EXPLANATORY NOTE

The Bill enacts the *Northern Health Travel Grant Advisory Committee Act, 2022*. The Act requires the Minister of Health to establish an advisory committee. The committee's mandate is to make recommendations for improving the facilitation of reasonable access to health services for people in Northern Ontario by means of reasonable, realistic and efficient reimbursement for travel costs. The committee is required to consult with all relevant stakeholders, including, at minimum, the stakeholders specified in the Bill. The committee is required to report its recommendations to the Minister. The Minister is required to inform the Assembly of the recommendations that the Minister will implement.

An Act to enact the Northern Health Travel Grant Advisory Committee Act, 2022**Preamble**

The *Canada Health Act* declares that “the primary objective of Canadian health care policy is to protect, promote and restore the physical and mental well-being of residents of Canada and to facilitate reasonable access to health services without financial or other barriers”.

The Northern Health Travel Grant helps people get to the healthcare they need. The program provides financial support for eligible applicants to travel to their closest medical specialist or ministry-funded health care facility. However, many people in Northern Ontario are unhappy with the program’s operation. In particular, they are dissatisfied with inadequate customer service, insufficient coverage and low rates of reimbursement. Improving the Northern Health Travel Grant will help Ontario meet a key objective of the *Canada Health Act* for Northern Ontario residents.

Therefore, Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:
