BY COMMAND

GEORGE R. MCCAGUE
Acting Minister of Government Services.

Monday, the Eighteenth day of April, 1983, being the first day of the Third Session of the Thirty-second Parliament of the Province of Ontario for the Despatch of Business pursuant to a Proclamation of the Honourable John Black Aird, An Officer of the Order of Canada, One of Her Majesty's Counsel Learned in the Law, Bachelor of Arts, Doctor of Laws, Lieutenant Governor of Our Province of Ontario.

3.00 O'CLOCK P.M.

And the House having met,

The Honourable the Lieutenant Governor then entered the House and, being seated on the Throne, was pleased to open the Session by the following gracious speech:—

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

Ontario is now emerging from a period that has proven to be difficult for all jurisdictions within the industrial western world. The economic setbacks experienced in 1982 were, beyond doubt, more severe than any public or private observers

had foreseen. For the first time since 1975, real output for the industrialized economies, as a whole, declined. And, more disturbing, unemployment rose to unprecedented post-war heights. Clearly, steps must be taken to overcome this situation.

It is gratifying to be able to report to this Legislature, therefore, that we are now witnessing several positive signs, both in the resumption of economic activity with increased employment, as well as in the fight against inflation. The restoration of confidence has begun.

The personal economic outlook for many Ontarians, however, will remain challenging. My Government is well aware of the hardships imposed by current high levels of unemployment. These hardships have been borne by men and women in all regions and from all walks of life. The lessening of these difficulties will continue to head the list of matters requiring the full attention of this Legislature.

It is obvious that no single province has at its disposal the means to solve all of the problems resulting from current economic conditions. However, the Government of Ontario will continue to give the highest priority towards the fashioning of initiatives designed to provide badly needed job opportunities.

The last Provincial Budget outlined a number of such initiatives. The job creation program which was announced at that time, created some 40,290 jobs at a cost of \$176 million. An additional \$150 million was later provided for direct job creation projects and for co-operative programs with the Government of Canada. Funding for employment programs for young people, who have experienced higher unemployment levels than the rest of the workforce, has been increased to \$120 million. Through these and other measures, the Government has endeavoured to assist in creating conditions conducive to economic recovery. In recent months there have been indications that additional developments have occurred which should aid in this process.

For example, there has been a significant slow-down in inflation. Consumer price increases in Canada have declined from an annual rate of 12.5 per cent in 1981 to the 6 per cent range during the last few months. Moderation of unit labour cost increases and the favourable outlook for food and energy prices will both contribute to continued dampening of overall price increases in the year ahead.

Trends in wage and salary settlements have also contributed to the growing confidence in our ability to cope with inflation. In the public sector, many jurisdictions in Canada—including Ontario—have demonstrated a commitment to ending the inflationary environment through the implementation of public-sector wage and price restraint. And in the private sector, there is evidence that major wage settlements are also moderating.

Concurrently in this country and in the United States, there are signs that economic activity is increasing. Interest rates have declined substantially. In specific sectors—housing, appliances, autos—there has been a perceptible quickening in the pace of activity. Recent reports reveal that, consumer confidence has increased significantly and nothing will offer a surer sign of improving economic conditions than the decision by individual consumers to enter the marketplace.

The stage now appears set, therefore, for an enduring economic recovery in Ontario and Canada. The evidence is clear that such recovery, and the increased employment opportunities that will result from it, will centre primarily on the private sector. The responsibility of Government, including that of Ontario, will be to create the proper climate for the private sector to foster that economic growth, to complement the efforts of business and industry through appropriate plans and programs, and to assist directly and in a variety of ways, those citizens who, for whatever reasons, require help, including assistance in finding appropriate job opportunities, within the workforce.

The importance of a well-trained labour force for economic recovery is obvious. Ontario possesses one of the most highly developed systems for manpower training in North America, delivered, in the main, through its community college network. Last summer my Government took the lead in developing, with the Government of Canada, a new national training program which will further institutional training and at the same time give significant additional financial support for training within industrial settings. As the economy improves, it is equally important for employers to fulfill their training obligations by increasing their commitment to and participation in these programs.

While job training will demand particular attention during this period in which industrial requirements, and the technology that supports them, are changing so rapidly, we cannot lose sight of the need to continue to provide high quality programs, of all types, within our educational system. This will require constant examination of school organization and curriculum content as has been evidenced by the recent Secondary Education Review Project. Further, to ensure the most effective results for the resources available, new developments, both in terms of programs and facilities, will, of necessity, be approved on a priority basis.

It is clear, too, that as new technology takes hold, traditional job patterns will change and, in some cases, disappear. This, in turn, will give rise to significant changes in the style and nature of life for many Ontario citizens. Rather than wait and react to these events as they unfold, my Government intends to undertake an extensive and serious study of these projected developments so that we are in the strongest possible position to assist Ontarians to adjust to the changing circumstances within our industrial and business sectors.

In times such as these, organized labour plays a vital role, not only in representing the interests of individual members but also in working together with business and the Government to find practical solutions to our common difficulties. It has, for example, undertaken constructive co-operation with management in the introduction of pilot projects in quality of working life across the Province. These efforts will be extended and enhanced in coming months as a further example of what can be achieved through co-operative efforts involving labour, business and Government.

Further, sustaining the turnaround in economic activity will require a continuing commitment by all parts of our society to act responsibly. For both those in the private and public sector, this will mean continuing the trend toward moderation in the demands placed on the economy—in wage and salary settlements; and, in the movement of prices. Failure to achieve such restraint will shatter the growth of confidence, and slow the momentum of economic expansion.

Constructive intergovernmental co-operation is also critical to economic recovery and the restoration of public confidence and it is with this in mind that my Government once again calls upon the Prime Minister of Canada to convene a First Ministers' meeting on the Economy at an early date. Such a meeting could serve to chart the course of a broadly-based economic recovery during the remainder of this decade. We must build and give impetus to the emerging climate of optimism. Our citizens deserve no less. While the recently established federal Royal Commission on the Economic Union and Development Prospects for Canada was a welcome initiative, we cannot rely solely on this longer-term process to spur lasting economic recovery. Enhanced federal-provincial co-operation is required *now*.

For its part, the Government of Ontario is resolved to bear its full share of responsibility and to continue to provide leadership in the weeks and months ahead. My Ministers, therefore, in their several responsibilities, will be placing before you in this Session, components of a clearly defined three-part program. Measures will be introduced to contribute to an enduring economic recovery which will create the jobs necessary to allow all Ontarians to lead productive lives; to strengthen the management of the Province's affairs; and, to respond to the critical concerns and needs of Ontarians, in all areas of their lives, through this adjustment period.

