His Honour was then pleased to retire.

SECOND DAY

TUESDAY, NOVEMBER 20, 1990

The members having assembled:-

3:00 p.m.

His Honour the Lieutenant Governor entered the Chamber and took his seat upon the Throne.

The Speaker addressed His Honour as follows:

"May it please Your Honour,

The Legislative Assembly has elected me as their Speaker, though I am but little able to fulfill the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby claim all their undoubted rights and privileges, especially that they have freedom of speech in their debates, access to your person at all reasonable times, and that their proceedings may receive from you the most favourable consideration."

The Government House Leader said:-

"Speaker, I am commanded by His Honour the Lieutenant Governor to declare to you that he freely confides in the duty and attachment of the Assembly to Her Majesty's Person and Government and, not doubting that the proceedings will be conducted with wisdom, temperance and prudence, he grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction."

His Honour the Lieutenant Governor was then pleased to open the Session by making the following gracious speech:-

Mr. Speaker, members of the Legislative Assembly, ladies and gentlemen:

I have the honour of welcoming you to the opening of the First Session of the Thirty-fifth Parliament of the province of Ontario.

It gives me particular pleasure to welcome those of you who are sitting as members of this legislature for the first time. It is also a pleasure to see that so many of the new members are women and that the executive council of my new government includes more women than any cabinet in the history of Canada.

As a group of people accustomed to being on the outside of the established power structures in Ontario, my government will open Queen's Park to those who have never before had an effective voice in the corridors of power. It is a government that will listen to the people and respond to their needs to the best of its ability.

All of us in Ontario know that we are facing many challenges: an economy in recession; growing inequity; an environment where the air, land and water are increasingly polluted; and rising concern about Canada's future.

These challenges demand a new vision for Ontario, one which provides for a decent quality of life for all of us. We must build a society in which all Ontarians can achieve the best of which they are capable, have genuine access to education, culture, training and jobs, and receive fair treatment from its institutions.

En assumant ses fonctions, le gouvernement sait qu'il doit répondre à des aspirations élevées, mais il ne sera pas possible de satisfaire toutes les attentes. Le gouvernement n'en accepte pas moins son mandat avec confiance et enthousiasme. Il dirigera la province avec énergie et ambition de lui donner un élan jamais vu auparavant.

This speech is about principles. But it is also about the realities that must guide our decisions. Wealth must be created as well as shared. We must be more creative about ensuring that new wealth and opportunity can grow in Ontario.

However, politics is about far more than what we can all get: it is also about what we owe each other. Too many people have been left out and need to be included. The values of community and solidarity have been undermined and ignored. Quite simply, there is too much poverty and inequality in Ontario.

Integrity

My government's first challenge is to earn the trust and respect of the people of Ontario. My government's integrity will be measured by the way this government is run and our relations with the people we serve. Our task is to guard against institutional arrogance and the abuse of power wherever they exist.

We will set clear standards of behaviour for the conduct of ministers, members of the legislature and senior government officials. These standards will be developed in consultation with the other parties in the legislature.

We will introduce "whistle blowing" guidelines to protect public employees who make public information on illegal or unethical behaviour. We will also recognize our employees' right to participate in political activities in the same way as any other citizen.

We will introduce legislation on conflict of interest at both provincial and municipal levels.

We will establish measures to ensure more fairness in appointments to government agencies, boards and commissions.

We must create a greater sense of integrity in the work of government. We are under no illusions that this is easy, since the public remains distrustful of governments and other large institutions. It is our job to address that cynicism and to overcome it. When my government makes mistakes, it will admit them.

The Economy

Recessions hurt people. In Ontario, we are struggling against high interest rates, an over-valued dollar, the free trade agreement and unfair taxes.

Early in this first session, the Treasurer will present a statement reviewing the province's economic outlook. It will include the immediate allocation of seven hundred million dollars for necessary maintenance and renovation of public sector facilities. These projects are ready to begin within the next several months. They will create critically needed jobs now. These funds will help address another serious problem my government has inherited -- the accumulation of many years of inadequate financing of public infrastructure.

The recession has not fallen evenly either on people or on regions and communities. Across the north, single-industry towns are vulnerable. In southwestern Ontario and eastern Ontario, our industrial and agricultural bases are being battered. Central Ontario's tourism and renewable resource industries are hurting. We will work with the communities of these regions to seek ways by which all of the province benefits from sustainable economic development. In the immediate future, newly funded maintenance and renovation projects will have a positive impact throughout the whole province.

In working to meet our economic challenges, both during the recession and afterwards, all of us must become open to change and adjustment. But we must ensure that the burden of change does not fall solely upon workers and communities. A fairer and more democratic economy must share both the benefits and the burdens of change arising from the time of major economic adjustment in which we live.

To begin this transformation, my government will introduce in this session a number of measures to protect workers during this period of economic restructuring. It will introduce a wage protection fund for the workers of bankrupt companies. It will introduce support for labour adjustment committees in industries affected by dislocation. It will introduce stronger measures on layoff notice, severance and other adjustment issues.

Our goal is to foster a society where economic change will not mean a dramatic loss of income or self-esteem. Our goal for the future is a society in which change signals new opportunities for people and their communities. We will be guided by the belief that the democratic principles shared by all Ontarians must be extended throughout the economy. For this reason, we will ensure that workers can freely exercise their right to organize.

We will work with all the partners in the economy on the design and implementation of Ontario's laws, programs and tax system. Workers and governments have a profound stake in a more efficient economy that can make and sell goods and services at home and around the world.

Global trading relationships, the ways of organizing and conducting our work, the kinds of knowledge and skills our workers require -- all these things are being transformed. My government recognizes that Ontario must compete in a world-wide marketplace. We need to develop stronger links with other jurisdictions.

As social democrats, my government believes in the need for a new relationship and respect among all the forces in the Ontario economy -- labour, business, community organizations, government -- so we can begin to work better together to achieve our common goals. New ways of co-operating will be needed. My government is determined to build a consensual, environmentally responsible economic strategy for the twenty-first century.

We must look beyond the recession and build a sound recovery. We must be more creative to help plan for new jobs and new investment. We will work with the private sector in ensuring more research and development, more innovation, more new jobs in new technologies. We are an open economy, with a government determined to bargain for the best possible return on investment for the people of Ontario.

We must extend and diversify our international trade and industrial base. With workers who are ready and willing to learn new skills, good social services and a stable and high quality of life, Ontario will be well-placed for new investment to create meaningful jobs for our people.

Our human resources will be key to our economic future. To face the challenges of the nineties effectively, we must become a learning society, where education and training are seen as fundamental to individual growth, where investment in people is understood to be as important as investment in capital or in research and development. My government will work with labour, business, community organizations and the educational sector to create new education and training partnerships. Strong, publicly funded institutions are crucial to lifelong education.

We cannot afford to lose the skills and abilities of Ontario's population because of discrimination. My government is firmly committed to both employment equity and pay equity. During my government's mandate, our goal will be to work with employers and employees to find practical ways of achieving equitable wages for all Ontario women. We will make early progress on redressing unequal pay in areas such as child care, where grievances have been long-standing and unresolved. After consultation, we will introduce employment equity legislation. We are confident the Ontario economy can provide equity for its citizens, while ensuring a fair level of profitability for its businesses.

While Ontario has become an increasingly urban province, the contributions of our farmers and rural communities remain vital. We will improve our programs to stabilize farm incomes. This and other measures will begin to build a social vision which recognizes the fundamental interdependence of farmers and food processors, consumers and producers, city and country. It is a vision which stresses co-operation and emphasizes the right of people in rural Ontario to share in the benefits of society.

Fairness

We will work towards our communities becoming supportive environments where all people, including those who are vulnerable, can meet their full potential, participate in community life and make their contribution to society. In doing so, we recognize that saying "yes" to their concerns will mean saying "no" to others whose claims are presented more loudly. These are never easy decisions, but when taken in a spirit of openness and frankness, we believe they will allow the public interest to be served.

Pour atteindre à une plus grande justice, le gouvernement entend rester fidèle à son programme en matière sociale et lever les obstacles qui empêchent la participation pleine et entière de tous les citoyens à la vie de la province. Nous veillerons à la mise en place de modes de soutien à court et à long terme pour les personnes touchées par la récession et qui doivent essayer les conséquences des politiques sociales et économiques régressives adoptées antérieurement.

Over its five-year mandate, my government will increase the minimum wage to sixty per cent of the average industrial wage; introduce pension reforms; revise rent review legislation; help to expand the supply of affordable housing particularly non-profit housing; and extend child care. We will provide support for those who find themselves out of work and unable to provide for themselves and their families. We pledge to continue the reform of Ontario's social assistance system and address the shame of child poverty in the midst of affluence.

We will deal resolutely with violence against women and children. It is time for society to come face-to-face with this reality. Reports on advocacy for Ontario's most vulnerable citizens -- the disabled and the frail elderly -- have been gathering dust for too long. We will deal with this issue. We will also improve Ontario's family support program to ensure that support and custody orders are meaningful and not just pieces of paper.

The future well-being of Ontario depends in large measure on how we care for our children today. The range of public services to families has not caught up to the needs of working parents. Public policies and programs must reflect the realities of family life, the growing participation of women in the workforce, the balancing of work and family life, and the changing role of the extended family in caring for children. We will introduce legislation to improve pregnancy and parental leave for working families.

We will provide for a common pause day to help strengthen family and community life while protecting small businesses and the rights of workers.

Our health and social services must be the best we can afford. We cannot, however, assume that spending more and more money will mean better services. Instead, we will look at the results of our spending to ensure the most effective use of public funds. We will work with health and social service professionals, community organizations, workers and consumers to improve health and social services.

We will complete plans to move government offices out of Toronto to other cities and towns in the province, but we will do so in a way that is fair and responsible to our employees.

Fairness also requires that we share the burdens as well as the benefits of our economic well-being. As a result of a legacy of special breaks and favours for a few, the public has lost faith in the tax system. Therefore, we plan to establish a Fair Tax Commission to assist us in the design of a tax system that is more equitable for every citizen of Ontario. This fundamental review will require the involvement of many people across the province.

The Environment

There is an environmental crisis facing Ontario and it will require an extraordinary effort to meet it. We accept our duty to the future. We will need to assess our decisions not only by standards of social justice or economic growth, but in terms of their ecological integrity. We know that we cannot have a healthy economy without a healthy environment. A sustainable economy will provide added opportunities for new jobs, which will last into the future, and which will enhance, rather than harm, the environment. Our environment is more than the natural landscape. It is our individual health and well-being. It is our children's future.

We can no longer afford to be a throw-away society. We must recognize that most garbage is used material which still has a value to society. We must expand and enhance our efforts to reduce, reuse and recycle solid waste. The previous government established the objective of twenty-five per cent waste diversion by 1992. Without tough measures, we will not meet that objective.

Our province's southern boundary touches all of the Great Lakes. These magnificent bodies of water have for too long been treated as waste dumps. We will act to protect our supply of clean water. We will conserve and manage this precious resource and the watersheds that support it. As a first step, we will introduce a safe drinking water act to set standards for water treatment and protect our people's health and safety.

Many of our roads are becoming too congested to work effectively. My government is committed to a program of expanded public transit, not only to help the movement of goods and people but as a strategy for improving the environment and the economy.

Nowhere is the link between the environment and the economy more evident than in forestry. In the past few years, our forests have been a cause for concern when they should have been a source of pride. We believe in sustainable forestry, and are determined to see that our forests are regenerated.

We believe that people have the right to seek legal action to redress environmental harm. We will introduce an environmental bill of rights in this session. We will seek the advice of the public on the specific details of the bill. This legislation will be an important step in giving individuals more control over the quality of their environment.

My government is proud to announce new energy directions for Ontario to protect the environment while ensuring that the province continues to have a reliable supply of energy at reasonable prices.

We plan to complete construction of Darlington and to bring the station into operation. This will provide the security of electricity Ontario needs for the immediate future. The Environmental Assessment Board hearings on Ontario Hydro's twenty-five year demand and supply plan will continue. This will provide an opportunity for an independent evaluation of the economic, social and environmental aspects of all options, including conservation, for Ontario's electricity future.

Meanwhile, we will instruct Ontario Hydro to intensify its efforts and its investment in energy conservation. To that end, we will place a moratorium on new nuclear power facilities. We will ask Ontario Hydro to divert planned expenditures for new nuclear development towards the most comprehensive energy conservation and efficiency program ever undertaken by a utility in North America. These efforts to use energy more efficiently will also assist in reducing global warming. These new energy directions will be a challenge to all citizens of Ontario to take part in individual and community efforts to ensure the most efficient and environmentally sound use of our energy resources.

Our People

Our province enjoys great cultural diversity. My government sees strength in our differences, in learning from one another and enjoying the richness of our collective and individual heritage.

We attach great importance to the need to negotiate fairly with the first nations of the province. The previous government made some progress which we must surpass. We are determined to make major strides in negotiating aboriginal self-government and in improving the quality of life of aboriginal peoples in Ontario.

Par ailleurs, nous reconnaissons l'importance de la vaste population franco-ontarienne, qui apporte une énorme contribution à la vie de la province, et nous sommes déterminés à travailler en étroite collaboration avec la communauté francophone de l'Ontario afin de préserver ses droits.

We cherish our multicultural and multi-racial diversity, and we will work to preserve it and to benefit from it. We know that to achieve our social and economic goals, we must strive to achieve access, equity and the protection of the rights of all members of our society. Greater cultural, racial and linguistic understanding is an essential foundation for a society as diverse as ours.

We recognize the importance of the arts to the economy and to the quality of our lives. We will augment our support of artists and arts organizations through the Ontario Arts Council.

We plan to govern with a sense of partnership, a partnership that includes those who were neglected or left out in the past. No partnerships are more important than those with local governments. We intend to work with them so that together we can serve the people of Ontario.

Leadership

Ontario's realities -- the environment, the economy, our social services, and the challenges facing Canada itself -- require leadership. Public frustration has as much to do with decisions postponed as with the sense that the people have not been heard. We will look for new and better ways to hear and respond to the voices of the people.

My government appreciates the contributions that its predecessors have made to the life of the province. It is a tradition we will respect. We want the advice, assistance and ideas of the opposition parties.

My government shares the serious concerns of many Canadians that our political institutions are no longer working as well as they must. There is dissatisfaction with governments in Canada and a sense that the country deserves better. The next five years will be crucial in overcoming the current constitutional deadlock. Ontario cannot set the national agenda on its own. We can only act with others on this issue -- an issue which must transcend partisanship. My government will soon discuss with the legislature our suggestions for future action. Canada deserves our best efforts.

Leadership is often about choosing when and where to intervene. We believe that in many areas the market can and should take the lead, with the public sector playing a facilitating role. But in certain cases, such as the delivery of auto insurance, public leadership is a more effective and equitable solution.

After a period of discussion, we will introduce, in the spring, a bill to re-organize the delivery of car insurance to the driving public. We plan to examine the experiences of Manitoba, Saskatchewan, British Columbia and Quebec, other jurisdictions in North America and our previous provincial plans.

Our intention is to create a system that will provide the best service at a reasonable cost to drivers, and at the same time ensure access to a fair settlement of claims for personal and other damages. We believe that a driver-owned plan can provide the best service to the public.

It has not been our intention in this speech to touch every conceivable base or to announce every measure that we will undertake in our mandate. Rather, this is an initial agenda for the priorities of the government, recognizing that we cannot do everything -- and that to govern is to choose.

Over the life of our government there are many things that we want to accomplish. My government looks forward to a productive and lively session, where it will do its best to listen before it acts, recognizing that at the end of the day our government was elected to make decisions. There is much work to be done if we are to bring to Ontario the new fairness and openness that the people expect of us.

Puisse la divine Providence guider vos délibérations.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

His Honour was then pleased to retire.

PRIÈRES

The Speaker addressed the House as follows:-

I would like to bring to the attention of the members of the House a clerical error that appeared in the Orders and Notices Paper that was published under today's date.

The error in question is to be found on Page 4 of that document under the heading of "Special Debates - Opposition Day" standing in the name of the Leader of the Third Party, Mr Harris.

On the second line of that notice, the word "laughs" was printed inadvertently whereas the correct word should have been "layoffs". This will be corrected in the next printing for Monday, November 26, 1990.

On behalf of the Journals Branch, I apologize to the Leader of the Third Party and regret any embarrassment caused by this incident.

The Speaker addressed the House as follows:-

I beg to inform the House that I have today laid upon the Table the Fifteenth Annual Report of the Commission on Election Finances for the year 1989 / Quinzième rapport annuel de la Commission sur le financement des élections pour l'année 1989 (Sessional Paper No. 19) (Tabled November 22, 1990).

The debate was resumed, and after some time,

Mr Nixon moved,

That the following words be added to the motion:-

This House regrets that the new government has failed to put forward a legislative agenda which deals adequately with the issues facing the province, and that this House condemns the government:

1. For its failure to fulfill commitments made in its Agenda for People; specifically those social reforms which the new government advocated so forcefully while in opposition such as child care, social assistance rates, and legislative reforms;
2. For its failure to respond adequately to the worsening recession; particularly the absence of any initiatives which would encourage new investment and new job opportunities for the people of Ontario;
3. For its total failure to clearly establish policy priorities and funding commitments in such fields as the environment, health, education, agriculture, and northern development.

FIFTH DAY

MONDAY, NOVEMBER 26, 1990

PRAYERS
1:30 P.M.

PRIÈRES
13 H 30

The Speaker addressed the House as follows:-

Last Thursday (November 22), the Honourable Member for Carleton, Mr Sterling, raised a point of order about the appropriateness of a statement made by the Honourable Member for Perth, Mrs Haslam, during Members' Statements. I undertook at that time, to review Hansard and report to the House. I have had an opportunity to do so and I must report that I could find nothing that went against our practices in the statement made by the Honourable Member for Perth as she is not a Parliamentary Assistant.

I would like to take this opportunity, however, to remind honourable members that Members' Statements time is not to be used for parliamentary assistants to make statements that ought to be made during that period reserved for statements by the ministry, nor should it be an opportunity to make personal attacks on other members.

Also on Thursday last, during Question Period, the Honourable Member for Nipissing, Mr Harris, the Leader of the Third Party, asked a question of the Minister of the Environment, which dealt with the use of disposable containers.

In his supplementary to the Minister, the subject matter expanded to the use of the containers in the Legislative Assembly cafeteria and amongst other things, the windows in the Legislative Building.

During the Minister's reply I interrupted the Minister because I felt that the supplementary question dealt with a matter which came under the jurisdiction of the Office of the Assembly, and that therefore, it should be dealt with by the Board of Internal Economy.

I have looked into this and wish to report to the House that I will be sending each member a report on this matter in the very near future.

The Order of the Day for resuming the Adjourned Debate on the Amendment to the motion for an Address in Reply to the Speech of His Honour the Lieutenant Governor at the Opening of the Session having been read,

The debate was resumed, and after some time,

Mr Harris moved,

That the amendment to the motion for an Address in Reply to the Speech of His Honour the Lieutenant Governor at the Opening of the Session be amended by adding the following thereto:-

4. for its failure to commit to a policy of restraint designed to control the growth and cost of government and to reduce the tax burden on its citizens;
5. for its failure to recognize and act on the necessity of building a new financial partnership with Ontario's municipalities;
6. for its failure to articulate any measures to respond to the ageing of Ontario's population;
7. for its failure to advance a coherent regional development policy;
8. for its failure to recognize the crisis facing Ontario's agricultural community and its lack of commitment to preserve farmland and provide interest rate relief for farmers.

And, after some time, it was,

On motion by Mr Curling,

Ordered, That the debate be adjourned.

Miss Martel moved, That the House do now adjourn.

The question, having been put on the motion, was declared carried.

The House then adjourned

The amendment to the motion as follows:

That the motion for an Address in Reply to the Speech of His Honour the Lieutenant Governor at the opening of the session be amended by adding the following words:

This House regrets that the new government has failed to put forward a legislative agenda which deals adequately with the issues facing the province, and that this House condemns the government:

1. For its failure to fulfill commitments made in its Agenda for People; specifically those social reforms which the new government advocated so forcefully while in opposition such as child care, social assistance rates, and legislative reforms;
2. For its failure to respond adequately to the worsening recession; particularly the absence of any initiatives which would encourage new investment and new job opportunities for the people of Ontario;
3. For its total failure to clearly establish policy priorities and funding commitments in such fields as the environment, health, education, agriculture, and northern development.

having been put, was lost on the same vote.

The main motion, having then been put, was carried on the same vote reversed.

And it was,

Resolved, That an humble Address be presented to His Honour the Lieutenant Governor as follows:-

To the Honourable Lincoln M. Opposition Day

Mrs Sullivan moved,

That in the opinion of this House, since the Minister of the Environment has acknowledged that even under the most optimistic forecasts of reduction, re-use and recycling there will still remain more than three million tonnes of municipal waste within the Greater Toronto Area requiring disposal annually;

Has effectively absolved communities within the Greater Toronto Area of their responsibility to designate interim sites within their own boundaries to deal with the impending garbage crisis;

Has indicated she is prepared to exercise emergency powers to extend land-filling at Keele Valley and Britannia Road in excess of currently allowable volumes, thereby ignoring all safeguards under the Environmental Assessment Act, and order without a hearing of any kind the disposal of garbage into the proposed site 6B in Brampton and P1 Whitevale site;

Has refused to provide this legislature and the public with the details of her waste reduction strategy, and

Since the present government has clearly abdicated its responsibility to protect the public and the environment, and has failed to provide a sound environmental plan to deal with the impending garbage crisis;

This House therefore calls upon the Minister of the Environment to provide that:

- i) A comprehensive waste reduction strategy be presented to the legislature immediately for public debate and implementation;
- ii) No existing land-fill sites will have their capacity expanded without full and public hearings under the Environmental Assessment Act;
- iii) No region can transport its waste to another municipality in the province without a resolution of the recipient municipality indicating that it is a "willing host" for such waste;
- iv) No regional land-fill site that is coming on stream in a municipality having completed the Environmental Assessment process shall be required to accept municipal solid waste from outside the municipality by the Minister of the Environment's emergency powers.
- v) No new waste disposal sites will be designated within the province without the benefit of full and public hearings under the Environmental Assessment Act.

And a debate arising, after some time, the motion was lost on the following division:-

The Speaker delivered the following ruling:

Honourable Members will remember that there were a couple of points of order and a question of privilege arising out of yesterday's Question Period. I undertook to review Hansard on these matters and I would now like to report to the House.

The answers provided by the Honourable Jenny Carter, Minister of Energy, to a question and supplementary asked by the Honourable Member for York East, Mr Gary Malkowski, were well within the average for time and the subject matter did not constitute the announcement of new government policy.

I have also reviewed Hansard in relation to the matter raised by the Honourable Member for York Centre, Mr Gregory Sorbara, and I find that this does not constitute a matter relating to privilege. There is a disagreement and I am sure the Member stated that correctly yesterday.

Mr Jackson from the Standing Committee on Estimates presented the Committee's report as follows which was deemed to be received and concurred in:-

Pursuant to Standing Order 59 the Supplementary Estimates (1990-1991) of the Office of the Assembly \$9,107,800; Office of the Chief Election Officer \$116,200; Ombudsman Ontario \$150,000 are reported back to the House as they were not supplementary to the Estimates previously selected by the Committee for consideration.

Your Committee begs to report the following Bill as amended:-

Bill 12, An Act to amend the Education Act. Ordered for Third Reading.

The following Bills were read the third time and were passed:-

Bill 15, An Act respecting Land on Manitoulin Island, Barrie Island and Cockburn Island.

Bill 16, An Act to amend the Municipal Elections Act and certain other Acts related to Municipal Elections.

Mr Laughren moved,

THE AFTERNOON SITTING
1:30 P.M.

SÉANCE DE L'APRÈS-MIDI
13 H 30

The Speaker delivered the following ruling:

During yesterday's Question Period, the Honourable Member for Mississauga North, Mr Steven Offer, raised a point of order regarding the use of Question Period by Ministers to make statements under the guise of answers to questions from members of their own caucus. Following Question Period the Honourable Member for Parry Sound, Mr Ernie Eves, raised a similar point of order which was contributed to by a number of Honourable Members. I want to thank everyone for their contributions. I have reviewed Hansard and given this matter some thought which I am now ready to share with you.

First of all, there can be no doubt that our Standing Orders and practice permit a certain number of questions to be asked of Ministers during Question Period each day which originate from members of the Government caucus. A restriction to this is that a Parliamentary Secretary cannot ask a question of the Minister under whom he serves, regarding the subject matter field pertaining to that Ministry.

The Chair takes very seriously the point made by the Honourable Member for Mississauga North, Mr Offer, and the Honourable Member for Parry Sound, Mr Eves, that answers to questions should not be used to present to the House, changes in Government policy. Members will know that our Standing Orders provide a specific time period each day during Routine Proceedings for that type of announcement. The procedure for Statements by the Ministry also provides for replies on the part of members of the Opposition Parties. I therefore agree with the Honourable Members who made these points yesterday, that Question Period definitely should not be used for presenting changes in Government policy.

I must caution Honourable Members however, that although the Chair tries to be vigilant in these matters, sometimes the skill displayed by the questioner and the Minister providing the answer is such that it is difficult for the Speaker to identify what might or might not constitute a departure from established Government policy.

I have looked at the questions and answers of yesterday's Question Period and I will take this occasion to tell the Honourable Minister of Labour, Mr Bob MacKenzie, that his answer yesterday to the question asked by the Honourable Member for Dovercourt, Mr Tony Silipo, was indeed borderline and could be interpreted to be an announcement of new Government policy.

In conclusion therefore, members were perfectly right to raise this. It is indeed a point of order and Ministers should be aware that new Government policy should be announced during that time provided for, under our Standing Orders and not during Question Period.

TWENTY-SECOND DAY

TUESDAY, MARCH 19, 1991

PRAYERS

PRIÈRES

The Speaker ruled as follows:-

On December 20 last, the Honourable Member for Markham, Mr. Cousens, rose on a point of privilege, complaining of statements made by Ministers outside the House and not during the period normally reserved for Statements by the Ministry under our Standing Order 31.

I want to thank the Honourable Member for his detailed presentation which reflected a good deal of research in order to demonstrate the rightness of his case. However, I must find, as many Speakers before me in this House and other Houses have found, that it is not a question of privilege nor is it a point of order for a Minister to choose to make a statement outside the House. In effect, our Standing Order 31(a) states "a Minister of the Crown may make a short factual statement relating to Government policy". The member will realize that the important word here is "may".

Finally, I would like to quote Speaker Lamoureux on October 30, 1969 when he addressed the House of Commons on this very matter:

"The question has often been raised whether parliamentary privilege imposes on ministers an obligation to deliver communications to the public through the House of Commons or to make these announcements or statements in the House rather than outside the Chamber. The question has been asked whether Honourable Members are entitled, as part of their parliamentary privilege, to receive such information ahead of the general public. I can find no precedent to justify this suggestion. ... There may be, in such circumstances, a question of propriety or a question of courtesy. There may be a grievance. But in my view there cannot be a question of privilege."

Pursuant to Standing Order 35(b), the following Petition was presented:-

Petition relating to Anti-Abortion (Sessional Paper No. P-5) (Tabled March 19, 1991)

The Speaker ruled as follows:-

Yesterday, the Honourable Member for Parry Sound, Mr Eves, raised a point of order regarding the appropriateness of a statement made by the Honourable Minister of Culture and Communications, Mr Marchese, according to our Standing Order 31(a). I undertook to look into this matter and report back.

Our Standing Order 31(a) reads as follows:

"A Minister of the Crown may make a short factual statement relating to government policy, ministry action or other similar matters of which the House should be informed."

Members will realize that the terms of this Standing Order tend to be on the non-restrictive side and therefore it is difficult for the Speaker to interpret strictly what can or cannot fall under the confines of the Standing Order.

As far as the statement made yesterday is concerned, I find that it was in order.

THIRTY-THIRD DAY

PRIÈRES
13 H 30

The Speaker ruled as follows:-

On Tuesday, April 2, 1991, the member for Dufferin-Peel (Mr Tilson) rose on a question of privilege. He informed the House that he had received a letter from a solicitor for a provincial civil servant concerning a March 1, 1991 radio broadcast of remarks the member made in a recorded interview with a reporter, and questioned whether the letter amounted to a breach of privilege or a contempt of the House for "obstructing, threatening or attempting to force or intimidate a member of the Assembly" as proscribed by paragraph 2 of subsection 45(1) of the *Legislative Assembly Act*.

I have carefully reviewed the member's submission, a transcript of the broadcast in question and the relevant parliamentary authorities and precedents, and I am now in a position to report to the House.

Section 37 of the *Legislative Assembly Act*, which enacts the common law rule of freedom of speech, provides as follows:-

A member of the Assembly is not liable to any civil action or prosecution, arrest, imprisonment or damages, by reason of any matter or thing brought by him by petition, bill, resolution, motion or otherwise, or said by him before the Assembly or a committee thereof.

This most fundamental privilege of members allows members to express their views in proceedings in Parliament without fear of an action for slander or libel. Although what constitutes a proceeding in Parliament may encompass circumstances beyond the formal transaction of business in the Assembly or its committees, I am of the opinion that I would be extending the definition of privilege too far if the remarks of the member made in an interview outside the Chamber some months after questions were posed and answers made in the House and possibly in changed or different circumstances were included.

I have also considered whether the sending of the solicitor's letter arising out of the member's remarks on the radio broadcast constituted an improper means of interfering with or influencing the member in his parliamentary conduct. The solicitor's letter cited by the member referred to legal proceedings contemplated against the member as a result of further repetition by the member of statements made in the radio broadcast or similar allegations made by the member *outside* the legislature. This letter does not relate to a proceeding in Parliament and does not appear to be calculated to affect the member's course of action in the Assembly or its committees. As such, I am of the opinion that it does not constitute an obstruction, attempted intimidation or intimidation of the member in his parliamentary conduct.

Therefore, in the circumstances in this matter, I find that a *prima facie* case of privilege has not been established.

I thank the member for Dufferin-Peel for providing me with advance notice of his concerns and trust that my ruling offers some guidance to all members.

The House expressed its condolence on the death of Richard Taylor, member for the Electoral District of Timiskaming from September 25, 1963 to September 5, 1967.

Pursuant to Standing Order 35(b), the following Petition was presented:-

Petition relating to Compensation for laid off workers (Sessional Paper No. P-12) (Tabled April 9, 1991) Mr C. Jackson.

THE AFTERNOON SITTING
1:30 P.M.

SÉANCE DE L'APRÈS-MIDI
13 H 30

The Speaker ruled as follows:-

Yesterday, the Honourable Leader of the Opposition, Mr Nixon and the House Leader for the Third Party, Mr Eves, both presented a point of order with respect to the Government Notice of Motion, No. 16, which appears on the Order Paper under the name of the Government House Leader, Miss Martel.

I would like to thank them, as well as all the others who contributed to these points, for their thoughtful and well presented arguments. I have had time to consider them and I will now give my ruling on both points.

The point of order raised by the Honourable Leader of the Opposition is an important one. He and others have argued that because of our notice provisions the House has, in a certain way, been taken by surprise by the Government House Leader's Notice of Motion.

The Rule of Notice is one that is found in various applications in most Parliaments and its purpose is clearly to make sure that members of the House should not be surprised by a measure being proposed to them and for which they would not have had time to prepare to debate adequately.

Until 1970 in the Ontario Legislature, the rule that applied to Notice was the following:

"Two days' notice shall be given of a motion for leave to present a bill, resolution or address; for the appointment of any Committee; or for the putting of a question; but this rule shall not apply to bills after their introduction, or to Private Bills, or to the times of the meeting or adjournment of the House; such notices to be laid on the Table before five o'clock p.m., and to be printed in the Votes and Proceedings of that day."

Members will have noticed that this rule specified that two days' notice had to be given for substantive motions.

In 1970, this House decided to change that rule and it is the one that guides us presently and reads as follows:

"All notices required by the Standing Orders of the House or otherwise shall be laid on the Table or filed with the Clerk of the House before 5.00 p.m. and printed on the Orders and Notices paper for the following day."

What happened in 1970 was that the House decided to remove one of the days that applied to Notice. It is also important to point out, in this matter, that our Standing Orders proscribes only one rule with regard to Notice and does not distinguish between various types of Substantive Motions.

In the House of Commons in Ottawa, they have kept the two days required notice for Substantive Motions but in giving themselves a specific Standing Order related to allocation of time, they have seen the necessity of only one day's notice being required.

In this case the Chair has no alternative but to find that according to our Standing Orders, the Notice of Motion on the Order Paper is in order. Under Standing Order 51, it requires only one day's notice, that is to say, it must be filed before 5 o'clock the previous day and on the first day that it appears in the Orders and Notices, it can be moved. If there was to be a change to this, it would have to come about in the normal way that changes are made to the Standing Orders, that is by a motion brought before the House in order to amend the Standing Orders.

The second point of order that was raised by the honourable member for Parry Sound is also a very serious point, especially in a House that does not have a codified time allocation procedure.

While considering all of the arguments raised and comparing them with the precedents created by this House since 1982, I have found that no really new arguments were raised yesterday that had not been previously dealt with by my predecessors in this Chair.

A time allocation motion is a valid procedure. It attaches itself to a specified subject matter before the House and stipulates how it shall be dealt with. It is in the form of a motion which is fully debatable under our rules and once it is passed, constitutes an Order of this House stating how a certain piece of legislation is to be further studied. Notice of Motion No. 16, presently before the House, is in order and conforms in every way with the practices and precedents of this House.

Pursuant to Standing Order 35(b), the following Petitions were presented:-

Petition relating to 403-Lynden Road Extension and Interchange (Sessional Paper No. P-13) (Tabled April 11, 1991) Mr D. Abel.

Petition relating to Animals in product testing (Sessional Paper No. P-14) (Tabled April 11, 1991) Mr G. Malkowski.

Projet de loi 70, Loi portant modification de la Loi sur les normes d'emploi par création d'un Programme de protection des salaires des employés et par adoption de certaines autres modifications. L'hon. B. Mackenzie.

Bill 71, An Act to amend the Representation Act, 1986. Mr D. Tilson.

Projet de loi 71, Loi portant modification de la Loi de 1986 sur la représentation électorale. M. D. Tilson.

The following Bills were introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:-

Bill Pr3, An Act to revive Lauramar Holdings Limited. Mr J. Henderson.

Bill Pr24, An Act respecting the Town of Oakville. Mr G. Carr.

Bill Pr64, An Act respecting the City of Toronto. Mr T. Silipo.

Opposition Day

Mr Elston moved,

That, in the opinion of this House, since the New Democratic Party has taken power, Ontario employment has fallen by 282,000 actual jobs which is at the rate of 1600 for every day. Ontario has fallen from its traditional position as the province with the lowest unemployment to 4th behind Saskatchewan, Alberta, and Manitoba, Ontario has the worst job creation record of any province in Canada, based on monthly employment figures, all this government has offered for its seven months in power is a \$34 million anti-recession fund for capital projects which amounts to about \$4.8 million per month on job creation projects whereas the province takes in over \$120 million in revenue, every day, and since this Premier and Treasurer, have turned from being defenders of the people, to defenders of the status quo and have failed to provide the leadership and active government necessary for the Province of Ontario in a period of severe economic recession, therefore, this House calls upon the Premier and the Treasurer to assume their leadership responsibilities in a government which has promised much, and delivered little, and undertake a comprehensive job creation program addressing all aspects of economic life in the province.

And a debate arising, after some time, the motion was lost on the following division:-

THE AFTERNOON SITTING
1:30 P.M.

SÉANCE DE L'APRÈS-MIDI
13 H 30

The Speaker ruled as follows:-

Yesterday, the member for Simcoe West (Mr Wilson) rose on a question of privilege with respect to the changes in the oath of allegiance required to be sworn by members of police forces in the province.

I have had an opportunity to review the member's submission and the relevant parliamentary authorities. It may be useful to stress the very nature of parliamentary privilege. Standing Order 21(a) defines privilege as "the rights enjoyed by the House collectively and by the members of the House individually conferred by the *Legislative Assembly Act* and other statutes, or by practice, precedent, usage and custom". *Australia House of Representatives Practice* notes that "[p]arliamentary privilege relates to the special rights and immunities which belong to the Parliament, its Members and others, which are considered essential for the operation of the Parliament. These rights and immunities allow the Parliament to meet and carry out its proper constitutional role, for members to discharge their responsibilities to their constituents and for others properly involved in the parliamentary process to carry out their duties and responsibilities without obstruction or fear of prosecution."

These special rights and immunities of the House and its members include the right of free speech in Parliament, immunity from arrest or detention for civil causes during defined periods, immunity of members from the obligation to serve on juries, immunity of witnesses from being questioned or impeached for evidence given before the House or its committees, the right of the House to establish its own rules and enforce them, the power to expel members, and the power to order the arrest and imprisonment of persons guilty of contempt or breach of privilege. It is only in very restricted circumstances that there can come to the House a legitimate case of privilege on the basis of the real, accepted and traditional definition of parliamentary privilege.

It is my opinion that the circumstances raised by the member for Simcoe West do not fall within the definition of privilege I have cited. There is no indication that the House and its members have been impeded in the performance of their duties as a result of the changes in the oath of allegiance required to be sworn by members of Ontario's police forces. Accordingly, I must rule that a *prima facie* case of privilege has not been established which would permit the matter to take precedence over the other business of the House.

The Speaker then addressed the House as follows:-

Before I call for Oral Questions, I hope the House will bear with me a few minutes while I consider some of the concerns that have been raised with me and others about the conduct of Question Period.

In recent weeks I have been keeping track of the time used by questioners and those providing responses during this very important part of our proceedings and the figures make it clear that both the questions and the responses are becoming longer and therefore fewer members get to ask a question.

Our Standing Orders set out very rigidly how our Question Period is to be run and very little discretion, if any, is left to the Speaker in that sense. Furthermore, our Question Period is a full sixty minutes long which should provide the necessary time for members to ask their questions.

The point I want to make is that the Chair will undertake to use persuasion upon members who are taking too long to ask or to answer a question but I would also ask that the members themselves do their part to help the Chair by making their questions and supplementaries as short and to the point as possible and that the Ministers do the same in providing their responses.

With the time provided and with cooperation, there should be no problem in dealing with 12 to 13 or more questions every day. Actually, that was the average number of questions until recently. Hopefully we can go beyond that number.

If the House Leaders or anyone else wanted to meet with me over this, it would be my pleasure to do so. This is your Question Period and together, I am certain we can make it very useful and productive.

The following Bill was introduced and read the first time:-

Bill 74, An Act respecting the Provision of Advocacy Services to Vulnerable Persons. Hon. E. Ziemba.

Projet de loi 74, Loi concernant la prestation de services d'intervenants en faveur des personnes vulnérables. L'hon. E. Ziemba.

PRIÈRES
13 H 30

The Speaker ruled as follows:-

At the close of last Thursday's Question Period, the member for Burlington South (Mr Jackson) rose on a point of order concerning an exchange between 2 members in that day's Question Period.

The member asked me to review Hansard, and I have since had an opportunity to review and reflect on the appropriate passages from Hansard. I am now in a position to report to the House.

Members will know that the Minister of Education (Mrs Boyd) indicated at page 1153 of Hansard that she was distressed that she was being "misrepresented in terms of my position and our government's position with respect to the school accommodation issue." These remarks were made in response to a question from the member for Essex South (Mr Mancini), but they did not specifically allude to him or to any other member. Therefore, I do not find that the remarks of the minister transgress our Standing Orders.

I would be remiss if I did not indicate to all honourable members, and indeed remind them, that they should conduct themselves with dignity, decorum and a respect for not only the letter of our Standing Orders, but also their spirit.

The following Bill was introduced and read the first time:-

Bill 95, An Act to require The Minister of the Environment to discharge her responsibilities under Section 15 (1) of the Ontario Water Resources Act to determine the Zebra Mussel content of Cana Lake, Canal Bay, Canal Lake, Canard Lake, Canard River, Canary Lake, Cancer Lake, Candide Creek, Candide Lake, Candler Lake, Candybar Creek, Candybar Lake, Candy Creek, Cane Lake, Canisbay Creek, Canisbay Lake, Canis Lake, Canister Creek, Canister Lake, Can Lake, Canna Creek, Canna Lake, Cannard's Bay, Canniff Creek, Canniff Lake, Canning Lake, Cannings Falls, Cannon Creek, Cannon Lake, Canoe Bay, Canoe Bay Channel, Canoe Channel, Canoe Creek, Canoe Lake, Canoeshed Lake, Canon Creek, Canon Lake, Canonto Lake, Can Opener Lake, Canterbury Lake, Canthook Lake, Cantin Lake, Cantley Creek, Cantley Lake, Canton Lake, Cantrill Lake, Canty Lake, Canvasback Lake, Canyon Creek, Canyon

The Speaker delivered the following ruling:-

On Monday, May 6, 1991, during the period "Members' Statements", the member for Carleton (Mr Sterling) moved a motion "That this House pass directly to oral questions immediately following the completion of members' statements today". At the time, I indicated that unanimous consent was required to permit the member to move such a motion. I asked the House if there was unanimous consent to permit the member for Carleton to move his motion. Unanimous consent was denied and as a consequence the motion was not put.

Subsequently, the member for Carleton rose on a point of order to ask that I give further consideration to the ability of members to place before the House the type of motion which the member had proposed to move.

The motion which the member for Carleton proposed to move is, I believe, without precedent in the Parliament of Ontario and that is why I agreed to thoroughly review the matter and report back to the House.

I have had reference to the 3 criteria established by Speaker Edighoffer in his ruling of Tuesday, April 17, 1990 to determine if this motion is a legitimate motion and, if so, under what circumstances it may be moved. The 3 criteria established by Speaker Edighoffer are: (1) whether there is an applicable Standing Order in the case; (2) whether this is a legitimate procedural motion in parliamentary tradition; and (3) if it is a legitimate procedural motion, whether it can be applied to our procedures at the Legislative Assembly of Ontario.

The Standing Orders adopted by the House in 1989 do not specifically provide for the motion which the member for Carleton proposed to move on Monday. My research on the matter has not turned up any example of such a motion being used in our legislature. Having said that, I have had reference to the usage and precedents and parliamentary tradition in other legislatures to assist in determining if this motion may be a legitimate motion and, if so, under what circumstances it may be moved.

A similar motion, one for the House to pass from tabling of documents to motions, has been moved and, in the particular circumstances, found to be in order in the House of Commons of Canada.

I therefore find that a motion providing that the House pass directly from one specific item of the routine proceedings to another item of the routine proceedings to be a legitimate motion which is capable of being applied subject to the restrictions attached to the moving of dilatory motions in the Parliament of Ontario.

Such a motion is, as the member for Carleton has stated, dilatory in nature; that is, the effect of the motion, if carried, would be to put off further consideration of the business at hand by superseding all intervening routine proceedings and it could only be moved after the Oral Question Period.

The routine proceedings have developed as an essential part of the business of the House and if they are not protected the interests of the House and the public it serves are likely to suffer severely. The moving of dilatory motions during routine proceedings is a very recent practice in the Parliament of Ontario and a relatively recent practice in other jurisdictions. It is a practice which can result in delay in the presentation of petitions, reports by committees to the House and the introduction of bills.

Members on both sides of the House have spoken to the importance of protecting the fundamental privileges members have under routine proceedings. To ensure that these fundamental privileges are preserved, I think it essential that I clearly state the circumstances under which such a motion may be moved.

In his April, 1990 ruling, Speaker Edighoffer enunciated the following characteristics which are to apply to a dilatory motion moved during the routine proceedings:

- 1) the motion may be moved by any member on either side of the House who is legitimately in possession of the floor;
- 2) the motion may be moved only following the Oral Question Period and before reaching the period for Orders of the Day, unless the House has unanimously agreed to permit the motion to be moved either before or during the Oral Question Period;

- 3) the motion may be moved without notice;
- 4) the motion is not subject to amendment or debate and the Speaker is required to put the question to the House immediately it is moved by a member;
- 5) if a recorded division is requested, the division bell is limited to 30 minutes; and
- 6) a division requested on any such motion shall not be deferred.

To this I would add that it would be irregular for such a motion to have any conditions attached. The motion should be pure and simple, like the motion for the immediate adjournment of the House or for the adjournment of the debate or that the House do pass to the Orders of the Day.

Motions such as the ones just cited and the motion proposed by the member for Carleton may not be moved until following the Oral Question Period. I believe the reason for this is quite clear; it is to protect the very fundamental privilege of members to have a period where the government must submit on a daily basis its conduct of the affairs of the province to the scrutiny of the members, particularly those members in the Opposition. Without such a provision, it would be open to a member to move and for the majority of the members in the House to agree to a motion the effect of which would be to preclude or supersede the Oral Question Period. Such a situation would clearly not be in the best interests of the House, its members or the electorate.

I have had to make this decision in the absence of any clear direction in our Standing Orders. I want to say to all members that it is not my preference that I or other Speakers be repeatedly faced with situations where the Speaker must look to usage and precedents and parliamentary tradition in other jurisdictions in the absence of any clear or applicable rule in our Parliament. Clearly, it is in the best interests of all members that the House review such situations and, where possible, express itself so that the admissibility of a particular matter is clearly dealt with.

Miss Martel moved that the House do now proceed to the Orders of the Day, which motion was carried on the following division:-

THE AFTERNOON SITTING
1:30 P.M.

SÉANCE DE L'APRÈS-MIDI
13 H 30

The Speaker delivered the following ruling:-

On Monday, April 29, the member for Etobicoke West (Mr Stockwell) introduced a bill entitled, "An Act respecting Government Expenditures".

It has been brought to my attention that Section 1 of this bill specifically directs the allocation of public funds. I must therefore, rule that the bill is in contravention of Section 54 of our Standing Orders and can only be proposed by a Minister of the Crown, supported by a message from His Honour the Lieutenant Governor. The bill is therefore out of order and must be omitted from the Order Paper.

I would also like to advise members that on Wednesday, May 1, the Honourable Leader of the Third Party (Mr Harris), introduced the following bills:

"An Act to amend the Development Charges Act for the Airy & Sabine District School Area Board.

An Act to amend the Development Charges Act for the Asquith-Garvey District School Area Board.

An Act to amend the Development Charges Act for the Atikokan Board of Education.

An Act to amend the Development Charges Act for the Atikokan Roman Catholic Separate School Board".

I must advise all honourable members that Section 1 of these bills appears to be incomplete and so they contravene Section 37(d) of our Standing Orders in that they are in improper form. I must therefore, rule that these bills are also out of order and must be omitted from the Order Paper.

Mr Malkowski moved,

That, in the opinion of this House, recognizing that the time has come for a fundamental assessment of provincial policies and practices concerning intervention services and sign language interpreting services, intervenor training and sign language interpreter training and the availability of intervenors and sign language interpreters in educational settings and in the community generally, the Ministry of Colleges and Universities should immediately undertake a thorough review of those policies and practices, with the scope of the review to include,

- (a) the reasons for the current shortage of intervenors and interpreters in this province and its impact on the ability of colleges and universities, elementary and secondary schools, schools for the Deaf and community service agencies and employers to hire qualified intervenors and interpreters;

- (b) the availability of American Sign Language (ASL) interpreters and Langue de signes quebécois (LSQ) interpreters, oral interpreters, and English and French intervenors in Ontario;
- (c) the availability of intervention training programs and sign language interpreter training programs, including either ASL or LSQ, in Ontario;
- (d) the appropriateness of current entrance requirements for sign language interpreter training programs, particularly the criteria pertaining to prospective students' sign language fluency;
- (e) the number of sign language interpreter instructors who do not have an appropriate sign language interpreter training background;
- (f) the effectiveness of current sign language interpreter training curricula and an assessment of curriculum standards in Ontario, including the degree of involvement of experts and consumers in curriculum development and the extent of ongoing consultation;
- (g) the availability of funds to cover the costs of intervenor services and interpreter services;
- (h) the appropriateness of the currently limited mandates of the Ministries of Community and Social Services, Health, Colleges and Universities, Tourism and Recreation, the Attorney General, Skills Development and Education to assist those who need intervenor services and interpreter services, and the policies of those Ministries on the provision of those services, particularly in relation to interpreter screening, intervenor screening, service quality, and training program quality;
- (i) the availability of current intervenor apprenticeship programs and interpreter apprenticeship programs and their funding status;
- (j) current practices regarding the hiring of sign language interpreters in educational and other community settings;
- (k) the role of the Ministry of Colleges and Universities as it pertains to intervenor and sign language interpreter education, and its mandate to collect province-wide data on issues regarding the quality and effectiveness of the teaching of intervention and sign language interpreting in Ontario;
- (l) the reason or reasons why no faculty of education in Ontario currently provides teacher-training for instructors in intervenor programs and sign language interpreting programs; and
- (m) such other matters that the Ministry considers necessary to complete a thorough evaluation of provincial policies and practices concerning intervention services and sign language interpreting services.

Further, in the opinion of this House, the Ministries of Colleges and Universities and Skills Development should take immediate steps to establish a provincial intervenor task force and a sign language interpreter task force, with the involvement of representatives of the Deaf and Deaf-Blind communities, professional intervenors and sign language interpreters, intervenor providers and sign language interpreter service providers, and intervenor trainers and sign language interpreter trainers, to develop short and long term goals for the expansion of intervenor services and sign language interpreter services, and to advise on apprenticeship programs and the establishment of an intervention

education program and sign language interpreting education program at the college or university level;

The Ministry should immediately establish timetables for pursuing apprenticeship program expansion; and

The Ministry should report to the Legislative Assembly on these matters on or before the 31st day of October, 1991.

A debate arising, at 11:07 a.m., further proceedings were reserved until 12:00 noon.

Mrs Fawcett then moved,

Second Reading of Bill 87, An Act to amend the Highway Traffic Act with respect to Volunteer Fire Fighters / Projet de loi 87, Loi modifiant le Code de la route relativement aux pompiers auxiliaires.

Pursuant to Standing Order 94(e), no objection having been made to the putting of the question on Mr Malkowski's Resolution Number 13, the question having been put, was declared carried and it was,

PRIÈRES

The House expressed its sorrow on the assassination of the former Prime Minister of India, Rajiv Gandhi.

The Speaker delivered the following ruling:-

On Monday May 13, 1991, the Government House Leader (Miss Martel) rose in her place after "Statements by the Ministry and Responses" and asked the Speaker to take measures that (and I am quoting her remarks from page 1315 of the Hansard) "would bring the practice of the Ontario House more closely in line with practices of other Houses of Parliament."

Specifically, the Government House Leader requested that the Speaker do 3 things. I think it is important to quote the Government House Leader's request, as follows:

First, we respectfully request your ruling that the mover of an unsuccessful dilatory motion to adjourn the debate or adjourn the House loses the floor for the remainder of the debate on the matter under discussion, as is the case in both the Canadian and British House of Commons.

Second, we respectfully request your ruling that you as Chair have an inherent discretionary authority to refuse to put the question on a dilatory motion where in your opinion such motion is an abuse of the procedures of the House.

Alternatively, should you find for any reason that the specific rulings we have requested are not appropriate, we would ask that you use your judgement in formulating a response to the present impasse in the Legislature that is duly respectful of both the rights of the majority to govern and the rights of the minority to oppose.

That is what the Government House Leader said. Thirteen other members from all sides of the House spoke to these requests. In view of the importance of the issues

that were raised, I reserved my ruling. I also indicated that I would be willing to accept written submissions over the next 2 days. A number of members availed themselves of this opportunity.

I want to thank all members for their submissions. They helped me in my deliberations over the past 2 weeks.

I want to preface my substantive response to the point of order raised by the Government House Leader by making a few general remarks about the nature and sources of parliamentary practice and procedure in this Assembly. I do so because I have observed some confusion among members as to what qualifies as a point of order, and as to how a point of order should be raised in the House.

The point of order that is currently before me provides an example of this confusion. Various members contended that it was not a point of order at all. However, citation 317 at page 96 of the 6th edition of Beauchesne's Parliamentary Rules & Forms suggests that the Government House Leader did have a point of order. This is what Beauchesne says:

Points of order are questions raised with the view of calling attention to any departure from the Standing Orders or the customary modes of proceeding in debate or in the conduct of legislative business and may be raised at virtually any time by any Member, whether that Member has previously spoken or not.

A question of order concerns the interpretation to be put upon the rules of procedure and is a matter for the Speaker or, in a committee, for the Chairman to determine.

I believe that the source of the confusion about the nature of points of order lies in the mistaken premise that concerns such as those raised by the Government House Leader do not constitute a point of order because there is no specific, relevant provision in the Standing Orders.

However, the rules are only one component of the fullness of parliamentary practice and procedure in our Assembly. This is evident from Standing Order 1(b), which provides as follows:

In all contingencies not provided for in the Standing Orders the question shall be decided by the Speaker or Chair, and in making the ruling the Speaker or Chair shall base the decision on the usages and precedents of the Legislature and Parliamentary tradition.

I say to members, then, that there are 3 sources of parliamentary practice and procedure that are germane to this Assembly.

First, there are the Standing Orders, as amended from time to time by Sessional Orders.

Second, there are the usages and precedents of our House. These usages and precedents have evolved since Ontario's 1st Parliament met in 1867, and some even go back to the Legislature of the province of Upper Canada, which was created in 1791 and first met in 1792.

There is also a third source of practice and procedure -- the traditions of parliamentary institutions in other jurisdictions. These include amongst others the Canadian House of Commons, all of the provincial and territorial legislatures in Canada, the House of Commons at Westminster, and the Australian House of Representatives.

Let me now return to the point of order currently before me.

I begin by reminding members about some of the procedural occurrences that have marked meetings of the House between April 29 (the day on which the Budget was presented) and May 16.

First, excluding adjournment motions pursuant to Standing Order 9, there have been 8 motions for adjournment of the House and 8 motions for the adjournment of the debate on whatever item of business has been before the House at the time of these motions. These motions have often been alternated, the one with the other, and there have been divisions on most of them.

Second, there have been 9 motions to proceed from one part of Routine Proceedings to another or to Orders of the Day. Most of these motions have required recorded divisions.

Third, there have been 19 points of order on the absence of timely responses to written questions under Standing Order 95(d).

And finally, there have been many events related to the introduction of bills. Twenty one private members' public bills have been introduced for first reading, and many of them have been similar in nature. Recorded divisions have been required on 14 of these bills, and the division results often indicated that no one opposed the motion for introduction and first reading. Also, the reading of the long title of Bill 95 by the mover of the motion for introduction and first reading, by the Acting Speaker, and then by the Clerk Assistant and Clerk of Journals filled 12 pages of the Votes and Proceedings for May 6, 1991.

As a result of these occurrences, it has taken considerable time to complete Routine Proceedings in order to get to Orders of the Day. The House got to Orders of the Day before 4.00 p.m. on every meeting day in April except on April 29, when it got to this stage at 4.02 p.m., which is not unusual for a Budget day. In May, the House passed to Orders of the Day sometime between 4.00 p.m. and 6.00 p.m. on 6 meeting days; Routine Proceedings were not completed at the usual 6.00 p.m. adjournment hour for the other 4 meeting days. Not surprisingly, the disposition of business in Orders of the Day, apart from Thursday mornings, has decreased significantly.

Members will know that these occurrences and developments have affected not only afternoon meetings of the House, but also the ability of the standing and select committees to meet after Routine Proceedings.

Before I proceed any further, I want to be clear on one point. I do not recite these occurrences at this point in my ruling because I somehow now find them, taken individually, to be procedurally irregular or because I somehow find fault, on a retrospective basis, with the members who initiated them. On the contrary, most of these occurrences, taken individually, were found to be in order at the time they arose.

The reason I recite them is that the Government House Leader contends that the combined effect of these procedurally valid individual occurrences has been to prevent

the House from dealing with most of the business before it in a meaningful way, and that it is the responsibility of the Speaker to contain such occurrences. That is one of the contentions I have been asked to respond to, and that is why I have listed these occurrences at this point in my ruling.

I shall now consider each of the requests outlined in the statement of the Government House Leader.

The first request is that I make a ruling that would prevent the unsuccessful mover of a dilatory motion to adjourn the debate or the House from regaining the floor when proceedings resume. I have reflected carefully as to whether or not I can do this, and if so, whether I should do so at this point in time.

Let me begin my response to this first request by saying that our Standing Orders do not specifically empower me to recognize another member when proceedings resume after an adjournment motion under Standing Order 44 has been lost.

As regards our practice in such circumstances, my research has found conflicting precedents. On May 11, 1979 Speaker Stokes made these remarks (at page 1859 of Hansard) about who was entitled to speak when proceedings resumed after the adjournment of a debate:

There's a general agreement by the whips, who order the speakers, that speakers follow in rotation. On numerous occasions in the past we've had members get up and adjourn the debate on behalf of a particular party. It's just whoever happens to catch the Speaker's eye. I'm assured by the Clerk that from time immemorial you follow the normal rotation as long as you have speakers to fill the slots.... [W]e're not establishing a precedent here....

However, members will know that, since that time, the member who moved an adjournment motion has regained the floor when proceedings resumed, and this remains our current practice.

In addition, members may move successive motions to adjourn the House as long as there has been an intermediate proceeding pursuant to Standing Order 44(b), and they may alternate motions to adjourn the House with motions to adjourn the debate. For an example of this in the 34th Parliament, I refer members to pages 346 and 347 of our Journals for April 26, 1990.

The rules and the practice in the House of Commons at Ottawa and at Westminster are otherwise. In both of those Houses the movers of such motions lose the floor after the motion is lost. For example, the following remarks appear at pages 333 and 334 of the 21st edition of Erskine May's Parliamentary Practice:

When a motion for the adjournment of the House or the debate has been negatived, it may not be proposed again without some intermediate proceeding. Furthermore, the Speaker has power under Standing Order No 34, if he believes that any dilatory motion is an abuse of the rules of the House, to decline to propose the question on it to the House or to put the question thereon forthwith.

A Member who has already spoken to the main question is not permitted to move either form of dilatory motion; nor, having moved a dilatory motion, may he later speak to the main question if his motion is negatived. Similarly, a Member who has moved a dilatory motion is not entitled to move another in the course of debate on the same question.

I am not unduly concerned about the divergence in practice between our legislature and the practice in other institutions. There are many instances where our usages differ from theirs.

The reason for these and other divergences is quite simple. Our Assembly, which this year celebrates the bicentennial of the founding of its colonial predecessor, has a separate and distinct parliamentary culture, a culture that emerged and evolved when centuries-old British parliamentary institutions and traditions were married or adapted to a space we now know as Ontario. That culture continues to evolve.

And so I say to members, when the Speaker has to look to this Assembly's usages and precedents for guidance in resolving a contentious point in circumstances where the Standing Orders are silent, and when the usages and precedents of other parliamentary jurisdictions differ in some measure from Ontario's on that point, then the Speaker tends to follow the usages and precedents of this House, if they exist. Were the Speaker to do otherwise, there would be considerable confusion.

But the Government House Leader says that what is now before the House is extraordinary, that there is a parliamentary impasse. She contends that, despite its best efforts to do so, the government has seldom been able to proceed with any part of its agenda in a meaningful way since the presentation of the Budget because, among other things, there have been a large number of adjournment motions, many of them requiring a recorded division. I am therefore asked to somehow not permit the mover of an adjournment motion to regain the floor when proceedings resume after the motion is lost.

I will defer responding to this request at this point in my ruling because it begs the question as to whether I am able to act on it, a subject that is key to the second request of the Government House Leader.

Let me now turn to the second request.

The Government House Leader says that the Speaker has an inherent discretionary authority to refuse to put the question on a dilatory motion if it constitutes an abuse of the procedures of the House. She asks that I exercise this discretion if I do in fact find that it exists.

This request has given me much cause for concern and deliberation. Does the Speaker have such a discretion? If so, what are its parameters? Would a decision in this regard not also require the Speaker to engage in the difficult task of ascertaining the real intentions of a member who moves a dilatory motion? Would the exercise of discretion have a retrospective or prospective operation? If the latter, am I being asked to make such a ruling apply to all future situations where a dilatory motion is used, or just to those situations where I would be of the view that it would unduly obstruct the business of the House, or just to those dilatory motions in the current series of alleged obstructions?

Let me begin answering some of these questions by saying that the Standing Orders give the Speaker a discretion in some aspects of our practice and procedure. For example, to determine whether closure and other motions are in order, to adjourn the House for grave disorder, and to recognize members to speak.

But the Standing Orders do not explicitly confer a general or inherent discretion on the Speaker to deal with abuse of the rules or obstruction of House business. Nor is there a House usage or precedent that is directly on point. And so it is necessary to examine the practice in other parliamentary jurisdictions.

In British Columbia, Standing Orders 34 and 44 respectively read as follows:

A motion to adjourn (except when made for the purpose of discussing a definite matter of urgent public importance) shall be always in order; but no second motion to the same effect shall be made until after some intermediate proceedings shall have taken place.

If Mr. Speaker, or the Chairman of a Committee of the Whole House, shall be of opinion that a motion for the adjournment of a debate, or of the House, during any debate, or that the Chairman do report progress, or do leave the chair, is an abuse of the Rules and privileges of the House, he may forthwith put the question thereupon from the chair, or he may decline to propose the question to the House.

The latter Standing Order shares some similarities with Standing Order 86 of the rules of the Australian House of Representatives. It lists 14 questions and motions that are not open to debate, and then provides as follows:

Should any of these questions be negatived, no similar proposal shall be received if the Speaker or the Chairman is of opinion that it is an abuse of the orders or forms of the House, or is moved for the purpose of obstructing business.

Standing Order 34 of the rules of the House of Commons at Westminster provides as follows:

(1) If Mr Speaker, or the chairman, shall be of opinion that a dilatory motion is an abuse of the rules of the House, he may forthwith put the question thereupon from the chair, or he may decline to propose the question thereupon to the House or the committee.

(2) For the purposes of this order the expression 'dilatory motion' shall include a motion for the adjournment of a debate, or of the House, during any debate, or of further consideration of a bill or of the Lords amendments to a bill, or that the chairman do report progress or do leave the chair.

The House of Commons at Ottawa is in the same position as our Assembly -- it has no Standing Order like the ones in the 3 jurisdictions I have just mentioned. However, this has not prevented its presiding officers from finding that they had some latitude with respect to exceptional procedural occurrences, or that they might, in the proper circumstances, exercise such latitude.

For example, on March 18, 1982, after a 14-day bell-ringing episode that had effectively prevented the House from proceeding with the business before it, Speaker Sauve made these remarks (at pages 15,556 and 15,557 of Hansard):

The Speaker is the guardian of the rules of the House. He does not invent them. It is up to the House to decide what changes are necessary. I merely point out that there is a problem. In the meantime, the Chair will continue to be vulnerable until the House provides it with guidelines which would lead to settled practices regarding those very difficult and highly controversial questions, where the rules and practices appear to be less than satisfactory. ...

I may point out that obstructive tactics are allowed by the rules. However, their use must be regulated so as to safeguard the government's right to have the House consider its order of business and the equally important right of the opposition to criticize, oppose and even obstruct a government measure.

...
It is my hope that such a situation will never again occur in this House. However, should it occur again, the Chair, unless it is provided with firm guidelines, would need to consider its course of action with very great care under the new circumstances. I trust that in the overriding interests of this honourable institution, the House will take steps to make known its will as to how the Chair should act before any such situation occurs again.

The bell-ringing episode and Speaker Sauve's remarks had an effect on how the House of Commons' presiding officers subsequently dealt with analogous situations. The changed climate informed the views of the Deputy Speaker of the House of Commons when he cautioned members about the use of dilatory tactics in the House on October 27, 1983. He made the following remarks (at page 28,375 of Hansard):

The Chair is not prepared to entertain a series of dilatory motions whose object -- and I call this to the attention of Hon. Members -- is to impede the orderly flow of House of Commons business. This is something which Hon. Members might well wish to remember. They may well wish to remember my words of today, because circumstances could well change in this place and Hon. Members are creating precedents that they themselves might have to live with. That is something that they will have to be concerned about and answer to themselves.

At this point the Chair recognizes the points of order that have been raised. It has ruled on the points of order that have been raised. It is always the right of Hon. Members to raise points of order, but there is a point at which the Chair has to decide that the proceedings are dilatory, designed to impede the conduct of business of the House, and under such circumstances the Chair has to exercise some initiative.

And on April 14, 1987, Speaker Fraser ruled that a government motion to proceed from the one part of Routine Proceedings to another was in order in circumstances where there had been a protracted series of procedural occurrences related to a

government bill. He found that these occurrences had become a substitute for debate and that they were disrupting Routine Proceedings. I want to quote extensively from this important ruling for the benefit of members. This is what Speaker Fraser said (at pages 5120 and 5121 of Hansard):

In the kind of situation which faces us, I have no doubt that negotiation provides the only route to a satisfactory solution. However, when negotiations fail there comes a time when the Chair is obliged to consider what its own responsibilities are. One of the functions of the Speaker is to ensure that the House is able to transact its business. This does not mean that the Chair plays any part in assisting the Government in the management of its business agenda. I want to repeat that; this does not mean that the Chair plays any part in assisting the Government in the management of its business agenda.

Considerable debate has already taken place on this Bill. It cannot be argued the opportunities for airing objections to it have been unreasonably restricted. There has been considerable disruption of Routine Proceedings which, as I have said, has given me grave concern.

...
The House is ... facing an impasse which it has been unable to resolve for itself. There comes a time when the chair has to face its responsibilities. When circumstances change and the Rules of Procedure provide no solution, the Chair must fall back on its discretion in the interest of the House and all its members. This may require the Chair to modify or vary an earlier decision.

...
An eminent parliamentary authority, Josef Redlich, has written that it is the duty of the Speaker to serve the majority and the minority:

-- by maintaining the rules and the usage of centuries, and by taking care that both majority and minority are not impeded in the use of the forces and the weapons which the order of business provides for strong and weak. Protection of a majority against obstruction and protection of minority against oppression are both alike functions of the Chair.

...
I repeat my conviction that the entire question of the use of dilatory motions during Routine Proceedings needs to be examined and that no procedures should be sanctioned which permit the House to be brought to a total standstill for an indefinite period. Division bells are no substitute for debate.

...
The decision of the House to change the manner of electing its Speaker is indicative of the fact that the House of Commons has matured. Has it matured enough to confer upon its Presiding Officer the discretionary powers necessary to control abuse and resolve deadlocks that the British House of Commons gave its own Speaker over a century ago? I believe it has.

That is what Speaker Fraser said. On June 29, 1987, he made some additional remarks about the circumstances in which he had exercised his latitude to act. He said the following about his April ruling (at page 7713 of Hansard):

If Hon. Members have taken from my ruling of April 14 that the Chair would, in the future, exercise discretion on any or all of the rules of the House, they have misunderstood the letter and the spirit of the ruling. The discretion I exercised on that day was in the context of an absolute lack of any guidance in the Standing Orders -- I repeat, in the context of an absolute lack of any guidance from the Standing Orders -- or in the precedents, or practices, or conventions of this House. Nor was there any direction from the House itself, at that moment.

I have found these authorities most helpful, and I find, without limiting the ambit of the duties and powers of the Speaker of the Legislative Assembly of Ontario, that the Speaker does have a latitude to act in exceptional instances where the Standing Orders are being abused or where the business of the House is being obstructed.

Given that I have this latitude, I now have to determine whether the situation before me is such that I should act.

I begin my response on this issue by making a few remarks about the role of the Speaker in parliamentary jurisdictions. As with all presiding officers, the Speaker has to avoid becoming involved in partisan activities in the exercise of his or her office, and has to avoid the appearance of such involvement. The Speaker must uphold the independence and integrity of the office, protect the rights of both the majority and the minority, and uphold the privileges of the House and its members. I am cognizant, and have often reminded myself, of the importance of respecting the letter and spirit of these prescriptions, and members can rest assured I will continue to be vigilant in this regard.

In my deliberations on whether or not I should exercise the latitude to act that is reposed in me, I have been mindful of the fact that previous Speakers have not had occasion to act in the way I am asked to act. This suggests to me an obvious point, namely, that the Speaker will rarely be faced with a situation where the Standing Orders are being abused or where there is obstruction to the point that he or she must act.

In this vein, I remind members that there have been many serious procedural difficulties in the history of this legislature, and they have not been resolved by the kind of intervention that is now being sought by the Government House Leader.

For example, in the last session of the 34th Parliament, there was an unprecedented 50-hour debate, over 17 meeting days, on a time allocation motion with respect to Bill 68. The debate ended when the government moved closure.

In the course of that debate, there were many procedural occurrences. There were adjournment motions. There were points of order. There were petitions. There were motions for the introduction and first reading of bills. There were recorded divisions on these motions. And there were quorum calls. Members will recognize some of these procedural occurrences as having also marked recent meetings of the House.

Throughout that period, members from the government side contended, as members from the government side do now, that many of the procedural occurrences were out of order. But the Speaker and the other presiding officers ruled that most of them did not offend our rules, as has been the case with the current series of procedural occurrences.

Should I, then, exercise my latitude to act? Does anything prevent me from so doing? In answering this question, it is clear from the rulings of the House of Commons' presiding officers that I have already referred to that I have to consider all the circumstances. And so that members may know how they might guide themselves, I will review how 2 of these circumstances apply to what has transpired in this House in recent weeks.

First, it is clear from the rulings that I have referred to that before the Speaker acts, he or she must be satisfied that the members themselves have attempted to resolve the difficulties that beset the House. There must have been sustained and good faith, albeit unsuccessful, efforts by members to resolve their differences by the traditional, time-worn method of negotiations.

It is also clear from those rulings that before exercising a latitude to act, the Speaker must be satisfied that the situation in the House approaches a deadlock or standstill.

In short, I will not act on the Government House Leader's second request in the absence of evidence that there is no room left for negotiations, and that the situation in the House approaches a deadlock or standstill. These 2 circumstances were not present when the point of order was raised 2 weeks ago, and they are not present today.

I hope that my remarks on the second request encourage members to resolve their differences and to see their way clear to proceed with the business of the House so that it is not necessary for me to act.

I trust that it is obvious from what I have said about the Government House Leader's second request that I cannot act with respect to her first request. However, let me also say that the moving of adjournment motions under Standing Order 44 -- as with dilatory tactics generally -- can, in a proper case, qualify for the exercise of the Speaker's latitude.

I turn now to the alternative request of the Government House Leader. She suggests that, in effect, the Speaker has an overarching discretion to act as he or she thinks fit. This goes far beyond the second request. This kind of open-ended request is a common feature of statements of claim and other kinds of legal pleadings in civil law, but it is an inappropriate request in so far as the law and custom of parliament is concerned. It is a request that I somehow resolve the alleged impasse so as to assist the government to push its agenda through the House.

This I will not do, as it is incompatible with not only the nature of the office of the Speaker, but also the idea of parliamentary democracy, something that members from all sides of the House alluded to many times in their submissions on the point of order 2 weeks ago.

I say to members that it is for the government of the day to decide the agenda, and for the House to consider the business put before it by that government. Speaker Stokes made some instructive remarks on this very point in this House on May 29, 1979. He said the following (at page 2292 of Hansard):

[I]t is not the responsibility of the chair to order the business of this House or the committees of the House, which are creatures of the House. The ordering of business is the responsibility of the government House leader in consultation with the other two House

leaders.... [Y]ou wouldn't want the chair to be forcing its position on the ordering of the business of this House or its committees. It must be resolved by the proper authorities. There is nothing I can do about it.

In declining to act on the third request, I say that the primary responsibility for resolving differences and difficulties among the members lies with the members themselves. In the past, this has usually been done by negotiations and by changes to the Standing Orders.

In closing my remarks on this point of order, I want to say to members that while I have declined to act on any of the requests of the Government House Leader, I am very much aware of the exchanges and strains among members and the Parties in the past few weeks. I want to be helpful, to render what assistance I am able to give. To this end, I say that my office is available to facilitate resolutions to problems and conflicts to the extent that it would be consistent with the essential nature of the office.

I thank the members for their attention in the course of this extended ruling. It offers something for all members. I trust that it offers some guidance as well.

The Speaker further ruled as follows:-

Also on Thursday last (May 23), the Honourable Member for Algoma, the Minister of Natural Resources, (Mr. Wildman) rose on a point of order complaining of remarks made the day before, in this House, by the Honourable Member for Simcoe East (Mr. McLean).

I have had a chance to consult Hansard and have reviewed the offending words. I must say that had I been able to hear those words when they were said to the House or had they been brought to my attention at that moment, I might have asked the honourable member to withdraw his words.

In the circumstances I must counsel all honourable members that Members Statements should not be used to proffer personal attacks upon other members in this House nor should they, in any way, be couched in language that is disorderly.

Pursuant to Standing Order 35(b), the following Petitions were presented:-

Petition relating to Anti-Abortion (Sessional Paper No. P-5) (Tabled May 27, 1991) Mr K. Sutherland.

Opposition Day

Mr Bradley moved,

That in the opinion of this House, the budgetary policy of the Bob Rae government fulfils the worst fears people have of the inability of the New Democratic Party to restrain and control government spending; results in the highest deficit in the province's history, at least \$9.73 billion; increases taxes by at least \$1 billion; and condemns the province to a generation of crushing debt and increased taxation, therefore, this House calls upon the Premier and the Treasurer: to introduce a new budget after appropriate consultation with the people of the province that provides a strategy for debt reduction, manages government spending, reduces the taxation burden for individuals and business, and creates a climate for economic recovery and growth.

The Speaker ruled as follows:-

Yesterday, the Honourable Member for Ottawa Centre (Ms Gigantes), rose on a point of order concerning the appropriateness of certain words used during Question Period by the Honourable Leader of the Third Party (Mr Harris).

At the time, I undertook to review Hansard and report back to the House. My examination of Hansard has confirmed my first impression. The use of the words complained about do not constitute a valid point of order because the Leader of the Third Party did not accuse another Member of this House of lying. However, his words could be taken to imply that the minister had accused a member of the public of lying. While this is not contrary to our rules, I do agree with the Honourable Member for Ottawa Centre that it is a breach of parliamentary etiquette and I would encourage members to be very responsible with their use of language in this Chamber.

Pursuant to Standing Order 35(b), the following Petition was presented:-

 Opposition Day

Mr Kwinter moved,

That in the opinion of this House, this government has failed to recognize and address the massive de-industrialization and restructuring underway in the Ontario economy which has led to the loss of 248,000 jobs since the New Democratic Party assumed power, the erosion of Ontario's quality of life and the destruction of the fabric of manufacturing and resource communities, therefore, this House calls upon the Premier and the Treasurer to provide leadership in establishing true working partnerships with business and labour to: reorient the province's fiscal priorities, attract new investment and new jobs, improve competitiveness, and train and retrain Ontario workers in order to enable Ontario industry and workers to compete in an increasingly global market.

And a debate arising, after some time, the motion was lost on the following division:-

Want of Confidence Motion pursuant to Standing Order 42(a)

In the absence of Mr Harris, Mr Cousens moved,

That the government has lost the confidence of this House because:

- (a) its fiscal and budgetary policies are undercutting Ontario's economic competitiveness, discouraging investment and encouraging the out-migration of Ontario firms, and because these policies will impose an intolerable burden of debt on future generations of Ontario taxpayers and are having a negative effect on cost-sensitive Ontario industries such as the tourism industry, manufacturing industry and the trucking industry and are exacerbating the problem of cross-border shopping;
- (b) in spite of its rhetoric on the need for "partnerships" the government has practised arbitrary and secretive decision making as exemplified by its unilateral decision to change the oath of allegiance to the Queen and has failed to engage in meaningful consultation with the Ontario business community as evidenced by the debacle surrounding the legislation to establish a wage protection fund - Bill 70;
- (c) the Premier has diluted and failed to enforce the principles established in his own conflict of interest guidelines and consequently the government has failed to meet what it described as its "first challenge ... to earn the trust and respect of the people of Ontario".

And a debate arising, after some time, the motion was lost on the following division:-

SEVENTY-NINTH DAY

THURSDAY, SEPTEMBER 26, 1991

PRAYERS

PRIÈRES

Ms Harrington moved,

That, in the opinion of this House, the time has come for a fundamental assessment of provincial policies and practices concerning violence against women, therefore the Office Responsible for Women's Issues should undertake a thorough review including:

- 1) the rights of people accused of assault to function in a manner that could be considered dangerous to members of society,
- 2) the causes of violence against women and how the legacy of violence can be stopped,

- 3) the effectiveness of education programs and how they can better serve victims of violence, and
- 4) the accessibility of shelters for battered women and the need for shelters in all communities.

A debate arising, at 11:02 a.m., further proceedings were reserved until 12:00 noon.

Mr Kwinter then moved,

That, in the opinion of this House, given the horrendous negative effect the policies and proposals of the New Democratic Party government have already had on the investment and job creation climate in Ontario, and given the deliberately anti-business proposal by the federal Conservative government to introduce a payroll tax to fund its wage protection program, thus making successful workers and employers pay the costs for their unsuccessful counterparts, the present Government of Ontario should at no time introduce a payroll tax as a means of funding the Employee Wage Protection Program.

At 12:00 noon, with unanimous consent, the Resolution moved by Ms Harrington was amended by deleting Sections 1, 3 and 4.

Pursuant to Standing Order 94(e), no objection having been made to the putting of the question on Ms Harrington's Resolution Number 22 as amended, the question having been put, was declared carried.

And it was,

Resolved, That, in the opinion of this House, the time has come for a fundamental assessment of provincial policies and practices concerning violence against women, therefore the Office Responsible for Women's Issues should undertake a thorough review including:

- 2) the causes of violence against women and how the legacy of violence can be stopped.

Pursuant to Standing Order 94(e), no objection having been made to the putting of the question on Mr Kwinter's Resolution Number 19, the question having been put, was lost on the following division:-

With unanimous consent, in the absence of Mr Harris, Mr Villeneuve moved,

That this House, having witnessed the serious deterioration of crop prices through 1991, particularly in grains and oilseeds, and realizing that the new federal-provincial support programs are not in place for the 1990/91 crop year, further realizing that the Ontario Government has refused to participate in the NISA program this year, and recognizing that Ontario farmers require the same commitment from their provincial government as farmers across Canada receive from their provincial governments to create a more level playing field, observing that consultations with farm groups have not yielded necessary emergency aid, and recognizing that drought conditions in South-Western Ontario have compounded an already desperate farm income situation, and also recognizing that Ontario agriculture has been neglected as a priority by the Government, calls upon the Premier and Cabinet to participate in the NISA program for this year and to introduce further measures to give Ontario producers at least the same protection for 1990/91 that they will have under the new safety net programs, in order to meet the commitment made by agriculture ministers at their meeting in Regina in March, 1991.

EIGHTY-SIXTH DAY**WEDNESDAY, OCTOBER 9, 1991**

The Speaker ruled as follows:-

On Monday last, the honourable member for Brampton North (Mr. McClelland) and the honourable member for Mississauga West (Mr. Mahoney), raised points of order arising out of Question Period. I undertook at the time to review Hansard and report back to the House.

In regard to the point raised by the honourable member for Brampton North, I have examined Hansard and I must find that what took place yesterday was an expression of a difference of opinion between the honourable member and the Honourable Minister of Community and Social Services. As to the use of the word "misrepresents" which was complained about by the honourable member, I did not hear it during the exchange yesterday, and Hansard reports it in a most indefinite way. Therefore, as has been ruled many times before in this chamber, while there was obviously disagreement as to the facts involved, unparliamentary language was not used.

As for the point raised by the honourable member for Mississauga West that the Question Period is not one that should be used by Members in order to make statements in the House, I am in full agreement. Statements by Ministers should be made to the House in that period in our Routine Proceedings that is dedicated for that activity. However, that is not to say that the Speaker is in a position to make judgements on the contents of answers in order to determine whether or not they constitute announcements of public policy. Therefore, I will repeat that as much as possible, Ministers should refrain from using the Question Period to make statements that should be made during the procedure called Statements by the Ministry especially in response to questions asked by members sitting on the government benches.

In closing, I would like to thank both honourable members for having raised this and I express the wish that members will continue to use the Question Period for what it was meant and that is, to elicit information and that Ministers in response will, as briefly as possible, come forward with the requested information.

Before "Oral Questions", pursuant to Standing Order 16, the Speaker recessed the House for 10 minutes for grave disorder.

Pursuant to Standing Order 35(b), the following Petition was presented:-

Petition relating to Oath of Allegiance (Sessional Paper No. P-21) (Tabled October 9, 1991) Mr J. Wilson (Simcoe West).

Mr Wilson (Simcoe West) moved,

À debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

Mr Mancini then moved,

That, in the opinion of this House, given the crisis facing Ontario's agricultural economy in dealing with high input costs and low prices, which have fallen by 35% this crop year for grains and oilseeds and which have remained at depressed levels for other crops and the livestock sectors, and taking into account the fact that long term federal-provincial price and income support programs are not scheduled to take effect until next year; and, given the extensive crop damage in Southwestern Ontario

this summer due to drought, particularly in Essex and Kent Counties; given the importance of ensuring the survival of Ontario's family farms; and, given the continuing policy of the NDP government to ignore the problems facing the economy of rural Ontario; the Government of Ontario provide immediate emergency agriculture funding in order to maintain the viability of the rural economy and family farms.

On Wednesday, October 9th, the Leader of the Opposition (Mr Elston) raised a point of order with respect to statements by ministers of the Crown made outside the Legislative Chamber. The members for St George-St David (Mr Scott), Parry Sound (Mr Eves), Parkdale (Mr Ruprecht), Oriole (Mrs Caplan), York Centre (Mr Sorbara), Willowdale (Mr Harnick) and Etobicoke West (Mr Stockwell) joined the Leader of the Opposition in expressing concern over ministerial announcements made outside the Legislative Chamber.

Statements by ministers of the Crown have been given a recognized place in the routine proceedings. Standing Order 31(a) specifically provides that "[a] minister of the Crown may make a short factual statement relating to government policy, ministry action or other similar matters of which the House should be informed."

The Standing Orders do not require or compel ministers of the Crown to first make statements of public policy or new directions to be taken by the government to the House. Standing Order 31(a) is permissive; a minister of the Crown "MAY" make such a statement in the House.

Statements of government policy or ministry action made outside the Legislative Chamber by ministers of the Crown do not constitute legitimate points of order. This has been confirmed on many occasions by me and my predecessors as Speaker in Ontario and by Speakers in other legislatures in Canada and the Commonwealth. The definitive statement on this matter was made by Speaker Lamoureux of the House of Commons of Canada on October 30, 1969. In his ruling, Speaker Lamoureux stated:

The question has often been raised whether parliamentary privilege imposes on ministers an obligation to deliver communications to the public through the House of Commons or to make these announcements or statements in the House rather than outside the Chamber. The question has been asked whether honourable members are entitled, as part of the parliamentary privilege, to receive such information ahead of the general public. I can find no precedent to justify this suggestion. There may be, in such circumstances, a question of propriety or a question of courtesy. There may be a grievance. But in my view there cannot be a question of privilege.

Although I have no power to force ministers of the Crown to come before the House and make a statement on government policy or ministry action, I am of the opinion that the members who spoke on this matter have a valid grievance of which the government should take serious note.

I concur with the statement of Speaker Weatherill of the House of Commons at Westminster on July 16, 1991. The Speaker stated:

Time was when Ministers always made statements to the House before they made them outside. I hope that we can get back to that practice. This Chamber is the forum of the nation. This is where statements should always first be made, not to those outside.

On Wednesday last, the Leader of the Opposition (Mr Elston) rose on a question of privilege soon after the Oral Question Period began. He informed the House that a member of the Premier's staff seated in the government section under the Press Gallery behind the Speaker's dais had just directed a remark to the member for Brampton North (Mr McClelland) as he was placing a question to the former Minister of Community and Social Services (Ms Akande).

Members will know that such matters are covered by our Standing Orders.

Standing Order 13(a) empowers the Speaker to maintain order and decorum in the Chamber.

Standing Order 17 reads as follows: "Any stranger admitted to any part of the House or Gallery who misconducts himself or herself, or does not withdraw when strangers are directed to withdraw, while the House or a Committee of the Whole House is meeting, may be expelled from the precincts of the House by the Sergeant-at-Arms, or anyone acting under the direction of the Sergeant-at-Arms."

And Standing Order 18 reads as follows: "All strangers may be excluded from the House or any committee thereof on a motion properly moved and adopted by the House or the committee, as the case may be."

It is clear, then, that members' staff, the press and members of the public are permitted to be in the galleries when the House is meeting, but only as long as they do not misbehave or disrupt the business of the House.

The 21st edition of Erskine May's Parliamentary Practice states the following at page 115: "Any disorderly, contumacious, or disrespectful conduct in the presence of either House or committee will constitute a contempt, which may be committed by strangers, parties or witnesses.... Strangers have been punished for contempt for disorderly conduct for having interrupted or disturbed the proceedings of either House or a committee...."

The 2nd edition of Australia's House of Representatives Practice states the following at page 161: "To perform its functions the House must be protected from physical disruption, disturbance and obstruction and there is no doubt that the House has the power to protect itself from such actions."

I have to say that, at the time in question, I did not hear anything untoward from the undergalleries, but I undertook to investigate the matter. I have had an opportunity to review Wednesday's Hansard, but it contained no record of a remark by a stranger. I am satisfied that the Sergeant-at-Arms dealt with the matter in the appropriate way. Members can rest assured that I will continue to be vigilant to ensure that order and decorum are maintained in the House. Misbehaviour by occupants of the galleries will not be tolerated.

In closing, I want to thank the Leader of the Opposition for raising what I took to be a very serious matter. This incident also affords me an opportunity to encourage members to do their part in the maintenance of order and decorum in the Chamber. Members will recall that there were many interjections in the Chamber at the outset of last Wednesday's Oral Question Period, as has been the case in other recent Question Periods before and since. In such circumstances, it can be difficult to hear what is being said by members who properly have the floor, let alone ascertain whether inappropriate remarks are being made from the galleries. It would therefore be most helpful if members would speak one at a time and after having been recognized by the chair. This would help the Speaker to maintain order and decorum in the Chamber.

On Thursday, October 10th, the member for Dufferin-Peel (Mr Tilson) raised a question of privilege with respect to remarks made in a court of law by a lawyer representing the Ministry of Consumer and Commercial Relations. The member for Dufferin-Peel was of the opinion that the remarks constituted a question of privilege or contempt in that they were insulting and obstructed members in the performance of their functions by diminishing the respect due to the House and its committees, by prejudging the results of a committee of the legislature and by calling into question the validity of the powers and integrity of the members of the House.

The member for Essex South and Chair of the Standing Committee on General Government (Mr Mancini) also spoke to this question of privilege. He indicated that this was a matter which was before the standing committee and that the clerk of the committee had been asked to obtain the court transcripts so that the Committee could see for itself what was said and whether the remarks attributed to the ministry lawyer were true.

This is clearly a matter which is before the Standing Committee on General Government and ought to be settled in the Committee, not in the House. After considering the court transcripts, the Committee may make a report to the House on matters which affect its proceedings. There being no report from the Committee, the matter may not be raised as a question of privilege in the House.

Pursuant to Standing Order 35(b), the following Petitions were presented:-

Petitions relating to Oath of Allegiance (Sessional Paper No. P-21) (Tabled October 15, 1991) Mrs L. McLeod, Mr C. Beer and Mr J. Wilson (Simcoe West).

That, in the opinion of this House, the Government of Ontario should begin consultation with the public and with health professionals, pharmaceutical manufacturers and health-related organizations regarding the implementation of a compensation scheme for vaccine related injury.

Mr Sola then moved,

That, in the opinion of this House, given that there is extraordinary population growth in the areas of the Greater Toronto Area immediately surrounding Metropolitan Toronto, and that current development plans, such as the Sandringham-Wellindale development in Brampton, and the pattern of immigrant settlement suggest that such growth will continue indefinitely, and given that in 1991 the growth boards, namely the Peel Board of Education, the Dufferin-Peel Roman Catholic Separate School Board, the Durham Board of Education, the Durham Region Roman Catholic Separate School Board, the York Region Board of Education and the York Region Roman Catholic Separate School Board, were seriously underfunded in comparison to their expressed capital requirements, the present Government of Ontario should undertake to develop a capital funding formula particular to these growth boards to take into consideration their extraordinary needs.

THE AFTERNOON SITTING
1:30 P.M.

SÉANCE DE L'APRÈS-MIDI
13 H 30

The Speaker delivered the following ruling:-

On Tuesday of this week, the Leader of the Opposition (Mr Elston) rose on a question of privilege concerning a visit by police officers to his office in the Parliament Building. He was of the view that the visit was preventing him from carrying out his work and that it infringed the rights of the minorities in this House.

This matter is covered by paragraph 2 of section 45(1) of the *Legislative Assembly Act* which provides that the Assembly may find that it is a breach of privilege or a contempt to obstruct, threaten or attempt to force or intimidate a member of the Assembly.

Having had an opportunity to review Tuesday's *Hansard* and the relevant parliamentary authorities, I find that a situation whereby outside police authorities interview a member in his or her parliamentary office does not, in the case at hand, amount to intimidation or obstruction in the parliamentary sense of those words.

While the Leader of the Opposition has not established, in my opinion, a *prima facie* case of privilege, this does not end the matter. I am concerned about how this incident affects other areas of the law and custom of Parliament.

Therefore, let me make some remarks and give some directions concerning the proper procedure that must be followed by police forces seeking to interview someone in the Legislative Precinct.

In doing so, I am cognizant that there is no rule or precedent of this Assembly on this specific point, and accordingly I have carefully canvassed the parliamentary authorities with respect to the practices and procedures in other jurisdictions.

Maingot's *Parliamentary Privilege in Canada* states the following at page 146:

[T]he exclusive privilege of the House to regulate proceedings within its own walls must be respected. It is well established that outside police forces on official business shall not enter the precincts of Parliament without first obtaining the permission of Mr Speaker. To this limited extent, the law and custom of Parliament prevails over the general law. The Sergeant-at-Arms or a member of the Protective Service should accompany police officers while officially in the building in assertion of parliamentary authority and to prevent police "fishing expeditions".

The 2nd edition of *Australia House of Representatives Practice* states the following at page 164:

Police may not enter Parliament House for the purpose of interrogating anyone or executing a warrant without the express consent of the Speaker or President. There are a number of precedents of such consent being granted in the case of police wishing to interview Members. In commenting on one such incident the Speaker stated:

To avoid any misunderstanding as to the powers of the police in this building, I draw to the attention of the House that it is accepted as part of the Parliament's privileges and immunities that the police do not have a right to enter the Parliament building without the prior knowledge and consent of the President and/or the Speaker. The police officers who visited the honourable member yesterday sought my permission to do so before coming to the building.

It is clear, then, that police forces cannot, as of right, interview an occupant of the Legislative Precinct; they have to first obtain the consent of the Speaker.

I might say to members that there has not been a ruling by any previous Speaker of this Assembly on this point because there has never been a request to do so. Now that the procedure has been set out in this ruling, I want to caution interested persons that failure to comply with this procedure in the future may constitute a breach of privilege or a contempt.

Pursuant to Standing Order 35(b), the following Petitions were presented:-

Petitions relating to Oath of Allegiance (Sessional Paper No. P-21) (Tabled October 17, 1991) Mr J. Wilson (Simcoe West) and Mrs D. Poole.

Debate was resumed on the motion for Second Reading of Bill 118, An Act to amend the Power Corporation Act / Projet de loi 118, Loi modifiant la Loi sur la Société de l'électricité.

NINETY-THIRD DAY

WEDNESDAY, OCTOBER 23, 1991

PRAYERS
1:30 P.M.

PRIÈRES
13 H 30

The Speaker delivered the following rulings:-

On Thursday, October 17, the member for St Catharines (Mr Bradley) raised a question of privilege with respect to outside police forces interviewing members of the Assembly and requested clarification of a ruling I had made earlier that day on this matter. The member for Etobicoke West (Mr Stockwell) also spoke to this matter, as did the Leader of the Opposition (Mr Elston) and the member for Scarborough-Agincourt (Mr Phillips).

First, let me say that the parliamentary privileges of members of the Assembly were never intended to set members, including the Speaker, above the law. Such privileges were intended to give members and others certain special rights and immunities considered essential for the operation of the Assembly. These rights and immunities allow the Assembly to meet and carry out its proper constitutional role. They also permit members to discharge their parliamentary responsibilities, and permit others properly involved in the parliamentary process to carry out their duties and responsibilities.

The Speaker is the custodian of the powers and privileges of Parliament, but my authority does not extend beyond the legislative precinct with respect to the matters raised by the members last Thursday.

In addition, the Speaker will not give a decision on a hypothetical question. The Speaker will, however, give a decision on specific and actual events that have transpired and have been raised in the House. In respect of the suggestion that I set out guidelines or criteria by which requests by police forces to interview an occupant of the legislative precinct will be considered, I must say to members that the Speaker will consider each such request by a police force on a case by case basis.

Our precedents, the precedents of other legislatures and the parliamentary authorities are very clear on these points.

Although I understand the very real concerns of the members, for the above reasons I am not in a position to deal with them.

On Thursday last and yesterday, a number of members, including the Government House Leader (Mr Cooke) and the members for Durham East (Mr Mills) and Sarnia (Mr Huget), raised points of order with respect to language used during the proceedings in the House.

The rules against the use of offensive, disorderly or otherwise unparliamentary expressions are designed to ensure that proceedings are conducted with dignity and decorum, and in a temperate and moderate manner. Language used in the course of our proceedings should be worthy of the place in which it is spoken. I remind members that although the responsibility for determining whether words or expressions used in the House are unparliamentary rests with the Speaker, they themselves must bear the primary responsibility for their conduct in the House.

I do not propose to deal any further with the points of order raised by the members, other than to say that I am greatly concerned about the use of certain expressions with reference to Nazi Germany. I regard such expressions as totally inappropriate for this Chamber. As a general principle, in the future I will not allow such expressions directed to one side of the House or the other. If such expressions are used in the course of our proceedings, I will intervene and cause a withdrawal to be made.

