#### PROCLAMATION

IAN SCOTT  
*Attorney General*

**W**HEREAS it is expedient for certain causes and considerations to convene the Legislative Assembly of Our Province of Ontario **WE DO WILL THAT** you and each of you and all others in this behalf interested, on Tuesday, the twenty-fifth day of April, 1989 now next, at 3.00 o'clock p.m., at Our City of Toronto, personally be

HEREIN FAIL NOT

IN TESTIMONY WHEREOF We have caused these Our Letters to be made patent and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS:

THE HONOURABLE LINCOLN M. ALEXANDER, A Member of Our Privy Council for Canada, One of Our Counsel Learned in the Law, Bachelor of Arts,

LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

at Our City of Toronto in Our said Province this fourth day of April, in the year of Our Lord one thousand nine hundred and eighty-nine and in the thirty-eighth year of Our Reign.

BY COMMAND

RICHARD PATTEN  
*Minister of Government Services.*

3.00 P.M.

This being the first day of the Second Session of the Thirty-fourth Parliament convoked by Proclamation of the Lieutenant Governor for the despatch of business, and the members of the House having assembled:—

His Honour the Lieutenant Governor entered the Legislative Chamber and, having taken his seat on the Throne, was pleased to open the Session by making the following gracious speech:—

Speaker and Members of the Legislative Assembly:

Bienvenue à l'ouverture de la Deuxième Session de la Trente-quatrième Législature de la Province de l'Ontario.

Since taking office, my Government has charted a course for securing a better future for the people of Ontario. We will continue to be guided by our reform agenda.

This Session, my Government will address the following priorities:

1. Building on our economic strengths to ensure tomorrow's growth.
2. Investing in the future of our children by making our education system a more effective springboard to opportunity.

3. Reforming social assistance to help people move from dependence to self-reliance.
4. Keeping our communities and neighbourhoods safe and secure.
5. Promoting healthy lifestyles and preserving quality health care.
6. Providing leadership in environmental protection.

Today, my Government will outline in general terms its approach for meeting these priorities. In the days ahead, Cabinet Ministers will provide details with respect to these initiatives as well as other important areas of government policy.

To achieve many of our objectives, the Government of Canada must honour its funding commitments to joint programs. My Government is deeply disturbed by past cutbacks and the erosion of federal commitments to joint programs in areas such as Health, Environment, Post-secondary Education, Training, Housing, and Forestry.

These programs are basic to Canada's unique character. Further cutbacks in federal participation and commitment will weaken our ability to achieve economic and social priorities.

#### 1. BUILDING ON OUR ECONOMIC STRENGTHS TO ENSURE TOMORROW'S GROWTH

We must continue to have a dynamic and growing economy to preserve and enhance our quality of life.

Ontario has outpaced the industrialized world in economic expansion since 1982. Our economy has grown by 41 percent and has created 800,000 new jobs.

We cannot take this success for granted, we must continue to provide the leadership to build on our economic strengths and ensure tomorrow's growth.

The Premier's Council on Technology has presented an action plan for competing in the international marketplace. We must adjust to a global economy that is characterized by greater competition, rapid technological innovation and diffusion, explosive growth of service industries, and the emergence of new trading blocs.

My Government will provide leadership by:

- Aggressively pursuing new markets for our goods and services.
- Targeting assistance to industries that provide maximum benefits for both workers and the economy.
- Supporting the growth of Ontario-based companies as they compete in the global economy.
- Fostering an entrepreneurial culture that promotes the growth of new businesses.

Our primary emphasis will be placed on improving Education, Training and Adjustment Programs.

To invest in developing the skills of our people, my Government will:

- Support apprenticeship and other training arrangements that combine education and on-the-job training.
- Help our workers to overcome barriers to training and employment.
- Assist the re-employment efforts of workers, particularly older workers, affected by layoffs and plant closures.
- Address present and anticipated shortages of skilled workers.

Next year, 1990, will be the International Year of Literacy. The inability to read is both a human and economic tragedy, whether reflected in the eyes of a parent unable to read a bedtime story to a child, or a worker unable to pursue career advancement. My Government will act to improve the basic literacy skills of our workforce.

## 2. EDUCATION: A SPRINGBOARD TO OPPORTUNITY

A purposeful and relevant education system is the key to realizing both the economic potential of our Province and the individual potential of our people.

Our elementary schools must assist our children to develop basic learning and social skills in their early years. They must build on that foundation by setting high standards for achievement in subsequent years.

Our secondary schools must give our students the chance to acquire advanced knowledge, and provide them with bridges to post-secondary education and the world of work.

At each of these levels a sense of excellence must be instilled.

My Government is determined to improve the quality of education for our children. New initiatives will refocus our education system from kindergarten to the end of secondary school.

### THE FOUNDATION YEARS—JUNIOR AND SENIOR KINDERGARTEN

The early childhood years are the most important years for acquiring basic learning and social skills. The quality of education that our children receive in these critical foundation years will largely determine their ability to succeed at school and in later years.

My Government believes that children have the capacity to benefit from education at an earlier age. Our education system must build on their natural curiosity and their capacity for early learning.

My Government's long-term vision is to make the opportunity for full-day junior and senior kindergarten available to all four and five-year-olds.

As a first step, my Government will:

- Ensure that all school boards offer half-day junior kindergarten for four-year-olds as well as half-day senior kindergarten for five-year-olds.
- Provide funding for school boards to offer full-day senior kindergarten programs, where classroom space permits.

These two initiatives will, over the next five years, provide parents with an opportunity to place their children in a stimulating learning environment at an early age.

### THE FORMATIVE YEARS—GRADES ONE TO SIX

As students move through the school system they must continue to develop a wider range of learning and life skills.

As part of an ongoing effort to improve the standard of education, my Government has introduced a wide variety of initiatives, including a commitment to reduce class sizes in grades one and two. That initiative will be completed next year.

My Government will also:

- Revitalize the curriculum from grades one to six by focusing on the development of literacy, analytical, and communications skills.
- Place a greater emphasis on assessing student performance and providing remedial help.

### THE TRANSITION YEARS—GRADES SEVEN TO NINE

Grades seven to nine are critical years for helping students make the transition from the basic learning years in elementary school to more advanced and specialized studies in secondary school. My Government will restructure those years to ensure a smoother transition.

My Government is particularly concerned that we are requiring students to make career choices at an age when they have not yet discovered their full potential.

Therefore, my Government will:

- Ensure a core curriculum in grades seven, eight and nine that emphasizes the development of basic skills and progressive problem-solving.
- Eliminate streaming in grade nine.

### THE SPECIALIZATION YEARS—GRADES TEN TO TWELVE

Our secondary school programs must build on the foundation of acquired learning skills. They must assist students to make informed career choices, and address the broader economic needs of our Province for a highly-skilled workforce.

My Government will:

- Develop the final years of secondary school, grades 10-12, as years of specialization.
- Redesign technological education through updating and consolidating curriculum as well as renewal of teaching equipment. This will be undertaken in partnership with business, labour and our communities.

Grâce à ces mesures, nos enfants auront la possibilité d'acquérir les connaissances et compétences indispensables pour réussir sur le marché du travail ou dans leurs études postsecondaires.

We are determined to invest in the future of our children by making our school system a more effective springboard to opportunity.

### 3. SOCIAL ASSISTANCE: MOVING FROM DEPENDENCE TO SELF-RELIANCE

In 1988-89, Ontario provided \$2 billion for social assistance—an increase of more than 60 percent since 1984-85. Yet the number of people needing social assistance continues to grow.

In the midst of great wealth, many single mothers must rely upon the generosity of others to help provide for their children. Many children are unable to reap the benefits of schooling because the pangs of hunger override the thirst for knowledge.

Poverty is often the lead domino in a chain of problems that encompasses poor health, a shorter life, and lower educational achievement.