The Budget, to be presented in May, will form a key element of this program. It will address the broad directions the Government will take in meeting the fiscal and economic policy challenges facing Ontario today. Emphasis will be placed on strengthening the Province's longer-term economic potential.

In the coming year, the Government will continue to set priorities and co-ordinate economic initiatives to ensure that our Province is able to take full advantage of the many resource and technological opportunities that will be available in the future. Many initiatives already in place will demand further fiscal resources and strategic guidance. While continuing this work, we will strive constantly to seek out new initiatives. Specifically, we can expect new projects and programs in such fields as fusion fuel technology, inter-regional transit, assistance to single-industry communities in Northern Ontario, development and marketing of pollution abatement equipment, development of a Canadian school microcomputer and educational software, and tourism.

These initiatives will be supplemented further in the coming twelve months by a number of new measures. My Government's goal is to promote and encourage the development of internationally competitive industries, including the agricultural sector, which will result in the creation of new jobs and increases in real incomes, both corporate and personal. Our goals, for which policies and programs will be outlined, are:

- to stimulate business investment significantly over the next two years;
- to double foreign trade over the next five years;
- to increase domestic market expansion;
- to increase the productivity and entrepreneurship of small and medium-sized businesses; and

—to increase innovation in all sectors of our economy.

Of particular importance to economic recovery and growth in Ontario, is the state of the automotive industry. For this reason, during the past year, Ontario has pursued discussions with the Government of Canada and business and labour leaders, to promote its revitalization and future development. In this regard, as a short-term measure, we continue to advocate, in the strongest possible terms, restriction in the number of imported cars to allow domestic industry time to adjust to the new circumstances and, more importantly, to permit time to obtain agreement from foreign manufacturers to increase significantly Canadian content in their products. Since we are not satisfied that Federal officials are acting vigorously enough on this matter, we intend to increase our own efforts.

We have supported, in recent months, the establishment of the Task Force on Canadian Motor Vehicle and Automotive Parts Strategy and look forward to the release of its report. Without pre-judging the findings of this report, we believe that the continued viability of the Canadian automotive industry will only be ensured in the longer term by requiring *all* vehicle manufacturers sharing the Canadian market to operate under the same requirements as those mandated under the 1965 Canada-United States Automotive Products Trade Agreement. The importance of the automotive industry to our overall economic good health requires no less.

The problems that have shadowed the world economy over the past few years, have taken a particularly heavy toll in the farm community. Farmers have been hit financially by high interest rates, and further squeezed by low commodity prices. The Government acted to alleviate this situation by providing a temporary bridging to improved economic times. Originally, the Ontario Farm Adjustment Assistance Program was scheduled to expire on December 31, 1982. In light of the current economic situation, and the unlikely prospects of significant improvement in commodity prices, the program has been extended. In addition, Ontario in co-operation with Saskatchewan has taken the lead in designing a National Tripartite Stabilization Program to insure producers against volatile commodity prices in the future.

The Ministry will reinforce its efforts in the area of financial counselling, designed to assist producers in optimizing their business decisions. Initiatives will also be taken to support the long-term development of our Northern Ontario agricultural resources.

In addition, no farmer should fear the loss of his product, through the failure of another business, or misrepresentations of a buyer, Complementing the Livestock Financial Protection Program, successfully introduced for Beef producers last year, it is our objective to expand this type of protection. For example, The Elevator Storage Act, currently under review, will be updated to provide better protection for farmers who store their grain in elevators.

In order to remain competitive, Ontario agriculture requires a continuous stream of young, highly-qualified entrants to carry on in this vitally important sector of the economy. The Government recognizes the many problems faced today by young farmers. Accordingly, we shall be proposing measures to assist young people, entering agriculture for the first time, to get a fair start.

My Government will continue the programs established to reduce potential and actual pollution of our air and water by international sources; and will continue, by means of consultation and, if necessary, by intervention, to represent Ontario's interests and to ensure that the well-being of our people is taken into account in the formulation of remedial measures.

The people of Ontario enjoy a quality of housing second to none in the world. We plan to maintain this standard with programs designed to stimulate housing construction both to meet the shelter needs of home owners and tenants and to provide employment in the construction industry and the many related industries which ebb and flow with the housing market.

It is our intention, in designing and executing these programs, to work closely with our partner-governments at the national and municipal levels. This partnership will yield maximum efficiency in creating programs to meet our housing needs, community by community. Such a partnership will provide continuing sensitivity to the changing needs of senior citizens, the single-parent family, the disabled and other special-needs groups.

My Government believes that there is a need to accelerate progress in the area of women's issues and while considerable advancement has been made in recent years to enhance opportunities for the women of Ontario, much remains to be done. To ensure, therefore, that women's essential contribution to the social and economic well-being of the Province receives further support, my Government will move to name a senior Minister who will be responsible for Women's issues with a complete mandate to review, initiate, direct and promote policies favourable to and in support of women in Ontario society.

This Minister will have wide ranging responsibility for providing a focus for the Government and the public on concerns that affect 52.4 per cent of our population and for taking steps to close the gap in wages that has too long existed between men and women as well as the proportion of women who are clustered in particular areas of employment.

Ontario is widely envied throughout the world on many counts, not the least of which is the sound conduct of its financial and administrative affairs. In five out of the last seven years, my Government has held its expenditure growth below the rate of inflation, freeing available resources for the private sector and for budgetary stabilization initiatives. Further evidence of this can be noted in the fact that, were our financial affairs in the same situation as those of our National Government, the provincial deficit would be four times that currently projected. During this same seven-year period, Ontario's public service employment has decreased by 6.1 per cent, leaving Ontario with the fewest public servants, as measured on a per capita basis, of all Canadian provinces. It is a testimonial to our employees that this has been accomplished while maintaining the quality of our services to the public.

In the coming year this tradition of sound management will be continued. Renewed emphasis will be placed on value-for-money auditing, and the examination of all on-going programs to determine that they continue to serve the purposes for which they were intended and that the benefits are commensurate with the costs. The Government's capital construction program for public sector requirements will aim at saving tax dollars in high cost leasing areas. Finally, a number of Government

regulatory functions such as the Building and Fire Code regulations and the Mining Act will be reformed and streamlined.

My Government will strive to provide an equality of services across Ontario. The "one-window" approach will be expanded to allow more Ontarians to deal with their government more directly and more simply on a face-to-face basis throughout the Province.

Further, my Government recognizes that the retirement income system can be improved at both the national and provincial levels. Last December the Government of Canada created a special Parliamentary Task Force to develop recommendations for achieving such improvements. We will urge this Task Force to proceed with its deliberations as quickly as possible so that needed reforms can be recommended and adopted. To assist in this process, my Government will seek to present its views to the Government of Canada later this year. These views will emphasize the importance of freedom of choice for individuals in preparing for retirement and the need to provide more adequate retirement income protection for many members of our society.

The Public Service Superannuation Act will be amended to eliminate the unfair practice of discontinuing a survivor's pension upon remarriage. This change will apply retroactively to those individuals, mostly women, who have been inadvertently penalized by the current provisions.

Trust Companies perform a vital role in Ontario as deposit-taking institutions and as administrators of estates and trusts. They also provide a major source of residential mortgage loans. It is my Government's belief that public confidence in the Trust industry of this Province should be unquestioned. In furtherance of this objective, the Loan and Trust Corporations Amendment Act was passed in the previous Session and a White Paper will be tabled, outlining a form of regulation that will address the need to maintain the public's confidence and also enable the Trust industry to develop and maintain itself in these changing economic times.

Changes in the demographic composition of Ontario's population are constantly creating new challenges. Currently 10 per cent of the provincial population is over the age of 65. In less than 10 years the number of those over 85 will increase by nearly 50 per cent. These changes will necessitate enhancement of existing services and the development of new and innovative approaches to meet evolving needs.

In order to ensure a comprehensive approach to the needs of the elderly in the years ahead, my Government has completed a major review of programs and services to the elderly. While a number of initiatives will be proposed with respect to institutional and community health services, particular emphasis will be placed upon the support services and related programs which will enable elderly citizens to continue to live independently in the community.

Mon gouvernement est fier, et à juste titre, des progrès qu'il a accomplis dans la prestation des services à la population francophone de la province, en particulier dans le domaine de l'éducation. Cette année, la population scolaire de langue française comprend environ 93,706 élèves inscrits dans 276 écoles séparées catholiques, 13 écoles élémentaires publiques et 65 écoles secondaires de langue française ou mixtes. En fait, environ 96 pour cent de la population scolaire de langue française

dans la province bénéficie actuellement de l'enseignement en français, en tout ou en partie.

Dans la poursuite de nos efforts pour assurer l'égalité des chances en éducation à tous les élèves de la province, nous présenterons, après avoir consulté le public, des amendements à la Loi sur l'éducation dans le but de:

- reconnaître le droit de chaque élève francophone de faire ses études en français;
- veiller à ce que les conseils de l'éducation établissent, dans certaines conditions, des sections de langue minoritaire composées de conseillers scolaires élus par les électeurs de groupe linguistique minoritaire, lors des élections de 1985;
- permettre au ministre de l'Éducation de résoudre les différends entre les conseils scolaires et la Commission des langues d'enseignement de l'Ontario quant aux mesures à prendre.

Il convient de noter que toutes ces dispositions s'appliqueront également aux Ontariens anglophones dans les circonscriptions scolaires où ils se trouvent en minorité.

My Government is justifiably proud of the progress it has made in providing services to our Province's French-speaking population, particularly in the field of education. This year the French Language school population comprises approximately 93,706 pupils registered in 276 Roman Catholic separate schools, 13 public elementary schools and 65 French or mixed secondary schools. In effect, approximately 96 per cent of the French-speaking school age population of this Province currently receives its education, in whole or in part, in French.

To complete our efforts of ensuring equal educational opportunity for all pupils in this Province, following public consultation, amendments to The Education Act will be introduced:

- to recognize the right of every French-speaking pupil to an education in the French language;
- to ensure that boards of education, under certain conditions, establish minority-language sections consisting of trustees elected by minority-language electors for the 1985 elections;
- to enable the Minister of Education to resolve situations in which a school board or the Languages of Instruction Commission of Ontario may disagree on an appropriate course of action.

It should be noted that all of these provisions will apply equally to English-speaking Ontarians in those school board areas where they are in a minority position.

Ontario will fulfill the commitment it made at the meeting of First Ministers and aboriginal leaders, to extend the provisions of Canada's new constitution respecting

the process for identifying and defining aboriginal rights. My Government has been at the forefront of constitutional discussions to guarantee equal status of native men and women, to ensure that governments consult aboriginal peoples in advance of constitutional amendments that could affect them, and to entrench future constitutional discussions respecting the rights of native peoples.

In order to implement the terms of the accord signed by First Ministers, this Legislature will be asked to consider and support a resolution authorizing a constitutional amendment to sections of the Constitution Act respecting an ongoing process, the equal status of native men and women, clarification of the term "treaty rights" and guaranteed consultation in event of future constitutional reform affecting native peoples.

My Government has completed a systematic review of its legislation and programs as part of its commitment to the provisions of the Charter of Rights and Freedoms, and to the primacy provisions of the new Human Rights Code. Legislative measures will be brought forward over time to ensure that Ontario law and practice is fully consistent with the important principles expressed in the Charter and the Human Rights Code.

This year, preparations will continue apace for Ontario's Bicentennial in 1984. Two hundred years ago, the first large major settlements of our Province were established by those who migrated from the United States, following the American Revolution, joining with the native and French population of the then Ontario to build a new community and a new future under what would become responsible parliamentary democracy. The Bicentennial will be a community based celebration, responsive to the many cultures and identities which have built our Province during the last two centuries, and an affirmation of the common opportunity we share to build on this history for the future.

My Government is particularly pleased and honoured at the prospect that our Queen, Her Majesty Queen Elizabeth II, will be with us on this important occasion in 1984. Her presence, grace, warmth and humanity symbolize more than anything, the continuity of the liberty, freedom and opportunity that our way of life sustains for Ontarians of all origins, colours and creeds. It is important that we seize this opportunity to affirm in a modest yet inspiring fashion, that we have much of which to be proud, much to thank those who have preceded us, and even more to which to aspire the future.

Honourable Members, the general outline which I have set before you today toward the combined goals of economic recovery, sound management of our public affairs and meeting the varied needs of Ontario's people, will, of necessity, be expanded through more detailed statements describing the specific plans and programs that my Government intends to introduce. You may look forward, therefore, to a series of announcements by my Ministers in the weeks to come that will set before this House a variety of proposals that will ensure continued progress in these major areas.

May Divine Providence attend your deliberations.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

His Honour was then pleased to retire.

SECOND DAY

TUESDAY, APRIL 19TH, 1983

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker informed the House as follows:—

I beg to inform the House I have today laid upon the Table the Sixth Report of the Commission on Election Contributions and Expenses containing recommendations with respect to the Indemnities and Allowances and Salaries of Members of the Legislative Assembly. (*Sessional Paper No. 15*) (Tabled April 19th, 1983)

Mr. Speaker addressed the House as follows:—

Just before proceeding on that most interesting part of the day I would like to ask the consideration and co-operation of all honourable members that in my opinion there seems to be a growing tendency to usurp more time than is justified in question period by the insistence of some members asking more than one question at the same time, referring to them as three, four, five and six-part questions. This, in turn, leads to exceptionally long answers which are very often, again, an abuse of the question period as the minister tends to go even further in his answer than the multiple questions warrant and perhaps elaborate more than necessary.

Therefore, I am asking the co-operation of all honourable members by keeping their questions to a single, specific question which may be answered by a specific answer as is the obvious intent of the standing orders. This will enable more members to participate in question period. I will therefore, henceforward, rule multiple questions and multiple answers out of order.

On motion by Mr. Wells,

Ordered, That, commencing tomorrow, April 20th, the House will not sit in the Chamber on Wednesdays unless otherwise ordered.

On motion by Mr. Wells,

Ordered, That, the first day for consideration of Private Members' Public Business be on the first Thursday following the completion of the debate on the address in reply to the Speech from the Throne; and, that, in accordance with the Order of the House of February 23rd, 1983, the order of precedence established in the First Session and as amended from time to time be continued in the Third Session.

On motion by Mr. Wells,

Ordered, That, due to the interruption of the consideration of Private Bill legislation occasioned by the prorogation of the Second Session of the Thirty-Second Parliament, the applications for Private Legislation related to Bills Pr8, Pr9, Pr13, Pr20, Pr34 and Pr36 which received First Reading in the Second Session be considered during the present Session without publishing further notice of the applications and without lodging further declarations proving publication; and, that, the application fees paid by the applicants in the Second Session be applicable for the continuation of the applications in the present Session.

On motion by Mr. Wells,

Ordered, That, Mr. Cousens, the Member for York Centre, be appointed Deputy Chairman of the Committees of the Whole House for this Session.

The following Bills were introduced and read the first time:—

Bill 2, An Act to provide for the Formulation and Implementation of Emergency Plans. *Mr. Taylor* (Simcoe Centre).

Bill 3, An Act to amend the Motor Vehicle Dealers Act. *Mr. Elgie*.

Bill 4, An Act to amend the Collection Agencies Act. *Mr. Elgie*.

Bill 5, An Act to amend the Boilers and Pressure Vessels Act. *Mr. Elgie*.

Bill 6, An Act to provide for Freedom of Information and Protection of Individual Privacy. *Mr. Breithaupt*.

Bill 8, An Act respecting the Succession to Estates of Deceased Persons in Ontario who have Beneficiaries residing in Designated Countries. *Mr. Breithaupt*.

Bill 9, An Act to amend the Election Act. *Mr. Breithaupt*.

Bill 10, An Act to amend the Legislative Assembly Act. *Mr. Breithaupt*.

Bill 11, An Act to amend the Landlord and Tenant Act. *Mr. Philip*.

Bill 12, An Act to amend the Labour Relations Act. *Mr. Mackenzie*.

Mr. Mackenzie moved, seconded by Mr. Foulds, That, pursuant to Standing Order 34 (a), the ordinary business of the House be set aside in order to debate a matter of urgent public importance, namely the harrassment of workers on legal picket lines at Central Precision and Alcan (Scarborough) which has led to numerous arrests, confrontation, some injuries and the death of a worker, Claude Dougdeen; and which undermines the faith of working people, particularly new Canadians, in the fairness of the justice system in this Province.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled the debate should not proceed. On appeal, Mr. Speaker's ruling was sustained on the following division:—

The Order of the Day for resuming the Adjourned Debate on the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session having been read,

The debate was resumed, and, after some time,

Ms. Copps moved, seconded by Mr. Nixon,

That the motion be amended by adding the following thereto:—

This House, however, regrets that the Speech from the Throne fails to address the most serious problems facing Ontario today, reflecting a total lack of government initiative, leadership and policy necessary to resolve these concerns, namely:

- the continuing unemployment crisis, particularly among this province's youth;
- the pressing need for a definitive industry strategy, particularly the need for massive training and retraining programs;
- the urgent need for affordable housing in this province;
- the preservation of Ontario's health, social and education sectors, and particularly support for hospitals, day care, services for the elderly and post-secondary institutions;

—the continuing problems facing farmers during these recessionary times;
Therefore, this House declares its lack of confidence in the Government.

On motion by Mr. Laughren,

Ordered, That the debate be adjourned.

SIXTEENTH DAY

MONDAY, MAY 9TH, 1983

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:

I beg to inform the House I have today laid upon the Table the Eighth Annual Report of the Commission on Election Contributions and Expenses. (*Sessional Paper No. 35*) (Tabled May 9th, 1983)

Mr. Speaker ruled as follows:

I wish to rule upon the question of privilege which the Leader of the Opposition raised on Friday last.

The question is of considerable importance and I have carefully reviewed the arguments presented by a number of honourable members as well as the cases specifically cited and the parliamentary law texts.

The privileges of the House are stated in general terms in the 19th Edition of Erskine May's *Parliamentary Practice* at page 67 as follows:

Parliamentary privilege is the sum of the peculiar rights enjoyed by each House collectively as a constituent part of the High Court of Parliament, and by members of each House individually, without which they could not discharge their functions, and which exceed those possessed by other bodies or individuals.

To be considered a question of privilege, a matter must pertain to a right or immunity which the ordinary citizen does not enjoy. These special rights and immunities allow the Legislature to meet and carry out its proper constitutional role, members to discharge their responsibilities to their constituents and persons involved in the Parliamentary process to carry out their duties and responsibilities without obstruction or fear of prosecution. The principal privileges of the House or of its members are cited in the Australian parliamentary text, *House of Representatives Practice*, at page 645, and include the right of free speech in Parliament, the right of the House as a body to freedom of access to the Lieutenant Governor, immunity of members from arrest, detention or molestation for civil causes during defined periods, immunity of members from the obligation to serve on juries, immunity of witnesses summoned to attend before the House or one of its committees from being

questioned or impeached for evidence given before the House or a committee, the power to order the arrest and imprisonment of persons guilty of contempt or breach of privilege, and the power to expel members.

The Leader of the Opposition and the honourable member for York South, as well as a number of other members, stressed the importance of ensuring the secrecy of the provisions contained in the Budget until it is presented in the House, the responsibility of the Treasurer and Minister of Economics to take all the necessary steps to preserve the confidentiality of the Budget and the right of the House to call the minister to account for any breaches of Budget secrecy.

The Budget by its very nature must be kept secret until it is presented by the Treasurer in the House. Such a practice is, of course, necessary to prevent financial speculation and the loss of revenue to the Government treasury. These reasons were enumerated by honourable members on Friday.