On motion by Mr Cooke,

Ordered, That the Standing Committee on Resources Development shall meet to consider Bill 118, An Act to amend the Power Corporation Act, during the Winter Adjournment in accordance with a schedule of meeting dates to be agreed to by the 3 Party Whips and to be tabled with the Clerk of the Assembly at a later date, as follows: one week to receive public submissions at meetings in Toronto, 2 weeks to receive public submissions at meetings outside of Toronto and one week for clause-by-clause consideration of the Bill. All proposed amendments shall be filed with the Clerk of the Committee prior to the last day on which the Committee is authorized to consider the Bill clause-by-clause. At 4:00 p.m. on the last day on which the Committee is authorized to consider the Bill clause-by-clause, those amendments which have not yet been moved shall be deemed to have been moved and the Chair of the Committee shall interrupt the proceedings and shall, without further amendment or debate, put every question necessary to dispose of all remaining sections of the Bill and any amendments thereto. Any divisions required shall be deferred until all remaining questions have been put, the members called in once and all deferred divisions taken in succession. The Committee shall report the Bill to the House on the first day of the Spring meeting period. In the event that the Committee fails to report the said Bill on the date provided, the Bill shall be deemed to be reported to and received by the House.

The Speaker ruled as follows:-

On Thursday last, the member for Dufferin-Peel (Mr Tilson) raised a question of privilege with respect to a matter on which I had given a decision on Tuesday, October 15, 1991, concerning remarks made in a court of law by a lawyer representing the Ministry of Consumer and Commercial Relations on a matter which was before a committee of the House.

On October 15th, I ruled that this was a matter which was specifically before the General Government Committee and, as such, ought to be settled in the Committee and not in the House.

I reiterate that this matter may only be brought before the House by way of a report from the Committee. I did not ask or instruct the Committee to report back to me or the House. Whether a report is made to the House on this matter is for the Committee itself to decide.

I do not propose to hear further submissions on this matter.

The House expressed its condolence on the death of John Root, member for the Electoral District of Wellington-Dufferin from November 22, 1951 to August 11, 1975.

The Speaker ruled as follows:-

Yesterday, honourable members will remember I ruled on a point of order that had been raised during Question Period by the honourable Member for Carleton (Mr. Sterling), regarding the right of a Minister to reply to a question that had not been asked.

Following Question Period, the honourable House Leader of the Third Party (Mr. Eves), asked me if I could look into this and report back to the House. At that time the honourable Member for Renfrew North (Mr. Conway), also contributed to the point and I did undertake to look at Hansard and I am now ready to report back.

Very briefly, I agree with the Member for Renfrew North and I stand by my ruling of yesterday. Even though there might not have been an interrogatory part to the statement made by the Leader of the Third Party yesterday, he had been recognized to ask a question and he had used up the time to make substantial remarks, therefore, it was perfectly in order for The Honourable Treasurer to reply.

The Speaker delivered the following rulings:-

On Wednesday, 6 November 1991, the member for Lanark-Renfrew (Mr Jordan) raised a question of privilege with respect to a telephone conversation with a senior official of Ontario Hydro following a statement the member had made in the House regarding the government's policy on conservation programmes.

I have carefully reviewed the points raised by the member for Lanark-Renfrew both in the House and in correspondence to me. The record tends to indicate that there was nothing more than a disagreement between the member and the official of Ontario Hydro. This falls well short of establishing a *prima facie* case of privilege.

At the request of the honourable member for York Centre (Mr Sorbara) who raised a question of privilege on Monday last, I have had a chance to review the document that he forwarded to me and can find no basis for a *prima facie* case of privilege.

Mr Runciman from the Standing Committee on Government Agencies presented the Committee's Nineteenth Report / dix-neuvième rapport (Sessional Paper No. 362) (Tabled November 27, 1991).

Pursuant to Standing Order 104g(11), the Report was deemed to be adopted by the House.

Mr White from the Standing Committee on Regulations and Private Bills presented the Committee's Report which was read as follows and adopted:-

Your Committee begs to report the following Bills without amendment:-

The following Bill was introduced, read the first time and referred to the Standing Committee on Regulations and Private Bills:-

Opposition Day

Mr Bradley moved,

That, in the opinion of this House, since the Government has assumed power:

- the province's unemployment rate has reached 9.6 percent;
- more than 286,000 Ontario workers have lost their jobs;
- more than 1 million people in Ontario are on welfare;
- the government has predicted that Ontario's economy will shrink by 3.3 percent;
- the deficit will reach \$9.7 billion this year;
- and even with these predictions, the Treasurer has miscalculated twice, been forced to delay spending and ask for more federal money;

Therefore this House calls upon the Treasurer to introduce a comprehensive plan for economic renewal which will get the province's economy moving again.

And a debate arising, after some time, the motion was declared carried.

The House then adjourned

Mr Mahoney moved,

That in the opinion of this House, since every member of Provincial Parliament must have a real opportunity to effectively impact on proposed laws and the budget, in order to ensure governing parties remain sensitive to all regions of the province, the Government of Ontario should introduce reforms to the laws governing the legislature to ensure that: (a) The defeat of a government bill will not mean the automatic defeat of the government, so that individual members would have more leverage on a government; (b) Governments would only be defeated in the legislature on express votes of confidence or non-confidence; and (c) The budgetary process would be dramatically opened up to greater public input, before decisions are finalized, and to move most of the budget making process out from behind closed doors.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

Mr Harris then moved,

That, in the opinion of this House, recognizing that one in six children in this province is living in poverty, and that the April 1990 Report on Food Banks by the Standing Committee on Social Development recommended the creation of school-based meal programs to provide a basic level of nutrition, and that the Statement to the Standing Committee on Finance and Economic Affairs by the Federation of Women Teachers Associations of Ontario recommends such a program; the Government of Ontario, after consultation with educators, and in partnership with private sector sponsors, should establish a breakfast program for elementary school children.

Pursuant to Standing Order 94(e), no objection having been made to the putting of the question on Mr Mahoney's Resolution Number 33, the question having been put, was carried on the following division:-

SESSIONAL PAPER(S) PRESENTED PURSUANT TO STANDING ORDER 38(C):-

In response to an Oral Question, the Minister of Northern Development tabled the speech by Michael Decter, Deputy Minister of Health, to the Sudbury District Medical Society (No. 377) (Tabled December 11, 1991).

ONE HUNDRED AND EIGHTEENTH DAY**THURSDAY, DECEMBER 12, 1991**

PRAYERS

Mr Eves moved,

That, in the opinion of this House, recognizing that sexual abuse of patients by health professionals is a serious problem as evidenced by the fact that the Task Force on Sexual Abuse of Patients commissioned by the College of Physicians and Surgeons heard 303 reports of sexual abuse by physicians and others, that the essence of the relationship between a health professional and a patient is based on trust, and further recognizing that patients are vulnerable, and must be protected, the government of Ontario should pass legislation which would:

- a) Amend the Regulated Health Professions Act to include two levels of the offence of sexual abuse of patients: i. Sexual Impropriety and ii. Sexual Violation as defined in the final report of the Task Force on Sexual Abuse of Patients commissioned by the College of Physicians and Surgeons of Ontario.
- b) Develop a penalty range for Sexual Impropriety including reprimand, apology, fine, temporary suspension of certificate of registration, with conditions, or any combination thereof.
- c) Amend the Regulated Health Professions Code to include a fine up to \$20,000 and mandatory revocation of certificate of registration for five years for health professionals found guilty of Sexual Violation.
- d) Amend the Regulated Health Professions Code so that upon application for reinstatement, the Discipline Committee, the Council or the Executive Committee must require the applicant to fulfill specific requirements including:
 - having the College publish a notice of application which informs all health professionals of the intention of the applicant to apply for readmission, and outlines how to contact the College with any relevant information prior to the applicant's readmission hearing,

- providing a written brief demonstrating the ways in which readmission would be in the public interest,
- making good all financial losses caused by his or her sexual abuse,
- filing a statutory declaration setting out in full his or her business or employment activities during the period following revocation of his or her licence,
- filing a certificate from his or her treating professional detailing the course of treatment entered into and stating the treating professional's opinion of the applicant's compliance with treatment goals and the success of treatment overall,
- filing a certificate from an independent assessor who has evaluated the course of treatment and formed an opinion as to its success in ensuring that the applicant poses no danger to future patients,
- filing a series of documents prepared by the treating professional and the assessor, including an assessment of how the abuse occurred, an outline of specific rehabilitation goals and whether or not they have been met and a list of specific changes in behaviour which have occurred through the rehabilitation process,
- filing a re-entry plan developed by the independent assessor, which includes substantive safeguards to prevent further sexual impropriety or violation,
- demonstrating a commitment to ongoing rehabilitation therapy, including submitting quarterly reports to the College on the status of his or her recovery.

In hearing an application for reinstatement, the Discipline Committee would be required to carefully consider each of the aforementioned documents, as well as,

- testimony from the applicant, the treating professional and the independent assessor as to the applicant's understanding of the harm done by his or her abuse and the effectiveness of rehabilitation in this case, the specific changes in behaviour which have taken place, the commitment to ongoing rehabilitation and specific rehabilitation goals, the proposed safeguards in place should the health professional be reinstated, and any practice restrictions including monitoring which are recommended.

Having reviewed all evidence regarding the rehabilitation of the applicant, the Discipline Committee must be convinced that,

- the evidence presented, including expert evidence, satisfies to a substantial degree of medical and psychological certainty that the applicant will not abuse patients or other vulnerable persons in future,
- readmission would be in the public interest.

- e) That the Minister of Health and the Treasurer of Ontario establish a Survivors Compensation Fund to receive all monies paid as fines for sexual impropriety or sexual violation. In addition, the health professional must pay into the new Fund the equivalent amount for fees paid by OHIP as "services" when, in fact, the health professional was sexually abusing the patient. As well, proceeds from a levy of 1% of the annual membership fee of the appropriate body should be forwarded to the Fund as a clear demonstration by the medical profession of its collective responsibility to patients who have been harmed by a member of the profession. That the procedure for this remedy be established in consultation with the Women's Health Bureau of the Ministry of Health.

A debate arising, at 11:00 a.m., further proceedings were reserved until 12:00 noon.

Mr Mammoliti then moved,

Second Reading of Bill 160, An Act to amend the Workers' Compensation Act / Projet de loi 160, Loi modifiant la Loi sur les accidents du travail.

Pursuant to Standing Order 94(e), no objection having been made to the putting of the question on Mr Eves' Resolution Number 35, the question having been put, was declared carried.

And it was,

Resolved, That in the opinion of this House, recognizing that sexual abuse of patients by health professionals is a serious problem as evidenced by the fact that the Task Force on Sexual Abuse of Patients commissioned by the College of Physicians and Surgeons heard 303 reports of sexual abuse by physicians and others, that the essence of the relationship between a health professional and a patient is based on trust, and further recognizing that patients are vulnerable, and must be protected, the government of Ontario should pass legislation which would:

And the Bill was accordingly read the second time and Ordered referred to the Committee of the Whole House.

THE AFTERNOON SITTING
1:30 P.M.

SÉANCE DE L'APRÈS-MIDI
13 H 30

The Speaker delivered the following rulings:-

Yesterday, the Honourable Government House Leader raised a point of order about language that had been used in yesterday's Question Period. I also heard comments on this point from the Honourable Leader of the Third Party, Mr. Harris and from the House Leader of the Official Opposition, Mr. Mancini. As a result of their comments, I undertook to review the record. Having done so, and before we start today's Oral Question Period, I believe it is important that I take a few minutes to talk in general terms about the use of language in this Chamber.

First of all, let me make it quite clear that there is no list of parliamentary and unparliamentary terms. The lists that have been reproduced in Beauchesne's 5th and 6th Editions are there for information only and members should not take from these lists that because a certain term was used and ruled unparliamentary on a certain day, that that term is forever to be deemed unparliamentary.

Language is unparliamentary in this Chamber, in the House of Commons in Ottawa and in the House of Commons at Westminster, as it is in all of the Chambers that are guided by the British Parliamentary System, when the Speaker who has the responsibility to keep and maintain order in the Chamber, rules that in his or her judgement, the use of a certain term in certain circumstances is causing disorder and therefore it is unparliamentary in that case.

The second point that I would like to make about parliamentary language is that because it is basically a question of order at the time when that language that is deemed unparliamentary is used, therefore, it is usually not useful to go back over a previous day's proceedings and look to see whether or not a term was parliamentary or unparliamentary and that is because the possibility of disorder is then past. There is however, one very important exception to this practice and that is when an honourable member accuses another honourable member of this House of lying. All members are, I am sure, very aware of this rule and I will use this occasion to explain the reason for this rule.

All members of this House operate from the basic principle that they are all honourable members and that they all speak the truth because they enjoy very special privileges as members. They enjoy the unfettered right of free speech. This privilege brings with it responsibilities and that is why, therefore, it is expected that they all speak the truth.

Yesterday, the honourable member for Oriole (Mrs. Caplan) used certain words in interjection that I did not hear and therefore could not ask her to withdraw. I have since been able to look at Hansard and the honourable member for Oriole did imply that the Honourable Minister of Northern Development, who had the floor at that point, was lying. Had I heard these words then, I would have asked her to withdraw them yesterday. I am asking her now to please respect the tradition of this House and withdraw those words which I am sure she had not fully intended to use.

After Question Period on Wednesday, November 27, 1991, the member for Carleton (Mr Sterling) raised a point of order concerning the nature of ministerial responsibilities in relation to Oral Question Period and a minister's ability to refer a question to another minister.

Dealing with the first point, members will know that questions directed to a minister of the Crown must relate to the minister's official responsibilities as conferred by statute or otherwise assigned.

I begin my review of the parliamentary authorities in this area by quoting citations 409(6), 410(10) and 410(17) at pages 121 and 122 of the 6th edition of Beauchesne, as follows:

A question must be within the administrative competence of the Government. The Minister to whom the question is directed is responsible to the House for his or her present Ministry and not for any decisions taken in a previous portfolio.

The subject matter of questions must be within the collective responsibility of the Government or the individual responsibilities of Ministers.

Ministers may not be questioned with respect to party responsibilities.

I also refer members to the 21st edition of Erskine May's Parliamentary Practice, which states the following at page 285:

Questions addressed to Ministers should relate to the public affairs with which they are officially connected, to proceedings pending in Parliament, or to matters of administration for which they are responsible.

These authorities confirm the practice in our own House, namely, that if the minister in question is a Minister without portfolio, has no responsibility for a particular programme, and is not officially acting for a minister who has a portfolio or programme responsibility, no question can be put to him or her. If the Minister without Portfolio does have a programme responsibility or is officially acting for a minister with a portfolio or programme responsibility, then he or she can be questioned on a matter touching on that responsibility.

For example, earlier this Session, the member for Scarborough West was Minister without Portfolio responsible for women's issues. Similarly, in the last Parliament, there were various Ministers without Portfolio responsible for the government's programme for disabled persons and senior citizens. Members were entitled to question such ministers about their respective programme responsibilities.

With respect to members who have been appointed to the position of Chief Government Whip, the longstanding practice in this and other jurisdictions is that they are not to be questioned about the duties of that office in the course of Question Period. In the House of Commons at Ottawa, unlike Westminster, the Government Whip has no ministerial rank. Nevertheless, neither jurisdiction permits Government Whips to be questioned in the course of their respective Question Periods.

It is clear, then, that Question Period should not be used as a vehicle to question a government member about the duties of an office that is not of a ministerial or governmental nature. The duties of the Chief Government Whip, and indeed all party Whips, are of a party nature, although they are exercised in a parliamentary context.

Turning to the specific case raised by the member for Carleton, the House will know that the member for Niagara South (Mrs Coppen) occupies two separate and distinct positions. She is a Minister without Portfolio appointed under the Executive Council Act and Chief Government Whip appointed under the Legislative Assembly Act.

I have already indicated that the member for Niagara South cannot be questioned concerning her Whip's duties. I say further that since the same member has no portfolio or programme responsibility and is not acting for a minister with a portfolio or programme responsibility, she cannot be questioned about the activities she engages in in her capacity as a member of the government.

In short, given her current responsibilities, the member for Niagara South stands in the same position as a government backbencher with respect to her ability to answer questions during Oral Question Period.

On several occasions in the Fall meeting of the House, our practice has been other than what I have just indicated; that is, questions were addressed to, and indeed answered by, the member for Niagara South without challenge or without anyone rising on a point of order. Regardless of whether the basis of the questions was that she was Chief Government Whip or that she was Minister without Portfolio or that she was both, the questions should not have been asked, or answered, given her current responsibilities.

I believe that the reason for this recent departure from our longstanding practice is that this issue has never been raised in the House on a point of order. Indeed, this is the first occasion on which any Speaker of this Assembly has ever ruled on the specific point.

Thus, when the member for Carleton rose in the House last week--and it is to his point that I am responding--it afforded me the opportunity to review our practices and to report to the House in the way in which I have just done. I hope this clarifies the first concern raised by the member for Carleton.

Turning to the member's second concern, members will know that certain questions asked during Question Period can raise more than one subject-matter and that, in such circumstances, more than one minister might have jurisdiction to answer the question. The procedure for dealing with such situations is outlined in Standing Order 32(f), which reads as follows:

A minister to whom an oral question is directed may refer the question to another minister who is responsible for the subject-matter to which the question relates.

This Standing Order, then, allows the question to be answered by the minister to whom it is directed, or by the minister to whom it is referred.

The member for Carleton questioned the propriety of a minister referring a question to another minister on the grounds that the first minister had jurisdiction to respond to it. In response, I have to say that it is not our practice to query or examine the rationale for referring a question, as long as it raises a subject-matter within the responsibility of the minister to whom it is referred. Furthermore, it is for the ministers themselves to decide which of them will actually answer a question that is properly put to the government side.

This is also the practice in other jurisdictions. For example, Erskine May states the following at page 286:

[I]t is out of order to ask a Minister for his reasons for transferring a question. It is a long established principle that decisions on the transfer of questions rest with Ministers and it is not a matter in which the Chair seeks to intervene.

The other point that should not be overlooked about the exchange to which the member for Carleton has drawn the attention of the House is that no member is entitled to ask, respond to, or refer a question that does not lay within the jurisdiction of any member from the government side. I am alluding here to matters that are within the jurisdiction of the Board of Internal Economy or the Speaker.

In the case now before me, the Chief Government Whip was asked a question concerning a letter she had written that dealt with, among other things, a training session for constituency assistants. The question was referred to the Government House Leader. I say to members that the question was inappropriate for 2 reasons. First, as I have already indicated in the first part of this ruling, the Chief Government Whip is not entitled to respond to, let alone refer, questions in view of the nature of the position she holds. And second, this particular question should not have been directed to any minister because it touched on administrative matters internal to the Assembly as opposed to a governmental or ministerial responsibility. Such questions should be raised with the Board or with the Speaker, instead of in the House.

In closing, I thank the member for Carleton for raising his thoughtful point of order when he did. It has afforded me an opportunity to offer some guidance to members as to what kinds of questions can and cannot be asked, answered and referred in the course of Oral Question Period.

I thank members for their patience in the course of my delivery of this extended ruling.

During "Oral Questions", the Speaker requested the member for Leeds-Grenville (Mr Runciman) to withdraw unparliamentary language.

The member having refused was named by the Speaker and directed to withdraw from the service of the House for the balance of the day's sitting.

The Speaker then suspended the proceedings for 10 minutes for grave disorder pursuant to Standing Order 16.

Pursuant to Standing Order 35(b), the following Petition was presented:-

The Acting Speaker directed that the Members be called in, for which purpose the division bells were rung.

During the ringing of the bells, the Acting Speaker addressed the House as follows:-

His Honour the Lieutenant Governor was then pleased to deliver the following gracious speech:-

Mr. Speaker, Members of the Legislative Assembly, Ladies and Gentlemen:

The first session of the 35th parliament has been both productive and challenging.

As outlined in the 1991 budget, the inherited deficit and the most severe recession since the 1930s have placed enormous fiscal pressures on the province. Revenues have declined and job losses have escalated.

To counter the recession, the government adopted several critical measures to alleviate the hardship faced by Ontarians during these tough economic times.

The Anti-Recession Program injected \$700 million into capital works and job creation programs during 1991/92. The Employee Wage Protection Program was established to ensure that workers would not endure the brunt of business failures. Innovative Worker Ownership legislation permits workers to invest in and restore to profitability companies that may otherwise have closed.

The recession has seriously hurt Ontario business. The \$57 million Manufacturing Recovery Program was designed to provide bridge financing to companies encountering short-term financial difficulties. Currently, details are being finalized on an agreement that will see the Urban Transportation Development Corporation continue to operate as a leading edge firm in the transportation sector.

The local economies of many Ontario communities have been damaged during the economic downturn. In Kapuskasing, government-led negotiations culminated in an agreement between the workers, community, Ontario Hydro and the private sector to save the Spruce Falls Mill. This example of worker ownership will preserve jobs, modernize the mill, and contribute to the continued viability of the local economy. For Elliot Lake, a \$250 million adjustment package was approved to assist the community make its transition to a more diversified economy from one that was dependent on uranium mining.

A recession is particularly severe for society's most vulnerable people. This government is committed to protecting the vulnerable to the greatest extent possible. In 1991/92, it allocated an additional \$215 million to social assistance reform through its Back on Track initiative. This is the single largest improvement to the social assistance benefits structure in Ontario history. Legislation was enacted to ensure that single parents, especially, and their children, could be guaranteed support payments as awarded by the Courts. Ten thousand units of non-profit housing have been funded. Ontario's minimum wage was given a sharp boost.

Farm income has suffered. The government has directed \$90 million to income stabilization and interest relief programs.

Recognizing that governments must lead by example, the salaries of MPP's and public service executives and senior managers, will be frozen for 1992. Ontario taxpayers have been relieved of the onerous debt burden of Skydome through successful negotiations with the private sector.

Future prosperity lies in the economic renewal of Ontario. Central to the province's success will be increased cooperation between business and labour. Consultations have begun on establishing the Ontario Training and Adjustment Board to ensure that skills training and labour adjustment programs are developed, through partnership, to support a skilled and flexible future labour force. Discussions are also underway on reforms to the Ontario Labour Relations Act to enhance the role organized labour can play in renewing the province's economy. To contribute to Ontario's economic future, programs such as the Ontario Technology Fund and the Centres of Excellence Program have been renewed.

Important advances were made in the government's social justice agenda. The first step in child care reform involved an expansion of the non-profit sector. Extensive programs have been launched to combat wife assault and sexual assault. The government appointed the province's first Employment Equity Commissioner and work has begun on the legislation that will achieve employment equity. Legislation to extend pay equity to women in organizations where no male comparators exist was tabled. The Advocacy Act has been introduced to provide advocacy services to vulnerable Ontarians.

On August 6, the Premier and the Minister Responsible for Native Affairs with fourteen representatives of the First Nations signed the historic Statement of Political Relationship. In addition, \$48 million has been targeted to improve aboriginal quality of life.

Last Spring, a landmark agreement was reached with the Ontario Medical Association that underscored the mutual commitment of government and physicians to controlling health costs while preserving the principles of medicare. The Regulated Health Professions Act culminates a decade of work and will improve the quality of medical care through the regulation of 24 self-governing professions.

Common pause day legislation, with Sunday shopping permitted in December, will assist the retail sector while ensuring that workers and their families have the right to enjoy Sundays together.

The environment remains a top government priority. Twenty-eight million dollars will be dedicated to the 3Rs program: Reduce, Reuse, and Recycle. Supporting legislation has been introduced that will result in waste reductions of 50% by the year 2000.

Legislation that is being carried over to the next session will create a fairer and more affordable system of automobile insurance, and combines the best features of a court-based system with the advantages of no-fault benefits. The Rent Control Act will protect tenants against exorbitant rent increases while promoting the upkeep of rental property. Amendments to the Power Corporation Act will make Ontario Hydro more accountable to the public. A bill to resolve the long-standing dilemma of Toronto Island residents will be enacted.

Honourable Members, I commend the progress you have achieved this session. In closing, may I take this opportunity to wish you a safe and pleasant holiday season.

Au nom de notre souveraine, je vous remercie. In our sovereign's name, I thank you.

Je déclare cette session prorogée. I now declare the session prorogued.

Monsieur le président, Mesdames et Messieurs les députés, Mesdames et Messieurs,

La première session de la 35^e législature a été à la fois productive et stimulante.

Comme l'indique le budget de 1991, le déficit dont le gouvernement a hérité et l'avènement de la pire récession depuis les années trente ont exercé d'immenses pressions financières sur la province, lesquelles se traduisent par une baisse des recettes et une augmentation du chômage.

Pour lutter contre la récession, le gouvernement a adopté plusieurs mesures qui ont une importance critique pour amenuiser les terribles conséquences de cette dure période économique pour la population ontarienne.

Dans le cadre du Programme de lutte contre la récession, le gouvernement a investi 700 millions de dollars dans des projets d'immobilisations et de création d'emplois au cours de l'exercice 1991-1992. Il a également créé le Programme de protection des salaires des employés pour veiller à ce que les travailleurs et travailleuses ne subissent pas le contre-coup des faillites d'entreprises. De plus, des mesures législatives novatrices sur la participation financière du personnel permettront aux employés et employées d'investir dans les entreprises afin de les rentabiliser et ainsi de leur épargner la faillite.

La récession a gravement touché les entreprises ontariennes. Le Programme de relance du secteur manufacturier, auquel le gouvernement consacre 57 millions de dollars, vise à fournir des crédits de relais aux sociétés qui éprouvent des difficultés financières à court terme. Ainsi à l'heure actuelle, on met la dernière main à une entente qui veillera à ce que la Société de développement du transport urbain demeure un chef de file dans le secteur des transports.

Bien des localités ontariennes ont vu leur économie périlcliter durant ce ralentissement économique. C'est pourquoi à Kapuskasing, par exemple, le gouvernement a dirigé des négociations qui se sont couronnées par un accord conclu entre les travailleurs et travailleuses, la collectivité, l'Ontario Hydro et le secteur privé dans le but de sauver l'usine Spruce Falls. Cet exemple de participation des employés et employées à l'entreprise permettra de conserver des emplois et de moderniser l'usine et contribuera ainsi à maintenir la vigueur de l'économie locale. À Elliot Lake, le gouvernement a accordé une aide globale de relèvement économique de l'ordre de 250 millions de dollars pour faciliter la transition entre une économie fondée presque exclusivement sur les mines d'uranium et une économie plus diversifiée.

Ce sont les personnes particulièrement vulnérables qui souffrent le plus durant une récession. Aussi, le présent gouvernement est déterminé à faire tout en son pouvoir pour les protéger. Au cours de l'exercice 1991-1992, il a alloué un montant additionnel de 215 millions de dollars à la réforme de l'aide sociale dans le cadre de son initiative de «Relance». Il s'agit de la plus importante amélioration apportée à la structure de l'aide sociale de l'Ontario depuis sa création. Des mesures législatives ont été promulguées pour veiller, en particulier, à ce que les familles monoparentales reçoivent les pensions alimentaires adjugées par les tribunaux. On a également accordé des fonds pour la création de dix mille logements à but non lucratif. Enfin, le salaire minimum de l'Ontario a connu une hausse substantielle.

Les exploitations agricoles ont subi une baisse importante de revenus. Le gouvernement a donc affecté 90 millions de dollars à des programmes de stabilisation des revenus et d'allègement des intérêts.

Reconnaissant qu'il lui faut donner l'exemple, le gouvernement a décidé de geler les salaires des députés provinciaux, des hauts fonctionnaires et des cadres de la fonction publique pour 1992. En outre, les contribuables de l'Ontario ont été libérés du fardeau de la dette du SkyDome grâce à de fructueuses négociations avec le secteur privé.

C'est sur le renouveau économique de l'Ontario que repose sa prospérité future. Une plus grande collaboration entre les entreprises et le monde du travail est la clé de voûte de la réussite économique de la province. Des consultations visant la création d'un Conseil ontarien de la formation et de l'adaptation de la main-d'oeuvre sont déjà en cours afin d'assurer l'élaboration concertée de programmes de formation et d'adaptation professionnelles capables de répondre aux besoins de demain en main-d'oeuvre qualifiée et souple. On envisage également la modification de la *Loi sur les relations de travail* de l'Ontario dans le but de donner aux organisations de travailleurs et de travailleuses un rôle plus important dans la relance économique de la province. Des programmes comme le Fonds de technologie de l'Ontario et les Centres d'excellence ont aussi été renouvelés en raison de leur contribution indéniable à l'édification de l'avenir économique de l'Ontario.

Au chapitre de la justice sociale, le gouvernement a accompli des progrès importants. Le premier pas dans la réforme du système de garderies comprend une expansion du secteur à but non lucratif. Par ailleurs, on a lancé des programmes de grande envergure pour lutter contre la violence conjugale et l'agression sexuelle. Le gouvernement a en outre nommé la première Commissaire à l'équité d'emploi de la province, et les travaux législatifs visant l'équité d'emploi sont amorcés. Des mesures législatives ont également été déposées visant à étendre l'équité salariale aux femmes travaillant dans des entreprises ou organismes où il n'existe pas de postes à prédominance masculine avec lesquels on peut établir une comparaison. Enfin, la *Loi sur l'intervention*, qui entend protéger les droits des personnes vulnérables de l'Ontario, a été soumise à l'Assemblée.

Le 6 août, le premier ministre, le ministre délégué aux Affaires autochtones et quatorze représentants et représentantes des Premières nations ont posé un geste historique en signant la *Déclaration de relation politique*. De plus, 48 millions de dollars serviront à améliorer la qualité de vie des autochtones.

Le printemps dernier, le gouvernement et l'Association des médecins de l'Ontario ont conclu un accord important qui affirme l'engagement réciproque du gouvernement et des médecins à contrôler le coût des services de santé tout en sauvegardant les principes du régime d'assurance-maladie. D'autre part, la *Loi de 1991 sur les professions de la santé* couronne dix ans de travaux et améliorera la qualité des soins médicaux grâce à la réglementation de 24 professions autonomes.

Les mesures législatives sur la journée commune de repos hebdomadaire, prévoyant cependant l'ouverture des commerces les dimanches de décembre, aideront le secteur de la vente au détail tout en garantissant aux travailleurs et travailleuses et à leurs familles le droit de profiter ensemble du congé dominical.

La qualité de l'environnement demeure une grande priorité du gouvernement. Il a donc affecté 28 millions de dollars au programme des 3 «R» : Réduction, Réutilisation et Recyclage. À l'appui de cette initiative, des mesures législatives ont été déposées qui entraîneront une réduction des déchets de l'ordre de 50% d'ici l'an 2000.

Les mesures législatives qui ont été reportées à la prochaine session visent à créer un régime d'assurance-automobile plus juste et plus abordable qui combine les meilleurs éléments d'un système fondé sur le recours aux tribunaux et les avantages d'un régime d'assurance sans égard à la responsabilité. Le projet de loi intitulé *Loi de 1991 sur le contrôle des loyers* protégera les locataires des augmentations de loyer exorbitantes tout en encourageant les propriétaires à bien entretenir les immeubles locatifs. Des modifications apportées à la *Loi sur la Société de l'électricité* obligeront l'Ontario Hydro à rendre davantage compte de son administration au public ontarien. L'adoption d'une loi résoudra enfin, après de longues années de débats, la question des résidences dans les îles de Toronto.

Je tiens à féliciter les membres de cette honorable assemblée pour les progrès accomplis au cours de la présente session. Pour terminer, permettez-moi de profiter de cette occasion pour vous recommander la prudence en cette saison et pour vous souhaiter de joyeuses fêtes.

In our sovereign's name, I thank you. Au nom de notre souveraine, je vous remercie.

I now declare the session prorogued. Je déclare cette session prorogée.

The Government House Leader then said:-

Speaker and Members of the Legislative Assembly:

It is the will and pleasure of His Honour the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