As a caring society, we cannot stand by and allow this tremendous loss of individual potential.

My Government recognizes that a new approach is needed. We must do a better job of providing all children with the possibility of a better way of life and the means of attaining it.

We must assist individuals to move from a life of dependence to a life of self-sufficiency.

We will continue to meet the needs of those who are unable to be self-sufficient. For those on social assistance who are capable of being self-reliant, we must do a better job of helping them to move into the mainstream by transforming welfare cheques into pay cheques.

Accordingly, my Government's reforms to the social assistance system will include:

- Increased payments for shelter support to persons on social assistance.
- Removal of barriers which serve as disincentives to work.

- Expansion of the network of employment counselling, referral, basic training and job preparation programs.
- increased children's benefits.

My Government recognizes that social assistance reform must be viewed as a shared responsibility. Progress in this area will require the financial support and cooperation of all levels of government and the community at large.

#### 4. SAFE AND SECURE COMMUNITIES

We all take pride in the safety of our communities. Maintaining this sense of security is critical to our Province's future well-being and development.

My Government is concerned about the recent adverse effects on the quality of life in our communities caused by drug and alcohol abuse, racial tension, and incidents of violence.

My Government will introduce a comprehensive anti-drug strategy which will consist of:

- Education and prevention programs, including anti-drug education in primary and secondary schools, and community-based programs in high-risk neighbourhoods.
- A wider range of treatment programs including employee assistance programs.
- Expansion of Ontario's drug enforcement capacity, including a strengthened OPP Drug Enforcement Unit.

My Government will undertake a number of other measures to protect the quality of life in our communities, including:

- Expanding our efforts to prevent violence against women and children.
- Providing enhanced race relations training to better equip police to respond to the diverse needs of the community they serve.
- Working with the OPP and all municipal police forces to promote racial equality in employment.
- Urging the Federal Government to effect immediate changes to the Young Offenders Act.
- Reforming our court system to provide improved access to justice.

#### 5. PROMOTING HEALTHY LIFESTYLES AND PRESERVING QUALITY HEALTH CARE

My Government believes that, as a matter of principle, every person is entitled to have access to quality health care regardless of ability to pay.

We are determined to preserve that principle despite the pressures of an aging population, the rapidly escalating cost of medical technology, and the emergence of new diseases.

In 1987, my Government established the Premier's Council on Health Strategy. The Council—which represents a partnership among business, labour, government, universities, health care professionals and consumers—is providing advice on how to better meet our future health needs.

The Council has developed a broader vision of health for Ontario. This vision recognizes that good health is dependent upon: a safe, non-violent environment; adequate income, housing, food and education; and, a person's valued role in family, work and the community.

The Council has identified five health goals:

- Shifting the emphasis from treatment after-the-fact to health promotion and disease prevention.
- Fostering strong and supportive families and communities.
- Ensuring a safe and high-quality physical environment.
- Increasing the number of years of good health for Ontarians by reducing illness, disability and premature death.
- Providing accessible, affordable, appropriate health services for all.

My Government will introduce a number of initiatives to help realize these goals, including specific measures to address specialty care needs in areas such as emergency services, cancer care, cardiovascular services, dialysis, trauma, aids and maternal and infant health.

## 6. CONTINUING LEADERSHIP IN ENVIRONMENTAL PROTECTION

A clean and safe environment is one of the cornerstones of our effort to promote better health. Ontario will continue to demonstrate leadership in environmental protection to ensure the quality of our air, water and food.

We recognize that this will require a broad effort that involves individuals, business and all levels of government. Environmental protection must be a shared responsibility.

As part of a global effort, we will encourage everyone to reduce, re-use, recycle and recover waste. In addition to preventing future environmental abuse, we will continue to restore environmentally damaged areas.

My Government will introduce measures such as:

- Requiring that vapours produced by automobile fuels, which contribute to air pollution, be reduced.
- Strict control standards to cut automobile-produced acid rain emissions by one-third by the year 2000.

- A comprehensive Ontario Waste Reduction Strategy designed to meet the target of reducing Ontario's solid waste by 50 percent by the year 2000.
- Programs to stimulate the development of pollution abatement technologies.
- A new lottery fund, "CLEANTARIO", to help finance our ongoing efforts to protect our environment.
- Programs to encourage more efficient water use and conservation by both industries and individuals.
- Educational programs to help students develop a greater sense of personal responsibility for environmental protection.

### BUILDING A BETTER FUTURE FOR OUR CHILDREN

My Government's foremost concern is to build a better future for our children.

We want to ensure that every child is nurtured in an environment that provides adequate food, clothing and shelter. We know that we must attend to those basic needs if our children are to realize their full potential.

We want our children to grow up in communities that are safe and secure—free of the fear of crime, free of physical abuse, and free of the tyranny of drug and alcohol abuse.

We want our children to grow up in a society that promotes healthy living—in its homes, in its schools, and in its places of work.

We want our children's individual efforts at living healthy lifestyles to be matched by a greater shared responsibility for our environment. We know that we must ensure that economic growth and environmental protection go hand in hand.

We want to provide our children with the basic knowledge and learning skills needed to seize the opportunities offered by the very different world of the 21st century.

Nous voulons qu'en envisageant l'avenir nos enfants aient confiance en leurs aptitudes, soient fiers de leur diversité et n'éprouvent aucune inquiétude quant à leur qualité de vie.

Ontario is a prosperous society. Our Province is a safe, clean and healthy place in which to live. We must make sure that it remains that way—for all Ontarians.

Puisse la Divine Providence vous guider dans vos délibérations.

In our Sovereign's name, I thank you.

God Bless the Queen and Canada.

The debate was resumed, and after some time,

Mr Rae (York South) moved,

That the motion be amended by adding the following thereto:—

This House, however, regrets that the Speech from the Throne simply confirms the slide of this government into the complacent drift of a huge majority, and condemns the government for:

- failing utterly to address the issue of tax justice, despite the predictably draconian tax unfairness of the federal Tory budget, while continuing its unprecedented financial squeeze on municipalities;
- ignoring the garbage crisis in Ontario, while trivializing our environmental problems with its proposed lottery;
- continuing its attack on the rights of working people through its proposed changes to workers' compensation and its broken promises on pensions;

- playing politics with social assistance, proposing much, much less than the first phase of the Thomson Report's recommendations while signalling buck-passing on the costs;
- making empty promises on education reform by failing to back up commitments with financial support.
- and leaving untouched and unmentioned an extraordinary range of issues facing the people of Ontario, including car insurance, home care, the North, housing, energy, the nursing shortage, the teacher shortage, post-secondary education, employment equity, health and safety, agriculture, and employment standards, among others.

Therefore, this House declares its lack of confidence in this government.

"In particular:

- The continued mismanagement of the provincial taxpayer's dollars and lack of planning for fiscally responsible public policies;
- The failure on the part of the government to come to grips with the serious shortage of affordable housing in the large urban centres of the Province;
- The confusion and lack of leadership demonstrated by the government with respect to automobile insurance;
- The lack of financial commitment and planning to continue the move toward increasing community based health care begun by the previous government and the failure to mention home care in particular;
- The aging of our society and the need for public policy initiatives to assist the seniors of the Province;

- The continuing practice of the government to offload its responsibilities to other levels of government. In particular their attitude toward worker training, retraining and work force management and their continued delegating of provincial responsibilities to the municipalities;
- The total absence of any acknowledgement of the vital role of resource policies for the provincial economy including agriculture, mining, forestry, tourism and, energy;
- The failure on the part of the government to present a program which recognizes and would address the problems of regional disparities of the North and the East;
- The government's willful blindness to the growing shortage of nurses, teachers and other professionals and skilled trades persons, which if they persist will threaten the viability of our economy, the competitiveness of our industries, and the quality of our public services.

And after some time, the amendment to the amendment to the motion as follows:

That the amendment to the motion for an address in reply to the Speech of His Honour the Lieutenant Governor at the opening of the Session be further amended by striking out everything after the phrase, “and leaving untouched and unmentioned an extraordinary range of issues facing the people of Ontario” and substituting the following:

“In particular:

- The continued mismanagement of the provincial taxpayer’s dollars and lack of planning for fiscally responsible public policies;
- The failure on the part of the government to come to grips with the serious shortage of affordable housing in the large urban centres of the Province;
- The confusion and lack of leadership demonstrated by the government with respect to automobile insurance;
- The lack of financial commitment and planning to continue the move toward increasing community based health care begun by the previous government and the failure to mention home care in particular;
- The aging of our society and the need for public policy initiatives to assist the seniors of the Province;
- The continuing practice of the government to offload its responsibilities to other levels of government. In particular their attitude toward worker training, retraining and work force management and their continued delegating of provincial responsibilities to the municipalities;
- The total absence of any acknowledgement of the vital role of resource policies for the provincial economy including agriculture, mining, forestry, tourism and energy;
- The failure on the part of the government to present a program which recognizes and would address the problems of regional disparities of the North and the East;
- The governments willful blindness to the growing shortages of nurses, teachers and other professionals and skilled trades persons, which if they persist will threaten the viability of our economy, the competitiveness of our industries and the quality of our public services.

Therefore, this House declares its lack of confidence in this government”.

The amendment to the motion as follows:

That the motion for an Address in Reply to the Speech of His Honour the Lieutenant Governor at the opening of the session be amended by adding the following words:

“This House, however, regrets that the Speech from the Throne simply confirms the slide of this government into the complacent drift of a huge majority and condemns the government for:

“Failing utterly to address the issue of tax justice, despite the predictably draconian tax unfairness of the federal Tory budget, while continuing its unprecedented financial squeeze on municipalities;

“Ignoring the garbage crisis in Ontario while trivializing our environmental problems with its proposed lottery;

“Continuing its attack on the rights of working people through its proposed changes to workers’ compensation and its broken promises on pensions;

“Playing politics with social assistance, proposing much, much less than the first phase of the Thomson report’s recommendations, while signalling buck-passing on the costs;

“Making empty promises on education reform by failing to back up commitments with financial support; and

“Leaving untouched and unmentioned an extraordinary range of issues facing the people of Ontario, including car insurance, home care, the north, housing, energy, the nursing shortage, the teacher shortage, post-secondary education, employment equity, health and safety, agriculture and employment standards, among others.

“Therefore, this House declares its lack of confidence in this government.”

having been put, was lost on the same vote.

Mr Laughren moved,

That the motion “that this House approves in general the Budgetary Policy of the Government” be amended by deleting the words following “that” and adding thereto the following:

This House, recognizing that the 1989 budget fails the fundamental test of tax fairness, condemns the government for:

Refusing to implement a minimum corporate income tax on profits, and instead taxing payrolls and jobs,

Failing to distribute taxes fairly with an inheritance tax or other wealth tax for the richest of our citizens,

Sheltering the banks and financial institutions from any new capital taxes,

Introducing virtually no relief for low-income families, and continuing the absurdity of taxing families that earn \$10,000 below the poverty line,

Broadening and increasing consumption taxes that hit low and middle-income people the hardest,

Ignoring the North when it comes to investment and jobs, and instead using it as a source of tax revenue,

Continuing to starve municipalities and school boards of much needed funding, while simply piggybacking on the pain of the unfair tax increases of the Wilson budget,

Failing to address adequately the needs of those on social assistance,  
Therefore, this House declares its lack of confidence in this government.

The debate continued, on the amendment to the motion,

And after some time,

On motion by Mr Johnson (Wellington),

*Ordered*, That the debate be adjourned.

PRAYERS

10.00 A.M.

Mr Black moved,

That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult.

Mr Philip (Etobicoke-Rexdale) then moved,

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Black’s Resolution Number 15, the question, having been put, was declared carried, and it was:—

PRAYERS

Mr Wiseman moved,

That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Ms Collins then moved,

That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Wiseman's Resolution Number 17, the question, having been put, was declared carried, and it was:—

## FORTY-SECOND DAY

MONDAY, JULY 17, 1989

PRAYERS

1.30 P.M.

Before "Members' Statements" the Speaker ruled as follows:—

Last Wednesday, the Honourable Member for Mississauga West, Mr Mahoney, raised a question of privilege with respect to allegations that had been made by the Honourable Leader of the Opposition in Question Period the day before. I listened carefully to the Honourable Member the other day, as well as to the Honourable Leader of the Opposition and I have read over attentively the notes used by the Honourable Member for Mississauga West when he was speaking on this point last week.

After examining the words of the Leader of the Opposition in Question Period last Tuesday, when he was asking a Supplementary Question of the Premier on the activities of the Member for Mississauga West, I find that at most there exists a disagreement between the two Honourable Members as to the facts. As for the main part of the Member for Mississauga West's presentation which deals with a Press Release issued by the Leader of the Opposition, I must find that this pertains to statements made outside the House and therefore cannot form the basis of privilege inside the House. I am certain that the Honourable Member knows what his rights are in relation to statements made outside the House.

In support of these two reasons I quote Beauchesne's 6th Edition, page 13, numbers 31 (1) and (3) which read as follows:

- "(1) A dispute arising between two Members, as to allegations of facts, does not fulfill the conditions of parliamentary privilege.
- (3) Statements made outside the House by a Member may not be used as the basis for a question of privilege".

In conclusion therefore, I cannot find a *prima facie* case of privilege.

After "Oral Questions" the Speaker delivered the following ruling:—

On Thursday last, the Opposition House Leader, Mr Cooke (Windsor-Riverside) raised a point of order with respect to Government Notice of Motion Number 6 which had been moved by the Government House Leader, Mr Conway. The motion in question is one for the allocation of time and sets out in detail the provisions which are to be made for further proceedings on Bill 162, An Act to amend the Workers' Compensation Act. The member for Windsor-Riverside cited 4 reasons for the motion being out of order. First, there is no provision in the Standing Orders for such a motion; second, the deeming provisions of the motion affecting amendments are unprecedented and amount to an abuse of the minority; third, the time allocated to the Committee of the Whole House stage is inadequate

and does not allow the opposition to adequately perform its role of holding government accountable; and fourth, it prejudices the members of the Legislature and their role in dealing with legislation. The House Leader for the Progressive Conservative Party, Mr Harris, maintained that the deeming provisions of the motion affecting amendments prejudicially affect the ability of the opposition to put forward its arguments on particular amendments and would have the effect of deeming each amendment to be in order. The members for Scarborough West, Hamilton Mountain and the Government House Leader also offered advice on matters I should consider in determining if the motion is in order.

As I stated in my ruling to the House on the 23rd of January of this year, it has been settled that a motion for the allocation of time, although it forms no part of the general procedure of the House, is a substantive motion and may be moved and debated upon proper notice being given. In this case, proper notice was given and I find the motion to be in order on this ground.

I have considered carefully the arguments of members concerning the deeming provisions of the motion which would treat amendments tabled before 6.00 p.m. of the first Sessional day in Committee of the Whole House and not yet moved by 5.45 p.m. on the second Sessional day in Committee of the Whole House as if they had been moved. I have looked at the precedents and practices of this House and other jurisdictions to assist me in determining if such a provision is in order. Since 1985, in dealing with the Estimates, it has been a common practice of the House to deem that the Estimates not yet passed by the committees and reported to the House to be passed and all Estimates not yet concurred in to be concurred in. At the House of Commons at Westminster provision has been made in time allocation motions to deem parts of a bill to stand part of the bill without question put and it is a recognized technique in legislative drafting that a bill may be deemed to have come into force on a day prior to passage through the House and Royal Assent.

