EXPLANATORY NOTE

The Bill enacts the *Stopping Illegal Handgun Smuggling Act, 2024*. The Act requires the Minister to develop an illegal handgun litigation plan in consultation with specified communities and professionals. In developing the plan, the Minister is required to undertake research on various matters, including the entry of illegal handguns into Ontario and the grounds for bringing legal action against gun manufacturers that manufacture handguns in the United States of America. Depending on the results of the research, the Minister may be required to take steps to commence such legal action and, if the Minister considers it in the public interest to do so, to develop legislation.

An Act to enact the Stopping Illegal Handgun Smuggling Act, 2024

Preamble

Handgun crime is a real and growing problem across Ontario. The availability of illegal handguns has led to many tragedies across the Province. These illegal handguns manufactured in America show up on Ontario streets leading to gun and gang violence. In 2018, approximately 70 per cent of all guns seized by the Toronto Police Service were sourced from the United States of America.

Canada and Ontario spend millions of dollars each year to stop the smuggling of guns into Canada and to find and seize illegal guns already in the country. The Mexican government is presently engaged in legal action against American gun manufacturers who the Mexican government alleges are knowingly involved in practices that result in large numbers of guns showing up in Mexico despite the aggressive gun control regime in that country. If similar practices are feeding the smuggling of handguns into Ontario, the Government of Ontario should consider following the example of the Mexican government.

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:
