## **PRIVATE MEMBERS' MOTIONS / MOTIONS ÉMANANT DES DÉPUTÉS**

1. Mr. Arnott - Resolution - That in the opinion of this House the provincial Government should expand the Healthy Babies, Healthy Children Program, so that children identified through the program who are at risk of social, emotional, physical or learning challenges, receive the necessary services to support their healthy growth and development.

2. Mr. Ouellette - Resolution - That, in the opinion of this House, given the importance of the air quality to individual health and,

Whereas the sulphur content of gasoline in Canada has one of the highest average levels of sulphur in gasoline among OECD countries and these levels are projected to rise by 2001 and,

Whereas studies have shown that reducing the level of sulphur in gasoline to 40 parts per million may reduce hydrocarbon emissions by 36 percent and,

Whereas nitrous oxide emissions may be reduced by 62 percent and,

Whereas carbon monoxide emissions may be reduced by 34 percent and,

Whereas the Government of Canada should be urged to amend the Canadian Environmental Protection Act as it relates to the regulation of sulphur content in gasoline so as to reduce the allowable sulphur limits in gasoline so that:

The sulphur content of gasoline not exceed 80 parts per million and;

That nationally the average level of sulphur in gasoline not exceed 40 parts per million.

3. Mr. Hardeman - Resolution - That in the opinion of this House, the tax burden on middle class families should be reduced.

4. Mr. Fox - Resolution - That in the opinion of this House, because the seniors of this province are one of the most susceptible groups to criminal activities and because of an increasing number of crimes being perpetrated on this generation, that the Attorney General give instructions to all provincial prosecutors to seek maximum sentences for those convicted of violent crimes, abuse of trust or fraud against

seniors;

And, that the Attorney General write the federal Minister of Justice urging co-operation by including provisions for increased sentences in all sentence calculation documents involving crimes against seniors;

And, that all police service boards in the province develop preventive programs and assure that witness protection and victim assistance programs are made available to seniors victimized by said crimes.

***Withdrawn May 26, 1998.***

5. Mr. Wildman - Resolution - That, in the opinion of this House, the Government of Ontario should promptly table a report detailing all steps it has taken to comply with the conditions contained in the decision released by the Environmental Assessment Board on April 20, 1994 (Class Environmental Assessment for Timber Management on Crown Lands in Ontario) and, in particular, any steps taken to implement Condition 77 (Negotiations with Aboriginal Groups); and immediately table the 1997-8 annual report required by Condition 82 of the decision, containing the information listed in Appendix 20 of the decision.
6. Mr. Agostino - Resolution - That in the opinion of this House the Government of Ontario should conduct a public inquiry into the July, 1997 fire at the Plastimet plant in Hamilton. May 11, 1998.
7. Mrs. Johns - Resolution - Whereas geographic areas in the Province of Ontario have been designated as "underserviced" by the Ministry of Health as a result of their shortage of physicians; and

Whereas rural and northern communities in Ontario have not attracted sufficient graduating physicians to meet the needs of their citizens; and

Whereas graduating physicians must have special skills and a commitment to rural and northern communities in order to provide services to these communities;

Be it resolved, that in the opinion of this House, the government through the Ministry of Education and Training and the Ministry of Health implement the following:

1. Partial rebates of tuition fees of Ontario trained doctors who provide physician services in underserviced areas.
  2. Provide continual training and education to complement the new physician's skills and,
  3. Augment the telemedicine centres so rural and northern physicians are connected to other physicians both in Ontario and Internationally.
8. Mr. Hastings - Resolution - That, in the opinion of this House, the Ontario government should assist full-time, post-secondary students with the purchase of computer equipment by crediting the Provincial Sales Tax on such purchases to a limit of \$500, thus assisting students with their academic advancement which

ultimately leads to a better trained and competitive workforce.

9. Mr. Fox - Resolution - That in the opinion of this House, because the seniors of this province are one of the most susceptible groups to criminal activities and because of an increasing number of crimes being perpetrated on this generation, that the Attorney General give instructions to all prosecutors to seek increased sentences for those convicted of all violent crimes, abuse of trust or fraud against seniors. And furthermore that the Attorney General lobby the federal Minister of Justice to create mandatory sentencing guidelines for crimes against our vulnerable. And that all police service boards in the province develop preventive programs and assure that witness protection and victim assistance programs are made available to seniors victimized by said crimes.

*Debated May 28, 1998.*

10. Mr. Hastings - Resolution - That in the opinion of this House, as the importance of information and technology becomes more apparent in our ever changing society, the Ontario Government should assist individuals with access to all information through the internet, by crediting the Provincial Sales Tax, to a limit of \$25, on the purchase of modems which access the information super highway so that the public can become more knowledgeable about the world around them.
11. Mr. Gravelle - Resolution - Whereas a 1996 agreement signed by the Ontario government and the Ontario Medical Association (OMA) commits the Ministry of Health to spend \$36.4 million of new monies to implement alternative payment plans in medically underserved communities in the fiscal years 1997/98, 1998/99 and 1999/2000; and

Whereas in the past fiscal year (1997/98) virtually none of this committed funding was spent due to the government's insistence on funding only a minimum of physicians per community rather than a sustainable physician complement necessary to retain and recruit needed physicians; and

Whereas the Minister of Health has stated in the Legislature that she is looking for proposals to utilize these funds; and

Whereas a group of 38 physicians in Northwestern Ontario eligible for Globally Funded Group Practice Agreements (GFGPAs) have worked together with PAIRO (Professional Association of Interns and Residents of Ontario), NOACC (Northwestern Ontario Associated Chambers of Commerce) and the OMA to put such a proposal forward to the Minister of Health that identifies realistic and practical improvements to the present GFGPA model which, if implemented, would result in sustainable physician recruitment and retention in Northwestern Ontario communities; and

Whereas the proposal, if accepted by the Minister of Health, could serve as a model for many Northern and rural medically underserved communities in the Province;

Section 6B-4

Be it resolved, that in the opinion of this House, the Minister of Health must fulfill her commitment to provide the positive incentives necessary to attract needed physicians to Northern and rural communities; the Minister of Health should negotiate a change in the alternate payment plan agreement so that the committed group practice funding would be based on a sustainable physician complement (a critical mass) in underserved communities (rather than the present underserved minimum designations); and the Minister of Health should allow funding for

physician services to recognize the special and unique workload and responsibilities of physicians practising in Northern and rural underserved areas.

12. Mr. Wildman - Resolution - This House urges the Government of Ontario to take steps to ensure that April 4, the date on which Martin Luther King, Junior was assassinated in 1968, is observed as Anti-Racism Day in Ontario.
13. Mr. Tilson - Resolution - That, in the opinion of this House,

Whereas the Federal government has abrogated its responsibility to the people of Canada by making changes to the *Canada Transportation Act* that make it easier for CP and CN to abandon a rail line without considering whether this is in the "public interest", and

Whereas CP has begun the formal process to abandon the rail line that runs from Streetsville north to Orangeville, and

Whereas the Provincial government has attempted to counter this abrogation of responsibility of the Federal government by passing the *Shortline Railways Act* and *Labour Relations and Employment Statute Law Amendment Act, 1995* thereby removing many of the barriers and allowing private operators to purchase these short lines at a profit,

Therefore, The provincial government should work with the Federal Government and the municipal governments of Dufferin County and the Region of Peel, along with the manufacturers association to form a partnership that would negotiate the purchase and ongoing operation of the rail line located between Streetsville and Orangeville, since this partnership would ensure the fair distribution of the rail line asset that would ensure the future viability of our community, as well as ensuring that Dufferin County and the Region of Peel would have an asset that could be used to encourage future manufacturers to locate in our community.

14. Mr. Stewart - Resolution - That, in the opinion of this House, the government of Ontario should amend legislation to permit All Terrain Vehicles (ATVs) of 3, 4, 5 or more wheels, that are registered to a bonafide farmer, to be insured as a self-

propelled vehicle of husbandry.

16. Mr. Hastings - Resolution - Be it resolved that in the opinion of this House that: the secondary school curriculum, that is currently being developed, should include a mandatory CPR training program for the grade nine students of this province so that they have an opportunity to take part in a program that helps to build self-esteem, teaches responsibility, and most importantly will save lives.
17. Mr. Wood (London South) - Resolution - That, in the opinion of this House, the Minister of Health should appoint a Task Force, representative of the public, palliative care supporters and providers in the Province of Ontario, to recommend the elements necessary for a Palliative Care Bill of Rights that would ensure the best possible comfort protection and support for Ontario citizens and their families in time of need.

This Task Force should consider but not be limited to the following issues:

1. The provision of palliative care, that recognizes the need for personal control and dignity, to patients in all parts of the province whether they are receiving terminal care or are still undergoing treatment.
2. The provision of the best available drug and non-drug treatments for pain and other forms of physical suffering.
3. The need for emotional and psychological support to the patient and the family, including personal supports and proper medical treatment for depression and other psychological problems.
4. The development of standards of treatment individual enough to care for people suffering from different illnesses, coming from different cultural backgrounds and at different ages. The special problems of young children in palliative care and individuals with long term degenerative illnesses especially should be reviewed.
5. The need for and methods for providing information and training in the latest

## Section 6B-6

methods of palliative care to both practicing physicians and medical students should be established. The desirability of a medical specialty in Palliative Care should be considered.

6. The interdisciplinary nature of palliative care should be fully reviewed and the role of the nursing profession in this fundamentally caring role should be fully explored. A compensation structure for palliative care that fully recognizes its interdisciplinary nature should be considered.

7. Procedures for providing effective safeguards of the rights of individuals who can no longer decide issues of medical care for themselves.

8. Physicians who provide medication, for palliative purposes, in doses that might in other circumstances prove addictive or increase the risk of harmful effects should be protected. Conditions for withdrawal of futile medical treatment should be clearly and understandably drawn to protect both the patient and the medical staff.

9. Setting standards of Palliative Care for home care, hospices, nursing homes, specialty and general hospitals that help create an integrated system of care for the Province.

10. Identification of the best possible programs to support, train and encourage volunteer care providers and their organizations, as well as the many people who provide palliative care for their relatives. The Task Force should also recommend methods to gain the full participation of religious leaders from all communities in Ontario.

18. Mr. Hastings - Resolution - That, in the opinion of this House, the Ontario Government should exempt charter bus/train operators from the 8 per cent Retail Sales Tax for any three-day charter holiday within Ontario in order to stimulate tourism of this category and increase the number of potential jobs in the significant service sector of the economy.
19. Mr. Hastings - Resolution - That, in the opinion of this House, with the arrival of so many newcomers to Canada during the past few decades and for the benefit of our young people as future leaders and for the overall strengthening of Canadian Confederation as formulated in the Calgary Declaration, the Government of Ontario should include in its Secondary School curriculum reforms a program of Canadian history from our colonial origins to the start of the 21<sup>st</sup> century, stressing historical developments, trends and concepts starting in grades 9 & 10, not the later grades as currently proposed.
20. Mr. Wood (London South) - Resolution - That, in the opinion of this House, since Hospice Palliative Care is care which aims to relieve suffering and improve the quality of life of people who are living with or dying from advanced illness, or those who are bereaved, the Government of Ontario should appoint a Task Force,

## Section 6B-7

representative of the Public, recognized Hospice Palliative Care Experts, Palliative Care Supporters and Providers, both Paid and Volunteer, from throughout Ontario, to recommend the elements necessary to fully implement an effective Hospice Palliative Care "Bill of Rights". These Rights would ensure the best possible comfort, protection and support will be available and accessible to all Ontarians and their families in time of need. The Task Force would provide interim reports to the government and the public, and continue in existence to review the implementation of its recommendations.

This Task Force should consider but not be limited to the following issues:

1. The provision of Hospice Palliative Care, that recognizes the need of all people for personal respect, control and dignity. A modern fully developed Hospice Palliative Care system enables most people to live in their own homes;
2. The effective provision of the best medical treatments for pain control and the best symptom management practices for other physical suffering, using drug, and non-drug therapies;
3. Ensuring the development of proper medical treatments for all patients of all backgrounds, social, cultural, or religious and of any age or illness. The special problems of children and of individuals suffering illnesses of the nervous system, who face much shorter life expectancies, should be considered. Cancer Care Ontario's phased-in Supportive Care Model should be examined for potential applications to the development of Hospice Palliative Care;
4. The Interdisciplinary Team Care of Hospice Palliative Care must be adapted to work with Primary Care Providers. Standards for Hospice Home Care, Dedicated Hospices, Nursing Homes, Supportive Housing and Hospitals, should be integrated with a compensation structure for Hospice Palliative Care that recognizes its interdisciplinary character;
5. Medical Specialties in Hospice Palliative Care should be recognized in all medical fields. The need to provide a high standard of basic and specialized Instruction in Palliative Care, Pain Management, Symptom Control, Emotional and Spiritual needs and Team Methods in every Profession. An effective Information System must update our Medical Teams with the very latest developments in Hospice Palliative Care, Pain Control and Symptom Management;
6. Research programs to explore new knowledge, in the areas of greatest value to Canadians receiving Hospice Palliative Care, should be a continuing feature of Ontario's Medical Care System;
7. The best possible programs to support, train and encourage Volunteer Care Providers and their organizations should be identified and made an integral part of the Hospice Palliative Care System. Volunteers providing Hospice Palliative Care are the ultimate guarantee of Community involvement, as well as Comfort and Concern for the needs of individual people and their families and their Bereavement. Existing Programs, Standards, Organizations and Proposals ready for pilot-projects or expansion should be encouraged. Programs that are individual and innovative, in their own way, can co-operate providing Patient-Centred Care for Ontarians;

8. Revising, as required, medical, administrative and legal procedures to ensure effective safeguards for the rights of all those under care, but especially those who cannot, or can no longer, decide issues of medical care for themselves;
9. How to meet the needs of most Ontarians, in these Care Programs, by finding the very best methods to gain the full confidence, and participation in Patient Care, of Leaders from all Religious, Cultural and Spiritual Communities;
10. The need for emotional, psychological, social and spiritual support appropriate to the needs of the patient and their family. The right to be treated as a person, and receive proper medical, emotional and spiritual treatment for times of depression and suffering. The need for family members to be consulted, treated with respect and kept informed;
11. Setting reasonable limits on charges for Care, to a patient's life savings, so loved ones need not be left destitute;
12. Most Care in Ontario is provided by spouses or family, to loved ones. A priority must be to consult with these Care Providers to find ways to encourage and support them, as they meet family responsibilities, with love and loyalty.

That the government must ensure that sufficient capital dollars are supplied on a timely basis to allow restructuring to occur without negatively impacting patients, which data now indicates has not been the case, and the government must commit to community services being in place before hospitals or beds are closed, and

Whereas the government's Bill 127 has legally recognized the important role and enabled greater participation of highly skilled nurse practitioners as part of a multi-

23. Mr. Duncan - Resolution - That, in the opinion of this House, since persons with disabilities in Ontario face systemic barriers in access to employment, services, goods, facilities and accommodation; and since all Ontarians will benefit from the removal of these barriers, thereby enabling these persons to enjoy equal opportunity and full participation in the life of the province; and since Premier Harris promised in writing during the last election in the letter from Michael D. Harris to the Ontarians with Disabilities Act Committee dated May 24, 1995 to:
- a) enact an Ontarians with Disabilities Act within its current term of office; and
  - b) work together with members of the Ontarians with Disabilities Act Committee, amongst others, in the development of such legislation.

And since this House unanimously passed a resolution on May 16, 1996 calling on the Ontario Government to keep this promise, therefore the Ontarians with Disabilities Act should embody the following principles:

1. The purpose of the Ontarians with Disabilities Act should be to effectively ensure to persons with disabilities in Ontario the equal opportunity to fully and meaningfully participate in all aspects of life in Ontario based on their individual merit, by removing existing barriers confronting them and by preventing the creation of new barriers. It should seek to achieve a barrier-free Ontario for persons with disabilities within as short a time as is reasonably possible, with implementation to begin immediately upon proclamation;
2. The Ontarians with Disabilities Act's requirements should supersede all other legislation, regulations or policies which either conflict with it, or which provide lesser protections and entitlements to persons with disabilities;
3. The Ontarians with Disabilities Act should require government entities, public premises, companies and organizations to be made fully accessible to all persons with disabilities through the removal of existing barriers and the prevention of the creation of new barriers, within strict time frames to be prescribed in the legislation or regulations;
4. The Ontarians with Disabilities Act should require the providers of goods, services and facilities to the public to ensure that their goods, services and facilities are fully usable by persons with disabilities, and that they are designed to reasonably accommodate the needs of persons with disabilities. Included among services, goods and facilities, among other things, are all aspects of education including primary, secondary and post-secondary education, as well as providers of

- transportation and communication facilities (to the extent that Ontario can regulate these) and public sector providers of information to the public e.g. governments. Providers of these goods, services and facilities should be required to devise and implement detailed plans to remove existing barriers within legislated timetables;
5. The Ontarians with Disabilities Act should require public and private sector employers to take proactive steps to achieve barrier-free workplaces within prescribed time limits. Among other things, employers should be required to identify existing barriers which impede persons with disabilities, and then to devise and implement plans for the removal of these barriers, and for the prevention of new barriers in the workplace;
  6. The Ontarians with Disabilities Act should provide for a prompt and effective process for enforcement. It should not simply incorporate the existing procedures for filing discrimination complaints with the Ontario Human Rights Commission, as these are too slow and cumbersome, and yield inadequate remedies;
  7. As part of its enforcement process, the Ontarians with Disabilities Act should provide for a process of regulation-making to define with clarity the steps required for compliance with the Ontarians with Disabilities Act. It should be open for such regulations to be made on an industry-by-industry basis, or sector-by-sector basis. This should include a requirement that input be obtained from affected groups such as persons with disabilities before such regulations are enacted. It should also provide persons with disabilities with the opportunity to apply to have regulations made in specific sectors of the economy;
  8. The Ontarians with Disabilities Act should also mandate the Government of Ontario to provide education and other information resources to companies, individuals and groups who seek to comply with the requirements of the Ontarians with Disabilities Act;
  9. The Ontarians with Disabilities Act should also require the Government of Ontario to take affirmative steps to promote the development and distribution in Ontario of new adaptive technologies and services for persons with disabilities;
  10. The Ontarians with Disabilities Act should require the provincial and municipal governments to make it a strict condition of funding any program, or of purchasing any services, goods or facilities, that they be designed to be fully accessible to and usable by persons with disabilities. Any grant or contract which does not so provide is void and unenforceable by the grant-recipient or contractor with the government in question;
  11. The Ontarians with Disabilities Act must be more than mere window dressing. It should contribute meaningfully to the improvement of the position of persons with disabilities in Ontario. It must have real force and effect.

24. Mr. Christopherson - Resolution - That, in the opinion of this House, the Harris government be urged to acknowledge the downloading of services and expenditures to Hamilton and Hamilton- Wentworth is not revenue neutral and has

## Section 6B-11

in fact created an unacceptable crisis in local property tax increases; and

That, in the opinion of this House, the Harris government be urged to acknowledge that:

. Mike Harris and the Conservative Party of Ontario promised the citizens of Ontario fair and equitable taxation in the Common Sense Revolution, and property tax is an unfair and regressive form of taxation.

. Mike Harris promised - in bold letters - on page five of the Common Sense Revolution "We will work closely with municipalities to ensure that any actions we take will not result in increases to local property taxes".

. Mike Harris also promised that the province's exchange of services and expenditures would be revenue neutral.

. The Harris downloading has short-changed the citizens of Hamilton and Hamilton- Wentworth by \$36.3 million per year forcing dramatic property tax hikes.

. The Harris government's own figures confirm this \$36.3 million shortfall.

. The eight year phase in of the Harris government's Business Education Tax has discriminated against Hamilton and Hamilton-Wentworth by putting an additional \$17 million dollar burden onto local taxpayers.

. The Province reneged on its original commitment to a three year Small Business Rebate Program, and will now only fund the program for one year.

. Many of our citizens may lose their homes, businesses and jobs as a result of the drastic property tax increases foisted on local taxpayers by the Mike Harris government.

. Any future downturn in the economy could potentially bankrupt the municipalities who must now bear the brunt of increased social service costs and responsibilities.

. City and regional councillors are being unfairly blamed and forced to explain these huge Harris tax hikes; and

That, in the opinion of this House, the Harris government be urged to immediately pay back to Hamilton and Hamilton-Wentworth the \$36.3 million they have shortchanged our community; and

That, in the opinion of this House, the Harris government be urged to eliminate the \$17 million dollar cost of their Business Education Tax by revoking the eight year phase in period and moving immediately to the provincial average, as well as

reinstating their original three year commitment to the Small Business Rebate Program.

26. Mr. Brown (Scarborough West) - Resolution - That, in the opinion of this House, since money in the hands of consumers is spent more wisely than in the hands of government, and, since the Government of Ontario will achieve a balanced budget, the provincial retail sales tax rate should be reduced from 8% to 6%, once the budget is balanced.
27. Mr. Brown (Scarborough West) - Resolution - That, in the opinion of this House, since the Young Offenders Act is an Act of the federal government that is a fourteen-year-old failed experiment to control youth crime, and, since the rate of recidivism is 65%, and since violent youth crime has doubled over the last 10 years, the federal government must change the Young Offenders Act to include at least the following: adult sentences for adult crime; the publishing of offenders' names for serious crimes; automatic jail time for weapons offenders; tougher sentences for all youth crime; adult prosecution for all offenders 16 years of age and older; automatic prosecution for violent crimes committed by those under 12 years of age; restriction of "free legal aid" if parents can afford to pay; Automatic adult prosecution after three youth convictions.
28. Mr. Brown (Scarborough West) - Resolution - That, in the opinion of this House, since new home sales to first-time buyers are exempted from land transfer tax, and, since there are many first-time buyers of older or resale homes, all first-time home buyers of all homes should be exempted from land transfer tax.
29. Mr. Brown (Scarborough West) - Resolution - That, in the opinion of this House, since the "Zero Tolerance" policies of the former Scarborough Board of Education reduced youth crime and possession of weapons in schools, and, since there is a new Toronto Board of Education, and, since the public, parents, teachers and students are frightened within the school and its environs, a Safe Schools Act should be passed that would incorporate recommendations for expulsion for the following offences: possession of weapons; possession or use of alcohol or illicit drugs; theft from the school; damage to school property; assault of a teacher or student; sexual assault of a teacher or student; threatening the use of a weapon, And, that a Code of Behaviour should be developed for each school and that each student and his or her parent(s) sign the Code of Behaviour, which would list good conduct, as well as unacceptable conduct and the resultant sanctions.
30. Mr. Brown (Scarborough West) - Resolution - That, in the opinion of this House,

since police chases are dangerous, and, since the penalties for offenders are negligible and do not discourage offenders from taking flight, offenders convicted of fleeing the police in or on a motorized vehicle should be subject to a minimum six months closed custody incarceration for the first offence, to two years less a day for each subsequent offence, plus a \$10, 000 fine and a five-year license suspension.

31. Mr. Brown (Scarborough West) - Resolution - That, in the opinion of this House, since convicted offenders have relatively light sentences, and, since the vulnerable and seniors are particularly threatened, and, since other jurisdictions treat offenders against seniors more strictly, with tougher sentences, and, since the courts, who are independent, nevertheless impose relatively light sentences, the Attorney General should set sentencing guidelines for Crown Prosecutors to request that they incorporate tougher sentencing for all crimes and extra time for perpetrators of crimes against seniors.
32. Mr. Brown (Scarborough West) - Resolution - That, in the opinion of this House, since the federal government has reduced health transfer payments by \$2 billion annually, and, since the Province of Ontario has paid for the federal government's attack on health care, and, since the Province of Ontario is spending more than any other provincial government, a Patient's Bill of Rights should be ensconced and a Patient's Health Ombudsman should be established.

- Ms. Churley - That the following resolution be adopted by this House and forwarded to Prime Minister Jean Chretien, Solicitor General Andy Scott and Attorney General Anne McLellan:

Whereas, three Canadian physicians have been shot because they provided safe, legal abortions since 1994;

Whereas, Canadian physicians have committed up to \$500,000 in an effort to bring the person or persons responsible for these shootings to justice;

Whereas, It is necessary for all Canadian police forces to cooperate in the investigation of violence and threats of violence against physicians across Canada who provide safe, legal abortions;

Whereas, Solicitor General Andy Scott and Attorney General Anne McLellan have refused to provide additional funding to the RCMP to coordinate a proper investigation into these shootings;

Therefore, be it resolved, that the federal, provincial and territorial governments cooperate to provide adequate resources to police forces across Canada to conduct a thorough, national investigation into the shooting of three Canadian physicians

and to ensure the safety and security of all Canadian physicians who provide women with safe, legal abortions.

33. Mr. Rollins - Resolution - That, in the opinion of this House, since the gasoline pricing practices of large supplier/retailers continues to be a problem which threatens consumers with unreasonably high prices, and price increases timed to coincide with long weekends, and which undermines the important role played by independent gasoline retailers in Ontario; and
- Since gasoline pricing is an issue of common interest to all Canadian consumers; and
- Since ensuring fair competition in the marketplace is the responsibility of the federal government under the Competition Act; and
- Since the federal Report of the Liberal Committee on Gasoline Pricing in Canada, the McTeague Report, tabled in June, 1998, concluded that the current Canadian wholesale and retail gasoline market is not truly competitive and that competition has steadily lessened in recent years; and
- Since the McTeague Report recommended that the Competition Act be amended to provide better protection for consumers, and that the federal government immediately act to replace the criminal burden of proof model currently used in sections dealing with predatory pricing and price discrimination; and
- Since the need for immediate action on the part of the federal government to restore competition to the gasoline marketplace has been expressed by Ontario consumers to the Consumer Watchdog Commission of MPPs, appointed in Spring 1998 by the Honourable David H. Tsubouchi, Minister of Consumer and Commercial Relations; and
- Since the federal Competition Bureau is of the opinion that no marketplace problems exist in the gasoline industry which violate the Competition Act as currently drafted and a Private Member's Bill C-235 sets out amendments to the Competition Act to address certain of these issues;
- Therefore the Government of Ontario should call upon the federal government to address this problem of national dimensions by amending the Competition Act to address pricing practices within the gasoline industry and appoint a special investigator to enforce the revised Act to ensure that Canadian consumers benefit from competitive and transparent gasoline prices across this country.

34. Mr. Leadston - Resolution - That, in the opinion of this House, since the citizens of the Regional Municipality of Waterloo and surrounding areas deserve equal access to quality health services and are entitled to a clear vision of how their needs will be met, therefore:

Section 6B-15

1. the Government of Ontario must undertake a comprehensive feasibility study for a regional medical centre to act as the hub for an integrated health delivery system; and
  2. the study should commence immediately and be completed in a cost effective and timely manner by a private consultant and
  3. any major renovations to existing aging facilities should be considered only after the government has accepted the completed report.
35. Mr. Lessard - Resolution - That, in the opinion of this House, Since the water resources of the Great Lakes Basin are precious public natural resources, shared and held in trust by the Canadian Provinces and the Great Lakes States;

And since the Great Lakes need to be carefully managed and protected in order to meet current and future water needs within the Great Lakes Basin and the Canadian Provinces;

And since any new diversions of Great Lakes waters for use outside of the Great Lakes Basin will have significant adverse effects on the environment, economy, and welfare of the Great Lakes region;

And since four of the Great Lakes contain international water, and are defined as "boundary waters" in the Boundary Waters Treaty of 1909 between Canada and the United States;

And since any new diversion of Great Lakes water would affect the relations between the Government of Canada and the United States Government;

And since, as trustees of the Great Lakes Basin's natural resources, the Canadian Provinces and the Great Lakes States have a shared duty to protect, conserve, and manage the renewable but finite waters of the Great Lakes Basin for the use, benefit, and enjoyment of all their citizens, and future generations; and

Since the most effective means of protecting, conserving, and managing the water resources of the Great Lakes is through the joint pursuit of unified and co-operative principles, policies, and programs mutually agreed upon, enacted, and adhered to by each and every Great Lakes Province and State.

Therefore, the Government of Ontario should urge the Government of Canada to immediately introduce legislation to ban the sale or diversion of fresh water from Canada until procedures are established to guarantee that any such sale or diversion is fully negotiated and approved by representatives of the Government of Canada and the United States Government, in consultation with any Great Lakes State or Province that could be impacted by such a sale or diversion and a full and comprehensive Environmental Assessment and public consultation can be

conducted.

36. Mr. Kennedy - Resolution - That, in the opinion of this house, since individuals, organisations, and corporations who provide health care have an unique role in shaping both the public's understanding of, and policy within, the health care system; and

Since in an era of rapid change it is crucial there be sufficient information to ensure the public is protected at all time; and

Since these health care providers are presently restricted by a variety of direct and indirect strictures and pressures from publicly raising issues in Ontario's interest that are discerned in the course of their duties; and

Since the resulting lack of openness in the health care system results in mistakes that could be readily prevented;

Therefore, the government should take immediate legislative action to guarantee these care providers who in good faith apprehend the safety, well-being or dignity of present or future patients is or will be compromised and be allowed to speak responsibly within the public forum - without any reprisal to health care employees by their employer or to health care employers by the government.

37. Mr. Conway - Resolution - Whereas the Harris government has established criteria under its Education Funding Formula that gives additional funding to some Ontario school boards in rural and remote areas of the province in order to assist them with the higher costs such boards experience in providing services to their students; and

Whereas Renfrew County, at 8,000 square kilometres, is the largest county in Ontario and one of the most rural - running 200 kilometres northeasterly from Arnprior to Deux-Rivieres, and nearly 140 kilometres southwesterly from La Passe to Combermere; and

Whereas the arbitrary and inflexible nature of the current funding formula denies any rural and remote funding assistance to the Renfrew County public school board; and

Whereas other more urban public school boards in Kingston, Lindsay, Belleville and North Bay qualify for millions of dollars of rural and remote assistance; and  
Whereas students of the Renfrew County public school board are entitled to the same educational opportunities as students in other parts of Ontario,

Be it resolved that the Harris government immediately amend its Education

38. Mr. Lessard - Resolution - That, in the opinion of this House,

Since waiting for an organ transplant is one of the most stressful situations imaginable for patients and their families; and

Since a majority of persons support organ and tissue donation; and

Since a large percentage of organs that could be available for transplantation are lost because of difficulties in obtaining consent;

Therefore, the Government of Ontario should implement comprehensive measures to increase the number of suitable organs available, improve access to organ transplants and reduce waiting times for persons needing these life saving procedures, and to ensure that opportunities to receive organ donations are not missed.