Also, at the House of Commons in Ottawa, at that stage of the legislative process which they call the Report stage, which is an equivalent to our Committee of the Whole stage, it is often the case that time allocation will affect this stage in the very same way as is proposed here. In that case, sometimes a very large number of amendments will be put to the House seriatim without having been debated.

If the Chairman of the Committee of the Whole House determines that an amendment which is deemed to be moved by the provisions of the time allocation order is out of order, it is the duty of the Chairman to rule accordingly before the question is put on the amendment. The effect of the time allocation order is not to deem any amendment affected by its provisions to be in order.

I therefore find this provision in the motion to be in order.

By its very nature, an allocation of time order is a means by which debate on a matter is curtailed by allocating a specified number of days to the various stages of a bill. Such a procedure is, as stated in Erskine May's *Treatise on the Law, Privileges, Proceedings and Usage of Parliament*, 20th Edition at pages 454 to 455, "the extreme limit to which procedure goes in affirming the rights of the majority at the expense of the minorities of the House" and is "capable of being used in such a way as to upset the balance, generally so carefully preserved, between the

claims of business and the rights of debate.” In my opinion, the allocation of time order moved by the Government House Leader does not infringe the rights of the minority.

On appeal, the ruling of the Speaker was sustained on the following division:—

PRAYERS

10.00 A.M.

Mr Kormos moved,

That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug* or *listed drug product*; further, that a *drug* or *listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Cureatz then moved,

That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of

the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

PRAYERS

10.00 A.M.

Mr Villeneuve moved,

That in the opinion of this House, recognizing that the Government of Ontario has failed Ontario's agricultural sector by:

1. not providing a higher budgetary and program priority to agriculture;
2. not consulting with agricultural organizations prior to instituting major program changes;
3. having a dismal record of co-operation and consultation with the federal government;
4. providing no leadership within the government to promote alternate crop uses;
5. cancelling interest rate relief as interest rates have risen;
6. ignoring its own report concerning free trade;
7. failing to recognize in a timely manner the importance and implication of the current GATT round;
8. retreating from announced intentions to protect agricultural land; and
9. not having the policies and means to ensure a healthy agricultural industry for Ontario on the 1990's and beyond;

the Government of Ontario should: provide a program to replace OFFIRR while interest rates remain high; abandon the changes to the Farm Property Tax Rebate Program at least until after consultations take place with the farm community; take a more active role on alternate crop uses, particularly in co-ordinating with other Ministries; and establish a pre-budgetary hearing process to better set agricultural spending priorities.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Ray (Windsor-Walkerville) then moved,

That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:

1. variations in urban growth patterns in Ontario;
2. causes of this variation in urban growth patterns;
3. economic, financial, social and environmental consequences of such patterns;
4. short-range and long-range policy options available to the government and,
5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth.

#### THE AFTERNOON SITTING

1.30 P.M.

During Routine Proceedings, the Speaker delivered the following ruling:—

On Thursday last, the Honourable Member for Hastings-Peterborough, Mr Pollock, rose to bring a Question of Privilege to my attention.

The Honourable Member stated that upon receiving a complaint from a constituent about a program put forward by Ontario Hydro, he had passed on the complaint to the Minister. The matter had then been referred to Ontario Hydro by the Minister and the Chairman and President of Ontario Hydro had then answered the Honourable Member directly. Finally, that same letter appeared in two local newspapers in the "Letters to the Editor" section approximately two weeks later.

The Honourable Member is complaining that his privileges have been abused because someone in the Ministry caused those letters to be published and the name of his constituent appears in the letter, thereby having an embarrassing effect on the person who complained to the Member in the first place. As well, the Member feels this may have a restraining effect in the future upon his constituents who might fear that their names would be published in local newspapers if they seek redress from their M.P.P.

Before I rule on this matter I would like first of all to recommend to members that in the future, as has been our practice, they give the Speaker at least one hour's notice of a proposed Question of Privilege, unless the matter that is being complained about is something that arises out of the Proceedings of the House and in that case, the Question of Privilege shall be presented immediately. Also, it is incumbent on Members to present their case fully to the Speaker in the Chamber and it is not satisfactory to present written submissions. The reason for this is to give other Members the chance to participate if that is their wish.

As far as the case presented to the House by the Honourable Member last Thursday is concerned, I well understand the Member's concerns. In his presentation he quoted Erskine May's Twentieth Edition at page 167 as follows:

“. . . the special position of a person providing information to a Member for the exercise of his parliamentary duties has been regarded by the courts as enjoying qualified privilege at law.”

What the Honourable Member forgot to quote was the beginning of the sentence which reads as follows:

“But while it appears unlikely that any question of an actual or constructive breach of parliamentary privilege could arise in these cases . . .”

This full quotation implies two things. Firstly, that the breach complained about does not constitute a question of privilege and secondly, that the relationship between a member and his or her constituent is a special one to the point where members in a court of law have been able to use the defence that their communication with constituents was privileged.

In the present case, I cannot identify who gave the letters to the newspapers and have no intention of pursuing the matter, but I do want to emphasize the dual responsibility made clear by this case. First, the Public Service should treat matters dealing with constituents with the utmost discretion. Second, it might be useful if members ascertained from their constituents whether or not they wish the matter to remain confidential.

In order to emphasize this I would like to quote the Right Honourable Winston Churchill from March 9, 1954 in Westminster who said:

“The matter cannot be dealt with by a general rule against disclosure. But clearly Departments must exercise great discretion as to the circumstances in which disclosure is appropriate; and a reminder is being issued to Departments in this sense.

If I might make a practical suggestion, Honourable Members might also consider on occasion asking their correspondent, in the case of a letter on which they are contemplating an inquiry from the Government, whether he is willing that it should be disclosed to a wider circle.”

Therefore, I thank the Honourable Member for bringing this matter to the attention of the House but I must find that there is no *prima facie* case of privilege.

and, its attempts to blame individual doctors and health care professionals for the problems in the health care system.

EIGHTY-FIRST DAY  
THURSDAY, DECEMBER 7, 1989

---

PRAYERS

10.00 A.M.

Mr Henderson moved,

That in the opinion of this House, recognizing that the best interests of the child can be fulfilled by ensuring the child's access to love and emotional nurturance of each caring parent, and recognizing that a mother and a father are likelier to participate more fully in the growth and emotional development of their child through a nurturing parent-child relationship when child care and child nurturing responsibilities are shared with another caring adult, and recognizing that children benefit from a caring relationship with grandparents who bring a wealth of life experience to a nurturant relationship with a grandchild, and recognizing that society at large can benefit from the creative energies of mothers, fathers and children who are facilitated in their pursuit of vocational, academic, recreational and social opportunities and who are freed from the painful and demoralizing personal struggles that occur when matters of child custody and access are determined through adversarial process. Every effort should be made to foster mediative rather than adversarial process to resolve disputes about custody and access, and every administrative effort should be made to bring together services designed to facilitate the cooperative mediation and resolution of custody and access disputes as a preferable alternative to adversarial court process, and efforts should be made, after family dissolution, to allow a child to have a frequent and continued nurturing and care-taking relationship with each parent unless the court determines that such a relationship with a particular parent will have a destructive influence on a particular child's healthy development and sense of well-being.

And a debate arising, at 11.04 a.m., further proceedings were reserved until 12.00 noon.

Mr Pouliot then moved,

That in the opinion of this House, recognizing that health care is totally inadequate for Ontario's First Nations People, and recognizing that aboriginal people's requests for improvements are often not met because of jurisdictional disputes between the federal and provincial governments and further recognizing that Ontario's indigenous peoples want some control over the provision and delivery of their health care, the Government of Ontario should immediately take whatever measures necessary to ensure that:

the level of health care services to Ontario's First Nations is at the same level as other Ontarians;

the jurisdictional disputes between the federal and provincial levels of government are reduced and eventually eliminated; and

a process of giving control over the provision and delivery of health care services to the First Nations is developed and implemented.

Pursuant to Standing Order 94(e), no objection having been made to the putting of the question on Mr Henderson's Resolution Number 34, the question, having been put, was declared lost.

Pursuant to Standing Order 94(e), no objection having been made to the putting of the question on Mr Pouliot's Resolution Number 33, the question, having been put, was declared carried and it was:—

*Ordered*, That in the opinion of this House, recognizing that health care is totally inadequate for Ontario's First Nations People, and recognizing that aboriginal people's requests for improvements are often not met because of jurisdictional disputes between the federal and provincial governments and further recognizing that Ontario's indigenous peoples want some control over the provision and delivery of their health care, the Government of Ontario should immediately take whatever measures necessary to ensure that:

---

Mrs Grier moved,

Recognizing that Ontario faces a serious crisis in disposing of garbage; and that the government has stated that its goal is to divert 25% of municipal solid waste from landfills by 1992 and 50% by 2000; and that the government has so far failed to establish policies which would enable these targets to be met; and that by regulating the control of ozone-depleting substances Ontario has shown a willingness to act in advance of federal initiatives; the Government of Ontario should:

- (i) adopt waste reduction at source as the overriding first priority of the "3 Rs" garbage strategy (first reduce, then re-use, lastly recycle);
- (ii) establish a Waste Reduction Office with a statutory mandate to achieve a 50% reduction of solid waste within the next decade;
- (iii) legislate mandatory waste reduction programs for municipalities;
- (iv) legislate mandatory source separation for all waste generators and for all types of waste for which reduction, re-use and recycling opportunities exist;
- (v) pass regulations to prevent the disposal of materials and products for which waste reduction alternatives exist;
- (vi) phase out containers and packaging products that cannot be diverted from the waste stream;
- (vii) establish warranty conditions to extend product life;
- (viii) use financial incentives and disincentives such as a graduated waste management surcharge system to favour reduction and re-use of products; and

- (ix) introduce the needed legislation and establish the required policies at the opening of the March 1990 session of the Legislature, without waiting for a report on new federal packaging legislation expected later in 1990.

And a debate arising, after some time, the motion, having been put, was carried on the following division:—

## THE AFTERNOON SITTING

1.30 P.M.

The Speaker ruled as follows:—

On Monday of this week, the Honourable Member for Scarborough West, Mr. Johnston, brought to the attention of the House what he perceived to be a question of privilege affecting the Legislature as a whole. He maintained that disrespect had been shown this Chamber by public servants acting in a way that disregarded amendments made to a bill before it became law. That is to say, the public servants had prepared their action on the basis of the original bill and not on the basis of its amended form. Furthermore, the Member objected to the fact that public servants were acting upon legislation before it had passed all the steps in the legislative process.

I have studied the representations made to me in the House on Monday, and after having considered them carefully, I must come to the conclusion that what we are dealing with here is an administrative error and not a contempt for this Chamber. It is perfectly valid for the Public Service to proceed with plans based on a bill that is already in the system in order to be able to act swiftly, once that bill becomes law. It goes without saying that if the bill is amended during the legislative process, then the Public Service must take note and act accordingly. In the case before us I am satisfied that the Public Service has indeed now taken note of the amendment that concerns us and has corrected any administrative error that might have flowed from this oversight. Therefore, I cannot find a *prima facie* case of privilege as there seems to be no evidence of contempt. However, I do thank the member for bringing this to my attention.

---

On motion by Mr Ward,

*Ordered*, That committees may meet as required following Routine Proceedings this afternoon.

---

---

That the motion “that this House approves in general the Budgetary Policy of the Government” be amended by deleting the words following “that” and adding thereto the following:

This House, recognizing that the 1989 budget fails the fundamental test of tax fairness, condemns the government for:

Refusing to implement a minimum corporate income tax on profits, and instead taxing payrolls and jobs,

Failing to distribute taxes fairly with an inheritance tax or other wealth tax for the richest of our citizens,

Sheltering the banks and financial institutions from any new capital taxes,

Introducing virtually no relief for low-income families, and continuing the absurdity of taxing families that earn \$10,000 below the poverty line,

Broadening and increasing consumption taxes that hit low and middle-income people the hardest,

Ignoring the North when it comes to investment and jobs, and instead using it as a source of tax revenue,

Continuing to starve municipalities and school boards of much needed funding, while simply piggybacking on the pain of the unfair tax increases of the Wilson budget,

Failing to address adequately the needs of those on social assistance,

Therefore, this House declares its lack of confidence in this government.”

NINETIETH DAY  
TUESDAY, MARCH 20, 1990

PRAYERS

2.00 P.M.

The Speaker ruled as follows:—

On December 18, 1989, the member for Markham, Mr. Cousens, raised a question of privilege dealing with matters that had arisen in a Committee of the Whole on December 13 last.

As I listened to the Honourable Member for Markham present his question of privilege, I had some initial difficulty with its appropriateness, but he did impress upon me the seriousness of his concerns and having undertaken to study the matter, I am now ready to report back to the House.

I will state right off that I cannot find a *Prima Facie* case of privilege in this matter, however, I feel it is important that I put on the record, certain comments regarding the general process and procedure that should be followed in cases similar to that raised by the Honourable Member. The Standing Order in question—98 (a) and (b)—is new to our procedure and it is therefore important to explain its meaning clearly to Members.

The member alleged that the Chair of the Committee of the Whole had acted improperly on that date, in that he had not recognized him while he was seeking the floor and had ignored the member's pleas to be heard on the question. I must make it quite clear that I have made no attempt to look into the record of what exactly happened in the committee, and therefore, I am not rendering any judgement upon the conduct of the Chair of the Committee. What I will attempt to do, is to put to the House, the procedure which should be followed by a committee chair in those circumstances as well as the procedure that should be followed by a member of the committee who is dissatisfied with the decision of the Chair in a Committee of the Whole.

To start with, it is the duty of the Chair of the Committee of the Whole to ensure that every member who wants to express his or her opinion on a question then before the committee, should be given every chance to do so. On the other hand, it is the duty of every member participating in the work of the Committee to try not to be repetitive in his or her arguments so as to hinder the normal work of the committee. It is also the duty of the Chair when putting a question, to do so in a manner which ensures that the voicing of the various opinions from the floor can be easily distinguished and that every member has a chance to express his or her opinion—Aye or Nay—to the question being put. In no circumstances must haste dictate the conduct of the Committee or the Chair.

It is a well-accepted rule of British Parliamentary tradition, not only exercised in Ontario but in most other countries in the Commonwealth, that members who want to question the appropriateness of a proceeding before a committee of the House, should do so directly with the Chair of that Committee and not to the Speaker of the House. The reason for this is that the committee is master of its own proceedings and is equipped to deal with any controversy that might arise from the proceedings. While it is true that our Standing Orders permit an appeal of a Chair's decision to the Speaker of the House, whose decision is then final, the only way in which a Speaker would accept such an appeal for consideration, would be if it were couched in the context of a report to the House, by the Chair stating that his ruling was being appealed.

I must therefore, at this time, attempt to clear up the application of our Standing Order 98. In order for the Speaker to be seized of an appeal flowing from Standing Order 98(a) and (b), the following should have taken place previously. Firstly, there has to have been a question raised officially by the Member with the Chair. Secondly, there has to have been a ruling made by the Chair. Thirdly, there has to have been a request to the Chair by the Member that his or her ruling be appealed to the Speaker and in presenting this request, the Member should be precise in his or her reasons for the appeal. Fourthly, the Chair will automatically adjourn the Committee and report the matter to the Speaker who will either decide immediately or take the matter under advisement. Finally, the Chair will resume his duties and the Committee of the Whole will continue its work.

This, in my opinion has to be the correct interpretation put upon Standing Order 98 in that it is extremely important to preserve the principle that what happens in a Committee must be decided by the Committee and only through the Chair of the Committee is the House to be apprised of the Committee's proceedings and decisions. It is not, therefore, permissible for a Member to appeal a Chair's decision directly to the Speaker. A Member wishing to appeal must do it by way of the Chair reporting the matter to the Speaker immediately.

I thank the Honourable Member for Markham for bringing this matter to the Chair's attention because it has provided me with the opportunity to study this new Standing Order and clear up any misunderstandings that might have existed as to its proper application. I have also attempted to describe generally the appropriate conduct of the Chair of the Committee in the application of its duties.

I repeat that I cannot find a *prima facie* question of privilege here as this is a matter that might better have been raised under the terms of a point of order. Finally, as to the Member's complaint about the conduct of the Chair of the Committee of the Whole on that day, I can only refer him to Beauchesne's 6th Edition at page 251 where Sir John Bourinot is quoted as follows:—

“If a Member wishes at any time to call in question the conduct of the Chairman, the proper course is to give notice of a motion to that effect.”

PRAYERS

1.30 P.M.

The Speaker ruled as follows:—

Yesterday, the Honourable Member for Leeds-Grenville, Mr. Runciman, raised a question of privilege of which he had given me notice. After listening to the Honourable Member I advised him that initially I had certain doubts as to the appropriateness of his question of privilege but I did undertake to look at it and report back today.

On studying his presentation carefully, I must advise that I can find no prima facie case of privilege in this matter and in doing so I must refer to my ruling of yesterday. That is to say that I am not now making a decision based on the arguments of the Honourable Member as presented in this House yesterday but rather I am making a ruling on the basis of procedure.

As I said yesterday, matters arising out of proceedings before committees should be settled in the committee and only if a report comes forward from the standing committee to the House, dealing with the member's question of privilege, could this matter be studied by the Speaker.

Let me therefore, refer the Honourable Member to Standing Order 118(a) (b) (c) and (d) which sets out the appropriate procedure as well as quotation 822 of Beauchesne's 6th Edition which can be found at page 232 and I quote:

“Procedural difficulties which arise in committees ought to be settled in the committee and not in the House.”

On motion by Mr Offer,

*Ordered*, That, notwithstanding Standing Order 94(h), the requirement for notice be waived with respect to Ballot Item number 40.

---

Pursuant to Standing Order 35(b), the following Petition was presented:—

Bill Pr44, An Act respecting the Royal Canadian Legion. *Mrs Sullivan*.

Bill Pr58, An Act to revive Gursikh Sabha Canada. *Mr Curling*.

Bill Pr61, An Act to incorporate The City of Chatham Foundation. *Mr Bossy*.

---

On motion by Mr Johnston (Scarborough West),

*Ordered*, That the Order for Second Reading of Bill 83, An Act to amend the Education Act, be discharged and the Bill withdrawn.

---

In the absence of Mrs Grier, Mr Kormos moved, pursuant to Standing Order 42(a),

That this House deplores the government's failure to safeguard and improve the quality of the Ontario environment in general; and that in particular, this House deplores the government's failure to use powers available to it under existing legislation to prevent the recent massive dangerous and toxic fire at Tyre King Tyre Recycling Limited near Hagersville, powers which would have protected the health of people and the environment in the Hagersville area, and more generally

in southwestern Ontario; and the Minister failed to pursue fully the remedial measures outlined in his Order to Tyre King Tyre Recycling Ltd. of January 22, 1987; and for all these reasons, the House no longer has confidence in this government.

And a debate arising, after some time, the motion having been put, was lost on the following division:—

## NINETY-SEVENTH DAY

MONDAY, APRIL 2, 1990

---

PRAYERS

1.30 P.M.

The Speaker addressed the House as follows:—

I beg to inform the House, I have today laid upon the Table the First Annual Report of the Commission on Conflict of Interest for the period September 1, 1988 to December 31, 1989 (*Sessional Paper No. 314*).

---

---

The following Bill was introduced and read the first time:—

Bill 128, An Act respecting Flag Day. *Mr Wildman*.

---

Mr Brandt moved,

That, in the opinion of this House, while re-affirming its support for the provision of French language services where numbers warrant, while confirming that the *French Language Services Act, 1986* was not intended to apply to municipalities, recognizes the elevated tensions and misunderstandings which have developed over language issues throughout this Province, and therefore calls upon the Government of Ontario to establish, as soon as possible, an all-Party Committee of the Legislature to travel across the Province to receive public input on the administrative guidelines, regulations, and implementation of the *French Language Services Act, 1986* (Bill 8).

Que, de l'avis de cette Chambre, l'Assemblée législative réaffirme son appui à la prestation des services en français là où le nombre le justifie et confirme que la

*Loi de 1986 sur les services en français* ne vise pas les municipalités. Elle reconnaît, par contre, que la question de la langue est à la source de graves tensions et malentendus dans notre province. Par conséquent, l'Assemblée législative demande au gouvernement de l'Ontario de former dans les plus brefs délais un comité mixte de l'Assemblée législative pour sonder l'opinion publique à l'échelle de la province au sujet des directives administratives, des règlements et de l'application de la *Loi de 1986 sur les services en français* (projet de loi 8).

And a debate arising, after some time, the motion, having been put, was lost on the following division:—

PRAYERS

10.00 A.M.

Mr Wildman moved,

That, in the opinion of this House, recognizing that difficult financial and trade pressures threaten the viability of Ontario agriculture in 1990 and recognizing that the provincial government must make a significant financial commitment to the preservation, expansion and prosperity of family farming in Ontario in the forthcoming spring Budget and recognizing that farmers' economic success in the 1990s will largely depend upon their ability to access and manage required capital resources and recognizing that Ontario farmers experiencing financial hardship would benefit from provincial government financial guarantees designed to encourage lending institutions to engage in mediation rather than foreclosures the Ontario government should re-introduce, this year, a program of interest rate assistance (similar to the OFFIRR program) with sufficient funding and of adequate duration to bring about meaningful farm interest rate reduction in this province and, further, that the Ontario government should enact legislation similar to Manitoba's *Family Farm Protection Act* to assist farmers facing foreclosures by enabling them to renegotiate manageable credit terms.

A debate arising at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Brandt then moved,

That, in the opinion of this House, recognizing the increased incidence of behavioural problems and violence in schools, and recognizing that children in Ontario currently do not have a right to mental health treatment and, recognizing that there are 10,000 children presently waiting for treatment in Children's Mental Health Centres and, recognizing that there is a lack of legislation in Ontario which specifically governs mental health services for children, the present government should make the provision of children's mental health services a government priority and take immediate action to ensure that all children in Ontario are provided the mental health services which they require and deserve.

Pursuant to Standing Order 94(e), no objection having been made to the putting of the question of Mr Wildman's Resolution Number 46, the question having been put, was declared carried, and it was,

## ONE HUNDRED AND FIFTH DAY

TUESDAY, APRIL 17, 1990

---

PRAYERS

1.30 P.M.

The Speaker ruled as follows:

On Tuesday, April 10, 1990, the Honourable Chris Ward, the Government House Leader, on the calling of "Motions" during Routine Proceedings, rose to move the following motion: "That this House do pass to the Orders of the Day". Immediately following this, arguments were heard by the Deputy Speaker, from the House Leaders of the two Opposition Parties as to the procedural acceptability of this motion.

The Deputy Speaker, after hearing all arguments undertook to review the matter and report back to the House. The following day, all three House Leaders arguing that this was a totally new procedure in the Ontario Legislature, gave further arguments for and against the appropriateness of this motion. The Deputy Speaker then again reserved his decision. I have had a chance to review all of the comments made and I thank the Honourable Members for bringing this to the attention of the House. I would also like to thank the Deputy Speaker who waited until I had returned to the House in order that I could also contribute to this decision.

In considering the arguments before me, I have arrived at the conclusion that this matter must meet three criteria. The first one is whether or not there is an

applicable Standing Order in this case. After studying the matter I have determined that there is not. Therefore, Standing Order 1(b) can be applied. The second consideration is whether this is a legitimate procedural motion in Parliamentary tradition. In trying to arrive at a conclusion on this point, I have studied intensely the application of this rule in Ottawa, at the House of Commons and at Westminster. The motion is in great use in Ottawa. Its Standing Order is as follows:

“Standing Order 59. A motion for reading the Orders of the Day shall have preference to any motion before the House”.

That rule has always been in Ottawa’s Standing Orders and it is routinely used for the purpose of stopping a proceeding and moving on to the Orders of the Day. The following quote from *Beauchesne’s Parliamentary Rules and Forms*, Second Edition, 1927 at page 70, probably gives the best description of this rule:

“235. This motion cannot be debated nor amended. If it is resolved in the affirmative, the original motion is superseded and the House must proceed at once to the orders of the day.

236. The motion for reading the Orders of the Day is more particularly one that is taken up on routine proceedings.”

At Westminster, the application of this motion has nearly disappeared because a general time limit has now been set on the whole of Routine Proceedings before Orders of the Day. In conclusion of this criteria and more precisely on the application of the rule as we know it in Ottawa, I am satisfied that I can conclude that this is a legitimate procedural motion in use today.

The third criteria is whether this legitimate procedural motion can be applied to our procedures at the Legislative Assembly of Ontario. Again, during my research on this ruling and also during the arguments by the Honourable Members, it has come to my attention that this Standing Order in effect did exist at the Legislative Assembly of Ontario for over one hundred years in exactly the same terms. For example, Standing Order 29 in 1970 read as follows:

“A motion for reading the Orders of the Day shall have preference of any motion before the House”.

This rule was removed from the Standing Orders in 1978. In researching why it had been abandoned I have satisfied myself that it was mainly because it had never been used. I must conclude therefore, that this legitimate procedural motion did and can fit into the context of the Legislative Assembly’s procedures. In conclusion therefor, I must find that the motion put by the Honourable House Leader the other day, was in order but because it has never been used before in this place, I would like to set out for Honourable Members, an exact description of what this motion is, who can move it and at what time.

The motion that this House proceed to the Orders of the Day is a tactical motion. It is a procedural motion. It is a dilatory motion. It is not a routine motion. It falls into the same category as Motions to Adjourn the House and to Adjourn the Debate. These dilatory motions have characteristics. They can be

moved at any time, by any member who legitimately has the floor. As an example of how this works, members will have noticed that the other day the Member for Simcoe West, moved the Adjournment of the House after being recognized in the period reserved for the Introduction of Bills. That was perfectly in order. The same is true for the motion to proceed to Orders of the Day. Furthermore, because our Standing Orders already put a restriction on a dilatory motion, the one to Adjourn the Debate and the other to Adjourn the House, in saying that they cannot be moved until after the end of Question Period, the same rule should apply to the Motion "to proceed to the Orders of the Day". This motion therefore, is in order when moved after Question Period but before reaching Orders of the Day. The question is put immediately by the Speaker, the bells if necessary, will ring for a maximum of thirty minutes and a head count of members present will then take place. It should also be noted that the vote on this type of motion cannot be deferred.

In summary therefore, the motion as moved by the Honorable House Leader is in order. It can be moved by any member of the House who legitimately has the floor. It is non-debatable and non-amendable and the effect of it being carried, results in the calling of the Orders of the Day and the end of the proceeding which was in process when it was moved. I wish to thank all Honourable members who have contributed to this debate.

---

On motion by Mr Ward,

*Ordered*, That, notwithstanding any previous Order of the House, Mr Rae (York South) and Ms Bryden exchange places in the order of precedence for private members' business; that the order of precedence for private members' business be further amended by deleting Ballot Item number 44 in the name of Mr Reville; and that, notwithstanding Standing Orders 8(a) and 94(b), the House shall meet at 11.00 a.m. on Thursday, April 19, 1990 to consider one item of private members' business.

## ONE HUNDRED AND EIGHTH DAY

MONDAY, APRIL 23, 1990

---

PRAYERS

1.30 P.M.

The Speaker ruled as follows:—

On April 9, 1990, the member for Parry Sound rose on a point of order concerning the implications on the powers of the Legislative Assembly and its committees of the decision by the Supreme Court of Canada in the matter of *Starr et al. v. Houlden et al.* In particular, the member asked the Speaker to do the following:

1. With the assistance of the Table, seek the legal advice of three independent constitutional experts on the impact of last Thursday's Supreme Court decision on the powers of the Legislative Assembly and of committees of this Legislature.
2. Review the scope and powers of legislative committees to call witnesses and ask questions of witnesses, giving particular regard to the *Charter of Rights and Freedoms*.
3. Review the scopes and powers of the Legislature of Ontario to establish committees and refer matters to committees of the Legislature for study and review.

Members will know that matters raised in the point of order touch on section 92 of the *Constitution Act, 1867*, various sections of the *Charter of Rights and Freedoms*, sections 36, 52, 58 and 59 of the *Legislative Assembly Act*, and Standing Orders 105, 106, 107 and 123.

After considerable research and reflection, I must advise the House that I am unable to assess the procedures of the House and its committees in light of the decision of the Supreme Court of Canada. Speakers in this Parliament and other parliaments throughout the Commonwealth have consistently held the view that the Speaker will not give a decision upon a constitutional question or decide a question of law; nor will the Speaker give a decision on a hypothetical question.

While I am without jurisdiction to deal with the point of order raised by the member for Parry Sound, there is a forum where the concerns of the member may be considered. The House has authorized the Standing Committee on the Legislative Assembly to review the Standing Order and procedures in the House and its

committees. Indeed, the Committee's predecessor committees have considered a number of the matters raised by the member for Parry Sound.

In 1980, the Standing Committee on Procedural Affairs presented a *Report on Witnesses Before Committees* which reviewed the status of witnesses before legislative committees. On the recommendation of the Committee, the Attorney General referred the subject of witnesses before legislative committees to the Ontario Law Reform Commission. The Commission's *Report on Witnesses before Legislative Committees* was tabled in the House in 1981 and was considered by the standing Committee on Procedural Affairs in 1982. On December 9, 1982, the Committee presented to the House a *Report on Standing Orders and Procedure (No. 1)* which dealt in part with witnesses before legislative committees. No action was taken by the House on the Committee's recommendations.

The Standing Committee on the Legislative Assembly may wish to give the matters raised by the member for Parry Sound further consideration. The Committee has the power to retain expert staff, subject to the approval of the Board of Internal Economy, to assist it in undertaking any further review.

I thank the honourable member for bringing these very important questions to the attention of the House.

## ONE HUNDRED AND TENTH DAY

WEDNESDAY, APRIL 25, 1990

---

PRAYERS

1.30 P.M.

Debate was resumed on the Motion that this House approves in general the Budgetary Policy of the Government,

And, after some time,

Mr Laughren moved, That the resolution moved by the Treasurer on Tuesday, April 24, 1990 "that this House approves in general the Budgetary Policy of the Government" be amended by deleting all of the words following "that" and adding thereto the following:

This House, recognizing that the 1990 budget fails the fundamental challenges of tax fairness and responding to the needs of people in Ontario, condemns the government for:

- refusing to take the opportunity to make real progress on tax fairness, including implementing a minimum corporate tax and a tax on wealth;
- giving away more tax dollars to corporations, while exploiting the Federal Conservative government's regressive GST and increasing the tax burden on consumers by charging the provincial sales tax on top of the GST;
- ignoring the North, and continuing to use it as a source of general revenue while refusing to invest in community protection and economic diversification, including highways;
- retreating from vital reforms in social assistance advocated by its own Social Assistance Review Committee, thereby condemning thousands of people, including children, to a life of poverty and want;

- failing to even mention housing in the budget speech, thereby revealing its lack of commitment to affordable housing, including co-operative and other non-profit shelter;
- caving in to developers yet again by taking responsibility for water and sewers away from the environment ministry, and giving development priority over the environment;
- while acknowledging impending slowdowns in construction and increases in unemployment, failing to respond in any meaningful way to the shutdowns and layoffs that are occurring across the industrial base of Ontario;

Therefore, this House declares its lack of confidence in this government.