However, I have been unable to find any precedent which states that the matter of budget secrecy is one which may be treated as a question of privilege. The Leader of the Opposition made reference to two cases in the United Kingdom concerning Budget disclosure. In neither of these cases was the matter treated as a breach of the privileges of the House nor were the cases sent to the Committee on Privileges for inquiry. The 1936 case involving Mr. J. H. Thomas concerned the disclosure by Mr. Thomas of certain budget secrets when he was Colonial Secretary. The matter was investigated by an extra-Parliamentary Tribunal of Inquiry and the Secretary was found to have, without authority, disclosed contents of the Budget. Mr. Thomas resigned on his own initiative from the Government and from the House.

The 1947 case involving Hugh Dalton, the Chancellor of the Exchequer, concerned the disclosure to a reporter of budget information. The matter was raised by way of a Notice of Motion standing in the name of several private members. The motion called for the appointment of a select committee to inquire into the circumstances of the disclosure. Mr. Dalton resigned on his own initiative the position of Chancellor of the Exchequer before the select committee was struck to consider the matter.

Budget secrecy is a political convention as is the practice that the Treasurer presents his budget in the House before discussing it in any other public forum. It has nothing to do with parliamentary privilege. My decision is supported by the decisions of a number of Speakers in several jurisdictions including Speaker Sauvé on November 18th, 1981, and most recently on April 19th, 1983, and Speaker Smith of the Legislative Assembly of British Columbia on April 1st, 1976. I would also direct the attention of honourable members to the comments of Joseph Maingot in his text, *Parliamentary Privilege in Canada*, where he states:

... parliamentary privilege is concerned with the special rights of members, not in their capacity as ministers or as party leaders, whips, or parliamentary secretaries, but strictly in their capacity as members in their parliamentary work. Therefore, allegations of misjudgment, or mismanagement, or maladministration on the part of a minister in the performance of his ministerial duties do not come within the purview of parliamentary privilege. And neither does an allegation that a minister permitted a budget leak constitute a matter of privilege.

In finding that a *prima facie* case of privilege does not exist in this case, I am making a procedural decision the effect of which will not prevent the further discus-

sion by the House of the matter. The effect is to refuse precedence to this matter as a question of privilege but not to prevent the presentation of this matter under different circumstances on another occasion.

The disclosure of information relating to the Budget has to do with the conduct of a minister of the Crown in the performance of his ministerial duties. Allegations that the Treasurer failed to ensure the secrecy of the Budget and thereby permitted a budget leak may only be raised by a substantive motion of want of confidence in, or censure of, the minister. The purpose of such a motion is to question or bring to account a minister's responsibility to the House. In support of such procedure for making direct accusations against the holders of certain offices, including ministers, Speaker Michener stated on June 19th, 1959, that:

... simple justice requires that no honourable member should have to submit to investigation of his conduct by the House or a committee until he has been charged with an offence.

Such a charge is raised by way of a substantive motion.

Finally, the member for Renfrew North, joined by the member for Riverdale and the member for Essex South, claimed that it was a breach of parliamentary privilege for the minister to have spoken to the press about the alleged disclosure of information relating to the Budget before first making a statement to the House. As I stated in my ruling of February 1st, 1983, "...although it is a courtesy to the Assembly for a Minister to release information in the Assembly before releasing it to the press or the public, it is not a breach of the privileges or rules of the Assembly if this does not happen."

The following Bill was introduced and read the first time:

Bill 31, An Act to amend the Labour Relations Act. *Mr. Haggerty.*

The following Bill was introduced, read the first time, and referred to the Standing Committee on Regulations and Other Statutory Instruments:

Bill Pr23, An Act to revive The Star of Progress Spiritual Church. *Ms. Fish.*

On motion by Mr. Wells,

Ordered, That, Mr. Cooke be substituted for Mr. Charlton on the Standing Committee for General Government, that Mr. Charlton be substituted for Mr. Cassidy on the Standing Committee for Members' Services, that Mr. Cassidy replace Mr. Charlton on the Standing Committee on Procedural Affairs and that Mr. Philip replace Mr. Cooke on the Select Committee on the Ombudsman.

Mr. Rae moved, seconded by Mr. Foulds,

That, pursuant to Standing Order 34 (a), the ordinary business of the Assembly be set aside to debate a matter of urgent public importance, namely:

The unprecedented publication of apparent budget information several days prior to the official release date of the budget; and the absence of a complete explanation as to how such a fundamental breakdown of security could have occurred; and the ministerial responsibility and accountability of the Treasurer for such publication and that this entire matter be referred to the Standing Committee on Procedural Affairs.

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled that the motion was in order and put the question: "Shall the debate proceed?" to a vote of the House and the House having unanimously agreed, the debate proceeded to conclusion.

The House then adjourned at 6.00 p.m.

this House approves in general the Budgetary Policy of the Government, having been read,

The debate was resumed, and, after some time,

Mr. Reid (Rainy River) moved, seconded by Mr. Nixon, that the motion that this House approve in general the Budgetary Policy of the Government be amended by deleting the words following "That" and adding thereto the following:—

This House deeply regrets the 1983 budget fails to recognize the most serious and fundamental problems facing the Province of Ontario today and condemns the Government for:—

Ignoring the continuing plight of the more than half-million unemployed Ontarians, neglecting in particular the desperate prospects faced by hundreds of thousands idle Ontarian youth, by refusing to introduce any serious long-term job creation programmes nor any significant job training proposals;

Ignoring the serious structural economic deficiencies plaguing Ontario's industrial infrastructure, neglecting in particular the need for a sound and thoughtful vision of Ontario's economic future for the rest of the nineteen-eighties and beyond, relying instead on short-term and short-sighted band-aid measures;

Introducing yet another series of inequitable and unfair tax increases, and at the same time increasing the provincial deficit, thus punishing the citizens of Ontario for such wasteful Government excesses such as the Suncor purchase, the landbanks, Minaki Lodge, Government advertising, Government polling and the practices of Ontario Hydro, among others;

Ignoring or reducing the provincial commitment to such important sectors of our economy such as agriculture, tourism and the auto sector;

Threatening our social services with the prospect of cutbacks while a plethora of Government excesses continue to be funded;

Ignoring or reducing the provincial commitment to Northern Ontario and environmental protection in this province;

Ignoring the crucial issue of productivity across all sectors of our economy;

Producing a budget which is unfocussed, without direction, contradictory in its proposals and offering little hope for the thousands of Ontarian citizens suffering during the current recession;

Therefore, this Government lacks the confidence of this House.

