved, seconded by Mr. Bryden, That this Legislature expresses approval of the general objective of the Duff-Berdahl Report, the Canadian Association of University Teachers and the Canadian Union of Students, that changes in university government should be made to replace the traditional corporate structure with that of a community of scholars where students can develop their intellectual capacities to the fullest extent, but regrets the modesty of their recommendations to achieve that objective in a democratic society. To this end, the Legislature would: 1. Establish procedures by which the intellectual autonomy of universities will be maintained and strengthened, and of other post-secondary institutions will be developed, consistent with democratic accountability to this Legislature. 2. Inquire into the role, make-up and functioning of traditional boards of governors, and the advantages which might flow from a unitary structure of university government. 3. Urge that existing boards of governors should be representative of the administration, faculty and students, and of the community at large rather than just the business sector.

4. Encourage existing boards of governors in universities and other post-secondary institutions to open their regular sessions to the public and press; and enact legislation to eliminate individuals sitting on the board of governors from using their position for financial gain to themselves or their corporate associations. 5. Establish an enquiry to consider ways and means of applying research on the learning process to Ontario post-secondary educational institutions—this commission to be composed of prominent educators appointed by the government, university teachers nominated by the Ontario Council of University Faculty Associations, and outstanding students nominated by the Ontario Region of the Canadian Union of Students. 6. Encourage initiative for all the changes implicit in the above proposals to come from within the universities, consistent with the autonomy and academic freedom which must be safeguarded in a democratic society.

The debate concluded on the adjournment of the House.

The House then adjourned at 6.05 p.m.

The Order of the Day for the House to resolve itself into the Committee of Supply having been read,

Mr. Robarts moved,

That Mr. Speaker do leave the Chair and that the House resolve itself into Committee of Supply.

Mr. Nixon moved, seconded by Mr. Singer,

That the motion be amended by adding thereto the following words:—

That the present government no longer has the confidence of the people of Ontario because:

1. The dismissal of Dr. Shulman, the refusal of an open public enquiry into the collapse of Prudential Finance Corporation and the unexplained resignation of members of the Niagara Parks Commission show it has a meagre understanding of the democratic principle that a government must report fully to the people;
2. Its inefficient management in failing to encourage regional development, in failing to combat pollution and in failing to support the farm economy and in failing to provide adequate housing reveals that this government reacts to crisis, instead of anticipating and meeting the future needs of the province with planned action.

Mr. Speaker ruled the reference to Dr. Shulman Out of Order as it had been referred to a Commissioner appointed under The Public Inquiries Act.

On appeal by Mr. Nixon the ruling was sustained on the following division:—

That,

1. The real and personal property, business and income of The Ontario Heritage Foundation are exempt from all assessment and taxation made, imposed or levied by or under the authority of any Act of the Legislature, but this exemption does not apply to any property of the Foundation while leased under clause *c* of section 8 of *The Ontario Heritage Foundation Act, 1967* to a person or organization not registered as a charitable organization under the *Income Tax Act* (Canada).
- 2.—(1) Upon the recommendation of the Minister of Tourism and Information, or such other member of the Executive Council as is designated by the Lieutenant Governor in Council to administer *The Ontario Heritage Foundation Act, 1967*, the Lieutenant Governor in Council may, upon such terms as he deems proper, agree to guarantee and may guarantee the payment of any loan to the Foundation, or any part thereof, together with interest thereon, borrowed for the purpose of carrying out the objects of the Foundation.
- (2) The form and manner of the guarantee shall be such as the Lieutenant Governor in Council approves, and the guarantee shall be signed by the Treasurer of Ontario or such other officer or officers as are designated by the Lieutenant Governor in Council, and, upon being so signed, the Province of Ontario is liable for the payment of the loan or part thereof and interest thereon guaranteed according to the terms of the guarantee.

- (3) The Lieutenant Governor in Council may make arrangements for supplying the money necessary to fulfill the requirements of any guarantee and to advance the amount necessary for that purpose out of the public funds of the Province,

as provided in Bill 99, An Act to incorporate The Ontario Heritage Foundation.

That,

the moneys required for the purposes of the Health Insurance Registration Board shall, until the 31st day of March, 1968, be paid out of the Consolidated Revenue Fund,

as provided in Bill 100, An Act to establish the Health Insurance Registration Board.

NINETY-SECOND DAY

THURSDAY, JUNE 15TH, 1967

PRAYERS

10.30 O'CLOCK A.M.

The following Bill was read the third time and was passed:—

Bill Pr31, An Act respecting The University of Western Ontario.

The Order of the Day for resuming the adjourned Debate on the amendment to the motion that Mr. Speaker do now leave the Chair and that the House resolve itself into the Committee on Ways and Means, having been read,

The debate was resumed and, after some time, the amendment,

That the motion "that Mr. Speaker do now leave the Chair and the House resolve itself into the Committee on Ways and Means" be amended by adding thereto the following words:—

But this House regrets:—

- (1) that the Government has failed in its Budget to provide relief for the municipal taxpayer in relation to the ever-increasing and inequitable share of the costs of education that he must pay as a part of the taxes on his home;
- (2) that the Government, notwithstanding the high-sounding statements in the Speech from the Throne in relation to housing, has neglected to provide in this Budget any meaningful allocation of public funds to enable it to carry out any worthwhile housing programme for the benefit of the people of Ontario; and
- (3) that the Government, while finding it necessary to budget for the largest deficit in the history of the Province of Ontario, has failed to present any logical programme of planned fiscal management to deal with the ever-increasing complexities of the public affairs of the people of Ontario, and has failed to outline any method of dealing with the needless waste and extravagances now existing, and has failed to indicate any desire to effectively carry out logical economies by the elimination of duplications, over-lappings and inefficiencies at present existing in the management of the affairs of the Government of the Province of Ontario;

Therefore, this House rejects the Budget as presented and must advise Your Honour that the present Government does not enjoy the confidence of the people of Ontario.

The main Motion having then been put, was declared to be carried on the same Division reversed.

The House, according to Order, resolved itself into the Committee on Ways and Means.

(In the Committee)

Resolved, That there be granted out of The Consolidated Revenue Fund of this Province a sum not exceeding two billion, three hundred and ninety-two million, eight hundred and ninety thousand, nine hundred dollars to meet the supply to that extent granted to Her Majesty.

Mr. Speaker resumed the Chair; and the Chairman reported, That the Committee had come to a certain Resolution.

Ordered, That the Report be received forthwith and adopted.

The following Bill was then introduced and read the first time:—

Bill 142, An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1967, and the 31st day of March, 1968. *Mr. MacNaughton*.

Ordered, That the Bill be read the second time forthwith.

The Bill was then read the second time.

Ordered, That the Bill be read the third time forthwith.

The Bill was then read the third time and passed.

The Honourable the Lieutenant Governor of the Province entered the Chamber of the Legislative Assembly and took his seat upon the Throne.

Mr. Speaker addressed His Honour in the following words:—

“May it please Your Honour:

The Legislative Assembly of the Province has at its present Sittings thereof passed certain Bills to which, in the name and on behalf of the said Legislative Assembly, I respectfully request Your Honour’s Assent.”

The Clerk Assistant then read the titles of the Bills that had passed as follows:—

“The following are the titles of the Bills to which Your Honour’s Assent is prayed:

To these Acts the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:

"In Her Majesty's name, the Honourable the Lieutenant Governor doth assent to these Bills."

Mr. Speaker then said:—

MAY IT PLEASE YOUR HONOUR:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1967, and the 31st day of March, 1968."

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

The Fifth Session of the Twenty-seventh Parliament of Ontario is about to end. I wish to commend the Honourable Members for their hard work and constructive discussions in the consideration and approval of the many matters of business which were brought before this Legislature.

We have met during a year of especial significance to Canadians. The Centennial of Confederation is being successfully observed. Ontario, as one of the original partners of Confederation, continues to accept its responsibilities in the developing of our great country. The pride of the people of Ontario in their participation in the building of Canada is evident in the many celebrations

being held throughout the Province. This was also demonstrated by the Honourable Members during the historic discussions of the future of Confederation and the approval of a resolution respecting the convening of a Confederation of Tomorrow Conference.

I thank the Honourable Members for making provision for the funds necessary to carry on the business of the Government. The economic growth of our Province and its excellent financial standing will enable the necessary funds to be raised.

Many measures dealing with the health, well-being and rights of our people have been passed. Of special note are the many statutes enacted to increase the protection given to consumers and investors. Depositors and those who lend money to loan corporations and trust companies were assured the protection of their investment through insurance. A Bill incorporating major revisions in The Corporations Act has been placed before you for consideration prior to the next Session of the Legislature. The new Legal Aid Plan has come into operation. A Consumer Credit Bureau has been instituted.

The Honourable Members have considered and approved the largest, most imaginative and most ambitious educational program ever undertaken in Canada. It reflects the rapid expansion of our school population, the number of schools required to accommodate this population, the introduction of the new system of Colleges of Applied Arts and Technology, the growth of our universities and the many changes and improvements made in the quality and diversity of the educational programs and educational opportunities in Ontario.

Legislation has been passed to make provincial maintenance allowances available to a larger number of persons, to establish a uniform needs test and to base the amount of payment on the requirement of the family unit. As well, the rate of allowance has been increased.

Measures have been implemented to expand our housing program, including the HOME Plan.

Amendments to the Ontario Medical Services Insurance Plan have enabled the increase in fees to be met out of the Plan, in order that the impact of this increase would not fall on members enrolled in OMSIP. A new registration system for both health and medical insurance is being developed. The new Air Pollution Control Act provides for provincial control of air pollution in Ontario. A major social advance in the care of the mentally disturbed will come about through The Mental Health Act enacted in this Session. The Ontario Human Rights Code has been extended. A Union-Management Council is being established to provide a forum for discussion and the examination of responsibilities in the public interest.

Provision has been made to relieve the municipal tax burden on our people by increasing by \$1.50 per capita the unconditional grants paid to the municipalities, thus reducing the tax rates levied. In addition, municipalities have been authorized to provide a tax credit to senior citizens for municipal and school taxes.

Important measures have been passed to extend protection for our farm population and to increase the income they receive. A new capital grants program makes funds available for many farm purposes. The coverage under the crop insurance program is being extended.

Programs have been introduced to provide more and better hunting and fishing opportunities for the public at a lower cost, to improve deer range and habitat, and to accelerate forest management and reforestation programs to provide increasing volumes of wood of the most desirable types to meet the needs of Ontario's forest industries. To further enhance the popular Provincial Parks system, new parks will be provided, while those presently existing will be further developed to meet the ever-growing needs of our people and our visitors.

Many of the recommendations of the Select Committee of Mining have been embodied in amendments to The Mining Act.

The Reports of the Select Committees on Aging, Youth, Company Law and Conservation Authorities were presented to the Legislature. They are being studied by my Government.

In declaring the Legislature prorogued, I am pleased to note that the affairs of the Government are in excellent order and that its financial position is sound.

I pray that under the guidance of Divine Providence our Province will continue to provide an increasing measure of satisfaction and prosperity for all our people.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

RESOLUTIONS

1. APPLICATION OF DEPARTMENT OF LANDS AND

FORESTS ZONING REGULATIONS:

Whereas the Department of Lands and Forests has devised a zoning system to control the use of Crown lands; and

Whereas this zoning does *not* apply to any great extent to individuals, firms, or companies engaged in the pulp and paper industry, mining exploration, commercial fishing or trapping, *but does* apply to licensed tourist outfitters; and

Whereas the zoning places an unnecessary burden on the tourist outfitter who wishes to offer his guests proper accommodations at his outpost camps; and

Whereas a licensed tourist outfitter who is also a commercial fisherman or trapper may have a permanent building in a deferred zone for fishing or trapping, but, if he wishes to accommodate tourists on the same lake, he must house them in tents; and

Whereas to derive full economic value from the tourist industry and to compete with other provinces the outfitter must be allowed to develop a higher class of service including outpost accommodations.

Therefore be it resolved that the Department of Lands and Forests be requested to give the tourist outfitter the same rights as are being enjoyed by commercial fishermen, trappers and the pulp and paper industry under

COMMENTS

The deferred zone is used in recreational land use planning to assist in controlling the orderly development of recreation areas in those parts of Ontario which are at present underdeveloped for recreation. Therefore, the deferred zone only applies to recreational developments. Active logging and mining operations are common reasons for setting up deferred zones, which may be opened for development as the situations change. Only tent accommodation can be permitted for recreational purposes in deferred zones.

the zoning system, namely, the right to build permanent buildings in outposts located in deferred zones.

2. REMOVAL OF LOGS AND DEBRIS IN THE MONTREAL AND COW RIVERS, DISTRICT OF ALGOMA:

Whereas the Montreal and Cow Rivers have been raised twice in the last fifteen years, and the logs and debris have been left to float around, creating a hazard to navigation on these rivers, with the upper part of the Cow River completely impassable for two miles; and

Whereas the Department of Lands and Forests has been contacted many times regarding this dangerous situation, but has taken no action to clear it up.

Therefore be it resolved that the Department of Lands and Forests issue a ministerial order to the company or companies concerned to clean up this navigation hazard, and, if this is not done by the company or companies concerned, that the Department of Lands and Forests undertake to do the necessary work, the cost for which to be charged back to the company or companies.

3. WILDLIFE MANAGEMENT:

Whereas it is considered that in the area of Deer Season Area 4 lying south of Highway 17 the hunting pressure is increasing, and the wildlife decreasing to a very low level; and

Whereas it is considered that there is a lack of proper wildlife management to meet the increasing hunting pressure in this area.

Northern Ontario Tourist Outfitters' Association

The Lands and Surveys Branch is at present carrying on discussions with the Great Lakes Power Corporation in this matter. An investigation of the legal aspects of this case is being undertaken, and it is expected this will be completed within two months.

Northern Ontario Tourist Outfitters' Association

An inventory of key wintering-yards of deer has been kept current, and improvement projects at some of these have been undertaken during the last four winters.

These projects will be continued and intensified as funds, staff and time permit.

RESOLUTIONS

Therefore be it resolved that a thorough survey of wildlife be made in this portion of Deer Season Area 4, and that some constructive action be taken to bring about some improvement in the game populations.

4. LICENSED GUIDES, RAINY RIVER DISTRICT:

Whereas there is much difficulty in obtaining enough licensed guides for hunting parties, due to scarcity of guides in the Rainy River District.

Therefore be it resolved that guide licences not be required in the Rainy River District where the hunting season opens on October 1st.

5. HUNTING LICENCE PLASTIC SEALS:

Whereas the issuance of resident and non-resident big game hunting licences include a plastic seal of the same colour for deer and moose; and

Whereas this being of the same colour presents the opportunity of illegally shooting two moose or two deer by residents holding both deer and moose licences, and by non-residents also, by cutting the seal and removing the coupon from the unwanted moose or deer and using other seal for deer or moose to the hunter's choice.

We can appreciate that qualified guides may be in short supply in certain local areas. The removal of mandatory guide requirements would not necessarily result in an increase of experienced guides. Inasmuch as the prohibition on hunting without a guide was included in The Game and Fish Act, 1961-62 in response to the wishes of the people of the Territorial District of Rainy River, no change would be contemplated without general assent.

Two separate colours will be considered for 1967, one for moose and one for deer. Distribution and handling costs will be increased with two colours.

Northern Ontario
Tourist Outfitters'
Association

Northern Ontario
Tourist Outfitters'
Association

Therefore be it resolved that the seal for deer be a different colour from that of moose seals—two colours for Resident seals and two colours for Non-Resident seals, making a total of four seals.

6. BIG GAME LICENCE TAGS:

Whereas the present tags furnished with big game licences are causing some inconvenience and difficulty, due to not being more substantial.

Therefore be it resolved that the Department of Lands and Forests be requested to provide more durable tags of either plastic or metal.

7. CLOSING OF WATERS TO ANGLING BY LOCAL ACTION:

Whereas at the present time under existing laws it requires an Order in Council to close waters to angling; and

Whereas surveys by the Department of Lands and Forests, Fish and Wildlife Branch, have shown the game fish population has diminished to a level necessitating remedial action; and

Whereas when private and commercial interests and the Fish and Wildlife Branch of the Department are in agreement that closing of certain waters is the proper action to be taken.

Therefore be it resolved that legislation be enacted to allow the closing of waters, at the local level, by mutual

agreement between private and commercial interests and the Fish and Wildlife Branch of the Department of Lands and Forests.

8. SPECKLED TROUT SEASON:

Whereas the opening of the speckled trout season on or about February 27th puts additional pressure on a species of game fish comprising the major portion of the fishing in portions of the District of Algoma; and

Whereas in certain portions and certain lakes of this district, Lands and Forests surveys have shown the fishing to be depleted; and

Whereas sufficient speckled trout are not available for planting to maintain the fishery at productive levels.

Therefore be it resolved that the opening date for the speckled trout season in the District of Algoma be put back to its former opening date of May 1st.

9. ILLEGAL COMMERCIAL FISHING IN SABASKONG BAY, MILES BAY AND OBABIKON LAKE:

Whereas the income in the Morson Area from the visitor-industry is being reduced by the evidence of greatly increased gill net operations, and a large percentage of these operations is illegal.

Therefore be it resolved that the Department of Lands and Forests be petitioned to enforce the checking

Winter fishing for lake, brook and rainbow trout has proven to be an extremely popular form of recreation and in most areas it has also provided the means for greater harvest of a previously under-utilized resource. Recent improvements in snow vehicles for winter travel have made it possible for anglers to travel farther afield to fish in areas previously inaccessible to most anglers.

Where fishing pressure has increased significantly and where there is evidence that such pressure may be detrimental to the fishery, the Department is prepared to take appropriate remedial action for the specific waters in question.

Commercial Fish:

Use of compounding gear in Lake of the Woods fishery is expanding. In several fisheries it is expected that trap-nets will completely replace gill-nets in 1967 and, as the fishermen's skill in the use of this gear increases, this trend will undoubtedly con-

and observance of legal operations in these waters, and that eventually only compounding gear be used in these waters, so as to allow the game fish to return to these areas.

10. COMMERCIAL FISHING IN WABINOSH BAY,
LAKE NIPIGON:

Whereas commercial fishermen are setting nets in the mouth of the Wabinoah River within the restricted area during the night; and

Whereas enforcement of fishery regulations is practically nil due to the lack of Conservation Officers and of suitable equipment to patrol Lake Nipigon in extreme weather; and

Whereas the present 1000-yard limit in this river mouth is inadequate.

Therefore be it resolved that the limit be extended to a line from English Point on the south to Wabinoah Point on the north, and that equipment and Conservation Officers be made available to patrol these waters effectively.

tinue. Much of the impetus for the movement into compounding gear can be traced to the demonstration of the techniques and use of trap-nets and pound-nets by Departmental staff and by experts employed by the Department to demonstrate the best methods of handling these nets.

The field staff has been notified of reported illegal activities and is adjusting the patrol of these waters where possible.

Northern Ontario
Tourist Outfitters'
Association

The Department has been giving greater attention to the fishery in this area. It is expected that the difficulty arising from alleged setting of gill-nets in the Wabinoah River will not recur. It is not considered to be good practice in fishery management, however, to restrict areas for fishing beyond that necessary to provide the kind of results required, or to restrict the use of nets to those open water areas in which it is sometimes much more difficult to catch commercial fish.

RESOLUTIONS

11. PLANTING OF PICKEREL:

Whereas there has been no restocking of pickerel in the Manitoulin District for two years, with indications that no restocking is planned for the coming year because of the closing of the fish hatchery at Little Current; and

Whereas pickerel is an important fish, being much sought-after by the majority of the sport fishermen, both local residents and tourists; and

Whereas there are only a few pickerel lakes in the Manitoulin District, which consequently receive a lot of pressure from residents and non-residents of the District.

Therefore be it resolved that the Department of Lands and Forests be requested to resume the yearly stocking of pickerel in all pickerel lakes in the Manitoulin District.

12. LIMIT ON CRAPPIES:

Whereas the value of the crappie as a game fish has come to be better known and understood; and

Whereas there is no over-abundance of them.

Therefore be it resolved that the Department of Lands and Forests *again* be requested to establish a daily limit of forty crappies.

BY WHOM

Northern Ontario
Tourist Outfitters'
Association

The restocking of pickerel, as with other species, should be carried out only on the basis of proven need. Most natural populations of pickerel in normal lakes are quite capable of maintaining themselves by natural reproduction in spite of heavy fishing pressure. However, the success of natural spawning can vary a good deal from year to year and this gives rise to fluctuations in angling success some three to four years hence.

We do not believe that the restocking of all pickerel lakes is necessary or desirable, and we look to our lake survey program for information on the need for restocking this species in specific areas.

The Department has no evidence to indicate that the crappie population is being adversely affected by current angling pressure. Wide fluctuations occur in year-class strength and in the availability of large crappies to the angler. The peak period of vulnerability is frequently no longer than two months during late winter and spring, and there is

no reason not to permit a liberal harvest when the fish are available.

The setting up of a Fisheries Management Unit on Lake Nipigon has high priority and can be accomplished when funds and personnel become available.

Long-range studies of both commercial and sports fisheries are needed and can be accomplished best by assigning specific personnel to the task.

Northern Ontario
Tourist Outfitters'

13. FISH SURVEY, LAKE NIPIGON:

Whereas the size and number of game fish have shown a gradual decline in Lake Nipigon during the last five years; and

Whereas the commercial fishing catches of game fish are declining in Lake Nipigon; and

Whereas there is a heavy increase in sports fishing; and

Whereas the game fish population in Lake Nipigon is in danger of being depleted.

Therefore be it resolved that the Department of Lands and Forests immediately undertake a long-range survey of the game fish population in Lake Nipigon.

14. UNRESTRICTED GILL NET FISHING BY INDIANS ON MANITOULIN ISLAND:

Whereas a judge's decision handed down in March, 1966, states that the Indian has an undisputed right to fish the inland waters of the Manitoulin Island District with a gill net, based on the assumption that the Treaty of 1862 overrides the Ontario fisheries regulations insofar as it applies to the Indian; and

Whereas continued year-round fishing with gill nets will seriously affect, if not eliminate, the game fish population on the Island; and

Northern Ontario
Tourist Outfitters'
Association

The Department did not appeal the judgment, but hopes that, through co-operation and local discussions, the Indians will adopt the principle of good management in their use of fishing resources by operating within the Ontario fisheries regulations.

COMMENTS

RESOLUTIONS

Whereas the economy of the Manitoulin Island District is dependent on the tourist industry, and a drastic reduction in the number of tourists coming to the Island because of the lack of good fishing would be a serious blow to the economy of the whole area; and

Whereas the tourist industry in the Manitoulin Island is the largest employer of Indians in the District, and, therefore, a serious decline in the tourist industry would also cause a serious decline in the economy of the Indians.

Therefore be it resolved that the Ontario Government make a study of the value of these fishing rights, and that efforts be made to purchase these fishing rights from the Indian Bands concerned, in the best interests of all parties concerned, including the Indian.

15. OPENING AND CLOSING OF FISH AND GAME SEASONS:

Chamber of
Commerce,
North Bay

Our objectives are similar. We have attempted to have uniformity of opening and closing dates over the broadest possible areas. Changes have been directed towards providing for the optimum management of the resources.

Fishery regulations have been submitted two weeks earlier in 1966 and a month earlier in 1967 than in previous years, but we agree that far earlier announcements would be desirable.

Be it resolved that the North Bay and District Chamber of Commerce go on record as being in favour of uniformity of the opening and closing of Ontario fish and game seasons where practical, but that the opening and closing of these seasons be determined by biological reports and be in the best interest of the proper management of these renewable natural resources, and that these dates of seasons be published as early as possible to ensure sufficient time for the formulating of plans by tourist operators and sportsmen.

16. ACCESS ROADS ON CROWN LANDS:

Whereas the forests of the province are producing a timber crop and a fish and wildlife crop; and

Whereas the utilization of both of these crops requires forest access roads; and

Whereas the majority of access roads on Crown lands have been built by the timber operators, and as such come under their management and control; and

Whereas the use of these roads by the public to crop the fish and wildlife resources is not assured; and

Whereas the timber operators may be liable for damages to anyone using their forest access roads, and as a result are reluctant to allow the use of their roads by the public; and

Whereas the proper management of the renewable natural resources of the province, including timber and fish and wildlife, requires that the management agency, namely, the Department of Lands and Forests, must have control over the utilization of the resources.

Therefore be it resolved that the Department of Lands and Forests take over the management of all forest access roads on Crown lands, and be responsible for contracts for maintenance and construction of these roads;

The Ontario Federation of Anglers and Hunters

Privately constructed logging access roads now in use may exceed 8,000 miles. The average annual rate of new construction is estimated at 360 miles. There are at present about 3,000 miles of abandoned forest access roads in the Province. A recent Department of Lands and Forests survey indicates that about 500 miles or 17 per cent of these abandoned roads should be maintained for various reasons, including the harvesting of fish and wildlife resources. In addition, there are over 1,000 miles of private roads on Crown land built and maintained by individuals and companies for purposes other than the harvesting of forest products. The annual cost of maintenance and of new construction combined for this entire road system could exceed \$10,000,000.

The construction and maintenance of public roads in Ontario are the responsibility of the Department of Highways. The Highway Improvement Act includes provision for the establishment of "industrial roads" that allow for the public use of privately built roads.

While this resolution meets with agreement in principle, the details relative to its implementation must require further serious consideration.

17. COMPLETE REVISION OF THE LICENSING SYSTEM FOR HUNTING WITHIN THE PROVINCE OF ONTARIO:

- Whereas under the present system of licensing of hunters in Ontario, there are several types of licences in use; and
- Whereas this results in the printing of several different types of hunting licences, and unnecessary costs; and
- Whereas the present type of Big Game Seal is unsatisfactory, impractical, and its use cannot be enforced to the satisfaction of the big game hunters in Ontario; and

The Ontario Federation of Anglers and Hunters

The hunting licence system is currently under study. "Box car" type seals are costly to purchase, handle and distribute and are not necessarily a deterrent to illegal practices when party-hunting exists. The resident hunting licence at \$1.00 is sold at the same fee as in 1930!

Whereas the Government of the Province of Alberta has in use a hunting licence system which we feel would be satisfactory and beneficial both to the hunter and to the Province of Ontario.

Therefore be it resolved that the Ontario Government adopt the complete system of licensing hunters as used by the Province of Alberta, using the Big Game "Box Car" type of metal seal, and that present hunting licence fees remain the same as defined in The Game and Fish Act, 1961-62 of Ontario.

18. SEIZURE OF DEFECTIVE FIREARMS:

Whereas defective firearms each year are the cause of a great number of hunting accidents as shown by the records of the Department of Lands and Forests as follows:

19. INFRACTIONS OF THE HUNTING REGULATIONS:

Whereas the present system of imposing fines for infractions of the hunting regulations is not fully effective in discouraging infractions of the regulations; and

Whereas this is particularly true in the case of wealthy individuals who may be guilty of infractions of the hunting regulations; and

Whereas a more just and equitable system would be one based on a suspension of the violator's right to hunt for a period of time; and

This procedure permits the court, which has heard the evidence in the particular case, to decide the propriety of the length of time during which hunting privileges should be withheld. 20. CONTROLLED HUNTING, LUTHER MARSH:

Whereas Luther Marsh is one of the better duck breeding areas in Ontario; and

Whereas the area is being over-hunted, particularly during opening day by an element of irresponsible and unsportsmanlike hunters, resulting in the majority of ducks being literally driven out of the marsh; and

Whereas a large percentage of ducks are not retrieved, due to shooting out of range, and a further percentage wounded for the same reason.

Therefore be it resolved that the Ontario Federation of Anglers and Hunters petition the Department of Lands and Forests and the Grand River Conservation Authority to place Luther Marsh under controlled duck hunting similar to the controlled duck hunting at Darlington and Presqu'ile Parks.

the resolution for the following reasons:

1. Where the damages are caused by persons who are not hunters, the compulsory insurance would not necessarily cover such persons responsible for the damage.
2. Such insurance may be cancelled by the insurer.
3. A litigant must establish the identity of the defendant, and there are cases where the person doing the shooting has not been identified.
4. In addition to identification of the person doing the shooting, an injured person has to establish legal liability. This may not be possible due to the facts of the situation or the lack of evidence to prove the facts.

The Department has this subject under review and is studying alternate methods of providing recovery of losses for persons injured in hunting accidents.

Changes in the Ontario Fishery Regulations in 1966 were accomplished to tighten up the movement of bait in the Province. Bait-fish were defined, and other species such as bass, pike, walleye were prohibited from use.

Whereas despite the efforts of the numerous organizations in the Province of Ontario to educate and train the public in safe hunting and safe gun-handling practices, there are still too many accidents causing grievous injury and in some cases death; and

Whereas in the majority of these accidents, the injured person, or the family of the deceased, suffers a substantial financial loss, with no recourse to recover these losses.

Therefore be it resolved that the Ontario Government immediately initiate a program whereby any applicant for any hunting licence in the Province of Ontario must show proof of liability insurance before such licence is issued.

23. LIVE BAIT FISH:

Whereas under the Ontario Fisheries Regulations, 1965, section 21 (2), it is legal to use or possess live yellow perch or live alewife for bait in the waters defined in Schedule 2, items 1 to 14, of the regulations; and

24. SNAGGING OF RAINBOW TROUT IN ORIENT LAKE:

Whereas Orient Lake has been stocked with rainbow trout whose growth can only be termed phenomenal, and consequently it has received much publicity; and

Whereas this lake having no inlet or outlet, the trout are spawning in the shallows almost at the feet of the angler; and

Whereas there is a great deal of snagging of fish, and even shooting with shotguns and rifles; and

Whereas it is not possible to police this lake every hour of the day throughout the spawning season.

Therefore be it resolved that the Department of Lands and Forests have Orient Lake closed to angling from February 28th to June 1st of each year.

The Ontario Federation of Anglers and Hunters

The rainbow in Orient Lake are a result of two hatchery plantings made in 1963 and 1964. Officers have checked spawning beds and find no survival of eggs or young. There was a substantial mortality of adults last summer. The reason is not known. There is every likelihood that subsequent plantings of rainbow will not result in as phenomenal growth in this small lake. The fishery will probably be on a "put and take" basis in the future.

Efforts will be made to control the snagging and netting, which are of concern. Both practices are now illegal. The difficulty now is to patrol this extremely remote water to control the illegal and unsporting activity. Creation of a sanctuary there will not immediately solve the problem.

We plan a further planting of rainbow trout in 1967 and will watch the situation closely, viewing the desirability of making this lake a sanctuary for April at least, and perhaps both April and May.

25. WINTER FISHING IN THE LAKES OF DENMAN,
CHIBLOW AND WAKWEKOBİ IN THE
DISTRICT OF ALGOMA:

Whereas at a general meeting in 1957 of the Algoma Rod and Gun Club, a representative of the Ontario Department of Lands and Forests gave as the reason for closure of the lakes in question to winter fishing the maintenance of a sufficient supply of lake trout stock to provide spawn to replenish the Great Lakes; and

Whereas only one token spawn of some 200,000 eggs was taken from one of the lakes in question in the over eight-years period of closure; and

Whereas to date no lake survey has been carried out by the Department of Lands and Forests in the waters in question to determine the fish population trends, in spite of intimation that some of the lakes may even require restocking; and

Whereas other Forestry Districts in Ontario have seen fit to open lakes previously closed to winter fishing.

Therefore be it resolved that the Ontario Federation of Anglers and Hunters requests the Department of Lands and Forests of Ontario to direct the District Forestry Office in the District of Algoma to initiate winter fishing in the lakes of Denman, Chiblow and Wakwekobi (Big Basswood) for the periods allotted to other lakes in the Algoma District.

Preliminary surveys of all three lakes have been completed. While extensive populations of lake trout do exist, the annual harvest from Basswood Lake, on which we have most information, may be relatively high. The Department believes that no changes toward liberalization should be effected until additional studies of present harvest rates are completed. This work is scheduled for 1967.

Whereas this type of shooting in an area which people use constantly and at all hours of the day for garbage disposal creates a great hazard to human life as well as the destruction of wildlife attraction.

Therefore be it resolved that the Temagami and District Chamber of Commerce ask the Department of Lands and Forests for permission to post a "No Hunting" sign in this area.

27. WOLF CONTROL:

Whereas for some time wolves have been a serious menace to the deer and moose population in this area, as evidenced by deer carcasses strewn on lakes and an unnatural shortage of moose calves in the spring; and

Whereas the Temagami and District Chamber of Commerce has received countless complaints about the excessive number of wolves in the area, with people so concerned they have pleaded with the Chamber to do something about it; and

Whereas the Chamber understands that a few years ago the Government employed a Dr. Douglass Pimlott, biologist, to make a survey of the wolf situation in Ontario and his recommendation to the Government was that a wolf management control program was badly needed; and

Whereas it is suggested that this plan be put into effect in the Temagami area as quickly as possible before all game has been utterly decimated.

Therefore be it resolved that the Temagami and District Chamber of Commerce ask the Department of Lands and Forests to carry on a full program of wolf extermination in this area and, to carry out this project, Conservation Officer Len Cote of Marten River, renowned for his wolf-trapping ability, be relieved of all other Departmental duties for the time being and work with the Conservation Officer in this area until the wolf

population is reduced to a proper balance with other wildlife.