Bill Pr70, An Act respecting the Human Resources Professionals Association of Ontario. *Mrs Cunningham.*

With unanimous consent, Mr Allen moved, in the absence of Mr Rae (York South),

That, in the opinion of this House, the Legislative Assembly of Ontario recognizes and affirms that:

— this House supports the French Language Services Act;

— in the context of our shared belief that linguistic duality is a fundamental characteristic of our country, takes pride in the fact that access for the French-speaking minority in Ontario to the courts, education, public broadcasting, proceedings of the Legislature and provincial services in designated areas has been a shared commitment of different political parties and governments over many years;

- the French Language Services Act applies only to the provision of provincial government services to members of the public, and can be achieved without diminishing services for the English-speaking majority;
- the decision of a municipality to provide municipal services in both English and French is entirely voluntary, and
- through public hearings after the spring session, the Select Committee on the Constitution should in its work seek the views of Ontarians and others on matters relating to the relationship between English-speaking and French-speaking Canadians in Ontario, including services and education.

Que, de l'avis de cette Chambre, l'Assemblée législative reconnaît et affirme que :

- elle appuie la Loi sur les services en français;
- témoignant de notre conviction commune à l'effet que la dualité linguistique constitue une caractéristique fondamentale de notre pays, se félicite de ce que la minorité francophone ait accès à des services en français devant les tribunaux, dans les écoles, au niveau de la radiodiffusion publique, au sein de l'Assemblée législative et à d'autres services provinciaux dans les régions désignées ce qui a traduit l'engagement des trois partis politiques et des différents gouvernements au cours des ans;
- la Loi sur les services en français ne s'applique qu'aux services offerts par le gouvernement au public et ne diminue en rien les services offerts à la majorité anglophone;
- qu'aucune municipalité n'est tenue de fournir des services municipaux en anglais et en français à moins d'une décision prise par ladite municipalité et;
- lors de ses audiences publiques qu'il tiendra après la session parlementaire du printemps, le Comité spécial sur la Constitution devrait inviter les Ontariennes et les Ontariens ainsi que les autres intéressés à venir exprimer leurs opinions sur les questions touchant les relations entre anglophones et francophones en Ontario, y compris dans le domaine des services et de l'éducation.

## ONE HUNDRED AND TWENTY-THIRD DAY

MONDAY, MAY 28, 1990

---

PRAYERS

1.30 P.M.

The Deputy Speaker delivered the following ruling:—

On Monday, April 23, 1990, the member for Ottawa West raised a point of order as to whether the participation of the member for Welland-Thorold in the debate on government notice of motion number 30 constituted such an abuse of the privileges of members that the Speaker would intervene and call upon another member to speak.

In his argument, the honourable member raised the privilege of freedom of speech and made reference to citation 77 in the 6th edition of *Beauchesne's Rules & Forms of the House of Commons of Canada* which states that “[f]reedom of speech does not mean that Members have an unlimited or unrestrained right to speak on every issue. The rules of the House impose limits on the participation of Members and it is the duty of the Speaker to restrain those who abuse the rules.”

First, let me say that the privilege of freedom of speech is the most important privilege of members. Section 37 of the *Legislative Assembly Act* provides that “a

member of the Assembly is not liable to any civil action or prosecution, arrest, imprisonment or damages, by reason of any matter or thing brought by him by petition, bill, resolution, motion or otherwise, or said by him before the Assembly or a committee thereof." However, while a member enjoys this immunity necessary to perform his or her parliamentary work, the privilege of freedom of speech is subject to the power of the House to regulate its own internal proceedings by establishing rules of procedure or Standing Orders.

The statement in *Beauchesne* cited by the honourable member is accurate as far as it concerns the House of Commons of Canada. The rules of that legislature specifically provide for time limits on most speeches in the House and its committees and, therefore, do not permit "an unlimited or unrestrained right to speak". The situation is different in Ontario. Except in very limited circumstances, our Standing Orders do not impose time limits on speeches. I remind the House that our rules were only very recently extensively amended and there was a conscious decision by the House not to impose general time limits on members' speeches. In such circumstances, the Speaker is not in a position to impose time limits on members' speeches or otherwise restrain or prevent members from speaking to a matter at length, provided that there is otherwise no breach of the rules or practices of the House.

The member for Ottawa West also cited a case at the House of Commons at Westminster. On February 2, 1881, Speaker Brand terminated a debate on his own responsibility after a continuous sitting from January 31 to February 2, 1881 lasting 41½ hours during which Irish members had deliberately protracted the debate on the motion for leave to introduce the Protection of Person and Property Bill for the purpose of obstructing the business of Parliament. In this instance, Speaker Brand declined to call upon any more members to speak, even though Irish members still wished to continue the debate, and proceeded to put the question after saying that the "dignity, the credibility and the authority of this House are seriously threatened and it is necessary that they should be vindicated". It is important to note, however, that his action was supported by the Prime Minister and the Leader of the Opposition and that on the following day a resolution was adopted augmenting the Speaker's powers. In 1882, closure was embodied in the rules. Therefore, the precedent as cited is not useful to us in this House.

Although the situation upon which the point of order raised by the member for Ottawa West was based is now a moot point, I felt that it was important that I make this statement for the future guidance of the House.

---

The following Bills were introduced and read the first time:—

Bill 169, An Act to amend certain Acts relating to Freedom of Information and Protection of Privacy. *Mr Elston.*

*Ordered*, That, notwithstanding Standing Orders 6 and 9, the House shall continue to meet from 6.00 p.m. to 10.00 p.m. on Wednesday, June 27, 1990 to consider government business.

---

Mr Laughren moved,

That this House condemns the Government of Ontario for its failure to recognize:

- that Northern Ontario has been a source of enormous wealth for the private sector;
- that Northern Ontario has been a source of enormous revenues for the provincial government;
- that the provincial government puts very little revenue back into the north;
- that the roads in northern Ontario are in terrible shape;
- that the Liberal government has not proceeded with serious 4-laning of highways in the north;
- that the delivery of health care services in the north is still inferior;
- that northern municipalities have particular problems of boom and bust while the Liberal government freezes unconditional grants;
- that forestry jobs are threatened because of this government's failure to live up to its commitment to provide seedlings and because of the continuing practice of clear-cutting;
- that almost no attempts have been made to diversify the economy to create jobs nor to work with the private sector and create meaningful jobs when serious layoffs occur;
- that the Ontario government continues to treat northern Ontario citizens like second class citizens;

therefore this government has lost the confidence of this House.

And a debate arising, after some time, the motion having been put, was lost on the following division:—

That, in spite of 33 tax increases, increasing annual provincial tax revenues by over 130% in five years, and in spite of increasing total government spending over that same period from 25 billion dollars to over 44 billion dollars this government has failed to implement several of its significant election promises, specifically the creation of 4,000 new hospital beds, the creation of 102,000 affordable rental units, provide automobile drivers with lower insurance rates and, establish an environmental superfund to clean up toxic waste sites, therefore this House has lost confidence in the government of Ontario, not only for its inability to maintain its promises, but for its inability to develop a plan to halt the deterioration of our health care system, transportation network, competitive tax position, and integrity of our government institutions.