39. Mr. Barrett - Resolution - That, in the opinion of this House,

Whereas, many tobacco farmers, business owners, municipal councils, and residents of my area are opposed to the mandatory posting of "no smoking" signs in businesses whose primary operation is the sale of tobacco-related products and machinery,

And whereas, local municipal councils have passed resolutions stating that "within the tobacco producing counties of Brant, Elgin, Oxford, and the riding of Haldimand-Norfolk-Brant, policing of the regulated "no smoking" protocol be left up to municipalities to enforce as they see fit and the privately owned businesses who produce or process tobacco and/or whose businesses service or supply the tobacco industry, and reside within the designated regions be exempt from posting the regulated "no smoking" sign",

And whereas, restaurants and coffee shops provide separate ventilated smoking areas and business owners want to make their own decisions regarding the nature of their establishment,

And whereas, Canada, like many jurisdictions, has measures in place to restrict smoking including high tobacco taxes, public education about the dangers of smoking, and the prevention of nuisance to non-smokers,

And whereas, smoking is an informed personal decision, and most issues are better left up to the decision making skills of individuals, families, and the market place,

And whereas, legislators have a duty to protect society, not meddle in people's social and economic lives,

## Section 6B-18

And whereas, thousands of farmers, businesspeople, and residents have called for amendments to the Tobacco Control Act,

Therefore, the Government of Ontario should continue with its current policy on tobacco which encourages prevention, wellness, and discourages young people from smoking, and that the Government of Ontario should amend the Tobacco Control Act to uphold the rights and freedoms of Ontarians by ensuring that tobacco producing areas and private businesses have the discretion to devise local tobacco strategies.

1. Mr. Hampton - Whereas the federal Liberal government in Ottawa is negotiating a Multilateral Agreement on Trade, ignoring the clear opposition of many provincial governments, municipalities and Canadians throughout the country; and

Whereas the MAI, negotiated for years in secret by the federal Liberals before activists forced it into the open, would provide a charter of freedoms for corporate investors with no clear benefits for the people of Canada; and

Whereas supporters of MAI, especially the trade minister and other members of the Liberal Cabinet in Ottawa, show no appreciation for the importance of strong environmental protection, high-quality health care and vibrant public education to the stable economy of our communities, our province and our country; and

Whereas the Ontario government has joined other provinces in expressing reservations about the draft MAI; and

Whereas growing opposition throughout Canada and the world has forced a delay in negotiations, but have not killed the proposed MAI;

Whereas Mike Harris also said in regard to casino gambling, "I don't want a million dollars a day into the province of Ontario. I don't want the money. I don't want the Ontario government to have it"; and

Whereas Mike Harris said that gambling doesn't come cheap and that "It brings crime, it brings prostitution, it brings a lot of the things that maybe areas didn't have before. There is a big cost to pay"; and

Whereas Mike Harris criticized the former NDP government for not conducting social and economic impact studies before it introduced casino gambling; and

Whereas now the Mike Harris government is expanding gambling without regard to the impact and without regard to its commitments to Ontarians;

Therefore, this House calls upon the Mike Harris government to explain why it has not kept its campaign promises with respect to the expansion of gambling in Ontario; to listen to the communities across the province who have overwhelmingly rejected the Harris plan to establish 44 neighbourhood casinos; and to stop its attempts to force charities, municipalities and citizens into accepting these gambling halls. Whereas Mike Harris has not just raised tuition fees, he has also forced students to take on more and larger loans and has told families they will have to contribute more; and

Whereas the Mike Harris cuts to colleges and universities are the deepest of any jurisdiction in North America over the last two years; and

Whereas Mike Harris has prevented students from earning their own way by cutting back on the amount of money they can earn in a year and by cutting back on the amount of earnings they can make through summer jobs programs; and

Whereas Mike Harris student debt load levels are already too high; and

Whereas students and their families are already experiencing "sticker shock" at the high cost of these programs; and

Whereas no student in Ontario should be denied the opportunity to get a degree or diploma;

Section 6C-3

Resolved that the government listen to the students, professors and financial institutions who say that debt levels are already unmanageable; and

Resolved that the government adopt the Dalton McGuinty commitment to freeze tuition fees and halt opportunity-killing tuition deregulation; and

Resolved that the government stop forcing students into greater debt to make up for the Harris cuts to universities and colleges in Ontario. Minister of Education.

4. Mr. Kormos - Whereas there have been serious questions raised about impropriety and potential conflict of interest in the process to select the builder and operator of the Niagara Falls permanent casino, and that these questions remain the subject of widespread concern in Ontario; and

Whereas there have been revelations that the winning consortium includes a number of people who have strong ties to the provincial Conservative party, having worked as lobbyists around the establishment of privately-owned and operated casinos, campaigners, fund-raisers and party officials; and

Whereas it has been revealed that Michael French was hired by a Toronto business group that was a partner in the winning bid for the Niagara casino, while at the same time he was retained by the Ontario government to run competitions to select private operators for the Niagara Falls casino and the 44 permanent charity casinos;

Be it therefore resolved that this House believes an independent inquiry under the Public Inquiries Act into the selection process for the construction and operation of the Niagara Falls casino/gateway project, including all government discussions and decisions leading up to the selection of Falls Management as the winning bid, will be essential for bringing out the full truth surrounding this case of apparent impropriety on the part of the Government of this province. The Premier of Ontario.

**FALL PERIOD 1998**

1. Mr. McGuinty - Whereas the Mike Harris government has successfully and deliberately created a crisis in our children's education;

Whereas the Mike Harris government stated clearly at the beginning of its mandate

Section 6C-4

plans to "create a useful crisis" in education;

Whereas Mike Harris and Dave Johnson have repeatedly poured fuel on the education crisis with expensive ads and calculated attacks on our teachers, trustees and students;

Whereas Mike Harris' Bill 160 and the education funding formula has only added to that crisis;

Whereas Bill 160 amounts to a power grab by the Mike Harris government, removing local input from our children's education;

Whereas Bill 160 imposes conditions on local boards, but fails to provide adequate funding allowing many local boards to meet those conditions;

Whereas Bill 160 causes all school board and teacher contracts to expire at the same time;

Whereas the Mike Harris government is forcing schools to close across the province;

Whereas the Mike Harris government has taken at least \$1 billion out of our classrooms;

Whereas for these reasons and others, this government's education policy has been a failure;

Whereas we value our children's education and the dedication of Ontario's teachers;

The Ontario Liberals call on the government to admit that Bill 160 does nothing but create a crisis in education across the province;

That the government immediately initiates an independent, objective review of their funding formula to ensure that each board is given the resources needed to provide quality education to our students. The Premier of Ontario.

2. Mr. Hampton - Whereas the tax scheme instituted by the Harris Conservatives provides real benefits only to individuals with the highest incomes, while forcing cuts to health care, schools, environmental protection and other vital services; and

Whereas 25 percent of the money from the tax scheme goes to the top 6 percent of individual taxpayers in Ontario; and

Whereas rebuilding public services will only be possible when this tax scheme for the wealthy is repealed;

Therefore this House urges an immediate reinvestment in health care, education, environmental protection and other services in our communities, financed by reversing the tax scheme for the top 6 percent of individual taxpayers. The Premier of Ontario.

3. Mr. McGuinty - Whereas the Harris Government has lowered the minimum age for hunting with a firearm to just 12 years of age; and

Whereas many police and victims groups have strongly stated that putting guns in the hands of children as young as 12 threatens public safety; and

Whereas there has already been a fatal shooting involving a thirteen year old child since the Harris government lowered the age; and

Whereas the Ontario Liberal Party believes that it is more important to put books, not guns in the hands of children; and

Whereas the Harris government has also ignored police and victims groups by fighting universal gun registration; and

Whereas universal gun registration is supported by:

- Ontario Association of Chiefs of Police
- CAVEAT
- Peel Regional Police Association
- Hamilton-Wentworth Regional Police
- Ontario Coalition of Senior Citizens Organizations
- Halton Health Services
- Niagara Health Services Department
- Interval House (Ottawa)
- Municipal Councils of: Etobicoke, Gloucester, Goderich, Guelph, Nepean, Lindsay, Kitchener, Peterborough, Waterloo, Brampton, Oshawa, London; and

Section 6C-6

Whereas a recent Angus Reid Poll showed that the following people supported universal gun registration:

- 86 % of Ontarians
- 54% of Ontario gun owners
- 88% of the people in Toronto
- 85% of the people in Southern Ontario
- 88% of the people in Eastern Ontario
- 76% of the people in Northern Ontario
- 88% of people living in Urban Ontario
- 75% of people living in Rural Ontario
- 89% of non-gun owners
- 91% of female voters
- 79% of male voters

Be it resolved that the Harris Government acknowledge the danger of allowing children to have access to guns by reversing its decision to put guns in the hands of children; and

Be it further resolved that the Harris Government end its fight against universal gun registration by working with police and the federal government to fully implement the federal gun registration law in the Province of Ontario. The Premier of Ontario.

4. Mrs. McLeod - That, in the opinion of this House, since Dalton McGuinty has been talking to children like Carlos who was afraid that his little sister was going to lose her daycare, and Amanda who is making bracelets to try to save her school, and Anne who asked why Mike Harris is being so mean and closing her school; and

Since Mike Harris has refused to consult with parents on the future of their neighbourhood school; and

Since Mike Harris is pitting parent against parent and community against community in the fight to save local schools; and

Since Mike Harris short-changed school boards by over \$150 million making it

Section 6C-7

impossible to keep schools open; and

Since Mike Harris is now blaming school boards and using them as scapegoats for his government's disastrous and chaotic funding formula; and

Since Mike Harris promised in 1995 not to cut classroom spending but has already cut at least \$1 billion from our schools and is now closing many classrooms completely;

Therefore, the Mike Harris government should stop closing hundreds of neighbourhood and community schools across Ontario. The Premier of Ontario.