28. WINTER FISHING:

Whereas, by the very nature of Canada's climate, winter sports should play an important role in the recreational and economic life of Canadians; and

Whereas ice fishing is a challenging, exciting and satisfying recreation, and, for those areas fortunate in lakeways and nature's bounty of fish, it provides a source of recreation and economic welfare.

Therefore be it resolved that the Temagami and District Chamber of Commerce ask that the Department of Lands and Forests continue to permit winter fishing in the Temagami area.

29. RESTOCKING FISH:

Whereas there has been a considerable increase of interest in both summer and winter fishing in this area in the past few years; and

Whereas, while there has been restocking done in this area, the Temagami and District Chamber of Commerce feels that the restocking program of the Department of Lands and Forests should be upped considerably to meet this pressure; and

Whereas, while it is desirable that all lakes suitable for lake trout in this area be restocked, it is felt that the amount of lake trout restocking in Lake Temagami has not been commensurate with its size.

The Temagami and District Chamber of Commerce

The Department considers winter fishing to be a popular and important form of outdoor recreation. If and when there is evidence to indicate that the fishery is being over-exploited, appropriate controls in the form of daily catch limits and length of season can be instituted.

The Temagami and District Chamber of Commerce

As with all hatchery-reared fish species, the planting of lake trout must be carried out on the basis of proven need, since the supply of hatchery-reared fish will always be limited and we need to make the best use of the stock that is available each year.

All lake trout yearlings planted in the future will be marked and their contribution to angling in each individual lake can be measured to form the basis on which future plantings will or will not be made. Hatchery stock contributes most in cases where natural reproduction is absent or limited, and where

RESOLUTIONS

Therefore be it resolved that the Temagami and District Chamber of Commerce ask the Department of Lands and Forests to restock the following lakes in the Temagami area with lake trout fingerlings: Lake Temagami, Rabbit, Net, Rib, Cassels, Wasakina, Herridge, Jumping Caribou, Norris and Obabika, keeping in mind the need for a large restocking in Lake Temagami due to its tremendous size.

30. STOCKING FISH:

Whereas it appears there are a large number of coarse fish in the waters in the Tamagami area; and

Whereas it is felt that coarse fish are not harmful unless out of balance with game fish as in a natural state they provide food for adult game fish, offsetting the ill effects of their spawning habits; and

Whereas the sport of angling, a necessary one for Canadian recreation, does reduce the number of game fish, creating an imbalance with the coarse fish; and

Whereas it is understood that the new hybrid species of fish called "Splake" now reproduce naturally and reach maturity in a few years.

fishing intensity is greatest. We look to our lake survey program for guidance in this matter.

Ten thousand marked yearling lake trout have been planted each year in Lake Temagami since 1962 and these fish should soon be entering the fishery. Our restocking program is flexible, and alterations will be made on the basis of factual information.

The District Office will review the lakes mentioned in this resolution.

The Temagami and District Chamber of Commerce

The splake has been selectively bred through five generations of crosses and back-crosses of brook and lake trout. This breeding is primarily designed to produce a "trout" which can reproduce in the face of low lamprey predation. We do not believe that the splake can add to a lake trout fishery such as on Lake Temagami or that distribution be made more widespread, at least until such time as more specific information is available on the potential of the fish and on the desirability of supplementing planting in water inhabited by highly prized, native game fish species.

Therefore be it resolved that, in order to create a rapid balance between game and coarse fish, the Temagami and District Chamber of Commerce ask the Department of Lands and Forests to stock as heavily as possible with splake fingerlings all the lakes in the Temagami area suitable for this species of fish.

31. LIMIT, LAKE TROUT:

Whereas the limit of lake trout per day in Lake Temagami is three; and

Whereas the limit of lake trout per day in the lakes immediately adjacent and accessible to Lake Temagami is five; and

Whereas, due to the proximity of lakes to Lake Temagami with a limit of five lake trout per day, it is not possible to enforce the limit of three trout per day in Lake Temagami.

Therefore be it resolved that the Temagami and District Chamber of Commerce ask the Department of Lands and Forests to make a uniform limit of lake trout per day in Lake Temagami and the lakes adjacent to it.

32. NAME ON THE GUN LICENCE:

Be it resolved that the name on the gun licence be printed or typed on both the Provincial licence as well as the Township licence and to be similar to the way it is shown on the car licence.

The Temagami and District Chamber of Commerce

The lake trout creel limit of three per day was established for Lake Temagami in 1960, mainly on the recommendation of the Temagami Lakes Association and local sportsmen.

The Department is at present engaged in a relatively extensive investigation of the fishery on Lake Temagami to estimate the status of the fishery and to develop appropriate changes in management as may be necessary.

At present the Department has no evidence to indicate that a reduction in the creel limit in adjacent waters is necessary biologically or is desirable from the point of view of wise utilization of the resource.

37. MOOSE AND DEER HUNTING IN TEMAGAMI AREA:

Whereas the reports of the deer population being practically wiped out are no surprise. No deer hunting camps seemed to be operating last fall on Temagami Lake. Reports of less moose in the area are common. If fish and game are going to continue being depleted in Northern Ontario, the writer feels the Government may be forced to discontinue the Fish and Wildlife Division because of lack of work.

Therefore be it resolved that the deer season in certain areas be closed for at least three years, and also that we go back to the bull moose season only.

The deer and moose open seasons for this area were set on a three-year basis to end with the 1967-68 season. Prior to the setting of the next three-year span of seasons, a full study will be made of harvest and census data to determine the most suitable seasons.

Deer hunt success has remained nearly the same since 1960 in this area, but it should be remembered that Temagami is at the extreme northern fringe of the continental (and provincial) deer range, and hence population changes would be most noticeable in such a location.

Moose inventory data obtained during this winter show the moose population to be holding up well. The largest concentrations were found in the central part of North Bay Forest District (about 30 miles south of Temagami) and in the northwestern section of the District.

owners who have spent large sums of money to develop a tourist industry, private and commercial, is beyond the comprehension of all. The government still does not realize that the only recreations possible on Temagami Lake are boating, swimming and fishing. The tourists do not have to come to Temagami Lake for boating or swimming, and, if some definite action is not taken soon, people won't come to fish because there just won't be any fish. A good number of private cottage owners are now trying to sell out. Some large commercial camps have closed and others are contemplating closing. No commercial establishment on Temagami Lake can survive very long once it is branded as "fished out". The main excuse the Department has had the past few years for continuing commercialized winter fishing on Temagami Lake has been the shot-in-the-arm to the Village of Temagami's economy. The village's main economy was kept up, not by the winter fishermen, but by the six-months tourist business from the island residents. These residents are now advocating boycotting the village business people who support ice fishing on Temagami Lake;

Whereas it is very noticeable this winter that the Village of Temagami has more business than it can handle, due, as is well known, to the new Sherman Mine. The lack of fishing effort on such waters (which is obvious on Lake Temagami as a result of our 1966 census) is not necessarily related to poor fishing, but rather to different interests of the clientele.

Excerpts from Summer Creel Census, 1966:

Fishing concentration—very light.

Greatest number of boats counted in one flight was 64 (128 anglers). This is less than one boat per square mile.

Average number of boats seen per flight was 28.

bilities, such as properties to protect and on which to pay taxes. Temagami Lake is still the only source of drinking water for several thousand summer residents. The water is in danger of pollution in the near future, due in part to the winter fishermen's garbage and sewage left on the ice. There are only two small, newly arrived commercial establishments who are pushing ice fishing, but they do not have an answer to their summer guests who complain bitterly of poor fishing. Authorities in New York State stopped winter fishing on 8-mile Lake Conesus, claiming it was detrimental to the lake's drinking water for residents in the area.

Therefore be it resolved that the new fish laws for 1968 close lake trout fishing on Temagami Lake. From October 10, 1966, to May 1, 1967, there are numerous lakes for winter fishing that would not be affected by closing Temagami Lake to ice fishing; and

Be it further resolved that the Department have available a complete creel census of 1966 fishing as well as a creel census for 1967 winter fishing to include in reply to this brief.

The situation is bad enough in the winter when the numbers are limited to minnow pails. However, during the summer months, the new method of plastic bags charged with oxygen makes it possible to bring in thousands and what are not used are dumped in the lake. The Department of Fish and Wildlife must have considered this practice a danger to inland lakes as they have a law against it.

Therefore be it resolved that more notice be taken of these offenders and efforts made to control them, or pass a law totally forbidding transfer from one body of water to another of any species of live bait.

are used for fishing. While the transfer and release of fish from one body of water to another has been prohibited for many years, achievement of this management aim requires considerable enforcement and education. To prohibit the use of live minnows as bait, except in waters from which they were originally taken, would wipe out most of the present bait fish industry in Ontario and would constitute an even more difficult enforcement problem.

The entire bait-fish industry has been under review, and adjustments in regulations were made in 1966. The emphasis has been on the artificial culture of choice bait-fish species and on distribution problems, and it is expected that any indiscriminate harvest and use of bait-fish will show a rapid decline. Conservation officers have been taking an active part by checking the facilities of commercial dealers and the activity of individual anglers. This practice will continue.

bass, walleye and lake trout. About August 20, 1966, two members of your biological department accepted our invitation for a personal test-fishing trip. These gentlemen fished for lake trout for two full days and, in spite of their knowledge of the fishing grounds and their knowledge of fishing, they did not get even one trout strike. It is possible they might have fished several more days with the same result. Too many of our tourists are experiencing the same condition. In the writer's opinion, and in the opinion of a number of other people who have been tourists on the lake for years, the game fish in Temagami Lake are fast being depleted.

Therefore be it resolved that the balance of four days' test-fishing by two members of your personnel be completed in July or August, 1967, two days for walleye and two days for black bass. Our Association's offer of all-expenses paid still stands. The results of the balance of test-fishing should substantiate the claim that these species are also on the way out.

41. NEW FISH HATCHERY:

Whereas it has been two years since the Department promised to have a new fish hatchery built at North Bay to take care of the needs of the area lakes. The writer visited the site recently to see what, if any, progress has been made. Things did not look encouraging. This hatchery has not been in operation for two years in spite of the fact that the northern lakes are in need of increased stocking. We are informed that Temagami Lake will get the usual 10,000 lake trout fingerlings in

For instance, it is also interesting to note that, while our two fisheries section anglers were fishing Lake Temagami for two days without success, two couples—two men and two women—were staying at the same resort and caught fish consistently. These couples had fished Temagami for more than ten years and knew when, where and how to fish effectively, at least in the Temagami area.

All of which probably points up one of the most difficult and complex problems in sport fish management, namely, to harvest the available crop by angling throughout the fishing season.

The old hatchery at North Bay is at present being demolished and new construction has begun. The new hatchery will more than double production of the station. Lake, brook and rainbow trout will be produced at the site.

RESOLUTIONS

1967. We had hoped this amount would be increased every year as the fishing pressure became greater. The Department of Tourism claims they are increasing the number of tourists coming to Northern Ontario. In the writer's opinion, the Department of Fish and Wildlife does not seem to be aware of the necessity of assuring the increased number of tourists of better fishing and hunting.

Therefore be it resolved that the enlarged new hatchery planned be filled to capacity with spawn of lake trout to at least 75 per cent and the balance in speckled trout; and

Be it further resolved that the Department make better efforts to get lake trout spawn for this hatchery from some of the many lakes in the Temagami area. The Department continues to claim that Temagami Lake has plenty of lake trout. We would like to have them prove it by getting eggs there.

42. COARSE FISH DISPOSAL:

Whereas claims that all the coarse fish is needed for game fish food might have been the case thirty years ago when the game fish population was large enough to take care of that problem. This is not the case today. By removing some of the suckers and white fish population, there still remain, as food for lake trout and walleye, small white fish, herring, siscoes, small suckers, lings, different types of minnows, plus all the crayfish and insects.

BY WHOM

all cases. Since 1962, all lake trout planted in Lake Temagami have been marked and, in future years, the return of marked trout in the anglers' catch will have a bearing on further management plans.

The collecting of lake trout eggs is not a simple matter. In many lakes, the spawning areas used by lake trout are not suitable for trap netting and the resultant lack of success is not necessarily an indication of the strength of the trout population.

COMMENTS

The Department supports the harvest and utilization of coarse fish wherever this is practical; for example, commercial licences have been issued for this purpose where suitable markets are available.

The Department would be prepared to consider the licensing of a commercial fishery for Lake Temagami if conditions are suitable.

Temagami Lakes
Association

Therefore be it resolved that any future netting done by the Department or others with authority be carried out with the instruction that any coarse fish caught be disposed of instead of being returned to the water.

43. CREEL CENSUS, TEMAGAMI LAKE:

Whereas our Association wishes to congratulate the Department of Fish and Wildlife for the well-organized and good fish management program instituted on Temagami Lake in 1966. This program, including the creel census, was very well received by the public who were, I understand, always willing to co-operate with the courteous census-takers. The public is also interested to see that the Department is making a great effort to get information that might help to improve the fishing on Temagami Lake.

Therefore be it resolved that the creel census be continued on the same basis in 1967. The Department can be assured of the Association's continued co-operation.

44. WALLEYE, OPEN SEASON:

Whereas the on-again, off-again open season on walleye fishing, which seems to smell of the same old story—the dollar first for the selfish few and conservation last for the majority who want to save some fish and wildlife for the future—should be settled once and for all by the Department concerned. If the claim made by some tourist operators that the walleye early open season covers part of the spawning season, and therefore they won't bite anyway, is a fact, why open the season before the proper time? Unless it enables the poachers to pick

them off the spawning grounds by any means as long as they hold a fishing pole! There was very strong evidence on Temagami Lake in 1966 that walleyes were still on their spawning beds up to June 1. Our Association goes on record as favouring the third week in May as opening season for walleyes.

Therefore be it resolved that, once the Department sets the open seasons for fish or game well in advance, it stick to its decision, proving some one is boss, and avoiding any confusion to the public and possible embarrassment to the Fish and Wildlife personnel throughout the province.

45. NETTING PROGRAM:

Whereas we suggest that removing some of the coarse fish in Temagami Lake at the proper time would go a long way in preserving the spawn of lake trout in the fall, and walleye in the spring. On Temagami Lake it is a well-known fact that suckers, coming out of streams after they have spawned the latter part of May, pass over where walleye spawn has been left a week or so before. There is no doubt as to what happens when hungry suckers pass over nice soft walleye eggs. Whitefish use the same spawning grounds as lake trout and very likely the same conditions result. Our Association still believes that our sucker-disposing activities every spring are a big step in the right direction.

Therefore be it resolved that the Department seriously consider a netting program on Temagami Lake in

November, to reduce the whitefish population during their spawning period. It was noted in the past, when the Department netted for lake trout eggs, that large numbers of suckers were also on the lake trout spawning beds. The Temagami Lake whitefish is some of the best and could be used commercially.

There are always many more small fish than large fish in a natural population under exploitation, and the best management will allow the harvest of a large proportion of the smaller ones before they are lost as a result of high, natural mortality.

56. PURCHASE OF LARGE ACREAGES OF LAND BY PRIVATE SPORTSMAN'S CLUBS FOR THE PURPOSE OF CREATING PRIVATE HUNTING AND FISHING GROUNDS:

Whereas the advertising in the small local newspapers for purchases of large acreages of land seems to be on the increase; and

Whereas the acreage required, 2,000 to 10,000 acres, would appear to affect hunting and fishing drastically in any part of this province; and

management units. The need for such technicians is well recognized, and appointments will be made on a priority basis as funds and increase in staff are permitted.

Ompah Conservation Association

As yet there does not appear to be any excessive hunting pressure exerted on black bears. The spring bear season is increasing in popularity, especially among non-resident hunters, and has boosted the economy of many communities. In the fall, bears are taken in conjunction with deer and moose hunting. The season suggested would reduce opportunities for those that are interested in this big game animal.

Ompah Conservation Association

The extension of the deer season by one week will not alter the congestion caused by the tradition of most hunters favouring the first week of the hunt. The season in Schedule 14 in 1966 was November 7-12 inclusive (one week). An extension of one week for a portion of this schedule has been proposed for 1967.

Therefore be it resolved that the Ontario Federation of Anglers and Hunters request the Department of Lands and Forests to extend the season for deer by one week from October 30, 1967, to November 18, 1967, in the areas of Frontenac, Lennox and Addington, and Hastings counties covered by Schedule 14 of the deer season regulations.

Whereas deer herds are gradually being depleted; and

Whereas there is sufficient food to support more deer in the district; and

Whereas the use of dogs attributes to a greater deer kill.

Therefore be it resolved that the Ontario Federation of Anglers and Hunters request the Department of Lands and Forests to prohibit the use of dogs for deer hunting in the areas of Frontenac, Lennox and Addington, and Hastings counties covered by Schedule 14 of the deer season regulations.

62. CHANGE OF SEASON FOR RUFFED GROUSE:

Whereas ruffed grouse are almost depleted in our district; and

Whereas the remaining few are gradually being killed off by the long season in effect.

Ompah Conservation Association

About half of the deer hunters in Ontario favour using dogs while hunting deer. Studies have shown that hunters using dogs are not significantly more successful than those who choose not to use dogs. In some cases, the use of dogs is advantageous in that wounded deer may be located more readily.

Ompah Conservation Association

There is no evidence to support the contention that hunting is solely responsible for the decrease in the grouse population. These birds exhibit cyclic fluctuations and long-term periods of extreme scarcity. Little can be done to prevent this natural phenomenon.

RESOLUTIONS

Therefore be it resolved that the Ontario Federation of Anglers and Hunters request the Department of Lands and Forests to reduce the season for ruffed grouse to two weeks only, from September 23, 1967, to October 7, 1967, in the area covered by Schedule 3 of the small game season regulations.

Whereas a number of lakes are fished very little, if any, during summer months; and

Whereas the use of snowmobiles has brought these lakes within reach of fishing during the winter season.

Therefore be it resolved that the Ontario Federation of Anglers and Hunters request the Department of Lands and Forests to extend the season for speckled and rainbow trout to open on the Saturday closest to the first of January and close on the present closing (September 30) dates in Areas 8, 14 and 15 covered by the 1966 Fishing Regulations; and

Ompah Conservation
Association

The whole question of an earlier lake, brook and rainbow trout season for southeastern Ontario is under current consideration. Included in this consideration is the objective of establishing uniform seasons for angling over the widest possible regions.

In the 1967 amendments of the Ontario Fishery Regulations, the Federal Government agreed to accept the first, second, third and last Saturdays as opening dates, so that further changes in regulations will be minimized.

Our program of hatchery renovation and modernization is progressing annually at a substantial level. Work at Normandale hatchery is just being completed while the reconstruction of the North Bay rearing station has been initiated.

Be it further resolved that the Department of Lands and Forests construct more fish hatcheries to meet present and future needs.

64. PERCH FISHING ON LAKE HURON:

Whereas tourist dollars are most important to the economy of our Province; and

Whereas the Department of Tourism and Information spends thousands of dollars to entice people to come to this Province for fishing vacations, and to obtain tourist dollars; and

Whereas fishing is a tremendous attraction and brings in these dollars; and

Whereas perch are not considered a game fish, yet provide many hours of excellent recreation, as well as food, to both the residents of the Province and American visitors; and

Whereas these fish are being depleted in the Lake Huron area, due to commercial fishermen setting their nets in the spawning beds and close to land, and also catching bass and pike in the pond nets.

Therefore be it resolved that the Association of Tourist Resorts of Ontario requests the Department of Lands and Forests to prohibit commercial fishing for perch in Lake Huron, in the following designated areas: from the mouth of the Saugeen River at Southampton, in the south, to Stokes Bay in the north, and in a westerly direction three miles from any point of land, islands included.

Association of Tourist Resorts of Ontario

During the principal angling season in this area (June 1 to September 8), gill-nets may not be set within one-half mile of shore. This restriction was placed upon gill-net licences a few years ago, at the request of anglers and others interested in angling, to prevent physical interference of nets with boating and angling activity. It was not considered to be a necessary protection of perch stocks. Perch angling throughout the Great Lakes has generally been as good or better in those areas where net fishing has been active. The removal of perch by nets, in many cases, will result in better growth of the remaining stocks. There is no evidence that protection of the stocks by a 3-mile fishing restriction would have any beneficial effect on the quality of angling. It would only further depress the economy of the community by making it more difficult for fishermen to harvest the crop of commercial fish in these waters.

The light fishing at this time of year does not cause any heavy drain on fish stocks but does permit the harvest by the hardier angler of some of the larger muskies which are relatively inactive during the heat of mid-summer.</p>

67. STOCKING OF LAKE OF BAYS:

Whereas fishing is one of prime interest for vacationers; and

Whereas the Muskoka Lakes and especially the Lake of Bays area do not have any pike or pickerel fishing; and

Whereas it would be advantageous to the tourist industry to have even moderate fishing on these lakes.

Therefore be it resolved that the Association of Tourist Resorts of Ontario request the Department of Lands and Forests to initiate a program of stocking the Lake of Bays with pike and pickerel. It is suggested that, to start pike production, the Department could net several pairs of spawning pike from a northern lake, or near-northern lake, dump them into a container and fly them down to the Lake of Bays and deposit them in shallow water, along with any spawn that they might throw while in transit. In six years they would have adult stock. With regard to pickerel, it is quite simple to strip the eggs and milt from them. We realize that they are carnivorous and that the eggs must be planted while in the eyed-egg stage. Would it not be feasible to deposit 24 adult pickerel in the Lake of Bays and let nature take its course, or to deposit eyed-eggs?

68. PERCH LIMIT:

Whereas fishermen, tourists, tourist operators, and residents in general who enjoy occasional outings on Lake Huron and Georgian Bay are becoming increasingly alarmed at the scarcity of perch in these waters; and

Association of Tourist Resorts of Ontario

There is some interest in the establishment of walleye in a good lake trout lake. The current policy of the Department has been to prohibit such introductions, on the basis that our lake trout are a highly prized, unique resource in North America, and the introduction of walleye threatens their well-being. In a number of areas of the Province, where successful introduction of walleye has been achieved, declines of lake trout have followed.

Lake of Bays and other large, deep, cold waters should be managed for the production of cold-water species. It is probable that in such waters neither walleye nor pike would contribute greatly to the summer fishery.

There is no doubt that planting adult walleye and pike, as you suggest, instead of eggs or fry is the most effective means of introducing the species.

The perch in much of Lake Huron and Georgian Bay appear to be large, old fish. This in itself seems to indicate under-exploitation, despite the fact that perch numbers appear to have declined.

The issue of hunt camp land-use permits provides for permanent-type shelter during inclement fall weather and does not imply any exclusive hunting privileges in the surrounding area. Hunting on Crown lands is not restricted to land-use permittees only

described as hunters other than those in hunt camps; i.e. those in tents, trailers or just travelling daily by car); and

Whereas according to a survey made of hunt camps in our area, there is an average distance of 1.7 miles between hunt camps. There is also an average of thirteen hunters in each camp. Our survey shows that each camp requires about fifteen hundred acres, and this figure has been used by the Department of Lands and Forests in its experimental hunting area on the southwest corner of Algonquin Park; and

Whereas in our opinion such a concentration of hunters is closely reaching the saturation point, both for hunt success as well as from a safety viewpoint. The transient hunter is a surplus that interferes with hunting by organized camps and also represents a serious hazard to safe hunting.

Therefore be it resolved that tents and trailers be classified as hunt camps during the deer season and that hunters be required to camp at least $1\frac{1}{2}$ miles from existing hunt camps, as per the Department of Lands and Forests policy regarding hunt camp site leases; and

Be it further resolved that deer licences be issued in the forestry district in which the applicant will hunt, and that the licence be so stamped and be valid only in the designated area. This at least allows a determination of the number and concentration of hunters in any given area.

but is open also to those choosing to use summer cottages, trailers and tents as their base of operations.

Although in certain local areas congestion of hunters may become a problem and better distribution of hunters is desirable, there are no legislative means to effect this without being discriminatory. In the long run, this problem should solve itself as hunters move on to less congested areas.

The proposal regarding the establishment of a quota system for licence sales would involve hardships to many hunters and create problems of control. The mechanics of devising such a system are extremely complex and could result in discriminatory action.

<p>74. MOOSE, FORESTRY AREA OF MUSKOKA-PARRY SOUND: Whereas we feel that this is a deer area and not a moose area. Therefore be it resolved that prime consideration should be given to promoting the deer population; and Be it further resolved that the moose season be left open each year.</p>	<p>Muskoka-Parry Sound Hunt Camps Association</p>	<p>It is recognized that that portion of the Province south of the French and Mattawa Rivers is more important as deer range, and primary management efforts are being directed towards deer management. Although moose are of secondary importance here and will not stand up to an annual season in this highly accessible area, they do, nevertheless, provide some excellent hunting opportunities; hence the practice has been established of having alternate-year seasons in this area.</p>
<p>75. WOLVES: Whereas there is an increase in the wolf population, particularly along the west boundary of Algonquin Park. Therefore be it resolved that the Department of Lands and Forests increase the wolf bounty from \$25.00 to \$50.00; and Be it further resolved that the Department allow trappers whose zones border on Algonquin Park to take wolves within Algonquin Park during the months of September and October.</p>	<p>Muskoka-Parry Sound Hunt Camps Association</p>	<p>Surveys and bounty information show that wolf populations in this area are not high. When and where wolf populations cause damage to livestock and wildlife, the Department will use intensive predator control directed by Department staff, since bounties, regardless of amount, are ineffective in reducing numbers of wolves. The Department foresees no need to allow trappers to operate within the boundaries of Algonquin Park.</p>
<p>76. STATUS OF PEREGRINE FALCON IN ONTARIO: Whereas the peregrine falcon (<i>falco peregrinus</i>) has become extinct over much of eastern North America;</p>	<p>Federation of Ontario Naturalists</p>	<p>No person is permitted to take the peregrine falcon in Ontario under permit or licence.</p>

and

Whereas available information indicates that this species has become extremely rare in Ontario, possibly extinct.

Therefore be it resolved that the peregrin falcon should be designated as an "endangered species" in Ontario; and

Be it further resolved that no person should be allowed to take or possess peregrine falcons, except for scientific purposes, and that no person should be allowed to import peregrine falcons into Ontario, except for scientific purposes; and

Be it further resolved that the Government of Ontario should initiate a comprehensive study of the distribution and status of the peregrine falcon in Ontario.

77. PROHIBITION OF SUMMER HUNTING LICENCE:

Whereas owing to the disturbance of nesting game birds and apparent shooting of them by unscrupulous persons.

E. P. D'Alton,
Port Colborne, Ont.

Therefore be it resolved that we, the undersigned, respectfully request the Department of Lands and Forests to allow no further issuing of varmint licences in the Townships of Humberstone and Wainfleet. In order to conserve what little game is left, we believe this measure to be a dire necessity.

Importation is not controlled but use after importation may be prohibited, which discourages importation.

No complaints on hunting in the summer months have been received by the conservation officer for these two townships, although it was requested that known occurrences of illegal hunting be reported to the local officer.

<p>78. DEER POPULATION: Whereas we have many concessions around the City of Toronto with very good deer pasture and very poor farm land; and</p> <p>Whereas New Jersey manages to have such a large deer population.</p> <p>Therefore be it resolved that the counties around Toronto carry more deer.</p>	Conrad J. Hauser	Where suitable habitat is available in the counties around Toronto, there is a good population of deer. The frequency of deer-car collisions in some areas attests to this high population. Short three-day open seasons (shotguns only, no dogs) have been declared in some of these areas where municipal authorities have concurred with the Department's proposal for such seasons.
<p>79. SUNDAY HUNTING: Whereas the newspaper writers keep harping on this theme; and</p> <p>Whereas they do not realize how miserably small the wildlife population is now.</p> <p>Therefore be it resolved that the Department of Lands and Forests keep the ban on Sunday hunting.</p>	Conrad J. Hauser	There is no evidence that the size of the wildlife population is related to a ban on Sunday hunting. It is prohibited where it is the wish of the majority of the people.
<p>80. GAME WARDENS: Whereas the Department of Lands and Forests has not enough game wardens; and</p> <p>Whereas the deputies could either be in uniform or have an armband, and they could also be paid.</p>	Conrad J. Hauser	Deputy conservation officers are supplied with a badge which <i>may</i> be worn but this is a rare practice. There are currently over 1,000 deputy conservation officers, mostly in Southern Ontario. More personnel are added as the funds become available.

Therefore let it be resolved that the Department of Lands and Forests employ more game wardens, particularly around the cities. Let them do the same as industry does and get more men.

81. HIGHER FEES FOR LICENCES:

Whereas the worker is well paid, well protected, and has a very short work week. The cost of any improvements should be out of the pocket of those using such facilities.

Therefore be it resolved that the Department of Lands and Forests raise the price for licences.

82. BIRDS OF PREY:

Whereas there are not enough owls and hawks; and

Whereas city people are extremely ignorant of nature.

Therefore be it resolved that the Department continue education of the public to encourage the appreciation of birds of prey. It could be cheap insurance.

Conrad J. Hauser

Agreed. Hawks and owls are protected by The Game and Fish Act, 1961-62.

83. INSECTICIDES:

Whereas in many of the agricultural areas of Southern Ontario the population of game birds, game animals, insectivorous and song birds has declined very noticeably; and

The Department of Lands and Forests works very closely with the agencies responsible for the control and use of insecticides.

Whereas many of these birds and animals are beneficial to the farmer, as well as to the public in general.

RESOLUTIONS

Therefore be it resolved that the Department of Lands and Forests assert itself in the control of insecticides.

84A. CONSERVATION OFFICERS:

Whereas there is a decided increase in the number of hunters and anglers in the field today, plus a large influx of American anglers and hunters in the Niagara District; and

Whereas present conservation officers have too large an area to patrol.

Therefore be it resolved that an additional conservation officer be appointed in the Niagara District.

84.B Whereas the Department of Lands and Forests in their comment to the above resolution, presented in March, 1966, has stated, "It is unlikely that funds can be made available for additional conservation officers to expand the present services."

Be it further resolved that the Department of Lands and Forests make the necessary arrangements with the Ontario Provincial Police and County Councils to have their constables instructed to enforce The Game and Fish Act, 1961-62.

85. SNARES:

Whereas numerous types of snares have been found in Lincoln County, set on runways on which rabbit, pheasant, fox and deer travel; and

Whereas there is no law against the use of snares in Lincoln County, and conservation officers cannot prosecute.

Therefore be it resolved that the use of snares of any kind be prohibited in Lincoln County.

86. FERRETS:

Whereas the sale of ferrets is being advertised in the press regularly; and

Whereas it is illegal to hunt rabbits with ferrets.

Therefore be it resolved that, for better control over the use of the ferret, all owners of ferrets be licensed by the Department of Lands and Forests similarly to the keeper of game birds or game animals.

There are legitimate uses of domesticated ferrets both in laboratories and as pets which do not come within the purview of the Department of Lands and Forests. A licence would not prevent their use in hunting, which is already prohibited.

<p>87. BACK BADGES:</p> <p>Whereas the St. Catharines and Lincoln County Game and Fish Protective Association strongly endorses the Regulated Game Reserve Area system, which controls the concentration of hunters in any one area, as most essential to good "Farmer-Sportsman Relations"; and</p> <p>Whereas, with the present system of all townships' back badges being one colour, the purpose of the Regulated Game Reserve Area is defeated, and the landowner is not receiving the protection that is needed for good "Farmer-Sportsman Relations"; and</p> <p>Whereas the back badge could be printed in four colours, yellow, orange, white, red, with black numbers. Counties bordering on each other would have a different colour, i.e.: Lincoln—red; Welland—white; Haldimand—orange; Wentworth—Yellow; Again, Essex—red; Kent—white; Lambton—orange; Elgin—yellow. The same colours could be used again in Peel, York, Ontario and Durham. The difference of the four colours in the material of the back badge should not present any great financial burden.</p> <p>Therefore be it resolved that the back badge be issued in different colours to each adjoining county.</p>	<p>St. Catharines and Lincoln County Game and Fish Protective Association</p>	<p>Conservation officers do not rely entirely on the colour of the back badge to determine if a hunter has the appropriate licence. <p>88. BACK BADGES:</p> <p>Whereas the Chairman of the Committee on National Resources, Wildlife and Mining, on March 17,</p>	<p>St. Catharines and Lincoln County Game</p>	<p>This matter is being studied by the Department's solicitor.</p>

1966, did inform the meeting that the Department of Lands and Forests had instructed their officers not to enforce the back badge, because of a technicality with the municipal by-laws; and

and Fish Protective Association

Whereas the wording on the back badge states, "This badge is furnished by the Department of Lands and Forests under The Game and Fish Act, 1961-62, and must be worn by the licensee in a conspicuous place on the back"; and

Whereas the non-resident licence to hunt pheasant, rabbit or fox in a township in the Regulated Game Preserve Area states, "This licence is valid only if the corresponding numbered back patch is worn in a conspicuous place on the back of the licensee."

Therefore be it resolved that the Department of Lands and Forests take immediate steps to clear up any technicalities with municipal by-laws and make the wearing of the back badge mandatory and that all conservation officers be instructed to enforce the wearing of the back badge.