The debate continued, and, after some time,

Mr. Cooke moved, seconded by Mr. Rae, that the amendment to the motion be amended by adding after the word "recession"; and before the words "Therefore, this Government lacks the confidence of this House":

Continuing the governments slavish adherence to the economic directions established by the Liberal government, policies which have resulted in the unemployment of hundreds of thousands of Ontarians;

Ignoring the overwhelming evidence of the budget's own figures that the private sector in general and private sector investment in particular are not leading us to economic recovery, yet cutting back on vital public investment in environmental protection, housing, health, social services, agriculture and the north;

Failing to introduce a major programme to assist the construction of co-operative and non-profit housing to create jobs and meet pressing needs for shelter;

Failing to respond to the unacceptable levels of unemployment among young people and women, with concrete proposals to create permanent jobs and comprehensive skills training programmes;

Failing to respond to the needs of older workers laid off or threatened by technological change by the establishment of a Workers' Training Fund, improved layoff and severance pay legislation and pension reform;

Increasing once again regressive OHIP premiums instead of shifting this unfair tax burden to an equitable tax source;

Failing to reform the funding of health care in Ontario by banning extra-billing and user fees;

Abdicating completely its responsibility for the economic well-being of Ontario's people through its failure to introduce any long-term investment proposals to plan for our future;

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker ruled as follows:—

On Friday last, the honourable member for Etobicoke raised a point of order in which he alleged that the introduction of Bill 32, An Act to amend the Landlord and Tenant Act, was not in order because the Bill proposes to deal with a matter which is substantially the same as Bill 11 which was introduced earlier in this Session.

It is well-established by Standing Order 39 that no question or motion may be proposed upon which the judgment of the House has been expressed during the current Session.

However, in this case, it cannot be said that the House has come to a decision on either of the Bills and I must rule that the member's point of order is not in order and cannot properly be submitted at this time.

Mr. Runciman from the Select Committee on the Ombudsman presented a Special Report from the Committee on the ways in which the Assembly may act to make its voice heard against political killings, imprisonment, terror and torture and moved adoption of its recommendation. THIRTY-FIRST DAY

TUESDAY, MAY 31ST, 1983

PRAYERS

2.00 O'CLOCK P.M.

Mr. McCague delivered to Mr. Speaker a message from the Honourable the Lieutenant Governor signed by his own hand, and the said message was read by Mr. Speaker and is as follows:—

JOHN B. AIRD

The Lieutenant Governor transmits Estimates of certain sums required for the services of the Province for the year ending the 31st day of March, 1984 and recommends them to the Legislative Assembly.

Toronto, 31st May, 1983.

(Sessional Paper No. 3 Vol. 5 General Government, (Part 2).

Ordered, That the message of the Lieutenant Governor, together with the Estimates accompanying same be referred to such Committees as Ordered by the House.

Mr. Speaker addressed the House as follows:—

Arising out of the incident that took place during the Question Period yesterday, I feel that I should once again call the attention of all Members to Clause (e) of Standing Order 27 which says "In putting an oral question, no argument or opinion is to be offered nor any facts stated, except so far as may be necessary to explain the same; and in answering such question, the Member (usually the Minister) is not to debate the matter to which it refers".

A practice has grown up with some Members in particular of making lengthy comments or speeches, either before the question is put or after the question is answered. Both are out of order. There is no provision in the Standing Orders for any such practice, and I ask the co-operation of all Members to put their questions quickly, without lengthy preambles, and to refrain from any comment after the question is answered and I will be very strict in calling the Members to order who persist in either of these practices. Similarly, the Minister or any other Member to whom the question may have been referred under Clause (f) must answer succinctly and without argument or extraneous comment. Again, I will persist in calling the Ministers to order when they breach this provision of the Standing Order.

The following Bills were introduced and read the first time:—

Bill 49, An Act to amend the Niagara Parks Act. *Mr. Baetz.*

Bill 50, An Act respecting French Language Services in Ontario. *Mr. Roy.*

The following Bill was introduced, read the first time and referred to the Standing Committee on Regulations and Other Statutory Instruments:—

Bill Pr31, An Act respecting the City of Kingston. *Mr. Brandt.*

After hearing the arguments of the mover and the representatives of the other parties, Mr. Speaker ruled that the motion was out of order. Mr. Speaker's ruling was sustained on the following division:—

- (b) means of communication;
- (c) topographical features;

- (h) special geographic considerations, including in particular the sparsity, density or relative rate of growth of population in the various regions of the Province, the accessibility of such regions or the size or shape thereof;

and subject thereto the population quota for each Electoral District shall be based on the average population, but in determining such quota the Commission shall not depart from the average population to a greater extent than 25% more or less, except where, in the opinion of the Commission, any of the above circumstances exist to such an extent that require a greater departure, in which case the Commission may depart from the average population to such greater extent as it considers necessary or desirable.

That, the Commission, before reporting, shall prepare a map with a description of the boundaries of each proposed Electoral District or group of Electoral Districts, and shall invite public attention to the map by publishing a notice in THE ONTARIO GAZETTE, and shall publish the map or parts thereof in newspapers having general circulation in the proposed Electoral Districts; the notice in THE ONTARIO GAZETTE and the newspapers shall provide for times and places of

public sittings by the Commission and shall also provide for the lodging of objections and representations in writing with the Commission before such date as the notice shall provide.

That, where no objection has been filed with the Clerk in the manner provided, or the Report has been returned to the Speaker, either with or without amendment, the Commission shall prepare a draft Representation Act in the form of a Bill repealing the Representation Act and embodying its Report, and the draft Bill and a map of each Electoral District shall be presented to the Speaker forthwith and the Speaker shall transmit it to the appropriate Minister.

And a debate arising after some time, Mr. McClellan moved that the motion be amended as follows:—

FORTY-FOURTH DAY

MONDAY, JUNE 20TH, 1983

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Thursday last, the member for Sudbury East (Mr. Martel) asked for the authority for the ruling that a member may correct his own record but may not correct the record of another member. For the benefit of all honourable members I would like to cite the authority on which my ruling was based.

The 19th Edition of May's *Parliamentary Practice* states that: "It is not in order for a Member to obtain or quote during a current sitting, the record made for the Official Report of the remarks of any other Member . . . A Member has sometimes been allowed, as a matter of personal explanation, to point out at a subsequent sitting an error in the report of *his* speech . . .". This precedent has been followed many times in this House and also in the House of Commons of Canada. In this regard, on May 28th, 1982, Speaker Sauve ruled that: ". . .if [an] Honourable Member wants to correct a statement of his own, he is perfectly free to do so, but one Honourable Member cannot correct the statement of another".

It comes back to the question of privilege which has been dealt with in this House many times. I again refer you to Standing Order 18 and May's *Parliamentary Practice* at page 67. There is no privilege by Parliamentary Rule or precedent which allows a member to interrupt the proceedings of the House to correct a statement of another member; there are other ways of doing this if a member disagrees. Standing Order 19 (d) (1) provides that a member may make an explanation of a material part of *his* speech in which *he* may have been misunderstood. The member can be said to be correcting the record, however, there is no provision for him to correct the record of another member.

In reply to the often repeated question, "Where do we find that in the Standing Orders, Mr. Speaker?", I draw your attention to clause (b) of Standing Order 1 which states that, "In all contingencies not provided for in the Standing Orders the question shall be decided by the Speaker or Chairman, and when making his ruling the Speaker or Chairman shall base his decision on the usages and precedents of the Legislature and Parliamentary tradition".

FORTY-FIFTH DAY

TUESDAY, JUNE 21ST, 1983

PRAYERS

2.00 O'CLOCK P.M.

Mr. McCague delivered to Mr. Speaker a message from the Honourable the Lieutenant Governor signed by his own hand, and the said message was read by Mr. Speaker and is as follows:—

JOHN B. AIRD

The Lieutenant Governor transmits Supplementary Estimates of certain additional sums required for the services of the Province for the year ending 31st March 1984, and recommends them to the Legislative Assembly.

Toronto, 21st, June, 1983.

(*Sessional Paper No. 3, Ministry of Consumer and Commercial Relations.*)

Ordered, That the message of the Lieutenant Governor, together with the Estimates accompanying same be referred to such Committees as Ordered by the House.

Mr. Speaker ruled as follows:—

Yesterday afternoon, the member for Sudbury East, Mr. Martel, introduced a Bill entitled An Act respecting Insured Services under the Ontario Health Insurance Plan. On careful examination I find the principal of the Bill introduced yesterday to be the same as the one introduced by the member on May 17th, 1979 and subsequently ruled out of order by Mr. Speaker Stokes. His reasons at that time were that the Bill would increase the services under OHIP and must, of necessity, increase the expenditure of public funds under the Plan.

I totally concur in that ruling and find that the Bill, being a money Bill, can only be introduced by a Minister of the Crown supported by a message from the Honourable the Lieutenant Governor.

I therefor rule that the Bill is out of order and must be omitted from the Order Paper.

On motion by Mr. Wells,

Ordered, That the following committees be authorized to meet during the summer adjournment, in accordance with the schedule of meetings agreed to by the three party Whips and tabled today (*Sessional Paper No. 104*):

October 7th, 1983

Mr. Speaker:

I would like to express my profound gratitude to you and the Members of the Legislature for their thoughtfulness at the time of Osie's passing.

All of us in the Villeneuve family were deeply touched by the assistance, the sympathy and the many fine tributes paid to Osie. It was especially moving to see so many Members of the House in Maxville for his funeral.

Above all, we want to thank you for the support, loyalty and friendship Osie received during his many years of service as a Member of the Ontario Legislature. You helped make his life rewarding and worthwhile.

Although we mourn his loss, we are thankful for many things, not the least is the record of his service to the people of Ontario.

No one summed up his life better than Osie himself. Speaking at the reception in Maxville honouring his 35th year in politics, he said, "Friends are friends, that is what I want to be and hope to be forever more".

Very Sincerely,

Alma Villeneuve and Family.

That, the following resolution, laid before the Assembly in accordance with the constitutional accord entered in to on the 16th day of March, 1983, be adopted: Whereas the *Constitution Act, 1982* provides that an amendment to the Constitution of Canada may be made by proclamation issued by the Governor General under the Great Seal of Canada where so authorized by resolutions of the Senate and House of Commons and resolutions of the legislative assemblies as provided for in section 38 thereof;

And Whereas the Constitution of Canada, reflecting the country and Canadian society, continues to develop and strengthen the rights and freedoms that it guarantees;

And Whereas, after a gradual transition of Canada from colonial status to the status of an independent and sovereign state, Canadians have, as of April 17, 1982, full authority to amend their Constitution in Canada;

And Whereas, historically and equitably it is fitting that the early exercise of that full authority should relate to the rights and freedoms of the first inhabitants of Canada, the aboriginal peoples;

SIXTIETH DAY

MONDAY, OCTOBER 31ST, 1983

PRAYERS

2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:—

On Thursday, October 27th, the Member from Sudbury East asked, as a point of privilege, for information concerning the printing of the Bills, order papers, votes and proceedings and daily business sheets by Noble Scott Co. Ltd. while there is a strike in their plant.

I should point out that this matter does not constitute a matter of privilege or a point of order as it does not affect any of the recognized privileges of the House nor does it indicate anything out of order in the procedure of the House. However, as this is a matter of such interest to the House I felt that I should make this explanation.

On Thursday, October 20th, the pressmen at Noble Scott went out on strike. The strike was called by No. 10 Local of the Pressmen's Union which was engaged in negotiating a contract with the Council of Printing Industry which represents 14 employers. The strike was called in two of the fourteen plants, namely Carswell's and Noble Scott.

The strike has closed down the operation of the presses but has not extended to the employees engaged in the typesetting and other functions in the plant.

Consequently, Noble Scott is continuing typesetting with its normal union staff. They do not produce the presswork and consequently the normal printing and public distribution of the House documents is suspended.

However, Noble Scott assures us that it is able to supply a limited number of copies sufficient to supply the Assembly and its offices by a photocopying process involving only non-striking regular staff and not involving any procedure that is in the jurisdiction of the striking staff.

SIXTY-FIFTH DAY

MONDAY, NOVEMBER 7TH, 1983

PRAYERS

10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:

Referring to the allegation of the Leader of the Opposition made on Friday last, I am sure he is aware that it is out of order to accuse another Member of deliberately misleading the House or of not telling the truth, and such an accusation cannot be made as a matter of privilege. I refer you to Item 10 of Standing Order 19 (d). Moreover, it is a basic rule of parliamentary practice that Members must accept the word of other Members, and to quote Lewis' Parliamentary Procedure at page 24, "the conduct of Members in the House is based on an etiquette of mutual consideration." The Speaker must not be placed in the position of judging as to who is or is not telling the truth.

It follows that the allegation of the Leader of the Opposition was, as I stated at the time, not a matter of privilege and was, of course, out of order and unparliamentary and I would ask the Member to withdraw that statement.

And accordingly the Member withdrew the statement.

Further Petitions were presented re: restoring free collective bargaining rights under Bill 100, 1975, the School Boards and Teachers Collective Negotiations Act. (*Sessional Paper No. 156*)

Supply was concurred in as follows:—

Bill 156, An Act respecting Conveyancing Documents and Procedures and the Recording of Title to Real Property. *Mr. Elgie*.

Pursuant to Standing Order 63 (a) Mr. Rae moved, seconded by Mr. Foulds,

That this House condemns the Government for its failure to manage, invest and spend effectively the money entrusted to it and for its inaction in the face of the dra-

matic contrast between the waste and extravagance found at the highest levels of Government and unemployment and hardship facing hundreds of thousands of people in Ontario;

And that this House condemns in particular the Government's refusal to account fully and publicly for its spending, and its failure to spend public money prudently, in such instances as the following:

—the obvious neglect by the Cabinet of its responsibility to ensure financial prudence as witnessed by the refusal of the Chairman of Management Board or any other Minister to take responsibility for ensuring that the Government's own Manual of Administration is being followed;

—the Government's support for the privatization of hospital services, hospital management and other health services to 'for-profit' corporations and merchants of care, a practice which drains scarce public funds into private profits and curtails public accountability for the expenditure of public funds involved;

—the commitment of the Government to the private-profit model for nursing home care, its refusal to take clear steps towards a non-profit model for long-term care, and its refusal to require a full public accounting of their expenditures by all nursing home operators;

—the uncontrolled growth of taxpayer-paid Government advertising which has made the Government of Ontario the sixth largest advertiser in the country, spending over \$23 million on major media advertising alone;

—the Government's repeated refusal to agree to an ongoing thorough Legislative review of all aspects of Ontario Hydro's performance in the absence of any public forum in which Hydro's capital expenditure plans can be scrutinized;

—the Government's commitment to the completion of the Darlington nuclear generating station in the face of growing evidence that it is not needed and widespread concerns about the vulnerability of a 70% nuclear system;

—the Government's blatant refusal to release information concerning the management of Ontario's forests at a time when the future of this resource is of such public importance;

And that for these reasons the Government now lacks the confidence of this House.

And a debate arising after some time the motion having been put was lost on the following division:—

The amendment to the amendment to the motion as follows:—

That the amendment to the motion be amended by adding after the word “recession”; and before the words “Therefore, this Government lacks the confidence of this House”:

Continuing the governments slavish adherence to the economic directions established by the Liberal government, policies which have resulted in the unemployment of hundreds of thousands of Ontarians;

Ignoring the overwhelming evidence of the budget's own figures that the private sector in general and private sector investment in particular are not leading us to economic recovery, yet cutting back on vital public investment in environmental protection, housing, health, social services, agriculture and the north;

Failing to introduce a major programme to assist the construction of co-operative and non-profit housing to create jobs and meet pressing needs for shelter;

Failing to respond to the unacceptable levels of unemployment among young people and women, with concrete proposals to create permanent jobs and comprehensive skills training programmes;

Failing to respond to the needs of older workers laid off or threatened by technological change by the establishment of a Workers' Training Fund, improved layoff and severance pay legislation and pension reform;

Increasing once again regressive OHIP premiums instead of shifting this unfair tax burden to an equitable tax source;

Failing to reform the funding of health care in Ontario by banning extra-billing and user fees;

Abdicating completely its responsibility for the economic well-being of Ontario's people through its failure to introduce any long-term investment proposals to plan for our future;

Having been put was lost on the following division:—

The amendment to the motion as follows:—

That, the motion be amended by deleting the words following “that”, and adding thereto the following :—

This House deeply regrets the 1983 budget fails to recognize the most serious and fundamental problems facing the Province of Ontario today and condemns the Government for:—

Ignoring the continuing plight of the more than half-million unemployed Ontarians, neglecting in particular the desperate prospects faced by hundreds of thousands idle Ontarian youth, by refusing to introduce any serious long-term job creation programmes nor any significant job training proposals;

Ignoring the serious structural economic deficiencies plaguing Ontario’s industrial infrastructure, neglecting in particular the need for a sound and thoughtful vision of Ontario’s economic future for the rest of the nineteen-eighties and beyond, relying instead on short-term and short-sighted band-aid measures;

Introducing yet another series of inequitable and unfair tax increases, and at the same time increasing the provincial deficit, thus punishing the citizens of Ontario for such wasteful Government excesses such as the Suncor purchase, the landbanks, Minaki Lodge, Government advertising, Government polling and the practices of Ontario Hydro, among others;

Ignoring or reducing the provincial commitment to such important sectors of our economy such as agriculture, tourism and the auto sector;

Threatening our social services with the prospect of cutbacks while a plethora of Government excesses continue to be funded;

Ignoring or reducing the provincial commitment to Northern Ontario and environmental protection in this province;

Ignoring the crucial issue of productivity across all sectors of our economy;

Producing a budget which is unfocussed, without direction, contradictory in its proposals and offering little hope for the thousands of Ontarian citizens suffering during the current recession;

Therefore, this Government lacks the confidence of this House.

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

The priorities of this Government during this Third Session of the Thirty-Second Parliament of Ontario have been the restoration of economic prosperity and the enhancement of the services available to our citizens.

The 1983 Budget introduced a number of job creation, job training and capital works programs with particular attention being directed towards the provision of employment opportunities for the young men and women of Ontario. A number of tax measures were also implemented to increase the investor confidence and consumer spending required to sustain the return to economic well-being. Such measures include the extension of the small business tax holiday from Provincial corporate income tax, expanded exemptions from retail sales tax to encourage investment in production facilities and the 90-day tax exemption for the purchase of household items. Through these measures, our economy has strengthened considerably as exemplified by the fact that there are now 196,000 more Ontarians employed than there were in November 1982.

Demonstrating its long standing commitment to fiscal responsibility, the Government continued its public sector wage and price restraint policies for an additional year. These efforts, together with the self discipline which has been practised since 1975, have enabled the Government to weather recent uncertainties without sacrificing the social services which Ontarians have striven to establish and maintain.

Indeed, a number of additional services and measures which reflect my Government's continued emphasis on social justice, were introduced during the session now

ending. Such initiatives include the appointment of a Minister Responsible for Women's Issues, the establishment of the Ontario Women's Directorate, the appointment of a Provincial Co-ordinator of Family Violence Initiatives, the nomination of a respected human rights advocate to the position of Ombudsman, an increase in the minimum wage and improvements to Ontario's income support programs.

Honourable Members, I commend your sense of duty and the progress you have achieved. In closing may I take this opportunity to wish you a safe and pleasant holiday season.

Au nom de notre Souveraine, je vous remercie.

In our Sovereign's name, I thank you.

Je declare cette session prorogée.

I now declare the session prorogued.

The Government House Leader then said:—

Mr. Speaker and Members of the Legislative Assembly:—

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
